

Single Feasible Source Purchase

Title: 7500 Fast Real-Time PCR System and MagMax™ Express Particle Processor

Description: The Missouri Department of Agriculture, Animal Health desires to acquire a 7500 Fast Real-Time PCR System and a MagMax™ Express Particle Processor via a single feasible source from Life Technologies. The 7500 Fast Real-Time is the only instrument that can test food pathogens and animal health/diseases in one unit. The MagMax Express performs nucleic acid isolation to validate food-borne pathogen and animal pathogen detection workflows certified by either AOAC, US FDA, and/or the USDA. These instruments are only available from Life Technologies.
