

Single Feasible Source Purchase

Title: Neometrics Software Maintenance

Description: The Missouri Department of Health and Senior Services (DHSS) requires ongoing software maintenance and support for Neometrics software for DHSS's existing Metabolic Screening Database System IV and Secure Remote Viewer software which are utilized for newborn screening services. Neometrics software maintenance is proprietary and only available from Neometrics. It is neither financially or operationally feasible to consider replacing the software as opposed to continuing with maintenance. As a result, this represents a proprietary requirement that meets the criteria of a single feasible source under RSMo 34.044 and the State is pursuing this acquisition as a Single Feasible Source.

Agency: Department of Health and Senior Services

Supplier: Natus

Buyer: Earl Pettit

Phone No: (573) 751-5430
