**LIGHT DUTY TRUCKS AND SPORT UTILITY VEHICLES – 2009 MODEL YEAR  
(Statewide)**

---

**GENERAL INFORMATION**

SAM 2 User Note: The state agency user will note that not all line item numbers on this notice and on SAM 2 are consecutively numbered. This is because the numbering herein follows the numbering from the RFP, which will also be the numbering the contractor will use for invoicing. For reasons of consistency between the bid document and the contract, the line items herein follow the bid even though they are not consecutive. SAM 2 line item numbering should match numbering on this statewide notice.

Vehicle specifications and prices, including options, are included herein.

**WARRANTY**

The Standard Factory Warranty shall apply to all vehicles. A properly executed warranty must be delivered with the vehicle. The warranty shall not become effective until the unit is placed in service.

**ORDERING**

Note to State Agencies: Prior to making a vehicle purchase, the state agency must complete a vehicle pre approval form and submit to Cindy Dixon, State Fleet Manager. The pre-approval form can be found at the following website address:

<http://www.oa.mo.gov/gsfm/vehiclepreapproved.htm>

Once the state agency receives approval from the State Fleet Manager, the agency shall issue its own PGQ (Quick Price Agreement) order. The contractor must not ship until they are in receipt of a hard copy PGQ order.

The commodity service code to use for alternative fuel vehicles in SAM 2 will be 07007.

The commodity service code to use for all regular fuel vehicles in SAM 2 will be 07048.

**DELIVERY**

Must be made between the hours of 8:00 AM and 12:00 Noon or 1:00 PM and 4:00 PM, Monday through Friday, holidays excepted.

The contractor should contact the state agency at least 24 hours prior to making delivery. This will allow the state agency to make arrangements for personnel to accept delivery.

In the event the contractor fails to deliver the vehicle by the stated ARO time, the State of Missouri reserves the right to find the same or similar vehicle from another source, and to charge the contractor the difference for the substitution. The State of Missouri reserves the right to exercise this clause on a case-by-case basis, and to consider the degree of contractor responsibility in the delay.
