Recycling Benefits Heating Assistance Program

Excess revenues from the sale of recyclable materials are transferred to the Heating Assistance Program managed by the Department of Social Services pursuant to RSMo 34.032. The Heating Assistance Program (HAP) - also known as Utilicare - provides financial assistance to low-income Missourians for heating their homes during winter months. The MSRP has transferred a total of **\$215,000** to the HAP since 1995.

As a result of state employee recycling efforts, the MSRP was able to make a **\$30,000** contribution to the HAP in FY08. The \$30,000 transferred to the HAP in FY08 will help approximately 150 households in Missouri to pay their heating bills.

Fiscal Year 2006-2008 Recycling Monies Transferred to the Heating Assistance Program
