

Single Feasible Source Purchase

Title: Autism Center

Description: The autism center will (1) furnish critical diagnostic information to families with children suspected of having an autism spectrum disorder in a timely manner; (2) provide appropriate follow-up and referrals to eligible services including the identification for treatment options such as medication and behavioral management; (3) supply intervention services or access to such services by identifying available support services and advocating in the child's community; and (4) conduct training for pre-professional students and community professionals to increase the capacity for such services throughout the state.

Since Washington University was specifically name in the House Bill 13 appropriation for the Autism Center, Washington University is the only feasible source to provide the autism center.
