## INSTRUCTIONS AND INFORMATION

### 1. GENERAL INFORMATION

- MissouriBUYS: Catalogs will be established in the near future. Make sure you are using the correct option line for the vehicle being purchased. If using off-catalog, please enter the contract number first and none of the other information first. Otherwise the contract number will be removed by the system and the request will be have to be deleted and a new one created so the contract number will be tied to the order.
- SAM 2 User Note: The state agency user will note that not all line item numbers on this notice and on SAM 2 are consecutively numbered. This is because the numbering herein follows the numbering from the RFP, which will also be the numbering the contractor will use for invoicing. For reasons of consistency between the RFP document and the contract, the line items herein follow the RFP even though they are not consecutive. SAM 2 line item numbering should match numbering on this statewide notice.
- Vehicle specifications and prices, including options, are included herein.
- Awarded Line Items and Primary/Secondary/Tertiary
  - In the event of multiple contract awards for a vehicle class, the state agency shall contact the primary contractor (lowest and best) for each base vehicle first within a vehicle class. If the primary contractor cannot provide the required product for reasons such as order cutoff with no rollover option or extended delivery timeframes, or documented business case approved by the fleet manager and Division of Purchasing, the state agency shall contact the secondary contractor (second lowest and best) within the vehicle class. Additionally, if the secondary contractor cannot provide the required product for the reasons listed above, the state agency shall contact the tertiary contractor (third lowest and best) within the vehicle class. The primary, secondary, and tertiary contractor shall not be the

same manufacturer (e.g. FCA includes Dodge, Chrysler, Jeep, Ram, and Fiat; General Motors includes Chevrolet, GMC, Buick, and Cadillac, Ford Motor Company includes Ford and Lincoln).

## 2. ORDERING

Note to State Agencies: Prior to making a vehicle purchase, the state agency must complete a vehicle pre-approval form and submit to Adam Wankum, State Fleet Manager. The pre-approval form can be found at the following website address:

<https://oa.mo.gov/general-services/state-fleet-management/vehicle-preapproval-process-and-vehicle-credits>

Once the state agency receives approval from the State Fleet Manager, the agency shall issue its own PGQ (Quick Price Agreement) order in SAMII or a requisition within MissouriBUYS. The contractor must not ship until they are in receipt of a hard copy purchase order.

**Cooperative Procurement Members Note:** The Vehicle Pre-Approval Form does not apply to cooperative procurement members – only to State of Missouri agencies.

### ***Delivery:***

Delivery must be made between the hours of 8:00 a.m. and 12:00 Noon or 1:00 p.m. and 4:00 p.m., Monday through Friday, Central Time. Deliveries shall not be made on state holidays.

The contractor shall notify the state agency a minimum of twenty-four (24) hours prior to delivery of the vehicle to the state agency location.

The contractor must understand and plan accordingly that upon delivery the state agency representative must verify the vehicle delivered has all required equipment and options and that nothing was damaged during the delivery of the vehicle. If something is damaged during delivery of the vehicle, the contractor shall address in accordance with the paragraphs below relating to repair or replacement of damaged product.

Each vehicle shall be delivered with the proper form to apply for Missouri title and license including the Manufacturer's Statement of Origin and invoice.

- The invoice/title for all alternative fuel vehicles must clearly indicate the vehicle is alternative fuel (flex fuel (FFV) or E-85).

Each vehicle shall be delivered with the owner's manual.

The contractor shall comply with the manufacturer's recommended pre-delivery service.

In the event the contractor fails to deliver the vehicle by the stated ARO time, the State of Missouri reserves the right to find the same or similar vehicle from another source, and to charge the

contractor the difference for the substitution. In assessing the applicability of this provision, the State of Missouri will consider the degree of contractor responsibility in the delay.

The contractor shall understand and agree that the delivery charges (line items 154 or 155) shall not be applied nor invoiced to vehicles purchased by and delivered to Missouri state agencies. Any delivery charges shall only apply to public entities making purchases through the Missouri Cooperative Procurement Program. The contractor shall be entitled to receive the per mile delivery price (line item 154) or the guaranteed, not-to-exceed total delivery price per vehicle (line item 155) which can only be assessed for delivery of a vehicle to any cooperative entity throughout the State of Missouri. If the contractor proposes both the per mile delivery price and the guaranteed, not-to-exceed total delivery price, the contractor shall understand that the total delivery price assessed by way of the per mile price (line item 154) shall not exceed the guaranteed-not-to-exceed total delivery price per vehicle (line item 155). The lesser of the two prices (line items 154 or 155) shall be charged to the public entity.

***Repair or Replacement of Damaged Product:***

The contractor shall be responsible for repairing any item or components received in damaged condition at no cost to the State of Missouri. In the event the item cannot be repaired or if the repair would otherwise compromise the integrity of the vehicle and the manufacturer warranty, then the contractor must replace the item or component in its entirety at no additional cost to the state. This includes all delivery/transportation costs for returning non-functional items to the contractor for replacement.

***Potential Recall or Manufacturer Initiated Customer Service Action/Notification Requirement:***

The contractor shall be responsible for accessing potential recall notices from the National Highway Traffic Safety Administration (NHTSA), as well as any manufacturer initiated customer service actions prior to delivering the vehicles to the state agency location. If a recall or customer service action is found for the vehicle being delivered to the state agency, the contractor should, to the best of their ability, complete the necessary action(s) prior to delivery. If the contractor is unable to address the required recall or customer service action(s) prior to delivery, the contractor must inform the state agency of the “open” recall or customer service action upon delivery. The contractor shall then assist the state agency in getting the recall or customer service action(s) completed as quickly as possible.

***Financial Responsibility:***

The State of Missouri recognizes that dealerships may make financial arrangements that result in a finance company retaining a security interest in vehicles the State of Missouri purchases until such time as the dealership receives payment in full for those vehicles. The contractor shall

understand and agree that a separate "Acknowledgement of Security Interest and Assignment" or similar document shall not be necessary and shall not be signed by the State of Missouri.

***Substitutions:***

The contractor shall not substitute any item(s) that has been awarded to the contractor without the prior written approval of the Division of Purchasing.

In the event an item becomes unavailable, the contractor shall be responsible for providing a suitable substitute item. The contractor's failure to provide an acceptable substitute may result in cancellation or termination of the contract.

Any item substitution must be a replacement of the contracted item with a product of equal or better capabilities and quality, and with equal or lower pricing. The contractor shall understand that the state reserves the right to allow the substitution of any new or different product/system offered by the contractor. The Division of Purchasing shall be the final authority as to acceptability of any proposed substitution.

Any item substitution shall require a formal contract amendment authorized by the Division of Purchasing prior to the state acquiring the substitute item under the contract.

The state may choose not to compel an item substitution in the event requiring a substitution would be deemed unreasonable in the sole opinion of the State of Missouri. The contractor shall not be relieved of substituting a product in the event of manufacturer discontinuation or other reason simply for reasons of unprofitability to the contractor.

**NOTE: IF ANY OF THE ABOVE PERFORMANCE REQUIREMENTS ARE NOT MET AND/OR VEHICLE DELIVERED DOES NOT HAVE ALL NECESSARY EQUIPMENT, PLEASE CONTACT JENNIE REES AT (573) 751-6442 OR [jennie.rees@oa.mo.gov](mailto:jennie.rees@oa.mo.gov).**

**3. CONTRACT MANAGEMENT:**

- 3.1 The state agency should monitor, measure, and manage the contractor's performance of services and delivery of products according to the contractual requirements. Please refer to the Contract Management Guide:  
<https://oapurch.state.mo.us/procurementsources.shtm>
- 3.2 In the event your state agency encounters any issues or has any concerns or questions regarding the contract, please contact the Division of Purchasing in writing to the attention of the buyer shown on the front page of this document.

- 3.3 To assist the Division of Purchasing in monitoring the performance of the contractors and ensuring quality services are provided to state agencies, state agencies are strongly encouraged to submit documentation regarding the contract and contractor performance to the Division of Purchasing to the attention of the buyer listed on the front page of this document.
4. **SATISFACTION SURVEY:** Customer service is a top priority. The Division of Purchasing desires to work with state agencies to identify solutions if there are any contract concerns. State agencies are encouraged to complete the Satisfaction Survey, Appendix A, regarding their experience with the contract. Please submit your completed survey to the Division of Purchasing to the attention of the buyer shown on the front page of this document.

**CC220107002 – Joe Machens Ford Lincoln**

Price per Mile	\$0.99 (round trip per vehicle)
Guaranteed Not To Exceed Total Delivery Price	\$150.00 (per vehicle)

The vehicles will be delivered from Columbia, Missouri.

**CC220107003 – Lou Fusz Dodge**

Price per Mile	\$0.50 (round trip per vehicle)
Guaranteed Not To Exceed Total Delivery Price	\$300.00 (per vehicle)

The vehicles will be delivered from O’Fallon, Missouri.

**CC220107004 – Lou Fusz Ford**

Price per Mile	\$1.50 (one-way per vehicle)
Guaranteed Not To Exceed Total Delivery Price	\$300.00 (per vehicle)

---

The vehicles will be delivered from Chesterfield, Missouri.

\*\*These prices shall not apply to state agencies. It shall apply only to public entities participating in the Cooperative Procurement Program.

## CONTRACT SCOPE OF WORK

### **1.1 General:**

- 1.1.1 The contractor shall provide Model Year 2022 Light Duty Trucks and Work Vans with all manufacturers' standard equipment and any additional equipment required by the State of Missouri on an as needed, if needed basis. The contractor must comply with all mandatory requirements and specifications presented herein pertaining to provision of the patrol vehicles. The base price on contract shall include all mandatory requirements and specifications presented herein.
- 1.1.2 All items of standard equipment which are normally provided with each vehicle by the manufacturer shall be furnished unless such items are expressly omitted by the RFP specifications. Conversely, mandatory items that are considered non-standard by the manufacturer shall be provided as specified.
- 1.1.3 All options and/or accessories stated herein must be manufacturer's original equipment. Aftermarket options and/or accessories shall not be acceptable.
- 1.1.4 As applicable, all options must be factory installed.

### **1.2 Warranty:**

- 1.2.1 The manufacturer's standard factory warranty shall apply to all vehicles. A properly executed warranty must be delivered with the vehicle. The warranty shall not become effective until the vehicle is delivered to and accepted by the state agency.
- 1.2.2 All warranty service must be performed in Missouri.

### **1.3 Delivery:**

- 1.3.1 The patrol vehicles shall be shipped direct from the factory or assembly plant to the Missouri State Highway Patrol Garage, Highway 50 East at Shamrock Road, Jefferson City, Missouri, ***FOB Destination, Freight Prepaid and Allowed***. Service or pre-delivery inspection by the contractor is not required.
- 1.3.2 Delivery must be made between the hours of 8:00 a.m. and 12:00 noon or 1:00 p.m. and 4:00 p.m., Monday through Friday, holidays excepted.
- 1.3.3 Each vehicle shall be delivered with the proper form to apply for Missouri title and license including the Manufacturer's Statement of Origin and invoice.
- 1.3.4 Each vehicle shall be delivered with the owner's manual.
- 1.3.5 In the event the contractor fails to deliver the vehicle within the stated delivery days, the State of Missouri reserves the right to find the same or similar vehicle from another source, and to charge the contractor the difference for the substitution. In assessing the applicability of this provision, the State of Missouri will consider the degree of contractor responsibility in the delay.
- 1.3.6 The contractor shall understand and agree that the per mile delivery charge (line item 417) shall only apply to local (cooperative procurement) government entities making purchases off the contract.

---

**1.4 Financial Responsibility:**

- 1.4.1 The State of Missouri recognizes that dealerships may make financial arrangements that result in a finance company retaining a security interest in vehicles the State of Missouri purchases until such time as the dealership receives payment in full for those vehicles. The contractor shall understand and agree that a separate "Acknowledgement of Security Interest and Assignment" or similar document shall not be necessary and shall not be signed by the State of Missouri.

**1.5 Repair or Replacement of Damaged Product:**

- 1.5.1 The contractor shall be responsible for repairing any item or components received in damaged condition at no cost to the State of Missouri. In the event the item cannot be repaired or if the repair would otherwise compromise the integrity of the commodity and the manufacturer warranty, then the contractor must replace the item or component in its entirety at no additional cost to the state. This includes all delivery/transportation costs for returning non-functional items to the contractor for replacement.

## Appendix A Satisfaction Survey

This satisfaction survey is provided for users to report good and/or poor contractor performance. Any contract user may complete the survey and return it to the buyer identified on page one of this notice.

Users are advised that serious contractor performance issues should be immediately reported to the buyer identified on page one of this notice.
