

Single Feasible Source Purchase

Title: MoDEX System Maintenance / Support

Description: The Department of Public Safety requires ongoing maintenance and support of their MoDEX system which was developed by CODY Systems. As a result of the proprietary knowledge gained in developing the system, CODY is the only entity in an immediate position to provide system and interface maintenance support and further development. As a result, this represents a proprietary requirement that meets the criteria as a single feasible source under RSMo 34.044 and the State is pursuing this acquisition as a Single Feasible Source.
