January 25, 2011

The Honorable Jeremiah W. (Jay) Nixon The Honorable Members of the Legislature Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report (CAFR) of the State of Missouri for the fiscal year ended June 30, 2010. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and his opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act of 1984, and the U.S. Office of Management and Budget Circular A-133, "Audit of State and Local Governments and Non-Profit Organizations."

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

#### PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the department level. Expenditures cannot exceed the individual appropriation amount. Also, the Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

#### **ECONOMIC CONDITION AND OUTLOOK**

#### **State Economy**

According to the Missouri Economic Research and Information Center (MERIC), there has been improvement in the economy of the United States and Missouri over the past year. The national recession, which began in 2007, ended in summer 2009. Growth rebounded early in 2010, but has since slowed to slightly below average. There also continues to be economic concerns that make it more difficult to know what developments will occur in upcoming months.

Missouri's exports through the first two quarters of 2010 totaled \$6.3 billion according to WISERTrade data. This amount represents a 35% increase over the \$4.6 billion for the same period in 2009. A 41% increase in vehicle exports and a 71% gain in airplane and space exports resulted in an additional \$467 million for the transportation equipment sector. A 27% gain in organic chemicals and a 58% increase in miscellaneous chemicals added \$228 million more to the chemicals sector through the first half of this year.

MERIC also states that the largest foreign market for Missouri's exports continues to be Canada, which purchased \$2 billion in goods and services during the first two quarters of 2010. Missouri's top two exporting sectors in the first half of 2010 continue to be transportation equipment (\$1.51 billion) and chemicals (\$1.30 billion). These two far exceed the next industry down the list which is machinery (\$694 million). Food and kindred products (\$583 million) is the next sector on the list and is the only other industry with over \$500 million in exports. Computer and electronic products, electrical equipment, mineral and ores, and fabricated metal products represent the 5th through 8th place spots respectively, each totaling over \$200 million in export sales. The chart below shows sectors with over \$70 million in total exports for the two quarters of 2010.

Source: Missouri Economic Research and Information Center/Realty Trac

Missouri's personal income, which directly impacts individual income tax and sales tax, declined 1.4% during calendar year 2009. Personal income has shown a small amount of growth in 2010. Missouri's employment stood at 2.67 million in May 2010. The State's seasonally adjusted unemployment rate was 9.3% in May 2010 compared to 9.4% in May 2009.

#### **Long-Term Financial Planning**

Missouri funding priorities include education, health care, and economic development. The State will continue to focus on controlling the growth of mandatory programs through various cost-effective alternatives and streamlining government functions.

Missouri invested \$1.45 billion in fiscal year 2010 and \$1.60 billion in fiscal year 2011 in appropriations for road and bridge construction and maintenance, as part of a long range plan to improve the state's highway and bridge infrastructure using state gasoline tax revenues, sales tax revenues on motor vehicle sales, and federal matching/stimulus dollars.

State government identified cost savings in the renegotiation and consolidation of leases. Between January 2009 and July 2010, the amount of office space leased has been renegotiated or consolidated by the State to save more than \$3.2 million in leasing contracts. The consolidation of state-owned vehicles has resulted in savings of approximately \$400,000-\$600,000 from the initial 10% reduction in the number of state-owned vehicles at each agency that were not replaced. This initial reduction includes consolidation of approximately 100 short-term-use vehicles in Jefferson City into the overall state vehicle pool, which will reduce administrative costs associated with managing multiple agency pools. Comparing FY09 to FY10, State employee mileage reimbursement was reduced by \$960,000. New vehicle rental contracts were awarded in August 2010 resulting in rate reductions of 17%.

The MoBroadbandNow initiative was created to coordinate the State's efforts to aggressively compete to bring broadband funding to Missouri in response to the federal recovery bill passed in 2009. Between the U.S. Department of Agriculture (USDA) and National Telecommunications Information and Administration (NTIA), Missouri received \$261 million for 19 projects. \$177.7 million received was for loans, loan guarantees, and grants to businesses, nonprofits, and governments for projects in rural areas. The remaining \$83.3 million received was for projects to enhance broadband access, public computing centers, and mapping and planning activities.

#### **Relevant Financial Policies**

Article X of the Missouri Constitution imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for each fiscal year and adjusted annually based on a formula which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by 1% or more in any fiscal year, the excess revenue will be refunded based on the liability reported on state income tax returns. If the excess revenue collected is less than 1% of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. The State has refunded money to income taxpayers for fiscal years 1995 through 1999, but has not exceeded the revenue limit in fiscal years 2000 through 2010. The State does not expect the limit to be exceeded in fiscal year 2011.

#### **Major Initiatives**

Cost-effective alternatives and streamlining government functions will continue to be the focus on controlling the growth of mandatory programs.

**Education.** Despite economic challenges, education remains a top priority for Missouri. In-state undergraduate students at Missouri's four-year, public college and universities will not see tuition or academic fees increase in fiscal year 2011. In return, the State will maintain higher education funding at approximately 95% of fiscal year 2010 appropriations. The school funding formula for the Department of Elementary and Secondary Education has remained steady between fiscal year 2010 and fiscal year 2011.

The Missouri Department of Higher Education has been awarded a \$4.9 million grant from the Broadband Technology Opportunities Program to establish or expand 23 public computer centers in geographic areas that serve vulnerable populations. MDHE will collaborate with seven community colleges to launch the expanded services.

**Healthcare.** Legislation has been signed to provide insurance coverage for autism therapies for Missouri children. This requires that health insurance companies provide coverage for the most effective known treatment for children with Autism Spectrum Disorders. The insurance companies must provide coverage of up to \$40,000 a year, until age 18, for Applied Behavioral Analysis.

**Economic Development.** Several grants have been awarded that will help with job training in Missouri. \$13.75 million in federal grants have been awarded to help train workers for jobs in health care and related high growth fields. Training for Tomorrow is a \$12 million initiative to train Missourians for high-tech, high-demand careers. These grants will help Missouri community colleges create or expand training programs to serve additional students.

#### **ACKNOWLEDGEMENTS**

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

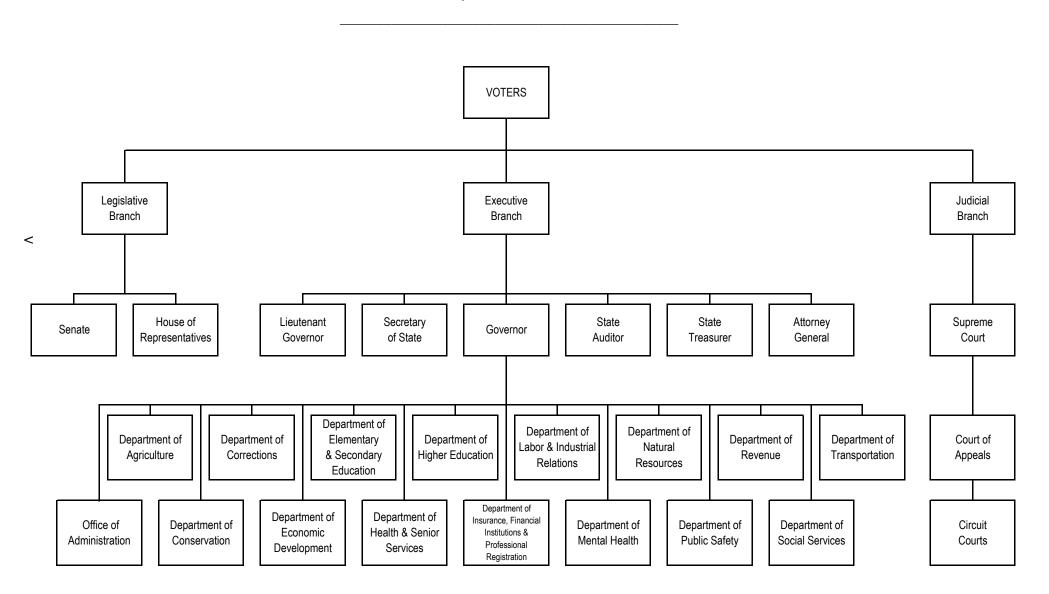

Mark A. Kaiser Director

Mark A. Kaiser

#### **Missouri State Auditor**

#### INDEPENDENT AUDITOR'S REPORT

Honorable Jeremiah W. (Jay) Nixon, Governor and Members of the General Assembly

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2010, which collectively comprise the state's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the state's management. Our responsibility is to express opinions on these financial statements based on our audit.

We did not audit the financial statements of certain entities that comprise the state of Missouri. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based on the reports of the other auditors. Those entities were:

- 1. The Missouri Department of Transportation and blended transportation corporations identified in Note 1A., the Conservation Employees' Insurance Plan, the Transportation Self-Insurance Plan, the Missouri State Employees' Insurance Plan, the Missouri Consolidated Health Care Plan, and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan, which represent 78 percent and 13 percent of the assets and revenues, respectively, of the governmental activities.
- 2. The State Lottery and the Petroleum Storage Tank Insurance Fund, which represent 35 percent of both the assets and revenues of the business-type activities.
- 3. The component units.
- 4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation Local Fund, which represent 94 percent and 97 percent of the assets and additions, respectively, of the fiduciary funds.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Missouri Highway 63 Transportation Corporation and the Wentzville Parkway Transportation Corporation, blended component units; the Conservation Employees' Insurance Plan, the Missouri State Employees' Insurance Plan, and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board and Northwest Missouri State University, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with Government Auditing Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Director of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of <u>Director of Revenue v. State Auditor</u> 511 S.W.2d 779 (Mo. 1974). Approximately 22 percent of governmental activity revenues and 25 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate auditing procedures as to the income tax revenue beyond the amounts recorded.

In our opinion, based on our audit and the reports of other auditors, and except for the effects of such adjustments, if any, as might have been determined to be necessary had we been allowed access to tax returns and related source documents for income taxes, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 2, the state of Missouri implemented Governmental Accounting Standards Board Statement No. 51, Accounting and Financial Reporting for Intangible Assets; Statement No. 53, Accounting and Financial Reporting for Derivative Instruments; Statement No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans; and Statement No. 58, Accounting and Financial Reporting for Chapter 9 Bankruptcies.

In accordance with *Government Auditing Standards*, our report on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters is issued under separate cover in the Single Audit Report. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the

results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, and except for the effects, if any, of the matters discussed in paragraph four, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The information in the introductory section and statistical section, as listed in the table of contents, has not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we express no opinion on it.

Thomas A. Schweich State Auditor

Thomas A Schwoll

January 25, 2011

The Management's Discussion and Analysis provides a narrative overview and analysis of the financial activities of the State.

### Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's (State's) financial activities for the fiscal year ended June 30, 2010. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

#### FINANCIAL HIGHLIGHTS - PRIMARY GOVERNMENT

#### Government-Wide:

- Net Assets. Assets of the State of Missouri exceeded liabilities at the close of fiscal year 2010 by \$28.5 billion. Of the \$28.5 billion, "unrestricted net assets" is reported as a negative \$1.8 billion, offset by \$4.4 billion in "restricted net assets". A positive balance in unrestricted net assets would represent the amount available to be used to meet a government's ongoing operations.
- Changes in Net Assets. The State's total net assets decreased by \$67.0 million in fiscal year 2010. Net assets for business-type activities decreased by \$435.7 million.
- Excess of Revenues over (under) Expenses. During fiscal year 2010, the State's total revenues of \$26.6 billion were \$67.0 million less than total expenses (excluding transfers) of \$26.7 billion. Of these expenses, \$16.0 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$10.6 billion.

#### Fund-Level:

- Governmental Funds Fund Balance. At the close of fiscal year 2010, the State's governmental fund assets exceeded liabilities by \$4.9 billion, an increase of \$638.7 million or 15.0% from the prior year. The increase was primarily due to an increase in cash and cash equivalents and investments of \$479.8 million. This was primarily due to a \$745.1 million increase in the Missouri Road Fund. The increase in cash and cash equivalents and investments for this fund was due to proceeds from bond issuances.
- General Fund Fund Balance. At the end of the current fiscal year, the State's General Fund reported a balance of \$1.2 billion.

Additional information regarding individual funds begins on Page 9.

#### Debt Issued and Outstanding:

• The primary government's total long-term obligations related to bonds payable increased \$887.0 million or 24.0% over the prior year. The outstanding bonds payable represents 56.6% of financial assets (cash, receivables, and investments) and 11.9% of total assets. The net increase in bonds payable resulted from an increase of \$1,085,000,000 due to issuances of State Road Bonds which offset bond payments of \$197,995,000. Additional detail is available in *Note 12*.

#### **Revenue Limit:**

• The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1% or more must be refunded to the taxpayers each year. During fiscal year 2010, the State did not exceed the revenue limit.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

#### Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the State's assets and liabilities, with the difference between the two reported as *net assets*. Increases or decreases in net assets may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net assets changed during the most recent fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents and insurance coverage. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, and Missouri Wine and Grape Board.

#### **Fund Financial Statements:**

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, transportation and law enforcement, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government–wide financial statements, a reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Petroleum Storage Tank Insurance, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules for the Missouri Road Fund, non-major special revenue, debt service, and permanent funds.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### Net Assets:

The State's total net assets decreased \$67.0 million or 0.2% during fiscal year 2010. This decrease resulted primarily from an increase in long-term and other liabilities of \$1.9 billion. The major contributing factors were an increase in other bonds payable of \$958.2 million, an increase in other postemployment benefits obligation of \$107.3 million, and an increase in contingent liabilities of \$99.4 million. Net assets invested in capital assets net of related debt and restricted net assets, which do not represent resources available to pay day-to-day operating expenses, increased by \$510.8 million or 1.7%. The net assets invested in capital assets net of related debt and restricted net assets increase was primarily due to an increase in capital assets of \$535.0 million.

Invested in capital assets net of related debt, such as bonds payable or capital lease obligations, is the largest component of the State's net assets at \$25.9 billion or 90.8%. These assets include land, infrastructure, buildings, and equipment which are not easily converted to cash or readily available to pay state debts as they come due.

Restricted net assets of the primary government totaled \$4.4 billion or 15.6% of total net assets vs. 12.4% from the prior year. Net assets are restricted for several reasons including constitutional, legal, enabling legislation or external requirements. Examples of restricted net assets include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Assets.

STATEMENT OF NET ASSETS (In Thousands of Dollars)												
	Governmen	tal Activities		Business-Ty	pe A	ctivities	Total					
	2010	2009*		2010 2009*		2009*	2010			2009*

#### Changes in Net Assets:

The schedule below reflects how the State's net assets changed during the year. The State collected program revenues of \$16.0 billion and general revenues of \$10.6 billion for total revenues of \$26.6 billion during fiscal year 2010. Expenses for the State during fiscal year 2010 were \$26.7 billion. As a result of the deficient revenues to cover expenses, the total net assets of the State decreased \$67.0 million, net of contributions and transfers.

The following table displays the current and prior year government-wide condensed Statement of Activities.

#### **Governmental Activities**

The net assets of governmental activities increased \$368.7 million in fiscal year 2010. Revenues for the governmental activities totaled \$23.7 billion, while expenses totaled \$23.6 billion in 2010.

General and program revenues of governmental activities increased \$2.2 billion during the fiscal year. The increase in revenue was due primarily to an increase of \$1.7 billion in grants and contributions, related to funding received as part of the American Recovery and Reinvestment Act of 2009.

As shown in the Revenues by Source chart below, approximately 39.0% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 46.1% of total revenue. Charges for services contributed 9.3% and various other revenues provided 5.6% of the remaining governmental activity revenue sources.

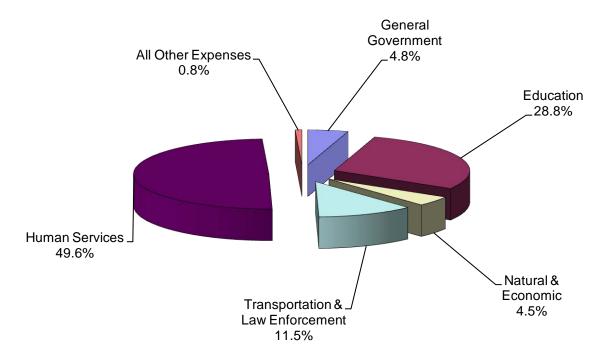

# **Revenues by Source**

The State's governmental activities program expenses increased \$1.3 billion during fiscal year 2010. General Government expenses decreased \$53.5 million while Education, Natural and Economic Resources, Transportation and Law Enforcement, Human Services, and Other Expenses increased \$1.4 billion.

As shown in the Expenses by Function chart below, expense for Human Services makes up the largest portion - 49.6% - of total governmental activities expenses.

# **Expenses by Function**

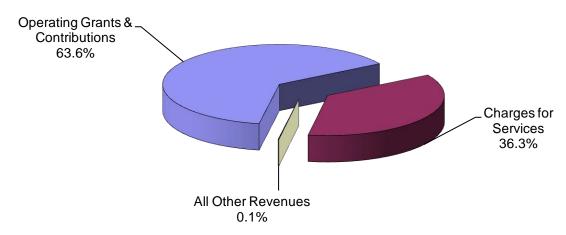

#### **Business-Type Activities**

Net assets of the State's business-type activities decreased \$435.7 million in fiscal year 2010. Business-type revenues increased by \$848.2 million during the current fiscal year. Program expenses of business-type activities increased \$919.4 million from fiscal year 2009 to 2010.

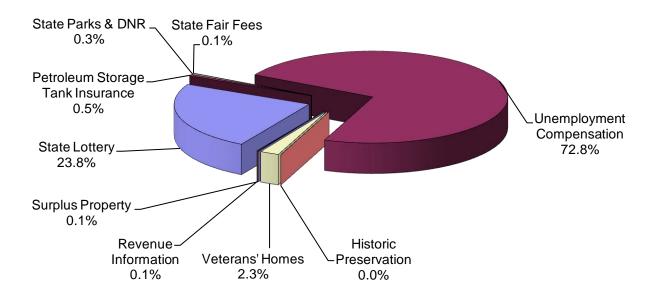

Revenues of business-type activities totaled \$2.9 billion. As shown in the Revenues by Source chart below, 36.3% of the revenues came from charges for services. Operating grants and contributions provided 63.6% of the total revenue and all other revenues provided 0.1%.

# **Revenues by Source**

Expenses of business-type activities totaled \$3.0 billion. As shown in the Expenses by Fund chart below, the Unemployment Compensation makes up the largest portion with 72.8% of total business-type expenses. State Lottery comes in second at 23.8%, followed by veterans' homes at 2.3%, petroleum storage tank at 0.5%, state parks and DNR at 0.3%, revenue information at 0.1%, surplus property at 0.1%, state fair fees at 0.1%, and historic preservation at 0%.

# **Expenses by Fund**

#### FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

#### Governmental Funds:

At the end of fiscal year 2010, the State's governmental funds reported combined ending fund balances of \$4.9 billion. Approximately 63.9% is unreserved and available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed: 1) for budget reserve, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	E	Public ducation	Conservation and Environmental Protection		ransportation and Law Enforcement	Missouri Road Fund		Non- Major	Total
Unreserved	\$ 645,567	\$	241,064	\$ 342,817	\$	207,169	\$ 1,345,389	\$	341,387	\$ 3,123,393
Reserved	556,528		58	 921,376		6,761	118,543		159,352	1,762,618
Total	\$ 1,202,095	\$	241,122	\$ 1,264,193	\$	213,930	\$ 1,463,932	\$	500,739	\$ 4,886,011

The General Fund is the chief operating fund of the State. At the end of fiscal year 2010, the State's General Fund reported a total fund balance of \$1.2 billion. The net decrease in fund balance during fiscal year 2010 was \$103.8 million. A contributing factor in this was that a portion of the master lease debt was transferred from the General Fund to the internal service funds. Revenues of the General Fund totaled \$18.4 billion in fiscal year 2010, an increase of \$1.8 billion from fiscal year 2009. The most significant increase in revenues was a \$2.3 billion for contributions and intergovernmental. Expenditures of the General Fund totaled \$15.9 billion in fiscal year 2010, an increase of \$1.7 billion from fiscal year 2009. The major contributing factors to this was an increase in expenditures for human services of \$789.1 million, an increase of \$639.6 million for education, and an increase of \$298.2 million in transportation and law enforcement. The increases in revenues and expenditures were partially due to funding received from the American Recovery and Reinvestment Act of 2009.

The Public Education Fund provides general and special education services to the children of the State and other related functions such as library services and student loans. Total fund balance decreased by \$102.3 million. Revenues of the public education funds totaled \$1.3 billion in fiscal year 2010, a decrease of \$0.5 million from fiscal year 2009. The major factor that contributed to this was a decrease of \$13.4 million in miscellaneous revenues. Expenditures for the Public Education Fund totaled \$4.2 billion for the fiscal year, a decrease of \$411.3 million from fiscal year 2009. The decrease was primarily due to a reduction in education expenditures of \$415.3 million, which was offset by a decrease in transfers in of \$466.2 million.

The Conservation and Environmental Protection Fund provides for the preservation of the State's wildlife and environment. The fund balance increased by \$23.3 million due to an increase of \$18.3 million in contributions and intergovernmental revenues and an increase of \$4.4 million in penalties and unclaimed property during the fiscal year. An increase of \$20.6 million in expenditures, combined with the increase in revenues, caused fund balance to increase at a smaller rate than in previous fiscal years.

The Transportation and Law Enforcement Fund provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety. The fund balance decreased by \$8.0 million in fiscal year 2010. The major contributing factor was a decrease in licenses, fees, and permits revenue of \$22.5 million.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. The fund balance increased by \$846.6 million in fiscal year 2010. Debt issuance was the primary factor that contributed to the fund balance increase. Revenues of the Missouri Road Fund increased during fiscal year 2010 by \$378.1 million primarily due to an increase of \$238.7 million in miscellaneous revenues, related to bond proceeds, and an increase of \$148.0 million in contributions and intergovernmental revenues.

#### **Proprietary Funds:**

The State has three major proprietary funds: State Lottery, Unemployment Compensation and the Petroleum Storage Tank Insurance Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own. The Petroleum Storage Tank Insurance Fund accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks. The fund pays cleanup expenses for petroleum leaks or spills from underground storage tanks and certain above ground storage tanks as well as third party property damage or bodily injury resulting from such discharges. This fund is one of the largest insurers of storage tanks in the country.

The State Lottery Fund's net assets increased by \$1.1 million. Operating revenues increased by \$2.9 million during the fiscal year which was partially offset by an increase in transfers out of \$1.2 million. The increase in operating revenues was mainly due to a rise in ticket sales from fiscal year 2009 of \$3.4 million. The rise in ticket sales contributed to the increase in transfers out.

The Unemployment Compensation Fund's net assets decreased by \$438.9 million due to the increased number of unemployment claims resulting from the current national economic condition. Missouri borrowed \$536.2 million from the federal government during fiscal year 2010 to continue to pay unemployment benefits.

The Petroleum Storage Tank Insurance Fund's net assets decreased by \$0.3 million. Operating expenses decreased by \$3.3 million primarily due to decreased program expenses. However, operating revenues also decreased by \$1.9 million. Licenses, fees, and permits revenue was the major contributing factor in the decrease of operating revenues.

#### **GENERAL FUND BUDGETARY HIGHLIGHTS**

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted and increases to estimated appropriations, which occur during the fiscal year.

Budgeted appropriations for fiscal year 2010 from the General Fund were \$24.5 billion original budget and \$25.0 billion final budget. Actual spending was \$23.4 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year but the expenditures may occur over several years.

Budgeted revenues/transfers in for fiscal year 2010, for the General Fund, were \$23.8 billion original budget and \$24.0 billion final budget. Actual revenue/transfers in was \$23.3 billion. The increase of \$4.7 billion in actual revenues/transfers in occurred due to funds received from the American Recovery and Reinvestment Act of 2009. Revenues/transfers in still did not meet the final projection for the fiscal year.

Refer to the Notes to RSI, Budgetary Reporting, on page 102 for more information on budgetary variances.

#### **GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION**

#### **Capital Assets:**

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2010, was \$30.2 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, and infrastructure.

#### Capital Assets of the State include (in thousands):

	G	Governmental Activities		Business-Type Activities		Total
Construction in Progress	\$	527,535	\$	8,878	\$	536,413
Software in Progress		30,985				30,985
Infrastructure in Progress		2,729,897				2,729,897
Land		2,869,843		8,946		2,878,789
Permanent Easements		1,461				1,461

Software		36,532		1,676		38,208
Infrastructure		43,589,497				43,589,497
Subtotal		54,058,754		99,792		54,158,546
Less Accumulated						
Depreciation/Amortization		(23,952,998)		(51,193)		(24,004,191)
Total Capital Assets, Net	\$	30,105,756	\$	48,599	\$	30,154,355

Additional information on capital assets can be found in Note 5 of this report.

#### **Debt Administration:**

At the end of fiscal year 2010, the primary government had total general obligation and other bonded debt outstanding of \$4.6 billion. Of this amount, \$528.9 million comprises debt backed by the full faith and credit of the government.

Principal amounts retired in fiscal year 2010 were \$71,165,000 for general obligation bonds and \$126,830,000 for other bonds.

The State of Missouri is proud to be one of only eight states to maintain a Triple-A credit rating from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

#### Outstanding Bonds Payable of the State include (in thousands):

	Governmental Activities		 Component Units	Total		
General Obligation Bonds Other Bonds	\$	528,910 4,060,855	\$  1,683,313	\$	528,910 5,744,168	
Total	\$	4,589,765	\$ 1,683,313	\$	6,273,078	

Additional information on long-term debt can be found in Notes 11, 12, and 13 of this report.

#### **ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET**

The State of Missouri completed fiscal year 2010 with a balanced budget. Net general revenue collections decreased 9.1% from fiscal year 2009 ending with an amount of \$6.8 billion. The fiscal year 2011 budget, as appropriated in May 2010, would require growth of 2.3% from fiscal year 2010 in general revenue collections to support spending. Expenditure restrictions and Federal budget stabilization funds will result in a balanced 2011 budget.

As a major manufacturing, financial, and agricultural state, Missouri's economic health is tied closely to that of the nation. The national economy has been in a recession since December 2007. Growth rebounded in early 2010, but has since slowed to slightly below average. Missouri's unemployment rate decreased 0.4% in fiscal year 2010. The June 2010 unemployment rate was 9.3% compared to the June 2009 unemployment rate of 9.7%. The national unemployment rate was 9.6% in June 2010. The graph below shows the growth and decline in employment by employment sector.

Source: 2010 Missouri Economic Report

Employment change by industry identifies the types of jobs being created and lost in the state. Comparing May 2010 to May 2009, four industry groupings have had employment increases in Missouri. Construction employment declined by 18,000 while professional and business services declined by 6,400 over the period. The government sector had the largest growth over the year, partly from the influx of temporary census workers. The education and health service industry also increased by 6,100 over the year.

The current economic environment presents Missouri with unusual circumstances and challenges. The past year has been marked by improvement in the Missouri economy. Consumer sentiment indices have shown some improvement, but consumers are expected to remain cautious with spending as the economic recovery will likely be slow. However, numerous risks endanger the economy still today. The winding down of stimulus domestically and the slow job growth for Missouri, are just a few risks the State is dealing with. Without a sustained employment turnaround, general revenue growth will remain tepid. Despite these concerns, the State's financial position continues to be strong. Missouri has set aside a portion of the American Recovery and Reinvestment Act of 2009 to ensure a balanced budget in fiscal year 2011.

Missouri Department of Transportation (MoDOT) is working to cope with the significant drop in funding by dramatically decreasing the number of projects. During fiscal year 2010, MoDOT approved a five year Highway Construction Program, this program contains construction projects averaging only \$500 million per year. The current economy has resulted in a favorable bidding environment for construction projects. As of September 1, 2010, MoDOT has awarded 50 fiscal year 2011 projects at a cost of \$96.9 million. These were estimated at a cost of \$107.3 million, a 9.7% savings.

Despite funding challenges, the State is working to stimulate the economy, increase efficiency, and decrease costs. In fiscal year 2010, Missouri passed House Bill 1 in a special session that creates a new membership tier for the Missouri State Employees' Retirement System (MOSERS) and Missouri Patrol Employees' Retirement System (MPERS) for employees hired on or after January 1, 2011. For those employees, the new tier requires a 4% employee contribution while increasing the retirement age and vesting period. Special session House Bill 2, the Manufacturing Jobs Act, was also passed which allows qualified automotive manufacturing facilities or supplies that bring next–generation production lines to the State to retain withholding taxes. Senate Bills 1007 and 842 are estimated to save nearly \$19 million a year by allowing the Department of Health and Senior Services to contract for assessments for in–home services. Finally, House Bill 1868 combines the State Water Patrol and the State Highway Patrol into one agency. The merger will save the State \$3 million a year in administrative savings without reducing the number of uniformed water patrol officers or highway patrol troopers.

#### **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

The **Basic Financial Statements** include the Government-Wide Financial Statements, the Governmental Fund Financial Statements, the Proprietary Fund Financial Statements, the Fiduciary Fund Financial Statements, the Component Unit Financial Statements, and the accompanying notes to the statements.

# The Governmental Funds focus on current financial resources.

#### Governmental Fund Financial Statements

#### **Major Funds**

**General Fund** – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

See the General Fund Combining Statements presented as part of Supplementary Information for listings of all funds included in the General Fund.

#### **Major Special Revenue Funds:**

**Public Education** – Provides general and special education needs of the State and other related areas such as library services and student loans.

**Conservation and Environmental Protection** – Provides for the preservation of the State's wildlife and environment.

*Transportation and Law Enforcement* – Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

#### **Major Capital Projects Fund:**

Missouri Road Fund – Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. This also includes the following blended component units: Missouri Highway 179 Transportation Corporation, Missouri Highway 63 Transportation Corporation, and the Wentzville Parkway Transportation Corporation.

### **Non-Major Funds**

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements and Schedules for non-major funds as part of Supplementary Information.

# STATE OF MISSOURI RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET ASSETS June 30, 2010

(In Thousands of Dollars)

Total Fund Balances – Governmental Funds	\$	4,886,011
Amounts reported for governmental activities in the Statement of Net Assets are different because:		
Capital assets used in governmental funds are not financial resources and they are not reported in the funds. These assets consist of (Note 5):		
Construction in Progress 417,407		
Software in Progress 27,064		
Infrastructure in Progress 2,729,897		
Land 2,862,121		
Permanent Easements 1,461		
Land Improvements 158,493		
Temporary Easements 6,495		
Buildings and Improvements 2,443,989		
Equipment 1,094,482		
Software 34,988		
Infrastructure 43,589,497		
Accumulated Depreciation/Amortization (23,699,307)		20.666.507
		29,666,587
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds (Note 1).		893,855
Bonds issued by the State have associated costs that are paid from current available financial resources in the funds. However, these costs are deferred on the Statement of Net Assets.		53,586
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of (Notes 11 and 12):		
Due to Other Entities (32,839)		
General Obligation and Other Bonds Payable (4,589,765)		
Unamortized Bond Premium (147,512)		
Accrued Interest on Bonds (40,444)		
Obligation under Lease Purchases (180,362)		
Pollution Remediation (10,018)		
Compensated Absences (178,187)		
Claims Liability (38,940)		
Contingent Liabilities (1,498,864)		
Net Other Postemployment Benefit Obligation (329,958)		
Net Pension Obligation (114,301)		
		(7,161,190)
Internal corvice funds are used by management to shares the costs of cortain activities, such as		
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities are included		
in governmental activities in the Statement of Net Assets.		554,306
in governmental activities in the statement of Net Assets.	-	33 7,300
Net Assets of Governmental Activities	\$	28,893,155

# STATE OF MISSOURI RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES IN GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2010 (In Thousands of Dollars)

\_\_\_\_\_

Net Change in Fund Balances – Total Governmental Funds	-	638,966
Amounts reported for governmental activities in the Statement of Activities are different because:		
Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.		(279)
Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of \$1,568,143 exceeds depreciation/amortization of \$1,003,178 in the current period.		564,965
The net effect of the donation of capital assets increased net assets.		2,276
Revenues in the Statement of Activities that do not provide current financial resources are not		2,2.0
reported as revenues in the funds.		250,985
Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Assets (Notes 11 and 12):  Bonds Issued  Bond Premiums, Issuance, and Refunding Costs  Bond Principal Payments  Capital Leases Issued  (1,085,000)  197,995  (6,675)		
Capital Lease Payments		(886,898)
Some expenses reported in the Statement of Activities do not require the use of current financial resources, and therefore are not reported as expenditures in governmental funds (Notes 11 and 12):		
Amortization of Bond Premiums, Issuance, and Refunding Costs Increase in Accrued Interest (4,627) Increase in Due to Other Entities (5,598) Decrease in Pollution Remediation 31 Decrease in Compensated Absences Increase in Contingent Liabilities (99,390) Decrease in Claims Liability 26,704 Increase in Net Other Postemployment Benefit Obligation (107,328) Increase in Net Pension Obligation (2,784)		
		(177,706)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of internal service funds are reported with governmental activities.		(23,590)
Change in Net Assets of Governmental Activities	\$	368,719

The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.

### Proprietary Fund Financial Statements

#### **Major Funds**

**State Lottery** – Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

**Unemployment Compensation** – Accounts for contributions and payments collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

**Petroleum Storage Tank Insurance** – Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

### **Non-Major Funds**

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

#### **STATE OF MISSOURI** STATEMENT OF NET ASSETS **PROPRIETARY FUNDS** June 30, 2010 (In Thousands of Dollars)

#### Note 1 - Significant Accounting Policies

#### A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The State has elected not to follow the Financial Accounting Standards Board's pronouncements issued after November 30, 1989 for proprietary activities.

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14 – *The Financial Reporting Entity* for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39 – *Determining Whether Certain Entities are Component Units* added a requirement to include all entities whose relationship with the State would make it misleading to exclude it.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

#### Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

<u>Board of Fund Commissioners</u> - The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Auditor, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

<u>Board of Private Investigator Examiners</u> – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators in Missouri. The five member board shall consist of three private investigators and two public members, appointed by the Governor. Separate financial statements are not required for the Board.

<u>Board of Unemployment Fund Financing</u> - The Board was created by state law to provide a method of providing funds for the payment of unemployment benefits and maintaining an adequate fund balance in the Unemployment Compensation Fund. The Board is comprised of the Governor, Lieutenant Governor, Attorney General, the Director of the Department of Labor and Industrial Relations, and the Commissioner of Administration. Separate financial statements are not required for the Board.

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

<u>Coordinating Board for Early Childhood</u> - The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. Separate financial statements are not required for the Board.

<u>Missouri Investment Trust–Board of Trustees</u> – The Board is responsible for establishing investment policies, strategies, and goals for the Missouri Investment Trust, and has the fiduciary duty to manage the policy and investment decisions necessary for the success of the Missouri Investment Trust. The seven member board of trustees consists of the State Treasurer, the Commissioner of Administration, one member appointed by the speaker of the House of Representatives, one member appointed by the president pro–tem of the Senate, and three members selected by the Governor. Separate financial statements are not required for the Board. As of December 31, 2009, the Missouri Investment Trust has reconveyed all trust assets to the contributing entities.

<u>Missouri Propane Gas Commission</u> - The Commission is responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri. The Commission is authorized to regulate the inspection of and provide specifications for propane. The nine member commission is appointed by the Governor with members from various propane-related industries, the Departments of Agriculture and Natural Resources, and one public member.

<u>Missouri State Penitentiary Redevelopment Commission</u> - The Commission was established to coordinate the planning and redevelopment of the old Jefferson City Correctional Center. The ten member commission consists of three members appointed by the Jefferson City mayor, three members appointed by the Cole County Commission, and four members appointed by the Governor. Separate financial statements are not required for the Commission.

#### Capital Projects Funds:

<u>Missouri Highway 63 Transportation Corporation, and Wentzville Parkway Transportation Corporation</u> - These are reported as a part of the Missouri Road Fund. These transportation corporations are not-for-profit corporations organized under the Missouri Transportation Corporation Act. The corporations were formed to facilitate the construction of highway projects. When the purpose for which each corporation was formed has been complied with and all obligations of the corporation have been paid, the Board of the corporation shall, with the approval of the Missouri Highways and Transportation Commission, dissolve the corporation. Additional information may be requested from:

Missouri Department of Transportation Resource Management P.O. Box 270 Jefferson City, Missouri 65102

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

#### Internal Service Funds:

<u>Board of Public Buildings</u> – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and pay the costs of operations. Copies of the Board of Public Buildings' financial statements may be requested from:

Office of Administration
Division of Accounting
P.O. Box 809
Jefferson City, Missouri 65102

<u>Conservation Employees' Insurance Plan</u> – The Plan provides health and life insurance coverage to eligible employees and retirees of the Missouri Department of Conservation. The Plan is administered by a five member board of trustees made up of two members of the Plan appointed by the Conservation Commission, the Chief Financial Officer, the Human Resources Division Chief, and the Internal Auditor. Copies of the Plan's financial statements may be requested from:

Missouri Department of Conservation P.O. Box 180 Jefferson City, Missouri 65102

<u>Transportation Self-Insurance Plan</u> - The Plan provides fleet vehicle liability, workers' compensation, and general liability insurance. The Plan is administered by the Missouri Department of Transportation. Additional information may be requested from:

Missouri Department of Transportation Controller's Division P.O. Box 270 Jefferson City, Missouri 65102

<u>Missouri State Employee's Insurance Plan</u> - The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Furthermore, the Plan administers the State's Deferred Compensation Plan through the MOSERS Board of Trustees. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

<u>Missouri Consolidated Health Care Plan (MCHCP)</u> – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; six members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Insurance, Financial Institutions and Professional Registration; and the Commissioner of Administration. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan P.O. Box 104355 832 Weathered Rock Court Jefferson City, Missouri 65110-4355

MoDOT and MSHP Medical and Life Insurance Plan - The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation Controller's Division P.O. Box 270 Jefferson City, Missouri 65102

#### Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, disability, and life insurance to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

#### Note 1 - Significant Accounting Policies (cont.)

<u>Missouri Department of Transportation and Highway Patrol Employees' Retirement System</u> – The System provides retirement, death, and disability benefits to qualified employees of the Missouri Highways and Transportation Commission (includes employees of the Department of Transportation) and both uniformed and non-uniformed members of the State Highway Patrol. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by Highway Patrol employees, one retired member elected by retired State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and Highway Patrol Employees' Retirement System P.O. Box 1930 Jefferson City, Missouri 65102-1930

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored postemployment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net assets and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan P.O. Box 104355 832 Weathered Rock Court Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan – The Missouri State Public Employees' Deferred Compensation Plan is administered by ING, and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25, \$30, or \$35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010 until further notice. Copies of financial statements for both Plans may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

#### Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

#### Note 1 - Significant Accounting Policies (cont.)

#### <u>Major</u>

<u>College and Universities</u> – The Coordinating Board for Higher Education has certain responsibilities for these institutions and they receive State support. Following are the public college and universities included in the financial statements:

#### Harris-Stowe State University

3026 Laclede Avenue St. Louis, Missouri 63103

#### **Lincoln University**

207 Young Hall 820 Chestnut Street Jefferson City, Missouri 65101

#### Linn State Technical College

1 Technology Drive Linn, Missouri 65051

#### **Missouri Southern State University**

3950 East Newman Road Joplin, Missouri 64801-1595

#### Missouri State University

901 South National, Room 119 Springfield, Missouri 65897

#### Missouri Western State University

4525 Downs Drive St. Joseph, Missouri 64507

#### **Northwest Missouri State University**

105 Administration Building 800 University Drive Maryville, Missouri 64468-6001

#### **Southeast Missouri State University**

One University Plaza, Mail Stop 3200 Cape Girardeau, Missouri 63701

#### **Truman State University**

McClain Hall, Room 105 100 East Normal Kirksville, Missouri 63501

#### University of Central Missouri

316 Administration Building Warrensburg, Missouri 64093

#### **University of Missouri System**

1000 West Nifong, Building 7, Suite 300 Columbia, Missouri 65211

#### Non-Major

Missouri Development Finance Board – The Board was created by state law as an independent, self-supporting, body corporate and politic to promote economic development of the State and was created within the Department of Economic Development. The Board is empowered to issue taxable, tax-exempt, and public purpose infrastructure industrial revenue bonds or notes; provide loans or loan guarantees to eligible businesses; provide loans and grants to political subdivisions to fund public infrastructure improvements; and issue tax credits against certain state income taxes in exchange for contributions made to the Board. The twelve member board is made up of the Lieutenant Governor and the Directors of the Department of Economic Development, the Department of Natural Resources, and the Department of Agriculture, who serve as ex-officio voting members, and eight members appointed by the Governor and confirmed by the Senate. Copies of the Board's financial statements may be requested from:

Missouri Development Finance Board Governor Office Building 200 Madison Street, Suite 1000 Jefferson City, Missouri 65101

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

Missouri Agricultural and Small Business Development Authority — The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small Business Development Authority P.O. Box 630 1616 Missouri Boulevard Jefferson City, Missouri 65102

<u>Missouri Transportation Finance Corporation</u> – The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities fund highway and transportation projects throughout the State. The Missouri Highways and Transportation Commission determines which applicants are extended loans from the Missouri Transportation Finance Corporation. Copies of the Corporation's financial statements may be requested from:

Missouri Department of Transportation Highway Building, 2<sup>nd</sup> Floor 105 West Capitol Avenue Jefferson City, Missouri 65101

<u>Missouri Wine and Grape Board</u> – The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board P.O. Box 630 1616 Missouri Boulevard Jefferson City, Missouri 65102

#### **Related Organizations**

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

<u>Missouri Health and Educational Facilities Authority</u> - finances health and educational facilities.

<u>Missouri Higher Education Loan Authority</u> - provides a secondary market for loans made under the Federal Family Education Loan Program.

#### Note 1 - Significant Accounting Policies (cont.)

<u>Missouri Housing Development Commission</u> - makes, purchases, and insures mortgage loans which are used to develop new or rehabilitate low and moderate income housing.

<u>Missouri Technology Corporation</u> – promotes the modernization of businesses through the development of science and technology applications.

<u>Missouri Public Entity Risk Management Fund</u> - provides liability protection to participating public entities, their officials, and employees.

<u>State Environmental Improvement and Energy Resources Authority</u> - finances, acquires, constructs, and equips projects to reduce, prevent, and control pollution and develop the energy resources of the State.

<u>Jackson County Sports Complex Authority</u> - responsible for construction, operation, and financing of the Jackson County Sports Complex.

<u>Kansas City Regional Sports Complex Authority</u> - responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

<u>St. Charles County Convention and Sports Facility Authority</u> - responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

<u>Missouri Cotton Growers Organization</u> - organized for boll weevil eradication.

<u>KCT Intermodal Transportation Corporation</u> - organized to pay for a railroad bridge in the Blue Valley Industrial District in Kansas City.

<u>Lake of the Ozarks Community Bridge Corporation</u> - organized to pay for the acquisition and construction of a toll bridge across the Lake of the Ozarks.

<u>Westside Intermodal Transportation Corporation</u> - organized to pay for rail additions and improvements of the Kansas City Terminal Railway.

<u>Universal Service Board</u> – organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

<u>Interstate Commission for Adult Offender Supervision</u> – responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

<u>Missouri Access to Higher Education Trust Board</u> - responsible for administering the funds of the Higher Education Trust.

<u>Missouri Health Insurance Pool</u> - organized to provide health care coverage for residents who are unable to obtain individual health coverage.

<u>P-20 Council</u> - organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

#### B. Government-Wide and Fund Financial Statements

#### **Government-Wide Financial Statements:**

The government-wide financial statements focus on the government as a whole. The Statement of Net Assets and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The **Statement of Net Assets** presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net assets.

The **Statement of Activities** demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

The difference between fund assets and liabilities is reported as "Net Assets" on the government-wide, proprietary, and fiduciary fund statements and "Fund Balance" on the governmental fund financial statements.

#### Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

#### Note 1 - Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets and liabilities associated with the operation of these funds are included on the Statement of Net Assets. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net assets. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

<u>General Fund</u> - accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

<u>Public Education</u> – provides general and special education needs of the State and other related areas such as library services and student loans.

<u>Conservation and Environmental Protection</u> - provides for the preservation of the State's wildlife and environment.

<u>Transportation and Law Enforcement</u> - provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

<u>Missouri Road Fund</u> - accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system.

#### Note 1 - Significant Accounting Policies (cont.)

<u>State Lottery</u> – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes.

<u>Unemployment Compensation</u> – accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits.

<u>Petroleum Storage Tank Insurance</u> – accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

#### C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

#### **Primary Government**:

Governmental Funds include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

<u>Proprietary Funds</u> include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

<u>Fiduciary Funds</u> include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other entities.

#### **Discretely Presented Component Units**:

#### <u>Major</u>

<u>College and Universities</u> account for moneys from federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets and liabilities are accounted for on the Statement of Net Assets. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Assets.

#### Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, and grants. Assets and liabilities are accounted for on the Statement of Net Assets. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Assets.

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

#### D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of three months or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

#### E. Investments

These are long-term investments with an original maturity greater than three months which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. All investments are reported at fair value (see *Note 3*).

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and agency funds.

#### F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Assets. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Assets (see *Note 15*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Assets. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Assets. Interfund receivables/payables between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Assets.

#### G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statement of Net Assets. Long-term interfund payables are classified as "advances from primary government/component units" on the Balance Sheet and Statement of Net Assets (see *Note 15*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Assets.

#### H. <u>Inventories</u>

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Reserves of fund balance have been established for the inventory balances in governmental funds. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

#### I. Restricted Assets

These moneys are restricted by donors and applicable bond indentures:

<u>Reserved for Budget Reserve</u> – An account used to meet the cash flow requirements and program funding requirements of the State.

<u>Reserved for Inventories</u> – An account used to segregate a portion of fund balance to indicate that inventories do not represent available, spendable resources.

<u>Reserved for Forfeited Assets</u> – An account used to segregate a portion of fund balance to pay postclosure costs for landfill owners that have defaulted on their obligation to pay postclosure care costs (see *Note 22*) and mining reclamation costs.

<u>Reserved for Taxes</u> - An account used to segregate a portion of fund balance for taxes received for which payment was made under protest and for bonds filed by license holders for security against default of payment of tax liabilities.

<u>Reserved for Debt Service</u> – An account used to segregate a portion of fund balance for debt service resources legally restricted to the payment of general long-term debt principal and interest amounts maturing in future years.

<u>Reserved for Loans Receivable</u> – An account used to segregate a portion of fund balance to indicate that loans receivable do not represent available, spendable resources.

<u>Reserved for Trust Principal</u> – An account used to segregate a portion of fund balance to indicate the principal amount of permanent funds that is legally restricted for a specific future purpose.

#### J. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement (see *Notes 5 and 6*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software – \$5,000, and equipment – \$1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings - 40 to 50 years, land improvements and building improvements - 15 to 20 years, temporary easements - term of easement, equipment - 5 years, software - 3 to 5 years, and infrastructure - 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings - 40 years, land improvements and building improvements - 20 years, equipment - 5 to 15 years, and software - 3 to 5 years.

#### K. <u>Deferred/Unearned Revenues</u>

#### **Governmental Funds**

Deferred revenues are those for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met for governmental funds, which use the modified accrual basis of accounting. Therefore, such amounts are reported within the governmental fund financial statements as receivables and offset by a deferred revenue account. These amounts include \$812,036,000 within the General Fund, \$59,930,000 within the major special revenue funds, \$17,091,000 within the Missouri Road Fund, and \$4,798,000 within non-major governmental funds which totals \$893,855,000 for governmental funds. Such amounts have been deemed to be measurable but not available. All major sources of revenue, including taxes; licenses, fees, and permits; and governmental contributions are susceptible to accrual when available within 60 days.

Deferred revenues also include amounts collected in advance of the year in which earned. The State has reported as such deferred revenues the amount of \$115,045,000 within the General Fund, \$186,000 within major special revenue funds, \$4,697,000 within the Missouri Road Fund, and \$749,000 within non-major governmental funds which totals \$120,677,000 for governmental funds.

#### **Proprietary Funds**

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$23,776,000 within the internal service funds included in governmental activities. Total unearned revenue for enterprise funds is \$504,000 which is from the Petroleum Storage Tank Insurance Fund.

#### **Component Units**

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$111,002,000 within the college and universities and \$943,000 in non-major component units which is a total of \$111,945,000 of unearned revenue for component units.

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

#### L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

- 1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).
- 2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).
- 3. Outstanding principal for bonds issued by the Board of Public Buildings, State Road Bonds issued by the Missouri Highways and Transportation Commission, and bonds issued by the Health and Educational Facilities Authority and the Regional Convention and Sports Complex Authority. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
- 4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.
  - In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).
- 5. Obligations under lease/purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11*).
- 6. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds but are recorded as expenditures when paid (see *Note 11*).
  - Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.
  - Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State.
- 7. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 11, 21, and 23*).

\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

8. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 11 and 22*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

#### M. Net Assets

Net Assets are reported in three categories:

<u>Invested in Capital Assets, Net of Related Debt</u> – An account used to segregate the portion of net assets attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes and other debt that are attributed to acquisition, construction, or improvement of those assets.

<u>Restricted Net Assets</u> - An account used to segregate the portion of net assets that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2010, net assets restricted by enabling legislation equaled \$1,876,118,000 for governmental activities.

<u>Unrestricted Net Assets</u> – An account used to segregate the portion of net assets that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

#### N. Revenues

The revenues of the General Fund include federal grants and contributions of \$11,042,046,000. Revenues for all funds are reported net of refunds of \$2,101,851,000.

#### O. Interfund Transactions

During the fiscal year the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, construct assets, and service debt. Interfund transactions basically consist of these three types:

 Transactions that would be treated as revenues or expenditures/expenses if they involved organizations external to the State are similarly treated when involving other funds of the State. Major transactions that fall into this category include payments to internal service funds from other funds for services rendered and to agency funds for contributions for employee benefits.

\_\_\_\_\_\_

#### Note 1 - Significant Accounting Policies (cont.)

- 2. Transactions that reimburse another fund for an expense. These transactions reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.
- 3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the same activity (Governmental) are eliminated at the Government-Wide Statement of Activities.

#### P. Expenditures and Expenses

Expenditures and expenses are reported net of revenue over collections of \$1,650,288,000 and \$3,697,000, respectively. Expenditures and expenses are reported net of overpayments to vendors, individuals, school districts, and for cost reimbursements of \$446,745,000 and \$1,121,000, respectively.

#### Q. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

The property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

#### Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2010:

- GASB Statement No. 51, Accounting and Financial Reporting for Intangible Assets, gives guidance regarding how to identify, account for, and report intangible assets. These disclosures may be found in Note 5 Capital Assets.
- GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, addresses the recognition, measurement, and disclosure of information regarding derivative instruments. These disclosures may be found in *Note 3 Deposits and Investments*.
- GASB Statement No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, provides guidance on measurement of other postemployment benefit (OPEB) plans for governments with agent employer plans or agent multiple-employers plans. While the State does not participate in either one of these plans, some of the State's component units do. See *Note 8 Other Postemployment Benefits* for these disclosures.
- GASB Statement No. 58, Accounting and Financial Reporting for Chapter 9 Bankruptcies, provides guidance on recognition, measurement, display, and disclosure for governments that have filed for bankruptcy under Chapter 9. This statement has no impact on the State's CAFR.

#### Note 2 - Reporting Changes and Classifications (cont.)

The State of Missouri has two funds that have been reclassified for the fiscal year ended June 30, 2010. The Missouri Wine and Grape Board was reclassified as a discretely presented component unit instead of blended as it does not exclusively benefit the State. The Missouri Road Bond fund was reclassified to a debt service fund from a capital project fund after additional evaluation.

#### Note 3 - Deposits and Investments

The State Treasurer maintains a cash and short-term investment pool that is used by substantially all state funds. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets - Cash and Cash Equivalents," and "Restricted Assets - Investments" as reported at June 30, 2010.

#### A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% with approved securities. Deposits must have a maturity of five years or less and earn interest at a rate equal to that paid on U.S. Treasury securities with equivalent maturities.

#### **Primary Government**

At June 30, 2010, the bank balance of the primary government's deposits was \$1,102,013,000. Of the bank amount, \$138,883,000 was exposed to custodial credit risk by being uninsured and collateralized with securities held by the pledging financial institution.

#### <u>Fiduciary</u>

At June 30, 2010, the bank balance of the deposits of the fiduciary funds was \$92,723,000. None of these deposits were exposed to custodial credit risk.

#### **Component Units**

Information on the component units deposits is available within their individual financial statements.

\_\_\_\_\_

#### Note 3 - Deposits and Investments (cont.)

#### **B.** Investments

Statutes authorize the State Treasurer to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury or Agency securities of any maturity. The internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, and fixed income securities. There have been no violations of these investment restrictions during fiscal year 2010.

The State Treasurer minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Bank of New York.

#### **Primary Government**

At June 30, 2010, the reported amount of the primary government's investments was \$3,401,061,000. Of this amount, \$117,395,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

#### **Fiduciary**

At June 30, 2010, the reported amount of the fiduciary funds investments was \$9,990,438,000. Of this amount, \$70,745,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

#### **Component Units**

Information on the component units investments is available within their individual financial statements.

\_\_\_\_\_

#### Note 3 - Deposits and Investments (cont.)

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity in years. The State Treasurer minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 1.5 years, and holding at least 40% of the portfolio's total market value in securities with a maturity of 12 months or less.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer from investing more than 5% of the total investment portfolio into any single financial institution or issuer, excluding U.S. securities and repurchase agreements. There are no restrictions in the amount that can be invested in U.S. securities, however, there can be no more than 15% of the total portfolio invested in repurchase agreements with a single counterparty. During fiscal year 2010, the State did not have more than 5% of total investments in a single issuer.

\_\_\_\_\_

# Note 3 - Deposits and Investments (cont.)

The State Treasurer requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (A1/P1) as rated by Moody's Investor Service, Inc. (Moody's) and Standard & Poor's Corporation (S & P). The Treasurer does not have any additional policies regarding credit ratings of investments. The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

## Note 3 - Deposits and Investments (cont.)

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

	Investment Type

## C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.5, RSMo. As of November 2008, Clearland Securities, a division of Wells Fargo (formerly known as Wachovia Global Securities Lending) began acting as the State Treasurer's custodial bank and securities lending agent. For securities which are received as collateral under a bonds borrowed program, at least 75% of the collateral received must match the maturities of the securities lent with a maximum duration gap between loans and investments of 15 days. The maximum life of term loans shall be 90 days.

\_\_\_\_\_

#### Note 3 - Deposits and Investments (cont.)

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The Custodian provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2010, the State Treasurer's Office had an aggregate fair value of securities lent of \$261,060,000 and an aggregate fair value of collateral received of \$261,060,000.

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Certain securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default. On June 30, 2010, MOSERS had no credit risk exposure to borrowers because the collateral amounts received exceeded amounts out on loan.

Deutsche Bank AG, New York Branch served as the agent for the fixed income domestic equity and international equity securities lending programs. MOSERS reduces credit risk by allowing Deutsche Bank to lend these securities to a diverse group of dealers on behalf of MOSERS. Deutsche Bank provides indemnification against dealer default.

Daily monitoring of securities that are on loan ensure proper collateralization levels and mitigate counterparty risk. The majority of the security loans are open loans and can be terminated on demand by either MOSERS or the borrower. Cash collateral is invested in short-term investment funds, managed by Deutsche Bank. On June 30, 2010, the cash collateral fund had a market value of \$192,640,000 and a weighted average maturity of 11 days. At June 30, 2010 and 2009, MOSERS had earned \$1,204,000 and \$5,830,000, respectively, on the securities lending program.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (the System), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. The System's custodial bank is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

During the fiscal year, the System lent securities and received cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. The System cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers were required to deliver collateral for each loan equal to: 1) in the case of loaned securities denominated in dollars or whose primary trading market was located in the United States, 102% of the market value of the loaned securities plus any accrued interest; and 2) in the case of loaned securities not denominated in U.S. dollars or whose primary trading market was not located in the United States, 105% of the market value of the loaned securities plus any accrued interest.

The System did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

\_\_\_\_\_

#### Note 3 - Deposits and Investments (cont.)

The System and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2010, the cash collateral fund had a market value of \$44,655,000.

At June 30, 2010, the System had lost \$22,000, and at June 30, 2009, the System had earned \$393,000 on the securities lending program.

#### Component Units:

Information on the component units securities lending program is available within their individual financial statements.

#### D. Derivatives

Missouri State Employees' Retirement System (MOSERS), through its external investment managers, has an investment policy which holds investments in futures contracts, swap contracts, and forward foreign currency exchange contracts. MOSERS does not anticipate additional significant market risk from the swap arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. MOSERS also invests in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. At June 30, 2010, MOSERS Foreign Currency Forward Contracts had a pending receivable of \$161,692,000 and a pending payable of \$161,857,000 resulting in a final liability of \$165,000.

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2010. The investments are reported at fair value and are included on the Statement of Net Assets of the pension (and other employee benefit) trust funds.

#### **Futures Contracts:**

Notional Amount	Exposure				
\$ 720,950	\$ 1,732				
Swaps:					
	Counterparty				
Notional Amount	Exposure				
\$ 1,193,717	\$ 39,496				

## Component Units:

Information on the component units derivatives is available within their individual financial statements.

#### Note 4 - Federal Surplus Commodities Inventory

The federal surplus commodities inventory for the Department of Social Services was \$44,000 as of June 30, 2010. This inventory is not considered to be an asset of the State and is not included in the financial statements.

#### Note 6 - Leases

#### Capital

The State has entered into various agreements to lease land, buildings, and equipment. FASB Statement No. 13, *Accounting for Leases*, requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease).

Capital leases for the internal service funds, enterprise, and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

			Internal				College
Fiscal Year	Go	vernmental	Service	E	Enterprise		and
Ending June 30		Funds	 Funds	Funds		Universities	
2011	\$	30,965	\$ 2,044	\$	53	\$	6,291
2012		11,230	1,643		39		6,377
2013		10,640	606		24		6,182
2014		10,030	580		5		6,182
2015		9,335	472				6,182
2016-2020		36,635					29,458
2021-2025		14,428	 				13,602
Total Minimum Lease Payments		123,263	5,345		121		74,274
Less Amount Representing Interest		(29,606)	 (260)		(5)		(25,214)
Present Value of Net			_				_
Minimum Lease Payments	\$	93,657	\$ 5,085	\$	116	\$	49,060

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under the lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing a building in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. The payments on this lease are subject to annual appropriation by the State legislature.

\_\_\_\_\_

## Note 6 - Leases (cont.)

Following is a summary of the future minimum lease payments to pay interest and principal of the Leasehold Revenue Bonds (in thousands of dollars):

Fiscal Year Ending June 30	Inte	rnal Service Funds
2011	\$	2,600
2012		2,600
2013		2,602
2014		2,593
2015		2,593
2016-2020		12,897
2021-2025		12,862
2026-2030		12,835
2031		2,564
Total Minimum Lease Payments		54,146
Less Amount Representing Interest		(19,211)
Present Value of Net		
Minimum Lease Payments	\$	34,935

The State issued Refunding Certificates of Participation Series A 2005 dated March 1, 2005, in the amount of \$120,490,000. The Refunding Certificates of Participation refunded \$13,945,000 of Missouri Public Facilities Corporation Certificates of Participation (Acute Care Psychiatric Hospital Project) Series A 1994, \$13,400,000 of Missouri PRC Corporation Certificates of Participation (Psychiatric Rehabilitation Center Project) Series A 1995, \$9,915,000 of Northwest Missouri Public Facilities Corporation Certificates of Participation (Northwest Missouri Psychiatric Rehabilitation Center Project) Series B 1995, and \$83,480,000 of Missouri Public Facilities Corporation II Certificates of Participation (Bonne Terre Prison Project) Series A 1999.

The State also issued Certificates of Participation Series 2002 dated December 15, 2002, in the amount of \$4,700,000 for the Conservation Commission of the State of Missouri Project.

The State's obligation under these leases does not constitute a general obligation or other indebtedness of the State. The certificates of participation represent proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate, and are subject to annual appropriation by the State legislature.

\_\_\_\_\_

## Note 6 - <u>Leases (cont.)</u>

Following is a summary of the future minimum lease payments for the Certificates of Participation (in thousands of dollars):

Fiscal Year	Gov	/ernmental
Ending June 30		Funds
2011	\$	13,778
2012		13,833
2013		13,185
2014		13,179
2015		13,177
2016-2020		36,742
Total Minimum Lease Payments		103,894
Less Amount Representing Interest		(17,189)
Present Value of Net		
Minimum Lease Payments	\$	86,705

Assets acquired through these capital lease agreements are recorded as capital assets at the lower of the present value of the minimum lease payments or the fair value at the time of acquisition. The following is the value of the property under capital lease by asset category as of June 30, 2010 (in thousands of dollars):

	Gov	vernmental Funds	Inte	rnal Service Funds	erprise unds	llege and iversities
Buildings Equipment	\$	233,134 48,086	\$	41,855 9,060	\$  584	\$ 20,251 32,276
	\$	281,220	\$	50,915	\$ 584	\$ 52,527

## Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating because the lease period is one year with multiple renewal options. Future minimum commitments due under operating leases as of June 30, 2010, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Gov	vernmental Funds	iterprise Funds	Componen Units		
2011	\$	49,415	\$ 2,223	\$	7,676	
2012		605	2,227		3,187	
2013		591	229		2,218	
2014		494	174		1,750	
2015		503			831	
2016-2020		538	 		926	
Total Minimum Commitments	\$	52,146	\$ 4,853	\$	16,588	

Expenditures for rent under operating leases for the years ended June 30, 2010 and June 30, 2009 were \$57,341,000 and \$51,734,000, respectively.

\_\_\_\_\_

#### Note 6 - Leases (cont.)

#### **Rental Revenue**

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the leased facilities is \$6.1 million for primary government and \$60.0 million for component units. The Department of Natural Resources (DNR) has \$39,000 in income from easements on DNR property. This income will be received in perpetuity. The contract conditions and amount for each individual easement can change with the sale of the property requiring the easement. New contracts will be negotiated with new property owners. Future minimum receivables, payable from lessor arrangements as of June 30, 2010, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	rimary ernment	Co	mponent Units
2011	\$ 126	\$	2,331
2012	121		2,945
2013	121		2,823
2014	121		2,928
2015	121		3,040
2016-2020	431		15,052
2021-2025	403		12,266
2026-2030	288		12,044
2031-2035	195		11,791
2036-2040	172		12,133
2041-2045	172		5,145
2046-2050	172		1,601
2051-2055	 172		
Total Minimum Receivables	\$ 2,615	\$	84,099

#### Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all state employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The University of Missouri's Retirement Plan is included because the University is a component unit of the State. The Public School Retirement System of Missouri is included in this note disclosure as the State contributes to it.

#### **Plan Descriptions**

The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The Plans are administered in accordance with Sections 104.010 and 104.312–104.1215, and 476.445–476.690, RSMo, respectively.

The MSEP has two benefit structures known as MSEP (closed plan) and MSEP 2000. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 2011. Employees hired on or after January 1, 2011, will be eligible for membership in the MSEP 2011 tier of the MSEP 2000. Some provisions of this new membership tier include 4% employee contributions of pre-tax wages, 5-year vesting will be increased to 10-year vesting, the "Rule of 80" will be increased to the "Rule of 90", and the age for early retirement for general employees will be increased from age 57 to age 62. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000. Retirement benefits for members of the Judicial Plan are administered and paid by MOSERS.

#### Note 7 - Retirement Systems (cont.)

MOSERS provides retirement, survivor, and disability benefits to its members. MOSERS employees are fully vested after 5 years of creditable service (4 years for elected officials and either 4 or 6 years for legislators). The retirement eligibility requirements are as follows:

#### **MSEP**

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)

Employees may retire early at age 55 with at least 10 years of service with reduced benefits.

#### Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less
than 12 years of service or age 60 with less
than 15 years of service with a reduced benefit
that is based upon years of service relative to
12 or 15 years.

#### **MSEP 2000**

Age 62 with 5 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 57 with at
least 5 years of service with reduced benefits.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer defined benefit public employees' retirement system administered in accordance with Sections 104.010–104.1093, RSMo.

MPERS membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. Employees are fully vested after 5 years of creditable service. The MPERS has two benefit structures known as the Closed Plan and the Year 2000 Plan. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 2011. Employees hired for the first time on or after January 1, 2011, will be eligible for a new tier of benefits within the Year 2000 Plan.

#### Note 7 - Retirement Systems (cont.)

The retirement eligibility requirements are as follows:

#### **Closed Plan**

## MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years of service
Age 65 with 5 or more years of service
Age 60 with 15 or more years of service
Age 48 with sum of age and service
equaling 80 or more (Rule of 80)

#### Uniformed patrol members:

Age 55 and active with 4 or more years of service
Age 55 with 5 or more years of service
Age 48 with sum of age and service equaling 80 or more (Rule of 80)
Mandatory retirement at age 60

All non-uniformed members may retire early with reduced benefits at age 55 with at least 10 years of service.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the change in the Consumer Price Index (CPI) with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI up to a maximum rate of 5%.

#### Year 2000 Plan

## MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service Age 48 with sum of age and service equaling 80 or more (Rule of 80)

## Uniformed patrol members:

Age 48 with sum of age and service equaling 80 or more (Rule of 80) Mandatory retirement at age 60 with 5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Copies of financial reports issued by MOSERS and MPERS may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System P.O. Box 1930 Jefferson City, Missouri 65102–1930

#### **Funding Policy**

MOSERS administers plans which cover substantially all State of Missouri employees. The State of Missouri is obligated by state law to make all required contributions to the System. The actuarially determined contributions are expressed as a level percentage of covered payroll. Current year actuarially determined contribution rates for the MSEP and the Judicial Plan are 12.75% and 58.48%, respectively. Actual contribution rates are the same as the actuarially determined rates.

The State of Missouri makes all required contributions to MPERS. Current year calculated contribution rates are 39.95% for uniformed members of the Highway Patrol and 31.40% for non-uniformed members of the Highway Patrol and employees of the Missouri Department of Transportation. Actual contribution rates are the same as the actuarially determined rates.

Note 7 - Retirement Systems (cont.)

## Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

	 MSEP Judicial Pla				MPERS
Annual required contribution	\$ 251,226	\$	27,029	\$	124,053
Interest on net pension obligation	5,613		3,866		
Actuarial adjustment to annual					
required contribution	(3,964)		(2,731)		
Annual pension cost	252,875		28,164		124,053
Contributions made	 (251,226)		(27,029)		(124,053)
Increase in net pension obligation	1,649		1,135		
Net pension obligation, beginning					
of year	 66,036		45,481		
Net pension obligation, end of year	\$ 67,685	\$	46,616	\$	

The annual pension cost, the percentage of annual pension cost contributed to the Plan, and the net pension obligation for three years are as follows (in thousands of dollars):

		MSEP		Judicial Plan							
	Fi	scal Year Endir	ng	Fi	ng						
	06/30/10	06/30/09	06/30/08	06/30/09	06/30/08						
Annual Pension Cost (APC)	\$ 252,875	\$ 253,571	\$ 251,343	\$ 28,164	\$ 28,736	\$ 27,298

		MPERS									

	Fiscal Year Ending										
	06/	06/30/10		06/30/09		06/30/08					
Annual Pension Cost (APC)	\$ 1	24,053	\$	122,599	\$	123,335					
Percentage of APC Contributed		100%		100%		100%					
Net Pension Obligation	\$		\$		\$						

## **Funded Status and Funding Progress**

The funded status of the Plans as of June 30, 2010, are as follows (in thousands of dollars):

		MSEP	Judicial Plan			MPERS	
Actuarial Value of Assets	\$	7,923,377	\$	88,977	\$	1,375,845	
Actuarial Accrued Liability (AAL) Entry Age	\$	9,853,155	\$	382,013	\$	3,258,867	
Unfunded Actuarial Accrued Liability (UAAL)	\$	1,929,778	\$	293,036	\$	1,883,022	
Funded Ratio		80.4%		23.3%		42.2%	
Covered Payroll	\$	1,945,095	\$	46,113	\$	378,063	
UAAL as a Percentage of Covered Payrol	l	99.2%		635.5%		498.1%	

\_\_\_\_\_

#### Note 7 - Retirement Systems (cont.)

#### **Actuarial Methods and Assumptions**

The annual required contribution for MOSERS for the current year was determined as part of an actuarial valuation of the Systems as of June 30, 2008, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MOSERS include: a) rate of return on the investment of present and future assets of 8.5% per year compounded annually, b) projected salary increases of 4.0% per year annually, attributable to inflation, c) additional projected salary increases ranging from 0.3% to 3.5% per year for MSEP and 0% to 1.6% for the Judicial Plan, depending on age, attributable to seniority and/or merit, and d) the assumption that benefits will increase 4.0% per year after retirement.

The actuarial valuation of the System dated June 30, 2010, will set the required contribution rates for the fiscal year ending June 30, 2012. The actuarial value of assets is based on a method that fully recognizes expected investment return and averages unanticipated market return over a five-year period. The unfunded actuarial accrued liabilities are amortized on an open basis as a level percentage of payroll over 30 years.

The annual required contribution for MPERS for the current fiscal year was determined as part of an actuarial valuation as of June 30, 2008, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MPERS include: a) rate of return on the investment of 8.25% per year compounded annually, and b) projected wage inflation rate of 3.75%.

The actuarial valuation of MPERS dated June 30, 2010, will be used to determine the contribution rate for the Plan year ending June 30, 2012. The actuarial value of assets is based on a three-year smoothed market value method. The total contribution is based on a 14-year amortization period for unfunded retiree liabilities and a 29-year amortization period for other unfunded liabilities.

## **Public School Retirement System of Missouri:**

The State of Missouri also made employer contributions to the Public School Retirement System of Missouri which is a cost-sharing multiple-employer defined benefit public employees' retirement system. The System includes all public school districts within the State except for the two districts covering the major metropolitan areas. It also includes certain public college and universities and some state employees.

The benefit provisions include retirement annuities, death benefits, and disability benefits. A member is vested after acquiring five years of membership credit for Missouri service.

The System was created and is governed by Chapter 169 of the Revised Statutes of Missouri. State employees who elect to remain with the Public School Retirement System under Section 104.342, RSMo, are covered by the System.

Employees of the State are not required to contribute. The State, as employer, contributed \$3,972,000, \$3,286,000, and \$2,662,000 for the years ending June 30, 2010, 2009, and 2008, respectively, to the System, equal to the required contributions for each year.

Copies of the System's June 30, 2010, Comprehensive Annual Financial Report may be requested from:

Public School Retirement System of Missouri P.O. Box 268 3210 West Truman Boulevard Jefferson City, Missouri 65102-0268

\_\_\_\_\_

#### Note 7 - Retirement Systems (cont.)

#### **College and Universities:**

#### **University of Missouri Retirement System**

#### Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer, defined benefit plan for all qualified employees. The University's Board of Curators establishes the terms of the Plan and administers it as authorized by State statute.

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at 2.2% times the credited service years times the compensation base. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. At retirement, up to 30% of the retirement annuity can be taken in a lump sum payment; also the standard annuity can be exchanged for an actuarially-equivalent annuity.

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2010 financial report, which is publicly available. Copies of this report may be requested from:

University of Missouri System Office of the Controller 1000 West Nifong, Building 7, Suite 300 Columbia, Missouri 65211

## **Funding Policy**

The University's contributions to the Retirement Plan are equal to the actuarially determined employer contribution requirement, which averaged 4.9% of payroll for the year ended June 30, 2010. Effective July 1, 2009, employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. The University's contribution rate is updated annually on July 1 at the beginning of the University's fiscal year, to the actuarially determined amount from the most recent valuation as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year.

## Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

	University of Missouri System			
Annual required contribution Interest on net pension obligation	\$	48,040		
Actuarial adjustment to annual required contribution				
Annual pension cost Contributions made		48,040 (48,040)		
Change in net pension obligation Net pension obligation, beginning of year				
Net pension obligation, end of year	\$			

\_\_\_\_\_

## Note 7 - Retirement Systems (cont.)

The annual pension cost, the percentage of annual pension cost contributed to the Plan, and the net pension obligation for three years are as follows (in thousands of dollars):

		Fiscal Year Ending									
	06	5/30/10	06	5/30/09	06	5/30/08					
Annual Pension Cost (APC)	\$ 48,040		\$	56,663	\$	72,284					
Percentage of APC Contributed		100%		100%		100%					
Net Pension Obligation	\$		\$		\$						

#### **Funded Status and Funding Progress**

The funded status of the Plan as of June 30, 2010, is as follows (in thousands of dollars):

	Oct	Actuarial Valuation ober 1, 2009
Actuarial Value of Assets	\$	2,843,422
Actuarial Accrued Liability (AAL) Entry Age	\$	2,819,524
Unfunded Actuarial Accrued Liability (UAAL)	\$	(23,898)
Funded Ratio		100.8%
Covered Payroll	\$	970,060
UAAL as a Percentage of Covered Payroll		(2.5)%

#### **Actuarial Methods and Assumptions**

The annual required contribution for the University for the current fiscal year was determined as part of an actuarial valuation of the System as of October 1, 2008, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation include: a) assumed rate of return on investments of 8.0% per year, b) projected salary increases for academic and administrative employees averaging 5.2% per year, c) projected salary increases for clerical and service employees averaging 4.5% per year, and d) assumed no future retiree ad-hoc increases or cost of living adjustments.

#### Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT and MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). The eligible number of retirees/long-term disability claimants for MCHCP, MHPML, and CEIP for health care benefits are approximately 18,150, 5,667, and 584, respectively. The eligible number of retirees/long-term disability claimants for MOSERS, MHPML, and CEIP for life insurance benefits are 18,824, 3,588, and 403, respectively. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. MHPML and CEIP life insurance benefits are funded through employee contributions. Employer contribution rates are set in accordance with Section 103.100, RSMo. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Insurance policies are purchased for life insurance benefits and are the liability of the insurance carrier. For fiscal year 2010, the State's contributions were 57.35% of the total (employer/employee) contributions made for other postemployment benefits.

During fiscal year 2010, the State contributed the following amounts (in thousands of dollars):

	He	alth Care	Life I	nsurance
MCHCP	\$	74,385	\$	
MOSERS				1,936
MHPML		16,287		
CEIP		1,428		
Total	\$	92,100	\$	1,936

During fiscal year 2010, the expenditures recognized by the State for (employer/employee) other postemployment benefits were as follows (in thousands of dollars):

	Health Care		<u>Life Insurance</u>			
MCHCP	\$	104,628	\$			
MHPML		40,323		3,205		
CEIP		3,330		243		
Total	<u>\$</u>	148,281	\$	3,448		

#### **Funding Policy**

The contribution requirements of MCHCP, MHPML, and CEIP are established and may be amended by the State legislature, Missouri Highways and Transportation Commission, and the Conservation Department Board of Trustees, respectively. The State has partially funded the annual required contribution (ARC) of MCHCP in addition to the pay-as-you-go amount. In fiscal year 2010, the State contributed \$18.1 million in addition to pay-as-you-go. The required contribution for MHPML and CEIP is based on an actuarial study and is financed on a pay-as-you-go basis. For fiscal year 2010, MCHCP, MHPML, and CEIP contributed \$74.4, \$30.3, and \$3.3 million, respectively.

\_\_\_\_\_

## Note 8 - Other Postemployment Benefits (cont.)

#### Annual OPEB Cost and Net OPEB Obligation

The MCHCP, MHPML, and CEIP annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of MCHCP, MHPML, and CEIP annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the net OPEB obligation (in thousands of dollars):

	MCHCP			MHPML	 CEIP
Annual required contribution Interest on net OPEB contribution Adjustments to annual required	\$	93,865 4,868	\$	112,329 6,357	\$ 9,550 531
contribution		(3,399)		(8,301)	 (422)
Annual OPEB cost		95,334		110,385	9,659
Contributions made		(74,385)		(30,346)	 (3,319)
Increase in net OPEB obligation		20,949		80,039	6,340
Net OPEB obligation, beginning					
of year		69,538		141,285	 11,807
Net OPEB obligation, end of year	\$	90,487	\$	221,324	\$ 18,147

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2010 are as follows (in thousands of dollars):

			ı	МСНСР			MHPML					
		Fis	scal	Year Endii	ng		Fiscal Year Ending					
	06	5/30/10	06	5/30/09	06	5/30/08	06/3	30/10	0	6/30/09 *	06	5/30/08
Annual Required Contribution (ARC)	\$	93,865	\$	124,511	\$	104,471	\$ 11	2,329	\$	96,308	\$	96,308
Percentage of ARC Contributed		79.25%		73.44%		65.90%	2	27.02%		26.21%		26.20%
Net OPEB Obligation	\$	90,487	\$	69,538	\$	35,644	\$ 22	21,324	\$	141,285	\$	71,067
				CEIP								
		Fi	scal	Year Endii	ng							
	06	5/30/10	06	5/30/09	06	5/30/08						
Annual Required Contribution (ARC)	\$	9,550	\$	8,289	\$	8,126						
Percentage of ARC Contributed		34.75%		29.73%		27.00%						
Net OPEB Obligation	\$	18,147	\$	11,807	\$	5,933						

<sup>\*</sup>Fiscal year 2009 amounts have been restated (see Note 17).

#### Note 8 - Other Postemployment Benefits (cont.)

#### Funded Status and Funding Progress

The funded status of the Plans as of June 30, 2010, are as follows (in thousands of dollars):

		MCHCP	 MHPML	 CEIP
Actuarial Accrued Liability (AAL) Less Actuarial Value of Plan Assets	\$	1,304,355 73,195	\$ 1,094,778	\$ 134,472
Unfunded Actuarial Accrued Liability (UAAL)	\$	1,231,160	\$ 1,094,778	\$ 134,472
Funded Ratio		5.61%	0.0%	0.0%
Covered Payroll	\$	1,614,000	\$ 378,063	\$ 67,600
UAAL as a Percentage of Covered Payro	Ш	76.28%	289.58%	198.92%

#### **Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation for fiscal year ending June 30, 2010, MCHCP used the entry-age method. The October 2009, MHPML and the July 1, 2009, CEIP actuarial valuation used the projected unit credit method. The actuarial assumptions for MCHCP, MHPML, and CEIP include a 4.5%, 4.5%, and 4.5% discount rate, respectively. MCHCP projected annual health care cost trend rate is currently 8.33%, decreasing by 2/3% per year to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, over a 30-year period. MHPML projected annual health care cost trend rate is currently 8.00%, decreasing by 0.5% until reaching 5.0% in 2015. CEIP projected annual health care cost trend rate is generated by the Getzen model.

#### College and Universities:

#### University of Missouri System

In addition to the retirement benefits described in *Note 7*, the University provides postemployment medical care, dental care, and life insurance benefits to eligible employees who retire from the University and to employees receiving long-term disability benefits. Currently, 6,113 retirees/long-term disability claimants meet the eligibility requirements. These postemployment benefits are funded through both employer and employee contributions. For fiscal year 2010, the University's contributions were 66.20% of the total (employer/employee) contributions made for other postemployment benefits.

Currently, the number of retirees/long-term disability claimants participating in medical care, dental care, and life insurance are 4,985, 4,936, and 2,726, respectively. During fiscal year 2010, the University contributed \$23,789,000 for other postemployment benefits. The expenditures recognized by the University for (employer/employee) other postemployment benefits were \$35,082,000.

## Note 8 - Other Postemployment Benefits (cont.)

#### **Funding Policy**

In June 2008, the University established its OPEB Trust Fund, the assets of which are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with terms of the Plan. Previously, postemployment benefit costs other than long-term disability were funded on a current basis, and expenses were recorded on a pay-as-you-go basis. Long-term disability costs were recognized during the period in which the employee became eligible to receive disability benefits.

The University's OPEB Trust Fund does not issue a separate financial report, but is included in the University's financial report using the economic resources measurement focus and accrual basis of accounting. The University currently plans to contribute to the trust fund an amount that, in addition to the current year premium contributions, is sufficient to fund 50% of the annual required contribution (ARC).

## Annual OPEB Cost and Net OPEB Obligation

The University's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the University's net OPEB obligation for fiscal year 2010 (in thousands of dollars):

		iversity of ouri System
Annual required contribution Interest on net OPEB obligation	\$	52,563 1,359
Adjustment to annual OPEB obligation		(1,157)
Annual OPEB cost		52,765
Contributions made		(23,789)
Increase in net OPEB obligation		28,976
Net OPEB obligation (asset), beginning of year		23,637
Net OPEB obligation, end of year	\$	52,613
Net Of Lb obligation, end of year	T)	52,013

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2010 was as follows (in thousands of dollars):

	University of Missouri System								
	Fiscal Year Ending								
	06	<u>6/30/10</u> <u>0</u>		5/30/09	0	6/30/08			
Annual Required Contribution (ARC)	\$	52,563	\$	47,578	\$	53,310			
Percentage of ARC Contributed		45.26%		50.00%		100.30%			
Net OPEB Obligation	\$	52,613	\$	23,637	\$	(150)			

\_\_\_\_\_

#### Note 8 - Other Postemployment Benefits (cont.)

#### **Funded Status and Funding Progress**

The funded status of the Plan as of June 30, 2010, was as follows (in thousands of dollars):

		Iniversity of ssouri System
Actuarial Accrued Liability (AAL) Less Actuarial Value of Plan Assets	\$	646,655 37,171
Unfunded Actuarial Accrued Liability (UAAL) Funded Ratio	<u>\$</u>	5.75%
Covered Payroll	\$	1,009,800
UAAL as a Percentage of Covered Payroll		60.36%

#### **Actuarial Methods and Assumptions**

In the July 1, 2009, actuarial valuation, University of Missouri System used the projected unit credit cost method. The actuarial assumptions for University of Missouri System included a 5.75% rate of return, net of administrative expenses. The projected annual health care cost trend rate is 6.0% to 10.0% initially, reduced by 0.5% decrements to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, level percent of pay, over a 30-year period.

#### Note 9 - <u>Deferred Compensation</u>

## Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Copies of the Plan's financial statements may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

## Note 9 - Deferred Compensation (cont.)

#### Missouri State Employees' Deferred Compensation Incentive Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees' Deferred Compensation Plan. The State, subject to appropriation, contributes \$25, \$30, or \$35 per month for each employee that meets these requirements based on employee contribution. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended until further notice. Participating employees are 100% vested. The contribution rates for the fiscal year ending June 30, 2010, are presented below:

Employee Contribution (per month)	State Incentive (per month)
\$25 to \$29.50	\$25
\$30 to \$34.50	\$30
\$35 or more	\$35

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employees as well as rollovers from other qualified plans. During fiscal year 2010, employer contributions to ING were \$10,690,000 and rollover contributions were \$28,089,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

#### Note 10 - Changes in Short-Term Liabilities

The State uses a bank overdraft line of credit to compensate for timing in cash payments and receipts.

The following is a summary of the changes in short-term liabilities for the year ended June 30, 2010 (in thousands of dollars):

	Bala	nce			Bala	ınce

## Note 12 - Bonds Payable

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Assets, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

## Note 12 - Bonds Payable (cont.)

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Four types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Third State Building Bonds were used to provide funds for improvements of state buildings and property. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded
Water Pollution Control Bonds:

Series A 2005 Refunding	6/29/05	17,175	A 1999	17,595

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2010, \$594,494,240 of the Water Pollution Control Bonds; \$600,000,000 of the Third State Building Bonds; \$250,000,000 of the Fourth State Building Bonds; and \$45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is \$130,505,760 and for Stormwater Control Bonds is \$155,000,000. There is no remaining authorization for the Third State Building Bonds or the Fourth State Buildings Bonds.

General obligation bonds issued and outstanding as of June 30, 2010, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date		Issued	<u> </u>	ıtstanding

Totals	\$ 528,910	<u>\$ 143,563</u>	\$ 672,473

#### Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals \$945,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	-	Amount Issued	Series Refunded	-	Amount efunded
Board of Public Buildings:						
Series A 1983 Refunding	10/1/83	\$	43,445	A 1981	\$	43,445

The Regional Convention and Sports Complex Authority issued \$132,910,000 of Convention and Sports Facility Project Bonds Series A 1991, dated August 15, 1991, to finance the costs of acquiring land and constructing a multi-purpose convention and indoor sports facility in downtown St. Louis, Missouri. On December 15, 1993, the Authority issued \$121,705,000 of Convention and Sports Facility Project Refunding Bonds Series A 1993 for the purpose of refunding the callable portions of the outstanding bonds issued in August 1991 and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was \$101,410,000. On August 1, 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project Refunding Bonds Series A 2003 for the purpose of refunding Convention and Sports Facility Project Bonds Series A 1991 and Series A 1993 refunding bonds and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was \$2,845,000 for the Series A 1991 bonds and \$113,170,000 for the Series A 1993 refunding bonds. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State.

The Convention and Sports Facility Project Bonds issued and outstanding as of June 30, 2010, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Maturity Date	Issued	Outs	tandin <u>g</u>
Convention and Sports Facility Project Bonds: Series A 2003 – Refunding	1.42-5.375%	2/15; 8/15	8/03	8/15/21	\$ 116,030	\$	87,990

As of June 30, 2010, the debt service requirements for these bonds are as follows (in thousands of dollars):

Fiscal Year Ended June 30	<u> Principal</u>	<u> Interest</u>	Totals

## Note 12 - Bonds Payable (cont.)

Under a financing agreement dated August 1, 1991, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount of \$10,000,000 for principal and interest and \$2,000,000 for maintenance each year. Future payments to the Authority related to the bond repayment are as follows (in thousands of dollars):

Fiscal Year Ended June 30	State Debt Servi Payments	
2011	\$ 10,0	00
2012	10,0	00
2013	10,0	00
2014	10,0	00
2015	10,0	00
2016-2020	50,0	00
2021-2022	15,0	00
Total	\$ 115,0	00

#### State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29–34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2010, the Missouri Highways and Transportation Commission had issued \$3,812,195,000.

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Commission (in thousands of dollars):

	Date <u>Issued</u>		_ ****		Series Refunded

2014	162,940	129,451	292,391
2015	170,095	122,814	292,909
2016-2020	1,012,890	491,111	1,504,001
2021-2025	1,021,980	245,177	1,267,157
2026-2030	433,755	59,847	493,602
2031-2033	125,350	8,976	134,326
Totals	\$ 3,352,640	\$ 1,483,296	\$ 4,835,936

<sup>(1)</sup> The annual debt service schedule assumes an interest rate of 0.21%, representing the interest rate at June 30, 2010, for the Series B 2005 bonds. During the year, interest rates ranged from 0.12% to 0.31%.

In addition, one of the blended component units of the Missouri Road Fund had revenue bonds issued and outstanding as of June 30, 2010.

\_\_\_\_\_\_

## Note 12 - Bonds Payable (cont.)

The Wentzville Parkway Transportation Corporation, a blended component unit of the Missouri Road Fund, issued \$12,935,000 of Transportation Revenue Bonds Series 2001 dated May 1, 2001, to finance the expansion and reconstruction of the interchange at Interstate Highway 70 and Wentzville Parkway in St. Charles County. These bonds are not an obligation of the Commission and do not constitute a pledge of the full faith and credit of the State.

The revenue bonds issued and outstanding as of June 30, 2010, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Wentzville Parkway Transportation Corporation: Transportation Revenue						
Bonds Series 2001	3.4 - 4.9%	2/1; 8/1	5/01	8/1/10	\$ 12,935	\$ 1,855

As of June 30, 2010, debt service requirements for principal and interest in future years for the bonds of the blended component units of the Missouri Road Fund were as follows (in thousands of dollars):

Fiscal Year Ended June 30	Principal	Interest	 Totals
2011	\$ 1,855	\$ 45	\$ 1,900

Under a funding agreement dated April 6, 2001, the City of Wentzville will make payments to the Wentzville Parkway Transportation Corporation in the amount of \$4,119,000 to pay a portion of the principal of the bonds. The future payments to the Corporation are as follows (in thousands of dollars):

Fiscal Year Ended June 30	<u>Principal</u>	Interest	City's Total Payments		
2011	\$ 1,855	\$ 45	\$ 1,900		

\_\_\_\_\_

## Note 12 - Bonds Payable (cont.)

<u>Component Units' Long-Term Debt</u> - The following bonds are included in the balance sheet of the college and universities and the non-major component units.

#### **Major**

#### College and Universities:

The college and universities of the State issue revenue bonds for various projects on each respective campus. Bonds are payable, both principal and interest, only out of net income and revenues arising from operations of facilities funded by the bonds. As of June 30, 2010, debt service requirements for principal and interest for the college and universities were as follows (in thousands of dollars):

Fiscal Year Ended June 30	<u>Principal</u>	Interest	Totals		
2011	¢ 40.780	¢ 69.426	¢ 110.21C		
2011	\$ 49,780	\$ 68,436	\$ 118,216		
2012	48,670	66,556	115,226		
2013	50,827	64,676	115,503		
2014	52,372	62,662	115,034		
2015	53,336	60,563	113,899		
2016-2020	289,393	269,010	558,403		
2021-2025	329,819	205,223	535,042		
2026-2030	360,337	129,961	490,298		
2031-2035	250,764	68,538	319,302		
2036-2040	158,410	18,433	176,843		
Totals (1)	<u>\$ 1,643,708</u>	<u>\$ 1,014,058</u>	\$ 2,657,766		

<sup>(1)</sup> The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

#### Non-Major

Missouri Development Finance Board:

In December 2000, the Board issued \$6,500,000 in taxable and \$14,600,000 in tax-exempt infrastructure Facilities Revenue Bonds Series 2000B and 2000C, respectively for the purpose of paying the costs of acquiring land and constructing a parking garage. Bonds are payable, both principal and interest, out of revenues derived from the operation of the parking garage.

In October 2004, the Board issued \$9,500,000 in Ninth Street Garage Series 2004A, taxable infrastructure facilities revenue bonds and \$7,000,000 Ninth Street Garage Series 2004B, tax exempt infrastructure facilities revenue bonds

In April 2010, the Board issued \$9,000,000 in Seventh Street Garage Series 2010A, tax exempt infrastructure facilities revenue bonds.

Bonds Payable at June 30, 2010	\$	528,910	\$	4,060,855	\$	1,683,313	\$	6,273,078

<sup>(1)</sup> Detailed information for college and universities are not shown.

#### Note 13 - Defeased Debt

## A. Current Year Debt Defeasance

On July 29, 2009, the University of Central Missouri issued \$9,715,000 of bonds to refund the Student Housing System Refunding Revenue Series 2002 bonds. The economic gain (difference between the present values of the old and new debt service payments) of the refunding was \$368,000. The difference in cash flows between the old debt service requirement and the new debt service requirement is \$368,000.

## B. Cumulative Debt Defeasances

Various bond issues have been defeased by creating separate irrevocable trust funds.

Either new debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds or sufficient funds have been deposited in an irrevocable escrow to pay principal and interest as they become due.

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Assets.

<u>Governmental Activities</u> - As of June 30, 2010, bonds outstanding of \$282,425,000 are defeased.

<u>College and Universities</u> – As of June 30, 2010, bonds outstanding of \$144,500,000 are defeased.

Conservation and Environmental									
Protection Non-Major Component	\$		\$	4,662	\$	4,662			
Units		3,773			-	3,773			
Totals	\$	3,773	\$	4,662	\$	8,435			

The loans from the component units were for the construction of additional state highways and for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Assets, interfund payables and receivables were eliminated as follows: \$1,000 on the face of the Proprietary Funds Statement of Net Assets and governmental activities in the amount of \$16,962,000.

The amount reported as Due from Other Funds for fiscal year 2010 is significantly less than what was reported in fiscal year 2009. The elimination of interfund reimbursements is part of the reason for this decrease (see *Note 17*). This decrease is also due to further consolidation of the Information Technology Services Division and more agencies being relocated from leased buildings to state-owned buildings.

\_\_\_\_\_\_

#### Note 16 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2010, were as follows (in thousands of dollars):

	Tran	sfers In:					
	General Fund		 Public Education	Missouri Road Fund	Non-Major Governmental Funds		
Transfers Out:					•	1 40 640	
General Fund	\$		\$ 2,522,112	\$ 19	\$	148,642

Law Enforcement								544,076
Non-Major Governmental								
Funds								130,690
State Lottery								259,722
Non-Major Enterprise								
Funds								20
Internal Service Funds		46		11_		257		382
Totals	\$	46	\$	749	\$	257	\$	3,630,439

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2010, there were transfers of \$368,000 from internal service funds to the General Fund and non-major governmental funds. These were transfers of capital assets and are therefore not reported on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances or on the reconciliation above. This is because governmental funds use the modified accrual basis of accounting and therefore do not report capital assets on their financial statements. There were also transfers of capital assets for \$76,000 from the General Fund to internal service funds. These are reported as capital contributions in the internal service funds and excluded from the General Fund; therefore, these transfers are also not included in this reconciliation.

\_\_\_\_\_

#### Note 17 - Restatements

During fiscal year 2010, additional information became available which required the restatement of fund equity amounts. The following table presents a summary of these restatements by fund (in thousands of dollars):

Non-Major		168,675		1,125		169,800

#### Breakdown of restatements by type:

- General Fund, the restatement was a decrease in cash and investments of \$1,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, a decrease in accounts receivable of \$39,000, an increase in inventories of \$210,000, a decrease in due from other funds of \$248,000, a decrease in due to other funds of \$1,308,000, and a decrease in deferred revenues of \$46,432,000.
- Public Education, the restatement was a decrease in cash and investments of \$1,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, and a decrease in due to other funds of \$243,000.
- Conservation and Environmental Protection, the restatement was a decrease in cash and investments of \$1,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, a decrease in accounts receivable of \$36,000, a decrease in due from other funds of \$11,000, and a decrease in due to other funds of \$34,000.
- Transportation and Law Enforcement, the restatement was a decrease in cash and investments of \$1,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, a decrease in investments of \$4,368,000 due to an error in the investment balance, a decrease in due from other funds of \$64,000, and a decrease in due to other funds of \$42,000.
- Missouri Road Fund, the restatement was a decrease in cash of \$5,174,000, a decrease in investments of \$13,630,000, a decrease in accounts receivable of \$8,149,000, a decrease in interest receivable of \$97,000, a decrease in accounts payable of \$14,000, and a decrease in due to other funds of \$15,000. The restatements were due to the reclassification of the Missouri Road Bond Fund from the Missouri Road Fund, capital projects fund, to a debt service fund.

\_\_\_\_\_

#### Note 17 - Restatements (cont.)

- Non-major special revenue funds, the restatement was a decrease in cash and investments of \$5,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, a decrease in cash and investments of \$1,152,000, a decrease in accounts receivable of \$49,000, a decrease in interest receivable of \$5,000, a decrease in due from other funds of \$1,344,000, a decrease in inventories of \$1,000, a decrease in accounts payable of \$4,000, a decrease in accrued payroll of \$8,000, a decrease in due to other funds of \$19,000, and a decrease in deferred revenue of \$3,000. The majority of the restatements were due to the reclassification of the Missouri Wine and Grape Board fund from a special revenue fund to a component unit.
- Non-major debt service funds, the restatement was a decrease in cash and investments of \$1,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, an increase in cash of \$5,174,000, an increase in investments of \$13,630,000, an increase in accounts receivable of \$8,149,000, an increase in interest receivable of \$97,000, and an increase in accounts payable of \$29,000 due to the reclassification of the Missouri Road Bond fund from the Missouri Road Fund to a debt service fund.
- Non-major capital projects funds, the restatements was a decrease in due to other funds of \$1,000.
- Non-major permanent funds, the restatement was an increase to investments of \$2,022,000 due to the adjustment of investments to market value.
- Major enterprise fund Petroleum Storage Tank Insurance, the restatement was a decrease in accounts receivable of \$517,000.
- Non-major enterprise funds, the restatement was a decrease in prepaid items of \$22,000, a decrease in assets held for resale of \$115,000, an increase in capital assets (net of accumulated depreciation/amortization) of \$1,896,000, and a decrease in unearned revenue of \$41,000.
- Non-major internal service funds, the restatement was an increase in cash and investments of \$3,000 due to a change in the fair market value relating to investments based on a 90 day original maturity, a decrease in accounts receivable of \$8,971,000, a decrease in interest receivable of \$19,000, a decrease in due from other funds of \$1,000, an increase in inventories of \$1,000, an increase in capital assets (net of accumulated depreciation/amortization) of \$25,673,000, a decrease in due to other funds of \$6,000, a decrease in claims liability of \$141,000, and an increase in obligations under lease purchase of \$34,042,000.
- Pension (and other employee benefit) trust funds, the restatement was an increase in accounts payable of \$88,000.
- Discretely presented component units college and universities, the restatement was a decrease of \$6,163,000 due to a change in accounting principle due to the adoption of GASB Statement No. 53, Accounting and Financial Reporting for Derivative Instruments.
- Discretely presented component units non-major funds, the restatement was an increase in cash of \$187,000, an increase in investments of \$969,000, an increase in interest receivable of \$5,000, an increase in accounts payable of \$6,000, an increase in accrued payroll of \$7,000, and an increase in compensated absences \$23,000. This restatement was due to the reclassification of the Missouri Wine and Grape Board fund from a special revenue fund to a component unit.

#### **Purpose for restatements:**

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net assets for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, capital assets (net of accumulated depreciation/amortization) increased by \$260,000, the Internal Balance increased by \$41,000, an increase in advance from other governments of \$300,000, a decrease in interest payable of \$7,935,000, a decrease in obligations under lease purchase of \$34,476,000, and an increase in net other postemployment benefit obligation of \$4,586,000.

On the Government-Wide Statement of Activities, net assets for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by a decrease in the Internal Balance of \$41,000.

\_\_\_\_\_\_

#### Note 18 - Fund Deficit

The following fund had a deficit balance:

<u>Enterprise Fund – Petroleum Storage Tank Insurance</u> – At June 30, 2010, this fund had a net asset deficit of \$26,903,000. The deficit at June 30, 2009 was \$26,647,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2020, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Various alternatives are being considered to pay off the claims liability amount of this fund. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Enterprise Fund – Unemployment Compensation Insurance – At June 30, 2010, this fund had a net asset deficit of \$454,351,000. The deficit at June 30, 2009 was \$15,486,000. The reason for this deficit is the high unemployment rate associated with the current national economic climate. It has made it necessary for the State of Missouri, along with other states, to borrow from the federal government to pay unemployment benefits. The United States Department of Labor projects that the unemployment rate for Missouri will peak in 2010. Unless new legislation is passed to increase employer contributions into the fund from state unemployment taxes, it will be necessary for Missouri to continue to borrow from the federal government. If the State has two consecutive years with a loan balance, the federal government will begin to increase federal taxes on employers by reducing the Federal Unemployment Tax Act (FUTA) tax credit that Missouri employers are allowed to claim on their taxes. These additional taxes will be used to begin paying down Missouri's loan balance.

Internal Service Fund - Transportation Self-Insurance Plan Fund - At June 30, 2010, this fund had a net asset deficit of \$11,390,000. The deficit at June 30, 2009 was \$506,000. The deficit occurred due to funding being based on annual actuarial studies and budget availability. Increases in appropriations and claims management will eliminate the deficit over time.

#### Note 19 - Related Party Transactions

The Missouri State Public Employees' Deferred Compensation Plan was administered by ING Institutional Plan Services. ING Life Insurance and Annuity Company provides affixed earnings investments for plan participants while ING Institutional Plan Services provides variable earnings investments. At June 30, 2010, total investments of the Plan were \$1,023,036,000 and investments in ING Life Insurance and Annuity Company were \$454,212,000.

#### Note 20 - Commitments

#### **Contracts**

The Department of Conservation had contracts outstanding of \$3,668,000 for construction contracts at June 30, 2010. These contracts are funded through the special revenue funds from specific sales tax, fees, and permits.

The Department of Transportation had long-term contracts of \$1,592,822,000 outstanding at June 30, 2010. These contracts are paid from capital projects funds with approximately 73% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2010 of \$42,255,000. Approximately 97% will be paid from the General Fund, 1% from special revenue funds, and 2% from capital projects funds.

\_\_\_\_\_

#### Note 20 - Commitments (cont.)

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$10.8 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2010 was \$364,000. This payment was made in arrears as it was part of a fiscal year 2010 expenditure restriction plan. Payment of principal and interest must be completed by March 2038.

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) purchased a new pension administration software system during fiscal year 2007. Payments totaling \$2,171,000 have been made, leaving \$900,000 outstanding at June 30, 2010.

As of June 30, 2010, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$147,726,000. The payments are as follows:

2011	\$ 11,080,000
2012	13,002,000
2013	14,938,000
2014	15,386,000
2015	15,847,000
thereafter	77,473,000

Truman State University had approximately \$14,786,000 in outstanding commitments for various construction contracts at June 30, 2010.

The University of Central Missouri had outstanding commitments of approximately \$8,265,000 related to construction contracts at June 30, 2010.

Missouri State University had approximately \$24,600,000 in outstanding commitments for various construction contracts at June 30, 2010, still to be incurred.

#### Note 21 - Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self–insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA–Risk Management, pursuant to State statute, through the State's legal expense fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The workers' compensation and legal expense fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. IBNR (incurred but not reported) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage during the past three fiscal years. OA-Risk Management also procures property insurance for 3% of the total value of the State's property with the remainder uninsured. The buildings that are insured are mainly the buildings backed with bonded debt through the Board of Public Buildings.

#### Note 21 - Risk Management and Insurance (cont.)

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims from data provided by an actuary. Liabilities are reported at their discounted value, assuming an investment yield of 4%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, underwritten by a commercial insurance company, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is based on known insurance claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for policyholders and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discounted rates ranging between 3.7% and 4.5% based on future investment yields. The University of Missouri System is included with college and universities as a major component unit of the State.

Missouri State University is exposed to various risks of loss. These include loss related to torts; business interruption; employee injuries and illnesses; employee health, dental and accidental benefits; natural disasters; damage to and destruction of assets; and errors and omissions. Commercial insurance coverage is purchased for claims arising from such matters other than those related to natural disasters and employee health benefits, general liability, and workers' compensation. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self–Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self–insures the workers' compensation benefits for all state employees, including University employees.

#### Note 21 - Risk Management and Insurance (cont.)

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

#### Note 22 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2010, the State was participating in the cleanup of 12 Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$9.9 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of the General Fund in this report.

The Missouri Department of Transportation (MoDOT) contracted for site assessment of a chemical contamination and a leaking underground storage tank for the amount of \$15,000 to determine any pollution remediation activities and future costs. MoDOT is currently performing control and prevention activities in three instances related to building and grounds caused by chemical contamination and moisture intrusion. The potential for pollution remediation exists; however, any future remediation obligations are not yet estimable.

The Office of Administration, Division of Facilities Management, Design and Construction, commenced asbestos, mold, and lead abatement and remediation in 11 state office buildings during the fiscal year. At the end of the fiscal year, cleanup was not complete in 5 of the buildings, with a total remaining obligation for asbestos abatement of \$50,000, lead abatement of \$14,000, and mold abatement of \$10,000. These costs were based on contractual pricing estimates and are subject to change if the pollution remediation requires more time or material than was estimated. Facilities Maintenance Reserve and the Federal Budget Stabilization – Medicaid Reimbursement are both components of the General Fund in this report.

\_\_\_\_\_

#### Note 22 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie superfund site in Newton County, Missouri. The Superfund Law, under the Resource Conservation and Recovery Act (RCRA), is administered by the U.S. Environmental Protection Agency (EPA). This law says the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. The Department of Public Safety's portion of the costs for the cleanup of the Pools Prairie superfund site cannot be determined at this time.

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current and prior fiscal years are as follows:

Governmental Activities	Type of Pollution Remediation	Rer L	scal Year mediation iability 30/2009	Ass	rrent Year sessments and stimated Changes	<u>Pa</u>	yments	Re	iscal Year mediation Liability /30/2010	e Within ne Year

MoDOT-Missouri Road Fund	Chemical Contamination		154		94		(233)		15	15
OA-Federal Budget Stabilization- Medicaid RE	Asbestos Abatement and Inspections				11		(233)		11	11
OA-Facilities Maintenance Reserve	Asbestos Abatement and Inspections				166		(127)		39	39
OA-Facilities Maintenance Reserve	Mold Remediation and Abatement				27		(17)		10	10
OA-Facilities Maintenance Reserve	Lead Paint Abatement and Air Monitoring				17		(3)		14	 14
Total Governmental Activities		\$	10,049	\$	488	\$	(519)	\$	10,018	\$ 1,918

The State does not own any municipal solid waste landfills (MSWLF), however in the event the owner/operator refuses or is unable to properly maintain the landfill, the owner/operator forfeits the required financial assurance instrument(s) to fund closure and/or post-closure maintenance activities.

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2010, the Missouri Department of Natural Resources, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$290,977,000. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

At June 30, 2010, ten MSWLFs and two waste tire facilities have defaulted. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with Missouri Department of Natural Resources Solid Waste Management Law and Regulations. At June 30, 2010, it is expected that \$2,214,000 will be paid over the remaining monitoring periods. This is the amount of fund balance that has been reserved on the General Fund balance sheet for forfeited assets.

\_\_\_\_\_

#### Note 23 - Contingencies

Contingent claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Assets. Expenditures are recognized as payments are made.

At June 30, 2010, the amount of the contingent liabilities was \$55.0 million. Changes in the reported liability since June 30, 2009, resulted from the following (in thousands of dollars):

	Fis	ginning of scal Year Liability	Current Year Claims and Changes in Estimates		Claim ayments	Balance Fiscal Year End		
2009-2010	\$	26,997	\$	31,957	\$ (4,154)	\$	54,800	
2008-2009		40,087		(11,150)	(1,940)		26,997	
2007-2008		82,922		(35,267)	(7,568)		40,087	

Section 287.220.6, RSMo, requires that an actuarial study of the Second Injury Fund be made every three years to determine the solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2010 actuarial study. At June 30, 2010, the amount of liabilities for the Second Injury Fund was \$1.4 billion. Changes in the reported liability since June 30, 2009, resulted from the following (in thousands of dollars):

	eginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates		P	Claim ayments	 Balance Fiscal Year End		
2009-2010	\$ 1,372,477	\$	111,003	\$	(39,416)	\$ 1,444,064		
2008-2009	1,248,013		191,330		(66, 866)	1,372,477		
2007-2008	1,112,023		204,100		(68,110)	1,248,013		

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements to the grantor agency for expenditures which are disallowed under grant terms. The State believes that such disallowances, if any, would be immaterial in the next fiscal year.

#### Loan Guarantees:

In the past, the State appropriated money to the Missouri Development Finance Board for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Board makes the payment for default from Board funds. At the end of fiscal year 2010, there were no guaranteed loans outstanding and no loans defaulted.

The State appropriates money to the Agricultural and Small Business Development Authority for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Authority makes the payment for default from State appropriations. The Authority administers the Single-Purpose Animal Facilities Loan Program and the Value Added Loan Guarantee Program, which provides a 50% first-loss guarantee on loans up to \$250,000. The total of these two loan programs outstanding at June 30, 2010, for which the Authority has guaranteed payment is, \$1,657,000 and \$7,090,000, respectively. During 2010, no loans defaulted.

\_\_\_\_\_

#### Note 23 - Contingencies (cont.)

Sales and Use Tax Lawsuits:

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. A settlement was reached regarding some claims, filed by multiple taxpayers, related to the Southwestern Bell cases. A \$16.1 million liability remains as of June 30, 2010, and is referenced in *Note 21 - Risk Management and Insurance*. Refund claims related to these cases that were filed by other companies that are still pending verification and exclusive of interest (which could be substantial) could negatively affect the State by \$32.9 million, of which \$19.1 million is related to the General Fund.

The State is also involved in tax litigation not included in the fiscal year 2010 liability amount, where it is reasonably possible that an adverse court decision may incur an estimated loss of \$30.5 million.

#### **Education Lawsuits:**

Four education lawsuits are pending: Committee for Educational Equality, et al vs. the State of Missouri, et al (Case No. 04CV323022), filed in the Circuit Court of Cole County; Jenkins, et al vs. School District of Kansas City, Missouri, et al (Case No. 77–0420–CV–DW), filed in the U.S. District Court, Western Division; Kansas City Missouri Public Schools vs. Missouri Board of Fund Commissioners (Case No. 05AC–CC00389), filed in the Circuit Court of Cole County; the School District of Kansas City, Missouri vs. State of Missouri, Missouri Board of Education, DESE, and D. Kent King filed in the Circuit Court of Cole County, filed with the Missouri Supreme Court. Arguments are being heard, and decisions in these cases may require additional state money or a revision to the current school aid formula.

#### **Tobacco Master Settlement Agreement:**

The State is currently involved in a national arbitration against the tobacco manufacturers that participated in the Master Settlement Agreement (MSA), regarding the manufacturers' pending claim for a downward adjustment against the manufacturers' 2004 annual payment, as defined in the MSA. The manufacturers' claim is a challenge to every State's 2003 enforcement record. The State's total exposure depends upon the arbitration panel's determination of whether Missouri and all other states diligently enforced their qualifying statutes in 2003 (RSMo 196.1000–196.1003).

The State's total potential exposure could be up to the entire amount of the 2004 annual payment from the manufacturers. The State's share of the annual payment was \$144 million, of which \$142 million has already been received. Should the State lose the arbitration, the next annual payment could be reduced by more than \$115 million, plus interest calculated from April 15, 2004. The amount may fluctuate depending on the total number of states found by the arbitration panel to have failed to diligently enforce their qualifying statutes in 2003. Such a loss would not be paid from State funds, but would be taken as a credit against the manufacturers' MSA payments in 2010 or subsequent years, resulting in a State liability. The tobacco companies may withhold some portion of future payments and seek arbitration of the same issue for subsequent years.

\_\_\_\_\_

#### Note 24 - Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

The Authority is considered a joint venture of the State, County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B), and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund \$2,845,000 and \$113,170,000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued \$49,585,000 in Series C 2007 refunding bonds to refund \$61,285,000 of original principal of the Series C 1997 refunding bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. In addition, the sponsors provide annual appropriations intended to keep the facility in good repair and competitive with the top 25% of NFL facilities. See *Note 12* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

Summary financial information for the Authority as of and for the fiscal year ended December 31, 2009, is presented below (in thousands of dollars):

Total Assets	\$ 282,014
Total Liabilities Total Net Assets	\$ 177,840 104,174
Total Liabilities and Net Assets	\$ 282,014
Total Revenues Total Expenses	\$ 24,795 28,711
Net Decrease in Net Assets	\$ (3,916)

Copies of the Authority's financial statements may be requested from:

St. Louis Regional Convention and Sports Complex Authority 901 North Broadway St. Louis, Missouri 63101

\_\_\_\_\_\_

#### Note 25 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a discretely presented component unit of the State. The University of Missouri reported a net depreciation/amortization of restricted non-expendable net assets in the amount of \$52,142,000, which consisted of both realized and unrealized losses on investment. For detailed information on the college and universities review the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.035, RSMo. These policies are entity specific and vary with each institution.

#### Note 26 - Conduit Debt

As of June 30, 2010, the Missouri Development Finance Board issued \$1,283,637,000 in Single Issue Industrial Revenue Bonds and \$1,703,965,000 in Public Purpose Capital Improvement and Refunding Leasehold Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2010, were approximately \$715,420,000 and \$817,448,000, respectively.

The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

#### Note 27- Subsequent Events

General Obligation Bonds:

On July 27, 2010, the Board of Fund Commissioners of the State of Missouri issued \$81,450,000 of State Water Pollution Control Refunding Bonds Series A 2010. These bonds will bear interest from 4.00% to 5.00%, due in semiannual installments beginning December 1, 2010. This refunded State Water Pollution Control Bonds in the following amounts: Series A 2001 – \$15,030,000, Series A 2002 – \$20,225,000, Series B 2002 Refunding – \$12,990,000, Series A 2005 Refunding – \$8,595,000, and Series A 2007 – \$31,385,000.

On July 27, 2010, the Board of Fund Commissioners of the State of Missouri issued \$9,060,000 of Fourth State Building Refunding Bonds Series A 2010. These bonds will bear interest from 4.00% to 5.00%, due in semiannual installments beginning December 1, 2010. This refunded Fourth State Building Bonds in the following amounts: Series A 2002 Refunding – \$8,970,000 and Series A 2005 Refunding – \$1,470,000.

On July 27, 2010, the Board of Fund Commissioners of the State of Missouri issued \$15,150,000 of Stormwater Control Refunding Bonds Series A 2010. These bonds will bear interest from 4.00% to 5.00%, due in semiannual installments beginning December 1, 2010. This refunded Stormwater Control Bonds in the following amounts: Series A 2001 – \$7,320,000, Series A 2002 – \$8,475,000, and Series A 2005 Refunding – \$905,000.

#### MOSERS and MPERS:

On July 19, 2010, a pension reform bill was signed into law that created a new membership tier for State employees hired for the first time on or after January 1, 2011. Some provisions include 4% employee contributions of pre-tax wages, as well as increasing the retirement age and vesting period.

#### Note 27 - Subsequent Events (cont.)

Missouri Department of Transportation:

The Series B 2005 First Lien State Road Bonds were issued as variable rate instruments with weekly rate changes. Since June 30, the rates varied from 0.20% to 0.33%.

On November 10, 2010, the Department issued \$130,390,000 of Senior Lien Refunding State Road Bonds Series C 2010. These bonds will bear interest from 3.00% to 5.00%, due in semiannual installments beginning February 1, 2011. This refunded Senior Lien State Road Bonds as follows: \$11,135,000 of Series A 2001, \$18,405,000 of Series A 2002, and \$111,760,000 of Series A 2003.

#### Missouri State University:

On July 30, 2010, the University issued \$46,370,000 of Auxiliary Enterprise System Revenue Bonds, consisting of \$20,565,000 in taxable Series 2010 B bonds designated as Build America Bonds, and \$25,805,000 in traditional tax-exempt Series 2010 A and Series 2010 C bonds. This issue also included a partial refunding of the Series 2005 A bonds in the amount of \$21,485,000.

On July 30, 2010, the University issued \$10,220,000 in bonds through the Missouri Health and Educational Facilities Authority, consisting of \$8,235,000 in taxable Series 2010 B bonds designated as Build America Bonds and \$1,985,000 in traditional tax-exempt Series 2010 A bonds.

#### Missouri Western State University:

On September 9, 2010, the University issued \$24,840,000 in revenue bonds, consisting of \$15,000,000 for funding of the construction of a new residential hall apartment complex, with the remaining \$9,840,000 used to refund the Auxiliary System Revenue Bonds Series 1998.

#### Northwest Missouri State University:

On November 16, 2010, the University issued \$4,980,000 in Recreation System Refunding Revenue Bonds Series 2010. These bonds refunded the Recreation System Improvement and Refunding Revenue Bonds Series 1999, which had an outstanding principal balance of \$4,380,000 at June 30, 2010.

On November 16, 2010, the University issued \$1,485,000 in Parking System Refunding Revenue Bonds Series 2010. These bonds refunded the Parking System Revenue Bonds Series 2001, which had an outstanding principal balance of \$1,785,000 at June 30, 2010.

#### University of Missouri:

On December 21, 2010, the University issued \$252,285,000 of System Facilities Revenue Bonds Series 2010A, designated as taxable Build America Bonds. These bonds bear interest at a stated rate of 5.792%, payable semiannually, beginning May 1, 2011.

#### **Unemployment Compensation:**

Due to high unemployment rates, Missouri is borrowing from the federal government in order to pay unemployment insurance benefits. Since June 30, 2010, \$10,970,391 has been borrowed. It is likely that the borrowing will continue through April 2011, however, the total amount of the borrowings cannot be determined at this time.

**Required Supplementary Information** (**RSI**) includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, and the Notes to RSI on Budgetary Reporting.

## STATE OF MISSOURI NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY REPORTING June 30, 2010

**J**ancos, 2010

#### **Budgetary Presentation:**

A Budgetary Comparison Schedule is presented for the State's Major governmental funds, as well as Major Capital Project Funds. Revenues and expenditures are reported on a budgetary basis where "actual" revenues are recognized when cash is received, and "actual" expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2010, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budget. This report can be viewed at <a href="http://oa.mo.gov/acct/AAR2010/index.htm">http://oa.mo.gov/acct/AAR2010/index.htm</a>. The "original budget" expenditures and transfers are for what was originally appropriated for each fund. The "final budget" expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any re-appropriations to the next fiscal year.

Once a year the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the "final budget" column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with state statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between "budgeted" and "actual" expenditures on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2010, is shown below (in thousands):

	Final T	ransfer	Actual Transfer		
	In	Out	In	Out	
GENERAL FUND SPECIAL REVENUE FUNDS	\$ 3,350,375	\$ (3,350,375)	\$ 3,224,256	\$ (3,224,256)	
Public Education Highways and Transportation	556,734 560,189	(556,734) (560,189)	475,562 535,787	(475,562) (535,787)	
TOTAL	\$ 4,467,298	\$ (4,467,298)	\$ 4,235,605	\$ (4,235,605)	

#### **Budgetary Control**:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless re-appropriated to the following appropriation year.

Supplementary Information includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (Missouri Road Fund), as well as the Combining and Individual Fund Statements and Schedules for the General Fund and all Non-Major Funds.

### The Combining and Individual Fund Statements and Schedules

#### **Major Funds**

**General Fund** – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

#### **Non-Major Funds**

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison schedule is provided for all non-major governmental funds with the exception of capital projects funds.

The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.

#### **Non-Major Special Revenue Funds:**

**Professional Registration** – Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

**Judicial Protection and Assistance** – Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

**Agriculture and State Fair** – Provides for inspections of products, market development, and awards for competition at the State Fair.

**Social Assistance** – Provides financial, health, and other services to qualifying individuals.

**Unemployment and Workers' Compensation** – Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

**Reimbursements and Other** – Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

The **Debt Service Funds** account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

#### **Debt Service Funds:**

Water Pollution Control Bond and Interest – Accounts for moneys used to pay the principal of the Water Pollution Control Bonds and the interest thereon.

**Third State Building Bond Interest and Sinking** – Accounts for moneys used to pay the principal of the Third State Building Bonds and the interest thereon.

**Fourth State Building Bond and Interest** – Accounts for moneys used to pay the principal of the Fourth State Building Bonds and the interest thereon.

**Stormwater Control Bond and Interest** – Accounts for moneys used to pay the principal of the Stormwater Control Bonds and the interest thereon.

Missouri Road Bond – Accounts for moneys used to pay bonds issued by the Highway and Transportation Commission.

The Capital Projects Funds account for financial resources to be used for the acquisition or construction of major capital facilities.

#### **Non-Major Capital Projects Funds:**

**Veterans' Homes Capital Improvement** – Accounts for fees collected from the sale of bingo cards to be used for the construction or renovation of veterans' homes and cemeteries in the State.

Water Pollution Control – Accounts for bond sale proceeds to be used for the protection of the environment through the control of water pollution.

**Board of Public Building Revenue Bond** – Accounts for bond sale proceeds to be used for renovating state buildings and structures.

The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.

#### **Permanent Funds:**

**Arrow Rock State Historic Site Endowment** – Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

**Confederate Memorial Park** – Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

**State Public School** – Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

**Smith Memorial Endowment Trust** – Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

**Missouri Investment Trust** – Accounts for moneys transferred from the Missouri Arts Council Trust Fund, the Missouri Humanities Council Trust Fund, the Johnson-Travis Memorial Trust Fund, and the Secretary of State Wolfner Library Fund to be invested by the Missouri Investment Trust's Board of Trustees.

Invested Securities Lending C	Collate	ral	237		
Interest Receivable			1		
Securities Lending Obligation	1		 (237)		
Fund Balance – GAAP Basis			\$ 38,121		

NOTE: The Missouri Investment Trust Fund is not presented on the budgetary comparison schedule because it is a non-appropriated fund and does not have a legally adopted budget.

This schedule is continued from page 124.

The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.

#### **Non-Major Enterprise Funds:**

**State Fair Fees** – Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks – Accounts for park concessions and contributions which are used to acquire and operate state parks.

**Natural Resources Revolving Services** – Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

**Historic Preservation Revolving** – Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Missouri Veterans' Homes – Accounts for fees to provide services for persons confined to one of the veterans' homes.

State Agency for Surplus Property – Accounts for the surplus property operation.

**Department of Revenue Information** – Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

The Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.

#### **Internal Service Funds:**

Natural Resources Cost Allocation – Accounts for the administrative costs of the Department of Natural Resources.

**Mental Health Interagency Payments** – Accounts for moneys received through interagency agreements for services provided by other agencies.

**State Facility Maintenance and Operation** – Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

**Office of Administration Revolving** – Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

**Working Capital Revolving** – Accounts for the operation of correctional industry programs and correctional farm programs.

**General Government Revolving** – Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

**Social Services Administrative Trust** – Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

**Economic Development Administrative** – Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

**Professional Registration Fees** – Accounts for moneys received from the professional boards for administrative services.

**Conservation Employees' Insurance Plan** – Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

**Transportation Self-Insurance Plan** – Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

**Missouri State Employees' Insurance Plan** – Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

**Missouri Consolidated Health Care Plan** – Accounts for medical care benefits provided on a self-insured basis for active state employees.

**MoDOT and MSHP Medical and Life Insurance Plan** – Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

The Fiduciary Funds account for assets held by the State in a trustee or agent capacity.

#### **Pension (and Other Employee Benefit) Trust Funds:**

#### **Missouri State Employees' Retirement System:**

**Missouri State Employees' Plan** – Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan – Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System – Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust – Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Employees' Deferred Compensation Incentive (IRC 401a) Plan – Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan – Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

#### **Private-Purpose Trust Funds:**

**Alternative Care Trust** – Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

**Johnson-Travis Memorial Trust** – Accounts for all moneys, stocks, and securities given to the State by Miss Pansy Johnson or for the benefit of the Pansy Johnson-Travis Memorial State Gardens. Moneys will be used solely to establish, develop, and maintain the gardens.

**Unclaimed Property** – Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

#### **Agency Funds:**

**Social Security Contributions** – Accounts for the receipt of contributions from various state funds for the State's share of social security contributions, which are due to the Federal Social Security Administration.

**Missouri State Employees' Voluntary Life Insurance** – Accounts for moneys withheld from employees' compensation for the contracts entered into with life insurance companies.

**Program** – Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

**Institution** – Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

The Component Units account for all transactions relating to legally separate entities which, for reporting purposes, are a part of the State.

#### **Non-Major Component Units:**

**Missouri Development Finance Board** – Accounts for moneys from bond proceeds, gifts, and grants to make loans for industrial development.

**Missouri Agricultural and Small Business Development Authority** – Accounts for moneys from bond proceeds, gifts, and grants to make loans for property acquisitions/renovations and pollution control facilities.

**Missouri Transportation Finance Corporation** – Accounts for moneys from federal, state or local sources, and from bond proceeds to be used for projects approved by the Missouri Highways and Transportation Commission.

Missouri Wine and Grape Board – Accounts for moneys derived from the privilege of selling wine to be used for marketing development in developing programs for growing, selling, and marketing of grape products grown in Missouri.

The Statistical Section presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.

#### Index and Overview

This part of the State's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

				_		
Ηu	naı	ncı	21	- 1 1	rai	nds

These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Assets by Component	147
Changes in Net Assets	
Fund Balances - Governmental Funds	
Changes in Fund Balances - Governmental Funds	150

#### **Revenue Capacity**

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base	151
Revenue Rates	152
Revenue Payers by Industry/Category	153

#### Debt Capacity

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt	154
Pledged Revenue Coverage	155

#### **Demographic and Economic Information**

These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators	
Economic Indicators	
Principal Employers	

#### **Operating Information**

These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

Source: Missouri Department of Transportation

<sup>&</sup>lt;sup>1</sup>Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

<sup>&</sup>lt;sup>2</sup>Operating Expenses do not include depreciation/amortization.

<sup>&</sup>lt;sup>3</sup>Coverage equals net available revenue divided by debt service.
