Department of Mental Health Fiscal Year 2016 Budget OVERVIEW

Background

Throughout the years, the Department of Mental Health has sought to improve the condition of persons with mental illness, developmental disabilities and alcohol and substance use disorders. Created in 1945, the Department operates under the statutory authority of Chapters 630, 631, 632, and 633 RSMo. Our mission is working side by side with individuals, families, agencies and diverse communities. The Department of Mental Health establishes policies. standards and quality outcomes for prevention, education, habilitation, rehabilitation and treatment for Missourian's challenged by mental illness, substance use disorder and developmental disabilities. The Department implements policy and programs through two program divisions - Behavioral Health and Developmental Disabilities. Services are provided through an array of community-based programs and outpatient clinics, inpatient hospitals, long-term rehabilitation centers and habilitation centers. The Department operates under the advice of a seven member Mental Health Commission appointed by the Governor.

The Department employs approximately 7,256 full-time employees in regional offices and centers, rehabilitation hospitals and habilitation centers, and central administrative offices. These employees, combined with the over 1,500 DMH contract providers, serve more than 170,000 Missourians and their families each year.

How Dollars Are Spent and Collected

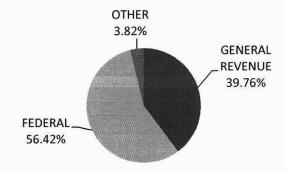

As an executive agency, the Department relies on funding recommended by the Governor and approved by the Missouri General Assembly. The Department's FY 2016 budget is approximately 8.2 percent of total state General Revenue operating funds, excluding refunds.

The FY 2016 appropriated total operating budget for the Department of Mental Health is \$1.84 billion.

Department of Mental Health Fiscal Year 2016 Budget OVERVIEW

The Department relies on state General Revenue funds, Federal funds, and Other funds to meet the needs of its consumers. The majority, 56.42 percent, of the Department's FY 2016 budget is from Federal funds, and 39.76 percent is from state General Revenue. Other funds comprise 3.82 percent of the Department's FY 2016 budget and include the Compulsive Gamblers Fund, Mental Health Earnings Fund, Mental Health Trust Fund, Debt Offset Escrow, Health Initiatives Fund, Mental Health Inter-Agency Payment Fund, Healthy Families Trust Fund, Inmate Revolving Fund, Mental Health Local Tax Match Fund, Tax Amnesty Fund and the Mental Health Intergovernmental Transfer Fund.

DEPARTMENT OF MENTAL HEALTH

Senate Bill 367, passed in the 2005 legislative session, allows employees providing direct client care in state institutions that are operated 24 hours a day, 7 days a week to request payment in lieu of compensatory time off. These requests may be made and must be paid each month. This includes federal, state, and holiday time. Additional funding is needed to meet the legislative requirements for overtime pay.

2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Statute mandates that certain fees and costs for involuntary civil detention proceedings for an individual who presents a likelihood of harm due to a mental illness or substance use disorder be paid by the State (Sections 56.700, 57.280, 488.435, 630.130, 632.415, RSMo.)

It is required that reasonable attorney fees and costs be paid in involuntary civil detention hearings when the court has determined that the individual is unable to pay. In addition, sheriff mileage fees for executing a court warrant for civil involuntary detention proceedings are considered court costs and are reimbursed at the rate set by the Internal Revenue Service.

5. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

5a. Provide an effectiveness measure.

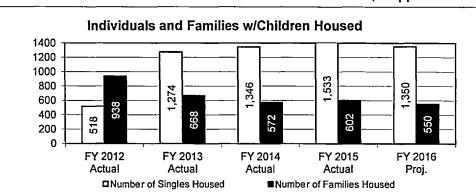

Note: The projected 88% for FY16 and FY17 is the target set by HUD. DMH's FY14 and FY15 actual percentages exceeds HUD's projection.

5b. Provide an efficiency measure.

5c. Provide the number of clients/individuals served, if applicable.

Available units go to the next household on the wait list; therefore, the number of singles housed and the number of families housed will fluctuate from year-to-year according to who is next in line on the list.

Housing for Veterans, appropriation 2781, needs \$285,000 in additional Federal authority to support the program and fully expend grant awards. The Department of Mental Health (DMH), in collaboration with the St. Patrick Center, utilizes federal grant funding to provide for housing and other supportive services in the St. Louis area. DMH contracts with the St. Patrick Center to provide transitional housing for 24 months and an array of support services including intake and assessment, intensive case management, mental health and substance abuse services, job skills training, independent living skills training, homeless employment assistance, transportation assistance, and outreach.

The IGT/DSH Payments transfer appropriation (T159) is projected to have a shortfall of \$8,700,000. This non-counted transfer appropriation provides an accounting mechanism to reconcile disproportionate share payments for CPS psychiatric hospitals, Community Psychiatric Rehabilitation (CPR) and Comprehensive Substance Abuse Treatment and Rehabilitation (CSTAR) as required by the Centers for Medicare & Medicaid Services (CMS).

The IGT DMH Medicaid transfer appropriation (T545) is projected to have a shortfall of \$8,700,000. This appropriation transfers state match received from the Department of Social Services into General Revenue to reflect a non-counted transfer from DSS back to GR. This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services.

Additional authority in the amount of \$125,000 is requested in the Mental Health Trust Fund, appropriation 9096. This authority will allow the Division of Developmental Disabilities (DD) to fully expend monies received from non-governmental, not-for-profit entities for the provision of DD services.

Additional authority in the amount of \$804,708 (\$530,024 - appropriation 6678 and \$274,684 - appropriation 6679) is requested in Federal and \$468,000 (\$308,250 - appropriation 3766 and \$159,750 - appropriation 3767) is requested in Mental Health Local Tax Match Fund to expand DBH partnerships with Cape Girardeau and Ste. Genevieve Counties to improve service outreach and points of access for Community Psychiatric Rehabilitation (CPR) and Targeted Case Management (TCM) services.

Additional authority in the amount of \$800,000 is requested in the Mental Health Trust Fund, appropriation 4137, to expend donations already received and to be used by Marshall/Northwest Community Services to purchase necessary items to support consumers.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DEPARTMENT REQUEST:

Not applicable.

GOVERNOR RECOMMENDS:

An updated FMAP rate was acquired after the Request cycle, therefore corresponding changes were made in the Governor Recommends cycle. The blended FMAP rate will decrease in FY 2017 from 63.323% to 63.228% which will require an increase in GR match funding and corresponding decrease in the federal authority in the appropriate sections utilizing MO HealthNet funding.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriated amount for the Fiscal Year 17 pay plan was based on two percent of the core personal service appropriations.

1. What does this program do?

The Office of Director, with the advice of the Mental Health Commission, is responsible for the overall operations of the Department of Mental Health, its two clinical divisions and their facilities, one administrative division, support offices, and central office. The director's duties include planning, supervising, and evaluating the provision of mental health services for Missourians with mental disorders, developmental disabilities, and substance use disorders.

The Director's Office has a leadership role in the Department's efforts to establish state policies, standards, and outcomes for state programs that affect mental health. The Director's Office is active in the development of policies and standards in MO HealthNet and insurance as these relate to the population served by the Department. The Department of Mental Health will also work with other agencies to define target populations, develop interagency agreements, needed legislation, and interagency funding strategies in collaboration with local entities and consumers.

The Mental Health Commission, composed of seven members, appoints the director of the Department of Mental Health with confirmation by the state Senate. Commissioners are appointed to four-year terms by the Governor, again with the confirmation of the Senate. The commissioners serve as principal policy advisers to the department director.

The Commission, by law, must include an advocate of community mental health services, a physician who is an expert in the treatment of mental illness, a physician concerned with developmental disabilities, a member with business expertise, an advocate of substance use disorder treatment, a citizen who represents the interests of consumers of psychiatric services, and a citizen who represents the interests of consumers of developmental disabilities services.

Senate Bill 367, passed in the 2005 legislative session, allows employees providing direct client care in state institutions that are operated 24 hours a day, 7 days a week to request payment in lieu of compensatory time off. These requests may be made and must be paid each month. This includes federal, state, and holiday time.

In FY 2008, a department wide overtime pool was created for greater flexibility across all facilities to meet the legislative requirements for overtime pay. To ensure payments are made as required, one-half of the new funding received in FY 2007 in each direct facility appropriation was reallocated into this new department wide HB Section.

2. CORE DESCRIPTION

In FY 2007, IT funding was consolidated within the Office of Administration. One of the positions transferred to Office of Administration/Information Technology Services Division (OA/ITSD) is supported through federal earnings. Further, OA/ITSD and DMH will occasionally coordinate special IT projects that require additional funds to be transferred to OA/ITSD. An appropriated transfer section is needed to provide the mechanism to transfer DMH federal funds to OA/ITSD on an annual basis.

2. CORE DESCRIPTION

This core funding will allow for training needed for Direct Care staff and will also provide maintenance costs for the Network of Care information and eLearning web-site.

Recent surveys of direct care and regional center staff and an assessment of DMH training/workforce development needs indicates that staff training and development is not adequate and has negatively impacted the department's ability to: (1) provide quality care and services; (2) recruit and retain qualified personnel; (3) develop successful leaders, managers and supervisors; and (4) improve and sustain operational effectiveness and efficiency.

Increased and ongoing investment in staff training and development is critical to:

- Ensuring the safety of consumers and employees;
- Providing meaningful treatment and support of consumers with aggressive behaviors;
- Providing meaningful treatment and support of consumers with complex and co-occurring medical, developmental, psychiatric and substance use disorders;
- Meeting licensing and accreditation requirements;
- Meeting state guidelines for supervisor and management training; and
- Improving service delivery through the use of new, complex technology and data systems.

1. What does this program do?

This program supports training and staff development strategies for Department of Mental Health (DMH) staff and community providers which:

- > Improves direct care staff skills and competencies for active treatment through training in best pratices of client and consumer safety;
- > Establishes consistency in training on best practices of client and consumer safety for DMH employees and employees of other service providers (e.g. Senate Board 40s);
- > Increases supervisory skill sets to provide effective supervision through hands-on, accountable oversight, and coaching of the direct care workforce; and
- > Provides continuing professional education resources to demonstrate DMH commitment to talented and qualified clinical staff who want to make a career in public sector mental health.
- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

 Not applicable.
- 3. Are there federal matching requirements? If yes, please explain.

No.

4. Is this a federally mandated program? If yes, please explain.

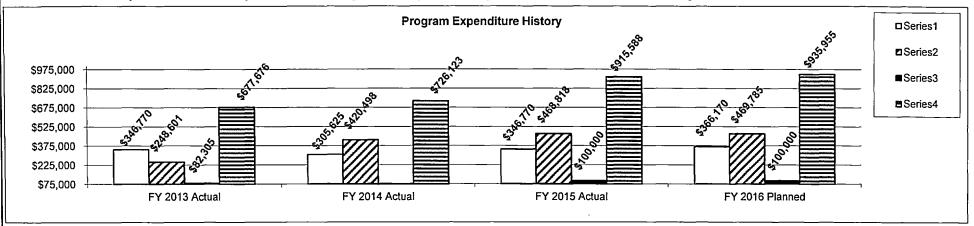

No.

Department: Mental Health

Program Name: Staff Training

Program is found in the following core budget(s): Staff Training

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

Mental Health Earnings Fund (MHEF) - 0288.

7a. Provide an effectiveness measure.

In FY 2015, DMH designated a total of 12 courses as department and division-wide Consumer Safety Training programs. The courses are required under accreditation, certification, or department operating regulation. Employees are assigned to multiple courses out of the 12 different course mixes, depending on their job responsibilities and patient care contact. The effectiveness measure is a post-test, where the employee demonstrates knowledge of program material and application. Employees are required to pass the post-test for each program. The programs are reviewed and revised annually and then assigned to employees each calendar year. In addition to the 12 department and division-wide safety programs, DMH facilities have established over 1,200 additional active courses maintained through the electronic learning system. By the end of FY 2015, there were a total of 192,426 successful course completions distributed between department, division, and facility based programs.

7b. Provide an efficiency measure.

DMH continues to utilize an electronic learning management system, Missouri Employee Learning System (MELS), which is currently being internally administered and maintained by DMH and ITSD staff. The operation and maintenance of the MELS system is funded through the Safety Training appropriation. On average, a DMH employee is required to take 12 courses annually. These department and division-wide safety programs ensure the department and its facilities' employees hold a measure of competency within their work environment. Midway through FY 2015, DMH decided not to renew the vendor's contract for the MELS system and is now maintaining the system internally. As a result, the cost to maintain MELS is minimal. The on-line courses continue to be made available on all shifts and assigned as workload permits, so not only is there a significant cost savings when compared to external training vendors, but MELS also allows facilities to provide training in a more efficient manner. In addition, facilities are now utilizing in-house knowledge experts in the creation of trainings offering DMH workers more relevant trainings, further increasing overall efficiency and cost savings.

7c. Provide the number of clients/individuals served, if applicable.

By the end of FY 2015, there are currently 13,403 active accounts established in MELS for DMH employees. This figure includes active accounts established for Senate Board 40s, Office of Administration IT staff, contractors and volunteers.

7d. Provide a customer satisfaction measure, if available.

Not applicable.

2. CORE DESCRIPTION

The Department makes refunds for payments from third party payers from this appropriation. Mental health facilities may bill Medicare, MO HealthNet, private insurers and other financially responsible parties for client care. From time to time, facilities may overbill or collect duplicate payments from multiple payers. In these cases, it is necessary to pay refunds promptly. A separate appropriation is necessary so that these refunds will not adversely affect the facilities' operational appropriations.

In addition, a separate appropriation for the Debt Offset Escrow Fund allows the Department the ability to return inappropriately intercepted tax refunds to clear debts owed for services delivered in state-operated hospitals.

This appropriation allows the Department to accept federal grant funding that becomes available during a current fiscal year. Procedures consistent with the provisions of Section 630.090, RSMo are followed.

In order to maximize the federal funding received in a fiscal year, the Department needs to be able to accept and expend federal funding when it becomes available. The Department utilizes this appropriation to take advantage of federal grant opportunities in a timely manner. Federal funds received are used only for a given year and if the funding continues into the next fiscal year, a new decision item is requested. Section 33.812, RSMo requires that the Department submit all new grant applications to the Office of Administration, the Budget Committee of the Missouri House of Representatives, and the Appropriations Committee of the Missouri Senate for review before accepting the federal funding.

Center on the Social and Emotional Foundations of Early Learning (CSEFEL) Coaching. In Year 3, 13 coaches worked with 12 early childhood centers/family based homes to strengthen their ability to respond to the social/emotional needs of the children in their classrooms. Eight of the 12 centers/homes were located in the pilot area. A total of 26 classrooms received coaching with 36 teachers participating. The total number of children in the classrooms at the start of the initiative was 237, 130 of which were from the pilot area. The 13 coaches provided 213 coaching contacts throughout the duration of the initiative. While there were challenges with implementation of this initiative due to staff turnover and centers closing due to loss of funding, the initiative was well received by coaches and teachers. In interviews with coaches and teachers, both groups stated that classroom management skills improved as a result of the coaching, particularly by utilizing visual signage, songs, circle times, and lesson planning. They also felt that transitions had improved greatly by providing verbal clues to children (e.g. "4 minutes left").

Quantitative evaluation of coaching effectiveness was measured through classroom observation both at the beginning and end of the coaching sessions. Specific areas explored included classroom environment, teacher relationships with others and teacher responsiveness to their children's needs. Overall scores increased significantly for both pre-school teachers and teachers working with infants and toddlers.

<u>Building Bridges Conference.</u> Missouri Project LAUNCH implemented a one-day conference in partnership with the Missouri Chapter of the American Academy of Pediatrics. The conference aimed to enhance the knowledge base of pediatricians and other health care professionals as well as child care providers regarding toxic stress and screening and assessment. A total of 74 health care and child care providers participated in the conference. Increases were found in knowledge of early childhood development and toxic stress, child mental health and social-emotional development, available resources for providers and families, and the connection between social/emotional development and academic performance.

<u>Parent Cafés.</u> Parent cafes continued to be a strong component of Missouri Project LAUNCH in Year 3. In Year 3 there were 20 Parent Café Series held. In addition to holding cafés hosted by three organizations in the pilot areas, seven agencies in Kansas City, Springfield, Joplin, Boone County, and McDonald County also hosted parent cafés. A total of 783 individuals participated in the cafés. Most (558) were new to Parent Cafés and 99 came to all three sessions in the series.

There was overwhelming enthusiasm toward the parent café program, with participants stating that they felt encouraged, inspired, strengthened and empowered. Analysis of change in caregiver resiliency, protective factors, hope and well-being showed a significant improvement in caregiver resiliency. Small positive effects were found in the area of family functioning and life satisfaction.

2. CORE DESCRIPTION

Federal regulations permit a Medicaid claim based on an established maximum calculation using Medicare rules. The maximum amount that could be paid is called the Upper Payment Limit (UPL). This authority provides the mechanism that allows the State of Missouri to capture additional federal funds from the UPL claim on the state-operated ICF/ID facilities (DD habilitation centers).

The Upper Payment Limit regulation was established in 1981 and was initially designed to:

- · Set a maximum cap/ceiling on payments to facilities;
- · Allow states the flexibility to pay providers differently accounting for higher costs;
- · Set reasonable rates that reflect the volume and costs of Medicaid services; and
- Ensure that safety net services would be sufficiently funded.

Federal Medicaid regulation (42 CFR 433.51) requires state and local governmental units (including public providers) to transfer funds to the Department of Social Services as the non-federal (state match) share of Medicaid payments to draw federal participation. These transfers are called intergovernmental transfers. This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services. Currently, the Department of Mental Health (DMH) utilizes an intergovernmental transfer (IGT) reimbursement methodology, where DMH serves as a provider of Medicaid services to the Department of Social Services for the ADA and CPS community providers. This core is to allow the Department of Mental Health (DMH) to deposit state match received from the Department of Social Services into DMH Federal Funds and then transfer these same funds into General Revenue to reflect a non-counted transfer from DSS back to GR.

2. CORE DESCRIPTION

This is an appropriated transfer section that allows for the movement of a portion of Disproportionate Share Hospital program (DSH) federal reimbursements to General Revenue.

The DSH program allows states to leverage additional federal funds intended to ease the burden of serving the underinsured. Under the DSH program, hospitals that serve a high proportion of MO HealthNet, low-income Medicare and uninsured patients are eligible for additional state payments, matched at the regular federal matching rate.

2. CORE DESCRIPTION

The Division of Alcohol and Drug Abuse (ADA) and the Division of Comprehensive Psychiatric Services (CPS) administratively merged in FY 2013 creating the Division of Behavioral Health (DBH). With regard to ADA services, DBH is responsible for ensuring that prevention, treatment, and recovery services are accessible to persons with substance use disorders, those at risk of substance misuse, and compulsive gamblers. In order to carry out its mission, ADA provides services to individuals through 190 community provider contracts, and treats about 53,000 individuals with substance use disorders each year. In addition, approximately 280,000 individuals are impacted through ADA's prevention programming, and 21,000 through the Substance Abuse Traffic Offender Program (SATOP). This core provides funding for personal services and expense and equipment for administrative staff who are essential in overseeing all statewide programs by establishing policies and procedures; monitoring, evaluating and providing technical assistance to a network of community providers; providing data analytics; and applying appropriate fiscal procedures to ensure financial accountability.

1. What does this program do?

The Division of Behavioral Health (DBH) has the responsibility of ensuring that prevention, treatment, and recovery services are accessible to persons with substance use disorders, those at risk of substance abuse, and compulsive gamblers. DBH's administrative responsibilities include, but are not limited to: funding services, technical assistance and training, standard setting to ensure quality services, research, public information dissemination, review and oversight of the Division's budget, and program planning and policy development for prevention, treatment, and recovery services.

Division administrative responsibilities include:

- Development and implementation of administrative standards and operating policies for all program areas. Standards and policies include guidelines for quality of care and quality improvement processes as well as client safety and clinical appropriateness.
- Development of curriculums and implementation of training modules for substance use disorder practitioners to ensure current evidence-based practices are implemented in Division programming.
- Monitoring, evaluating and providing technical assistance to its provider network to ensure services maintain the highest levels of quality programming.
- Maintaining a clearinghouse of research and literature for dissemination to its provider network and the general public on treatment and prevention practices.
- · Coordination with other state and federal agencies to ensure coordination of evidence-based prevention programming.
- Applying standardized management, fiscal, and personnel procedures and practices. Administrative oversight is provided for the budget, provider allocations, fiscal notes, and research and evaluation support. DBH applies appropriate financial procedures and provides the necessary data to support federal requirements necessary for maintaining funding.
- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

 Section 631.010 and 313.842 RSMo

Yes. The federal Substance Abuse Prevention and Treatment Block Grant requires that the state maintain an aggregate level of general revenue spending for treatment and prevention that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.)

The Division of Behavioral Health (DBH) contracts with community and school-based providers for substance use prevention and intervention services. Substance use prevention efforts are focused on individuals, peers, families, schools, and communities. DBH supports substance use prevention through community education and organization efforts of local volunteer coalitions through technical assistance and training. In addition, DBH supports implementation of evidence-based prevention programming, development of the prevention workforce, and dissemination of information statewide.

1. What does this program do?

School-based Prevention Intervention and Resource Initiative (SPIRIT) delays the onset of substance use and decreases the use of substances, improves overall school performance, and reduces incidents of violence. To achieve these goals, prevention agencies are paired with school districts to provide technical assistance in implementing evidence-based substance use prevention programming. SPIRIT currently operates in four sites serving six school districts across the state, including Carthage R-IX, Knox Co. R-1, New Madrid Co. R-1, Ritenour, Charleston R-I and Scotland Co. R-I.

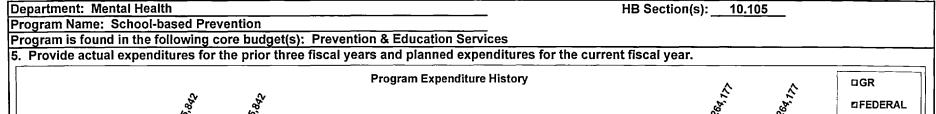

SPIRIT was selected by the Substance Abuse and Mental Health Services Administration (SAMHSA) to receive the national 2010 Service and Science award for exemplary implementation of evidence-based interventions. The evaluation results demonstrate that the program has had a positive impact on attitudes and behaviors of students, decision making skills, bullying, use of substances, age of first use, and overall school performance. School administrators cite SPIRIT as having positively impacted their students and schools. Recent research has concluded that every dollar invested in school-based substance use prevention programs potentially saves \$18 in substance use disorder costs (2013 National Drug Control Strategy).

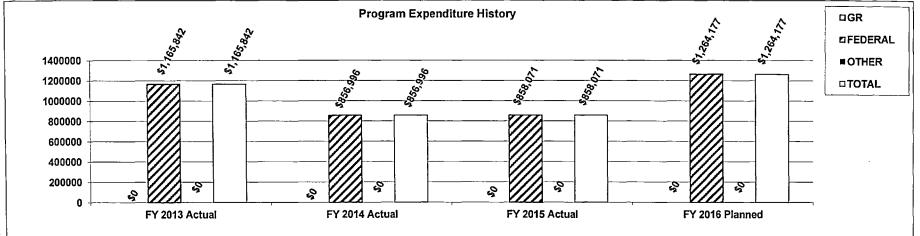

- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
 631.010 RSMo.
- 3. Are there federal matching requirements? If yes, please explain.

The federal Substance Abuse Prevention & Treatment Block Grant requires that the state maintain an aggregate level of general revenue spending for treatment and prevention that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.)

4. Is this a federally mandated program? If yes, please explain.

No. However, the Substance Abuse Prevention and Treatment Block Grant requires that 20% be expended for prevention activities, such as school-based prevention.

Note: In FY 2014, the SPIRIT contract between Swope Health Services at Hickman Mills School District in Kansas City and the Division of Behavioral Health (DBH) was terminated.

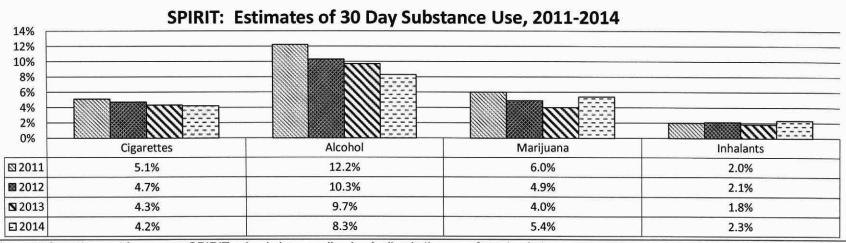

6. What are the sources of the "Other " funds?

7a. Provide an effectiveness measure.

Significance: Over the past four years, SPIRIT schools have realized a decline in the use of most substances.

7b. Provide an efficiency measure.

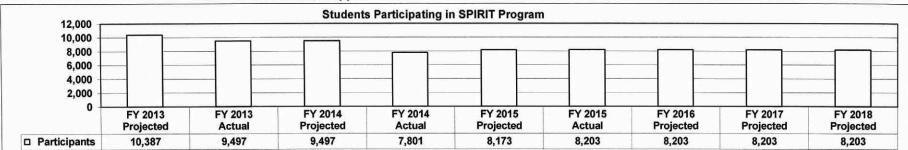

Note: Evaluation is conducted on participating students in grades 4 through 9 with parental consent.

Significance: The majority of program participants have chosen, along with parental consent, to participate in the program evaluation.

7c. Provide the number of clients/individuals served, if applicable.

Note: Includes Grades K - 12. The FY 2014 decrease in student participation was due to the initial phasing out of the SPIRIT program at Hickman Mills in Kansas City during FY 2013 and final phase out in FY 2014. The increase in the FY 2015 projected SPIRIT numbers is due to the addition of the services at the Scotland School District in Northeastern Missouri.

Significance: The SPIRIT program serves around 8,000 high-risk youth.

1. What does this program do?

Community-based prevention programs provide preventive interventions with children, families, and college students; training, technical assistance, and support for coalitions; prevention evaluation, research, and data analysis; public education and social marketing, and information and referral services. A Pew research report estimated that it costs \$250,000 per teen who becomes addicted (The Pew Center for the States, January 2011). Direct prevention services utilize evidence-based programs and strategies and conduct pre- and post-testing and/or evaluations. Regional Support Centers provide training, technical assistance and support to community coalitions across the state. There are over 160 Missouri registered coalitions. These coalitions have been highly successful in substance use policy change in their communities. High Risk Youth programs provide evidence-based prevention services to youth and families with high risk factors for substance use. These programs use curricula that have been rigorously evaluated and determined to be effective at preventing alcohol and other drug use. College Campus-based Programs are provided on 14 state-supported and 7 private institutions of higher education. These programs work toward reducing rates of harmful and dangerous drinking on campuses. Prevention Evaluation supports all prevention services through the provision of data for assessing prevention needs and program effectiveness. The Missouri Student Survey is included among the evaluation activities. The Behavioral Health Data Tool website provides users with the ability to access and analyze community-level data to support strategic planning and implementation of targeted interventions.

2. CORE DESCRIPTION

The Division of Behavioral Health (DBH) contracts with community-based providers for substance use disorder treatment services. DBH-funded services for individuals with substance use disorders are provided to priority populations including: Medicaid-covered individuals, pregnant women, offenders under the supervision of the Department of Corrections and drug courts, intravenous (IV) drug users, and people under civil involuntary commitment for danger to self or others.

Treatment sites are located across the state offering multiple levels of care in order to provide Missourians access to treatment. Services include detoxification, assessment, day treatment, individual and group counseling, family therapy, group education, physician services and medications, and community support. Residential support, the provision of 24-hour per day supervision and structure, is available as clinically appropriate. The goals of treatment include abstinence from alcohol and other drugs; eliminating criminal behavior; increasing productivity at work and school; securing stable housing; and increasing social connectedness.

There are two major program types: Primary Recovery Plus (PR+) and Comprehensive Substance Treatment and Rehabilitation (CSTAR). CSTAR is the only intensive substance use disorder treatment in Missouri reimbursed under Medicaid. The following programs for specialized populations are available under the CSTAR model: Women and Children, Adolescents, and individuals with Opioid dependence. There are also CSTAR programs for the general population. Additionally, Medically Monitored Inpatient Detoxification is available in some CSTAR programs, providing moderate medical support for those withdrawing from drugs and/or alcohol. DBH contracts with 17 primary recovery programs, 28 recovery support programs, and 67 CSTAR programs. One opioid program is operated directly by DBH. Treatment services at all programs are subject to clinical utilization review to promote service delivery that is necessary, appropriate, and provided in accordance with admission criteria and service definitions.

1. What does this program do?

Comprehensive Substance Treatment and Rehabilitation (CSTAR) programs offer a comprehensive array of individualized treatment services to Missourians with substance use disorders and their families. CSTAR features three levels of outpatient care that vary in duration and intensity, with specific services received based on individuals' needs. Persons may enter treatment at any level in accordance with eligibility criteria. Only substance use disorder treatment programs designated by the department as CSTAR are approved for reimbursement under MO HealthNet. Services at all CSTAR programs include assessment, individual and group counseling, group education, family therapy, counseling for family members, community support, as well as access to physicians, nurses and medication treatment services. Trauma counseling and co-occurring disorders counseling are available for individuals presenting with these mental health issues. Residential support is offered to individuals who need 24-hour supervision. Top priority for admission is given to pregnant, intravenous drug users because of the risk to unborn babies and public safety. CSTAR programs serve a large number of Missouri offenders with substance use disorders that are re-entering their communities following incarceration or are under probation supervision. Effective substance use disorder treatment for these individuals reduces criminal recidivism and promotes a productive and safe return to their communities.

- ~Specialized CSTAR programs for Women and Children offer priority treatment to women who are pregnant, postpartum, or have children in their physical care and custody. Depending on assessed needs, additional services may include daycare, residential support, and community support for young children that accompany their mothers into treatment. Treatment focuses on issues particularly impactful to women and mothers, such as developing job skills and establishing healthy, safe relationships. These programs have demonstrated clear success in assuring drug-free births to women enrolled, as well as assisting in the reunification of families that have had children removed from custody.
- ~Specialized CSTAR programs for Adolescents offer the full menu of treatment services, as well as academic education, to youth between the ages of 12 and 17 years.
- ~CSTAR General Population programs are intensive outpatient treatment programs for both men and women with substance use disorders. The full menu of treatment services is available.
- ~CSTAR Opioid treatment programs are federally accredited to provide services on an outpatient basis to individuals who demonstrate physiological dependence to heroin, oxycontin, and other narcotics. In addition to the full menu of treatment services, clients also receive medical evaluations, as treatment involves the use of methadone for medically supervised withdrawal from narcotics. Individuals are able to eliminate illegal drug use and maintain employment while receiving opioid treatment. In addition to pregnant women and intravenous drug users, priority admission is also afforded to persons who are HIV-positive.
- ~CSTAR Medically Monitored Inpatient Detoxification programs offer a moderate level of medical care to individuals whose intoxication or withdrawal symptoms are so severe that 24-hour inpatient care and monitoring is required; but the full resources of a hospital are not necessary.

- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

 RSMo 631.010 and 191.831
- 3. Are there federal matching requirements? If yes, please explain.

Some of the expenditures made are for MO HealthNet services requiring a match. In addition, the federal Substance Abuse Prevention and Treatment Block Grant requires that the state maintain an aggregate level of general revenue spending for treatment and prevention that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.)

4. Is this a federally mandated program? If yes, please explain.

Yes. The federal Substance Abuse Prevention and Treatment Block Grant requires provision of specialized programs for women and children.

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

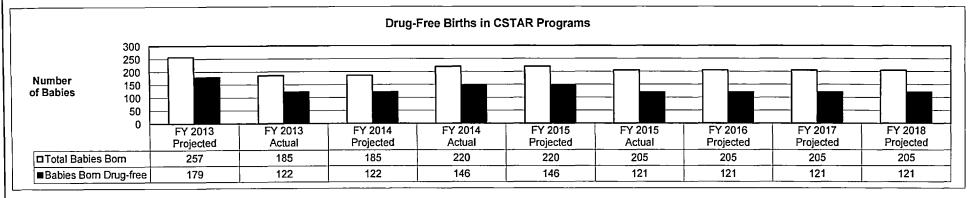

Note: Increase from FY 2013 to FY 2015 is due to the conversion of Primary Recovery programs to Comprehensive Substance Treatment and Rehabilitation (CSTAR) and new funding was received for Medicaid utilization increase.

FY 2016: Healthy Families Trust (HFT) (0625) \$1,969,327; Health Initiatives Fund (HIF) (0275) \$6,153,352; Mental Health Local Tax Match Fund (MHLTMF) (0930) \$767,775; Inmate Revolving Fund (IRF) (0540) \$3,408,366; Mental Health Interagency Payment Fund (MHIPF) (0109) \$30,000 and Tax Amnesty Fund (TAF) (0470) \$1,207,335.

7a. Provide an effectiveness measure.

Notes:

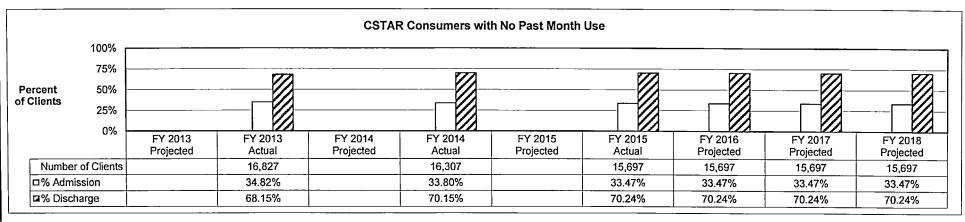

- 1) From FY 2012 through FY 2015 there have been 568 babies born drug-free. A total of 2,052 babies have been born drug-free since 1996.
- 2) The cost for one child with Fetal Alcohol Syndrome for health care and indirect costs, such as lost productivity, is \$1.8 million. (U.S. Department of Health and Human Services, National Institutes of Health, 2003)

Note: Since FY 2003, 2,112 children have been returned to their parent's custody from foster care. In FY 2015, the annual cost per foster child was \$8,670.

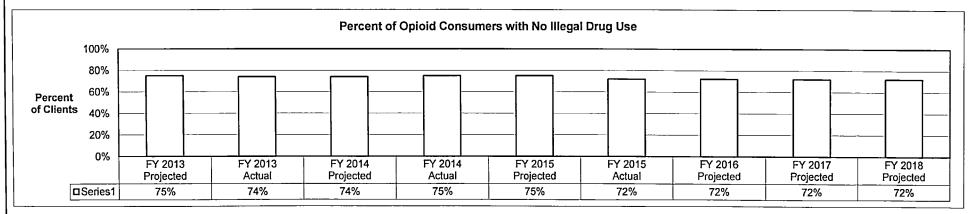

7a. Provide an effectiveness measure. (Cont.)

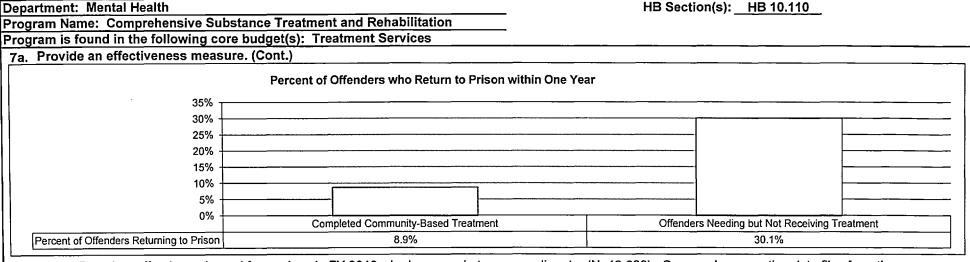

Note: No projections as measure is new in FY 2015.

Significance: Treatment improves substance use patterns for the majority of consumers.

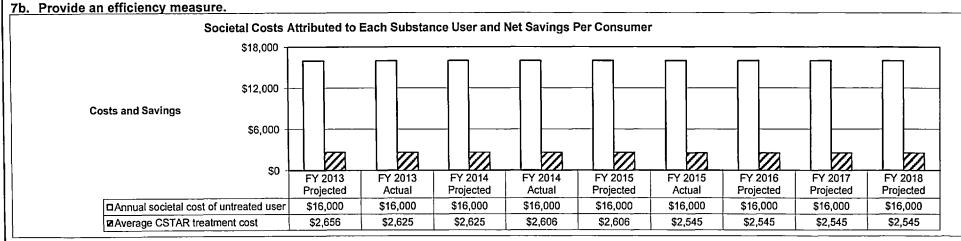

Note: Based on random drug tests.

Significance: The majority of individuals in the CSTAR Opioid program are able to abstain from illegal drugs.

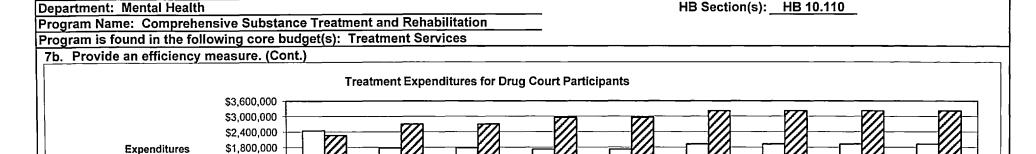

Note: Based on offenders released from prison in FY 2013 who have a substance use disorder (N=12,889). Source: Incarceration data files from the Department of Corrections.

Significance: Offenders who receive community-based treatment are less likely to return to prison compared to offenders who needed but did not receive treatment.

Note: Societal cost determined from Missouri's portion of national estimates (NSDUH, ONDCP, NIAAA).

1. What does this program do?

Primary Recovery Plus (PR+) substance use disorder treatment programs provide a continuum of care that includes social setting detoxification and outpatient services. These outpatient programs feature three treatment levels of care that vary in duration and intensity. Individuals may enter treatment at any level in accordance with eligibility criteria and individual need. Treatment services include assessment, individual and group counseling, group education, family therapy, case management, and participation in on-site self-help groups. PR+ programs also provide specialized services depending on the person's individual needs. Trauma counseling and co-occurring disorders counseling are available for individuals with these mental health issues. Additionally, medications, physician services, and nursing services are available to individuals for whom these clinical interventions are determined appropriate. Residential support is offered for individuals who need 24-hour supervision and structure.

Recovery Support services, funded through a federal grant (though limited to four regions in the state), supplement Primary Recovery programs and expand access to an array of supportive services that include employment assistance and emergency housing. Recovery supports are delivered by nontraditional and faith-based community organizations. The highest priority populations for the Division of Behavioral Health are pregnant women and intravenous drug users because of the risks to unborn babies and public safety. PR+ programs also serve a large number of Missouri offenders with substance use disorders that are reentering their communities following incarceration or are under probation supervision. Effective substance use disorder treatment for these individuals reduces criminal recidivism and promotes a productive and safe return to their communities.

- 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

 State: RSMo 631.010 and 191.831
- 3. Are there federal matching requirements? If yes, please explain.

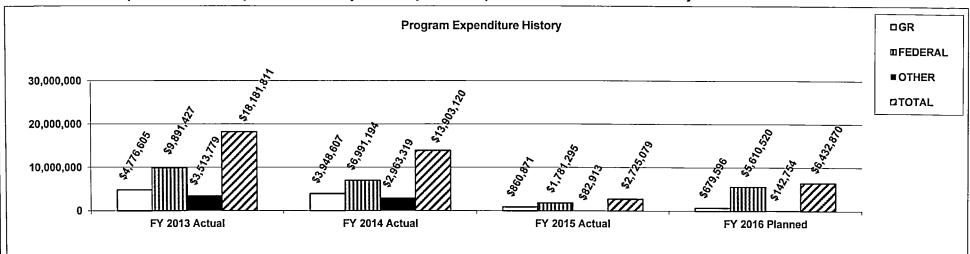

The federal Substance Abuse Prevention and Treatment Block Grant requires that the state maintain an aggregate level of general revenue spending for treatment and prevention that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.)

4. Is this a federally mandated program? If yes, please explain.

No. However, 70%-75% of the Substance Abuse Prevention and Treatment Block Grant funding is set aside for treatment services.

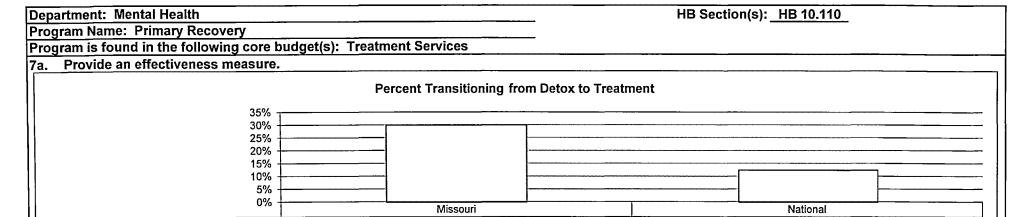

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

Note: The decrease from FY 2013 to FY 2015 is due to the conversion of Primary Recovery programs to Comprehensive Substance Treatment and Rehabilitation (CSTAR).

6. What are the sources of the "Other" funds?

FY 2016 Other includes Inmate Revolving Fund (IRF) (0540) \$105,413; Tax Amnesty Fund (TAF) (0470) \$37,341

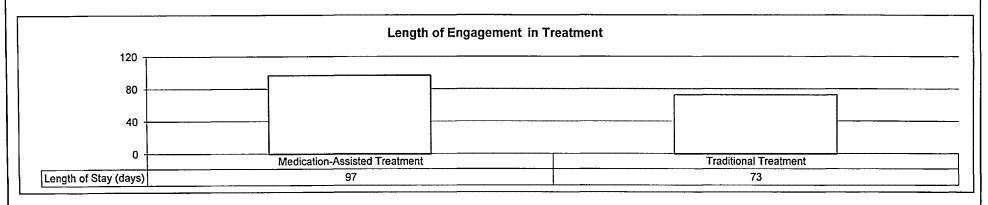

Note: National data from the Treatment Episode Dataset - Discharges, 2011 (SAMHSA, 2014).

Percent Transitioning from Detox to Treatment

Missouri data based on consumers who are discharged from detox in FY 2015 and are admitted to treatment within 5 days of discharge.

29.9%

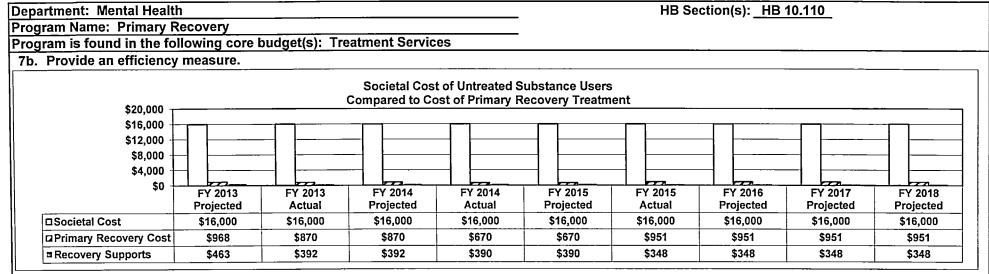

Significance: Studies confirm that providing access to treatment services immediately following detoxification for substance use disorder is critical to positive outcomes. This graph demonstrates that Missouri is doing significantly better than the national average in linking individuals from detox into formal treatment.

Note: Based on consumers discharged in FY 2015 who had alcohol or an opiate substance use disorder and had medication assisted treatment (n=146) or traditional treatment only (n=2,581).

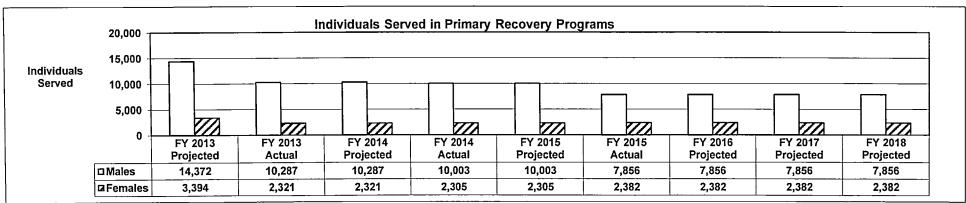

Significance: Research shows that when treating substance use disorders, a combination of medication and behavioral therapies is most successful (SAMHSA, 2014).

12.5%

Note: Societal cost determined from Missouri's portion of national estimates (NSDUH, ONDCP, NIAAA).

7c. Provide the number of clients/individuals served, if applicable.

Note: The decrease from FY 2013 through FY 2015 is due to the conversion of Primary Recovery Programs to the Medicaid reimbursable CSTAR program. The conversion of these programs allows the division to maximize service dollars for Medicaid eligible consumers.

The Division of Behavioral Health (DBH) administers community contracts for the professional treatment of individuals with gambling disorders and affected family members. Services include individual and group counseling, family therapy, financial planning and remediation, and referrals for legal assistance. Services are provided by a professional designated by the Missouri Credentialing Board with a Certified Gambling Disorder Credential (CGDC). DBH authorizes and monitors services provided by contracted agencies. Funding for the compulsive gambling program is supported through the collection of one cent of the admission fee from gambling boats.

NOTES:

- (1) The decrease in expenditures from FY 2013 to FY 2014 is due to a loss of compulsive gambling counselors within contracted provider agencies. As a result, fewer services were being provided.
- (2) The increase in expenditures for FY 2015 is due to an increase in consumers being served along with a provider rate increase.

1. What does this program do?

The Division of Behavioral Health (DBH) contracts with certified outpatient treatment agencies to provide treatment services for those with a gambling disorder and for family members negatively impacted by gambling. Prior to being admitted into a gambling disorder treatment program, an individual must be assessed and meet minimal admission criteria. Treatment services are individualized and based on clinical needs, with service utilization monitored by DBH. Services include individual and group counseling and family therapy. DBH partners with other stakeholders in the area of problem gambling to raise public awareness of the issue.

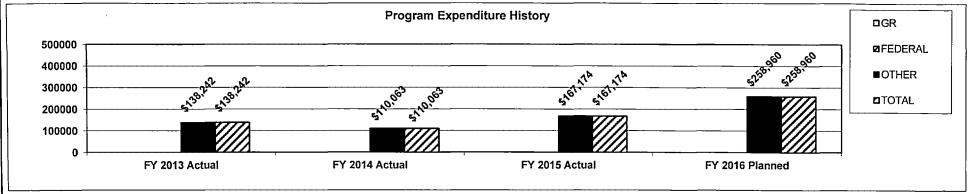

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Section 313.842, RSMo, authorized a fund to provide treatment services for compulsive gamblers and their families. The fund is supported through the collection of one cent of the admission charge from gambling boats as provided in RSMo, 313.820.

- 3. Are there federal matching requirements? If yes, please explain.
 No.
- 4. Is this a federally mandated program? If yes, please explain.

2. CORE DESCRIPTION

The Substance Abuse Traffic Offender Program (SATOP) is legislatively mandated for any person who has pled guilty or has been found guilty of impaired driving offenses, or for the offense of Minor in Possession or Abuse and Lose. Completion of a SATOP is a prerequisite to drivers' license re-instatement. SATOP incorporates education and treatment interventions at various levels of intensity based on an individual assessment, blood alcohol content (BAC) at time of arrest, driving record, treatment history, and prior arrest history. The Division of Behavioral Health (DBH) contracts with community agencies across the state for these services. Program sites include: 193 Offender Management Units (OMU), 169 Offender Education Programs (OEP), 99 Adolescent Diversion Education Programs (ADEP), 80 Weekend Intervention Programs (WIP), 133 Clinical Intervention Programs (CIP), 40 Youth Clinical Intervention Programs (YCIP), and 97 Serious and Repeat Offender Programs (SROP). The goal is to reduce impaired driving and increase public safety on Missouri's roadways.

1. What does this program do?

The Substance Abuse Traffic Offender Program (SATOP) is specifically designed to address the unique needs of impaired driving offenders and minors with a Minor in Possession or Abuse and Lose charge. Completion of a SATOP is a requirement by statute as a condition of license reinstatement. The program incorporates a comprehensive assessment to determine program placement into any of the four levels of education and/or treatment interventions. The placement of an offender is determined by several factors which include the individual's history of drug and alcohol use, Blood Alcohol Content (BAC) at the time of arrest, and their arrest and treatment history.

The Offender Education Program (OEP) and Adolescent Diversion Education Program (ADEP) are both 10-hour education courses designed specifically for first-time offenders who are considered to have a low risk of recidivism and a low need for clinical treatment services. The Weekend Intervention Program (WIP) is structured to provide 20 hours of education during a 48-hour weekend of structured activities. The Clinical Intervention Program (CIP) is a 50-hour outpatient treatment program designed for repeat DWI offenders considered to be at high risk for re-offending. GLOSSARY FUNDING SOURCES

<u>Abandoned Fund Account:</u> This fund collects moneys and other personal item dispositions and then transfers the cash to the Mental Health Trust Fund.

<u>Compulsive Gamblers Fund (CGF):</u> Section 313.842, RSMo., authorized a fund to provide treatment services for compulsive gamblers and their families. The fund is supported through the collection of one cent of the admission charge from gambling boats as provided in RSMo. 313.820. This fund receives its revenue by way of a cash transfer from the Gaming Commission Fund.

<u>Developmental Disabilities Waiting List Trust Fund (DDWLTF):</u> HB 631, 96th General Assembly, first regular session, allows the Division of Developmental Disabilities to receive monies designated on individual or corporation tax refund forms to serve individuals on the DD waiting list. The legislation also established a new fund in the state treasury to receive these funds. Proceeds collected as a result of the tax refund forms shall be deposited into the new fund.

Federal (FED): Authority is appropriated to accept funds coming to the Department from federal grant sources or Medicaid earnings.

General Revenue (GR): Missouri State revenues.

<u>Habilitation Center Room and Board Fund (HCRB):</u> This fund is for the receipt of room and board charges for residents of state habilitation centers.

Healthy Family Trust Fund (HFT): This is a State fund supported from tobacco funding awarded to the State of Missouri.

<u>Health Initiatives Fund (HIF):</u> This is a State fund established through the Griffin Health Care Access Bill which receives new revenues from cigarette tax.

ICF/IR Transfer Fund (ICF-IR): SB 1081, 94th General Assembly provides for the transfer of assessment revenues from providing services of intermediate care facilities.

Inmate Revolving Fund (IRF): The Inmate Revolving Fund was established in accordance with RSMo. 217.430. The sources of revenue for the fund are reimbursements from offenders participating in work release, electronic monitoring, and residential treatment facility programs and, per RSMo. 217.690, from the payment of a fee, not to exceed sixty dollars per month, from every offender placed under board supervision on probation, parole, or conditional release. Per RSMo. 217.430, the funds shall be used as provided by appropriation, to support offenders in education programs, drug treatment programs, residential treatment facilities, other community-based sanctions, electronic monitoring, or in work or educational release programs. RSMo. 217.690 further states that funds may be used for the costs of contracted collections services as well as to provide community corrections and intervention services for offenders. Such services include substance use disorder assessment and treatment, mental health assessment and treatment, electronic monitoring services, residential facilities services, employment placement services, and other offender community corrections or intervention services designated by the board to assist offenders to successfully complete probation, parole, or conditional release.

GLOSSARY FUNDING SOURCES

Inmate Revolving Fund (IRF) (Continued): The Department of Corrections currently charges a fee of \$30 per offender under community supervision but may waive all or part of that fee based on factors such as disability or inability to pay. DOC agreed on the \$30 fee with the bill's sponsors when the intervention fee went into effect, but they allowed for the possibility of raising the fee in the future. The Department of Mental Health/Division of Alcohol & Drug Abuse, in conjunction with the Department of Corrections, utilizes a portion of these fees for the following programs: Community Partnerships for Restoration (CPR), Treatment Resources Encouraging New Directions (TREND) and Southeast Missouri Treatment program (SEMO). The first two programs, CPR and TREND provide assessment, case management, substance use disorder treatment and employment placement for high risk offenders. The third program SEMO, provides substance use disorder counseling for high risk probationers who otherwise would be unable to afford the treatment. All three of these programs are important components of the Department's efforts to reduce recidivism.

Inter-Governmental Transfer Fund (IGT): This fund is only used when the Department makes an Upper Payment Limit (UPL) claim on the state-operated ICF/MR habilitation centers to draw down additional federal funds for the State. The UPL is a method of calculating a supplemental federal payment in the Medicaid program based on Medicare cost principles.

Mental Health Earnings Fund (MHEF): There are several sources of cash deposited to this fund. One source is from the ADA Counselor Certification Board and another is the Substance Abuse & Traffic Offenders Program (SATOP). These are basically self-funded programs where expenditures are limited to the amount of revenues brought into the fund. Other sources include enterprise operations where the Department is reimbursed by private entities for activities such as food service or Mental Health First Aid USA.

Mental Health Interagency Payments Fund (MHIPF): This fund provides the mechanism for cooperative agreements between various agencies and the authority to accept funding from another state agency or DMH facility as a result of providing a service to that agency. Appropriations from this fund are considered a "double appropriation" in the statewide budget. An example of interagency payments would include agreements with the Children's Division to provide residential care and recovery for youth who require DMH services.

Mental Health Trust Fund (MHTF): This is an appropriation account established by the legislature that allows individuals or organizations to contribute to the Department for clients or programs. Section 630.330 RSMo. creates this fund and authorizes the Department to take, receive, administer and hold in trust grants, gifts, donations, moneys escheated under section 630.320, devises or bequests of money or other personal property and funds from the sales of the facilities' commissaries or canteens. The fund has been used to carry out the objects for which the grants, gifts, donations, bequests, etc. were made or for purposes of funding special projects or purchasing special equipment.

Mental Health Local Tax Match Fund (MHLTMF): Authority has been appropriated to maximize local tax funds contributed to pay the State's share for Medicaid-reimbursable services (mill tax, children's tax).
