The Honorable Jeremiah W. (Jay) Nixon
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report (CAFR) of the State of Missouri for the fiscal year ended June 30, 2011. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and his opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act of 1984, and the U.S. Office of Management and Budget Circular A-133, "Audit of State and Local Governments and Non-Profit Organizations."

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

State Economy

Missouri continues to recover from the national recession, which began in 2007, and ended in summer 2009. Unfortunately, the recovery has been sluggish, hampered by European fiscal troubles, domestic government cutbacks, higher gasoline prices, and adverse weather events at home and abroad. Even though the economic environment continues to be challenging, key economic statistics are showing improvement. Missouri's personal income increased 2.6% in 2010 after declining the previous year and has shown a small amount of growth in 2011. Missouri's employment stood at 2.66 million in June 2011, 12,900 more than in June 2010. The State's seasonally adjusted unemployment rate improved to 8.8% in June 2011, compared to 9.5% one year earlier. The national rate was 9.2% in June 2011.

Improving Missouri's business climate and generating new jobs continues to be a statewide focus and three laws recently passed in 2011 should aid that goal. First, Senate Bill 19 passed which eliminates the corporate franchise tax over a phase out period of 5 years. The elimination of the franchise tax is expected to reduce general revenue collections up to \$126 million based on continued historic growth rates. Increased economic activity generated by this tax reduction is expected to help offset any loss of revenue collections. These provisions also apply to the bank franchise tax. The change to banks may result in an increase in the bank tax however, because banking institutions use the amount of the bank franchise tax as a credit to reduce their bank tax.

Second, House Bill 45 which changes the definition of a small business was approved. Under the new law, a small business is a business with less than 50 employees rather than 25 employees. The bill authorizes an income tax deduction for small businesses of \$10,000 for each new full-time job created or \$20,000 for each full-time job created if the business offers health insurance and pays at least 50% of health insurance premiums. The income tax deduction is effective for tax years 2011 through 2014. The small business income tax deduction is expected to reduce general revenue collections by \$10.7 million to \$21.4 million each year however, increased economic activity generated by this tax reduction may help offset the loss of revenue collections.

Finally, House Bill 163 changes the maximum duration of regular unemployment benefits from 26 weeks to 20 weeks. This results in an annual savings of \$108 million to Missouri's Unemployment Compensation Trust Fund. The bill also revised state statutes to allow Missouri to continue to participate in the 100% federal reimbursement of extended benefits authorized in the federal Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010.

Long-Term Financial Planning

Missouri continues to focus on controlling the growth of mandatory programs through cost-effective alternatives and cost containment initiatives while improving the delivery of services through administrative efficiencies. The State is actively pursuing opportunities to consolidate functions and thrive in a period of reduced financial resources. These initiatives cross all areas of state government and are too numerous to list completely in this document. One example is the downsizing of the state workforce by over 3,300 positions. Other examples follow.

The State has actively engaged in reducing its physical footprint by reducing and consolidating leased space. These efforts include maximizing the use of state-owned property as well as re-evaluating regional and local offices to ensure the efficient use of state resources. This has led to the elimination of over 360,000 square feet of leased space. The State has also reduced heating and cooling costs through various efforts to improve the energy efficiency of state offices.

The state pension plan for new State employees was changed effective January 1, 2011. All new State employees will be required to contribute towards the cost of their retirement plan, the minimum age for retirement was increased, and other changes were enacted to reduce costs by over \$500 million over the next 20 years.

Another major focus of the State has been to ensure its health care services are provided in a cost effective manner. These efforts have included helping individuals with multiple chronic conditions better manage their health. By focusing on preventative measures for these high cost individuals, the State can reduce costs and improve health care outcomes for State employees and Medicaid recipients.

In addition, the Missouri Department of Transportation (MoDOT) recently announced the Bolder Five Year Direction plan which provides another example of how Missouri is changing the way services are provided. When fully implemented, MoDOT will reduce its staff by 1,200 positions, reduce its physical locations by 135, and reduce its equipment by 740 pieces. The Plan is expected to free up an average of \$117 million per year which will be redirected to statewide transportation needs.

In addition to improving the efficiency of government, the State is actively pursuing opportunities to capitalize on historically low interest rates. In July 2010, the State refunded outstanding water pollution control, stormwater control, and fourth state building general obligation bonds for economic savings. When finalized, the bond sale produced budgetary savings of \$36.8 million in fiscal year 2011, cash savings of \$19.5 million over the life of the bonds, and present value savings of 11.1 %. Subsequent bond sales have been completed including:

	<u>FY 12 Budgetary Savings</u>	<u>PV Savings</u>	<u>Date Sold</u>
COPS Refunding	\$12.2 million	8.45%	May 2011
BPB Refunding	\$26.2 million	13.40%	September 2011
MU Arena Refunding	\$200,000	14.18%	November 2011

A comprehensive review of all outstanding debt is currently occurring to ensure all opportunities to save State resources are fully explored.

Relevant Financial Policies

Article X, Sections 16–24 of the Constitution of Missouri (the “Tax Limitation Amendment”), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually based on a formula which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year, the excess revenue will be refunded based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995–1999. The State has refunded to income taxpayers \$979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2011, inclusive. The State is currently \$4.4 billion below the limit and does not expect the limit to be exceeded in fiscal year 2012.

Major Initiatives

Cost-effective alternatives and streamlining government functions will continue to be the focus on controlling the growth of mandatory programs. Operating funding priorities are focused in the areas of education and jobs.

Missouri has invested in capital assets in fiscal year 2011 with expenditures of \$165.2 million (\$33.2 million general revenue) for maintenance and new construction projects throughout the State and appropriated \$132.1 million (\$89.6 million general revenue) in fiscal year 2012. In addition, Missouri invested \$1.4 billion in fiscal year 2011 and an estimated \$1.2 billion in fiscal year 2012 for road and bridge construction and maintenance, as part of a long-range plan to improve the State’s highway and bridge infrastructure using state gasoline tax revenues, tax revenues on motor vehicle sales, and federal matching/stimulus dollars.

Education. Despite economic challenges, education remains a top priority for Missouri. House Bill 223 was passed and creates Advanced Placement (AP) Incentive Grant Program and the Nursing Education Incentive Program. The purpose of the AP program is to entice high school students to math and science courses in order to generate better prepared students that pursue post secondary degrees in science, technology, engineering, and mathematics. The estimated annual cost is less than \$100,000. To address the increased nursing needs statewide, the Nursing Education program provides for approximately 13 full-time faculty positions at public four-year institutions with a nursing program. The State Board of Nursing has agreed to donate \$1 million per year for three years for this program.

Healthcare. House Bill 412 was passed and extends the sunset of the Missouri (MO) Rx Program to August 28, 2014. The program provides prescription drug assistance to qualifying Medicare beneficiaries through coordination with Medicare’s (Part D) Prescription Drug Program. The MO Rx program covers over 225,000 Missourians and pays 50% of deductibles, co-pays, and the coverage gap (often referred to as the donut hole). Annual appropriations to support the MO Rx Program are \$19.6 million.

Economic Development. In October 2011, an agreement was signed between the State and China to increase exports to China by \$100 million over the next three years. During 2010, Missouri exported a total of \$987.4 million in goods to China and \$773 million was exported during the first eight months of 2011, which was an increase of more than 25% over the same period in 2010. In addition, there are numerous Missouri businesses that plan to close deals with Chinese customers during the trade mission for an additional \$100 million. The intent of the investment agreement is to create jobs in Missouri and improve the state's economy.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT

Honorable Jeremiah W. (Jay) Nixon, Governor
and
Members of the General Assembly

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2011, which collectively comprise the state's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the state's management. Our responsibility is to express opinions on these financial statements based on our audit.

We did not audit the financial statements of certain entities that comprise the state of Missouri. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based on the reports of the other auditors. Those entities were:

1. The Missouri Road Fund; the Missouri Highway 63 Transportation Corporation, a blended transportation corporation identified in Note 1A.; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan; which represent 77 percent and 14 percent of the assets and revenues, respectively, of the governmental activities.
2. The State Lottery and the Petroleum Storage Tank Insurance Fund, which represent 37 percent and 36 percent of the assets and revenues, respectively, of the business-type activities.
3. The discretely presented component units.

4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation Local Fund, which represent 94 percent and 98 percent of the assets and additions, respectively, of the fiduciary funds.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Missouri Highway 63 Transportation Corporation, a blended transportation corporation; the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, a discretely presented component unit; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Director of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of Director of Revenue v. State Auditor 511 S.W.2d 779 (Mo. 1974). Approximately 22 percent of governmental activity revenues and 26 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate auditing procedures as to the income tax revenue beyond the amounts recorded.

In our opinion, based on our audit and the reports of other auditors, and except for the effects of such adjustments, if any, as might have been determined to be necessary had we been allowed access to tax returns and related source documents for income taxes, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 2, the state of Missouri implemented Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*; Statement No. 59, *Financial Instruments Omnibus*; and Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*.

In accordance with *Government Auditing Standards*, our report dated January 25, 2012, on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters is issued under separate cover in the Single Audit Report. The purpose of that report is to describe the scope of our testing of internal control over financial

reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, and except for the effects, if any, of the matter discussed in paragraph four, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The information in the introductory and statistical sections, as listed in the table of contents, has not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's (State's) financial activities for the fiscal year ended June 30, 2011. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS – PRIMARY GOVERNMENT

Government–Wide:

- *Net Assets.* Assets of the State of Missouri exceeded liabilities at the close of fiscal year 2011 by \$29.4 billion. Of the \$29.4 billion, “unrestricted net assets” is reported as a negative \$1.6 billion, offset by \$4.4 billion in “restricted net assets”. A positive balance in unrestricted net assets would represent the amount available to be used to meet the government’s ongoing operations.
- *Changes in Net Assets.* The State’s total net assets increased by \$956.2 million in fiscal year 2011. Net assets for governmental–type activities increased by \$982.4 million.
- *Excess of Revenues over (under) Expenses.* During fiscal year 2011, the State’s total revenues of \$26.5 billion were \$956.2 million greater than total expenses of \$25.6 billion (excluding transfers). Of these expenses, \$16.3 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$10.2 billion.

Fund–Level:

- *Governmental Funds – Fund Balance.* At the close of fiscal year 2011, the State’s governmental fund assets exceeded liabilities by \$5.2 billion, an increase of \$386.2 million or 8.0% from the prior year. The increase was primarily due to an increase in cash and cash equivalents and investments of \$475.2 million. This was primarily due to an increase in lottery and gaming proceeds and from an increase in funding received as part of the American Recovery and Reinvestment Act of 2009.
- *General Fund – Fund Balance.* At the end of the current fiscal year, the State’s General Fund reported a balance of \$1.4 billion.

Additional information regarding individual funds begins on Page 9.

Debt Issued and Outstanding:

- The primary government’s total long–term obligations related to bonds payable decreased \$221.7 million or 4.8% over the prior year. The outstanding bonds payable represents 52.0% of financial assets (cash, receivables, and investments) and 11.1% of total assets. The net decrease in bonds payable resulted from a decrease of \$201,085,000 due to bond payments, \$256,665,000 due to bond refunding, and an increase of \$236,050,000 due to issuances of General Obligation and State Road Bonds. Additional detail is available in *Note 12.*

Revenue Limit:

- The State Constitution limits the State’s ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2011, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the State's assets and liabilities, with the difference between the two reported as *net assets*. Increases or decreases in net assets may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net assets changed during the most recent fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents and insurance coverage. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, and Missouri Wine and Grape Board.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements, a reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Petroleum Storage Tank Insurance, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules for the Missouri Road Fund, non-major special revenue, debt service, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Assets:

The State's total net assets increased \$956.2 million or 3.4% during fiscal year 2011. This increase resulted primarily from a decrease in long-term and other liabilities of \$84.0 million, an increase to capital assets of \$552.6 million, and an increase in cash and cash equivalents and investments of \$383.4 million. Net assets invested in capital assets net of related debt and restricted net assets, which do not represent resources available to pay day-to-day operating expenses, increased by \$1.2 billion or 4.0%. The net assets invested in capital assets net of related debt and restricted net assets increase was primarily due to the increase in capital assets of \$552.6 million.

Invested in capital assets net of related debt, such as bonds payable or capital lease obligations, is the largest component of the State's net assets at \$26.7 billion or 90.7%. These assets include land, infrastructure, buildings, and equipment which are not easily converted to cash or readily available to pay state debts as they come due.

Restricted net assets of the primary government totaled \$4.4 billion or 14.8% of total net assets vs. 13.8% from the prior year. Net assets are restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net assets include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

Changes in Net Assets:

The schedule below reflects how the State's net assets changed during the year. The State collected program revenues of \$16.3 billion and general revenues of \$10.2 billion for total revenues of \$26.5 billion during fiscal year 2011. Expenses for the State during fiscal year 2011 were \$25.6 billion. Total net assets, net of contributions and transfers, increased by \$956.2 million.

Governmental Activities

The net assets of governmental activities increased \$982.4 million in fiscal year 2011. Revenues for the governmental activities totaled \$23.7 billion, while expenses totaled \$23.0 billion in 2011.

General and program revenues of governmental activities remained relatively constant during the fiscal year.

As shown in the Revenues by Source chart below, approximately 39.3% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 48.5% of total revenue. Charges for services contributed 8.3% and various other revenues provided 3.9% of the remaining governmental activity revenue sources.

The State's governmental activities program expenses decreased \$668.1 million during fiscal year 2011. Education expenses decreased \$278.7 million while General Government, Natural and Economic Resources, Transportation and Law Enforcement, Human Services, and Other Expenses decreased \$389.4 million.

As shown in the Expenses by Function chart below, expense for Human Services makes up the largest portion - 50.9% - of total governmental activities expenses.

Expenses by Function

Business-Type Activities

Net assets of the State's business-type activities decreased \$26.2 million in fiscal year 2011. Business-type revenues decreased by \$52.5 million during the current fiscal year. Program expenses of business-type activities decreased \$468.3 million from fiscal year 2010 to 2011 primarily from a decrease in unemployment compensation expense.

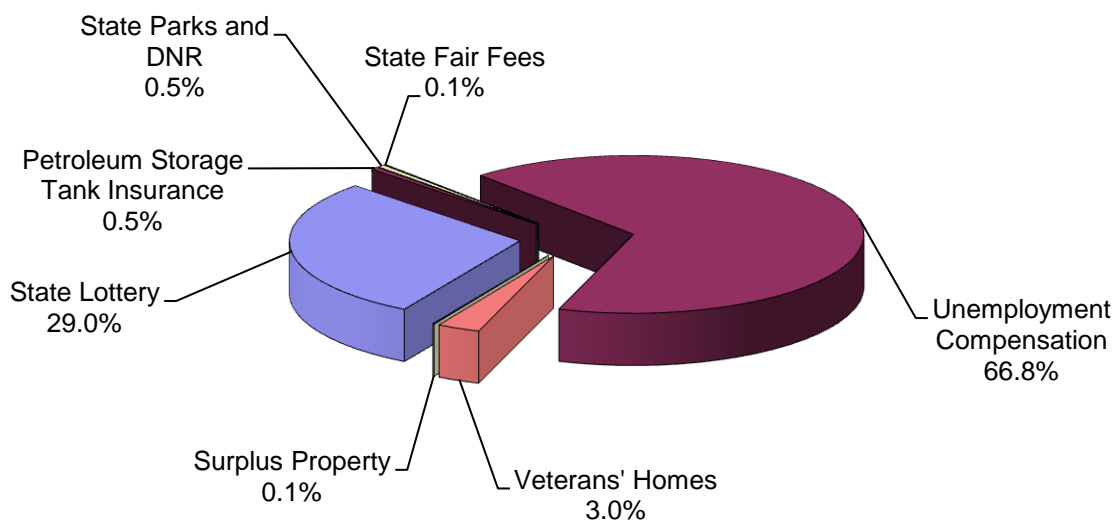

Revenues of business-type activities totaled \$2.8 billion. As shown in the Revenues by Source chart below, 62.1% of the revenues came from operating grants and contributions. Charges for services provided 37.9% of the total revenue.

Revenues by Source

Expenses of business-type activities totaled \$2.6 billion. As shown in the Expenses by Fund chart below, the Unemployment Compensation makes up the largest portion with 66.8% of total business-type expenses. State Lottery comes in second at 29.0%, followed by veterans' homes at 3.0%, petroleum storage tank insurance at 0.5%, state parks and DNR at 0.5%, surplus property at 0.1%, and state fair fees at 0.1%.

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2011, the State's governmental funds reported combined ending fund balances of \$5.2 billion. Approximately 29.2% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is restricted to indicate that it is not available for new spending because it has already been restricted for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Missouri Road Fund	Non-Major Funds	Total
Nonspendable	\$ 42,906	\$ 15	\$ 923,534	\$ 46,731	\$ 46,701	\$ 1,059,887

The General Fund is the chief operating fund of the State. At the end of fiscal year 2011, the State's General Fund reported a total fund balance of \$1.4 billion. The net increase in fund balance during fiscal year 2011 was \$175.3 million. Revenues of the General Fund totaled \$18.3 billion in fiscal year 2011, a decrease of \$18.6 million from fiscal year 2010. The major contributing factor was a combination of a decrease in contributions and intergovernmental revenues of \$377.9 million and an increase of \$345.0 million in taxes. Expenditures of the General Fund totaled \$15.4 billion in fiscal year 2011, a decrease of \$529.4 million from fiscal year 2010. The major contributing factors to this was a decrease in expenditures for human services of \$132.7 million, a decrease of \$291.0 million for education, and a decrease of \$103.1 million in transportation and law enforcement. The phasing out of the American Recovery and Reinvestment Act of 2009 contributed to the decrease in revenues and expenditures.

The Public Education Fund provides general and special education services to the children of the State and other related functions such as library services and student loans. Total fund balance increased by \$104.2 million. The major contributing factor to this was an increase of \$172.9 million in transfers in. This increase was due to an infusion of federal stimulus money, as well as, lottery and gaming proceeds. Revenues of the Public Education Fund totaled \$1.3 billion in fiscal year 2011, an increase of \$52.7 million from fiscal year 2010. The major factor that contributed to this was an increase of \$23.0 million in contributions and intergovernmental revenues. Expenditures for the Public Education Fund totaled \$4.2 billion for the fiscal year, an increase of \$9.1 million from fiscal year 2010. The increase was primarily due to a spike in education expenditures of \$8.0 million.

The Conservation and Environmental Protection Fund provides for the preservation of the State's wildlife and environment. The fund balance increased by \$135.1 million due to a decrease of \$152.5 million in natural and economic resources expenditures and a decrease in total revenues of \$45.6 million.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. The fund balance decreased by \$18.7 million in fiscal year 2011. A reduced amount of debt issuance contributed to the fund balance decrease. Revenues of the Missouri Road Fund increased during fiscal year 2011 by \$221.6 million primarily due to an increase of \$486.4 million in contributions and intergovernmental revenues and a decrease of \$269.1 million in miscellaneous revenues. Expenditures for the Missouri Road Fund totaled \$2.4 billion in fiscal year 2011, a decrease of \$52.2 million from fiscal year 2010. This was caused by a decrease of \$155.9 million in capital outlay, offset by an increase in principal and interest payments of \$87.4 million.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own. The Petroleum Storage Tank Insurance Fund accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks. The fund pays cleanup expenses for petroleum leaks or spills from underground storage tanks and certain above ground storage tanks as well as third party property damage or bodily injury resulting from such discharges. This fund is one of the largest insurers of storage tanks in the country.

The State Lottery Fund's net assets decreased by \$1.7 million. There was a \$2.9 million decrease in investment earnings for fiscal year 2011. Other contributing factors include an increase in ticket sales of \$28.8 million and increases in prize expenses and transfers out of \$16.5 million.

The Unemployment Compensation Fund's net assets decreased by \$18.6 million due to the increased number of unemployment claims resulting from the current national economic condition. Missouri borrowed \$180.7 million from the federal government during fiscal year 2011 to continue to pay unemployment benefits. Missouri repaid \$210.6 million in loans for fiscal year 2011 with additional loans likely in fiscal year 2012.

The Petroleum Storage Tank Insurance Fund's net assets decreased by \$0.8 million. Operating expenses increased by \$0.2 million primarily due to an increase in program expenses. Operating revenues also decreased by \$0.1 million mainly due to a reduction in licenses, fees, and permits. Non-operating revenues also decreased by \$0.2 million due to a decrease in investment earnings.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted and increases to estimated appropriations, which occur during the fiscal year.

Budgeted appropriations for fiscal year 2011 from the General Fund were \$24.6 billion original budget and \$24.6 billion final budget. Actual spending was \$22.3 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year but the expenditures may occur over several years.

Budgeted revenues/transfers in for fiscal year 2011 for the General Fund were \$24.1 billion original budget and \$23.9 billion final budget. Actual revenue/transfers in was \$22.5 billion. The decrease in actual revenues/transfers in of \$748.9 million was mainly due to the phasing out of the American Recovery and Reinvestment Act of 2009.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 107 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2011, was \$30.7 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure.

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2011, the primary government had total general obligation and other bonded debt outstanding of \$4.4 billion. Of this amount, \$487.1 million comprises debt backed by the full faith and credit of the government.

Principal amounts retired in fiscal year 2011 were \$147.5 million for general obligation bonds and \$310.3 million for other bonds.

The State of Missouri is proud to be one of only nine states to maintain a Triple-A credit rating from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable of the State include (in thousands):

Additional information on long-term debt can be found in *Notes 11, 12, and 13* of this report.

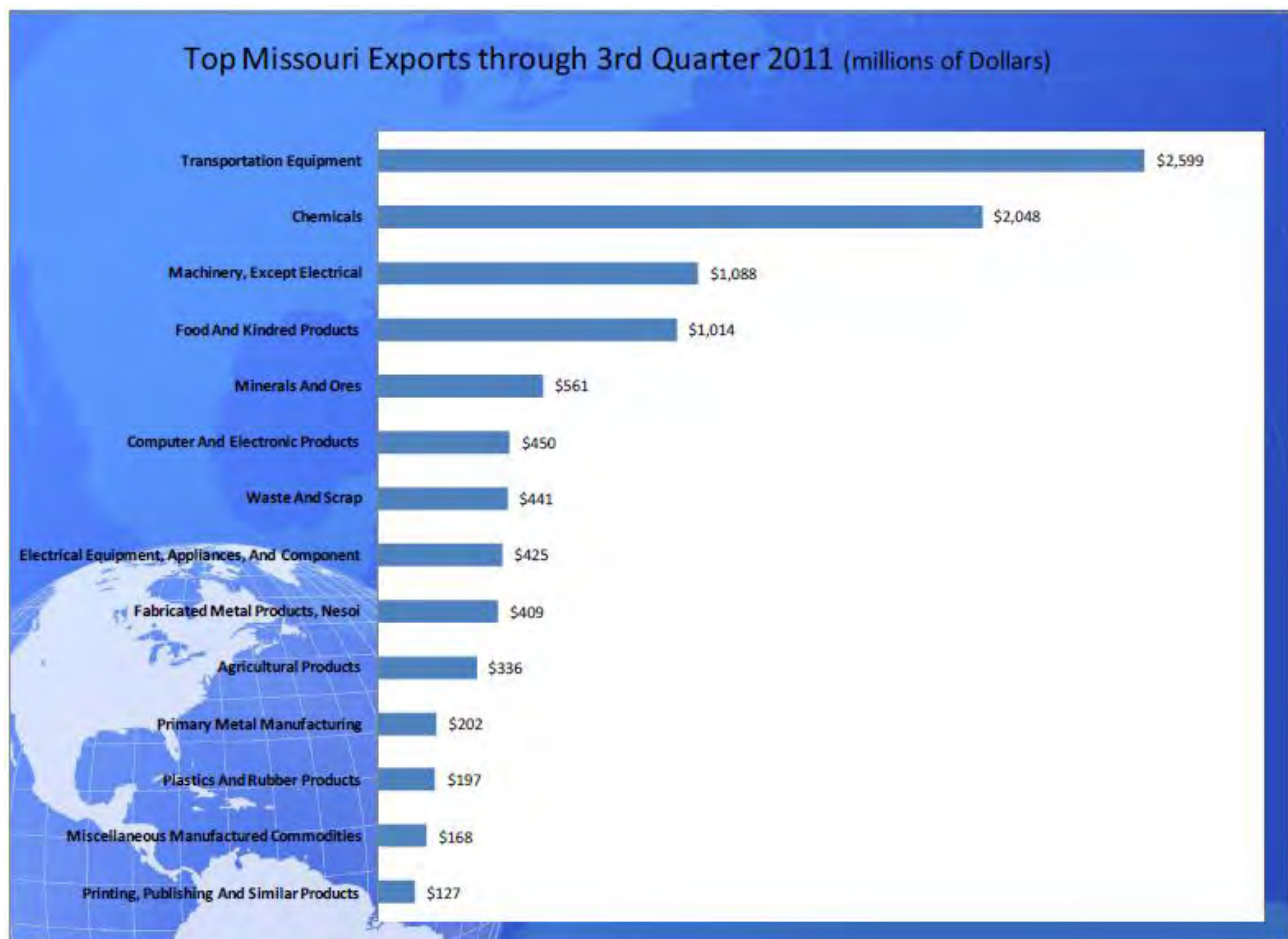

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

The State of Missouri completed fiscal year 2011 with a balanced budget. Net general revenue collections increased 4.9% from fiscal year 2010 ending with an amount of \$7.1 billion. The fiscal year 2012 budget, as appropriated in May 2011, would require growth of 2.6% from fiscal year 2011 in general revenue collections to meet the revenue estimate. Expenditure restrictions and Federal budget stabilization funds will result in a balanced 2012 budget.

As a major manufacturing, financial, and agricultural state, Missouri's economic health is tied closely to that of the nation. Like the nation, the State is slowly emerging from the recession, but the recovery is hampered by global catastrophes, international financial struggles, and federal fiscal uncertainty.

In order to boost the economy and create jobs, Missouri has made changes to its tax structure including phasing out the corporate franchise tax and providing tax relief to certain small businesses that create qualifying jobs. While these changes will reduce tax revenues collected in the short term, new jobs and increased economic activity will partially offset those reduced collections.

One area of growth in Missouri is exports. During the first three quarters of 2011, Missouri exported a total of \$10.6 billion, which is almost 13% higher than the same period in 2010. The leading sectors in exports include transportation equipment and chemicals. The following graph shows the top exports (in millions of dollars).

Source: Missouri Economic Research and Information Center/Realty Trac

Despite the current national economic situation, Missouri's financial position continues to be strong. Conservative fiscal management, including Missouri's constitutional provisions for the Governor to line item veto and restrict expenditures below appropriated levels, will ensure the fiscal year 2012 budget is balanced. Further, Missouri's portion of the American Recovery and Reinvestment Act of 2009 provided budget fiscal relief funds in each of the last three fiscal years with the remaining portion used in the fiscal year 2012 budget. The use of the ARRA money received has mitigated some budget cuts over the past three years; however, the State will no longer be receiving that funding in fiscal year 2013.

During calendar year 2011, the State also experienced catastrophic natural disasters. The fiscal year 2012 budget includes funding to aid in the recovery from the blizzard, tornados, and flooding during 2011. The local communities affected by the disasters have received federal funding in addition to the money set aside by the State, but it still does not cover the total cost to rebuild these communities back to their previous state.

Despite funding challenges, the State is working to boost the economy, increase efficiency, and decrease costs. In the fall of 2011, Missouri held a special legislative session to pass legislation to create jobs. The session ended with the passage of Senate Bill 7, the Missouri Science and Innovation Reinvestment Act. The act provides funding for investments in innovative scientific research, will help bridge the gap between research and entrepreneurship, and provide a solid base for growth in quality jobs.

The Governmental Funds focus on current financial resources.

Governmental Fund Financial Statements

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education – Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection – Provides for the preservation of the State’s wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund – Accounts for revenues from highway users’ fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. This also includes the following blended component units: Missouri Highway 63 Transportation Corporation and the Wentzville Parkway Transportation Corporation.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements and Schedules for non-major funds as part of Supplementary Information.

**STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES IN
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2011
(In Thousands of Dollars)**

Net Change in Fund Balances – Total Governmental Funds \$ 388,602

Amounts reported for governmental activities in the Statement of Activities are different because:

Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement. (2,389)

Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of \$1,413,790 exceeds depreciation/amortization of \$872,598 in the current period. 541,192

The net effect of the donation of capital assets increased net assets. 2,217

Deferred revenues do not provide current financial resources and are not recognized as revenues until available in governmental funds. (42,679)

Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Assets (Notes 11 and 12):

Bonds Issued	(236,050)	
Bond Premiums, Issuance, and Refunding Costs	(20,381)	
Bonds Retired	457,750	
Capital Leases Issued	(6,300)	
Capital Lease Payments	28,399	
		223,418

Some expenses reported in the Statement of Activities do not require the use of current financial resources, and therefore are not reported as expenditures in governmental funds (Notes 11 and 12):

Amortization of Bond Premiums, Issuance, and Refunding Costs	18,827	
Decrease in Accrued Interest	2,727	
Decrease in Due to Other Entities	8,930	
Decrease in Pollution Remediation	3,161	
Decrease in Compensated Absences	21,674	
Increase in Contingent Liabilities	(87,105)	
Decrease in Claims Liability	22,652	
Increase in Net Other Postemployment Benefit Obligation	(133,521)	
Increase in Net Pension Obligation	(2,854)	
		(145,509)

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities. 17,555

Change in Net Assets of Governmental Activities \$ 982,407

The notes to the financial statements are an integral part of this statement.

The Proprietary Funds focus on economic resources and are operated in a manner similar to private business enterprises.

Proprietary Fund Financial Statements

Major Funds

State Lottery – Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation – Accounts for contributions and payments collected under the provisions of the “Unemployment Compensation Law” to pay benefits.

Petroleum Storage Tank Insurance – Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The State has elected not to follow the Financial Accounting Standards Board's pronouncements issued after November 30, 1989 for proprietary activities.

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14 – *The Financial Reporting Entity* for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39 – *Determining Whether Certain Entities are Component Units* added a requirement to include all entities whose relationship with the State would make it misleading to exclude it.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Board of Fund Commissioners – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Auditor, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

Board of Private Investigator Examiners – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators in Missouri. The five member board shall consist of three private investigators and two public members, appointed by the Governor. Separate financial statements are not required for the Board.

Board of Unemployment Fund Financing – The Board was created by state law to provide a method of providing funds for the payment of unemployment benefits and maintaining an adequate fund balance in the Unemployment Compensation Fund. The Board is comprised of the Governor, Lieutenant Governor, Attorney General, the Director of the Department of Labor and Industrial Relations, and the Commissioner of Administration. Separate financial statements are not required for the Board.

Coordinating Board for Early Childhood – The Board was created by state law within the Missouri Children’s Services Commission. The Board’s purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri’s children from birth through age five. The 17 member Board is composed of representatives from the Governor’s office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. Separate financial statements are not required for the Board.

Missouri Propane Gas Commission – The Commission is responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri. The Commission is authorized to regulate the inspection of and provide specifications for propane. The nine member commission is appointed by the Governor with members from various propane-related industries, the Departments of Agriculture and Natural Resources, and one public member.

Missouri State Penitentiary Redevelopment Commission – The Commission was established to coordinate the planning and redevelopment of the old Jefferson City Correctional Center. The ten member commission consists of three members appointed by the Jefferson City mayor, three members appointed by the Cole County Commission, and four members appointed by the Governor. Separate financial statements are not required for the Commission.

Capital Projects Funds:

Missouri Highway 63 Transportation Corporation, and Wentzville Parkway Transportation Corporation – These are reported as a part of the Missouri Road Fund. These transportation corporations are not-for-profit corporations organized under the Missouri Transportation Corporation Act. The corporations were formed to facilitate the construction of highway projects. When the purpose for which each corporation was formed has been complied with and all obligations of the corporation have been paid, the Board of the corporation shall, with the approval of the Missouri Highways and Transportation Commission, dissolve the corporation. Additional information may be requested from:

Missouri Department of Transportation
Financial Services Division
P.O. Box 270
Jefferson City, Missouri 65102

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and pay the costs of operations.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Assets and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The **Statement of Net Assets** presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net assets.

The **Statement of Activities** demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

The difference between fund assets and liabilities is reported as "Net Assets" on the government-wide, proprietary, and fiduciary fund statements and "Fund Balance" on the governmental fund financial statements.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

Note 1 – Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets and liabilities associated with the operation of these funds are included on the Statement of Net Assets. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net assets. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment.

Missouri Road Fund – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

STATE OF MISSOURI

Note 1 – Significant Accounting Policies (cont.)

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits.

Petroleum Storage Tank Insurance – accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other entities.

Discretely Presented Component Units:

Major

College and Universities account for moneys from federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets and liabilities are accounted for on the Statement of Net Assets. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Assets/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, and grants. Assets and liabilities are accounted for on the Statement of Net Assets. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Assets/Statement of Activities.

Note 1 – Significant Accounting Policies (cont.)

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of three months or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

E. Investments

These are long-term investments with an original maturity greater than three months which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. All investments are reported at fair value (see *Note 3*).

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and agency funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. These receivables at June 30 are classified as “due from other funds” or “due from primary government/component units” on the Balance Sheet and Statement of Net Assets. Payables are classified as “due to other funds” or “due to primary government/component units” on the Balance Sheet and Statement of Net Assets (see *Note 15*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Assets. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Assets. Interfund receivables/payables between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Assets.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as “advances to other funds” or “advances to primary government/component units” on the Balance Sheet and Statement of Net Assets. Long-term interfund payables are classified as “advances from other funds” or “advances from primary government/component units” on the Balance Sheet and Statement of Net Assets (see *Note 15*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Assets.

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 1 – Significant Accounting Policies (cont.)

I. Restricted Assets

These moneys are restricted by donors and applicable bond indentures:

Restricted for Budget Reserve – An account used to meet the cash flow requirements and program funding requirements of the State.

Restricted for Debt Service – An account used to segregate a portion of fund balance for debt service resources legally restricted to the payment of general long-term debt principal and interest amounts maturing in future years.

Restricted for Loans Receivable – An account used to segregate a portion of fund balance to indicate that loans receivable do not represent available, spendable resources.

Restricted for Trust Principal – An account used to segregate a portion of fund balance to indicate the principal amount of permanent funds that is legally restricted for a specific future purpose.

J. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement (see *Notes 5 and 6*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software and trademarks – \$5,000, and equipment – \$1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 5 years, software – 3 to 5 years, trademarks – 10 years, and infrastructure – 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 to 15 years, and software – 3 to 5 years.

K. Deferred/Unearned Revenues

Governmental Funds

Deferred revenues are those for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met for governmental funds, which use the modified accrual basis of accounting. Therefore, such amounts are reported within the governmental fund financial statements as receivables and offset by a deferred revenue account. These amounts include \$750,699,000 within the General Fund, \$56,924,000 within the major special revenue funds, \$33,730,000 within the Missouri Road Fund, and \$9,822,000 within non-major governmental funds which totals \$851,175,000 for governmental funds. Such amounts have been deemed to be measurable but not available. All major sources of revenue, including taxes; licenses, fees, and permits; and governmental contributions are susceptible to accrual when available within 60 days.

Deferred revenues also include amounts collected in advance of the year in which earned. The State has reported as such deferred revenues the amount of \$182,239,000 within the General Fund, \$475,000 within major special revenue funds, \$7,098,000 within the Missouri Road Fund, and \$10,000 within non-major governmental funds which totals \$189,822,000 for governmental funds.

Proprietary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$33,264,000 within the internal service funds included in governmental activities. Total unearned revenue for enterprise funds is \$543,000 which is from the Petroleum Storage Tank Insurance Fund.

Fiduciary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$4,924,000 within the Pension (and other employee benefits) Trust funds.

Component Units

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$106,434,000 within the college and universities and \$1,037,000 in non-major component units which is a total of \$107,471,000 of unearned revenue for component units.

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).
2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 1 – Significant Accounting Policies (cont.)

3. Outstanding principal for bonds issued by the Board of Public Buildings, State Road Bonds issued by the Missouri Highways and Transportation Commission, and bonds issued by the Health and Educational Facilities Authority and the Regional Convention and Sports Complex Authority. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).

5. Obligations under lease/purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11*).
6. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds but are recorded as expenditures when paid (see *Note 11*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State.

7. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 11, 21, and 23*).
8. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 11 and 22*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

M. Net Assets

Net Assets are reported in three categories:

Invested in Capital Assets, Net of Related Debt – An account used to segregate the portion of net assets attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes and other debt that are attributed to acquisition, construction, or improvement of those assets.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 1 – Significant Accounting Policies (cont.)

Restricted Net Assets – An account used to segregate the portion of net assets that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2011, net assets restricted by enabling legislation equaled \$502,147,000 for governmental activities.

Unrestricted Net Assets – An account used to segregate the portion of net assets that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

N. Revenues

The revenues of the General Fund include federal grants and contributions of \$10,438,066,000. Revenues for all funds are reported net of refunds of \$2,088,195,000.

O. Interfund Transactions

During the fiscal year the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, acquire capital assets, and service debt. Interfund transactions basically consist of these three types:

1. Transactions that would be treated as revenues or expenditures/expenses if they involved organizations external to the State are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered and to agency funds for contributions for employee benefits.
2. Transactions that reimburse another fund for an expense. These transactions reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.
3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the same activity (Governmental) are eliminated at the Government-Wide Statement of Activities.

P. Expenditures and Expenses

Expenditures and expenses are reported net of revenue over collections of \$1,521,592,000 and \$826,000, respectively. Expenditures and expenses are reported net of overpayments to vendors, individuals, school districts, and for cost reimbursements of \$564,523,000 and \$1,254,000, respectively.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Q. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

The property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 – Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2011:

- GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes a hierarchy of fund balance classifications and clarifies the definitions of existing governmental fund types. A breakdown of the fund balance classifications shown on the governmental fund Balance Sheets can be found in *Note 4 – Governmental Fund Balances*.
- GASB Statement No. 59, *Financial Instruments Omnibus*, which contains provisions that modify existing financial reporting requirements for certain financial instruments and external investment pools. This statement affects the disclosures found in *Note 3 – Deposits and Investments*.
- GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which incorporates into the GASB's authoritative literature certain FASB and AICPA pronouncements issued prior to November 30, 1989. This statement has no impact on the State's CAFR.

The State of Missouri has reclassified 80 funds for the fiscal year ended June 30, 2011, within the general fund and special revenue funds. These funds were reclassified due to the implementation of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

Transportation and Law Enforcement was reclassified from a major fund to a non-major fund.

Note 3 – Deposits and Investments

The State Treasurer maintains a cash and short-term investment pool that is used by substantially all state funds. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2011.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 3 – Deposits and Investments (cont.)

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Primary Government

At June 30, 2011, the bank balance of the primary government's deposits was \$979,455,000. Of the bank amount, \$19,998,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institution.

Fiduciary

At June 30, 2011, the bank balance of the deposits of the fiduciary funds was \$399,314,000. None of these deposits were exposed to custodial credit risk.

Component Units

Information on the component units deposits is available within their individual financial statements.

B. Investments

Statutes authorize the State Treasurer to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury or Agency securities of any maturity. The internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, and fixed income securities. There have been no violations of these investment restrictions during fiscal year 2011.

The State Treasurer minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Bank of New York.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 3 – Deposits and Investments (cont.)

Primary Government

At June 30, 2011, the reported amount of the primary government's investments was \$3,730,488,000. Of this amount, \$126,694,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

Fiduciary

At June 30, 2011, the reported amount of the fiduciary funds investments was \$11,181,310,000.

Component Units

Information on the component units investments is available within their individual financial statements.

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity in years. The State Treasurer minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 1.5 years, and holding at least 40% of the portfolio's total market value in securities with a maturity of 12 months or less.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer from investing more than 5% of the total investment portfolio into any single financial institution or issuer, excluding U.S. securities and repurchase agreements. There are no restrictions in the amount that can be invested in U.S. securities, however, there can be no more than 15% of the total portfolio invested in repurchase agreements with a single counterparty. During fiscal year 2011, the State did not have more than 5% of total investments in a single issuer.

Note 3 – Deposits and Investments (cont.)

The State Treasurer requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (A1/P1) as rated by Moody's Investor Service, Inc. (Moody's) and Standard & Poor's Corporation (S & P). The Treasurer does not have any additional policies regarding credit ratings of investments. The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.5, RSMo. As of November 2008, Clearland Securities, a division of Wells Fargo, began acting as the State Treasurer's custodial bank and securities lending agent. For securities which are received as collateral under a bonds borrowed program, at least 75% of the collateral received must match the maturities of the securities lent with a maximum duration gap between loans and investments of 15 days. The maximum life of term loans shall be 90 days.

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The Custodian provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2011, the State Treasurer's Office had an aggregate fair value of securities lent of \$205,013,000 and an aggregate fair value of collateral received of \$205,013,000.

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Certain securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default. On June 30, 2011, MOSERS had no credit risk exposure to borrowers because the collateral amounts received exceeded amounts out on loan.

Deutsche Bank AG, New York Branch served as the agent for the fixed income domestic equity and international equity securities lending programs. MOSERS reduces credit risk by allowing Deutsche Bank to lend these securities to a diverse group of dealers on behalf of MOSERS. Deutsche Bank provides indemnification against dealer default.

Daily monitoring of securities that are on loan ensure proper collateralization levels and mitigate counterparty risk. The majority of the security loans are open loans and can be terminated on demand by either MOSERS or the borrower. Cash collateral is invested in short-term investment funds, managed by Deutsche Bank. On June 30, 2011, the cash collateral fund had a market value of \$643,085,000 and a weighted average maturity of 11 days. At June 30, 2011 and 2010, MOSERS had earned \$1,534,000 and \$1,204,000, respectively, on the securities lending program.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (the System), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. The System's custodial bank is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

During the fiscal year, the System lent securities and received cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. The System cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers were required to deliver collateral for each loan equal to: 1) in the case of loaned securities denominated in dollars or whose primary trading market was located in the United States, 102% of the market value of the loaned securities plus any accrued interest; and 2) in the case of loaned securities not denominated in U.S. dollars or whose primary trading market was not located in the United States, 105% of the market value of the loaned securities plus any accrued interest.

The System did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

The System and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2011, the cash collateral fund had a market value of \$60,134,000.

At June 30, 2011, the System had earned \$110,000, and at June 30, 2010, the System had lost \$22,000 on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

D. Derivatives

Missouri State Employees' Retirement System (MOSERS), through its external investment managers, has an investment policy which holds investments in futures contracts, swap contracts, and forward foreign currency exchange contracts. MOSERS does not anticipate additional significant market risk from the swap arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. MOSERS also invests in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. At June 30, 2011, MOSERS Foreign Currency Forward Contracts had a pending receivable of \$392,000 and a pending payable of \$8,778,000 resulting in a final liability of \$8,386,000.

Note 4 – Governmental Fund Balance

A. Governmental Fund Balance Classifications

The State's fund balances are classified as:

Nonspendable – Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

Restricted – Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature.

Assigned – Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed.

Unassigned – Amounts that do not meet the criteria of any of the classifications listed above.

B. Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

C. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each house. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2011, was \$506,903,000.

Note 6 – Leases

Capital

The State has entered into various agreements to lease land, buildings, and equipment. FASB Statement No. 13, *Accounting for Leases*, requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease).

Capital leases for the internal service funds, enterprise, and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds	Internal Service Funds	Enterprise Funds	College and Universities
2012	\$ 12,681	\$ 3,975	\$ 39	\$ 6,392

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under the lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. The payments on this lease are subject to annual appropriation by the State legislature.

The State issued Refunding Certificates of Participation Series A 2011 dated June 7, 2011, in the amount of \$76,910,000. The Refunding Certificates of Participation refunded \$76,065,000 of Series A 2005 Refunding Certificates of Participation.

The State also issued Certificates of Participation Series 2002 dated December 15, 2002, in the amount of \$4,700,000 for the Conservation Commission of the State of Missouri Project.

The State's obligation under these leases does not constitute a general obligation or other indebtedness of the State. The certificates of participation represent proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate, and are subject to annual appropriation by the State legislature.

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the leased facilities is \$5.2 million for primary government and \$83.3 million for component units. The Department of Natural Resources (DNR) has \$62,000 in income from easements on DNR property. This income will be received in perpetuity. The contract conditions and amount for each individual easement can change with the sale of the property requiring the easement. New contracts will be negotiated with new property owners. Future minimum receivables, payable from lessor arrangements as of June 30, 2011, were as follows (in thousands of dollars):

Note 7 – Retirement Systems

The State has two major retirement systems which cover substantially all state employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The University of Missouri's Retirement Plan is included because the University is a component unit of the State. The Public School Retirement System of Missouri is included in this note disclosure as the State contributes to it.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The Plans are administered in accordance with Sections 104.010 and 104.312-104.1215, and 476.445-476.690, RSMo, respectively.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 7 – Retirement Systems (cont.)

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. Employees covered by the MSEP and the MSEP 2000 plans are fully vested after 5 years of creditable service (4 years for elected officials and either 4 or 6 years for legislators). Employees covered by the MSEP 2011 plan are fully vested after 10 years of creditable service. The retirement eligibility requirements are as follows:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 55 with at least 10 years of service with reduced benefits.

MSEP 2011

Age 67 with 10 years of service
Age 55 with age and service equaling 90 or more (Rule of 90)
Employees may retire early at age 62 with at least 10 years of service with reduced benefits.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80 or more (Rule of 80)
Employees may retire early at age 57 with at least 5 years of service with reduced benefits.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less than 12 years of service or age 60 with less than 15 years of service with a reduced benefit that is based upon years of service relative to 12 or 15 years.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer defined benefit public employees' retirement system administered in accordance with Sections 104.010-104.1093, RSMo.

Note 7 – Retirement Systems (cont.)

MPERS membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan–2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 2011. The Year 2000 Plan–2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 10 years of creditable service.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years of service

Age 65 with 5 or more years of service

Age 60 with 15 or more years of service

Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 55 and active with 4 or more years of service

Age 55 with 5 or more years of service

Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Mandatory retirement at age 60

All non-uniformed members may retire early with reduced benefits at age 55 with at least 10 years of service.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the change in the Consumer Price Index (CPI) with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service

Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Mandatory retirement at age 60 with 5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Year 2000 Plan–2011 Tier

MoDOT and non-uniformed patrol members:

Age 67 with 10 or more years of service

Age 55 with sum of age and service equaling 90 or more (Rule of 90)

Uniformed patrol members:

Age 55 and active with 10 or more years of service equaling 80 or more (Rule of 80)

Mandatory retirement at age 60 with no minimum service amount

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 10 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 10 or more years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Funding Policy

MOSERS administers plans which cover substantially all State of Missouri employees. The State of Missouri is obligated by state law to make all required contributions to the MSEP, MSEP 2000, and Judicial Plans. Beginning January 1, 2011, employee contributions of 4% of gross pay are required for those covered by the MSEP 2011 and Judicial Plan 2011. The actuarially determined contributions are expressed as a level percentage of covered payroll. Current year actuarially determined contribution rates for the MSEP and the Judicial Plan are 13.81% and 60.03%, respectively. Actual contribution rates are the same as the actuarially determined rates.

The State of Missouri makes required contributions to MPERS. Beginning January 1, 2011, employee contributions of 4% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Current year calculated contribution rates are 49.53% for uniformed members of the Highway Patrol and 39.46% for non-uniformed members of the Highway Patrol and employees of the Missouri Department of Transportation. Actual contribution rates are the same as the actuarially determined rates.

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

	MSEP	Judicial Plan	MPERS

Actuarial Methods and Assumptions

The annual required contribution for MOSERS for the current year was determined as part of an actuarial valuation of the Systems as of June 30, 2009, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MOSERS include: a) rate of return on the investment of present and future assets of 8.5% per year compounded annually, b) projected salary increases of 4.0% per year annually, attributable to inflation, c) additional projected salary increases ranging from 0.3% to 3.5% per year for MSEP and 0% to 1.6% for the Judicial Plan, depending on age, attributable to seniority and/or merit, and d) the assumption that benefits will increase 4.0% per year after retirement.

**STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011**

Note 7 – Retirement Systems (cont.)

The actuarial valuation of the System dated June 30, 2011, will set the required contribution rates for the fiscal year ending June 30, 2013. The actuarial value of assets is based on a method that fully recognizes expected investment return and averages unanticipated market return over a five-year period. The unfunded actuarial accrued liabilities are amortized on an open basis as a level percentage of payroll over 30 years.

The annual required contribution for MPERS for the current fiscal year was determined as part of an actuarial valuation as of June 30, 2009, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MPERS include: a) rate of return on the investment of 8.25% per year compounded annually, and b) projected wage inflation rate of 3.75%.

The actuarial valuation of MPERS dated June 30, 2011, will be used to determine the contribution rate for the Plan year ending June 30, 2013. The actuarial value of assets is based on a three-year smoothed market value method. The total contribution is based on a 14-year amortization period for unfunded retiree liabilities and a 29-year amortization period for other unfunded liabilities.

Public School Retirement System of Missouri:

The State of Missouri also made employer contributions to the Public School Retirement System of Missouri which is a cost-sharing multiple-employer defined benefit public employees' retirement system. The System includes all public school districts within the State except for the two districts covering the major metropolitan areas. It also includes certain public college and universities and some state employees.

The benefit provisions include retirement annuities, death benefits, and disability benefits. A member is vested after acquiring five years of membership credit for Missouri service.

The System was created and is governed by Chapter 169 of the Revised Statutes of Missouri. State employees who elect to remain with the Public School Retirement System under Section 104.342, RSMo, are covered by the System.

Employees of the State are not required to contribute. The State, as employer, contributed \$3,458,000, \$3,972,000, and \$3,286,000 for the years ending June 30, 2011, 2010, and 2009, respectively, to the System, equal to the required contributions for each year.

Note 7 – Retirement Systems (cont.)

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at 2.2% times the credited service years times the compensation base. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. At retirement, up to 30% of the retirement annuity can be taken in a lump sum payment; also the standard annuity can be exchanged for an actuarially-equivalent annuity.

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2011 financial report, which is publicly available. Copies of this report may be requested from:

Funding Policy

The University's contributions to the Retirement Plan are equal to the actuarially determined employer contribution requirement, which averaged 5.7% of payroll for the year ended June 30, 2011. Employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1 at the beginning of the University's fiscal year, to the actuarially determined amount from the most recent valuation as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year.

Actuarial Methods and Assumptions

The annual required contribution for the University for the current fiscal year was determined as part of an actuarial valuation of the System as of October 1, 2009, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation include: a) assumed rate of return on investments of 8.0% per year, b) projected salary increases for academic and administrative employees averaging 5.3% per year, c) projected salary increases for clerical and service employees averaging 4.5% per year, and d) assumed no future retiree ad-hoc increases or cost of living adjustments.

Note 8 – Other Postemployment Benefits

In addition to the retirement benefits described in *Note 7*, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT and MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). The eligible number of retirees/long-term disability claimants for MCHCP, MHPML, and CEIP for health care benefits are approximately 18,719, 5,791, and 785, respectively. The eligible number of retirees/long-term disability claimants for MOSERS, MHPML, and CEIP for life insurance benefits are 20,037, 3,647, and 621, respectively. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. MOSERS employer contribution rates are set by the Standard Insurance Company. MHPML and CEIP life insurance benefits are funded through employee contributions. MHPML and CEIP employer contribution rates are set by the Plans Board of Trustees and approved by their respective Commission. Employer contribution rates for MCHCP are set in accordance with Section 103.100, RSMo. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Insurance policies are purchased for life insurance benefits and are the liability of the insurance carrier. For fiscal year 2011, the State's contributions were 50.95% of the total (employer/employee) contributions made for other postemployment benefits.

During fiscal year 2011, the State contributed the following amounts (in thousands of dollars):

	<u>Health Care</u>	<u>Life Insurance</u>
MCHCP	\$ 53,354	\$ ---
MOSERS	---	1,878
MHPML	16,846	---
CEIP	<u>2,396</u>	<u>---</u>
Total	<u>\$ 72,596</u>	<u>\$ 1,878</u>

During fiscal year 2011, the expenditures recognized by the State for (employer/employee) other postemployment benefits were as follows (in thousands of dollars):

	<u>Health Care</u>	<u>Life Insurance</u>
MCHCP	\$ 107,360	\$ ---
MHPML	38,685	---
CEIP	<u>4,605</u>	<u>306</u>
Total	<u>\$ 150,650</u>	<u>\$ 306</u>

Funding Policy

The contribution requirements of MCHCP, MHPML, and CEIP are established and may be amended by the State legislature, Missouri Highways and Transportation Commission, and the Conservation Department Board of Trustees, respectively. The State has partially funded the annual required contribution (ARC) of MCHCP in addition to the pay-as-you-go amount. In fiscal year 2011, the State contributed \$0 in addition to pay-as-you-go. The required contribution for MHPML and CEIP is based on an actuarial study and is financed on a pay-as-you-go basis. For fiscal year 2011, MCHCP, MHPML, and CEIP contributed \$53.4, \$30.3, and \$3.6 million, respectively.

Annual OPEB Cost and Net OPEB Obligation

The MCHCP, MHPML, and CEIP annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of MCHCP, MHPML, and CEIP annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the net OPEB obligation (in thousands of dollars):

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation for fiscal year ending June 30, 2011, MCHCP used the entry-age method. The October 2009, MHPML and the July 1, 2009, CEIP actuarial valuation used the projected unit credit method. The actuarial assumptions for MCHCP, MHPML, and CEIP include a 7.0%, 4.5%, and 4.5% discount rate, respectively. MCHCP projected annual health care cost trend rate is currently 7.67%, decreasing by 2/3% per year to an ultimate rate of 5.0%. MCHCP also has a projected payroll growth rate of 4.0%. The UAAL is being amortized at a level dollar amount over an open basis, over a 30-year period. MHPML projected annual health care cost trend rate is currently 8.00%, decreasing by 0.5% until reaching 5.0% in 2015. The UAAL is being amortized at a level dollar amount over a 30-year period. CEIP projected annual health care cost trend rate is generated by the Getzen model.

Termination Benefits

During the year ended June 30, 2011, the Conservation Commission offered the following termination benefit incentive: pay 80% of the total retiree medical insurance premium charged for the selected coverage during a seven-year period that begins on the retirees' official retirement date. The Commission had 166 retirees who participated in the incentive resulting in the cost of \$1,304,000 in termination benefits for fiscal year 2011.

College and Universities:

University of Missouri System

In addition to the retirement benefits described in *Note 7*, the University provides postemployment medical care, dental care, and life insurance benefits to eligible employees who retire from the University and to employees receiving long-term disability benefits. Currently, 6,307 retirees/long-term disability claimants meet the eligibility requirements. These postemployment benefits are funded through both employer and employee contributions. For fiscal year 2011, the University's contributions were 69.95% of the total (employer/employee) contributions made for other postemployment benefits.

Currently, the number of retirees/long-term disability claimants participating in medical care, dental care, and life insurance are 5,102, 5,119, and 2,821, respectively. During fiscal year 2011, the University contributed \$30,242,000 for other postemployment benefits. The expenditures recognized by the University for (employer/employee) other postemployment benefits were \$37,065,000.

Funding Policy

In June 2008, the University established its OPEB Trust Fund, the assets of which are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with terms of the Plan. Previously, postemployment benefit costs other than long-term disability were funded on a current basis, and expenses were recorded on a pay-as-you-go basis. Long-term disability costs were recognized during the period in which the employee became eligible to receive disability benefits.

The University's OPEB Trust Fund does not issue a separate financial report, but is included in the University's financial report using the economic resources measurement focus and accrual basis of accounting. The University currently plans to contribute to the trust fund an amount that, in addition to the current year premium contributions, is sufficient to fund 50% of the annual required contribution (ARC).

Annual OPEB Cost and Net OPEB Obligation

The University's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the University's net OPEB obligation for fiscal year 2011 (in thousands of dollars):

UAAL as a Percentage of Covered Payroll	60.36%

Actuarial Methods and Assumptions

In the July 1, 2009, actuarial valuation, University of Missouri System used the projected unit credit cost method. The actuarial assumptions for University of Missouri System included a 5.75% rate of return, net of administrative expenses. The projected annual health care cost trend rate is 6.0% to 10.0% initially, reduced by 0.5% decrements to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, level percent of pay, over a 30-year period.

Note 9 – Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Missouri State Employees’ Deferred Compensation Incentive Plan:

The Plan was established by the Missouri State Public Employees’ Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees’ Deferred Compensation Plan. The State, subject to appropriation, contributes \$25, \$30, or \$35 per month for each employee that meets these requirements based on employee contribution. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended until further notice. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employees as well as rollovers from other qualified plans. During fiscal year 2011, rollover contributions to ING were \$39,078,000.

Note 12 – Bonds Payable

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Assets, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Four types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Third State Building Bonds were used to provide funds for improvements of state buildings and property. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

Note 12 – Bonds Payable (cont.)

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29–34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2011, the Missouri Highways and Transportation Commission had issued \$3,812,195,000.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Commission (in thousands of dollars):

On December 15, 2010, Northwest Missouri State University issued \$4,980,000 Recreation System Refunding Revenue Bonds to provide for the refunding of the 1999 Recreation System Improvement and Refunding Revenue Bond issue (principal outstanding at December 15, 2010, was \$4,380,000). These bonds are payable as to principal and interest from the revenues derived from the operation of the University's recreation system after payment of costs of operation and maintenance that are not paid from other legally available funds. Proceeds from the bond issue were for the purpose of defeasing the principal outstanding on the 1999 Recreation System Improvement and Refunding Revenue Bonds in the amount of \$4,380,000. The 2010 bonds bear interest at rates from 0.90% to 3.10% per annum and mature at various dates through June 2018. There is a debt reserve requirement of \$498,000. As a result of the current refunding, the University reduced its total debt service requirements by \$359,889 which resulted in an economic gain of \$290,680.

On December 15, 2010, Northwest Missouri State University issued \$1,485,000 Parking System Refunding Revenue Bonds to provide for the refunding of the 2001 Parking System Revenue Bond issue (principal outstanding at December 15, 2010, was \$1,785,000). These bonds are payable as to principal and interest from the revenues derived from the operation of the University's parking system after payment of costs and operation and maintenance that are not paid from other legally available funds. Proceeds from the bond issue were for the purpose of defeasing the principal outstanding on the 2001 Parking System Revenue bonds. The 2010 bonds bear interest at rates from .90% to 1.60% per annum and mature at various dates through June 2013. There is a debt reserve requirement of \$148,500 which was transferred from the 2001 issue debt reserve requirement. As a result of the current refunding, the University reduced its total debt service requirements by \$42,500 which resulted in an economic gain of \$51,187.

On March 31, 2011, Southeast Missouri State University issued \$30,420,000 System Facilities Refunding Revenue Bonds Series 2011. The Series 2011 bonds shall pay interest semiannually on April 1 and October 1. At the option of the University, the Series 2011 bonds maturing April 1, 2017 and thereafter shall be subject to redemption on or after April 1, 2016 at a redemption price of 100% of the principal amount. The Series 2011 bonds bear interest at rates varying from 1.25% to 5.00% and mature serially through fiscal year 2032. The Series 2011 bonds refunded the System Facilities revenue Bonds Series 2001 and 2002, which had an average interest rate of 4.92% and 5.08%, respectively. The current refunding decreased the University's total debt service payments by \$2,796,000 and results in an economic gain (difference between the present value of the old and new debt service payments) of \$1,570,000.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by creating separate irrevocable trust funds.

Either new debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds or sufficient funds have been deposited in an irrevocable escrow to pay principal and interest as they become due.

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Assets.

Governmental Activities – As of June 30, 2011, bonds outstanding of \$497,310,000 are defeased.

College and Universities – As of June 30, 2011 bonds outstanding of \$203,115,000 are defeased.

The loans from the component units were for the construction of additional state highways and for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Assets, interfund payables and receivables were eliminated as follows: \$2,000 on the face of the Proprietary Funds Statement of Net Assets and governmental activities in the amount of \$15,662,000.

The amount reported as "Due from Other Funds" for fiscal year 2011 is significantly more than what was reported in fiscal year 2010. While there was a decrease in the amount "Due from Other Funds" relating to the consolidation of mail room services and relocating state agencies from leased buildings to state-owned buildings, there was an even greater increase in the amount due to the Lottery Proceeds Fund from State Lottery relating to an increase in lottery sales.

Note 16 – Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2011, were as follows (in thousands of dollars):

Non-Major Enterprise Funds	---	---	20
Internal Service Funds	18	51	102
Totals	\$ 18	\$ 99	\$ 3,719,298

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2011, there were transfers of \$377,000 from internal service funds to the General Fund and non-major governmental funds. These were transfers of capital assets and are therefore not reported on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances or on the reconciliation above. This is because governmental funds use the modified accrual basis of accounting and therefore do not report capital assets on their financial statements. There were also transfers of capital assets for \$435,000 from the General Fund and non-major governmental funds to internal service funds. These are reported as capital contributions in the internal service funds and excluded from the General Fund; therefore, these transfers are also not included in this reconciliation.

The amount reported as transfers for fiscal year 2011 fluctuated between governmental funds due to the reclassification of funds from the implementation of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (see Note 2).

- Non-major enterprise funds, the restatement was a decrease in capital assets (net of accumulated depreciation/amortization) of \$2,493,000.
- Non-major internal service funds, the restatement was a decrease in accounts receivable of \$578,000, a decrease in inventories of \$35,000, a decrease in capital assets (net of accumulated depreciation/amortization) of \$8,228,000, and a decrease in obligations under lease purchase of \$1,000.
- Discretely presented component units – college and universities, the restatement was a decrease of \$150,000 due to a decrease in accounts receivable which was made to match revenue received in the prior year with expenditures recorded in the current year.
- Discretely presented component units – non-major funds, the restatement was an increase in capital assets (net of accumulated depreciation/amortization) of \$2,000.

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net assets for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, capital assets (net of accumulated depreciation/amortization) decreased by \$4,139,000, the Internal Balance increased by \$3,000, a decrease in obligations under lease purchase of \$473,000, and an increase in pollution remediation obligation of \$68,000.

On the Government-Wide Statement of Activities, net assets for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by a decrease in the Internal Balance of \$3,000.

Note 18 – Fund Deficit

The following funds had a deficit balance:

Enterprise Fund – Petroleum Storage Tank Insurance – At June 30, 2011, this fund had a net asset deficit of \$27,664,000. The deficit at June 30, 2010 was \$26,903,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2020, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Various alternatives are being considered to pay off the claims liability amount of this fund. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Note 18 – Fund Deficit (cont.)

Enterprise Fund – Unemployment Compensation Insurance – At June 30, 2011, this fund had a net asset deficit of \$472,918,000. The deficit at June 30, 2010 was \$454,351,000. The reason for this deficit is the high unemployment rate associated with the recent national economic climate. The prolonged high unemployment made it necessary for the State of Missouri, along with other states, to borrow from the federal government to pay unemployment benefits. Since Missouri has carried a loan balance through January 1st for two consecutive years, the federal government has begun reducing the Federal Unemployment Tax Act (FUTA) tax credit that Missouri employers are allowed to claim on their taxes. Additional tax dollars collected by the federal government as a result of the FUTA tax credit reduction will be used to begin paying down Missouri's loan balance. Missouri projects its current loan balance will be fully repaid in calendar year 2015, with short-term sporadic borrowing needed in 2016 and 2017.

Internal Service Fund – Transportation Self-Insurance Plan Fund – At June 30, 2011, this fund had a net asset deficit of \$18,299,000. The deficit at June 30, 2010 was \$11,390,000. The deficit occurred due to funding being based on annual actuarial studies and budget availability. Increases in appropriations and claims management will eliminate the deficit over time.

Note 19 – Related Party Transactions

The Missouri State Public Employees' Deferred Compensation Plan was administered by ING Institutional Plan Services. ING Life Insurance and Annuity Company provides affixed earnings investments for plan participants while ING Institutional Plan Services provides variable earnings investments. At June 30, 2011, total investments of the Plan were \$1,150,244,000 and investments in ING Life Insurance and Annuity Company were \$456,647,000.

Note 20 – Commitments

Contracts

The Department of Conservation had contracts outstanding of \$2,000 for land acquisitions and \$8,485,000 for construction contracts at June 30, 2011. These contracts are funded through the special revenue funds from specific sales tax, fees, and permits.

The Department of Transportation had long-term contracts of \$1,113,954,000 outstanding at June 30, 2011. These contracts are paid from capital projects funds with approximately 71% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2011 of \$14,263,000. Approximately 88% will be paid from the General Fund, 6% from special revenue funds, 2% from capital projects funds, 2% from internal service funds, and 2% from enterprise funds.

Note 20 – Commitments (cont.)

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$10.8 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2011 was \$364,000. This payment was made in arrears as it was part of a fiscal year 2011 expenditure restriction plan. Payment of principal and interest must be completed by March 2038.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) purchased a new pension administration software system during fiscal year 2007. Payments totaling \$2,924,000 have been made, leaving \$506,000 outstanding at June 30, 2011.

As of June 30, 2011, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$136,646,000. The payments are as follows:

2012	\$	13,002,000
2013		14,938,000
2014		15,386,000
2015		15,847,000
2016		16,322,000
thereafter		61,151,000

Truman State University had approximately \$3,686,000 in outstanding commitments for various construction contracts at June 30, 2011.

Southeast Missouri State University had outstanding commitments of approximately \$62,190,000 related to construction contracts at June 30, 2011.

Missouri State University had approximately \$35,800,000 in outstanding commitments for various construction contracts at June 30, 2011.

University of Central Missouri had approximately \$3,234,000 in outstanding commitments related to construction contracts at June 30, 2011.

Note 21 – Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to State statute, through the State's legal expense fund, which is a component of the General Fund in this report. This insurance covers all state employees.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 21 – Risk Management and Insurance (cont.)

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. IBNR (incurred but not reported) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage during the past three fiscal years. OA-Risk Management also procures property insurance for 3% of the total value of the State's property with the remainder uninsured. The buildings that are insured are mainly the buildings backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims from data provided by an actuary. Liabilities are reported at their discounted value, assuming an investment yield of 4%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, underwritten by a commercial insurance company, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is based on known insurance claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. The payment for this claim was completed in fiscal year 2011.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for policyholders and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discounted rates ranging between 3.7% and 4.5% based on future investment yields. The University of Missouri System is included with college and universities as a major component unit of the State.

Note 21 – Risk Management and Insurance (cont.)

Missouri State University is exposed to various risks of loss. These include loss related to torts; business interruption; employee injuries and illnesses; employee health, dental and accidental benefits; natural disasters; damage to and destruction of assets; and errors and omissions. Commercial insurance coverage is purchased for claims arising from such matters other than those related to natural disasters and employee health benefits, general liability, and workers' compensation. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self-Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self-insures the workers' compensation benefits for all state employees, including University employees.

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

Note 22 – Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2011, the State was participating in the cleanup of 13 Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$6.7 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) performed work related to Missouri Department of Natural Resources' requirements for lagoons and a fuel leak. MoDOT is currently involved in remediation activities in three instances related to building and grounds caused by chemical contamination. There is a total remaining obligation of \$137,000 as of June 30, 2011. There are also three additional issues with lagoons at rest areas. The potential for pollution remediation exists; however, any future remediation obligations are not yet estimable.

The Office of Administration (OA), Division of Facilities Management, Design and Construction, continued asbestos, mold, and lead abatement and remediation, and fuel spill cleanup in six State sites during fiscal year 2011. One new site was added which required asbestos abatement and decontamination. At the end of the fiscal year, cleanup was not complete in two of the sites, with a total remaining obligation for fuel cleanup of \$68,000. These costs were based on contractual pricing estimates and are subject to change if the pollution remediation requires more time or material than was estimated. Facilities Maintenance Reserve Fund and the Federal Budget Stabilization - Medicaid Reimbursement Fund are both components of the General Fund in this report.

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, is administered by the U.S. Environmental Protection Agency (EPA). This law says the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At this time, it cannot be determined the Department of Public Safety's portion of the costs for the cleanup of the Pools Prairie Superfund site.

The State does not own any municipal solid waste landfills (MSWLF), however in the event the owner/operator refuses or is unable to properly maintain the landfill, the owner/operator forfeits the required financial assurance instrument(s) to fund closure and/or post-closure maintenance activities.

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2011, the Missouri Department of Natural Resources, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$289,588,000. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

At June 30, 2011, ten MSWLFs and two waste tire facilities have defaulted. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with Missouri Department of Natural Resources Solid Waste Management Law and Regulations. At June 30, 2011, it is expected that \$2,317,000 will be paid over the remaining monitoring periods. This is the amount of fund balance that has been designated as assigned on the General Fund balance sheet for forfeited assets.

**STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011**

Note 23 – Contingencies

Contingent claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Assets. Expenditures are recognized as payments are made.

At June 30, 2011, the amount of the contingent liabilities was \$65.9 million. Changes in the reported liability since June 30, 2010, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2010-2011	\$ 54,800	\$ 14,480	\$ (3,400)	\$ 65,880
2009-2010	26,997	31,957	(4,154)	54,800
2008-2009	40,087	(11,150)	(1,940)	26,997

Section 287.220.6, RSMo, requires that an actuarial study of the Second Injury Fund be made every three years to determine the solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2010 actuarial study. At June 30, 2011, the amount of liabilities for the Second Injury Fund was \$1.5 billion. Changes in the reported liability since June 30, 2010, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2010-2011	\$ 1,444,064	\$ 113,401	\$ (37,376)	\$ 1,520,089
2009-2010	1,372,477	111,003	(39,416)	1,444,064
2008-2009	1,248,013	191,330	(66,866)	1,372,477

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements to the grantor agency for expenditures which are disallowed under grant terms. The State believes that such disallowances, if any, would be immaterial in the next fiscal year.

Loan Guarantees:

In the past, the State appropriated money to the Missouri Development Finance Board for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Board makes the payment for default from Board funds. At the end of fiscal year 2011, there were no guaranteed loans outstanding and no loans defaulted.

The State appropriates money to the Agricultural and Small Business Development Authority for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Authority makes the payment for default from State appropriations. The Authority administers the Single-Purpose Animal Facilities Loan Program and the Value Added Loan Guarantee Program, which provides a 50% first-loss guarantee on loans up to \$250,000. The total of these two loan programs outstanding at June 30, 2011, for which the Authority has guaranteed payment is, \$1,160,000 and \$4,771,000, respectively. During 2011, no loans defaulted.

Note 23 – Contingencies (cont.)

Sales and Use Tax Lawsuits:

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. A settlement was reached regarding some claims, filed by multiple taxpayers, related to the Southwestern Bell cases. At this time, no current liability remains as of June 30, 2011. Refund claims related to these cases that were filed by other companies that are still pending verification and exclusive of interest (which could be substantial) could negatively affect the State by \$30.5 million, of which \$17.1 million is related to the General Fund.

The State is also involved in tax litigation not included in the fiscal year 2011 liability amount, where it is reasonably possible that an adverse court decision may incur an estimated loss of \$22.9 million.

Education Lawsuits:

Four education lawsuits are pending: Committee for Educational Equality, et al vs. the State of Missouri, et al (Case No. 04CV323022), filed in the Circuit Court of Cole County; Jenkins, et al vs. School District of Kansas City, Missouri, et al (Case No. 77-0420-CV-DW), filed in the U.S. District Court, Western Division; Kansas City Missouri Public Schools vs. Missouri Board of Fund Commissioners (Case No. 05AC-CC00389), filed in the Circuit Court of Cole County; the School District of Kansas City, Missouri vs. State of Missouri, Missouri Board of Education, DESE, and D. Kent King filed in the Circuit Court of Cole County, filed with the Missouri Supreme Court. Arguments are being heard, and decisions in these cases may require additional state money or a revision to the current school aid formula.

Tobacco Master Settlement Agreement:

This is a potential reduction in a liability owed to the State by tobacco manufacturers under the Master Settlement Agreement (MSA). The State is currently involved in national arbitration against the manufacturers participating in the MSA over their pending claim for a downward adjustment to their 2004 settlement payments. The manufacturers challenge the enforcement record of 35 settling states. The State's total exposure depends upon the arbitration panel's determination of whether Missouri and the 34 other challenged states diligently enforced their qualifying statutes in 2003.

Missouri's total potential exposure is up to the entire amount of the 2004 annual payment from the manufacturers (subject to a later 20% reimbursement). The amount of \$0 to \$117 million is an estimate, which depends upon many variables. Should Missouri lose the arbitration, the State would lose almost \$77 million presently held in a dispute account, and the next annual payment could be reduced by nearly \$40 million, plus interest calculated from April 15, 2004. That amount may fluctuate depending on the total number of states found by the arbitration panel to have failed to diligently enforce their qualifying statutes in 2003. Such a loss would be taken as a credit against the manufacturers' MSA payments to Missouri in the next or subsequent years. Furthermore, the tobacco manufacturers may withhold some portion of future payments and seek arbitration of the same issue for subsequent years.

Note 24 – Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

The Authority is considered a joint venture of the State, County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B), and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund \$2,845,000 and \$113,170,000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued \$49,585,000 in Series C 2007 refunding bonds to refund \$61,285,000 of original principal of the Series C 1997 refunding bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. In addition, the sponsors provide annual appropriations intended to keep the facility in good repair and competitive with the top 25% of NFL facilities. See *Note 12* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2011

Note 25 – Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation of the endowments available for expenditure is \$2,379,000, and of this amount, \$929,000 is reported as restricted non-expendable net assets, \$1,289,000 is reported as restricted expendable net assets, and \$161,000 is reported as unrestricted net assets. The University of Missouri reported a net appreciation/amortization of restricted non-expendable net assets in the amount of \$105,184,000, which consisted of both realized and unrealized losses on investment. For detailed information on the college and universities, review the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.035, RSMo. These policies are entity specific and vary with each institution.

Note 26 – Conduit Debt

As of June 30, 2011, the Missouri Development Finance Board issued \$1,299,632,000 in Single Issue Industrial Revenue Bonds and \$1,737,610,000 in Public Purpose Capital Improvement and Refunding Leasehold Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2011, were approximately \$682,578,000 and \$797,410,000, respectively.

The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

The State Environmental Improvement and Energy Resources Authority, a related organization of the State of Missouri, issues Water Pollution Control and Drinking Water Revenue Bonds on behalf of the Department of Natural Resources. The outstanding balance on these bonds as of June 30, 2011, is \$1,172,894,000.

The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of the State Environmental Improvement and Energy Resources Authority.

Note 27 – Federal Surplus Commodities Inventory

The federal surplus commodities inventory for the Department of Social Services was \$6,000 as of June 30, 2011. This inventory is not considered to be an asset of the State and is not included in the financial statements.

Note 28 – Subsequent Events

Other Bonds:

On September 27, 2011, the Board of Public Buildings of the State of Missouri issued \$143,020,000 of Special Obligation Refunding Bonds Series A 2011. These bonds will bear interest from 1.00% to 5.00%, due in semiannual installments beginning April 1, 2012. This refunded Board of Public Buildings Bonds in the following amounts: Series A 2001 – \$126,850,000, Series A 2003 – \$12,620,000, and Series A 2006 – \$3,175,000.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 28– Subsequent Events (cont.)

On November 17, 2011, the Health and Educational Facilities Authority of the State of Missouri issued \$20,125,000 of Educational Facilities Refunding Revenue Bonds (University of Missouri–Columbia Arena Project) Series 2011. The bonds will bear interest from 2.00% to 5.00%, due in semiannual installments beginning April 1, 2012. This refunded the Authority's Educational Facilities Revenue Bonds Series 2001 outstanding principal in the amount of \$22,770,000.

Retirement Legislation:

On July 8, 2011, legislation was signed into law that contained provisions affecting the Missouri State Employees' Retirement System (MOSERS), the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS), the Missouri Deferred Compensation Plan, and employees of the Missouri Development Finance Board (MDFB). This legislation contained provisions that will result in new hires employed on or after July 1, 2012, being automatically enrolled at 1% of pay in the Deferred Compensation Plan that is administered by MOSERS, as well as language providing for MPERS and MOSERS to transfer funds between the two systems when an employee transfers service between the systems on or after September 1, 2011. The legislation also included provisions that will make any full-time employee of MDFB who is employed on or after September 1, 2011, a state employee and a member of MOSERS.

Missouri Department of Transportation:

The Series B 2005 First Lien State Road Bonds were issued as variable rate instruments with weekly rate changes. Since June 30, the rates varied from 0.04% to 0.18%.

University of Missouri:

On August 3, 2011, the University issued \$54,125,000 of System Facilities Revenue Bonds Series 2011, with average coupon rate of 4.6%. These bonds and other funds of the University were used to refund all of System Facilities Revenue Bonds Series 1998A, which had an outstanding principal amount of \$9,985,000, all of the System Facilities Revenue Bonds Series 2001B, which had an outstanding principal amount of \$40,635,000, and \$9,035,000 principal amount of the System Facilities Revenue Bonds Series 2003B, which had an outstanding principal amount of \$27,030,000. The average coupon for the refunded bonds was 5.0% and generated net present value savings of \$6,500,000 for the University.

Unemployment Compensation:

Due to prolonged high unemployment, Missouri is borrowing from the federal government in order to pay unemployment benefits. Since June 30, 2011, \$60,991,000 has been borrowed. Since Missouri has carried a loan balance through January 1 for two consecutive years, the federal government has begun reducing the Federal Unemployment Tax Act (FUTA) tax credit that Missouri employers are allowed to claim on their taxes. The additional tax dollars collected by the federal government as a result of the FUTA tax credit reduction will be used to begin paying down Missouri's loan balance.

Deferred Compensation Plan:

On November 11, 2011, the transition to a new third-party record keeper was completed for the State of Missouri Deferred Compensation Plan. The contract for Plan record keeping services was awarded to International City/County Management Association Retirement Corporation (ICMA-RC). This change should result in lower account fees for participants.

Required Supplementary Information (RSI) includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, and the Notes to RSI on Budgetary Reporting.

**STATE OF MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY REPORTING
June 30, 2011**

Budgetary Presentation:

A Budgetary Comparison Schedule is presented for the State's Major governmental funds, as well as Major Capital Project Funds. Revenues and expenditures are reported on a budgetary basis where "actual" revenues are recognized when cash is received, and "actual" expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2011, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at <http://oa.mo.gov/acct/AAR2011/index.htm>. The "original budget" expenditures and transfers are for what was originally appropriated for each fund. The "final budget" expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any re-appropriations to the next fiscal year.

Once a year the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the "final budget" column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with state statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between "budgeted" and "actual" expenditures on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2011, is shown below (in thousands):

	<u>Final Transfer</u>		<u>Actual Transfer</u>	
	<u>In</u>	<u>Out</u>	<u>In</u>	<u>Out</u>
GENERAL FUND	\$ 2,835,380	\$ (2,835,380)	\$ 2,352,374	\$ (2,352,374)
SPECIAL REVENUE FUNDS				
Public Education	<u>463,881</u>	<u>(463,881)</u>	<u>423,930</u>	<u>(423,930)</u>
TOTAL	<u>\$ 3,299,261</u>	<u>\$ (3,299,261)</u>	<u>\$ 2,776,304</u>	<u>\$ (2,776,304)</u>

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless re-appropriated to the following appropriation year.

Supplementary Information includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (Missouri Road Fund), as well as the Combining and Individual Fund Statements and Schedules for the General Fund and all Non-Major Funds.

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the “major fund” classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison schedule is provided for all non-major governmental funds with the exception of capital projects funds.

*The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.*

Non-Major Special Revenue Funds:

Professional Registration – Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance – Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair – Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance – Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement – Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation – Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other – Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

***Number of Alcohol Arrests is zero due to a loss of grant funding to perform alcohol compliance buys.

****Total loans guaranteed during fiscal year 2011 was zero, as the authority to ensure loans ended June 30, 2010, due to the enactment of the Health Care and Education Affordability Reconciliation Act. However, the Department of Higher Education will continue to act as the US Department of Education's agent in fulfilling responsibilities relating to outstanding guarantees, which totaled \$3.0 billion as of June 30, 2011.
