

Single Feasible Source Purchase

Title: Maintenance & Support for Chicago-Soft MVS/Quick-Ref Software

Description: The Missouri Information Technology Services Division has an ongoing need for maintenance support for their existing Chicago-Soft MVS/Quick-Ref software that is currently maintained and supported under contract C212056001. The software is owned by and is proprietary to Chicago-Soft.

The State intends to acquire the above-mentioned services via a single feasible source procurement with Chicago-Soft, the manufacturer / owner of the software, since there are no other sources available to meet the specific needs of the state.
