

Single Feasible Source Purchase

Title: MOBIUS Integrated Library Software Services

Description: The Missouri State Library requires consortial integrated library system (ILS) software services based on the Evergreen software platform in order to enhance resource sharing capabilities among Missouri's public libraries. MOBIUS has an established infrastructure for the ILS and has performed similar services for public libraries in the consortium. MOBIUS' Missouri-based infrastructure is proprietary and only available from MOBIUS. As a result, this represents a proprietary requirement that meets the criteria as a single feasible source under RSMo 34.044 and the State is pursuing this acquisition as a Single Feasible Source.
