

## Single Feasible Source Purchase

Title: Prolog Application and SAMII Interface Support & Enhancement

Description: The Office of Administration, Information/Technology Services Division (ITSD) requires support and enhancements for an existing customized Prolog application and associated SAMII interface to support the Division of Facilities Management, Design and Construction's (FMDC) on-going need to use the product.

As Byrne Software customized the application and SAMII interface, this represents a proprietary requirement that meets the criteria of a single feasible source under RSMo 34.044. As a result, the State is pursuing this acquisition as a Single Feasible Source.

Contract Period: January 18, 2016 through January 17, 2017

Renewal Options: 5 one year renewal option periods

Agency: Office of Administration, Information Technology Services Division (ITSD)
