

## Single Feasible Source Purchase

**Title:** Bentley OS/OW System Upgrade and Non-CAD Product Licensing / Maintenance

**Description:** The Missouri Department of Transportation (MoDOT) requires upgrade of the Oversize/Overweight (OS/OW) module of their Motor Carrier Services (MCS) system. The OS/OW module is comprised of proprietary Bentley Systems' software which is only available from Bentley Systems. Likewise, the OS/OW upgrade required by MoDOT, including implementation and training services, is proprietary and only available from Bentley.

MoDOT also requires continuation of Bentley Systems' Non-CAD product licensing, maintenance and support services that are currently procured under Contract C213009001. The required product licensing, maintenance and support services are proprietary and only available from Bentley Systems.

As a result, the above requirements represent proprietary requirements that meets the criteria of a single feasible source under RSMo 34.044 and the State is pursuing as a Single Feasible Source (SFS) the additional renewal options to the current contract.

**Contract Period:** Current contract period renewed through October 31, 2017

**Renewal Options:** Additional Three (3) One-Year Renewal Periods beyond October 31, 2017

**Agency:** Office of Administration, Information Technology Services Division
