The Honorable Matt Blunt
The Honorable Members of the Legislature
Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report of the State of Missouri for the fiscal year ended June 30, 2005. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State of Missouri Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and her opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act of 1984, and the U.S. Office of Management and Budget Circular A-133, "Audit of State and Local Governments and Non-Profit Organizations."

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 12, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate, and 163 members of the House of Representatives. The judicial branch is a three-tier court system. The Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, law enforcement, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgetary control is maintained at the departmental level. Expenditures cannot exceed the appropriation amount at the individual appropriation level. Also, the Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION

State Economy

Missouri’s economy is both strong and diverse, the 5th most diversified in the nation. As a major manufacturing, financial, and agricultural state, Missouri’s economic health is tied closely to that of the nation.

Missouri’s exports totaled nearly \$9 billion in 2004, with products and services sold to over 180 countries. This represents an increase of over \$1.7 billion compared to 2003. Several factors can be attributed to this increase, including the improvement of the global economy in general as well as the diversity of Missouri’s economy. The top five exports in 2004 were transportation equipment, chemicals, machinery, computer and electronic products, and electrical equipment. The majority of exports in 2004 were sold to Canada – nearly \$4 billion, while substantial exports were sold to Mexico for approximately \$946 million.

Source: MERIC and the World Institute for Strategic Economic Research (WISER)

Both Missouri and the nation experienced employment figures which bottomed out in 2003. Missouri's employment growth began in early 2004, slightly later than the national growth trend. Although Missouri's employment growth during 2004 was somewhat irregular, it has shown strong growth in 2005, with nearly 40,000 jobs being added during the calendar year.

Additional evidence of an improving economy is supported by personal income statistics. Personal income is seen as an indicator of the economic well-being of the residents of a state, of which the largest portion is earnings and wages. Missouri's personal income rose 4.5% in 2004, to nearly \$176 billion annually. Along with higher personal income, Missourians saw a decrease in unemployment. Missouri's unemployment rate peaked in January 2005 at 6.0%, but dropped to a rate of 5.4% in June, the lowest since early 2003. Missouri's per capita personal income averaged \$30,516 in 2004. Although Missouri's per capita income is below the national average, Missourians live and work where the cost of living ranks 6th lowest in the nation.

Long-Term Financial Planning

Missouri funding priorities include education, health care, corrections, and economic development. In order to maintain adequate funding for those programs, reorganizing state government, reducing expenses, and maximizing use of state resources, have been emphasized. Consolidation of similar functions has resulted in more efficient use of personnel and equipment, increased efficiency, and reduced duplication of efforts.

Relevant Financial Policies

The ability of the State to raise additional money through new taxes enacted by the General Assembly is severely limited due to Article X of the Missouri State Constitution. Article X establishes revenue limitations based on a formula, which if exceeded, requires cash refunds to the citizens. Any significant new tax must be approved through a vote of the people.

Missouri will continue to focus on controlling the growth of mandatory programs through various cost-effective alternatives. Missouri has implemented many cost control strategies in the Medicaid program to ensure quality services are provided to the State's neediest residents.

Major Initiatives

Education. Funding for elementary and secondary education is the State's top priority. In response to recently filed lawsuits questioning the adequacy and fairness of the current school funding formula, legislation was passed which guarantees funding for all students consistent with the amount spent by districts that meet all of the State's performance standards. The new school funding formula will be phased in with the 2006-2007 school year. For the 2005-2006 school year, funding to Missouri schools was increased by 4.4% or \$158 million.

Transportation. The voters of the State approved a Constitutional amendment during November 2004 which redirects certain revenue such as vehicle sales taxes to the Missouri Department of Transportation. The Department has developed the "Smoother, Safer, Sooner" road initiative, which will result in 2,200 miles of new pavement, shoulders with rumble strips, brighter stripes and signs, and the acceleration of road improvement projects. The amendment will be phased in over four years and will be in full effect in 2009.

Economic Development. In an effort to promote a positive business environment, laws affecting litigation including medical malpractice and workers' compensation were enacted. Some of the most significant litigation changes include strict rules for establishing venue, limits on joint and several liability only when the defendant is 51% at fault, and a cap on non-economic damages to \$350,000. For cases involving medical malpractice, the law also requires the plaintiff to file an affidavit from a qualified health care provider which states the defendant failed to use reasonable care. Additional medical malpractice reforms state that physicians providing free health care are not liable for civil damages unless damages were caused by gross negligence or willful or wanton acts. Workers' compensation reforms include modifying the definition of "accident" and "injury", requiring compensation only when the prevailing factor of the condition was work related, and severely limiting the compensation when the injured party did not obey safety rules or was under the influence of drugs or alcohol.

Human Services. Since Medicaid expenses have been increasing at an unsustainable rate, the legislature passed several Medicaid cost containment measures and established the Medicaid Reform Commission. The Commission was required to make recommendations related to reforming, redesigning, and restructuring the current Medicaid system by January 1, 2006. In the meantime, legislation has enacted reforms including yearly income eligibility reviews, the reduction of income levels to be eligible for Medicaid, and the requirement for recipients to share medical costs through co-pays and premiums.

Government. In January 2005, the Governor established the Missouri State Government Review Commission by executive order. The Commission consists of twenty individuals from across the State. The executive order states the Commission's task is "reviewing every Executive Department within our state government to identify opportunities to restructure, retool, reduce, consolidate, or eliminate state government functions in accordance with what will result in the best and most cost-effective service for Missouri citizens." The Commission's report was issued November 23, 2005, identifying 84 suggestions for improving state government. This report can be found at http://review.mo.gov/pdf/MSGRC_FinalReport.pdf.

Prior to the Commission's final report, efficiencies were achieved by consolidating in-home health services provided to the elderly and disabled. These services were merged into one agency rather than three, thereby reducing duplication of efforts. Transitioning the State's revenue license offices into offices run by contract agents will save millions of dollars each year, without decreasing customer service. Further cost savings have been achieved by restricting the purchase of non-emergency vehicles, cell phones, and the purchase and leasing of new office space. The State is also moving toward providing more services online, such as implementing a new online application system for state merit job openings. This new system will speed up the process for job applicants as well as increase efficiency and cut costs to state government.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We are greatly appreciative to all.

Sincerely,

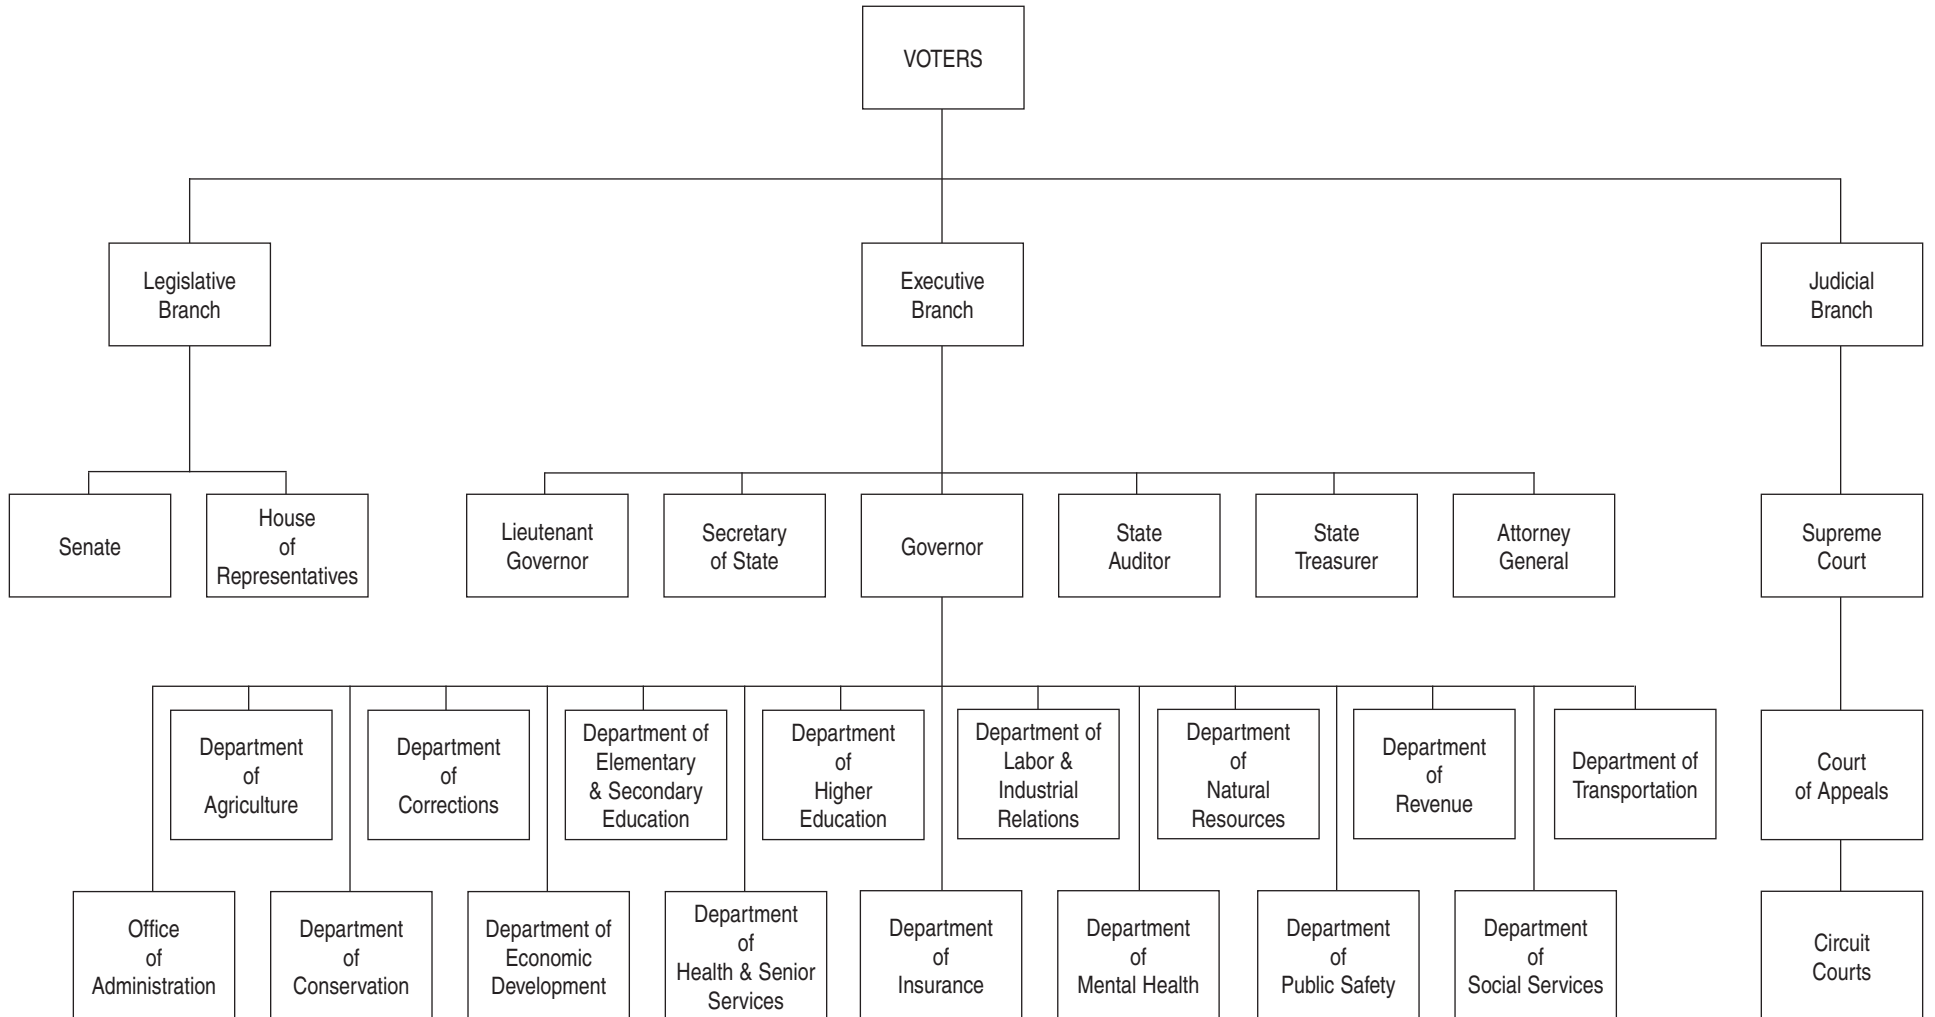

Thomas Sadowski, CGFM, CPA

INDEPENDENT AUDITOR'S REPORT

Honorable Matt Blunt, Governor
and
Members of the General Assembly

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2005, which collectively comprise the state's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the state's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Missouri Department of Transportation, the Consolidated Health Care Plan, the State Employees' Insurance Plan, the Transportation Employees' and Highway Patrol Insurance Plan, and the Transportation Self-Insurance Plan which represents 79 percent and 12 percent of the assets and revenues, respectively, of the governmental activities. We did not audit the State Lottery and the Petroleum Storage Tank Insurance Fund, which represents 41 percent and 59 percent of the assets and revenues, respectively, of the business-type activities. We did not audit the component units. We did not audit the pension (and other employee benefit) trust funds and the Missouri Department of Transportation Local Fund, which represents 95 percent and 97 percent of the assets and additions, respectively, of the fiduciary funds. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to these amounts, are based on the reports of the other auditors.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

We were not allowed access to tax returns and related source documents for income taxes. Access was denied by the Director of Revenue based on her interpretation of the decision rendered by the Missouri Supreme Court in the case of Director of Revenue v. State Auditor 511 S.W.2d 779 (Mo. 1974). Approximately 27 percent of governmental activity revenues are from this source. We were unable to satisfy ourselves by appropriate audit tests or other means as to the income tax revenue beyond the amounts recorded.

In our opinion, based on our audit and the reports of other auditors, and except for the effects of such adjustments, if any, as might have been necessary had we been allowed access to tax returns and related source documents for income taxes, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 2, the state of Missouri implemented the Government Accounting Standards Board statement Number 46, *Net Assets Restricted by Enabling Legislation*.

In accordance with *Government Auditing Standards*, our report on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters is issued under separate cover in the Single Audit Report. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and the budgetary comparison information as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, and except for the effects, if any, of the matter discussed in paragraph three, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The information in the introductory section and statistical section, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

The Management's Discussion and Analysis provides a narrative overview and analysis of the financial activities of the State.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's (the State's) financial activities for the fiscal year ended June 30, 2005. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

HIGHLIGHTS

Government-Wide:

- Assets of the State's governmental activities exceeded liabilities by \$27.4 billion; however this represents a decrease in net assets of \$92.2 million or 0.34% from the prior year. This decrease can be accounted for by an increase in accounts payable of \$115.6 million, an increase in long-term liabilities of \$42.3 million (primarily leases and claims liabilities), and a decrease in capital assets of \$36.1 million.
- Liabilities of the State's business activities exceeded assets by \$71 million; however this represents an increase in net assets of \$18.6 million or 20.75% from the prior year. This increase can be explained primarily by a significant decrease to unemployment compensation benefits.

Fund-Level:

- Governmental fund assets exceeded liabilities by \$3.1 billion, a decrease of \$291.2 million or 8.66% from the prior year. The decrease was primarily due to the increase of \$389.6 million in liabilities from which \$252.9 million were deferred revenue.

Debt Issued and Outstanding:

- The primary government's total long-term obligations related to bonds payable decreased \$115.7 million or 4.66% over the prior year. The outstanding bonds payable represents 41.0% of financial assets (cash, receivables, and investments) and 7.10% of total assets. The net decrease in bonds payable resulted from decreases of \$107,070,000 due to bond payments and \$166,250,000 due to bond refundings and increases of \$157,605,000 due to issuances of General Obligation, State Road, and Other Bonds. Additional detail is available in *Note 12*.

Revenue Limit:

- The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X or the Hancock Amendment. Excess revenue must be refunded to the taxpayers each year. During fiscal year 2005, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances, in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the State's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing and operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, insurance coverage, and the operation of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include colleges and universities, the Missouri Development Finance Board, Agricultural and Small Business Development Authority, and various highway transportation corporations.

Fund Financial Statements:

The fund financial statements present more detail about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. All of the funds of the State can be divided into three categories: governmental, proprietary, and fiduciary funds.

Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major Funds include general, public education, conservation and environmental protection, transportation and law enforcement, and the State Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements.

In order for the user to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements, a reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing and operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents, and the operation of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health-care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Petroleum Storage Tank Insurance, which are considered major enterprise funds. All internal service funds are combined into a single column in the proprietary fund financial statements. Non-major enterprise funds are combined into a single column for aggregated presentation. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the state government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the general fund and major special revenue funds. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules for the State Road, non-major special revenue, debt service, and permanent funds.

*Fiscal year 2004 amounts have been restated.

The State's total net assets decreased \$73.6 million or 0.27% during fiscal year 2005. This decrease resulted primarily from an increase of \$178.0 million in liabilities. Capital assets net of related debt and restricted assets, which do not represent resources available to pay day-to-day operating expenses, decreased by \$38.7 million or 0.13%.

The largest component of the State's net assets at \$25.5 billion or 93.37% is invested in capital assets net of related debt, such as bonds payable or capital lease obligations. These assets include land, infrastructure, buildings, and equipment which are not easily converted to cash nor readily available to pay state debts as they come due.

Restricted net assets of the primary government totaled \$3.2 billion or 11.78% of total net assets, vs. 11.93% from the prior year. Net assets are restricted for several reasons including constitutional, legal, or external requirements. Examples of restricted net assets include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

*Fiscal year 2004 amounts have been restated.

As shown on the above schedule, total revenue collections increased by \$1.3 billion or 6.95% during fiscal year 2005. Total expenses increased by \$911.4 million or 4.58% during fiscal year 2005. Those functions with the largest percentage increase include Human Services with 46.79% of total expenses in 2005 vs. 44.41% of total expenses in 2004 and Transportation and Law Enforcement with 9.66% of total expenses in 2005 vs. 8.74% of total expenses in fiscal year 2004.

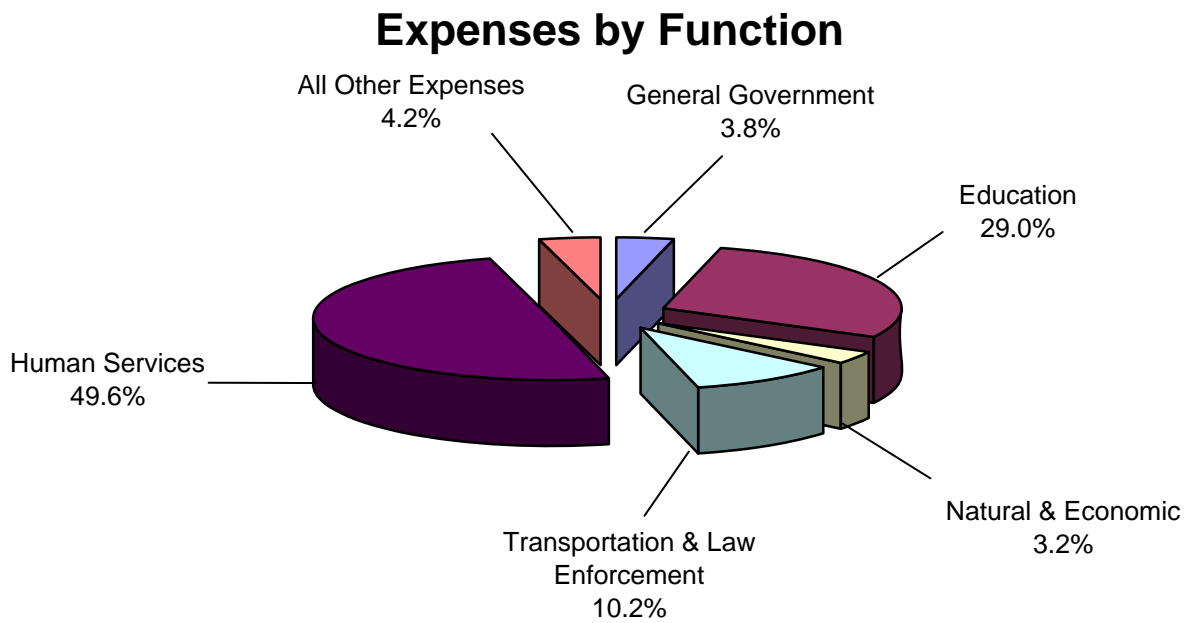

Governmental Activities:

Governmental activities decreased the State's net assets by \$92.2 million due primarily to the increase of \$1.1 billion in expenses of which \$901.2 million relates to the increase in human services expenses.

The following chart depicts revenues of the governmental activities for the fiscal year:

Business-Type Activities:

Net assets of the business-type activities increased by \$18.6 million during the fiscal year due primarily to the increase of \$9 million in total revenues and to the decrease of \$172.5 million in total expenses.

FUND STATEMENT ANALYSIS

Governmental Funds:

At the end of fiscal year 2005, the State's governmental funds reported combined ending fund balances of \$3.1 billion, a decrease of \$291.2 million or 8.66% over fiscal year 2004. Approximately 52.63% is unreserved and available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed: 1) for budget reserve, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	Public Education	Conservation and Environmental Protection	Transportation and Law Enforcement	State Road	Non-Major	Total
Unreserved	\$ 326,907	\$ 229,885	\$ 386,770	\$ 187,699	\$ 120,202	\$ 364,518	\$ 1,615,981
Reserved	577,561	46	604,357	6,950	111,007	154,499	1,454,420
Total	\$ 904,468	\$ 229,931	\$ 991,127	\$ 194,649	\$ 231,209	\$ 519,017	\$ 3,070,401

The General Fund is the chief operating fund of the State. At the end of fiscal year 2005, the State's General Fund reported a total fund balance of \$904.5 million. The net decrease in fund balance during fiscal year 2005 was \$270.6 million. Revenues of the general fund totaled \$14.8 billion in fiscal year 2005, an increase of \$892 million from fiscal year 2004. Factors contributing to this increase included the following:

- Revenue from taxes increased \$476.6 million from fiscal year 2004 to fiscal year 2005. The most significant increase was Individual Income Tax, which increased \$288.3 million, and an increase of \$63.1 million in revenue from sales and use tax.
- Contributions and intergovernmental revenues increased by \$398.7 million during fiscal year 2005 due primarily to an increase of \$514.3 million in revenue from federal receipts for grants or programs financed by the U.S. Department of Health and Human Services and a decrease of \$138.5 million from federal receipts for grants or programs financed by other federal sources.

Expenditures of the General Fund totaled \$12.7 billion in fiscal year 2005, an increase of \$1.2 billion from fiscal year 2004. The major factor that contributed to this was an increase of \$937.3 million to human services expenditures due primarily to two factors:

- An increase of \$138.6 million paid to individual recipients for social welfare.
- An increase of \$471 million in payments to doctors, hospitals, consultants and optical companies, and similar institutions who also provide medical treatment to social welfare recipients.

The public education fund category provides general and special education services to the children of the State and other related functions such as library services and student loans. Total fund balance increased by \$32.3 million. Expenditures of the public education funds totaled \$3.8 billion in fiscal year 2005, an increase of \$156.1 million from fiscal year 2004. The major factor that contributed to this was an increase of \$143.7 million in the education expenditures for an increase in aid to educational institutions and school districts for expenditures by the institution or the district.

The conservation and environmental protection fund category provides for the preservation of the State's wildlife and environment. The fund balance increased by \$52 million. Revenues of the conservation and environmental protection funds totaled \$321 million for fiscal year 2005, a decrease of \$21.7 million from fiscal year 2004. The major contributing factor is a decrease of \$31 million in contributions and intergovernmental revenues due mainly to a decrease of \$34.5 million in federal receipts for grants or programs financed by the U.S. Environmental Protection Agency and an increase of \$3 million in revenue from conservation sales and use tax.

Expenditures of the conservation and environmental protection funds totaled \$272 million for fiscal year 2005, an increase of \$4.1 million. The major factor that contributed to this was an increase of \$61.4 million in natural and economic resources and a decrease of \$47.7 million in intergovernmental expenditures.

The transportation and law enforcement fund category provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety. The fund balance increased by \$62.3 million. Revenues increased \$24.5 million during fiscal year 2005. The major factor contributing to this was an increase of \$15.6 million in revenue from license fees and permits. Out of this amount, \$3 million is revenue from motor vehicle license and permits and \$2 million is in the form of charges to owners and operators of motor vehicle and trailers operated in interstate or combined interstate/intrastate commerce.

The State Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. The fund balance decreased by \$98.7 million in fiscal year 2005. Revenues of the State Road Fund increased during fiscal year 2005 by \$127.1 million primarily due to an increase of \$108.2 million in revenues from contributions and intergovernmental. Out of this amount, \$95.5 million are from federal receipts for grants or programs financed by the U.S. Department of Transportation.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance Fund. The State Lottery was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law". This tax finances benefits for workers who become unemployed through no fault of their own. The Petroleum Storage Tank Insurance Fund accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks. The fund pays cleanup expenses from petroleum leaks or spills from underground storage tanks and certain above ground storage tanks as well as third party property damage or bodily injury resulting from such discharges. This fund is one of the largest insurers of tanks in the country.

The State Lottery Fund's net assets increased by \$630,000. Revenues decreased by \$5.9 million during the year because of the decrease of \$5.6 million in lottery ticket sales.

The Unemployment Compensation Fund's net assets increased by \$18.3 million due primarily to a decrease of \$194.5 million in unemployment benefit expenses.

The Petroleum Storage Tank Insurance Fund's net assets increased by \$946,000. Expenses increased by \$13.8 million primarily due to an increase of \$13.4 million in specific programs.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the first complete appropriated budget that is truly agreed to and finally passed, and signed by the Governor. The final budget includes emergency and supplemental appropriations, transfers, and increases to estimated appropriations.

Budgeted appropriations for fiscal year 2005 from the general fund were \$16.6 billion original budget and \$17 billion revised budget. Actual spending was \$15.9 billion. Reasons for the budget variances include:

- Federal grants received were lower than appropriation authority.
- Multiple year grants are appropriated in one year but the expenditures may occur over several years.
- Appropriation authority exceeded cash available for expenditures.
- Federal moneys related to Medicaid were lost because the Department of Social Services did not have available the money for the required state match.

Budgeted revenues/transfers in for fiscal year 2005 for the general fund was \$15.6 billion original budget and \$15.6 billion revised budget. Actual revenue/transfers in was \$15.7 billion. Reasons for the budget variances include:

- Revenue growth in fiscal year 2005 outpaced economic growth forecasts for the State. Many economic forecasting experts predicted strong growth in production, but slow growth in jobs. Since Missouri's revenues are highly dependent on withholding and sales taxes, continued conservatism in the forecast was justified.
- Tax changes at the Federal level, particularly the Jobs and Growth Tax Relief Reconciliation Act of 2003, created uncertainty and posed substantial downside risk. While some provisions of the Act benefited Missouri's revenues, the Act also raised the standard deduction for many filers and enhanced depreciation allowances.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 92 for more information on budgetary variances.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2005, was \$27.4 billion (net of accumulated depreciation). This investment in capital assets includes construction in progress, infrastructure in progress, land, land improvements, buildings and improvements, equipment, and infrastructure.

Capital Assets of the State include (in thousands):

	Governmental Activities	Business-Type Activities	Total

Additional information on capital assets can be found in *Note 5* of this report.

Long-Term Debt:

At the end of fiscal year 2005, the State had total general obligation and other bonded debt outstanding of \$2.4 billion. Of this amount, \$790.9 million comprises debt backed by the full faith and credit of the government.

During fiscal year 2005, \$157,605,000 of general obligation refunding bonds were issued to refund \$166,250,000 of general obligation bonds and to take advantage of lower interest rates. Principal amounts retired in fiscal year 2005 were \$55,560,000 for general obligation bonds and \$51,510,000 for other revenue bonds.

The State of Missouri is proud to be one of only six states to maintain a Triple-A credit rating from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable of the State include (in thousands):

	Governmental Activities	Component Units	Total
General Obligation Bonds	\$ 790,910	\$ ---	\$ 790,910
Other Bonds	1,577,000	1,005,041	2,582,041

Additional information on long-term debt can be found in *Notes 11, 12, and 13* of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

Missouri's economic future remains positive as evidenced by economic indicators and statistics. Missouri's exports totaled approximately \$9.7 billion in fiscal year 2005 which is nearly a half a billion ahead of the record sales of fiscal year 2004. Missouri ranked No. 21 nationally in personal income growth with an increase of 1.1% from the fourth quarter of 2004 to the first quarter of 2005. This outpaced the national average of 0.7%. Cost of living in Missouri is the 6th lowest in the nation and the Purchaser Manager's Index (PMI) for June was 56. A score of above 50 indicates an expanding economy.

U.S. AND MISSOURI UNEMPLOYMENT RATE, SEASONALLY ADJUSTED

Source: MERIC & U.S. Bureau of Labor Statistics

After fairly irregular employment growth in 2004, Missouri's employment is beginning to show strong growth in 2005. Approximately 39,700 jobs have been added to Missouri's economy, on a seasonally adjusted basis, representing an annual growth rate of about 3.5%. During that period, all major industry groups, except "other services" and government expanded; private sector industry employment increased by 42,800 jobs between January and June of this year.

During fiscal year 2005, Missouri's unemployment rate peaked in January at 6%. Since then, the unemployment rate has been decreasing, dropping to 5.4% in June. This is a 0.3% decrease from the end of June in fiscal year 2004 and the lowest the unemployment rate has been since February 2003 when it was 5.3%. Historically, Missouri's unemployment rate has been lower than the nation's rate and has mirrored its changes. However, since June 2004, Missouri's unemployment rate has exceeded the U.S. unemployment rate, thanks in part to a growing labor force.

The State of Missouri completed fiscal year 2005 with a growth in revenues of 5.8% from fiscal year 2004 and a balanced budget. Balancing the budget included cuts in the state workforce of 1,456 positions, debt management, and a reduction to Medicaid. However, significant funding challenges are still on the horizon involving education, Medicaid, and correctional facilities.

Funding for Missouri schools remains a challenge. Elementary and secondary education became the top public priority in 2005 with a revision of the school funding formula. This revision calls for an increase in spending by about \$800 million to be phased in by the 2012-13 school year. This revision came in response to a lawsuit filed by 257 of the 524 Missouri schools against the State in January 2004 over both the equity of funding between schools and the overall adequacy of school funding. An amended lawsuit filed in November 2005, by 231 of the schools is still pending. In fiscal year 2006, lawmakers have increased education spending by 4.4% or \$158 million.

State universities and community colleges have experienced several substantial funding cuts during past years. In the last two years, tuition has increased by 23.8% for four-year institutions and 16.2% at community colleges. However, the level of funding for higher education will remain the same for 2006 as it was for 2005.

The percentage growth for Medicaid is expected to continue to outpace growth in general revenue for fiscal year 2006. In response, the State has implemented changes in order to sustain the program, including reducing the income eligibility levels and certain optional services for the working disabled and general relief medical assistance programs and reverification of eligibility. The Medicaid Reform Commission was also formed with the purpose of making recommendations to the General Assembly on redesigning, reforming, or restructuring a new Medicaid system to be enacted on June 30, 2008. These changes impact 90,000 Missourians and will cut approximately \$474 million dollars from Medicaid in fiscal year 2006.

Tougher crime laws have made it increasingly costly for the State's correctional facilities. The prison population has doubled since 1990 to around 31,000 inmates. The cost of maintaining these facilities has also doubled to a total of \$589 million in fiscal year 2006. Rising costs and budgetary pressures have led to the closing of several inefficient state prisons in fiscal year 2005 including the Missouri State Penitentiary, the Chillicothe Correctional Center, and Church Farm. Inmates at these closed prisons were moved to other correctional facilities.

Despite funding challenges, the State is working to stimulate the economy, increase efficiency, and decrease costs. In the past year, Missouri has passed Senate Bill 343 - the Missouri Quality Jobs Act which creates a new incentive program that rewards businesses for new jobs created, House Bill 393 - Tort Reform to address Missouri's medical malpractice insurance crisis and moderate the litigation environment, and Senate Bill 1 - Worker's Compensation Reform which creates a reasonable balance between the rights of workers to be compensated for their legitimate work-related injuries and the needs of businesses to have an affordable worker's compensation system. These measures should encourage economic development in Missouri, and benefit workers and employers alike.

Events taking place after the State's fiscal year end include:

- Information Technology Resources will be consolidated within the Office of Administration for a more effective use of state resources and lower cost.
- In November 2005, the Report and Recommendations of the Missouri State Government Review Commission will be issued. This report gives a comprehensive review of state government functions for the purpose of restructuring, consolidating, or eliminating these functions in order to provide better and more cost effective services to Missouri citizens.

**STATE OF MISSOURI
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES IN
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2005
(In Thousands of Dollars)**

Net Change in Fund Balances – Total Governmental Funds \$ (291,545)

Amounts reported for governmental activities in the Statement of Activities are different because:

Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement. 361

Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount that capital outlays of \$763,473 is exceeded by depreciation of \$801,753 in the current period. (38,280)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 243,787

Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Assets (Note 12).

Bonds Issued	(157,605)	
Bond Premiums, Issuance, and Refunding Costs	(7,568)	
Bond Principal Payments	273,320	
Capital Leases Issued	(53,025)	
Capital Lease Payments	18,644	
	18,644	73,766

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds (Notes 11 and 12).

Amortization of Bond Premiums, Issuance, and Refunding Costs	8,085	
Decrease in Restricted Cash	(18,775)	
Decrease in Accrued Interest	4,313

*The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.*

Proprietary Fund Financial Statements

Major Funds

State Lottery – Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation – Accounts for contributions and payments collected under the provisions of the “Unemployment Compensation Law” to pay benefits.

Petroleum Storage Tank Insurance – Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 1 – Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The State has elected not to follow the Financial Accounting Standards Board's pronouncements issued after November 30, 1989 for proprietary activities.

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14 – *The Financial Reporting Entity* for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization or; 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39 – *Determining Whether Certain Entities are Component Units* added a requirement to include all entities whose relationship with the State would make it misleading to exclude it.

In addition to the legislative, executive and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

Internal Service Funds:

Board of Public Buildings – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and pay the costs of operations. Copies of the Board of Public Buildings' financial statements can be requested from:

Missouri State Public Employees' Deferred Compensation Commission – The Commission consists of one member of the House of Representatives, one member of the Senate, and three other members appointed by the Governor with the advice and consent of the Senate. The Commission offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under this Plan, employees are permitted to defer a portion of their current salary until future years. This Plan's fiscal year ends December 31, therefore, financial statements for its reporting period ending December 31, 2004, have been included in this report. In addition, the Commission offers eligible employees the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. Copies of financial statements for both Plans can be requested from:

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Assets and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 1 – Significant Accounting Policies (cont.)

The **Statement of Net Assets** presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net assets.

The **Statement of Activities** demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation expense, are included in the direct expenses reported for individual functions. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

The difference between fund assets and liabilities is reported as "Net Assets" on the government-wide, proprietary, and fiduciary fund statements, and "Fund Balance" on the governmental fund financial statements.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise fund categories, with each displayed in a separate column. All remaining governmental and enterprise fund categories are aggregated and reported as non-major funds. Internal service fund categories are also aggregated and reported in a separate column on the proprietary fund financial statements.

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants, and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the State Road Fund, which updates inventory perpetually under the consumption method.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 1 – Significant Accounting Policies (cont.)

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets and liabilities associated with the operation of these funds are included on the Statement of Net Assets. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net assets. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to colleges and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

General Fund – accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Public Education – provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection – provides for the preservation of the State's wildlife and environment.

Transportation and Law Enforcement – provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

State Road – accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

State Lottery – accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation – accounts for contributions, payments, and federal loans collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

Petroleum Storage Tank Insurance – accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

Note 1 – Significant Accounting Policies (cont.)

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

Proprietary Funds include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

Fiduciary Funds include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other funds.

Discretely Presented Component Units:

Major

Colleges and Universities account for moneys from federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets and liabilities are accounted for on the Statement of Net Assets. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and sales tax proceeds. Assets and liabilities are accounted for on the Statement of Net Assets. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Fund Net Assets.

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of three months or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Fund Statement of Cash Flows are also reported under this definition. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

E. Investments

These are long-term investments which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. All investments are reported at fair value (see *Note 3*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Significant Accounting Policies (cont.)

F. Interfund Receivables/Payables

The State makes various transactions between funds or between primary government and component units to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statements of Net Assets. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statements of Net Assets (see *Note 15*).

G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statements of Net Assets. Long-term interfund payables are classified as "advances from other funds" or "advances from primary government/component units" on the Balance Sheet and Statements of Net Assets (see *Note 15*).

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the State Road Fund, which updates inventory perpetually under the consumption method. Reserves of fund balance have been established for the inventory balances in governmental funds. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average, weighted average, and first-in, first-out.

I. Restricted Assets

These moneys are restricted by donors and applicable bond indentures.

J. Capital Assets

Capital assets, which include construction in progress, infrastructure in progress, land, land improvements, buildings, equipment, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement (see *Notes 5 and 6*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, and equipment – \$1,000. No dollar threshold is set for land or infrastructure.

Capital assets are depreciated using the straight-line method of depreciation over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, equipment – 5 years, and infrastructure 12 to 50 years. Construction in progress, infrastructure in progress, and land are not depreciated.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 1 – Significant Accounting Policies (cont.)

Most works of art and historical treasures are not capitalized or depreciated. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capital grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated using the straight-line method of depreciation over the following useful lives: buildings – 40 years, land improvements and building improvements – 20 years, and equipment – 5 years.

K. Deferred/Unearned Revenues

Governmental Funds

Deferred revenues are those for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met for governmental funds, which use the modified accrual basis of accounting. Therefore, such amounts are reported within the governmental fund financial statements as receivables and offset by a deferred revenue account. These amounts include \$688,246,000 within the General Fund, \$31,956,000 within the major special revenue funds, \$16,703,000 within the State Road Fund, and \$4,521,000 within non-major governmental funds which totals \$741,426,000 for governmental funds. Such amounts have been deemed to be measurable but not available. All major sources of revenue, including taxes; licenses, fees, and permits; and governmental contributions; are susceptible to accrual when available within 60 days.

Deferred revenues also include amounts collected in advance of the year in which earned. The State has reported as such deferred revenues of \$42,197,000 within the General Fund, \$610,000 within major special revenue funds, \$9,680,000 within the State Road Fund totaling \$52,487,000.

Proprietary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$24,047,000 within the internal service funds included in governmental activities. Total unearned revenue for enterprise funds is \$596,000 which includes \$555,000 within the Petroleum Storage Tank Insurance Fund, \$41,000 within the non-major enterprise funds.

Component Units

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$58,088,000 within the college and university funds which is the total unearned revenue amount for component units.

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

1. Due to Other Entities includes outstanding principal on advances from other governments, contractual obligations to other governments, and loans from other entities. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 1 – Significant Accounting Policies (cont.)

2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).
3. Outstanding principal for revenue bonds issued by the Board of Public Buildings, State Road bonds issued by the Missouri Highways and Transportation Commission, and bonds issued by the Health and Educational Facilities Authority and the Regional Convention and Sports Complex Authority. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).

5. Obligations under lease/purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, and the State Road Fund (see *Notes 6 and 11*).
6. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds but are recorded as expenditures when paid (see *Note 11*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State.

7. Claims and contingency liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 11, 21, and 23*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

M. Net Assets

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2005, net assets restricted by enabling legislation equaled \$738,092,000 for governmental activities and \$2,084,000 for business-type activities.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 1 – Significant Accounting Policies (cont.)

N. Revenues

The revenues of the General Fund include federal grants and contributions of \$6,993,296,000. Revenues for all funds are reported net of refunds of \$1,641,045,000.

O. Interfund Transactions

During the fiscal year the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, construct assets, and service debt. Interfund transactions basically consist of these two types:

1. Transactions that would be treated as revenues or expenditures/expenses if they involved organizations external to the State are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered and to agency funds for contributions for employee benefits.
2. Transfers from funds receiving revenues to funds through which the resources are to be expended and operating subsidies are classified as transfers (see *Note 16*).

P. Expenditures and Expenses

Expenditures and expenses are reported net of revenue over collections of \$1,222,708,000 and \$260,000, respectively. Expenditures and expenses are reported net of overpayments to vendors, individuals, school districts and for cost reimbursements of \$417,298,000 and \$779,000, respectively.

Q. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund.

The property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 – Reporting Changes and Reclassifications

The Administrative Law Judges and Legal Advisors' Plan (ALJLAP) was terminated on April 26, 2005, per Senate Bill 202. Under this legislation, individuals who assume an administrative law judges or legal advisors position after April 26, 2005, who would have otherwise been covered by ALJLAP will instead participate in the Missouri State Employees' Plan. All net assets of ALJLAP were transferred to the Missouri State Employees' Plan. The ALJLAP and the Missouri State Employees' Plan are reported as pension (and other employee benefit) trust funds.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 2 – Reporting Changes and Reclassifications (cont.)

The State of Missouri implemented the following new accounting standard issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ended June 30, 2005:

- Statement No. 46, *Net Assets Restricted by Enabling Legislation*.

Statement No. 46 amends Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Governments*.

Paragraph 34 of GASB Statement No. 34 requires the fund reporting of restricted net assets when constraints are placed on net asset use through enabling legislation. One of the conditions of enabling legislation is that it needs to include a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Statement No. 46 clarifies that a legally enforceable enabling legislation restriction is one that a party external to a government – such as citizens, public interest groups, or the judiciary – can compel a government to honor. In addition, Statement No. 46 also requires governments to disclose the portion of total net assets that is restricted by enabling legislation.

Note 3 – Deposits, Investments and Securities Lending Program

The State Treasurer maintains a cash and short-term investment pool that is used by substantially all state funds. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized below is the portfolio that represents the "Cash and Cash Equivalents", "Investments", "Restricted Assets – Cash and Cash Equivalents", and "Restricted Assets – Investments" as reported at June 30, 2005.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law. Custodial credit risk is risk associated with the failure of a depository financial institution. In the event of a depository financial institution’s failure, the State would not be able to recover its deposits or collateralized securities that are in the possession of the outside parties. Statutes restrict the State Treasurer to deposit funds in financial institutions that are physically located in Missouri which are selected based on financial stability and community involvement. The financial institution’s loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% with approved securities. Deposits must have a maturity of five years or less and earn interest at a rate equal to that paid on U.S. Treasury securities with equivalent maturities.

Primary Government

At June 30, 2005, the reported amount of the primary government’s deposits was \$533,676,000 and the bank balance was \$541,835,000. Of the bank amount, \$175,000 was uncollateralized, and \$93,000 was collateralized with securities held by the counterparty’s trust department or agent but not in the State’s name.

Fiduciary

At June 30, 2005, the reported amount of the deposits of the fiduciary funds was \$53,963,000 and the bank balance was \$62,502,000. Of the bank amount, \$2,476,000 was uncollateralized, and \$1,503,000 was collateralized with securities held by the counterparty’s trust department or agent in the State’s name.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 3 – Deposits, Investments and Securities Lending Program (cont.)

Component Units

At June 30, 2005, the reported amount of the deposits of the component units was \$364,448,000 and the bank balance was \$375,878,000. Of the bank amount, \$898,000 was uncollateralized, and \$19,182,000 was collateralized with securities held by the counterparty's trust department or agent in the component units' name.

B. Investments

Statutes authorize the State Treasurer to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within ninety days secured by U.S. Treasury or Agency securities of any maturity. The internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. Government securities, repurchase agreements, preferred and common stocks, bonds, real estate, and fixed income securities. There have been no violations of these investment restrictions during fiscal year 2005.

The State Treasurer minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Primary Government

At June 30, 2005, the reported amount of the primary government's investments was \$2,496,141,000. Of the amount, \$609,000 was uninsured and unregistered.

Fiduciary

At June 30, 2005, the reported amount of the fiduciary funds investments was \$9,382,971,000. Of the amount, \$581,000 was uninsured and unregistered with securities held by the counterparty's trust department or agent but not in the State's name.

Component Units

At June 30, 2005, the reported amount of the component units investments was \$1,779,582,000. Of the amount, \$179,590,000 was uninsured and unregistered, \$27,013,000 was uninsured and unregistered with securities held by the counterparty's trust department or agent in the component units' name, and \$13,744,000 was uninsured and unregistered with securities held by the counterparty's trust department or agent but not in the component units' name.

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity in years. The State Treasurer minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 1.5 years, and holding at least 40% of the portfolio's total market value in securities with a maturity of 12 months or less.

Note 3 – Deposits, Investments and Securities Lending Program (cont.)

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer from investing more than 5% of the total investment portfolio into any single financial institution or issuer, excluding U.S. securities and repurchase agreements. There are no restrictions in the amount that can be invested in U.S. securities, however, there can be no more than 15% of the total portfolio invested in repurchase agreements. During fiscal year 2005, the State did not have more than 5% of total investments in a single issuer.

The State Treasurer requires investments in commercial paper and bankers' acceptances have the highest letter and numerical ranking (A1/P1) as rated by Moody's Investor Service, Inc. (Moody's) and Standard & Poor's Corporation (S & P). The Treasurer does not have any additional policies regarding credit ratings of investments. The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

The State Treasurer does not have a policy regarding foreign currency risk, which is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars. The State Treasurer's Office does not have any deposits or investments in foreign currency, however, the Missouri State Employees' Retirement System and the Missouri Department of Transportation and Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. In addition to the amounts provided in the table, the University of Missouri System had \$66,345,000 in government obligations and \$21,102,000 in bonds held in foreign currencies as of June 30, 2005.

Note 3 – Deposits, Investments and Securities Lending Program (cont.)

C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.5 RSMo. Until October 2004, the program was administered by U.S. Bank as the State Treasurer's custodial agent bank, which lends certain securities to registered broker-dealers as approved by the State Treasurer's Office in exchange for collateral. As of October 2004, Bank of New York began acting as the State Treasurer's custodial bank and securities lending agent. For securities which are received as collateral under a bonds borrowed program, at least 75% of the collateral received must match the maturities of the securities lent with a maximum duration gap between loans and investments of 15 days. The maximum life of term loans shall be 90 days.

Collateral may be in the form of cash, securities issued or guaranteed by the United States Government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The Custodian provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2005, the State Treasurer's Office had an aggregate fair value of securities lent of \$316,540,000 and an aggregate fair value of collateral received of \$322,918,000.

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Certain securities of the Pension Trust Funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities, without borrower default. On June 30, 2005, MOSERS had no credit risk exposure to borrowers because the collateral amounts received exceeded amounts out on loan.

Credit Suisse/First Boston, New York Branch (CSFBNY) served as the agent for the fixed income domestic equity, and international equity securities lending programs. MOSERS reduces credit risk by allowing CSFBNY to lend these securities to a diverse group of dealers on behalf of MOSERS. CSFBNY provides indemnification against dealer default.

Daily monitoring of securities that are on loan ensure proper collateralization levels and mitigate counterparty risk. The majority of the security loans are open loans and can be terminated on demand by either MOSERS or the borrower. Cash collateral is invested in short-term investment funds, managed by CSFBNY. On June 30, 2005, the cash collateral fund had a market value of \$1,099,842,000 and a weighted average maturity of 24 days. At June 30, 2005 and 2004 MOSERS earned \$3,251,000 and \$4,036,000, respectively, on the securities lending program.

Note 3 – Deposits, Investments and Securities Lending Program (cont.)

Missouri Department of Transportation and Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Patrol Employees' Retirement System (the System), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. The System's custodial bank is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

During the fiscal year, the System lent securities and received cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. The System did not have the ability to pledge or sell collateral securities absent a borrower default. Borrowers were required to deliver collateral for each loan equal to: (1) in the case of loaned securities denominated in dollars or whose primary trading market was located in the United States, 102% of the market value of the loaned securities plus any accrued interest; and (2) in the case of loaned securities not denominated in U.S. dollars or whose primary trading market was not located in the United States, 105% of the market value of the loaned securities plus any accrued interest.

The System did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

The System and borrowers maintained the right to terminate all securities lending transactions on demand. The collateral held at June 30, 2005, was \$164,438,000 and the market value of securities on loan for the System was \$158,705,000.

At June 30, 2005 and 2004, the System earned \$506,000 and \$333,000, respectively, on the securities lending program.

University of Missouri System:

The University participates in a securities lending program to augment income. The program is administered by the University's custodial agent bank, which lends certain securities for a predetermined period of time, to an independent broker/dealer (borrower) in exchange for collateral. Collateral may be cash, U.S. government securities, defined letters of credit or other collateral approved by the University. Loans of domestic securities are initially collateralized at 102% of the fair value of securities lent. Loans of international securities are initially collateralized at 105% of the fair value of securities lent. The University has minimized its exposure to credit risk from borrower default by having the custodial agent bank determine daily that required collateral meets a minimum of 100% of the market value of securities on loan for domestic securities lent and 105% for international securities lent.

The University continues to receive interest and dividends during the loan period as well as a fee from the borrower. The maturities of the investments made with the cash collateral generally match the maturities of the securities lent. At June 30, 2005, the University has no credit risk exposure since the collateral held exceeds the value of the securities lent. The University is fully indemnified by its custodial bank against any losses incurred as a result of borrower default. The University can pledge or sell cash and securities received as collateral absent a borrower default.

Note 3 - Deposits, Investments and Securities Lending Program (cont.)

At June 30, 2005, letters of credit and security collateral, not meeting the criteria for inclusion on the Combined Statement of Net Assets, totaled \$3,170,000. At June 30, 2005, the aggregate fair value of the securities lent was \$81,611,000 and the aggregate fair value of the collateral received was \$81,799,000.

D. Derivatives

Missouri State Employees' Retirement System (MOSERS), through its external investment managers, has an investment policy which holds investments in futures contracts, swap contracts, and forward foreign currency exchange contracts. MOSERS does not anticipate additional significant market risk from the swap arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. MOSERS also invests in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2005. The investments are reported at fair value and are included on the Statement of Plan Net Assets of the pension trust funds.

Note 4 - Federal Surplus Commodities Inventory

The federal surplus commodities inventory for the Department of Social Services and the Department of Health and Senior Services were \$122,000 and \$2,414,000, respectively, as of June 30, 2005. This inventory is not considered to be an asset of the State and is not included in the financial statements.

Note 6 – Leases

Capital

The State has entered into various agreements to lease land, buildings and equipment. FASB Statement No. 13, *Accounting For Leases*, requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease).

Capital leases for the internal service and college and university funds are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

<u>Fiscal Year</u> <u>Ending June 30</u>	<u>Governmental</u> <u>Funds</u>	<u>Internal Service</u> <u>Funds</u>	<u>College and</u> <u>University</u>

Note 6 – Leases (cont.)

Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating because the lease period is one year with multiple renewal options. Future minimum commitments due under operating leases as of June 30, 2005, were as follows (in thousands of dollars):

<u>Year Ending June 30</u>	<u>Primary Government</u>	<u>Component Units</u>
2006	\$ 35,403	\$ 3,586

2021–2025	628	---
After 2025	<u>137</u>	<u>---</u>
Total Minimum Commitments	<u>\$ 37,740</u>	<u>\$ 8,302</u>

Expenditures for rent under operating leases for the years ended June 30, 2005 and June 30, 2004 were \$36,187,000 and \$33,788,000, respectively.

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. Future minimum receivables, payable from lessor arrangements as of June 30, 2005, were as follows (in thousands of dollars):

<u>Year Ending June 30</u>	<u>Primary Government</u>	<u>Component Units</u>

Note 7 – Retirement Systems

The State has two major retirement systems which cover substantially all state employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Patrol Employees' Retirement System (MPERS). The University of Missouri's Retirement Plan is included as the University is a component unit of the State. The Public School Retirement System of Missouri is included in this note disclosure as the State contributes to it.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The Plans are administered in accordance with the Revised Statutes of Missouri Sections 104.010 and 104.312-104.1215, and 476.445-476.690, respectively.

The MSEP has two benefit structures known as MSEP (closed plan) and MSEP 2000 (new plan). The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000. Members in the closed plan have the option at retirement to choose between the benefit structure of the closed plan or new plan. Retirement benefits for members of the Judicial Plan are administered and paid by MOSERS.

MOSERS provides retirement, death, and disability benefits to its members. MOSERS employees are fully vested after 5 years of creditable service (4 years for elected officials and 6 years for legislators). The retirement eligibility requirements are as follows:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 55 with at
least 10 years of service with reduced benefits.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 57 with at
least 5 years of service with reduced benefits.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less
than 12 years of service or age 60 with less
than 15 years of service with reduced benefit
that is based upon years of service relative to
12 or 15 years.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the change in the Consumer Price Index (CPI) with a floor of 4% and a ceiling of 5%, until the cumulative amount of COLAs equal 65% of the original benefit, thereafter the 4% floor is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

Note 7 – Retirement Systems (cont.)

The Missouri Department of Transportation and Patrol Employees' Retirement System (MPERS) is a single-employer defined benefit public employees' retirement system administered in accordance with the Revised Statutes of Missouri Sections 104.010-104.1093.

MPERS membership is composed of qualified employees of the Missouri Highways and Transportation Commission (includes employees of the Department of Transportation), and uniformed and non-uniformed members of the State Highway Patrol.

MPERS provides retirement, death and disability benefits to its members. Employees are fully vested after 5 years of creditable service. Employees may retire at age 65 with 4 years of service; age 60 with 15 years of service; age 55 with 4 years of service (uniformed members only); or age 48 with age and service equaling 80 or more. Employees may retire between the ages of 55 and 59 and receive a reduced benefit if they have at least 10 years and less than 30 years of service. For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the change in the Consumer Price Index (CPI) with a floor of 4% and a ceiling of 5%, until the cumulative amount of COLAs equal 65% of the original benefit, thereafter the 4% floor is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the CPI. Effective August 28, 2003, uniformed patrol members who previously were employed by a non-federal public entity will be allowed to purchase creditable service time of up to 4 years maximum.

Funding Requirement

MOSERS administers plans which cover substantially all State of Missouri employees. The State of Missouri is obligated by state law to make all required contributions to the System. The actuarially determined contributions are expressed as a level percentage of covered payroll. Current year actuarially determined contribution rates for the MSEP and the Judicial Plan are 10.64% and 54.51%, respectively. Actual contribution rates are the same as the actuarially determined rates.

The State of Missouri makes all required contributions to MPERS. Current year calculated contribution rates are 43.54% for uniformed members of the Highway Patrol and 28.28% for non-uniformed members of the Highway Patrol and employees of the Missouri Department of Transportation. Actual contribution rates are the same as the actuarially determined rates.

*All assets and liabilities of the ALJLAP were transferred to the MSEP per Senate Bill No. 202, et al that was signed into law on April 26, 2005 by Governor Matt Blunt. This Senate Bill terminated the ALJLAP for new hires.

The annual required contribution for MOSERS for the current year was determined as part of an actuarial valuation of the Systems as of June 30, 2003, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MOSERS include (a) rate of return on the investment of present and future assets of 8.5% per year compounded annually, (b) projected salary increases of 4.0% per year annually, attributable to inflation, (c) additional projected salary increases ranging from 0% to 2.7% per year for MSEP and 0% to 1.6% for the Judicial Plan, depending on age, attributable to seniority and/or merit and (d) the assumption that benefits will increase 4.0% per year after retirement.

The actuarial valuation of the System dated June 30, 2005, will set the required contribution rates for the fiscal year ending June 30, 2007. The actuarial value of assets was determined using a 5-year valuation method which fully recognizes expected investment return and averages unanticipated market return. The unfunded actuarial accrued liabilities are amortized on a closed basis as a level percentage of payroll over 30 years.

The annual required contribution for MPERS for the current year was determined as part of an actuarial valuation as of June 30, 2003, using the normal entry age actuarial cost method. Significant actuarial assumptions used in the valuation for MPERS include (a) rate of return on the investment of 8.25% and (b) projected wage inflation rate of 3.75%.

Public School Retirement System of Missouri:

The State of Missouri also made employer contributions to the Public School Retirement System of Missouri which is a cost-sharing multiple-employer defined benefit public employees' retirement system. The System includes all public school districts within the State except for the two districts covering the major metropolitan areas. It also includes certain public colleges and universities and some state employees.

The benefit provisions include retirement annuities, death benefits and disability benefits. A member is vested after acquiring five years of membership credit for Missouri service.

The System was created and is governed by Chapter 169 of the Revised Statutes of Missouri. State employees who elect to remain with the Public School Retirement System under the Revised Statutes of Missouri, Section 104.342, are covered by the System.

Employees of the State are not required to contribute. The State, as employer, contributed \$2,179,000, \$2,752,000, and \$2,951,000 for the years ending June 30, 2005, 2004 and 2003, respectively, to the System. These were equal to the required contributions for 2004 and 2003. Required contributions for 2005 were \$2,218,000.

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability and Death Benefit Plan is a single employer, defined benefit plan for all qualified employees. The University's Board of Curators establishes the terms of the Plan and administers it as authorized by state statute.

All full-time employees are eligible for benefits after five years of credited service. Full benefits are available to members who retire at age 65 or after. Early retirement may be taken, at member's option, after age 55 with at least ten years of credited service, or age 60 with five years of credited service. Benefits are reduced for those who retire early, unless they retire at age 62 or later with at least 25 years of credited service. At retirement, up to 30% of the value of the retirement annuity can be taken in a lump sum; also the single life annuity can be exchanged for an actuarially equivalent annuity option.

Separate financial statements and supplemental schedules are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2005 financial report, which is publicly available. Copies of this report can be requested from:

University of Missouri System
Office of the Controller
118 University Hall
Columbia, Missouri 65211

Funding Requirement

The University's contributions to the Plan are equal to the actuarially determined contribution requirement, as a percent of payroll, which averaged 6.4% for the year ended June 30, 2005. The Plan is funded 100% by University contributions and does not require employee contributions. The contribution rate is updated annually at the beginning of the University's fiscal year on July 1 to reflect the actuarially determined funding requirement from the most recent valuation, as of the preceding October 1, and the adoption of any Plan amendments during the interim.

Note 8 – Other Postemployment Benefits

In addition to the retirement benefits described in *Note 7*, the State provides postemployment health care and life insurance benefits, in accordance with state statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the Highway and Transportation Employees' and Highway Patrol Insurance Plan (HEHPIP), and the Conservation Employees' Insurance Plan (CEIP). The eligible number of retirees/long-term disability claimants for MCHCP, HEHPIP, and CEIP for health care benefits are approximately 12,748, 4,026, and 525, respectively. The eligible number of retirees/long-term disability claimants for MOSERS, HEHPIP, and CEIP for life insurance benefits are 14,495, 3,186, and 356, respectively. Health care benefits are funded through both employer and employee contributions. MOSERS life insurance benefits are funded through employer and employee contributions. HEHPIP and CEIP life insurance benefits are funded through employee contributions. Employer contribution rates are set in accordance with Section 103.100 of the Revised Statutes of Missouri. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Insurance policies are purchased for life insurance benefits and are the liability of the insurance carrier. For fiscal year 2005 the State's contributions were 55.56% of the total (employer/employee) contributions made for other postemployment benefits.

In addition to the retirement benefits described in *Note 7*, the University provides postemployment medical care, dental care, and life insurance benefits to eligible employees who retire from the University and to employees receiving long-term disability benefits. Currently, 5,475 retirees/long-term disability claimants meet the eligibility requirements. These postemployment benefits are funded through both employer and employee contributions. For fiscal year 2005 the University's contributions were 52.97% of the total (employer/employee) contributions made for other postemployment benefits.

Currently, the numbers of retirees/long-term disability claimants participating are 4,847 for medical care, 4,451 for dental care, 2,720 for life insurance, and 3,938 for accidental death and dismemberment, dependent life and long-term care insurance. During fiscal year 2005, the University contributed \$14,805,000 for other postemployment benefits. The expenditures recognized by the University for (employer/employee) other postemployment benefits were \$31,147,000.

Note 9 – Deferred Compensation

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Missouri State Employees' Deferred Compensation Incentive Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code. It is administered by the Public Employees Benefit Services Corporation (PEBSCO).

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months immediately preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees' Deferred Compensation Plan. The State, subject to appropriation, contributes \$25 per month for each employee that meets these requirements. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. During fiscal year 2005, employer contributions were \$11,249,000. No employee contributions are made to the Plan.

Note 12 – Bonds Payable

Bonds are long-term liabilities and are reconciling items from fund financial statements to government-wide financial statements. These bonds are included as long-term liabilities because the principal and interest payments required for retirement of the bonds are made from governmental funds. On the Government-Wide Statement of Net Assets, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund to the debt service funds from which principal and interest payments are made. Four types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the \$600,000,000 Third State Building Bonds were used to provide funds for improvements of state buildings and property. Proceeds from the \$250,000,000 Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

Note 13 – Defeased Debt

A. Current Year Debt Defeasance

On June 29, 2005, the State of Missouri issued \$95,100,000 in Water Pollution Control General Obligation Refunding Bonds, Series A 2005, with an interest rate of 5.00% to refund \$2,160,000 of outstanding Water Pollution Control, Series A 1996 with interest rates ranging from 5.20% to 6.25%, \$28,680,000 of outstanding Water Pollution Control, Series A 1998 with interest rates ranging from 4.25% to 6.25%, \$17,595,000 of outstanding Water Pollution Control, Series A 1999 with interest rates ranging from 4.50% to 7.50%, and \$51,535,000 of outstanding Water Pollution Control, Series A 2003–Refunding with interest rates ranging from 3.25% to 6.00%. The securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the bonds. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The State reduced its total debt service payments over the next 20 years by \$2,706,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$4,641,000.

On June 29, 2005, the State of Missouri issued \$17,175,000 in Stormwater Control General Obligation Refunding Bonds, Series A 2005, with an interest rate of 5.00% to refund \$17,595,000 of outstanding Stormwater Control, Series A 1999 with interest rates ranging from 4.50% to 7.50%. The securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the bonds. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The State reduced its total debt service payments over the next 20 years by \$4,541,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$1,922,000.

On June 29, 2005, the State of Missouri issued \$45,330,000 in Fourth State Building General Obligation Refunding Bonds, Series A 2005, with an interest rate of 5.00% to refund \$7,715,000 of outstanding Fourth State Building, Series A 1996 with interest rates ranging from 5.20% to 6.25%, and \$40,970,000 of outstanding Fourth State Building, Series A 1998 with interest rates ranging from 4.25% to 6.25%. The securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the bonds. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The State reduced its total debt service payments over the next 18 years by \$4,280,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$3,249,000.

On June 30, 2005, Southwest Missouri State University issued \$32,850,000 of bonds as Series 2005 A. The Series 2005 A bonds refunded \$13,960,000 and \$16,835,000 of series 1997 A and 1999 A, respectively. The outstanding balances of the defeased bonds are not reflected on the statement of net assets of the University. The difference in cash flows required to service the old debt and those required to service the new debt was \$2,929,000. The net present value savings of the aggregate decreased debt service payments were \$2,128,000.

On June 1, 2005, the Missouri Southern State University issued \$5,395,000 of bonds as the Series 2005 A. The Series 2005 A bonds refunded \$5,240,000 of outstanding 1997 series bonds. Bonds maturing in the year 2016 and thereafter, are callable for redemption and payment, at the University's option, on or after October 1, 2015. The economic gain on the refunding is \$274,000. The economic gain is the difference between the present value of the old debt service requirements and the present value of the new debt service requirements, discounted at the effective interest rate of the new debt. The difference in cash flows between the old debt service requirements and the new debt requirements is \$374,000.

Note 13 – Defeased Debt (cont.)

B. Cumulative Debt Defeasances

Various bond issues have been defeased by creating separate irrevocable trust funds.

Either new debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds or sufficient funds have been deposited in an irrevocable escrow to pay principal and interest as they become due.

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and university funds Statement of Net Assets.

Governmental Activities – As of June 30, 2005, bonds outstanding of \$289,940,000 are defeased.

College and University Funds – As of June 30, 2005, bonds outstanding of \$115,963,000 are defeased.

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving State Lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets.

During fiscal year 2005, unusual transfers of \$12.0 million from capital projects funds to Missouri Veterans' Homes, a non-major enterprise fund, occurred to pay for operations.

Note 17 – Restatements (cont.)

Purposes for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections. The deferred revenue restatement for non-major component units was to correct past year amounts previously reported as deferred revenue, which related to receivables. Deferred revenue relating to receivables should only be reported for governmental funds, since that is the only fund type under the modified accrual basis of accounting.

On the Government-Wide Statement of Activities, net assets for governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, capital assets and other long-term assets held in governmental funds increased by \$115,379,000. Long-term liabilities held in governmental funds decreased by \$61,748,000.

Note 18 – Fund Deficit

The following funds had deficit balances:

Enterprise Fund – Unemployment Compensation – At June 30, 2005, this fund had a net asset deficit of \$64,755,000. The deficit was \$83,025,000 at June 30, 2004. This deficit occurred when revenue from employers' state unemployment contributions were not sufficient to cover the cost of unemployment benefits paid. In order to continue paying unemployment benefits, the fund borrowed from the U.S. Treasury (in 2004) as allowed by Title XII of the Social Security Act. The fund's Title XII liability was \$288,557,000 on June 30, 2005. Legislation passed during the 2004 legislative session and signed by the Governor, House Bills 1268 and 1211, increased employer contributions into the fund and authorized the refinancing of this liability through the issuance of debt instruments. On June 29, 2005, the Governor applied for avoidance of FUTA credit reduction pursuant to 20 CFR 606.24. As stipulated in the avoidance application, a \$50.3 million payment by the State was made on October 9, 2005, bringing the outstanding Title XII debt to \$238,257,000. The United States Department of Labor approved the application and payment, and will continue to give the FUTA tax credits to the state's employers.

Enterprise Fund – Petroleum Storage Tank – At June 30, 2005, this fund had a net asset deficit of \$60,290,000. The deficit at June 30, 2004 was \$61,236,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will be closed on December 31, 2010, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the general assembly. Various alternatives are being considered to pay off the claims liability amount of this fund. Per Section 319.131, RSMo, the liability of the petroleum storage tank fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Enterprise Fund – Missouri Veterans' Homes – At June 30, 2005, this fund had a net asset deficit of \$429,000. The restated deficit at June 30, 2004 was \$96,000. The deficit occurred due to rising medical costs, along with salary and overtime expenses needed to meet federal staffing requirements in the veterans' homes. Per Section 313.835, RSMo, the Veterans' Commission Capital Improvement Trust Fund is authorized to make fund transfers to the Missouri Veterans' Home Fund as necessary to maintain solvency. The current situation is being monitored closely by the Department of Public Safety. Possible solutions include cost containment of medical costs, increased general revenue funding, and increased funding from the federal government. A last resort may involve higher charges to residents.

Note 18 – Fund Deficit (cont.)

Internal Service Fund – Transportation Self-Insurance Plan – At June 30, 2005, this fund had a net asset deficit of \$5,194,000. This deficit was \$3,143,000 at June 30, 2004. The deficit occurred when revenue from insurance premiums were not sufficient to cover the cost of claims. The self-insurance plan is subject to annual actuarial review which is done on a calendar year basis. An actuarial study was completed in July 2005. The fiscal year 2006 appropriations were based on the 2004 actuarial study and budget availability. Increases in appropriations should eliminate the deficit over time.

Component Unit – Missouri Highway 63 Transportation Corporation – At June 30, 2005, the transportation corporation had a net asset deficit of \$61,000. This deficit was \$87,000 at June 30, 2004. This deficit initially occurred because the corporation was established during fiscal year 2003 and incurred one-time start up expenses. According to the Missouri Highway 63 Transportation Corporation’s audited financial statements, the City of Kirksville has agreed to fund any corporation net asset deficits.

Note 19 – Related Party Transactions

The Missouri State Public Employees’ Deferred Compensation Plan is administered by the Public Employees Benefit Services Corporation of Missouri (PEBSCO) under a contract for a term ending December 31, 2005. PEBSCO is a wholly-owned subsidiary of Nationwide Corporation of Columbus, Ohio. Nationwide Life Insurance Company, one of the guaranteed fixed annuity and variable annuity underwriters for the Plan, is also a subsidiary of Nationwide Corporation. At December 31, 2004, total investments of the Plan were \$934,330,000 and investments in Nationwide Life Insurance Company were \$831,511,000.

Contracts

The Department of Conservation had contracts outstanding of \$1,064,000 for land acquisition and \$7,961,000 for construction contracts at June 30, 2005. These contracts are funded through the special revenue funds from specific sales tax, fees and permits.

The Department of Transportation had long-term contracts of \$918,791,000 outstanding at June 30, 2005. These contracts are paid from capital projects funds with approximately 61.64% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2005, of \$53,372,000. Approximately 48% will be paid from the General Fund, 2% from special revenue funds, 48% from capital projects funds, 1% from enterprise funds, and 1% from internal service funds.

The Department of Elementary and Secondary Education has desegregation payments outstanding of \$55 million at June 30, 2005. These payments are due to the St. Louis Public School District based upon Court Order L(266)99 approving the 1999 settlement agreement requiring annual payments. The payments are as follows:

July 1, 2005	\$13 million
July 1, 2006	\$12 million
July 1, 2007	\$11 million
July 1, 2008	\$10 million
July 1, 2009	\$ 9 million

Note 20 – Commitments (cont.)

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$10.8 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2005 was \$367,000. Payment of principal and interest must be completed by the end of a 50 year period beginning from the date of the contract (March 1988).

The Department of Natural Resources – State Parks had contracts outstanding of \$142,000 for land acquisition and \$396,000 for construction contracts at June 30, 2005. These contracts are funded through enterprise funds, with the exception of \$16,000 in construction contracts to be funded through special revenue funds.

As of June 30, 2005, the University of Missouri has outstanding commitments for the acquisition, usage, and ongoing support of certain software for its patient clinical systems totaling \$21,180,000. The payments are as follows:

2006	\$ 4,351,000
2007	\$ 3,960,000
2008–2011	\$12,869,000

Note 21 – Risk Management and Insurance

The State is exposed to various risks of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to State statute, through the State's legal expense fund, which is a component of the General Fund for CAFR purposes. This insurance covers all state employees.

The workers' compensation and legal expense fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. IBNR (incurred but not reported) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage during the past three fiscal years. OA-Risk Management also procures property insurance for 3% of the total values of the State's property with the remainder uninsured. The buildings that are insured are mainly the buildings backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability, general liability, inverse condemnation, and contractor tort liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an Internal Service Fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims from data provided by an actuary. Liabilities are reported at their discounted value, assuming an investment yield of 4%.

Note 21 – Risk Management and Insurance (cont.)

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan is presented as an Internal Service Fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Highway Employees' and Highway Patrol Insurance Plan (HEHPIP) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, underwritten by a commercial insurance company, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an Internal Service Fund. Estimated claims payable is based on known insurance claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an Internal Service Fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for policyholders and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discounted rates ranging between 3% and 4% based on future investment yields. The University of Missouri System is included with colleges and universities as a major component unit of the State.

Changes in the balances of claims liability (in thousands of dollars) during the current and prior fiscal years are as follows:

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

Note 22 – Landfill Closure and Postclosure

The State does not own any municipal solid waste landfills (MSWLF), however in the event the owner/operator refuses or is unable to properly maintain the landfill, the owner/operator forfeits the required financial assurance instrument(s) to fund closure and/or post-closure maintenance activities.

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2005, the Missouri Department of Natural Resources, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$259,265,000. This amount is disclosed, but not reported by the State in the financial statements because these instruments do not meet all the necessary fiduciary fund criteria for reporting assets held in a trustee capacity on behalf of a third party.

STATE OF MISSOURI
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2005

Note 22 – Landfill Closure and Postclosure (cont.)

At June 30, 2005, ten MSWLFs and two waste tire facilities have defaulted. The owners/operators failed to properly close or maintain post-closure care for these facilities, so the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Missouri Revised Statutes Chapter 260, Section 228. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with Missouri Department of Natural Resources Solid Waste Management Law and Regulations. At June 30, 2005, it is expected that \$917,000 will be paid over the remaining monitoring periods. This is the amount of fund balance that has been reserved on the general fund balance sheet for landfill closure and post-closure care costs.

Note 23 – Contingencies

Contingent claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Assets. Expenditures are recognized as payments are made.

At June 30, 2005, the amount of the contingent liabilities was \$118 million. Changes in the reported liability since June 30, 2004, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2004-2005	\$ 141,031	\$ (17,119)	\$ (6,236)	\$ 117,676
2003-2004 *	99,280	55,673	(13,922)	141,031
2002-2003 *	219,322	(107,619)	(12,423)	99,280

*Restated to move items to *Note 21* – Risk Management and Insurance.

RSMo 287.220.6 requires that an actuarial study of the Second Injury Fund be made every three years to determine the solvency of the Fund. Figures presented below for current year claims and changes in estimates are based on the 2001 and 2004 actuarial studies. At June 30, 2005, the amount of liabilities for the Second Injury Fund was \$854 million. Changes in the reported liability since June 30, 2004, resulted from the following (in thousands of dollars):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance Fiscal Year End
2004-2005	\$ 749,600	\$ 168,124	\$ (63,390)	\$ 854,334
2003-2004	201,128	605,454	(56,982)	749,600
2002-2003	242,596	8,741	(50,209)	201,128

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements to the grantor agency for expenditures which are disallowed under grant terms. The State believes that such disallowances, if any, would be immaterial in the next fiscal year.

Loan Guarantees:

The State appropriates money to the Missouri Development Finance Board for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Board makes the payment for default from state appropriations. The total loans outstanding at June 30, 2005, for which the Board has guaranteed payment is \$391,000. During 2005, no loans defaulted.

The State appropriates money to the Agricultural and Small Business Development Authority for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Authority makes the payment for default from State appropriations. The Authority administers the Single-Purpose Animal Facilities Loan Program and the Value Added Loan Guarantee Program, which provides a 50% first-loss guarantee on loans up to \$250,000. This is an increase from fiscal year 2004 when only 25% of the loan was guaranteed. The total of loans outstanding at June 30, 2005, for which the Authority has guaranteed payment is \$2,972,000 and \$1,216,000, respectively. There were no loan default payments for the Value Added Loan Guarantee Program, however the Authority did make payments in the amount of \$21,000 for defaults in the Single-Purpose Animal Facilities Loan Program.

Sales Tax Lawsuits:

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859). The Administrative Hearing Commission ruled that Southwestern Bell Telephone Company was entitled to a refund of sales and use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. This decision is on appeal to the Supreme Court. Refunds to Southwestern Bell and other related companies could adversely affect the State's General Revenue Fund by \$87 million.

The State is also involved in Sales Tax litigation not included in the fiscal year 2005 liability amount, where it is reasonably possible that an adverse court decision may incur an estimated loss of \$11.8 million.

Education Lawsuits:

Two education lawsuits are pending; Board of Education of the City of St. Louis and Voluntary Interdistrict Choice Corporation (VICC) vs. the State of Missouri and the Missouri State Board of Education (Case No. 034-00284), filed in the Circuit Court of St. Louis City, and Committee for Educational Equality, et al vs. the State of Missouri, et al (Case No. 04CV323022), filed in the Circuit Court of Cole County. Decisions in these cases may require additional state money or a revision to the current school aid formula.

Note 24 – Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

**STATE OF MISSOURI

Note 24 – Joint Ventures (cont.)

The Authority is considered a joint venture of the State, County and City because it constitutes a contractual agreement for public benefit in which the State, County and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B) and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C Refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds, Series A 2003 to refund \$2,845,000 and \$113,170,000 of Series A 1991 and Series A 1993 Refunding Bonds, respectively, and for additional construction costs.

Pursuant to a financing agreement entered into in August 1991, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County and City under the financing agreement are sufficient to pay the principal and interest on the bonds. See *Note 12* for more information on the 1991, 1993, and 2003 Series A Bonds sponsored by the State.

Summary financial information for the Authority as of, and for the fiscal year ended December 31, 2004, is presented below (in thousands of dollars):

Total Assets	<u>\$ 314,905</u>
Total Liabilities	\$ 219,111
Total Net Assets	95,794
Total Liabilities and Net Assets	<u>\$ 314,905</u>

Note 25 – Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a discretely presented component unit of the State. The net appreciation of the endowments available for expenditure is \$26,851,000, and of this amount, \$24,486,000 is reported as restricted non-expendable net assets and \$2,365,000 is reported as restricted expendable net assets. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in RSMo 402.035. These policies are entity specific and vary with each institution.

Note 26 – Conduit Debt

As of June 30, 2005, the Missouri Development Finance Board issued \$714,327,000 in Single Issue Industrial Revenue Bonds, \$58,810,000 in Private Activity Composite Industrial Revenue Bonds, and \$1,073,593,000 in Public Purpose Capital Improvement and Refunding Leasehold Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2005, were approximately \$413,318,000, \$1,680,000, and \$555,128,000, respectively.

The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

Note 27 – Subsequent Events

Lincoln University

On September 29, 2005, the University issued \$9,800,000 of insured Auxiliary System Revenue Bonds, Series 2005. These bonds bear interest, payable semiannually, at rates of 3.0% to 4.1% and are due in semiannual installments beginning December 1, 2005. Principal maturities will begin June 1, 2007, and continue until 2021.

Missouri Department of Transportation

On July 1, 2005, the Department issued \$278,660,000 of First Lien State Road Bonds, Series A 2005. These bonds are callable and bear interest, payable semiannually, at rates of 2.5% to 5% and are due in semiannual installments beginning May 1, 2006.

On July 1, 2005, the Department issued \$72,000,000 of Multimodal Third Lien State Road Bonds, Series B 2005. These bonds bear interest at a variable rate and are due May 1, 2015.

Missouri Development Finance Board

On November 1, 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds, Series 2005. These bonds bear interest, payable semiannually, beginning April 1, 2006.

University of Missouri

On July 1, 2005, the University sold \$80,000,000 of capital project notes at an effective interest rate of 2.6%. The notes will be repaid in full by June 30, 2006.

Missouri Southern State University

On July 6, 2005, the University issued \$3,630,000 of Series 2005 B bonds. These bonds bear interest, payable semiannually, at rates of 3.0% to 4.0% beginning October 1, 2005.

Harris–Stowe State College

On August 23, 2005, the College issued \$15,000,000 of Student Housing Facilities Revenue Bonds, Series 2005. These bonds bear interest, payable monthly, beginning October 1, 2005.

Deferred Compensation Funds

On December 12, 2005, the Missouri Deferred Compensation Commission awarded the third-party administrator (TPA) contract to CitiStreet and the Fixed Annuity contract to ING Life Insurance and Annuity Company, effective June 1, 2006. A transfer of funds to the new fixed annuity will be automatically handled by CitiStreet who replaces PEBSICO as the TPA. The Fixed Annuity Plan will now own the securities in the account and will receive 100% of the income from those securities less a fixed fee of 0.9%. CitiStreet is a joint venture between Citigroup and State Street Corporation and has become the fastest growing TPA in the government market.

STATE OF MISSOURI
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
BUDGETARY REPORTING
June 30, 2005

The Budgetary Comparison Schedule in Required Supplementary Information (RSI) presents comparisons of the original and revised legally adopted budgets with actual data on a budgetary basis for the General Fund, and the major special revenue funds. The major special revenue fund categories presented for the State of Missouri are: public education, conservation and environmental protection, and transportation and law enforcement. The General Fund is composed of two fund categories, general and federal. The State Road Fund is a major capital projects fund, but must be presented on a separate schedule in Supplementary Information.

The Budgetary Comparison Schedule reports revenues and expenditures on a budgetary basis where “actual” revenues are recognized when cash is received, and “actual” expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2005, has been presented at the bottom of the Budgetary Comparison Schedule shown on the previous pages of RSI and includes data presented, on this basis, for the fiscal year, and for adjustments made in the one-month lapse period, July 1 through July 31.

The budgetary expenditures are included in the current year’s Appropriation Activity Report, which demonstrates legal compliance with the current year’s budget. This report can be viewed at <http://www.oa.mo.gov/acct/AAR>. The “original budget” expenditures and transfers are for what was originally appropriated for each fund. The “final budget” expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less what was re-appropriated to the next fiscal year less the Governor’s amounts reverted (withheld) for each fund.

On the Budgetary Comparison Schedule, “original” and “revised” budget revenues are equal for all funds except the State’s General Revenue Fund. Once a year the Office of Administration–Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State’s General Revenue Fund. The revised revenue estimate is used in the “final budget” column for the General Fund and is very comparable to actual revenue resulting in a small positive variance on this Schedule.

In accordance with state statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund, therefore variances between “budgeted” and “actual” expenditures and transfers on the budgetary schedule will always be positive. The variance amounts in RSI this year are large for the general fund due to agency-imposed withholding or “reverted” amounts not being taken into account on this schedule. “Reverted” amounts are Governor withheld funds, which an agency does not have the authority to spend.

Non-major governmental funds with an annual appropriated budget are also required to have budgetary comparisons with similar information to the RSI schedule with the exception of the original budget data, which is not required under GASB Statement 34. Therefore the following fund categories have budget to actual statements provided in the Supplementary Information section of CAFR: special revenue, debt service, and permanent funds.

Budgetary comparisons are not included for non-major capital projects funds. These funds are funded by bond proceeds or grants for various projects that require several years to complete. Generally, the bond authorization or grant is appropriated in total the first year even though the bond sales or grant receipts are received over a period of years as required by the projects. Therefore, these funds do not have annual budgets and their budget data is not comparable to the actual data for the fiscal year.

Supplementary Information includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (State Road), as well as the Combining and Individual Fund Statements and Schedules for the General Fund and all Non-Major Funds.

The Combining and Individual Fund Statements and Schedules

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the “major fund” classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison schedule is provided for all non-major governmental funds with the exception of capital project funds.

General Fund:

General:

General Revenue – All moneys received by the State unless required by statute or constitutional provision to be deposited elsewhere in a specifically named fund.

Budget Reserve – Moneys used when there are revenue shortfalls that require the Governor to reduce expenditures of agencies below the level of their appropriations or when there is a financial need due to a disaster.

Uncompensated Care – Accounts for moneys used for the non-federal share of uncompensated care and other services under the Title XIX Medicaid Program.

Department of Health Interagency Payments – Accounts for reimbursed moneys to be used for program disbursements.

Facilities Maintenance Reserve – General Revenue moneys to be used for maintaining, repairing and renovating State facilities.

Intergovernmental Transfers – Moneys from publicly owned nursing facilities to be used for Medicaid and other related charges.

Federal Reimbursement Allowance – Moneys received for payment of Title XIX services.

Pharmacy Reimbursement Allowance – Tax moneys received from retail pharmacies to be used for funding payments under the Medicaid fee-for-service and managed care programs.

Title XIX–Patient Placement – General Revenue – Moneys received from the federal government to be used for medical assistance to eligible recipients pursuant to Title XIX.

State Treasurer’s General Operations – Accounts for moneys received to pay for responsibilities of the state treasurer.

Child Support Enforcement Collections – Moneys received from individuals to be used for the expenditures of the Division of Child Support Enforcement.

Missouri Technology Investment – Moneys received from various sources to be used for technology development programs.

Missouri Water Development – General Revenue moneys to be used to purchase water supply storage.

General Revenue Reimbursements – Federal moneys received by the Department of Mental Health and the Department of Social Services to be used by the Department of Mental Health as appropriated.

Missouri Humanities Council Trust – Moneys from various sources to be used for promotion of the humanities.

Nursing Facility Federal Reimbursement Allowance – Tax moneys used for expenditures of nursing facilities.

Post Closure – Moneys from forfeited collateral to be used for costs related to closure and post closure activities of landfills.

Attorney General’s Court Cost – General Revenue moneys to be used for the payment of court costs.

Attorney General’s Anti-Trust – General Revenue moneys to be used for expenses related to anti-trust activities.

State Elections Subsidy – Appropriated moneys to be used for payment of advance election costs.

State Legal Expense – General Revenue, Transportation and Conservation moneys to be used for claims against state departments or employees.

General Fund – Federal: Accounts for moneys received or reimbursed by the federal government to cover costs of federally funded grants and programs. Each program or grant has its own fund to account for its operations as follows:

Non-Cash Financing Activities:

During fiscal year 2005, a capital lease agreement was renegotiated in the Office of Administration Revolving Fund for Central Printing. This resulted in a \$17,000 increase to the obligation under lease purchase in this fund as of June 30, 2005.

*The **Fiduciary Funds** account for assets held by the State in a trustee or agent capacity.*

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan – Accounts for retirement, survivor and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Administrative Law Judges' and Advisors' Plan – Accounts for retirement, survivor and disability benefits paid to individuals appointed as administrative law judges or legal advisors in the Division of Workers' Compensation, members of the Labor and Industrial Relations Commission and their attorneys, the chairperson of the State Board of Mediation, and administrative hearing commissioners.

Judicial Plan – Accounts for retirement, survivor and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Patrol Employees' Retirement System – Accounts for retirement, survivor and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri State Employees' Deferred Compensation Incentive (IRC 401a) Plan – Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan – Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust – Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Johnson-Travis Memorial Trust – Accounts for all moneys, stocks and securities given to the State by Miss Pansy Johnson or for the benefit of the Pansy Johnson-Travis Memorial State Gardens. Moneys will be used solely to establish, develop and maintain the gardens.

Unclaimed Property – Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends and interest of banks unable to locate the owners.

Agency Funds:

State Retirement Contributions – Accounts for the receipt of contributions from various state funds which are to be transferred to the Missouri State Employees' Retirement Plan Trust Fund.

Social Security Contributions – Accounts for the receipt of contributions from various state funds for the State's share of social security contributions, which are due to the Federal Social Security Administration.

Missouri State Employees' Deferred Compensation Incentive Plan Administration – Accounts for moneys to be used for the payment by the State to deferred compensation investment companies on behalf of qualified state employees.

Missouri Consolidated Health Care Plan Benefit – Accounts for the receipt of contributions from various state funds, which are to be transferred to the Missouri Consolidated Health Care Plan Fund.

Missouri State Employees' Voluntary Life Insurance – Accounts for moneys withheld from employees' compensation for the contracts entered into with life insurance companies.

Program – Accounts for the receipt of various taxes, refundable deposits and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution – Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

**STATE OF MISSOURI
TAXES**

The Constitution of Missouri, Article X, Section 8, provides general guidelines for property taxes within the State. It limits the State tax on real and tangible personal property to ten cents on each hundred dollars assessed valuation, excluding any tax necessary to pay any bonded debt of the State.

Presently there is a State property tax of three cents on each hundred dollars assessed valuation on all real estate and tangible personal property in the State. This tax collects approximately 23 million dollars a year and is paid into the Blind Pension Fund, a special revenue fund.

**STATE OF MISSOURI
DEBT**

The limitations on State debts and bond issues are contained in the Constitution of Missouri, Article III, Section 37. This section restricts the general assembly from contracting or authorizing the contracting of any liability of the State or the issuing of bonds therefore, except:

1. To refund outstanding bonds, the refunding bonds must have a maturity date of not more than twenty-five years from the date of issue.
2. Upon the recommendation of the governor for a temporary liability incurred by an unforeseen emergency or casual deficiency in revenues for an amount not to exceed one million dollars for any one year and to be paid in five years or less.
3. When the liability exceeds one million dollars, the general assembly as on constitutional amendments, or the people by the initiative, may submit a measure containing the amount, purpose and terms of the liability, and if the measure is approved by a majority of those voting, the liability may be incurred.
