Program Name: Affordable Housing Assistance Tax Credit Program		
Department: Missouri Housing Development Commission	Contact Name & No.: Megan Word 816-759-6658	Date: January 2020
Program Category: Housing	Type: Tax Credit <input checked="" type="checkbox"/> Other (specify) _____	
Statutory Authority: Sections 32.105 - 32.125, RSMo	Applicable Taxes: Income Tax, Bank Tax, Financial Institutions Tax, Corporate Franchise Tax, Tax on Gross Receipts of Express Companies, Insurance Premium Tax	

Program Description and Eligibility Requirements:
 The Affordable Housing Assistance Tax Credit Program (AHAP) is an incentive for businesses and qualified individuals in Missouri to participate in the production of affordable housing for low-income families. The credit can be used by a business or qualified individual as a reduction in their state tax obligation. To receive the AHAP credit, a business or qualified individual must donate cash, professional services or real or personal property to a non-profit organization whose primary purpose is to provide affordable housing for low-income families.

Explanation of How Award is Computed: Entitlement _____ Discretionary
 The amount of Affordable Housing Assistance Program Tax Credit allocated is equal to 55% of the amount of the contribution. Non-profit organizations make application to the Missouri Housing Development Commission (MHDC) for a reservation of AHAP credit. The non-profit organization then solicits contributions from businesses or qualified individuals to assist in the production of a specific affordable housing development. After MHDC receives the necessary documentation of a qualified contribution to the non-profit organization that meets all of the criteria set out in the statute and program regulations, a tax credit is issued to the donor in the amount of 55% of the value of the contribution. Applications for production credits are accepted continuously, and applications for the operating credit set-aside are accepted twice a year.

Program Cap: Cumulative \$ _____ (remainder of cumulative cap) \$ _____ Annual \$ 11,000,000 _____ None _____

Explanation of cap:
 The cap on the Affordable Housing Assistance Program is set by statute at \$11 million annually of which \$10 million is for production credits and \$1 million is for operating credits. Once MHDC has made reservations totaling \$11 million in AHAP credit in a fiscal year, the application cycle is closed.

Explanation of Expiration of Authority: The AHAP program does not have a statutory sunset provision.

The Affordable Housing Assistance Program (AHAP) increases the availability of rental housing and for sale housing that is affordable to low-income families. Other benefits include the removal of blight in communities and increased local tax revenues such as property taxes. The AHAP credit increases the capacity of non-profit housing organizations to build or renovate affordable housing for low-income families. The AHAP credit increases the amount of disposable income for low-income families by providing housing that is affordable to them. This improves the overall quality of their lives by providing additional income for other basic necessities such as food, clothing, healthcare and education. Lastly, the operating AHAP credit helps organizations attract donations to support operating funds, without which the agencies may not be able to administer their affordable housing programs.

In FY-2019, every dollar of auth. program tax credits returns:

\$5.56 in new personal income totaling \$3.55 million
 \$9.21 in new value-added/GSP totaling \$5.87 million
 \$14.87 in new economic output totaling \$9.49 million

Over 12 YEARS, every dollar of auth. program tax credits returns:

\$1.20 in new personal income totaling \$4.82 million
 \$1.84 in new value-added/GSP totaling \$7.37 million
 \$2.93 in new economic output totaling \$11.76 million

PERFORMANCE MEASURE(S)

Number of Units by Housing Type

Comments on Performance Measure: The number of housing units produced is based on what is reported to MHDC by the non-profit sponsor of the development. Projects awarded AHAP credits may be awarded additional credits in succeeding years, however, these projects receiving AHAP credits are not counted as "new units". In this circumstance, MHDC places a new LURA on the units, extending the affordability period. In FY 2019, MHDC extended the affordability for 25 units.

Statutory Authority: 100.700 - 100.850, RSMo **Applicable Taxes:** Income Tax; Bank Tax; Insurance Premium Tax; Other Financial Institution Tax

Program Description and Eligibility Requirements:
 The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. All businesses that manufacture, process (including agricultural processing) or assemble products are eligible. Businesses that conduct research and development or provide services in interstate commerce are also eligible. Certain office industries are also eligible. A manufacturing business must invest a minimum of \$15 million and 100 new jobs. An office business must invest a minimum of \$10 million and 500 jobs. There are other factors.

Program Name: Missouri Low Income Housing Tax Credit Program						
Department: Missouri Housing Development Commission		Contact Name & No.: Megan Word 816-759-6658			Date: January 2020	
Program Category: Housing			Type: Tax Credit <input checked="" type="checkbox"/> Other (specify) _____			
Statutory Authority: Sections 135.350 - 135.363, RSMo			Applicable Taxes: Income Tax; Corporate Franchise Tax; Insurance Company Annual Tax on Gross Premium Receipts; Other Financial Institutions Tax; Express Company Annual Tax on Gross Premium Receipts			
Program Description and Eligibility Requirements: The Missouri Low Income Housing Tax Credit (MOLIHTC) is a ten-year state tax credit available to qualified owners of affordable rental housing. The MOLIHTC generates equity investments from the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. A qualified development is one that (i) rents at least 20% of its units to families earning 50% of the area median family income, (ii) rents at least 40% of its units to families earning 60% of area median family income, each adjusted for family size or (iii) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% AMGI. The development must (a) meet a demonstrated need for affordable rental housing in the community, (b) be economically feasible, (c) leverage tax credits with other financing, and (d) provide affordable rental housing for qualified low-income Missourians for an extended period of time.						
Explanation of How Award is Computed: Entitlement <input type="checkbox"/> Discretionary <input checked="" type="checkbox"/> The amount of the MOLIHTC allocated to a given housing development is directly related to the percentage of low-income housing units made available to qualified low-income families and the acquisition, construction or rehabilitation expenditures necessary to create the development, less land and non-depreciable costs. There are two types of MOLIHTCs: 9% and 4%. Developments compete annually for the 9% Missouri LIHTC. Developments receiving an allocation of tax-exempt bond-financing from the Department of Economic Development may apply to receive the 4% MOLIHTC						
Program Cap: Cumulative \$ _____ (remainder of cumulative cap) \$ _____ Annual <u>100%</u> of federal LIHTC for 9% and \$6 million for 4% None _____ Explanation of cap: The 9% MOLIHTC issued through the competitive application cycle is capped at 100% of the federal LIHTC or approx. \$2.76 per capita for 2019. The federal LIHTC allocation is temporarily increased pursuant to the Consolidated Appropriations Act 2018. The increase is in place for FYs 2018, 2019, 2020 and 2021. No more than six million dollars in tax credits shall be authorized each fiscal year for projects financed through tax-exempt bond issuance (4% MOLIHTC-RSMo 135.352). The MOLIHTC is taken annually over a ten year period. There are five year carry forward and three year back provisions.						
Explanation of Expiration of Authority: The MOLIHTC program does not have a statutory sunset provision.

HISTORICAL AND PROJECTED INFORMATION

Comments on Historical and Projected Information: 1) Historically, the amount of authorized and issued MOLIHTC has fluctuated based on the number and size of developments receiving an allocation of tax-exempt bond financing from the Department of Economic Development and therefore receiving 4% MOLIHTCs. No more than six million dollars in tax credits shall be authorized each fiscal year for developments financed through tax-exempt bond issuance (4% MOLIHTC - RSMo 135.352). Issued projections include current MOLIHTCs that have been Authorized but have not yet completed construction; the majority of credits are issued in years 2 and 3 after original Authorization. Redemption projections are based on a 3 year average and cannot precisely account for carry forward and carry back provisions nor the individual credit holder's decision on when to claim a particular credit.

Other Benefits: The MOLIHTC program delivers rental housing that is affordable to low-income families, veterans, special needs tenants, and seniors. It reduces blight and improves communities through new construction and rehabilitation of affordable rental housing in Missouri. The reduced rents brought about by the MOLIHTC program increases households' disposable income and allows low-income families, veterans, special needs tenants, and seniors to meet more of their other basic necessities such as food, clothing, education and health care. The subsidy provided by the MOLIHTC program makes it economically feasible to develop new or rehabilitated affordable rental housing in many very low-income rural communities in Missouri. Finally, the equity raised from the MOLIHTC helps preserve affordable rental housing that is in danger of being lost from existing stock.

MHDC did not Authorize any MOLIHTC in FYs 2018, 2019 and YTD FY 2020.

Program Name: Missouri Low Income Housing Tax Credit Program

PERFORMANCE MEASURE(S)

Number of Housing Units Produced or Preserved

Comments on Performance Measure: This performance measure reflects the total number of LIHTC housing units placed in service, or credits issued each year. Total number of units placed in service, or credits issued, each year varies - dependant on the applications received for consideration, the actual number of projects approved, and the type of projects approved (preservation or new construction). Authorized developments typically take 24 months to complete construction and submit cost certification documentation to MHDC; after which they are issued LIHTCs. No LIHTCs are issued by MHDC or eligible to be redeemed by a development owner until a development is completed to MHDC requirements and ready for leasing.

Permanent New Jobs Created

Comments on Performance Measure: FY2014 was the first year of the program.

The estimated number of jobs is the total projected for all projects for which DED issued benefits during FY17, FY18, and FY19. The actual number is the actual number of jobs reported by those projects issued benefits during FY17, FY18 and FY19. Companies have 2 years after authorization to create the statutory threshold number of jobs and ramp up over time. Many of the jobs estimated will be reported as actual in later years. The actual jobs numbers are totals for the projects to date. They are not net new for the year. These numbers do not include retained projects in the Retention category of the program.

Derivation of Benefits: Individuals claiming this tax credit are providing care for elderly persons who are not receiving state funded services. Without this private caregiver support, these elderly persons may need services such as personal care, homemaker, and respite care funded in part through Medicaid, Social Service Block Grant, or General Revenue. The indirect fiscal benefits are calculated based on the estimated number of elderly persons claiming the credit who are potentially Medicaid eligible, multiplied by the average cost of care for elderly persons receiving care through DHSS (67 total claimants x 21.49 [percent of persons over age 60 in Missouri] X \$4,230 [FY 2019 GR average cost of care] = \$60,905).

Direct Costs Footnote: Direct costs include the dollar value of tax credits redeemed (\$12,530) as well as the General Revenue cost for personnel (\$587) who respond to inquiries and register/confirm individuals within the program. (\$12,530+\$587 = \$13,117).

HISTORICAL AND PROJECTED INFORMATION

Comments on Historical and Projected Information:
 Typically only the companies domiciled in Missouri take this credit as it often results in an increase in retaliatory tax of that amount for foreign (non-Missouri based) insurers. Due to this only about 51% of examination costs are taken each year in tax credits. Consequently, the department believes most carry-over each year will eventually expire.

BENEFIT: COST ANALYSIS (includes only state revenue impacts)

	FY 2019 ACTIVITY	Other Fiscal Period (indicated time period)	Derivation of Benefits: In the state's 2010 (updated in 2012) Missouri Tax Credit Review Commission Report, this tax credit was considered a feature of Missouri's overall tax structure, rather than a true "tax credit" as that term is used to describe the state's various programs designed to provide an economic incentive or achieve a social outcome. In the report the credit's purpose was described as an attempt to equalize the burden on insurance companies, which, unlike other businesses when calculating income tax liability, cannot deduct certain fees and taxes as operating expenses when calculating their premium tax liability. The report stated that elimination or reduction of this credit would increase taxes on insurance companies above the taxes imposed on otherwise similarly situated industries.

BENEFIT: COST

Other Benefits:
Under Chapter 148.400, RSMo., insurance companies are permitted a tax credit for the costs of insurance examinations conducted by the department. Examination costs are business expenses that are similar to corporate expenses deducted when calculating income tax. Due to their tax structure, insurers account for operating expenses through a premium tax credit rather than an income tax deduction.

Historical Background:

In 2008, Lincoln Memorial, along with affiliates Memorial Service Life Insurance Company and National Prearranged Services (“NPS”) was placed in liquidation by the state of Texas. NPS was a Missouri domestic corporation and was formerly one of the largest sellers of preneed funeral contracts in the state of Missouri and nationally. Generally, under a preneed contract, the funeral director or preneed seller agrees to provide funeral services at a fixed or guaranteed price when the contract beneficiary passes away. Ideally, this may result in some savings to the purchaser who may be able to “lock-in” current prices even though the death may not occur for some significant time. Once the services are provided, the funeral director/provider is then reimbursed by the preneed seller for the funeral expenses. Historically, this reimbursement has included all or a portion of the interest that may have been earned on the contract. Under Missouri law, NPS was required to place 80% of all funds paid by consumers into a trust account with a financial institution. Frequently, these funds are used to purchase insurance coverage to guaranty payment of the funeral costs. According to information gathered by state regulators, NPS’ trust funds were depleted because of improper policy loans, insurance investments and potentially the misappropriation of funds by company representatives/shareholders. To the extent insurance coverage on a particular NPS contract was in place, the various state insurance

The business of insurance is primarily regulated by the states. Consequently, no federal mechanism exists to guaranty the payment of claims under insurance policies in the event an insurance company becomes insolvent. Instead, the states have taken on this role. Every state in the U.S. has enacted laws creating a life and health insurance guaranty association. In the event that a licensed insurance company becomes insolvent and cannot pay its claims, the various state guaranty associations step in and provide coverage for policy or claim up to prescribed limits. In Missouri, life and health policies are guaranteed between \$100,000 and \$500,000 depending on the type of coverage.

To get the money to pay claims for an insolvent company, the various guaranty associations are authorized by law to levy assessments against all of the other life and health insurance companies in the state. The insurance companies in Missouri are then allowed a tax credit against their premium tax liability for the amount of the assessment.

Department: State Tax Commission	Contact Name & No.: Stacey Jacobs 573-751-1716	Date: January, 2020
Program Category: N/A	Type: Tax Credit <input checked="" type="checkbox"/> Other (specify) _____	
Statutory Authority: Section 137.018.4	Applicable Taxes:	

Program Description and Eligibility Requirements:
 For tax year beginning January 1, 2009, a freight line company shall, subject to appropriation, be allowed a credit against the tax levied for the applicable year. The tax credit amount shall be equal to the amount of eligible expenses incurred during the calendar year immediately preceding the tax year for which the credit under this section is claimed. The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied under this section for the tax year for which the credit is claimed.

Explanation of How Award is Computed: Entitlement Discretionary _____

Private car ad valorem tax is assessed to the freight line companies by the following formula:
 The State Tax Commission determines the assessed value for freight line companies. The Tax Commission determines an average tax rate based on the actual taxes collected from the previous tax year paid by the operating railroads in Missouri. The tax rate is applied by the Tax Commission's calculated assessed value. This produces the "tax levied." This is returned to the Department of Revenue for central collection by October 1st and is due and payable by December 31st. For all taxable years beginning on or after January 1, 2009, a freight line company shall, subject to appropriation, be allowed a credit against the tax levied. The tax credit amount is equal to the amount of eligible expenses (eligible expenses are those incurred in this state to manufacture, maintain, or improve a freight line company's rolling stock) and are incurred during the calendar year immediately preceding the tax year for which the credit is claimed. The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied for which the credit is claimed. If the appropriation is not totally funded, each company would receive a pro-rata share (based on their claim to total claims).

Program Category: Domestic and Social			Type: Tax Credit <input checked="" type="checkbox"/> Other (specify) _____			
Statutory Authority: 135.550 RSMo			Applicable Taxes:			
Program Description and Eligibility Requirements:						
Allows a tax credit for taxpayers to apply to their state liability taxes in an amount not to exceed fifty percent of a contribution made to a qualifying domestic violence shelter. Contributions can include cash, stocks, bonds or other marketable securities, or real property, with a value of one hundred dollars (\$100) or more.						
Explanation of How Award is Computed: Entitlement <input checked="" type="checkbox"/> Discretionary _____						
Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible contribution to a qualified domestic violence shelter. Contributions must have a value of at least \$100 (\$50 tax credit) and can not exceed \$100,000 (\$50,000 tax credit) per taxpayer during any fiscal year. Eligible tax credits can not exceed the taxpayers state income tax liability for the year the credit is claimed.						
Annually, shelters must submit an application to be classified as a qualifying agency to receive donations eligible for the Domestic Violence Shelter Tax Credit. At least quarterly a review is conducted to determine the cumulative amount of approved tax credits. If a domestic violence shelter fails to use all, or some percentage of its apportioned tax credits during a predetermined period of time, the unused tax credits may be reapportioned to those domestic violence shelters that have used all, or most of their apportionment. Reapportionment may occur more than once during a fiscal year, to the maximum extent possible, to ensure that taxpayers can claim all the tax credits possible up to the cumulative amount of tax credits available for the fiscal year.						
Program Cap: Cumulative \$ _____ (remainder of cumulative cap) \$ _____ Annual \$2,000,000 None _____						
Explanation of cap: Annually the \$2 million is allocated to those qualifying domestic violence shelters that have submitted an application and supporting documentation to the Department of Social Services.
