

STRONGER TOGETHER

MOStopsCovid.com

Greetings team members,

As many of us continue to adjust to our pre-COVID-19 work settings, we want to continue to communicate and provide helpful information. Last week, we sent out a voluntary survey about child care services for state team members. We want to thank everyone who participated in this survey. For team members who are still looking for access to child care, please see the resources below.

Department of Health & Senior Services offers a few resources under [the child care section of their website](#). Here you can find an online listing of all licensed and license-exempt providers throughout Missouri.

In addition, the Department of Social Services offers a [Missouri Resource Guide](#) that offers a variety of resources available to help support Missouri parents.

[Missouri Services Navigator](#) is an online system where citizens can search for programs and services across the state of Missouri. Here you can also find child care [listings](#).

For state employee who are enrolled in [MCHCP](#) health insurance, there is a [SELF program](#) that has a family research team that will help employees look for day care options. Team members also have the ability to make mid-year elections for the Cafeteria plan through [MoCAFE](#).

I want to thank each of you for the contributions you continue to make every single day. Even before the pandemic began, I have always been encouraged and inspired by your desire to serve others.

Thank you for your continued partnership in improving the lives of our Missouri citizens.

Sincerely,

Sarah Steelman

Commissioner

Office of Administration
