January 10, 2014

The Honorable Jeremiah W. (Jay) Nixon The Honorable Members of the Legislature Citizens of the State of Missouri

In accordance with generally accepted accounting principles, I submit to you the Comprehensive Annual Financial Report (CAFR) of the State of Missouri for the fiscal year ended June 30, 2013. This report was prepared by the Office of Administration, Division of Accounting, whose management is responsible for its contents.

The report is prepared to show the financial position and operating results of the State. The State's internal accounting controls provide reasonable assurance regarding the safeguarding of assets against loss from unauthorized use or disposal and the reliability of financial records for preparing financial statements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefit. We believe the data presented is accurate in all material respects and that all disclosures necessary to enable the reader to gain a reasonable understanding of the State's financial activities have been included.

An annual audit of the basic financial statements is completed each year by the State Auditor's Office. The State Auditor conducts the audit in accordance with generally accepted government auditing standards, and his opinion has been included in this report. The State Auditor conducts a "Single Audit" of all federal funds in accordance with the Federal Single Audit Act of 1984, and the U.S. Office of Management and Budget Circular A-133, "Audit of State and Local Governments and Non-Profit Organizations."

A narrative introduction, overview, and analysis of the basic financial statements is presented in the *Management's Discussion and Analysis (MD&A)* section of this report. This letter of transmittal is intended to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the Independent Auditor's Report.

PROFILE OF THE GOVERNMENT

Missouri was organized as a territory in 1812 and was the second state (after Louisiana) of the Louisiana Purchase to be admitted to the Union. Statehood was granted on August 10, 1821, making Missouri the 24th state. The State encompasses 68,945 square miles.

The State operates under three branches of government: executive, legislative, and judicial. The executive branch consists of the Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, and Attorney General. The legislative branch consists of 34 members of the Senate and 163 members of the House of Representatives. The judicial branch is a three-tier court system: the Supreme Court, the State's highest court, has statewide jurisdiction; a court of appeals that consists of districts established by the General Assembly; and a system of circuit courts that has original jurisdiction over all cases and matters, civil and criminal.

The State provides a range of services in the areas of agriculture, education, health and social services, transportation systems, public safety, judicial systems, economic development, conservation and natural resources, labor relations, and general administration.

The State operates on a legally adopted budget in order to ensure compliance with legal provisions embodied in the annual appropriated budget passed by the General Assembly and approved by the Governor prior to the beginning of the fiscal year. If appropriations are not sufficient for a fiscal year, supplemental amounts are requested during the next legislative session by the same process that original appropriations are requested. Budgets are established at the program level. Expenditures cannot exceed the individual appropriation amount. The Governor has the authority to reduce the allotments of appropriations in any fund if it appears that the revenue estimate will not be met. Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

The financial reporting entity of the State includes all of the funds of the primary government as well as component units for which the State is financially accountable. The transmittal letter, MD&A, and the financial statements focus on the primary government and its activities. Although information pertaining to the component units is provided, their separately issued financial statements should be read to obtain a complete overview of their financial position.

ECONOMIC CONDITION AND OUTLOOK

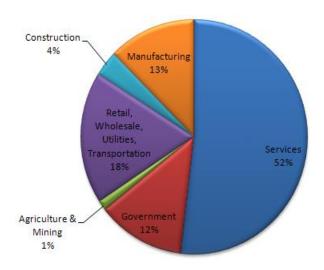

State Economy

The economy in Missouri has seen steady improvement over the past three years. According to estimates, Missouri's gross domestic product (GDP) totaled over \$258 billion in 2012. Missouri's GDP is now higher than the pre-recession level. Growth in economic indicators such as GDP, industrial production and wage, has confirmed a gradual climb out of the recession. Some of the positive signs of improvement include:

- over 63,000 jobs that were lost during the recession have been added back, this is equal to over half of the jobs lost during the recession.
- unemployment dropped to 6.9% in June 2013 compared to the 7.6% national unemployment rate. Missouri's unemployment rate has been lower than the national average for a consecutive 47 months.
- personal income increased 3% in 2012 compared to 2011.

In 2012, Missouri experienced the largest annual growth in GDP since 2007. Missouri's growth of 3.7% from 2011 to 2012 lagged slightly behind the U.S. GDP growth of 4%. Missouri's GDP is the 22nd largest among states and is third largest among the surrounding states. As shown in the chart, services contributed the largest portion followed by retail, wholesale, utilities, transportation, and government.

Missouri Gross Domestic Product 2012

Source: MERIC 2013 Missouri Economic Report.

The unemployment rate in Missouri remains stable. A statewide focus to create new jobs continues. In June 2013, there were major expansions announced by a number of businesses including GM, Boeing, and SRG Global. The expansion of Boeing includes the opening of an information technology center that is expected to create 400 new jobs in the State. Missouri Works, which launched in January 2012, has helped to create some of the new jobs. The Missouri Works program has been employed in an effort to engage 600 businesses, including Boeing, in the development of a comprehensive strategy to transform the State's economy. Some of the goals of the program includes: attracting next-generation automotive suppliers to the State, expanding the number of exports, training more workers for high-tech careers, hiring more military veterans to work in the State, jumpstarting job creation in science and technology, targeting big-growth industries, and creating jobs in rural communities.

In addition to the Missouri Works program, the Strategic Initiative for Economic Growth (SIEG) has been working to move the State's economy forward and targeting seven high-growth industries of the future to make targeted state investments. The seven targeted industries include advanced manufacturing, biosciences, energy solutions, finance and professional services, health care science and services, information technology, and logistics. These industries represent in-demand employment opportunities paying on average 25% higher wages than the state average. With critical guidance from the private sector leadership, the State has worked to implement strategies identified in the SIEG in order to promote the growth of the seven targeted industries. Examples include the Missouri Manufacturing Jobs Act which benefits the State's strong transportation sector, the Missouri Step Initiative to promote small business exports, and the Innovation Campus Program to increase training opportunities in high-demand industries through accelerated degree programs and high-impact internships.

Long-Term Financial Planning

Missouri continues to focus on controlling the growth of mandatory programs through cost-effective alternatives and cost containment initiatives while improving the delivery of services through administrative efficiencies. The State is actively pursuing opportunities to consolidate functions and thrive in a period of reduced financial resources.

In fiscal year 2013, the legislature passed House Bill 253, which would have made substantial changes to the State's existing tax structure. This bill was vetoed by the Governor due to concerns with the bill and the magnitude of some of the changes on the State's budget. The legislature attempted to override the veto but was not able to obtain enough votes.

Senate Bill 1 was passed in 2013 to address the solvency issues in the Second Injury Fund. This bill authorizes a supplemental surcharge that may not exceed 3% of the policyholder's or self-insured workers' compensation net deposits, net premiums, and net assessments for the previous policy year. The current statutory cap of 3% has proven insufficient to meet the obligations of the fund.

In order to take advantage of historically low interest rates, the State refunded some of its existing debt that was originally issued at higher interest rates. In June, August, and October 2013, the State refunded outstanding Missouri Development Finance Board Leasehold Revenue Bonds, Regional Convention and Sports Complex Authority Convention, and Sports Facility Project Bonds as well as Board of Public Building Bonds for economic savings. The bond sales produced combined budgetary savings of \$9 million in fiscal year 2014 and cash savings of \$15.6 million over the life of the bonds. The present value savings for the three refunding transactions were 8.25%, 12.7%, and 13.1%, respectively. As refunding opportunities present themselves, the State will continue to review the potential impact to the State and will continue to review all debt outstanding to ensure that the State's debt is managed efficiently.

Relevant Financial Policies

Article X, Sections 16–24 of the Constitution of Missouri (the "Tax Limitation Amendment"), imposes a limit on the amount of taxes that may be imposed by the General Assembly in any fiscal year. This limit is tied to total state revenues for fiscal year 1981, as defined in the Tax Limitation Amendment and adjusted annually based on a formula which is tied to increases in the personal income of Missouri for certain designated periods. If the revenue limit is exceeded by one percent or more in any fiscal year, the excess revenue will be refunded based on the liability reported on state income tax returns. If the excess revenue collected is less than one percent of the revenue limit, the excess revenue shall be transferred to the General Revenue Fund.

The revenue limit can be exceeded by a constitutional amendment duly adopted by the people or if the General Assembly approves by a two-thirds vote an emergency declaration by the Governor. Strong economic growth resulted in revenues above the total state revenue limit in fiscal years 1995–1999. The State has refunded to income taxpayers \$979 million in excess revenue for these fiscal years. The revenue limit was not exceeded in fiscal years 2000 through 2013, inclusive. The State is currently \$3.9 billion below the limit and does not expect the limit to be exceeded in fiscal year 2014.

Major Intiatives

As the economy is slow to fully recover, the State has continued to focus on reduced spending. Efficiencies have been obtained through consolidation of state agencies, downsizing the state workforce, reduction of the number of boards and commissions, sale of unused state property, elimination of unused office space, negotiation on building leases, improved technology, placement of more services online, reduction in state employee travel, and elimination of automatic increases in procurement contracts.

Missouri has focused on improving the economy of the State. The primary areas of focus include attracting business to the State, job creation, and education.

Tax Structure. House Bill 128 modifies how corporations calculate taxable income. The bill adds an optional method for allocating sales outside the state. The optional method provides a tax benefit to those businesses that ship goods outside of the state.

Economic Development. House Bill 184 establishes the Missouri Works Program. The program consolidates four existing business development programs into a single business-friendly program with a uniform set of definitions and streamlined application process. Additionally, the program will be capable of offering businesses performance based benefits in the form of retained withholding taxes and additional discretionary incentives in the form of refundable tax credits. The program also expands eligibility to enable greater participation by small businesses and businesses in rural areas, while providing additional benefits to existing businesses that create jobs.

Education. Missouri created the Start Smart Initiative to expand access to early childhood education by providing resources to support the development of new or the expansion of existing high quality early childhood and pre-kindergarten educational opportunities. The program provides assistance to early childhood programs to make capital improvements, provide for start-up costs for curriculum development, equipment, and teacher training. All eligible programs must provide services that will benefit low and moderate income individuals.

ACKNOWLEDGEMENTS

While the Office of Administration, Division of Accounting, is responsible for the contents of this report, no one division could do it alone. Many people were involved in the compilation of materials necessary to complete the report.

We want to issue a special thanks to all the personnel at the State agencies who provided us with information quickly and accurately so that we could issue the CAFR in a timely manner. We also owe thanks to the professionalism and dedication demonstrated by technical and management personnel within the State Auditor's Office, the State Treasurer's Office, Office of Administration, Information Technology Services Division, and the State Printing Center. We appreciate all their efforts.

Sincerely,

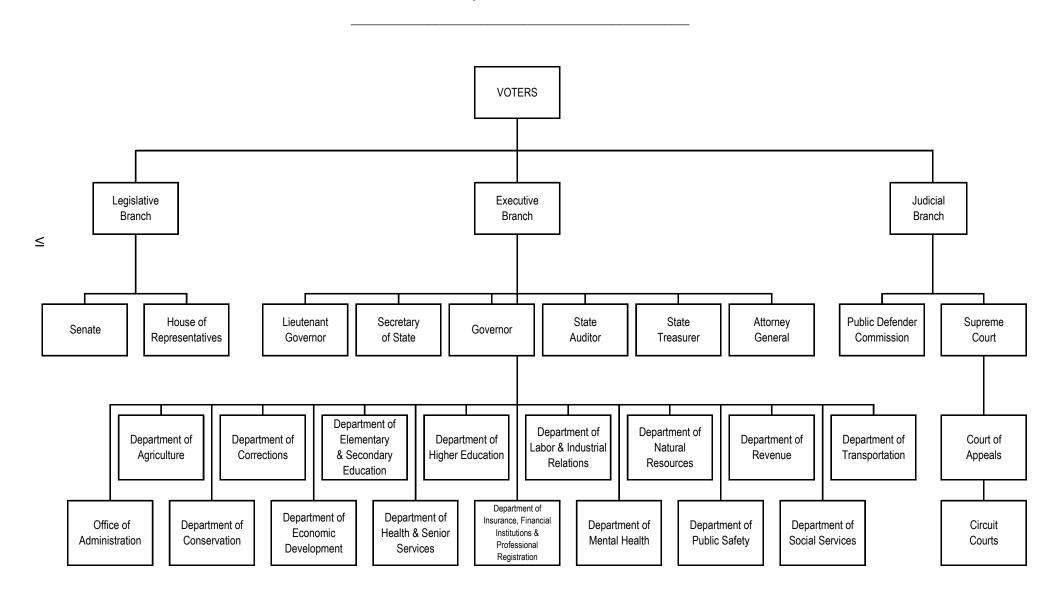

Stacy Neal, CPA Director

Stacy Neal

THOMAS A. SCHWEICH

Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT

Honorable Jeremiah W. (Jay) Nixon, Governor and Members of the General Assembly

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the state's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain entities that comprise the state of Missouri. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those entities, are based solely on the reports of the other auditors. Those entities were:

1. The Missouri Road Fund, a major fund; the Missouri Highway 63 Transportation Corporation, a blended transportation corporation identified in Note 1A.; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway

Patrol Medical and Life Insurance Plan, which represent 78 percent and 12 percent of the assets and revenues, respectively, of the governmental activities.

- 2. The State Lottery and the Petroleum Storage Tank Insurance Fund, which are both major funds and represent 37 percent and 49 percent of the assets and revenues, respectively, of the business-type activities.
- 3. The aggregate discretely presented component units.
- 4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation Local Fund, which represent 94 percent and 97 percent of the assets and additions, respectively, of the fiduciary funds.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Missouri Highway 63 Transportation Corporation, a blended transportation corporation; the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, a discretely presented component unit; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinions on the Governmental Activities and General Fund

We were not allowed access to tax returns and related source documents for income taxes. Access was denied based on the Director of Revenue's interpretation of the decision rendered by the Missouri Supreme Court in the case of *Director of Revenue v. State Auditor 511 S.W.2d 779 (Mo. 1974)*. Approximately 27 percent of governmental activity revenues and 32 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded.

Qualified Opinions

In our opinion, based on our audit and the reports of other auditors, and except for the possible effects of the matter described in the "Basis for Qualified Opinions on the Governmental Activities and General Fund" paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the state of Missouri, as of June 30, 2013, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the aggregate discretely presented component units, each major fund excluding the General Fund, and the aggregate remaining fund information of the state of Missouri, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 1-13 and the Budgetary Comparison Schedule-General Fund, Major Special Revenue Funds on pages 104-105 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state of Missouri's basic financial statements. The supplementary information, as listed in the table of contents, and the other information, such as the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the audit procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, and except for the effects on the supplementary information of the matter discussed in the "Basis for Qualified Opinions on the Governmental Activities and General Fund" paragraph, the supplementary information, as listed in the table of contents, is fairly stated in all material respects in relation to the basic financial statements as a whole.

The information in the introductory and statistical sections has not been subjected to the audit procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, our report dated January 10, 2014, on our consideration of the state of Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters is issued under separate cover in the Single Audit Report. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the state of Missouri's internal control over financial reporting and compliance.

Thomas A. Schweich State Auditor

Thomas A Schwoll

January 10, 2014

The Management's Discussion and Analysis provides a narrative overview and analysis of the financial activities of the State.

Management's Discussion and Analysis

The following is a discussion and analysis of the State of Missouri's (State's) financial activities for the fiscal year ended June 30, 2013. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal.

FINANCIAL HIGHLIGHTS - PRIMARY GOVERNMENT

Government-Wide:

- *Net Position.* Assets of the State of Missouri exceeded liabilities at the close of fiscal year 2013 by \$30.7 billion. Of the \$30.7 billion, "unrestricted net position" is reported as a negative \$1.6 billion, offset by \$3.8 billion in "restricted net position". A positive balance in unrestricted net position would represent the amount available to be used to meet the government's ongoing operations.
- Changes in Net Position. The State's total net position increased by \$1.1 billion in fiscal year 2013. Net position for governmental-type activities increased by \$892.5 million.
- Excess of Revenues over (under) Expenses. During fiscal year 2013, the State's total revenues of \$25.7 billion were \$1.1 billion greater than total expenses of \$24.6 billion (excluding transfers). Of these expenses, \$15.0 billion were covered by program revenues. General revenues, generated primarily from various taxes, totaled \$10.7 billion.

Fund-Level:

- Governmental Funds Fund Balance. At the close of fiscal year 2013, the State's governmental fund assets exceeded liabilities by \$5.0 billion, an increase of \$310.2 million or 6.7% from the prior year. The increase was primarily due to a decrease in expenditures of \$677.4 million.
- General Fund Fund Balance. At the end of the current fiscal year, the State's General Fund reported a balance of \$1.4 billion.

Additional information regarding individual funds begins on Page 9.

Debt Issued and Outstanding:

• The primary government's total long-term obligations related to bonds payable decreased \$227.8 million or 5.5% over the prior year. The outstanding bonds payable represents 48.0% of financial assets (cash, receivables, and investments) and 9.8% of total assets. The net decrease in bonds payable resulted from a decrease of \$206,000,000 due to bond payments, \$463,000,000 due to bond refunding, and an increase of \$442,000,000 due to issuances of General Obligation Bonds and Board of Public Buildings Bonds. Additional detail is available in *Note 12*.

Revenue Limit:

• The State Constitution limits the State's ability to retain revenue collected over an amount set by a constitutional amendment known as Article X. Excess revenue of 1.0% or more must be refunded to the taxpayers each year. During fiscal year 2013, the State did not exceed the revenue limit.

OVERVIEW OF THE FINANCIAL STATEMENTS

The State's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the State's assets and liabilities, with the difference between the two reported as *net position*. Increases or decreases in net position may serve as a useful indicator of the State's financial position.

The *Statement of Activities* presents information showing how the State's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of when the cash is received. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements report three activities:

Governmental Activities are primarily supported by taxes and intergovernmental revenues. They include general government, education, natural and economic resources, transportation and law enforcement, and human services.

Business-Type Activities are intended to recover all or a significant portion of their costs through user fees and charges. They include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising, publishing maps and documents and insurance coverage. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds.

Discretely Presented Component Units are operations for which the State has financial accountability, but are legally separate. They include the college and universities, Missouri Development Finance Board, Missouri Agricultural and Small Business Development Authority, Missouri Transportation Finance Corporation, and Missouri Wine and Grape Board.

Fund Financial Statements:

The fund financial statements present more detailed information about the government's operations than the government-wide statements. The State uses fund accounting to ensure and demonstrate compliance with statutory requirements. The funds of the State can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds are used to account for most of the basic services provided by the State. Unlike the government-wide financial statements, governmental fund financial statements focus on short-term inflows and outflows of current financial resources and utilize the modified accrual basis of accounting. This presentation focuses on when cash will be received and disbursed making the statements useful in evaluating a government's financing requirements in the near future.

Governmental funds include the general, special revenue, capital projects, debt service, and permanent funds. Major funds include general, public education, conservation and environmental protection, and the Missouri Road Fund which are presented in separate columns. Data from other governmental funds are combined into a single column for aggregated presentation. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements in supplementary information.

A user can compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements, a reconciliation to facilitate this comparison is provided on the page immediately following each governmental fund financial statement.

Proprietary funds. Proprietary funds are used to account for activities similar to private businesses in which goods and services are sold for specified fees. Generally, the State uses enterprise funds to account for activities that provide goods and services to the general public. These include constructing or operating state park facilities, fairgrounds, historical properties and office buildings, hospital services, warehousing, merchandising and publishing maps and documents. Also included are the operations of the State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance funds. Internal service funds report activities that provide supplies and services for the State's other programs and activities. The State uses internal service funds to account for insurance and health care plans, as well as administrative services for other state agencies, such as fleet management, data processing, and telecommunication services. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds focus on economic resources and utilize the full accrual basis of accounting. The proprietary fund financial statements provide separate information for the State Lottery, Unemployment Compensation, and Petroleum Storage Tank Insurance, which are considered major enterprise funds. Non-major enterprise funds are also combined into a single column for aggregated presentation. All internal service funds are combined into a single column in the proprietary fund financial statements. Individual fund data for the non-major enterprise and internal service funds is provided in the form of combining statements in supplementary information.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside State government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The fiduciary funds are presented using the full accrual basis of accounting.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information (RSI) including a budgetary comparison schedule for the General Fund and major special revenue funds. Other supplementary information includes the combining statements for the general, non-major governmental, non-major enterprise, internal service, fiduciary, and non-major component unit funds. It also includes the statistical section as well as budgetary comparison schedules for the Missouri Road Fund, non-major special revenue, debt service, and permanent funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position:

The State's total net position increased \$1.1 billion or 3.8% during fiscal year 2013. This increase resulted primarily from an increase in accounts receivable of \$111.0 million mainly due to tax increases, a decrease in bonds payables of \$227.8 million due to the State capitalizing on historically low interest rates by refunding state bonds, and a decrease in loans payable of \$254.3 million. Net position net investment in capital assets and restricted net position, which do not represent resources available to pay day-to-day operating expenses, increased by \$548.1 million or 1.7%. The net position net investment in capital assets and restricted net position increase was primarily due to the increase in capital assets of \$413.4 million.

Net investment in capital assets, such as bonds payable or capital lease obligations, is the largest component of the State's net position at \$28.5 billion or 92.7%. These assets include land, infrastructure, buildings, and equipment which are not easily converted to cash or readily available to pay state debts as they come due.

Restricted net position of the primary government totaled \$3.8 billion or 12.5% of total net position vs. 13.2% from the prior year. Net position is restricted for several reasons including constitutional, legal, enabling legislation, or external requirements. Examples of restricted net position include lottery proceeds restricted for public education, funds restricted for debt service, and certain sales taxes restricted for the maintenance of highways or state parks and conservation areas. Also, many federal funds are restricted to funding certain programs.

The following table displays the current and prior year government-wide condensed Statement of Net Position.

Changes in Net Position:

The schedule below reflects how the State's net position changed during the year. The State collected program revenues of \$15.0 billion and general revenues of \$10.7 billion for total revenues of \$25.7 billion during fiscal year 2013. Expenses for the State during fiscal year 2013 were \$24.6 billion. Total net position, net of contributions and transfers, increased by \$1.1 billion.

The following table displays the current and prior year government-wide condensed Statement of Activities.

Governmental Activities

The net position of governmental activities increased \$892.5 million in fiscal year 2013. Revenues for the governmental activities totaled \$23.4 billion, while expenses totaled \$22.8 billion in 2013.

General and program revenues of governmental activities remained relatively constant during the fiscal year.

As shown in the Revenues by Source chart below, approximately 45.7% of revenues from all sources earned came from taxes. Grants and contributions, which represents amounts received from other governments/entities, primarily the federal government, provided 46.0% of total revenue. Charges for services contributed 7.8% and various other revenues provided 0.5% of the remaining governmental activity revenue sources.

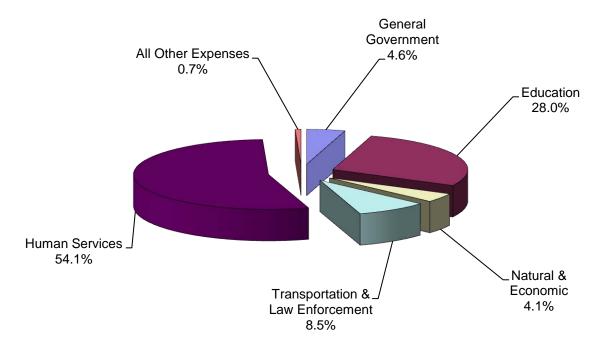

Revenues by Source

The State's governmental activities program expenses decreased \$230.0 million during fiscal year 2013. Education expenses decreased \$5.2 million, General Government expenses increased \$24.9 million, Natural and Economic Resources expenses decreased \$120.5 million, Transportation and Law Enforcement expenses decreased \$95.4 million, Human Services expenses increased \$10.7 million, and all Other Expenses decreased \$44.4 million.

As shown in the Expenses by Function chart below, expense for Human Services makes up the largest portion - 54.1% - of total governmental activities expenses.

Expenses by Function

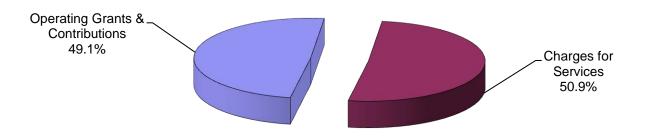

Business-Type Activities

Net position of the State's business-type activities increased \$225.3 million in fiscal year 2013. Business-type revenues decreased by \$294.7 million during the current fiscal year. Program expenses of business-type activities decreased \$366.1 million from fiscal year 2012 to 2013 primarily from a decrease in unemployment compensation expense.

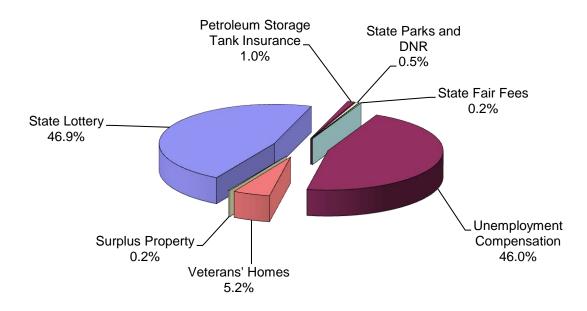

Revenues of business-type activities totaled \$2.4 billion. As shown in the Revenues by Source chart below, 50.9% of the revenues came from charges for services. Operating grants and contributions provided 49.1% of the total revenue.

Revenues by Source

Expenses of business-type activities totaled \$1.9 billion. As shown in the Expenses by Fund chart below, State Lottery makes up the largest portion with 46.9% of total business-type expenses. The Unemployment Compensation comes in second at 46.0%, followed by veterans' homes at 5.2%, petroleum storage tank insurance at 1.0%, state parks and DNR at 0.5%, state fair fees and surplus property at 0.2%.

Expenses by Fund

FINANCIAL ANALYSIS OF THE STATE'S INDIVIDUAL FUNDS

Governmental Funds:

At the end of fiscal year 2013, the State's governmental funds reported combined ending fund balances of \$5.0 billion. Approximately 36.6% is unrestricted and available for spending at the government's discretion. The remainder of fund balance is nonspendable and restricted to indicate that it is not available for new spending because it has already been allocated for: 1) inventories, 2) to pay debt service, 3) for loans receivable, and 4) for a variety of other purposes.

Fund balances (in thousands) for governmental funds are as follows:

	General Fund	E	Public ducation	En	onservation and vironmental Protection	Missouri Road Fund	N	on-Major Funds	Total
Nonspendable	\$ 56,048	\$	74	\$	1,041,311	\$ 34,841	\$	50,027	\$ 1,182,301
Restricted	285,878		227,658		131,045	989,959		326,353	1,960,893
Committed	506,604		6,292		305,935			25,579	844,410
Assigned	67,123		55,046		87,720			227,996	437,885
Unassigned	 530,766					 			530,766
Total	\$ 1,446,419	\$	289,070	\$	1,566,011	\$ 1,024,800	\$	629,955	\$ 4,956,255

The General Fund is the chief operating fund of the State. At the end of fiscal year 2013, the State's General Fund reported a total fund balance of \$1.4 billion, an increase in fund balance from fiscal year 2012 of \$281.8 million. Total revenues increased by \$119.7 million or 0.7%. The major contributing factors to this was a combination of an increase in taxes of \$640.6 million combined with a decrease in contributions and intergovernmental revenues of \$459.0 million mainly due to a decrease in funding from the federal government relating to the American Recovery and Reinvestment Act which is coming to an end. Total expenditures decreased by \$588.3 million. Contributing factors were a decrease in the Federal Fund in spending related to the ending of the American Recovery and Reinvestment Act of \$284.9 million across multiple agencies with the majority, \$279.2 million, in the Departments of Education, Social Services, and Public Safety and a decrease in the General Fund of \$148.7 million in human services relating to a decrease to medical and public assistance payments due to a change in funding from General Revenue Fund to Social Assistance Fund and a decrease in payments to hospitals. Transfer out increased by \$164.5 million mainly to Public Education due to increased funding for education in fiscal year 2013.

The Public Education Fund provides general and special education services to the children of the State and other related functions such as library services and student loans. Total fund balance increased by \$20.6 million due to an increase of appropriated transfers into the fund as a result of increased funding for education. Transfers into the fund increased by \$143.7 million, and the related education expenditures out of the fund increased by \$125.7 million.

The Conservation and Environmental Protection Fund provides for the preservation of the State's wildlife and environment. In fiscal year 2013, fund balance increased by \$126.7 million mainly due to an increase in cash and investments and an increase in loans receivable. Cash and investments increased \$65.8 million due to an increase in the loans being funded with federal Environmental Protection Agency grant funds rather than recycled state funds. Loans receivable increased \$58.1 million partly because the Water and Wastewater Loan Program switched from a leveraged loan program to a direct loan program which resulted in a 100% receivable instead of a 70% receivable.

The Missouri Road Fund accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. The fund balance decreased by \$84.1 million in fiscal year 2013. Revenues remained relatively flat, except for contributions and intergovernmental which continued to decrease in fiscal year 2013 due to the majority of the projects relating to the American Recovery and Reinvestment Act being completed. Total expenditures for the fund decreased by \$266.7 million or 12.4% mainly due to decreases in capital outlays and construction costs, however, expenditures continue to exceed revenues into the fund.

Proprietary Funds:

The State has three major proprietary funds: State Lottery, Unemployment Compensation, and the Petroleum Storage Tank Insurance Fund. The State Lottery Fund was established in 1986 to account for the sale of lottery tickets and lottery operations. Since 1992, public education has been the sole beneficiary of lottery proceeds. Unemployment Compensation accounts for contributions and payments collected from Missouri employers under the provision of the "Unemployment Compensation Law." This tax finances benefits for workers who become unemployed through no fault of their own. The Petroleum Storage Tank Insurance Fund accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks. The fund pays cleanup expenses for petroleum leaks or spills from underground storage tanks and certain above ground storage tanks as well as third party property damage or bodily injury resulting from such discharges. This fund is one of the largest insurers of storage tanks in the country.

The State Lottery Fund's net position decreased by \$4.4 million mainly due to increased operating expenses. Total operating expenses increased by 4.9% from \$835.6 million in fiscal year 2012 to \$876.3 million in fiscal year 2013. Most of the increase is attributable to increased prizes. The net impact of these results for fiscal year 2013 was an increase in the actual cash transfer of profits for public education from \$280.0 million to \$288.8 million. In addition, the Lottery returned \$753.0 million to players in cash and prizes and \$70.3 million to retailers in commissions and incentives for the 2013 fiscal year.

The Unemployment Compensation Fund's net position increased by \$232.4 million mainly due to a decrease in unemployment rates. The number of weeks of benefits paid decreased by 13%. In addition, the State no longer qualified to distribute the third tier of Emergency Unemployment Compensation because of the lower unemployment rate, which eliminated seven weeks of benefits to eligible claimants. The total number of weeks of benefits paid decreased by 40%. The lower unemployment rate also ended extended benefits, which were paid over \$84 million in fiscal year 2012. The federal funding for the Short–Term Compensation Program started in fiscal year 2013 and paid out \$8.7 million in benefits.

The Petroleum Storage Tank Insurance Fund's net position decreased by \$6.4 million. The decrease is due to load fees not being sufficient to cover expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget is the appropriated budget that is truly agreed to and finally passed by the legislature, and signed by the Governor at the beginning of the fiscal year. The final budget includes emergency and supplemental appropriations, reverted and increases to estimated appropriations, which occur during the fiscal year.

Budgeted appropriations for fiscal year 2013 from the General Fund were \$23.7 billion original budget and \$24.2 billion final budget. Actual spending was \$22.4 billion. Reasons for the final budget variances include:

- Appropriation authority exceeded cash available for expenditures.
- Lapse of various appropriations.
- Multiple year grants are appropriated in one year but the expenditures may occur over several years.

Budgeted revenues/transfers in for fiscal year 2013 for the General Fund were \$23.0 billion original budget and \$23.2 billion final budget. Actual revenue/transfers in was \$22.7 billion.

Refer to the *Notes to RSI*, Budgetary Reporting, on page 106 for more information on budgetary variances.

GOVERNMENT-WIDE CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets:

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2013, was \$31.9 billion (net of accumulated depreciation/amortization). This investment in capital assets includes construction in progress, software in progress, infrastructure in progress, land, permanent easements, land improvements, temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure.

Capital Assets of the State include (in thousands):

		Governmental Activities		ness-Type ctivities		Total
Construction in Progress	\$	304,667	\$	5,894	\$	310,561
Software in Progress		29,644				29,644

Total Capital Assets, Net	\$ 31,875,531		\$ 52,928		\$	31,928,459

Additional information on capital assets can be found in *Note 5* of this report.

Debt Administration:

At the end of fiscal year 2013, the primary government had total general obligation and other bonded debt outstanding of \$3.9 billion. Of this amount, \$378.2 million comprises debt backed by the full faith and credit of the government.

Principal amounts retired in fiscal year 2013 were \$217.5 million for general obligation bonds and \$452.0 million for other bonds.

The State of Missouri is proud to be one of only ten states to maintain a Triple-A credit rating from all three major credit rating agencies (Moody's Investor Services, Inc., Standard and Poor's, and Fitch Ratings, Inc.) on the State's General Obligation Bonds.

Outstanding Bonds Payable of the State include (in thousands):

	Governmental Activities		 Component Units	Total		
General Obligation Bonds Other Bonds	\$	378,150 3,562,775	\$ 1,811,482	\$	378,150 5,374,257	
Total	\$	3,940,925	\$ 1,811,482	\$	5,752,407	

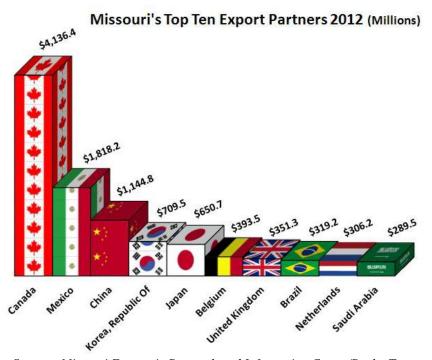

Additional information on long-term debt can be found in Notes 11, 12, and 13 of this report.

ECONOMIC OUTLOOK AND NEXT YEAR'S BUDGET

The State's net general revenue collections made significant improvement during fiscal year 2013. Net general revenue collections increased 10.1% from fiscal year 2012 ending with an amount of \$8.1 billion compared to an increase of 3.2% from fiscal year 2011 to fiscal year 2012. The fiscal year 2014 budget, as appropriated in May 2013, would require a decline of 1.9% from fiscal year 2013 in general revenue collections to meet the revenue estimate. The fiscal year 2014 budget was restricted by \$400 million, largely due to the potential impact of House Bill 253, which was vetoed by the Governor. The veto was sustained by the Legislature, therefore the Governor released \$215.2 million of the restricted funding for areas such as education and mental health. Restrictions remain in place totaling \$134 million on two-year capital improvement projects. Many of these restrictions remain in place partially due to a ruling by a national arbitration panel regarding payments to states under the 1998 Tobacco Master Settlement Agreement. Missouri is expected to owe the tobacco companies \$70 million, which would be repaid in the form of an offset of the State's next payment that would be received from the tobacco companies. In addition to the tobacco settlement, restrictions remain due to revenues that were built into the budget for a tax amnesty program. However, the program was not enacted, therefore those revenues will not be realized and expenditure restrictions remain to balance the budget.

The outlook for general revenue for fiscal year 2013 remains solid, moving consistently with the U.S. economy. While most economic forecasts anticipate the eventual return of stronger growth, it remains unclear when this growth may gather speed. Much depends on the timing and details of the federal deficit resolution. Equity markets have reached record levels this year as fiscal troubles in the European Union have remained contained, but markets could react severely if stateside fiscal problems are not addressed. Consumers remain constrained and job growth is improving but remains limited, especially among public employers hampered by reduced revenues and curtailed stimulus funding.

Missouri exports remain strong. Exports have grown every year from 2009 to 2011 and reached records levels. Overall, exports in 2012 went down by 2% from the prior year, but increasing exports remains a high priority for creating jobs in Missouri. New trade agreements between Missouri and the Republic of Korea and the Republic of China (Taiwan) have been entered into that would create \$1.9 billion in sales of Missouri goods over the next four years. In addition to these agreements, Missouri has signed agreements with China in 2011 and Brazil in 2012 which have resulted agreements to sell \$4.6 billion in Missouri goods. Over the past two years, Missouri's export sales have been at record highs. To continue this momentum, the fiscal year 2014 budget includes an increase of \$2.3 million in funding to help businesses identify and access new export opportunities. The following graph shows the top exports partners (in millions of dollars):

Source: Missouri Economic Research and Information Center/Realty Trac

Despite the current national economic situation, Missouri's financial position continues to be strong. Conservative fiscal management, including Missouri's constitutional provisions for the Governor to line item veto and restrict expenditures below appropriated levels, will ensure the fiscal year 2014 budget is balanced.

Missouri sustained several natural disasters in 2011, including flooding and tornadoes. In addition, the State also had a drought in 2012. The State will be aiding in the relief from these disasters with much of the costs being paid during fiscal year 2014. The State and local share of eligible costs is anywhere from 10 to 25 percent of the total clean-up or restoration costs.

The fiscal year 2014 budget recommendations included funding to expand Medicaid coverage pursuant to the federal Affordable Care Act. The proposal to provide additional Medicaid coverage required both statutory and budgetary changes by the legislature, neither of which were approved in the 2013 legislative session. The legislature has created several committees to study Medicaid. Authorization of additional Medicaid coverage during the 2014 legislative session could impact the fiscal year 2015 budget, since people who are currently covered under state only programs would become eligible for Medicaid and their services would be eligible for federal funding. Failure to authorize expansion of Medicaid coverage may negatively impact future state budgets.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the State's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of Administration, Division of Accounting, P.O. Box 809, Jefferson City, MO 65102.

The **Basic Financial Statements** include the Government-Wide Financial Statements, the Governmental Fund Financial Statements, the Proprietary Fund Financial Statements, the Fiduciary Fund Financial Statements, the Component Unit Financial Statements, and the accompanying notes to the statements.

The Governmental Funds focus on current financial resources.

Governmental Fund Financial Statements

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Major Special Revenue Funds:

Public Education – Provides general and special education needs of the State and other related areas such as library services and student loans.

Conservation and Environmental Protection – Provides for the preservation of the State's wildlife and environment.

Major Capital Projects Fund:

Missouri Road Fund – Accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. This also includes the following blended component unit: Missouri Highway 63 Transportation Corporation.

Non-Major Funds

Non-Major Governmental Funds are presented in the Combining and Individual Fund Statements and Schedules for non-major funds as part of Supplementary Information.

STATE OF MISSOURI RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION June 30, 2013 (In Thousands of Dollars)

Total Fund Balances – Governmental Funds	\$	4,956,255
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental funds are not financial resources and they are not reported in the funds. These assets consist of (Note 5):		
Construction in Progress 304,39	5	
Software in Progress 29,47		
Infrastructure in Progress 2,853,69		
Land 2,917,85		
Permanent Easements 2,49		
Land Improvements 189,13		
Temporary Easements 1,93		
Buildings and Improvements 2,740,96	6	
Equipment 1,097,46	2	
Software 114,30	2	
Trademarks 1	7	
Infrastructure 46,430,27	2	
Accumulated Depreciation/Amortization (25,187,01	1)	
		31,495,003
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds (Note 1).		708,438
Bonds issued by the State have associated costs that are paid from current available financial resources in the funds. However, these costs are deferred on the Statement of Net Position.		70,583
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of (Note 11):		
Due to Other Entities (26,49	2)	
Due to Other Entities (26,49) General Obligation and Other Bonds Payable (3,940,92)		
Unamortized Bond Premium (163,55		
Accrued Interest on Bonds (46,92		
Obligation under Lease Purchases (131,41		
Pollution Remediation (11,21		
Compensated Absences (151,73		
Claims Liability (18,31		
Contingent Liabilities (1,693,12		
Net Other Postemployment Benefit Obligation (721,39		
Net Pension Obligation (121,07		
(12 1,0)	<u> </u>	(7,026,166)
Internal service funds are used by management to charge the costs of certain activities, such as	5	
insurance and telecommunications, to individual funds. The assets and liabilities are included in governmental activities in the Statement of Net Position.		594,351
in governmental activities in the statement of Net Fosition.		337,331
Net Position of Governmental Activities	\$	30,798,464

STATE OF MISSOURI RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES IN GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2013 (In Thousands of Dollars)

Net Change in Fund Balances – Total Governmental Funds	\$ 314,590
Amounts reported for governmental activities in the Statement of Activities are different because:	
Inventories, which are recorded under the purchases method for governmental fund reporting, are reported under the consumption approach on the Statement of Activities. As a result of this change, the Increase in Reserve for Inventories on the fund statement has been reclassified as a functional expense on the government-wide statement.	(4,402)
Governmental funds report capital outlays as expenditures. In the Statement of Activities, however, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount that capital outlays of \$964,544 exceeds depreciation/amortization of \$546,637 in the current period.	417,907
The net effect of the donation of capital assets increased net position.	1,053
	,,,,,
Deferred revenues do not provide current financial resources and are not recognized as revenues until available in governmental funds.	111,795
Proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. In governmental funds, repayment of principal is an expenditure, but the repayment reduces long-term liabilities in the Combined Statement of Net Position (Note 11):	
Bonds Issued (441,690) Bond Premiums, Issuance, and Refunding Costs (23,914) Bonds Retired 669,450 Capital Leases Issued (696)	
Capital Lease Payments 9,746	212,896
Some expenses reported in the Statement of Activities do not require the use of current financial resources, and therefore are not reported as expenditures in governmental funds (Note 11): Amortization of Bond Premiums, Issuance, and Refunding Costs Decrease in Accrued Interest 7,496 Decrease in Due to Other Entities	
Decrease in Due to Other Entities 1,984	
Increase in Pollution Remediation (22) Increase in Compensated Absences (827)	
Increase in Compensated Absences (827) Increase in Contingent Liabilities (75,443)	
Increase in Claims Liability (1,427)	
Increase in Net Other Postemployment Benefit Obligation (126,637)	
Increase in Net Pension Obligation (1,978)	
	(180,974)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue and expense of	
internal service funds are reported with governmental activities.	 19,674
Change in Net Position of Governmental Activities	\$ 892,539

The **Proprietary Funds** focus on economic resources and are operated in a manner similar to private business enterprises.

Proprietary Fund Financial Statements

Major Funds

State Lottery – Accounts for proceeds from the sale of lottery tickets and all other moneys credited or transferred to this fund. A minimum of 45% of the moneys are used for prizes.

Unemployment Compensation – Accounts for contributions and payments collected under the provisions of the "Unemployment Compensation Law" to pay benefits.

Petroleum Storage Tank Insurance – Accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks.

Non-Major Funds

Non-major enterprise funds and all internal service funds are presented in our combining non-major fund financial statements as part of Supplementary Information.

Note 1 - Significant Accounting Policies

A. Financial Statements and Reporting Entity

The accompanying financial statements of the State of Missouri (primary government) and its component units have been prepared in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB).

The financial statements include the departments, agencies, boards, commissions, and other organizational units over which the State has financial accountability. GASB set forth the following criteria in Statement No. 14, The Financial Reporting Entity, for determining financial accountability: appointment of a voting majority of an organization's governing body and either: 1) the ability to impose the State's will on the organization; or 2) the organization's ability to provide specific benefits to, or impose specific burdens on, the primary government. Where the State does not appoint a voting majority of the governing body, the entity would still be included if it is fiscally dependent on the State. Statement No. 39, Determining Whether Certain Entities are Component Units, added a requirement to include all entities whose relationship with the State would make it misleading to exclude it. Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34, improves financial reporting by amending GASB Statement No. 14, The Financial Reporting Entity, and Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis - for State and Local Governments, in blending component units: 1) if there is a financial benefit or burden relationship with the primary government; 2) management of the primary government has operational responsibility for the component unit's activities; and 3) if the total outstanding debt is expected to be repaid entirely or almost entirely with the resources of the primary government.

In addition to the legislative, executive, and judicial branches, the following organizations are included in these financial statements:

Component Units (Blended):

Blended component units are legally separate entities from the State, but are so intertwined with the State that they are, for all practical purposes, the same as the State. They are reported as part of the primary government and blended into the appropriate funds. The following component units are blended because they provide services entirely or almost entirely to the primary government:

<u>Board of Fund Commissioners</u> – The Board was created by state law and is comprised of the Governor, Lieutenant Governor, Attorney General, State Auditor, State Treasurer, and the Commissioner of Administration. The Board's purpose is to issue, redeem, and cancel state general obligation bonds and perform other administrative activities related to state general obligation debt as assigned by law. Separate financial statements are not required or issued for the Board.

<u>Board of Private Investigator and Private Fire Investigator Examiners</u> – The Board was created by state law and is charged with the licensure and regulation of the practice of private investigators and private fire investigators in Missouri. The seven member board shall consist of three private investigators, two private fire investigators, and two public members, appointed by the Governor. Separate financial statements are not required for the Board.

Note 1 - Significant Accounting Policies (cont.)

<u>Board of Unemployment Fund Financing</u> – The Board was created by state law to provide a method of providing funds for the payment of unemployment benefits and maintaining an adequate fund balance in the Unemployment Compensation Fund. The Board is comprised of the Governor, Lieutenant Governor, Attorney General, the Director of the Department of Labor and Industrial Relations, and the Commissioner of Administration. Separate financial statements are not required for the Board.

<u>Coordinating Board for Early Childhood</u> - The Board was created by state law within the Missouri Children's Services Commission. The Board's purpose is to develop a comprehensive statewide long-range strategic plan for a cohesive early childhood system, and to work with public and private entities for the purpose of promoting and improving the development of Missouri's children from birth through age five. The 17 member Board is composed of representatives from the Governor's office; the following departments: Health and Senior Services, Mental Health, Social Services, and Elementary and Secondary Education; the judiciary; the Family and Community Trust Board; the Head Start Program; and nine members appointed by the Governor. Separate financial statements are not required for the Board.

<u>Missouri State Penitentiary Redevelopment Commission</u> - The Commission was established to coordinate the planning and redevelopment of the old Jefferson City Correctional Center. The ten member commission consists of three members appointed by the Jefferson City mayor, three members appointed by the Cole County Commission, and four members appointed by the Governor. Separate financial statements are not required for the Commission.

Capital Projects Funds:

Missouri Highway 63 Transportation Corporation – This is reported as a part of the Missouri Road Fund. This transportation corporation is a not-for-profit corporation organized under the Missouri Transportation Corporation Act. The corporation was formed to facilitate the construction of highway projects. When the purpose for which this corporation was formed has been complied with and all obligations of the corporation have been paid, the Board of the corporation shall, with the approval of the Missouri Highways and Transportation Commission, dissolve the corporation. Additional information may be requested from:

Missouri Department of Transportation Financial Services Division P.O. Box 270 Jefferson City, Missouri 65102

Internal Service Funds:

<u>Board of Public Buildings</u> – This is reported with the State Facility Maintenance and Operation Fund. The Board was created by state law and its governing body is made up of the Governor, the Lieutenant Governor, and the Attorney General. Its purpose is to provide state buildings by issuing revenue bonds and to supervise the operations of these facilities. All construction contracts must be approved by the Division of Facilities Management, Design and Construction, and its projects must be approved by the General Assembly. The Board can require state agencies to occupy its projects. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and pay the costs of operations.

Note 1 - Significant Accounting Policies (cont.)

<u>Conservation Employees' Insurance Plan</u> – The Plan provides health and life insurance coverage to eligible employees and retirees of the Missouri Department of Conservation. The Plan is administered by a five member board of trustees made up of three members of the Plan appointed by the Conservation Commission which consist of two Conservation employees and Division Chief, the Chief Financial Officer, and the Human Resources Division Chief. Copies of the Plan's financial statements may be requested from:

Missouri Department of Conservation P.O. Box 180 Jefferson City, Missouri 65102

<u>Transportation Self-Insurance Plan</u> - The Plan provides fleet vehicle liability, workers' compensation, and general liability insurance. The Plan is administered by the Missouri Department of Transportation. Additional information may be requested from:

Missouri Department of Transportation Financial Services Division P.O. Box 270 Jefferson City, Missouri 65102

<u>Missouri State Employee's Insurance Plan</u> - The Plan was created to provide basic life insurance to eligible members and is administered through the Missouri State Employees' Retirement System (MOSERS). Death benefits, optional life insurance, and long-term disability benefits are also provided by the Plan for certain members. Furthermore, the Plan administers the State's Deferred Compensation Plan through the MOSERS Board of Trustees. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

<u>Missouri Consolidated Health Care Plan (MCHCP)</u> – The Plan was created by state law to provide medical benefits to its members and is administered by a board of trustees. The Board consists of two members of the Senate; two members of the House; six members appointed by the Governor; the Director of the Department of Health and Senior Services; the Director of the Department of Insurance, Financial Institutions and Professional Registration; and the Commissioner of Administration. The management of MCHCP is the responsibility of the Executive Director who is appointed by the Board. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan P.O. Box 104355 832 Weathered Rock Court Jefferson City, Missouri 65110-4355

Note 1 - Significant Accounting Policies (cont.)

MoDOT and MSHP Medical and Life Insurance Plan – The Plan provides health and life insurance coverage to eligible employees, retirees, and their dependents of the Missouri Department of Transportation (MoDOT) and the Missouri State Highway Patrol (MSHP). The Plan is administered by a board of trustees consisting of four active MoDOT employees, one retired MoDOT employee appointed by the Director of MoDOT, two active MSHP employees, and one retired MSHP employee appointed by the Superintendent of MSHP. Additional information may be requested from:

Missouri Department of Transportation Financial Services Division P.O. Box 270 Jefferson City, Missouri 65102

Pension (and other employee benefit) trust funds:

Missouri State Employees' Retirement System (MOSERS) – The System was created by state law and provides retirement, survivor, disability, and life insurance to its members and is administered by a board of trustees. The Board consists of two members of the Senate, two members of the House, two members appointed by the Governor, three members elected by the System's members, the State Treasurer, and the Commissioner of Administration. The management of MOSERS is the responsibility of the Executive Director who is appointed by the Board. Copies of the System's financial statements may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System - The System provides retirement, death, and disability benefits to qualified employees of the Missouri Highways and Transportation Commission (includes employees of the Department of Transportation) and both uniformed and non-uniformed members of the State Highway Patrol. The System is administered by a board of trustees consisting of three members of the Missouri Highways and Transportation Commission, the Director of the Missouri Department of Transportation, the Superintendent of the State Highway Patrol, one member of the Senate, one member of the House, one member elected by MoDOT employees, one member elected by State Highway Patrol employees, one retired member elected by retired MoDOT employees, and one retired member elected by retired State Highway Patrol employees. Copies of the System's financial statements may be requested from:

Missouri Department of Transportation and Highway Patrol Employees' Retirement System P.O. Box 1930 Jefferson City, Missouri 65102–1930

Note 1 - Significant Accounting Policies (cont.)

Missouri Consolidated Health Care Plan (MCHCP) State Retiree Welfare Benefit Trust – The Trust was established on June 27, 2008, to provide health and welfare benefits for the exclusive benefit of current and future retired employees of the State and their dependents who meet eligibility requirements, except those covered by other State sponsored post–employment benefit plans. The Trust is administered by the MCHCP board of trustees, which also administers the benefits for the active participants of the Plan. The net position and activity related to active participants are reported in an internal service fund. Copies of the Plan's financial statements may be requested from:

Missouri Consolidated Health Care Plan P.O. Box 104355 832 Weathered Rock Court Jefferson City, Missouri 65110-4355

Missouri State Public Employees' Deferred Compensation Plan - The Missouri State Public Employees' Deferred Compensation Plan is administered by ICMA-RC and oversight of the Plan is provided by the MOSERS board of trustees. Under this Plan, employees are permitted to defer a portion of their current salary until future years. In addition, eligible employees have the opportunity to participate in the Missouri State Employees' Deferred Compensation Incentive Plan. Under this Plan, the State contributes \$25, \$30, or \$35 per month on behalf of any employee who contributes at least that amount to the Missouri State Public Employees' Deferred Compensation Plan and who has been an employee of the State for at least one year. However, due to budget constraints, the State's contribution amount was suspended in March 2010 until further notice. Copies of financial statements for both Plans may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Component Units (Discretely Presented):

Discretely presented component units are legally separate entities for which the State is financially accountable. The financial data for these entities is reported separately from the financial data of the primary government.

Note 1 - Significant Accounting Policies (cont.)

Major

<u>College and Universities</u> – The Coordinating Board for Higher Education has certain responsibilities for these institutions and they receive State support. Following are the public college and universities included in the financial statements:

Harris-Stowe State University 3026 Laclede Avenue

St. Louis, Missouri 63103

Lincoln University 207 Young Hall 820 Chestnut Street Jefferson City, Missouri 65101

Linn State Technical College 1 Technology Drive Linn, Missouri 65051

Missouri Southern State University 3950 East Newman Road Joplin, Missouri 64801-1595

University of Central Missouri 316 Administration Building Warrensburg, Missouri 64093

University of Missouri System 1000 West Nifong, Building 7, Suite 300 Columbia, Missouri 65211

Non-Major

Missouri Development Finance Board – The Board was created by state law as an independent, self-supporting, body corporate and politic to promote economic development of the State and was created within the Department of Economic Development. The Board is empowered to issue taxable, tax-exempt, and public purpose infrastructure industrial revenue bonds or notes; provide loans or loan guarantees to eligible businesses; provide loans and grants to political subdivisions to fund public infrastructure improvements; and issue tax credits against certain state income taxes in exchange for contributions made to the Board. The twelve member board is made up of the Lieutenant Governor and the Directors of the Department of Economic Development, the Department of Natural Resources, and the Department of Agriculture, who serve as ex-officio voting members, and eight members appointed by the Governor and confirmed by the Senate. Copies of the Board's financial statements may be requested from:

Missouri Development Finance Board Governor Office Building 200 Madison Street, Suite 1000 Jefferson City, Missouri 65101

Note 1 - Significant Accounting Policies (cont.)

Missouri Agricultural and Small Business Development Authority — The Authority was created by state law and is authorized to issue bonds to finance agricultural and small business development loans for property acquisitions/renovations and pollution control facilities throughout the State. If for any reason, the Authority ceases to exist, all rights and properties of the Authority will pass to the State. Its governing body consists of seven members appointed by the Governor with the advice and consent of the Senate. Copies of the Authority's financial statements may be requested from:

Missouri Agricultural and Small Business Development Authority P.O. Box 630 1616 Missouri Boulevard Jefferson City, Missouri 65102

<u>Missouri Transportation Finance Corporation</u> – The Corporation is a not-for-profit corporation organized under the Missouri Nonprofit Corporation Law. The Corporation is financed by federal highway and transit dollars, plus state and local matching funds. It is authorized to issue revenue bonds. The Corporation provides loans to assist public and private entities fund highway and transportation projects throughout the State. The Missouri Highways and Transportation Commission determines which applicants are extended loans from the Missouri Transportation Finance Corporation. Copies of the Corporation's financial statements may be requested from:

Missouri Department of Transportation Central Office, Financial Services 105 West Capitol Avenue Jefferson City, Missouri 65101

<u>Missouri Wine and Grape Board</u> – The Board was created by state law to further growth and development of the grape growing industry in Missouri and foster the expansion of the grape market for Missouri grapes. The eleven member board consists of seven members representing the grape and wine industry, food service industry, or media marketing industry. The four other members include the director of the Department of Agriculture and the presidents of the Missouri Grape Growers Association, the Missouri Vintners Association, and the Missouri Wine Marketing and Research Council. Copies of the Board's annual report may be requested from:

Missouri Wine and Grape Board P.O. Box 630 1616 Missouri Boulevard Jefferson City, Missouri 65102

Related Organizations

Related organizations are excluded from the financial reporting entity because the State's accountability does not extend beyond appointing a voting majority of the organization's board members. Related organizations of the State of Missouri include:

<u>Missouri Health and Educational Facilities Authority</u> - finances health and educational facilities.

<u>Missouri Higher Education Loan Authority</u> - provides a secondary market for loans made under the Federal Family Education Loan Program.

Note 1 - Significant Accounting Policies (cont.)

<u>Missouri Housing Development Commission</u> - finances the purchase, development or rehabilitation of affordable housing and funds housing assistance.

<u>Missouri Technology Corporation</u> - promotes the modernization of businesses through the development of science and technology applications.

<u>Missouri Public Entity Risk Management Fund</u> – provides liability protection to participating public entities, their officials, and employees.

<u>State Environmental Improvement and Energy Resources Authority</u> – finances, acquires, constructs, and equips projects to reduce, prevent, and control pollution and develop the energy resources of the State.

<u>Jackson County Sports Complex Authority</u> - responsible for construction, operation, and financing of the Jackson County Sports Complex.

<u>Kansas City Regional Sports Complex Authority</u> - responsible for the study and review of all current major sports leagues, clubs, or franchises in Kansas City.

<u>St. Charles County Convention and Sports Facility Authority</u> - responsible for planning, constructing, and managing convention and sports facilities in the St. Charles area.

Missouri Cotton Growers' Organization - organized for boll weevil eradication.

<u>KCT Intermodal Transportation Corporation</u> - organized to pay for a railroad bridge in the Blue Valley Industrial District in Kansas City.

<u>Westside Intermodal Transportation Corporation</u> - organized to pay for rail additions and improvements of the Kansas City Terminal Railway.

<u>Universal Service Board</u> - organized to ensure just, reasonable, and affordable rates for comparable essential local telecommunication services throughout the State.

<u>Interstate Commission for Adult Offender Supervision</u> – responsible for promoting public safety and protecting the rights of victims through the control and regulation of the interstate movement of adults placed under community supervision.

<u>Missouri Health Insurance Pool</u> - organized to provide health care coverage for residents who are unable to obtain individual health coverage.

<u>P-20 Council</u> - organized to create a more efficient and effective education system that more adequately prepares students for the challenges of entering the workforce.

<u>Missouri Propane Gas Commission</u> - responsible for developing comprehensive plans and programs for the prevention, control, and abatement of propane-related accidents in Missouri.

<u>Missouri Family Trust Board of Trustees</u> – provides trust services for persons with disabilities.

Note 1 - Significant Accounting Policies (cont.)

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements:

The government-wide financial statements focus on the government as a whole. The Statement of Net Position and Statement of Activities report information on all non-fiduciary activities of the primary government and its component units. Primary government activities are distinguished between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Governmental activities include governmental type funds and internal service funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services and consist of enterprise funds.

The Statement of Net Position presents the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net position.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Indirect costs, such as depreciation/amortization expense, are included in the direct expenses reported for individual functions. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are instead reported as general revenues.

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when incurred. Fiduciary funds have been excluded from the government-wide financial statements because, by definition, the resources of these funds cannot be used to support government operations. Generally, interfund transactions have also been eliminated. Some interfund transactions, such as the exchange of services, were not eliminated because doing so would mistakenly understate both expenses of the buyer and revenues of the seller.

The difference between fund assets and liabilities is reported as "Net Position" on the government-wide, proprietary, and fiduciary fund statements and "Fund Balance" on the governmental fund financial statements.

Fund Financial Statements:

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government—wide statements. For governmental and proprietary fund financial statements, the emphasis is on major individual governmental and enterprise funds, with each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds. Internal service funds are also aggregated and reported in a separate column on the proprietary fund financial statements.

Note 1 - Significant Accounting Policies (cont.)

The governmental fund financial statements are presented using the current financial resources measurement focus and modified accrual basis of accounting. With the current financial resources measurement focus, only current assets and current liabilities are included on the balance sheet. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. Operating statements of governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Material revenues susceptible to accrual include federal grants and sales and income taxes. Expenditures are recognized when the related fund liability is incurred except for the following:

- Principal and interest on general long-term debt is recorded as an expenditure when due.
- Compensated absences (accumulated vacation and compensatory time) and sick pay are recorded as expenditures when paid.
- Inventories are reported as expenditures when purchased, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method.

The proprietary, pension (and other employee benefit) trust, and private-purpose trust fund financial statements are presented using the economic resources measurement focus and accrual basis of accounting. With the economic resources measurement focus, assets and liabilities associated with the operation of these funds are included on the Statement of Net Position. Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund-type operating statements present revenues and expenses in total net position. Operating revenues and expenses in proprietary funds are classified as those activities that make up the primary ongoing operations associated with those funds. Non-operating revenues and expenses in proprietary funds are classified as those activities that are deemed incidental or unusual for those funds.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The agency fund financial statements are presented on the accrual basis of accounting.

The discretely presented component unit financial statements are presented using the economic resources measurement focus and accrual basis of accounting with the following exception in regard to the college and universities. Revenues and related expenditures in connection with the summer sessions in progress at June 30 are deferred at that date.

The State reports the following major funds categories:

<u>General Fund</u> - accounts for all current financial resources not required by law or administrative action to be accounted for in another fund. Major revenues include contributions and taxes.

<u>Public Education</u> – provides general and special education needs of the State and other related areas such as library services and student loans. Major revenues include contributions and taxes.

<u>Conservation and Environmental Protection</u> - provides for the preservation of the State's wildlife and environment. Major revenues include contributions, taxes, licenses, fees, and permits.

<u>Missouri Road Fund</u> - accounts for revenues from highway users' fees, federal reimbursements for highway projects, and bond proceeds to be used for costs of constructing and maintaining an adequate state highway system. Major revenues are from contributions.

Note 1 - Significant Accounting Policies (cont.)

<u>State Lottery</u> – accounts for proceeds from the sale of lottery tickets and all other moneys credited to this fund. A minimum of 45% of the moneys are used for prizes. Major revenues are from sales of lottery tickets.

<u>Unemployment Compensation</u> - accounts for contributions, payments, and federal loans collected under the provisions of the Unemployment Compensation Law to pay benefits. Major revenues include federal and employer contributions.

<u>Petroleum Storage Tank Insurance</u> – accounts for moneys collected from transport load fees and participating owners of petroleum storage tanks for cleanup of contamination caused by releases from petroleum storage tanks. Major revenues are from fees.

C. Basis of Presentation

The State's financial practices are based upon fund accounting concepts. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and fund balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The accompanying financial statements are structured into three categories of funds and discretely presented component units:

Primary Government:

<u>Governmental Funds</u> include the General Fund, special revenue funds, debt service funds, capital projects funds, and permanent funds. These funds account for the revenues and expenditures, capital outlay, and certain debt service of the State.

<u>Proprietary Funds</u> include enterprise funds and internal service funds. These funds account for the cost of certain services provided by the State.

<u>Fiduciary Funds</u> include pension (and other employee benefit) trust funds, private-purpose trust funds, and agency funds. These funds account for assets held by the State in a trustee capacity or as an agent for individuals, other governments, and other entities.

Discretely Presented Component Units:

<u>Major</u>

<u>College and Universities</u> account for moneys from student tuition and fees, federal and state grants, debt proceeds, gifts and contributions, state appropriations, investments, and endowments. Assets and liabilities are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Non-Major

Non-Major Component Units account for moneys from bond proceeds, loans, contributions, gifts, grants, and other revenue sources. Assets and liabilities are accounted for on the Statement of Net Position. Revenues, expenses, gains, and losses are reported on the Statement of Revenues, Expenses, and Changes in Net Position/Statement of Activities.

Note 1 - Significant Accounting Policies (cont.)

D. Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents include bank accounts, petty cash, and all investments with an original maturity of three months or less, such as certificates of deposit, money market certificates, and repurchase agreements. Cash and cash equivalents on the Proprietary Funds Statement of Cash Flows are also reported under this definition. Cash balances of most state funds are pooled and invested by the State Treasurer (see *Note 3*).

E. <u>Investments</u>

These are long-term investments with an original maturity greater than three months which are expected to be held to maturity and redeemed at face value. The majority of investments are reported in pension (and other employee benefit) trust funds, however, investments are held in all fund types. All investments are reported at fair value (see *Note 3*).

There are multiple funds that have income from investments which are directed to the General Fund. These funds consist of special revenue, enterprise, internal service, private-purpose, and agency funds.

F. Interfund Receivables/Payables

The State makes various transactions between funds or between the primary government and component units to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. These receivables at June 30 are classified as "due from other funds" or "due from primary government/component units" on the Balance Sheet and Statement of Net Position. Payables are classified as "due to other funds" or "due to primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15*). These receivables/payables are due within one year. Any receivables/payables that are due to and due from an enterprise fund are eliminated on the face of the Proprietary Funds Statement of Net Position. If any receivables/payables that remain after this elimination are both in the same activity (Governmental), they are eliminated at the Government-Wide Statement of Net Position. Interfund receivables/payables between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

G. Advances to/from Other Funds

Long-term interfund receivables are classified as "advances to other funds" or "advances to primary government/component units" on the Balance Sheet and Statement of Net Position. Long-term interfund payables are classified as "advances from other funds" or "advances from primary government/component units" on the Balance Sheet and Statement of Net Position (see *Note 15*). These receivables/payables are eliminated if both the receivable and payable are in the same activity (Governmental). Advances to/from that are between the primary government and the component units are reclassified as accounts receivable/payable at the government-wide level. Any remaining long-term interfund receivables/payables are reported as internal balances on the Government-Wide Statement of Net Position.

Note 1 - Significant Accounting Policies (cont.)

H. Inventories

Inventories in the governmental funds consist of expendable supplies held for consumption, the cost of which is recorded as an expenditure at the time of purchase, except for the Missouri Road Fund, which updates inventory perpetually under the consumption method. Inventory balances for governmental funds are shown in the nonspendable fund balance classification. Inventories in the proprietary funds consist of both expendable supplies held for consumption and the cost of goods held for resale, the cost of which is recorded as an expense as they are used. Inventories are valued at cost using various methods such as moving average; weighted average; and first-in, first-out.

I. Capital Assets

Capital assets, which include construction in progress, software in progress, infrastructure in progress, land, land improvements, permanent and temporary easements, buildings and improvements, equipment, software, trademarks, and infrastructure assets, are valued at historical cost or estimated historical cost if actual historical cost is not available. The estimate of historical cost was based on current appraised value indexed to the date of acquisition. Donated capital assets are reported at estimated fair value at the time received. Capital assets acquired through lease agreements are capitalized at the inception of the agreement (see *Notes 5 and 6*).

Infrastructure assets (including highways, bridges, streets and sidewalks, drainage systems, lighting systems, and similar items) are capitalized. Interest costs incurred during construction of capital assets are not capitalized.

The capitalization threshold for all capital assets is as follows: land improvements – \$15,000, buildings and improvements – \$15,000, software and trademarks – \$5,000, and equipment – \$1,000. No dollar threshold is set for land, easements, or infrastructure.

Capital assets are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings – 40 to 50 years, land improvements and building improvements – 15 to 20 years, temporary easements – term of easement, equipment – 2 to 5 years, software – 3 to 5 years, trademarks – 10 years, and infrastructure – 12 to 50 years. Construction in progress, software in progress, infrastructure in progress, land, and permanent easements are not depreciated/amortized.

Most works of art and historical treasures are not capitalized or depreciated/amortized. The State's non-capitalized collections include the historical artifacts at the various state museums and historical sites, monuments, and other art throughout the capitol grounds. Assets that were previously capitalized continue to be reported in the government-wide financial statements.

Component unit capital assets are stated at cost and are depreciated/amortized using the straight-line method of depreciation/amortization over the following useful lives: buildings - 40 years, land improvements and building improvements - 20 years, equipment - 5 to 15 years, and software - 3 to 5 years.

Note 1 - Significant Accounting Policies (cont.)

I. Deferred Outflow of Resources and Deferred Inflow of Resources

In addition to assets, the Statement of Net Position may report a separate section for deferred outflows of resources. Deferred outflows of resources consist of consumption of net position by the State that is applicable to a future reporting period and so will not be recognized as outflow of resources until then.

In addition to liabilities, the Statement of Net Position may report a separate section for deferred inflows of resources. Deferred inflows of resources consist of acquisition of net position by the State that is applicable to a future reporting period and so will not be recognized as inflow of resources until then.

K. Deferred/Unearned Revenues

Governmental Funds

Deferred revenues are those for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met for governmental funds, which use the modified accrual basis of accounting. Therefore, such amounts are reported within the governmental fund financial statements as receivables and offset by a deferred revenue account. These amounts include \$628,049,000 within the General Fund, \$48,636,000 within the major special revenue funds, \$24,169,000 within the Missouri Road Fund, \$7,507,000 within the non-major special revenue funds, and \$77,000 within all other non-major governmental funds which totals \$708,438,000 for governmental funds. Such amounts have been deemed to be measurable but not available. All major sources of revenue, including taxes; licenses, fees, and permits; and governmental contributions are susceptible to accrual when available within 60 days.

Deferred revenues also include amounts collected in advance of the year in which earned. The State has reported as such deferred revenues the amount of \$111,470,000 within the General Fund, \$161,000 within major special revenue funds, \$13,318,000 within the Missouri Road Fund, and \$131,000 within non-major special revenue funds which totals \$125,080,000 for governmental funds.

Proprietary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$29,012,000 within the internal service funds included in governmental activities. Total unearned revenue for enterprise funds is \$1,093,000 which includes \$516,000 from the State Lottery Fund, \$550,000 from the Petroleum Storage Tank Insurance Fund, and \$27,000 from non-major enterprise funds. These amounts are included in the business-type activities.

Fiduciary Funds

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$4,202,000 within the pension (and other employee benefits) trust funds.

Component Units

Unearned revenue amounts collected in advance of the year in which earned are reported in the amount of \$125,187,000 within the college and universities and \$1,825,000 in non-major component units which is a total of \$127,012,000 of unearned revenue for component units.

Note 1 - Significant Accounting Policies (cont.)

L. Long-Term Debt

Long-term liabilities that will be financed from governmental funds are not reported on the fund financial statements. However, the long-term liabilities are reported on the government-wide financial statements. The reconciliation between fund financial statements and government-wide financial statements includes a line item for the long-term liabilities of governmental funds. These long-term liabilities include the following:

- 1. Due to Other Entities includes outstanding principal on advances from other governments and contractual obligations to other governments. The expenditures are recorded in the appropriate governmental funds when the liability is paid (see *Note 11*).
- 2. Outstanding principal for general obligation debt. The expenditure for payment of principal and interest for general obligation debt is recorded in the debt service funds when paid (see *Note 12*).
- 3. Outstanding principal for bonds issued by the Board of Public Buildings, bonds issued by the Health and Educational Facilities Authority, the Regional Convention and Sports Complex Authority, and the State Road Bonds issued by the Missouri Highways and Transportation Commission. The expenditure for payment of principal and interest for these bonds is recorded in the appropriate governmental funds when paid (see *Note 12*).
- 4. Bond premiums are deferred and amortized over the life of the bonds using the effective interest rate method in the government-wide financial statements. Bonds payable are reported net of the applicable bond premium.
 - In the fund financial statements, governmental fund types recognize bond premiums during the current period. Premiums on debt issuances are reported as other financing sources (see *Note 11*).
- 5. Obligations under lease/purchases reported include the present value of net minimum future lease payments, which will be paid from the General Fund, various special revenue funds, proprietary funds, and the Missouri Road Fund (see *Notes 6 and 11*).
- 6. Pollution remediation liabilities are measured based on the pollution remediation outlays expected to be incurred to settle those liabilities. These liabilities include all remediation work that the State expects to perform, including work expected to be performed for other responsible parties or potentially responsible parties, whether or not the State is required to do that work. For goods or services used for pollution remediation activities, amounts that are normally expected to be liquidated with expendable available financial resources are recognized as liabilities upon receipt of those goods and services (see *Note 11 and 21*).
- 7. Compensated absences include accumulated unpaid vacation and compensatory time accruals and related employer payroll taxes. These amounts are not accrued in the governmental funds but are recorded as expenditures when paid (see *Note 11*).

Vacation leave is accumulated at a rate of 10 to 14 hours per month depending on the number of years of employment. Accumulated vacation leave cannot exceed twice the number of vacation hours earned annually. Compensatory time is accumulated as earned by an individual employee.

Sick leave is accumulated at a rate of 10 hours per month with no limit to the amount which can be accumulated. Accumulated sick leave is not paid upon employee termination and does not represent a liability of the State.

Note 1 - Significant Accounting Policies (cont.)

- 8. Claims and contingent liabilities include estimates of the risk of loss related to tort liability, general liability, motor vehicle liability, contractor liability, and injuries to employees. These liabilities are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Expenditures are recorded in the fund from which the liability is paid (see *Notes 11, 20, and 22*).
- 9. The State provides postemployment health care and life insurance benefits to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT and MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. The annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer (see *Note 8*).
- 10. The State has two major retirement systems which cover substantially all State employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The annual required contribution (ARC) was determined as a part of an actuarial valuation of the Systems using the entry age normal actuarial cost method (see *Note 7*).

Long-term liabilities of all proprietary, pension (and other employee benefit) trust, and private-purpose trust funds are accounted for in the respective funds.

M. Net Position

Net Position is reported in three categories:

<u>Net Investment in Capital Assets</u> – An account used to segregate the portion of net position attributable to capital assets and related debt. It consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances of bonds, notes and other debt that are attributed to acquisition, construction, or improvement of those assets.

<u>Restricted Net Position</u> - An account used to segregate the portion of net position that have constraints on their use, which are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through enabling legislation.

Enabling legislation authorizes the State to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. At June 30, 2013, net position restricted by enabling legislation equaled \$543,156,000 for governmental activities.

<u>Unrestricted Net Position</u> – An account used to segregate the portion of net position that does not meet the definition of the two preceding categories.

When both restricted and unrestricted resources are available for use, generally the State uses restricted resources first, then unrestricted resources as they are needed. However, there may be instances in which restricted funds may only be spent in proportion to unrestricted funds spent.

Note 1 - Significant Accounting Policies (cont.)

N. Revenues

The revenues of the General Fund include federal grants and contributions of \$9,354,379,000. Revenues for all funds are reported net of refunds of \$2,081,033,000.

O. Interfund Transactions

During the fiscal year the State incurs various transactions between funds, including expenditures and transfers of resources to distribute interest earnings, finance operations, provide services, service debt, and acquire capital assets. Interfund transactions basically consist of these three types:

- Transactions that would be treated as revenues or expenditures/expenses, if they involved
 organizations external to the State, are similarly treated when involving other funds of the
 State. Major transactions that fall into this category include payments to internal service
 funds from other funds for services rendered and to agency funds for contributions for
 employee benefits.
- 2. Transactions that reimburse another fund for an expense reduce the expenses of the fund that is being reimbursed and increase the expenses for the fund doing the reimbursement. Therefore, they are not shown on the face of the statements.
- 3. Operating subsidies and transfers from funds receiving revenues to funds through which the resources are to be expended are classified as transfers (see *Note 16*). These transactions are eliminated on the face of the financial statements if the transfer in and transfer out are either both in governmental funds or both in enterprise funds. Of the remaining transfers, any transfers in and transfers out that are within the same activity (Governmental) are eliminated at the Government-Wide Statement of Activities.

P. Expenditures and Expenses

Expenditures and expenses are reported net of revenue over collections of \$1,355,577,000 and \$835,000, respectively. Expenditures and expenses are reported net of overpayments to vendors, individuals, school districts, and for cost reimbursements of \$723,412,000 and \$1,209,000, respectively.

Q. Property Taxes

Presently there is a state property tax of three cents on each hundred dollars assessed valuation on all real estate and personal property. The tax collected is deposited into the Blind Pension Fund, which is a component of social assistance.

The property taxes in Missouri are levied by October 31 of each year on assessed valuation as of January 1 of that year. Property taxes are due and payable by December 31 and penalties on unpaid taxes are imposed after that date. Assessed values are established by each county assessor's office and are calculated as a percent of market value except for agricultural land which is calculated on productive capability. The percentage for real property varies according to use: residential at 19%, commercial at 32%, and agricultural at 12%. Personal property is assessed according to type with the majority at 33 1/3% of market value.

Note 2 - Reporting Changes and Classifications

The State of Missouri implemented the following new accounting standard issued by the Governmental Accounting Standards Board (GASB) for the fiscal year ending June 30, 2013:

- GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*, which establishes recognition, measurement, and disclosure requirements for service concession arrangements for both transferors and governmental operators. This statement affects the disclosure found in *Note 5 Capital Assets* in the State's CAFR.
- GASB Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statement No. 14, The Financial Reporting Entity, and Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments, which amends accounting and financial reporting standards for including, presenting, and disclosing information about governmental component units, including equity interests. The implementation of this statement did not have an impact on the financial statements.
- GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, which incorporates deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The implementation of this statement is reflected in the accrual based financial statements.

The State of Missouri has reclassified two funds for the fiscal year ending June 30, 2013. The Show-Me Heroes Fund was reclassified from a general revenue fund to a federal fund as this program is intended to be funded through federal workforce funds. The State Land Survey Program Fund was reclassified from a general revenue fund to a special revenue fund due to this fund being comprised of fees collected for the sole purpose of supporting the Department of Natural Resources land survey activities.

Note 3 - Deposits and Investments

The State Treasurer maintains a cash and short-term investment pool that is used by substantially all state funds of the primary government. These funds do not include accrued interest. Certain organizational units are authorized to administer assets designated to their organization in a manner similar to the deposit and investment activities of the State as a whole. Summarized on the following page is the portfolio that represents the "Cash and Cash Equivalents," "Investments," "Restricted Assets – Cash and Cash Equivalents," and "Restricted Assets – Investments" as reported at June 30, 2013.

A. Deposits

The State minimizes custodial credit risk by restrictions set forth in state law and stipulations in the State Treasurer's Office Investment Policy. Custodial credit risk is risk that, in the event of the failure of a depository financial institution, the State will not be able to recover deposits or will not be able to recover collateralized securities that are in the possession of an outside party. Statutes restrict the State Treasurer to deposit funds in financial institutions that are physically located in Missouri, which are selected based on financial stability and community involvement. The financial institution's loan to deposit ratio must exceed 50% at the time of deposit and deposits must be collateralized at least 100% with approved securities. Deposits must have a maturity of five years or less and earn interest at varying rates based on State law.

Note 3 - Deposits and Investments (cont.)

Primary Government

At June 30, 2013, the bank balance of the primary government's deposits was \$902,284,000. Of the bank amount, \$12,688,000 was held by the U.S. Treasury and the remainder was not exposed to custodial credit risk.

Fiduciary

At June 30, 2013, the bank balance of the deposits of the fiduciary funds was \$68,931,000. None of these deposits were exposed to custodial credit risk.

Component Units

Information on the component units deposits is available within their individual financial statements.

B. Investments

Statutes authorize the State Treasurer to invest in U.S. Treasury or Agency securities maturing within five years, commercial paper and banker's acceptances maturing within 180 days, or in repurchase agreements maturing within 90 days secured by U.S. Treasury or Agency securities of any maturity. There have been no violations of these investment restrictions during fiscal year 2013.

The State Treasurer minimizes credit risk, the risk of loss due to the failure of the security issuer or backer, by establishing a pre-approved list of financial institutions and companies that will be used to purchase commercial paper. The State Treasurer also conducts regular credit monitoring, pre-qualifies the financial institutions and brokers/dealers with which the Treasurer's Office will do business for broker services and repurchase agreements, and diversifies the portfolio to reduce potential losses on individual securities.

Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the State will not be able to recover the value of their investment or collateral securities that are in the possession of an outside party. The State Treasurer minimizes custodial credit risk by requiring that all securities be held in the State's name at the State's custodial bank, Wells Fargo Bank, National Association, or at one of the State Treasurer approved collateral custodians.

Primary Government

At June 30, 2013, the reported amount of the primary government's investments was \$3,364,242,000. Of this amount, \$56,244,000 was exposed to custodial credit risk because it was uninsured and unregistered with securities held by the State's counterparty.

<u>Fiduciary</u>

At June 30, 2013, the reported amount of the fiduciary funds investments was \$12,038,115,000.

Note 3 - Deposits and Investments (cont.)

Component Units

Information on the component units investments is available within their individual financial statements.

The following table (in thousands of dollars) provides information about the interest rate risks associated with the State's investments. Statutes also authorize investment of funds not held by the State Treasurer. The externally-held internal service funds, the agency and pension (and other employee benefit) trust funds, and the component units, in accordance with statutory authority, invest primarily in U.S. government securities, repurchase agreements, preferred and common stocks, bonds, real estate, fixed income securities, mutual funds, and investments in limited partnerships. The investments include certain short-term cash equivalents, various long-term items, and restricted assets by maturity, or in certain instances, a weighted average maturity in years. The State Treasurer minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 2.5 years, and holding at least 25% of the portfolio's total market value in securities with a maturity of 12 months or less.

The State minimizes concentration of credit risk, the risk attributed to the magnitude of an investment in a single issuer. State statute prohibits the State Treasurer from investing more than 10 percent of the total time deposits with any single financial institution. State investment policy limits investment in commercial paper to 5 percent of the total portfolio per issuer and no more than 15 percent of the total portfolio may invested in repurchase agreements with a single counterparty. There are no restrictions in the amount that can be invested in U.S. securities. During fiscal year 2013, the State did not have any instances of noncompliance with these requirements and policies.

Note 3 - Deposits and Investments (cont.)

The State Treasurer requires investments in commercial paper and bankers' acceptances to have the highest letter and numerical ranking (such as A1/P1) as rated by at least two Nationally Recognized Statistical Rating Organizations (NRSROs). The Treasurer does not have any additional policies regarding credit ratings of investments. The following table (in thousands of dollars) provides information on the credit ratings associated with the State's investments in debt securities.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The State Treasurer's Office does not have any deposits or investments in foreign currency and therefore does not have a policy regarding foreign currency risk. The Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System do have foreign currency deposits and investments which may be used for hedging purposes. The following table (in thousands of dollars) provides information on deposits and investments held in various foreign currencies, which are stated in U.S. dollars.

Note 3 - Deposits and Investments (cont.)

C. Securities Lending Program

State Treasurer's Office:

The Missouri State Treasurer's Office participates in a securities lending program to augment investment income. Authority to participate rests in Section 30.260.5, RSMo. As of December 2011, Citibank, National Association, began acting as the State Treasurer's custodial bank and securities lending agent.

Collateral may be in the form of cash, securities issued or guaranteed by the U.S. government or its agencies, or bank letters of credit or equivalent obligation if pre-approved by the State Treasurer's Office. Collateral must be provided in the amount of 102% of the then market value of the loaned securities and accrued interest, if any. The maximum duration gap between loans and investments shall be 15 days. The maximum life of term loans shall be 90 days. The Custodian provides for full indemnification to the State Treasurer's Office for any losses that might occur in the program due to borrower default, insolvency, or failure to return loaned securities.

At June 30, 2013, the State Treasurer's Office had an aggregate fair value of securities lent of \$221,928,000 and an aggregate fair value of collateral received of \$221,928,000.

Missouri State Employees' Retirement System:

The Missouri State Employees' Retirement System's (MOSERS) board of trustees' investment policies permit the pension trust funds to participate in a securities lending program. Certain securities of the pension trust funds are loaned to participating brokers who provide collateral in the form of cash, U.S. Treasury or government agency securities, or letters of credit issued by approved banks. Collateral must be provided in the amount of 102% of market value for domestic loans and 105% of market value for international loans. MOSERS does not have the authority to pledge or sell collateral securities without borrower default. On June 30, 2013, MOSERS had no credit risk exposure to borrowers because the collateral amounts received exceeded amounts out on loan.

Deutsche Bank AG, New York Branch served as the agent for the fixed income, domestic equity, and international equity securities lending programs. MOSERS reduces credit risk by allowing Deutsche Bank to lend these securities to a diverse group of dealers on behalf of MOSERS. Deutsche Bank provides indemnification against dealer default.

Daily monitoring of securities that are on loan ensure proper collateralization levels and mitigate counterparty risk. The majority of the security loans are open loans and can be terminated on demand by either MOSERS or the borrower. Cash collateral is invested in short-term investment funds, managed by Deutsche Bank. On June 30, 2013, the cash collateral fund had a market value of \$461,767,000 and a weighted average maturity of 1 day. At June 30, 2013 and June 30, 2012, MOSERS had earned \$1,021,000 and \$1,537,000, respectively, on the securities lending program.

Note 3 - Deposits and Investments (cont.)

Missouri Department of Transportation and Highway Patrol Employees' Retirement System:

In accordance with the investment policies set by the board of trustees, the Missouri Department of Transportation and Highway Patrol Employees' Retirement System (the System), lends its securities to broker-dealers and banks pursuant to a form of loan agreement. The System's custodial bank is authorized to lend available securities to approved broker-dealers and banks subject to the receipt of acceptable collateral.

During the fiscal year, the System lent securities and received cash, securities insured or guaranteed by the U.S. government or its agencies, and irrevocable bank letters of credit as collateral. The System cannot pledge or sell non-cash collateral unless a borrower defaults. Borrowers were required to deliver collateral for each loan equal to: 1) in the case of loaned securities denominated in dollars or whose primary trading market was located in the United States, 102% of the market value of the loaned securities plus any accrued interest; and 2) in the case of loaned securities not denominated in U.S. dollars or whose primary trading market was not located in the United States, 105% of the market value of the loaned securities plus any accrued interest.

The System did not impose any restrictions during the fiscal year on the amount of the loans that the custodial bank made on its behalf. There were no known failures by any borrowers to return loaned securities or pay distributions thereon during the year.

The System and borrowers maintained the right to terminate all securities lending transactions on demand. At June 30, 2013, the cash collateral fund had a market value of \$92,328,000.

At June 30, 2013 and June 30, 2012, the System had earned \$175,000 and \$210,000, respectively, on the securities lending program.

Component Units:

Information on the component units securities lending program is available within their individual financial statements.

D. <u>Derivatives</u>

Missouri State Employees' Retirement System (MOSERS), through its external investment managers, has an investment policy which holds investments in futures contracts, swap contracts, and forward foreign currency exchange contracts. MOSERS does not anticipate additional significant market risk from the swap arrangements. The forward foreign currency exchange contracts are used primarily to hedge against changes in exchange rates related to foreign equities. MOSERS could be exposed to risk if the counterparties to the contracts are unable to meet the terms of the contracts. MOSERS anticipates that the counterparties will be able to satisfy their obligation as credit evaluations and credit limits are monitored by the investment managers. MOSERS also invests in mortgage-backed securities to diversify the portfolio and increase the return while minimizing the extent of risk. At June 30, 2013, MOSERS Foreign Currency Forward Contracts had a pending receivable of \$124,558,000 and a pending payable of \$124,369,000 resulting in a final asset of \$189,000.

(60.000)

Note 3 - Deposits and Investments (cont.)

The following table (in thousands of dollars) summarizes the various contracts in MOSERS portfolio as of June 30, 2013. The investments are reported at fair value and are included on the Statement of Fiduciary Net Position of the pension (and other employee benefit) trust funds.

Futures Contracts:

Notional Amount	Exposure				
\$ 1,800,000	\$	3,000			
Swaps:	_				
	Counterparty				
Notional Amount	Exposure				

Component Units:

\$ 2.689.000

Information on the component units derivatives is available within their individual financial statements.

Note 4 - Governmental Fund Balance

A. Governmental Fund Balance Classifications

The State's fund balances are classified as:

<u>Nonspendable</u> - Amounts that are not expected to be converted to cash or amounts that are legally or contractually required to be maintained intact.

<u>Restricted</u> - Amounts that are restricted for specific purpose due to constraints that are externally imposed by creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - Amounts that can only be used for specific purposes pursuant to constraints imposed by a formal action of the legislature.

<u>Assigned</u> - Amounts that are constrained by the legislature's intent to be used for a specific purpose, but do not meet the criteria for restricted or committed.

<u>Unassigned</u> - Amounts that do not meet the criteria of any of the classifications listed above.

Note 4 - Governmental Fund Balance (cont.)

Fund Balance Classifications by Purpose - In the basic financial statements, the fund balance classifications are presented in the aggregate. The following displays the fund balances by major purpose (in thousands of dollars):

	Nonspendable		R	Restricted		Committed		Assigned

Natural and Economic Resources								98
Human Services								2
Total	\$	44,038	\$		\$		\$	100

B. Negative Fund Balance

A negative fund balance is prohibited in all fund balance classifications except Unassigned. When a negative fund balance exists, the shortfall would be covered by the next fund balance classification for that specific purpose.

C. Budget Reserve Fund

The Budget Reserve Fund is established in Article IV, Section 27(a) of the Missouri Constitution. The Commissioner of Administration may transfer amounts from the Budget Reserve Fund to any other fund when necessary to meet the cash requirements of the State. However, the Budget Reserve Fund must be paid back with interest prior to May 16th of the fiscal year in which the transfer was made.

Budget stabilization expenditures may occur in a fiscal year in which the governor reduces the expenditures of the State or any of its agencies below their appropriation or in which there is a budget need due to a natural disaster as proclaimed by the governor to be an emergency. An appropriation from the Budget Reserve Fund may be granted by a two-thirds vote of the members elected to each house. The maximum amount which may be appropriated at any one time for budget stabilization purposes is one-half the sum of the balance of the Budget Reserve Fund and any amounts appropriated or otherwise owed to the fund, less all amounts owed to the fund for budget stabilization purposes but not yet appropriated for repayment to the fund. One-third of the amount expended or transferred from the Budget Reserve Fund for budget stabilization purposes plus interest shall stand appropriated to the Budget Reserve Fund during each of the next three fiscal years from the fund which received the budget stabilization appropriation. The balance of the Budget Reserve Fund at June 30, 2013, was \$501,322,000.

Note 5 - Capital Assets

Capital asset activity for the year ended June 30, 2013, was as follows (in thousands of dollars):

Note 6 - Leases

Capital

The State has entered into various agreements to lease land, buildings, and equipment. FASB Statement No. 13, *Accounting for Leases,* requires a lease that transfers substantially all of the benefits and risks of ownership to the lessee to be accounted for as the acquisition of a capital asset and the incurrence of an obligation by the lessee (a capital lease).

Capital leases for the internal service funds, enterprise funds, and college and universities are reported as a long-term obligation in those funds along with the related assets. Capital leases and the related assets are not reported on the fund financial statements of governmental type funds. However, the capital leases and related assets of governmental funds are included on the government-wide financial statements and they are shown on the reconciliation between fund financial statements and government-wide statements.

Following is a summary of the future minimum lease payments for capital leases (in thousands of dollars):

Fiscal Year Ending June 30	Go	vernmental Funds	nternal Service Funds	iterprise Funds	College and niversities
2014	\$	8,553	\$ 5,411	\$ 72	\$ 5,908
2015		8,528	5,423	67	5,908
2016		7,612	5,169	67	5,902
2017		7,127	4,299	67	5,821
2018		6,523	1,551	17	5,814
2019-2023		21,532			20,861
2024-2027		152			7,821
Total Minimum Lease Payments Less Amount Representing		60,027	 21,853	 290	58,035
Interest Present Value of Net		(5,519)	 (476)	 (6)	 (11,883)
Minimum Lease Payments	\$	54,508	\$ 21,377	\$ 284	\$ 46,152

The State has entered into a lease with the Missouri Development Finance Board. The State's obligation under the lease does not constitute a general obligation or other indebtedness of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the Leasehold Revenue Bonds issued by the Board. In November 2005, the Board issued \$28,995,000 of Leasehold Revenue Bonds Series 2005 for the purpose of purchasing buildings in Florissant, St. Louis, and Jennings. In May 2006, the Board issued \$9,865,000 of Leasehold Revenue Bonds Series 2006 for the purpose of purchasing one building in St. Louis. In June 2013, the Board issued \$21,820,000 of Leasehold Revenue Refunding Bonds Series A 2013 and \$7,450,000 of Leasehold Revenue Refunding Bonds Series B 2013 for the purpose of refunding \$20,805,000 of Leasehold Revenue Bonds Series 2005 and \$7,100,000 of Leasehold Revenue Bonds Series 2006, respectively. The payments on these leases are subject to annual appropriation by the State legislature.

Note 6 - Leases (cont.)

Following is a summary of the future minimum lease payments to pay interest and principal of the Leasehold Revenue Bonds (in thousands of dollars):

Fiscal Year Ending June 30	Internal Service Funds				
2014	\$	2,431			
2015		2,434			
2016		2,427			
2017		2,417			
2018		2,418			
2019-2023		12,065			
2024-2028		12,038			
2029-2031		7,217			
Total Minimum Lease Payments		43,447			
Less Amount Representing Interest		(10,452)			
Present Value of Net					
Minimum Lease Payments	\$	32,995			

Series A 2005 Refunding Certificates of Participation dated March 1, 2005, in the amount of \$120,490,000 refunded \$13,945,000 of Missouri Public Facilities Corporation Certificates of Participation (Acute Care Psychiatric Hospital Project) Series A 1994, \$13,400,000 of Missouri PRC Corporation Certificates of Participation (Psychiatric Rehabilitation Center Project) Series A 1995, \$9,915,000 of Northwest Missouri Public Facilities Corporation Certificates of Participation (Northwest Missouri Psychiatric Rehabilitation Center Project) Series B 1995, and \$83,480,000 of Missouri Public Facilities Corporation II Certificates of Participation (Bonne Terre Prison Project) Series A 1999. The State issued Refunding Certificates of Participation Series A 2011 dated June 7, 2011, in the amount of \$76,910,000. The Refunding Certificates of Participation refunded \$76,065,000 of Series A 2005 Refunding Certificates of Participation.

The State's obligation under these leases does not constitute a general obligation or other indebtedness of the State. The certificates of participation represent proportionate ownership interests of the certificate holders in the lease agreement. The certificates do not constitute a pledge of the full faith and credit of the State. Payments under the lease agreement have been structured in amounts sufficient to pay principal and interest on the certificate, and are subject to annual appropriation by the State legislature.

Note 6 - Leases (cont.)

Following is a summary of the future minimum lease payments for the Certificates of Participation (in thousands of dollars):

Fiscal Year Ending June 30			
2014	\$	12,984	
2015		13,666	
2016		13,666	
2017		13,666	
2018		13,665	
2019		13,669	
Total Minimum Lease Payments		81,316	
Less Amount Representing Interest		(4,406)	
Present Value of Net			
Minimum Lease Payments	\$	76,910	

Assets acquired through these capital lease agreements are recorded as capital assets at the lower of the present value of the minimum lease payments or the fair value at the time of acquisition. The following is the value of the property under capital lease by asset category as of June 30, 2013 (in thousands of dollars):

	Go	vernmental Funds	nternal Service Funds	erprise unds	ollege and niversities
Buildings Equipment	\$	223,133 4,501	\$ 37,444 26,217	\$ 510	\$ 50,091 12,146
	\$	227,634	\$ 63,661	\$ 510	\$ 62,237

Operating

The State has entered into various operating leases for land, buildings, and equipment. Most of these leases are classified as operating because the lease period is one year with multiple renewal options. Future minimum commitments due under operating leases as of June 30, 2013, were as follows (in thousands of dollars):

Fiscal Year Ending June 30	Governmental Funds					mponent Units
2014	\$	37,781	\$	3,937	\$	8,078
2015		1,126		3,764		4,582
2016		1,011		49		3,549
2017		774				2,591
2018		614				472
2019–2023		1,352				
	_		_		_	
Total Minimum Commitments	\$	42,658	\$	7,750	\$	19,272

Expenditures for rent under operating leases for the years ended June 30, 2013 and June 30, 2012 were \$27,232,000 and \$54,042,000, respectively.

Note 6 - Leases (cont.)

Rental Revenue

The State leases certain state owned facilities to entities outside the State. These lessor arrangements are generally long-term commitments which either generate revenue from otherwise idle property or better serve Missouri's citizens by providing convenient access to products and services. The total asset value of the leased facilities is \$3.5 million for primary government and \$111.8 million for component units. The Department of Natural Resources (DNR) has \$9,000 in income from easements on DNR property. This income will be received in perpetuity. The contract conditions and amount for each individual easement can change with the sale of the property requiring the easement. New contracts will be negotiated with new property owners. Future minimum receivables, payable from lessor arrangements as of June 30, 2013, were as follows (in thousands of dollars):

Fiscal Year		imary	Co	mponent
Ending June 30	Gove	ernment		Units
2014	\$	186	\$	4,131
2015				3,759

2017				3,570
2018				3,551
2019-2023				15,031
2024-2028				14,548
2029-2033				14,505
2034-2038				14,847
2039-2043				11,614
2044-2048				4,866
2049-2053				1,550
2054-2058				1,550
2059-2063				1,445
2064-2068				612
2069-2073				500
2074-2078				500
2079-2083				500
2084-2088				450
Total Minimum Receivables	\$	186	\$	101,242

Note 7 - Retirement Systems

The State has two major retirement systems which cover substantially all state employees. These systems are Missouri State Employees' Retirement System (MOSERS) and Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS). The University of Missouri's Retirement Plan is included because the University is a component unit of the State. The Public School Retirement System of Missouri is included in this note disclosure as the State contributes to it.

Plan Descriptions

The Missouri State Employees' Plan (MSEP) and the Judicial Plan are single-employer defined benefit public employees' retirement plans administered by MOSERS. The Plans are administered in accordance with Sections 104.010 and 104.312–104.1215, and 476.445–476.690, RSMo, respectively.

Note 7 - Retirement Systems (cont.)

The MSEP has three benefit structures known as MSEP (closed plan), MSEP 2000, and MSEP 2011. The MSEP covers all full-time employees hired before July 1, 2000, who are not covered under another state-sponsored retirement plan. MSEP 2000 covers all full-time employees hired on or after July 1, 2000 and before January 2011. MSEP 2011 covers all full-time employees first hired on or after January 1, 2011. Members of the closed plan have the option at retirement to choose between the benefit structure of the MSEP or MSEP 2000.

The Judicial Plan covers eligible members appointed/elected before January 1, 2011. The Judicial Plan 2011 covers eligible members appointed/elected for the first time on or after January 1, 2011.

MOSERS provides retirement, survivor, and disability benefits to its members. Employees covered by the MSEP and the MSEP 2000 plans are fully vested after 5 years of creditable service (4 years for elected officials and either 4 or 6 years for legislators). Employees covered by the MSEP 2011 plan are fully vested after 10 years of creditable service. The retirement eligibility requirements are as follows:

MSEP

Age 65 and active with 4 years of service
Age 65 with 5 years of service
Age 60 with 15 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 55 with
at least 10 years of service with
reduced benefits.

MSEP 2000

Age 62 with 5 years of service
Age 48 with age and service equaling 80
or more (Rule of 80)
Employees may retire early at age 57 with
at least 5 years of service with
reduced benefits.

MSEP 2011

Age 67 with 10 years of service
Age 55 with age and service equaling 90
or more (Rule of 90)
Employees may retire early at age 62 with
at least 10 years of service with
reduced benefits.

Judicial Plan

Age 62 with 12 years of service
Age 60 with 15 years of service
Age 55 with 20 years of service
Employees may retire early at age 62 with less
than 12 years of service or age 60 with less
than 15 years of service with a reduced
benefit that is based upon years of service
relative to 12 or 15 years.

Judicial Plan 2011

Age 67 with 12 years of service
Age 62 with 20 years of service
Employees may retire early at age 67 with less
than 12 years of service with reduced
benefits or age 62 with less than 20 years
of service with a reduced benefit based on
years of service.

For members hired prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the percentage increase in the average Consumer Price Index (CPI) from one year to the next, with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members hired on or after August 28, 1997, COLAs are provided annually based on 80% of the percentage increase in the average CPI from one year to the next, up to a maximum rate of 5%. Qualified, terminated-vested members of MSEP and the Judicial Plan may make a one-time election to receive the present value of their benefit in a lump sum payment. To qualify, a member must have terminated with at least 5, but less than 10 years of service, be less than age 60, and have a benefit present value of less than \$10,000.

Note 7 - Retirement Systems (cont.)

The Missouri Department of Transportation and Highway Patrol Employees' Retirement System (MPERS) is a single-employer defined benefit public employees' retirement system administered in accordance with Sections 104.010–104.1093, RSMo.

MPERS membership is composed of qualified employees of the Missouri Department of Transportation, uniformed and non-uniformed members of the Missouri State Highway Patrol, and MPERS staff.

MPERS provides retirement, survivor, and disability benefits to its members. The MPERS has three benefit structures known as the Closed Plan, the Year 2000 Plan, and the Year 2000 Plan–2011 Tier. Generally, the Closed Plan covers employees hired before July 1, 2000. The Year 2000 Plan generally covers employees hired on or after July 1, 2000 and before January 2011. The Year 2000 Plan–2011 Tier covers employees hired on or after January 1, 2011. Employees covered by the Closed Plan and the Year 2000 Plan are fully vested after 5 years of creditable service. Employees covered by the 2011 Tier are fully vested after 10 years of creditable service.

The retirement eligibility requirements are as follows:

Closed Plan

MoDOT and non-uniformed patrol members:

Age 65 and active with 4 or more years of service

Age 65 with 5 or more years of service

Age 60 with 15 or more years of service

Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 55 and active with 4 or more years of service

Age 55 with 5 or more years of service Age 48 with sum of age and service

equaling 80 or more (Rule of 80) Mandatory retirement at age 60

All non-uniformed members may retire early with reduced benefits at age 55 with at least 10 years of service.

For members employed prior to August 28, 1997, cost of living adjustments (COLAs) are provided annually based on 80% of the change in the Consumer Price Index (CPI) with a minimum rate of 4% and a maximum rate of 5%, until the cumulative amount of COLAs equals 65% of the original benefit, thereafter the 4% minimum rate is eliminated. For members employed on or after August 28, 1997, COLAs are provided annually based on 80% of the increase in the CPI up to a maximum rate of 5%.

Year 2000 Plan

MoDOT and non-uniformed patrol members:

Age 62 with 5 or more years of service Age 48 with sum of age and service equaling 80 or more (Rule of 80)

Uniformed patrol members:

Age 48 with sum of age and service equaling 80 or more (Rule of 80) Mandatory retirement at age 60 with 5 or more years of service

All members may retire early with reduced benefits at age 57 with at least 5 years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Year 2000 Plan-2011 Tier

MoDOT and non-uniformed patrol members:

Age 67 with 10 or more years of service Age 55 with sum of age and service equaling 90 or more (Rule of 90)

Uniformed patrol members:

Age 55 and active with 10 or more years of service

Mandatory retirement at age 60 with no minimum service amount

Note 7 - Retirement Systems (cont.)

Active MoDOT and non-uniformed patrol members may retire early with reduced benefits at age 62 with at least 10 years of service. Terminated and vested uniformed patrol members may retire at age 67 with 10 or more years of service. COLAs are provided annually based on 80% of the change in the CPI up to a maximum rate of 5%.

Copies of financial reports issued by MOSERS and MPERS may be requested from:

Missouri State Employees' Retirement System P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri Department of Transportation and Highway Patrol Employees' Retirement System P.O. Box 1930 Jefferson City, Missouri 65102–1930

Funding Policy

MOSERS administers plans which cover substantially all State of Missouri employees. The State of Missouri is obligated by state law to make all required contributions to the MSEP (closed plan), MSEP 2000, MSEP 2011, and Judicial Plans. Beginning January 1, 2011, employee contributions of 4% of gross pay are required for those covered by the MSEP 2011 and Judicial Plan 2011. The actuarially determined contributions are expressed as a level percentage of covered payroll. Current year actuarially determined contribution rates for the MSEP and the Judicial Plan are 14.45% and 56.92%, respectively. Actual contribution rates are the same as the actuarially determined rates.

The State of Missouri makes required contributions to MPERS. Beginning January 1, 2011, employee contributions of 4% of gross pay are required for those covered by the Year 2000 Plan-2011 Tier. Current year calculated contribution rates are 55.03% for uniformed members of the Highway Patrol and 50.92% for non-uniformed members of the Highway Patrol and employees of the Missouri Department of Transportation. Actual contribution rates are the same as the actuarially determined rates.

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

	 MSEP Judicial Plan		 MPERS	
Annual required contribution Interest on net pension obligation Actuarial adjustment to annual	\$ 274,655 5,642	\$	28,331 3,886	\$ 170,836
required contribution	 (4,471)		(3,079)	
Annual pension cost	 275,826		29,138	 170,836
Contributions made	 (274,655)		(28,331)	 (170,836)
Increase in net pension obligation Net pension obligation, beginning	1,171		807

UAAL as a Percentage of Covered Payrol	I	161.6%		665.8%	584.7%

Actuarial Methods and Assumptions

The annual required contribution for MOSERS for the current year was determined as part of an actuarial valuation of the Systems as of June 30, 2011, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MOSERS include: a) rate of return on the investment of present and future assets of 8.5% per year compounded annually, b) projected salary increases of 4.0% per year annually, attributable to inflation, c) additional projected salary increases ranging from 0.3% to 3.5% per year for MSEP and 0% to 1.6% for the Judicial Plan, depending on age, attributable to seniority and/or merit, and d) the assumption that benefits will increase 4.0% per year after retirement.

Note 7 - Retirement Systems (cont.)

The actuarial valuation of the System dated June 30, 2013, will set the required contribution rates for the fiscal year ending June 30, 2015. The actuarial value of assets is based on a method that fully recognizes expected investment return and averages unanticipated market return over a 3-year period for MSEP and a 5-year period for the Judicial Plan. The unfunded actuarial accrued liabilities are amortized on a closed basis for MSEP and an open basis for the Judicial Plan.

The annual required contribution for MPERS for the current fiscal year was determined as part of an actuarial valuation as of June 30, 2011, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation for MPERS include: a) rate of return on the investment of 8.25% per year compounded annually, and b) projected wage inflation rate of 3.75%.

The actuarial valuation of MPERS dated June 30, 2013, will be used to determine the contribution rate for the Plan year ending June 30, 2015. The actuarial value of assets is based on a 3-year smoothed market value method. The total contribution is based on a 11-year amortization period for unfunded retiree liabilities and a 26-year amortization period for other unfunded liabilities.

Public School Retirement System of Missouri:

The State of Missouri also made employer contributions to the Public School Retirement System of Missouri which is a cost-sharing multiple-employer defined benefit public employees' retirement system. The System includes all public school districts within the State except for the two districts covering the major metropolitan areas. It also includes certain public college and universities and some state employees.

The benefit provisions include retirement annuities, death benefits, and disability benefits. A member is vested after acquiring five years of membership credit for Missouri service.

The System was created and is governed by Chapter 169 of the Revised Statutes of Missouri. State employees who elected to remain with the Public School Retirement System under Section 104.342, RSMo, are covered by the System.

Employees of the State are not required to contribute. The State, as employer, contributed \$4,933,000, \$3,013,000, and \$3,458,000 for the years ending June 30, 2013, 2012, and 2011, respectively, to the System, equal to the required contributions for each year.

Copies of the System's June 30, 2013, Comprehensive Annual Financial Report may be requested from:

Public School Retirement System of Missouri P.O. Box 268 3210 West Truman Boulevard Jefferson City, Missouri 65102-0268

College and Universities:

University of Missouri Retirement System

Plan Description

The University of Missouri Retirement, Disability, and Death Benefit Plan is a single-employer, defined benefit plan for all qualified employees. The University's Board of Curators establishes the terms of the Plan and administers it as authorized by State statute.

Note 7 - Retirement Systems (cont.)

Full-time employees vest in the Retirement Plan after five years of credited service and become eligible for benefits based on age and years of service. A vested employee who retires at age 65 or older is eligible for a lifetime annuity calculated at a certain rate times the credited service years times the compensation base (average consumption for the five highest consecutive salary years). The rate is 2.2% if the employee was hired before October 1, 2012, or 1.0% if the employee was hired after September 30, 2012. Vested employees who are at least age 55 and have ten years or more of credited service, or age 60 with at least five years of credited service may choose early retirement with a reduced benefit. However, if the employee retires at age 62 and has at least 25 years of credited service, the benefit is not reduced. At retirement, up to 30% of the retirement annuity can be taken in a lump sum payment; also the standard annuity can be exchanged for an actuarially-equivalent annuity.

Separate financial statements are not prepared for the Plan.

Detailed information concerning the Plan is presented in the University's 2013 financial report, which is publicly available. Copies of this report may be requested from:

University of Missouri System Office of the Controller 1000 West Nifong, Building 7, Suite 300 Columbia, Missouri 65211

Funding Policy

The University's contributions to the Retirement Plan are equal to the actuarially determined employer contribution requirement, which averaged 8.9% of payroll for the year ended June 30, 2013. Employees are required to contribute 1% of their salary up to \$50,000 in a calendar year and 2% of their salary in excess of \$50,000. An actuarial valuation of the Plan is performed annually and the University's contribution rate is updated on July 1 at the beginning of the University's fiscal year, to the actuarially determined amount from the most recent valuation as of the preceding October 1. This actuarial valuation reflects the adoption of any Retirement Plan amendments during the previous fiscal year.

Annual Pension Cost and Net Pension Obligation

The annual pension cost and net pension obligation for the current year were as follows (in thousands of dollars):

		iversity of ouri System
Annual required contribution	\$	94,176
Interest on net pension obligation

Note 7 - Retirement Systems (cont.)

The annual pension cost, the percentage of annual pension cost contributed to the Plan, and the net pension obligation for three years are as follows (in thousands of dollars):

	Fiscal Year Ending								
	06	6/30/13	06	5/30/12	06	5/30/11			
Annual Pension Cost (APC)	\$	94,176	\$	74,618	\$	57,541			
Percentage of APC Contributed		100%		100%		100%			
Net Pension Obligation	\$		\$		\$				

Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2013, is as follows (in thousands of dollars):

	Actuarial Valuation <u>October 1, 201</u>		
Actuarial Value of Assets	\$	2,790,622	
Actuarial Accrued Liability (AAL) Entry Age	\$	3,308,967	
Unfunded Actuarial Accrued Liability (UAAL)	\$	518,345	
Funded Ratio		84.34%	
Covered Payroll	\$	1,046,075	
UAAL as a Percentage of Covered Payroll		49.55%	

Actuarial Methods and Assumptions

The annual required contribution for the University for the current fiscal year was determined as part of an actuarial valuation of the System as of October 1, 2012, using the entry age normal actuarial cost method. Significant actuarial assumptions used in the valuation include: a) assumed rate of return on investments of 8.0% per year, b) projected salary increases for academic and administrative employees averaging 5.4% per year, c) projected salary increases for clerical and service employees averaging 4.5% per year, and d) assumed no future retiree ad-hoc increases or cost of living adjustments.

Note 8 - Other Postemployment Benefits

In addition to the retirement benefits described in Note 7, the State provides postemployment health care and life insurance benefits, in accordance with State statutes, to the majority of employees who either retire from the State or receive long-term disability benefits. These benefits are administered by the Missouri Consolidated Health Care Plan (MCHCP), the Missouri State Employees' Retirement System (MOSERS), the MoDOT and MSHP Medical and Life Insurance Plan (MHPML), and the Conservation Employees' Insurance Plan (CEIP). The eligible number of retirees/long-term disability claimants for MCHCP, MHPML, and CEIP for health care benefits are approximately 19,379, 6,094, and 800, respectively. The eligible number of retirees/long-term disability claimants for MOSERS, MHPML, and CEIP for life insurance benefits are 22,103, 3,873, and 462, respectively. Health care benefits and MOSERS life insurance benefits are funded through both employer and employee contributions. MOSERS employer contribution rates are set by the Standard Insurance Company. MHPML and CEIP life insurance benefits are funded through employee contributions. MHPML and CEIP employer contribution rates are set by the Plans Board of Trustees and approved by their respective Commission. Employer contribution rates for MCHCP are set in accordance with Section 103.100, RSMo. Retiree contribution rates are established based on projected claims experience and funding provided by employer contributions. Insurance policies are purchased for life insurance benefits and are the liability of the insurance carrier. For fiscal year 2013, the State's contributions were 49.43% of the total (employer/employee) contributions made for other postemployment benefits.

During fiscal year 2013, the State contributed the following amounts (in thousands of dollars):

	He	alth Care	Life	fe Insurance		
MCHCP MOSERS	\$	54,006	\$	 1,869		
MHPML		 17,119		1,009		
CEIP		2,755				
Total	\$	73,880	\$	1,869		

During fiscal year 2013, the expenditures recognized by the State for (employer/employee) other postemployment benefits were as follows (in thousands of dollars):

	H	ealth Care	<u>Life Insurance</u>			
MCHCP	\$	106,639	\$			
MHPML		45,210				
CEIP		5,256		331		
Total	\$	157,105	\$	331		

Funding Policy

The contribution requirements of MCHCP, MHPML, and CEIP are established and may be amended by the State legislature, Missouri Highways and Transportation Commission, and the Conservation Department Board of Trustees, respectively. The required contribution for MHPML and CEIP is based on an actuarial study and is financed on a pay-as-you-go basis. For fiscal year 2013, MCHCP, MHPML, and CEIP contributed \$54.0, \$28.6, and \$5.4 million, respectively.

Note 8 - Other Postemployment Benefits (cont.)

Annual OPEB Cost and Net OPEB Obligation

The MCHCP, MHPML, and CEIP annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45, *Accounting and Fiscal Reporting by Employers for Postemployment Benefits Other Than Pensions.* The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of MCHCP, MHPML, and CEIP annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the net OPEB obligation (in thousands of dollars):

	 MCHCP MHPML		CEIP		
Annual required contribution Interest on net OPEB contribution Adjustments to annual required	\$ 93,385 12,035	\$	109,975 16,989	\$	12,740 1,283
contribution	(8,528)		(22,182)		(1,106)
Annual OPEB cost	96,892		104,782		12,917
Contributions made	 (54,006)		(28,577)		(5,371)
Increase in net OPEB obligation	42,886		76,205		7,546
Net OPEB obligation, beginning of year	 185,150		377,530		32,075
Net OPEB obligation, end of year	\$ 228,036	\$	453,735	\$	39,621

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2013 are as follows (in thousands of dollars):

	MCHCP Fiscal Year Ending						MHPML Fiscal Year Ending					
	06/30	/13	06	6/30/12	0	6/30/11	06	/30/13	06	6/30/12	06	5/30/11
Annual OPEB Cost (AOC)	\$ 96	,892	\$	103,429	\$	101,678	\$ 1	04,782	\$	105,844	\$	109,285
Percentage of AOC Contributed	55	.74%		55.20%		52.47%		27.27%		27.00%		27.77%
Net OPEB Obligation	\$ 228	,036	\$	185,150	\$	138,811	\$ 4	53,735	\$	377,530	\$	300,263
				CEIP								
		Fi	scal	Year Endi	ng							
	06/30	/13	06	6/30/12	0	6/30/11						
Annual OPEB Cost (AOC)	\$ 12	,917	\$	12,636	\$	9,899						
Percentage of AOC Contributed	41	.58%		39.30%		36.78%						
Net OPEB Obligation	\$ 39	,621	\$	32,075	\$	24,405						

Note 8 - Other Postemployment Benefits (cont.)

Funded Status and Funding Progress

The funded status of the Plans as of June 30, 2013, are as follows (in thousands of dollars):

		MCHCP	_	MHPML	CEIP		
Actuarial Accrued Liability (AAL) Less Actuarial Value of Plan Assets	\$	1,485,600 89,500	\$	1,082,655	\$	192,190 	
Unfunded Actuarial Accrued Liability (UAAL)	\$	1,396,100	\$	1,082,655	\$	192,190	
Funded Ratio		6.02%		0.00%		0.00%	
Covered Payroll	\$	1,552,700	\$	329,482	\$	51,186	
UAAL as a Percentage of Covered Payr	oll	89.91%		328.59%		375.47%	

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation for fiscal year ending June 30, 2013, MCHCP used the entry-age method while MHPML and CEIP used the projected unit credit cost method. The actuarial assumptions for MCHCP, MHPML, and CEIP include a 6.5%, 4.5%, and 4.0% discount rate, respectively. The projected annual health care cost trend rate for non-Medicare health care is 7.4% initially, then decreasing by 0.3% per year to an ultimate rate of 5.0%. The projected annual health care cost trend rate for Medicare health care is 7.8% initially, then decreasing by 0.2% per year to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, over a 30-year period.

College and Universities:

University of Missouri System

In addition to the retirement benefits described in *Note 7*, the University provides postemployment medical care, dental care, and life insurance benefits to eligible employees who retire from the University and to employees receiving long-term disability benefits. Currently, 6,739 retirees/long-term disability claimants meet the eligibility requirements. These postemployment benefits are funded through both employer and employee contributions. For fiscal year 2013, the University's contributions were 57.01% of the total (employer/employee) contributions made for other postemployment benefits.

Note 8 - Other Postemployment Benefits (cont.)

Currently, the number of retirees/long-term disability claimants participating in medical care, dental care, and life insurance are 5,345, 5,516, and 3,004, respectively. During fiscal year 2013, the University contributed \$33,635,000 for other postemployment benefits. The expenditures recognized by the University for (employer/employee) other postemployment benefits were \$35,516,000.

Funding Policy

In June 2008, the University established its OPEB Trust Fund, the assets of which are irrevocable and legally protected from creditors and dedicated to providing postemployment benefits in accordance with terms of the Plan. Previously, postemployment benefit costs other than long-term disability were funded on a current basis, and expenses were recorded on a pay-as-you-go basis. Long-term disability costs were recognized during the period in which the employee became eligible to receive disability benefits.

The University's OPEB Trust Fund does not issue a separate financial report, but is included in the University's financial report using the economic resources measurement focus and accrual basis of accounting. The University currently plans to contribute to the trust fund an amount that, in addition to the current year premium contributions, is sufficient to fund 50% of the annual required contribution (ARC).

Annual OPEB Cost and Net OPEB Obligation

The University's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the University's net OPEB obligation for fiscal year 2013 (in thousands of dollars):

	University of Missouri System			
Annual required contribution Interest on net OPEB obligation Adjustment to annual OPEB obligation Annual OPEB cost Contributions made Increase in net OPEB obligation	\$ 	50,954 6,296 (5,360) 51,890 (19,177) 32,713		
Net OPEB obligation (asset), beginning of year		109,496		
Net OPEB obligation, end of year	\$	142,209		

Note 8 - Other Postemployment Benefits (cont.)

The annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2013 was as follows (in thousands of dollars):

	University of Missouri System								
	Fiscal Year Ending								
	06	06/30/13 06/30/12				06/30/11			
Annual OPEB Cost (AOC)	\$	51,890	\$	51,667	\$	60,935			
Percentage of AOC Contributed		36.96%		49.31%		49.63%			
Net OPEB Obligation	\$	142,209	\$	109,496	\$	83,306			

Funded Status and Funding Progress

The funded status of the Plan as of June 30, 2013, was as follows (in thousands of dollars):

	niversity of souri System		
Actuarial Accrued Liability (AAL) Less Actuarial Value of Plan Assets	\$ 542,844 45,745		
Unfunded Actuarial Accrued Liability (UAAL)	\$ 497,099		
Funded Ratio	8.43%		
Covered Payroll	\$ 1,041,413		
UAAL as a Percentage of Covered Payroll	47.73%		

Actuarial Methods and Assumptions

In the July 1, 2011, actuarial valuation, University of Missouri System used the projected unit credit cost method. The actuarial assumptions for University of Missouri System included a 5.75% rate of return, net of administrative expenses. The projected annual health care cost trend rate is 5.0% to 9.0% initially, reduced by 0.5% decrements to an ultimate rate of 5.0%. The UAAL is being amortized at a level dollar amount over an open basis, level percent of pay, over a 30-year period.

Note 9 - <u>Deferred Compensation</u>

Missouri State Public Employees' Deferred Compensation Plan:

In accordance with Internal Revenue Code Section 457, the State offers all employees the opportunity to participate in the Missouri State Public Employees' Deferred Compensation Plan. Under the Plan, employees are permitted to defer a portion of their current salary until future years.

All amounts of compensation deferred under the Plan must be held in a trust, custodial account, or annuity contract for the exclusive benefit of Plan participants and their beneficiaries. Investments are managed by the Plan's trustee under one of several investment options, or a combination thereof. The choice between the investment option(s) available by the Plan is made by the participants.

Note 9 - <u>Deferred Compensation (cont.)</u>

Copies of the Plan's financial statements may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Missouri State Public Employees' Deferred Compensation Incentive Plan:

The Plan was established by the Missouri State Public Employees' Deferred Compensation Commission in July 1995 pursuant to Section 401(a) of the Internal Revenue Code.

Under the Plan provisions, any employee of the State is eligible to participate in the Plan if he/she has been an employee of the State for at least 12 consecutive months preceding any employer contributions to the Plan, and is making continuous monthly deferrals of at least \$25 to the Missouri State Public Employees' Deferred Compensation Plan. The State, subject to appropriation, contributes \$25, \$30, or \$35 per month for each employee that meets these requirements based on employee contribution. As of March 2010, employer incentive (match) associated with the State of Missouri Deferred Compensation Plan was suspended until further notice. Participating employees are 100% vested.

The first employer contributions to the Plan were made in January 1996. The Plan receives contributions from employees as well as rollovers from other qualified plans. During fiscal year 2013, rollover contributions to ICMA-RC were \$41,986,000 and employer contributions to ICMA-RC were \$2,000.

Copies of the Plan's financial statements may be requested from:

Plan Administrator c/o MOSERS P.O. Box 209 907 Wildwood Drive Jefferson City, Missouri 65102-0209

Note 10 - Changes in Short-Term Liabilities

The State uses a bank overdraft line of credit to compensate for timing in cash payments and receipts.

The following is a summary of the changes in short-term liabilities for the year ended June 30, 2013 (in thousands of dollars):

	Bala	nce					Bala	ance	
	July 1,	2012	- 1	ncreases	ases Decreases			June 30, 2013

^{*}Beginning balances as of July 1, 2012 have been restated (see Note 17).

Note 12 - Bonds Payable

Bonds are long-term liabilities and are reconciling items from governmental fund financial statements to government-wide financial statements. On the Government-Wide Statement of Net Position, the long-term liabilities are shown as the amounts due within one year from the date of the statement and the amounts due in more than one year from the date of the statement.

General Obligation Bonds:

The Board of Fund Commissioners of the State of Missouri, upon voter approval and subsequent authorization of the General Assembly, issues general obligation bonds that are secured by a pledge of the full faith, credit, and resources of the State. The principal and interest amounts are transferred one year in advance from the General Fund or other funds to the debt service funds from which principal and interest payments are made. Three types of general obligation bonds are currently outstanding. Proceeds from the Water Pollution Control Bonds were used to provide funds for the protection of the environment through the control of water pollution. Proceeds from the Fourth State Building Bonds were used to provide funds for improvements of buildings and property of higher education institutions, Department of Corrections, and the Division of Youth Services. Proceeds from the Stormwater Control Bonds were used to provide funds to protect the environment through the control of stormwater.

To take advantage of lower interest rates, the Board of Fund Commissioners has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

	Date Issued	Amount Issued	Series Refunded	Amount Refunded	
Water Pollution Control Bonds:					
Series A 1987–Refunding	8/1/87	\$ 49,715	A 1981	\$	16,940
			B 1983		9,625

Series A 2005-Refunding	6/29/05	17,175	A 1999	17,595
Series A 2010-Refunding	7/27/10	15,150	A 2001	7,320
_			A 2002	8,475
			A 2005-Refunding	905

The additional principal amount of the refunding bonds does not decrease the amount of the authorization.

As of June 30, 2013, \$594,494,240 of the Water Pollution Control Bonds; \$250,000,000 of the Fourth State Building Bonds; and \$45,000,000 of the Stormwater Control Bonds have been issued. The remaining authorization for the Water Pollution Control Bonds is \$130,505,760 and for Stormwater Control Bonds is \$155,000,000. There is no remaining authorization for the Fourth State Buildings Bonds.

General obligation bonds issued and outstanding as of June 30, 2013, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding
Water Pollution Control Bonds:						
Series A 2003-Refunding	3.25 - 6.0%	2/1; 8/1	10/03	8/1/16	\$ 74,655	\$ 14,695

Totals	\$ 378,150	\$ 61,349	\$ 439,499		

Other Bonds:

The Board of Public Buildings of the State of Missouri, upon the approval of the General Assembly, issues revenue bonds for building projects and commits state agencies to lease space in these buildings. The General Assembly appropriates to the Board, on behalf of the state agencies, amounts sufficient to pay the principal and interest on the bonds, maintain certain required reserves, and to pay the costs of operations. The total amount authorized for the Board equals \$945,000,000.

To take advantage of lower interest rates, the Board of Public Buildings has issued bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Board (in thousands of dollars):

		Series Refunded	Amount <u>Refunded</u>		
Board of Public Buildings:		<u>.</u>			_
Series A 1983-Refunding	10/01/83	\$ 43,445	A 1981	\$	43,445

The Missouri Health and Educational Facilities Authority (MOHEFA) issued \$35,000,000 of Educational Facilities Revenue Bonds (University of Missouri-Columbia Arena Project) Series 2001, dated November 1, 2001, to fund the design, acquisition, construction, furnishing, and equipping of a sports arena facility and related facilities on the University of Missouri-Columbia campus. The Missouri Health and Educational Facilities Authority (MOHEFA) issued \$20,125,000 of Educational Facilities Refunding Revenue Bonds Series 2011, dated November 17, 2011. The Refunding Educational Facilities Revenue bonds refunded \$22,770,000 of Educational Facilities Revenue Bonds Series 2001. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State. However, under a financing agreement, the Office of Administration will request that the Governor's annual budget request to the General Assembly include the State's financing amount for principal and interest each year.

Note 12 - Bonds Payable (cont.)

The Educational Facilities Revenue Bonds issued and outstanding as of June 30, 2013, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Outstanding

The Regional Convention and Sports Complex Authority issued \$132,910,000 of Convention and Sports Facility Project Bonds Series A 1991, dated August 15, 1991, to finance the costs of acquiring land and constructing a multi-purpose convention and indoor sports facility in downtown St. Louis, Missouri. On December 15, 1993, the Authority issued \$121,705,000 of Convention and Sports Facility Project Refunding Bonds Series A 1993 for the purpose of refunding the callable portions of the outstanding bonds issued in August 1991 and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was \$101,410,000. On August 1, 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project Refunding Bonds Series A 2003 for the purpose of refunding Convention and Sports Facility Project Bonds Series A 1991 and Series A 1993 refunding bonds and to pay the costs of additions and enhancements to the project. The outstanding principal amount refunded was \$2,845,000 for the Series A 1991 bonds and \$113,170,000 for the Series A 1993 refunding bonds. These bonds are limited obligations of the Authority and do not constitute a pledge of the full faith and credit of the State.

The Convention and Sports Facility Project Bonds issued and outstanding as of June 30, 2013, were as follows (in thousands of dollars):

	Interest Rates	Payment Dates	Issue Date	Final Maturity Date	Issued	Οι	itstanding
Convention and Sports Facility Project Bonds: Series A 2003-Refunding	1.42-5.375%	2/15; 8/15	8/03	8/15/21	\$ 116,030	\$	70,740

Note 12 - Bonds Payable (cont.)

State Road Bonds:

The Missouri Highways and Transportation Commission authorized by Article IV, Section 29–34 of the Missouri Constitution and Section 226.133 of the State Highway Act, issues bonds for highway construction and repairs. Under the Missouri Constitution, the principal and interest of the State Road Bonds are payable solely from the revenues of the Missouri Road Fund. State Road Bonds have the following levels of priority: Senior Bonds, First Lien Bonds, Second Lien Bonds, and Third Lien Bonds. Proceeds from State Road Bonds are used for the purpose of constructing and maintaining the State's highways. As of June 30, 2013, the Missouri Highways and Transportation Commission had issued \$3,812,195,000.

Note 12 - Bonds Payable (cont.)

To take advantage of lower interest rates, the Missouri Highways and Transportation Commission has issued Bonds to refund various outstanding bond issues. The following indicates the refunding bonds issued by the Commission (in thousands of dollars):

Conjurtion State Board Bonds	Date Issued	 Amount Issued	Series Refunded	Amount Refunded

⁽¹⁾ The annual debt service schedule assumes an interest rate of 0.07%, representing the interest rate at June 30, 2013, for the Series B 2005 bonds. During the year, interest rates ranged from 0.06% to 0.24%. Interest is reported net of assumed federal subsidies.

<u>Component Units' Long-Term Debt</u> - The following bonds are included in the balance sheet of the college and universities and the non-major component units.

Major

College and Universities:

The college and universities of the State issue revenue bonds for various projects on each respective campus. Bonds are payable, both principal and interest, only out of net income and revenues arising from operations of facilities funded by the bonds. As of June 30, 2013, debt service requirements for principal and interest for the college and universities were as follows (in thousands of dollars):

Fiscal Year Ended June 30	<u>Principal</u>	Interest	Totals

⁽¹⁾ The bond schedule does not include notes payable, therefore, it differs from the bonds and notes payable amount reported in the statements.

Note 12 - Bonds Payable (cont.)

The annual debt service schedule assumes an interest rate of 0.128%, representing the interest rate at June 30, 2013, for the Series 2000B and Series 2000C bonds. The annual debt service also assumes an interest rate of 4.25%, representing the interest rate as of June 30, 2013, for the Seventh Street Garage Series 2010A bonds. As of June 28, 2012 through April 30, 2015, the Board entered into an interest deferral agreement whereby the bond interest rate for the Seventh Street Garage Series 2010A bonds is the lesser of the modified pay rate of 4.25% annually.

Note 13 - Defeased Debt

A. Current Year Debt Defeasance

On September 27, 2012, the State of Missouri issued \$62,460,000 in Water Pollution Control General Obligation Refunding Bonds, Series A 2012, with an interest rate ranging from 3.00% to 5.00%, to refund \$3,225,000 of outstanding Water Pollution Control, Series A 2002 with interest rates ranging from 3.00% to 5.00%, and \$64,080,000 of outstanding Water Pollution Control, Series B 2002 with interest rates ranging from 3.375% to 5.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The State reduced its total debt service payments by \$9,915,000 to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$9,552,000.

On September 27, 2012, the State of Missouri issued \$100,395,000 in Fourth State Building General Obligation Refunding Bonds, Series A 2012, with an interest rate ranging from 2.00% to 4.00%, to refund \$110,535,000 of outstanding Fourth State Building, Refunding Series A 2002 with interest rates ranging from 3.375% to 5.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. The State reduced its total debt service payments by \$18,155,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$17,782,000.

Note 13 - Defeased Debt (cont.)

On August 23, 2012, the Board of Public Buildings of the State of Missouri issued \$278,835,000 in Board of Public Buildings Special Obligation Refunding Bonds, Series A 2012, with an interest rate ranging from 2.5% to 5.00%, to refund \$285,340,000 of outstanding Board of Public Buildings, Series A 2003, with interest rates ranging 4.00% to 6.00%. As a result, the bonds are considered to be defeased and the liabilities for the bonds have been removed from the financial statements. As a result of the refunding, the Board reduced its total debt service payments by \$43,604,000 to obtain an economic gain (difference between the present values of the old and the new debt service payments) of \$41,057,000.

On April 18, 2013, Truman State University issued \$20,495,000 in Student Housing System Revenue Bonds – Series 2013, with an interest rate ranging from 2.00% to 4.00%, to refund \$22,960,000 of outstanding Student Housing System Revenue Bonds – Series 2004, with interest rates ranging from 4.00% to 5.00%. As a result of the current refunding, the University reduced its total debt service requirements by \$8,075,000, which resulted in an economic gain of \$55,000.

On February 28, 2013, Southeast Missouri State University issued \$82,555,000 of System Facilities Revenue Bonds Series 2013A, with an interest rate ranging from 2.60% to 5.00% to refund \$7,805,000 of outstanding System Facilities Revenue Bonds Series 2006A, with interest rates ranging from 4.00% to 4.60%, and \$51,615,000 of System Facilities Revenue Bonds Series 2008, with interest rates ranging from 3.55% to 4.75%. As a result of the current refunding, the University reduced its total debt service requirements by \$9,713,000, which resulted in an economic gain of \$3,188,000.

On December 20, 2012, Northwest Missouri State University issued \$52,950,000 of Housing System Refunding Revenue Bonds Series 2012, with an interest rate ranging from 0.70% to 4.00% to refund \$20,540,000 of outstanding Housing System Revenue Bonds Series 2003, with interest rates ranging from 3.80% to 5.50%, and \$31,700,000 of Housing System Revenue Bonds Series 2005, with interest rates ranging from 4.00% to 5.05%. As a result of the current refunding, the University reduced its total debt service requirements by \$9,767,000, which resulted in an economic gain of \$5,870,000.

On March 5, 2013, Northwest Missouri State University issued \$9,945,000 House System Refunding Revenue Bonds Series 2013, with an interest rate ranging from 1.85% to 2.30% to refund \$6,910,000 of outstanding Housing System Revenue Bonds Series 2003, with interest rates ranging from 3.80% to 5.50%, and \$5,500,000 of outstanding Housing System Revenue Bonds Series 2006, with interest rates ranging from 3.75% to 4.00%. As a result of the current refunding, the University reduced its total debt service requirements by \$531,000, which resulted in an economic gain of \$1,323,000.

On November 8, 2012, Missouri Western State University issued \$20,840,000 of Auxiliary System Refunding and Improvement Revenue Bonds Series 2012, with an interest rate ranging from 0.70% to 3.55%, to refund \$20,095,000 of outstanding Auxiliary System Revenue Bonds Series 2003, with interest rates ranging from 1.38% to 5.00%. As a result of the current refunding, the University reduced its total debt service requirements by \$3,276,000, which resulted in an economic gain of \$2,460,000.

B. Cumulative Debt Defeasances

Various bond issues have been defeased by creating separate irrevocable trust funds.

Either new debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds or sufficient funds have been deposited in an irrevocable escrow to pay principal and interest as they become due.

Note 13 - Defeased Debt (cont.)

For financial reporting purposes, the following debt has been defeased and therefore removed as a liability from the governmental activities and college and universities Statement of Net Position.

<u>Governmental Activities</u> – As of June 30, 2013, bonds outstanding of \$272,265,000 are defeased.

<u>College and Universities</u> - As of June 30, 2013, bonds outstanding of \$378,810,000 are defeased.

Note 14 - Payables and Receivables

A summary of accounts payable and accounts receivable at June 30, 2013, is shown below (in thousands of dollars):

Accounts Develop	 overnmental Activities	iness–Type Activities	Ju	Balance June 30, 2013

Non-Major										
Component Units	-	4,108			_	4,108				
Totals	\$	4,108	\$	3,082	\$	7,190				

The loans from the component units were for the construction of additional state highways and for animal waste treatment systems.

During the consolidation process for the Government-Wide Statement of Net Position, interfund payables and receivables were eliminated in governmental activities in the amount of \$18,667,000.

The amount reported as "Due from Other Funds" for fiscal year 2013 is significantly less than what was reported in fiscal year 2012. This was due to an adjustment of the State Lottery's accounts receivable balance affecting the amounts due to the Lottery Proceeds Fund from the State Lottery.

Note 16 - Interfund Transfers

All transfers must be legally authorized by the legislature through transfer appropriations. Interfund transfers for the fiscal year ended June 30, 2013, were as follows (in thousands of dollars):

	Tra	nsfers In:					
		General Fund	 Public Education	Missouri Non-Major Road Governmental Fund Funds			State Lottery
Transfers Out: General Fund Public Education Conservation and	\$	26,510	\$ 2,830,408	\$ 	\$	240,752	\$
Environmental Protection Non-Major Governmental		587				2,425	
Funds		15,037	5,417	509,144		35,551

Non-Major Enterprise					,
Funds		46			1,325
Internal Service Funds			57		78
	 	 	 	_	
Totals	\$ 5,573	\$ 16,147	\$ 229	\$	4,000,396

Principal reasons for interfund transfers include:

- moving general revenue funds to support elementary and secondary education
- moving state lottery funds to support elementary and secondary education
- moving general revenue funds to support social assistance programs reported in non-major governmental funds
- moving funds related to the construction of capital assets

During fiscal year 2013, there were transfers of \$279,000 from internal service funds to the General Fund and non-major governmental funds. These were transfers of capital assets and are therefore not reported on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances or on the reconciliation above. This is because governmental funds use the modified accrual basis of accounting and therefore do not report capital assets on their financial statements. There were also transfers of capital assets for \$35,000 from the General Fund to non-major enterprise funds. These are reported as capital contributions in the non-major enterprise funds and excluded from the General Fund; therefore, these transfers are also not included in this reconciliation.

Note 17 - Restatements

During fiscal year 2013, additional information became available which required the restatement of fund equity amounts. The following table presents a summary of these restatements by fund (in thousands of dollars):

	_	ine 30, 2012							
		und Balance/			June 30, 2012				
	1	Net Position			Fund Balance/

College and Universities		5,712,454		(2,320)		5,710,134			
Non-Major		188,023		(184)		187,839			

Breakdown of restatements by type:

- General Fund, the restatement was a decrease in cash and cash equivalents of \$106,000, a decrease in investments of \$3,671,000, a decrease in invested securities lending collateral of \$10,000, an increase in accounts receivable of \$1,365,000, a decrease in accounts payable of \$3,462,000, a decrease in accrued payroll of \$15,000, and a decrease in securities lending obligation of \$10,000. Of these amounts the decrease in cash and cash equivalents of \$106,000, a decrease in investments of \$342,000, a decrease of accounts receivable of \$170,000, a decrease of invested securities lending collateral of \$10,000, a decrease in accounts payable of \$3,000, a decrease in accrued payroll of \$15,000, and a decrease in securities lending obligation of \$10,000, were due to the reclassification of the State Land Survey Program Fund from a general revenue fund to a special revenue fund (see *Note 2*).
- Public Education, the restatement was a decrease in cash and cash equivalents of \$171,000 and a decrease in investments of \$3,114,000.
- Conservation and Environmental Protection, the restatement was an increase in cash and cash equivalents of \$106,000, an increase in investments of \$224,000, an increase of accounts receivable of \$77,000, an increase in invested securities lending collateral of \$10,000, an increase of accounts payable of \$4,000, an increase in accrued payroll of \$15,000, and an increase in securities lending obligation of \$10,000. The majority of the restatements were due to the reclassification of the State Land Survey Program Fund from a general revenue fund to a special revenue fund (see *Note 2*).
- Missouri Road Fund, the restatements was a decrease in accounts receivable of \$176,000.
- Non-major special revenue funds, the restatements was an increase in cash and cash equivalents of \$53,000, a decrease in investments of \$3,724,000, an increase in accounts receivable of \$1,000, and an increase in accounts payable of \$146,000.
- Non-major enterprise funds, the restatement was an increase in capital assets (net of accumulated depreciation/amortization) of \$2,248,000.
- Non-major internal service funds, the restatement was a decrease in accounts receivable of \$293,000, a decrease in capital assets (net of accumulated depreciation/amortization) of \$33,377,000, and a decrease in obligation under lease purchase of \$1,801,000.

Note 17 - Restatements (cont.)

- Discretely presented component units college and universities, the restatement was a decrease in net position of \$2,320,000 due to the adoption of GASB Statement No. 65, *Items Previously* Reported as Assets and Liabilities.
- Discretely presented component units non-major funds, the restatement was a decrease in capital assets (net of accumulated depreciation/amortization) of \$18,000, a decrease in obligations under lease purchase of \$15,000, as well as a decrease in bond issuance costs of \$181,000 due to the adoption of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* by the Missouri Development Finance Board.

Purpose for restatements:

The items on the schedule were restated as a result of additional information received this year related to prior year corrections.

On the Government-Wide Statement of Activities, net position for the governmental activities were restated by the amounts shown on the restatement schedule for governmental funds and internal service funds. In addition, capital assets (net of accumulated depreciation/amortization) increased by \$18,937,000, the Internal Balance increased by \$8,000, obligations under lease purchase decreased by \$5,609,000, and due to other funds decreased by \$310,000.

On the Government-Wide Statement of Activities, net position for the business-type activities were restated by the amounts shown on the restatement schedule for enterprise funds and by a decrease in the Internal Balance of \$8,000.

Note 18 - Fund Deficit

The following funds had a deficit balance:

<u>Enterprise Fund - Petroleum Storage Tank Insurance</u> - At June 30, 2013, this fund had a net position deficit of \$42,614,000. The deficit at June 30, 2012 was \$36,253,000. The deficit occurred when transport load fees collected were not sufficient to cover the estimated claims liability for clean up of petroleum storage tank leaks. This liability amount is the cumulative result of numerous years of petroleum storage tank leaks. Per Section 319.129, RSMo, this fund will not accept new claim liabilities after December 31, 2020, or upon revocation of federal regulation 40 CFR, whichever occurs first, unless extended by action of the General Assembly. Various alternatives are being considered to pay off the claims liability amount of this fund. Per Section 319.131, RSMo, the liability of the Petroleum Storage Tank Insurance Fund is not the liability of the State. Upon dissolution of this fund, the liability would be liquidated.

Enterprise Fund – Unemployment Compensation Insurance – At June 30, 2013, this fund had a net position deficit of \$118,321,000. The deficit at June 30, 2012 was \$350,709,000. The reason for this deficit is the high unemployment rate associated with the recent national economic climate in 2009 through 2011. The prolonged high unemployment made it necessary for the State of Missouri, along with other states, to borrow from the federal government to pay unemployment benefits. Since Missouri has carried a loan balance through January 1st for four consecutive years, the federal government has reduced the Federal Unemployment Tax Act (FUTA) tax credit that Missouri employers are allowed to claim on their taxes. Additional tax dollars collected by the federal government as a result of the FUTA tax credit reduction will be used to begin paying down Missouri's loan balance. Missouri projects its current loan balance will be fully repaid in calendar year 2015.

Note 19 - Commitments

Contracts

The Department of Conservation had contracts outstanding of \$2,596,000 for construction contracts at June 30, 2013. These contracts are funded through the special revenue funds from specific sales tax, fees, and permits.

The Department of Transportation had long-term contracts of \$662,496,000 outstanding at June 30, 2013. These contracts are paid from capital projects funds with approximately 77% federal reimbursement expected.

The Office of Administration, Division of Facilities Management, Design and Construction, had construction contracts outstanding at June 30, 2013 of \$8,728,000. Approximately 81% will be paid from the General Fund, 4% from special revenue funds, 5% from capital projects funds, and 10% from enterprise funds.

On March 10, 1988, the State of Missouri entered into a contract with the United States Army Corps of Engineers confirming an assurance agreement of April 8, 1965. The State obtained rights to a portion of the water supply storage from the Clarence Cannon Dam and Mark Twain Lake Project. The State agreed to pay up to \$10.8 million plus interest for the investment costs allocated to the water supply storage, the amount of such payments to be determined by the portion of the water storage space put in use by the State for that purpose. The contract provided a ten year interest free period running from 1984 to 1994. In fiscal year 1995, the State began making interest payments. The interest payment amount for fiscal year 2013 was \$364,000. This payment was made in arrears as it was part of a fiscal year 2013 expenditure restriction plan. Payment of principal and interest must be completed by March 2038.

As of June 30, 2013, the University of Missouri had outstanding commitments for the usage and ongoing support of the University Health System's information technology environment totaling \$123,757,000. The payments are as follows:

2014	\$ 17,516,000
2015	18,041,000
2016	18,583,000
2017	19,140,000
2018	19,714,000
thereafter	30,763,000

Truman State University had approximately \$5,850,000 in outstanding commitments for various construction contracts at June 30, 2013.

Southeast Missouri State University had outstanding commitments of approximately \$39,710,000 related to construction contracts at June 30, 2013.

Missouri State University had approximately \$7,800,000 in outstanding commitments for various construction contracts at June 30, 2013.

University of Central Missouri had approximately \$11,396,000 in outstanding commitments related to construction contracts at June 30, 2013.

Northwest Missouri State University had approximately \$8,043,000 in outstanding commitments related to various construction contracts at June 30, 2013.

Note 20 - Risk Management and Insurance

The State is exposed to various risks of loss related to tort, general, motor vehicle, and contractor liability and injuries to employees. The State assumes its own liability for risks except for the purchase of surety bond, aircraft, and boiler coverage. The State's Office of Administration (OA), Risk Management Unit, self-insures its workers' compensation program for all state employees, with the exception of the Missouri Department of Transportation (MoDOT) and the State Highway Patrol. Liability insurance is also provided by OA-Risk Management, pursuant to State statute, through the State's Legal Expense Fund, which is a component of the General Fund in this report. This insurance covers all state employees.

The Workers' Compensation and Legal Expense Fund claims liability is based upon actual claims that have been submitted to OA-Risk Management. IBNR (incurred but not reported) liability is not included since workers' compensation and liability insurance claims are reported timely, and therefore any potential IBNR liability amount would be considered immaterial. The State has not had any insurance settlements exceed the coverage. OA-Risk Management also procures property insurance for 3% of the total value of the State's property with the remainder uninsured. The buildings that are insured are mainly the buildings backed with bonded debt through the Board of Public Buildings.

The Transportation Self-Insurance Plan covers workers' compensation for employees of MoDOT and the State Highway Patrol, and covers vehicle liability and general liability insurance for the employees of MoDOT. The Transportation Self-Insurance Plan is presented as an internal service fund. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims from data provided by an actuary. Liabilities are reported at their discounted value, assuming an investment yield of 2%.

The Missouri Consolidated Health Care Plan (MCHCP) provides health care insurance to all state employees, except for MoDOT, the State Highway Patrol, and the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known medical claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The MoDOT and MSHP Medical and Life Insurance Plan (MHPML) accounts for the medical coverage provided on a self-insured basis and life insurance benefits, underwritten by a commercial insurance company, for employees of MoDOT and the State Highway Patrol. The Plan is presented as an internal service fund. Estimated claims payable is based on known insurance claims pending as well as an estimate of IBNR claims from data provided by an actuary.

The Conservation Employees' Insurance Plan (CEIP) provides health care and life insurance to employees of the Department of Conservation. The Plan is presented as an internal service fund. Estimated claims payable is based on known claims pending as well as an estimate of IBNR claims.

The Petroleum Storage Tank Insurance Fund (PSTIF) has claims liability for the cost of contamination cleanup for policyholders and other eligible site owners who have submitted notice of a contamination. The PSTIF is presented as a major enterprise fund.

The University of Missouri System provides workers' compensation, liability, and medical insurance for its employees. The University funds this through a combination of self-insurance and commercially purchased insurance. The amount of coverage is based upon analysis of historical information and actuarial estimates. Settled claims have not exceeded commercial coverage in any of the past three fiscal years. The claims liability is the present value of the claims, using discounted rates ranging between 1.0% and 2.7% based on future investment yields. The University of Missouri System is included with college and universities as a major component unit of the State.

Note 20 - Risk Management and Insurance (cont.)

Missouri State University is exposed to various risks of loss. These include loss related to torts; business interruption; employee injuries and illnesses; employee health, dental and accidental benefits; natural disasters; damage to and destruction of assets; and errors and omissions. Commercial insurance coverage is purchased for claims arising from such matters other than those related to natural disasters and employee health benefits, general liability, and workers' compensation. Settled claims have not exceeded the commercial coverage in any of the three preceding years. Additional coverage is provided through the State Self–Insurance Program, through the Risk Management Unit of the Office of Administration. The State of Missouri self–insures the workers' compensation benefits for all state employees, including University employees.

Changes in the balances of claims liability (in thousands of dollars) during the current and prior fiscal years are as follows:

Risk Management Pool:

The State of Missouri participates in the property program of the Midwestern Higher Education Compact (MHEC) as defined in Section 173.700, RSMo. This program was formed to expand coverage, reduce costs, and stabilize property insurance rates over extended time periods at higher education institutions in all member states. The program offers loss limit coverage tailored to individual institutions as well as self-insured retention by institution. The MHEC Risk Management Oversight Committee directs the major operations of the program overseeing the development of program policies, premium allocations, new program memberships, and selection of program administrators and insurance underwriters.

Note 21 - Pollution Remediation and Landfill Closure and Postclosure

The State has an obligation to address current or potential detrimental effects of existing pollution by participating in pollution remediation activities.

The Missouri Department of Natural Resources (DNR) was compelled to assess and oversee the cleanup of contaminated sites subject to federal law under the Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, administered by the U.S. Environmental Protection Agency (EPA). Under this law, the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At the end of fiscal year 2013, the State was participating in the cleanup of seven Superfund sites. Total pollution remediation obligation for these sites totaled approximately \$11.1 million. The basis for these costs are State Superfund contracts that list the estimated cost of cleanup, or actual costs if cleanup is complete, less any payments that have been made to the EPA. Estimated costs will change as actual costs become available. The Hazardous Waste Fund is a component of Conservation and Environmental Protection.

The Missouri Department of Transportation (MoDOT) performed work related to fuel leaks during 2013. MoDOT is currently involved in remediation activities in two instances related to building and grounds caused by chemical contamination as well as one fuel leak. There is a total remaining obligation of \$30,000 as of June 30, 2013. The potential for pollution remediation exists; however, any future remediation obligations are not yet estimable.

The Office of Administration (OA), Division of Facilities Management, Design and Construction, performed asbestos, mold abatement and remediation, and fuel spill cleanup in five State sites during fiscal year 2013. At the end of the fiscal year, cleanup was not complete in three of the sites, with a total remaining obligation for mold and asbestos debris cleanup of \$97,000. These costs were based on contractual pricing estimates and are subject to change if the pollution remediation requires more time or material than was estimated.

The Department of Public Safety, Office of the Adjutant General, has been named as a potentially responsible party in the Pools Prairie Superfund site in Newton County, Missouri. The Resource Conservation and Recovery Act (RCRA), also known as the Superfund Law, is administered by the U.S. Environmental Protection Agency (EPA). This law says the State is required to pay or ensure payment of 10% of the costs of remediation action and 100% of the costs of operations and maintenance at sites where the party responsible for the contamination is unknown, uncooperative, or insolvent. Similarly, Missouri law 260.371.7 states that the public should bear a portion of the cost to pay for the State's share of Superfund cleanup to be appropriated from general revenue. At this time, it cannot be determined the Department of Public Safety's portion of the costs for the cleanup of the Pools Prairie Superfund site.

Note 21 - Pollution Remediation and Landfill Closure and Postclosure (cont.)

Changes in the balances of pollution remediation liability (in thousands of dollars) during the current fiscal year are as follows:

Governmental Activities	Type of Pollution Remediation	Re	scal Year mediation Liability (30/2012	Ass Es	rent Year essments and timated hanges	<u>Pa</u>	yments	Re	iscal Year emediation Liability /30/2013	 e Within ne Year
Hazardous Waste Fund	Superfund Sites	\$	11,134	\$		\$	(49)	\$	11,085	\$ 2,351
Missouri Road Fund	Chemical Contamination		51		79		(100)		30	30
General Revenue Fund Facilities Maintenance Reserve Fund	Fuel Spill Remediation Mold Remediation and Asbestos		4				(4)			
Reserve Fund	Abatement		1_		119		(23)		97	 97
Total Governmental Activities		\$	11,190	\$	198	\$	(176)	\$	11,212	\$ 2,478

The State does not own any municipal solid waste landfills (MSWLF), however in the event the owner/operator refuses or is unable to properly maintain the landfill, the owner/operator forfeits the required financial assurance instrument(s) to fund closure and/or post-closure maintenance activities.

Each landfill owner/operator is required to obtain a financial assurance instrument, which is held by the State as security in the case of a default or forfeiture. Financial assurance instruments can include financial guarantee or performance bonds, letters of credit, insurance policies, corporate guarantees, contracts of obligations, trust funds, and escrow accounts. At June 30, 2013, the Missouri Department of Natural Resources, Solid Waste Program tracked the value of the secured financial assurance instruments held by the State to be \$320,163,000. This amount is disclosed, but not reported in the financial statements, because the State does not perform the investment function and does not have significant administrative involvement. While the State maintains possession of the financial assurance instruments, it does not meet criteria to be reported in a fiduciary fund.

At June 30, 2013, ten MSWLFs and two waste tire facilities have defaulted. The owners/operators failed to properly close or maintain post-closure care for these facilities; therefore, the State took possession of the forfeited financial assurance instruments to initiate the closure or post-closure activities as required by Section 260.228, RSMo. The State will monitor and pay post-closure care costs of these facilities for the next 30 years in accordance with Missouri Department of Natural Resources Solid Waste Management Law and Regulations. At June 30, 2013, it is expected that \$932,000 will be paid over the remaining monitoring periods. This is the amount of the assigned fund balance that has been designated on the General Fund balance sheet for forfeited assets.

Note 22 – Contingencies

Contingent claims liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported including the effects of specific, incremental claim adjustment expenditures/expenses, salvage, subrogation, and other allocated or unallocated claim adjustment expenditures/expenses. Liabilities of governmental funds are reported as a reconciling item to the Government-Wide Statement of Net Position. Expenditures are recognized as payments are made.

At June 30, 2013, the amount of the contingent liabilities was \$15.6 million. Changes in the reported liability since June 30, 2012, resulted from the following (in thousands of dollars):

	Fis	ginning of scal Year Liability	C	irrent Year laims and hanges in Estimates	Claim ayments	F	Balance Fiscal Year End		
2012-2013 2011-2012 2010-2011	\$	20,232 65,880 54,800	\$	(1,438) (37,309) 14,480	\$ (3,159) (8,339) (3,400)	\$	15,635 20,232 65,880		

Section 287.220.6, RSMo, requires that an actuarial study of the Second Injury Fund be made every three years to determine the solvency of the fund. Figures presented below for current year claims and changes in estimates are based on the 2012 actuarial study. At June 30, 2013, the amount of liabilities for the Second Injury Fund was \$1.7 billion. Changes in the reported liability since June 30, 2012, resulted from the following (in thousands of dollars):

	eginning of Fiscal Year Liability	C	urrent Year Haims and Hanges in Estimates	P	Claim ayments	· ·	Balance Fiscal Year End
2012-2013	\$ 1,597,447	\$	122,534	\$	(42,494)	\$	1,677,487
2011-2012	1,520,089		114,507		(37,149)		1,597,447
2010-2011	1,444,064		113,401		(37, 376)		1,520,089

The State receives federal grants which are subject to review and audit by federal grantor agencies. This could result in requests for reimbursements to the grantor agency for expenditures which are disallowed under grant terms. The State believes that such disallowances, if any, would be immaterial in the next fiscal year.

Loan Guarantees:

The State appropriates money to the Agricultural and Small Business Development Authority for the purpose of making loan guarantees. Upon default of a guaranteed loan, the Authority makes the payment for default from State appropriations. The Authority administers the Single-Purpose Animal Facilities Loan Program and the Value Added Loan Guarantee Program, which provides a 50% first-loss guarantee on loans up to \$250,000. The total of these two loan programs outstanding at June 30, 2013, for which the Authority has guaranteed payment is, \$55,000 and \$1,246,000, respectively. During 2013, no loans defaulted.

Note 22 - Contingencies (cont.)

Sales and Use Tax Lawsuits:

Southwestern Bell Telephone Company vs. Director of Revenue (Case No. SC83859 and follow up Case No. SC86441): the Supreme Court ruled that Southwestern Bell Telephone Company was entitled to a refund of use tax paid on machinery and equipment used to create its digital phone service product. Manufacturing was found to include producing taxable services as well as tangible personal property products. A settlement was reached regarding some claims, filed by multiple taxpayers, related to the Southwestern Bell cases. At this time, no current liability remains as of June 30, 2013. Refund claims related to these cases that were filed by other companies that are still pending verification and exclusive of interest (which could be substantial) could negatively affect the State by \$14.9 million, of which \$8.1 million is related to the General Fund.

The State is also involved in tax litigation not included in the fiscal year 2013 liability amount, where it is reasonably possible that an adverse court decision may incur an estimated loss of \$38.9 million.

Tobacco Master Settlement Agreement:

This is not technically a liability of the State, but rather a reduction in liability owed to the State by tobacco manufacturers under the 1998 Master Settlement Agreement (MSA). Missouri typically receives between \$130 and \$150 million in MSA settlement funds from the tobacco companies each year, but the manufacturers may be entitled to a downward adjustment if the State fails to diligently enforce legislation required by the MSA.

In 2006, tobacco manufacturers initiated binding arbitration alleging that Missouri and 45 other states had failed to diligently enforce their MSA statute in 2003, seeking a total downward adjustment of \$1.15 billion nationwide. Twelve states were dismissed after discovery, and 20 more settled while the case was pending. The arbitration panel held hearings on the remaining 15 states and found 6 of them, including Missouri, to be non-diligent. Liability for the downward adjustment is divided among the non-diligent states and will be deducted from those states' next annual tobacco payments in April 2014. Missouri's share is approximately \$70 million. The tobacco companies are pursuing similar claims against the 35 non-settling states regarding calendar year 2004 through 2014.

Note 23 – Joint Ventures

The Regional Convention and Sports Complex Authority was created by state law for the purpose of financing, constructing, operating, and maintaining a multipurpose convention and sports facility to be located in the City of St. Louis. The Authority operates under a board of commissioners of whom five are appointed by the Governor of the State, three by the County Executive of St. Louis County, and three by the Mayor of the City of St. Louis. The Authority is granted all rights and powers necessary to plan, finance, construct, equip, and maintain the facility.

Note 23 – Joint Ventures (cont.)

The Authority is considered a joint venture of the State. County, and City because it constitutes a contractual agreement for public benefit in which the State, County, and City retain an ongoing financial responsibility for the Convention and Sports Facility Project Bonds. In August 1991, the Authority issued \$258,670,000 of Convention and Sports Facility Project Bonds. The bonds were sponsored in the amount of \$132,910,000 by the State (Series A), \$65,685,000 by the County (Series B), and \$60,075,000 by the City (Series C). In December 1993, the Authority issued \$181,885,000 in Convention and Sports Facility Project and Refunding Bonds to advance refund \$101,410,000 and \$50,275,000 of the outstanding 1991 Series A and Series B bonds, respectively, and for additional construction costs. The bonds were sponsored in the amount of \$121,705,000 by the State (Series A) and \$60,180,000 by the County (Series B). In February 1997, the Authority issued \$61,285,000 in Series C refunding bonds to advance refund \$47,155,000 of the outstanding 1991 Series C bonds. In August 2003, the Authority issued \$116,030,000 of Convention and Sports Facility Project and Refunding Bonds Series A 2003 to refund \$2.845.000 and \$113.170.000 of Series A 1991 and Series A 1993 refunding bonds, respectively, and for additional construction costs. In May 2007, the Authority issued \$49,585,000 in Series C 2007 refunding bonds to refund \$61,285,000 of original principal of the Series C 1997 refunding bonds.

Pursuant to a financing agreement entered into in August 1991, and terminating in August 2021, the Authority leased the facility to the sponsors who subleased the facility back to the Authority. The payments made by the State, County, and City under the financing agreement are sufficient to pay the principal and interest on the bonds. In addition, the sponsors provide annual appropriations intended to keep the facility in good repair and competitive with the top 25% of NFL facilities. See *Note 12* for the specific debt service requirements that make up the State's ongoing financial responsibility for this joint venture.

Summary financial information for the Authority as of and for the fiscal year ended December 31, 2012, is presented below (in thousands of dollars):

Total Assets	\$ 247,819
Total Liabilities Total Net Position	\$ 144,044 103,775
Total Liabilities and Net Position	\$ 247,819
Total Revenues Total Expenses	\$ 24,512 24,087
Net Increase in Net Position	\$ 425

Copies of the Authority's financial statements may be requested from:

St. Louis Regional Convention and Sports Complex Authority 901 North Broadway St. Louis, Missouri 63101

Note 24 - Endowments

Donor-restricted endowments for Missouri reside primarily within the higher education institutions, which are reported as a major component unit of the State. For the college and universities, except the University of Missouri, the net appreciation of the endowments available for expenditure is \$23,576,000, and of this amount, \$22,096,000 is reported as restricted non-expendable net position, \$1,303,000 is reported as restricted expendable net position, and \$177,000 is reported as unrestricted net position. The University of Missouri reported a net appreciation/amortization of restricted non-expendable net position in the amount of \$74,893,000, which consisted of both realized and unrealized gains and losses on investment. For detailed information on the college and universities, review the individual financial statements. The Revised Statutes of Missouri authorize the acceptance of donations at State agencies or public institutions. The governing boards of these institutions and the donor agreements determine whether net appreciation can be spent and the acceptable spending rate as detailed in Section 402.035, RSMo. These policies are entity specific and vary with each institution.

Note 25 - Conduit Debt

As of June 30, 2013, the Missouri Development Finance Board issued \$1,508,423,000 in Private Activity Bonds and \$2,109,175,000 in Public Purpose and Refunding Revenue Bonds. The outstanding balances on these bonds and notes as of June 30, 2013, were approximately \$549,006,000 and \$1,066,896,000, respectively.

The Missouri Development Finance Board and the State have no liability for repayment of these revenue bonds and funding notes aside from reserve fund deposits and, accordingly, these bonds and notes have not been recorded as a liability on the financial statements for the Missouri Development Finance Board. The debtor pays all debt service requirements. Security for the bondholders consists of insurance, letters of credit, annual appropriation pledges, and certain funds held through trustees under the various indentures.

The State Environmental Improvement and Energy Resources Authority, a related organization of the State of Missouri, issues Water Pollution Control and Drinking Water Revenue Bonds on behalf of the Department of Natural Resources. The outstanding balance on these bonds as of June 30, 2013, is \$1,006,494,000.

The State of Missouri has no liability for repayment of these revenue bonds beyond the resources provided by related loan programs. The bonds are limited obligations of the State Environmental Improvement and Energy Resources Authority.

Note 26 - Subsequent Events

Bonds:

On August 20, 2013, the Regional Convention and Sports Complex Authority issued \$65,195,000 of Convention and Sports Facility Project and Refunding Bonds, Series A 2013 (State of Missouri, Sponsor). The bonds will bear interest from 2.00% to 5.00%, due in semiannual installments beginning February 15, 2014. This refunded the Authority's tax exempt Convention and Sports Facility Project and Refunding Bonds Series A-1 2003 (State of Missouri, Sponsor) outstanding principal in the amount of \$64,385,000.

On October 11, 2013, the Board of Public Buildings of the State of Missouri issued \$29,370,000 of Special Obligation Refunding Bonds, Series A 2013. The bonds will bear interest from 2.00% to 5.00%, due in semiannual installments beginning April 1, 2014. This refunded Board of Public Buildings Bonds Series A 2003 outstanding principal in the amount of \$30,195,000.

Note 26 - Subsequent Events (cont.)

Missouri Department of Transportation:

The Series B 2005 First Lien State Road Bonds were issued as variable rate instruments with weekly rate changes. Since June 30, the rates varied from 0.04% to 0.09%.

Unemployment Compensation:

With the continued high unemployment, Missouri is borrowing from the federal government in order to pay unemployment benefits. Since June 30, 2013, \$14,236,000 has been borrowed. Since Missouri has carried a loan balance through January 1 for four consecutive years, the federal government has reduced the Federal Unemployment Tax Act (FUTA) tax credit that Missouri employers are allowed to claim on their taxes. The additional tax dollars collected by the federal government as a result of the FUTA tax credit reduction will be used to pay down Missouri's loan balance.

Medicaid Settlement Agreement:

State of Missouri with other states and the federal government has joined a national settlement against Johnson & Johnson and its subsidiary, Janssen Pharmaceuticals, Inc. The State of Missouri is to recover \$26,669,000 for unlawful marketing practices to promote the sales of antipsychotic drugs.

University of Missouri:

On September 27, 2013, the University executed a promissory note as the lender with RREC 2 Investment Fund, LLC as part of the financing for the Geothermal Project being completed by Rolla Renewable Energy Company, LLC, a wholly owned subsidiary of Missouri Renewable Energy Corporation. The University's note receivable was in the amount of \$14,380,000 and carried a stated interest rate of 1%.

Required Supplementary Information (RSI) includes the Budgetary Comparison Schedule for the General Fund and Major Special Revenue Funds, as well as the Budget to Generally Accepted Accounting Principles (GAAP) reconciliation, and the Notes to RSI on Budgetary Reporting.

STATE OF MISSOURI NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGETARY REPORTING June 30, 2013

Budgetary Presentation:

A Budgetary Comparison Schedule is presented as Required Supplementary Information for the State's General Fund and Major Special Revenue Funds. Revenues and expenditures are reported on a budgetary basis where "actual" revenues are recognized when cash is received, and "actual" expenditures are recognized for cash disbursements. The accounting principles applied for reporting on a budgetary basis differ from those used to present the financial statements in accordance with GAAP. A reconciliation of the two for the fiscal year ended June 30, 2013, has been presented at the bottom of the Budgetary Comparison Schedule.

The budgetary expenditures are included in the current year's Appropriation Activity Report, which demonstrates legal compliance with the current year's budaet. This report can viewed http://content.oa.mo.gov/accounting/reports/annual-reports/appropriation-activity-reports. "original The budget" expenditures and transfers are for what was originally appropriated for each fund. The "final budget" expenditures and transfers takes into account any increases and decreases to appropriations during the fiscal year less the Governor's amounts reverted (withheld) for each fund less any reappropriations to the next fiscal year.

Once a year, the Office of Administration-Division of Budget and Planning receives budgeted revenues from state agencies for each of their funds as well as a revised revenue estimate in the spring for the State's General Revenue Fund. The revised revenue estimate is used in the "final budget" column for the General Fund and is very comparable to actual revenue resulting in a small negative variance on this Schedule.

In accordance with State statute, all state funds must have an appropriation before amounts can be expended or transferred to another state fund; therefore, variances between "budgeted" and "actual" expenditures on the budgetary schedule will always be positive.

For budget purposes, interfund activity is not eliminated. A summary of interfund eliminations at June 30, 2013, is shown below (in thousands):

	Final Budg	et Transfer	Actual Transfer				
	In	Out	In	Out			
GENERAL FUND SPECIAL REVENUE FUNDS	\$ 2,989,710	\$ (2,989,710)	\$ 2,852,381	\$ (2,852,381)			
Public Education Conservation and Environmental	384,241	(384,241)	379,471	(379,471)			
Protection	1	(1)	1	(1)			
TOTAL	\$ 3,373,952	\$ (3,373,952)	\$ 3,231,853	\$ (3,231,853)			

Budgetary Control:

Budgetary control is maintained at the departmental level; each Department of the Missouri government formulates a budget to be submitted for approval by the General Assembly prior to the beginning of the fiscal year. These budgets are prepared essentially on the cash basis. The legislature reviews, revises, and legally adopts these budgets. The Governor then has the authority to approve or veto each budget, subject to legislative override.

Budgeted expenditures cannot exceed estimated revenues and other sources of funding, including beginning fund balances. In the event that actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the legislature to address the issue.

Unexpended appropriations lapse at the end of each appropriation year, unless reappropriated to the following appropriation year.

Supplementary Information includes the Budgetary Comparison Schedule and Reconciliation for the Major Capital Projects Fund (Missouri Road Fund), as well as the Combining and Individual Fund Statements and Schedules for the General Fund and all Non-Major Funds.

The Combining and Individual Fund Statements and Schedules

Major Funds

General Fund – Accounts for all current financial resources not required by law or administrative action to be accounted for in another fund.

Non-Major Funds

This includes all non-major governmental and enterprise funds, as well as the non-major component units. It also includes all internal service and fiduciary funds because the "major fund" classification, created under GASB Statement 34, does not apply to these funds.

A budgetary comparison schedule is provided for all non-major governmental funds with the exception of capital projects funds.

The **Special Revenue Funds** account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The State has numerous individual Special Revenue Funds. Therefore, the funds have been combined into specific functional areas.

Non-Major Special Revenue Funds:

Professional Registration – Provides for the control and regulation of various professions. Each profession has its own fund to account for its operation.

Judicial Protection and Assistance – Provides for protection of public employees by the Attorney General's Office, conviction of criminal offenders by prosecuting attorneys and assistance to victims of criminal offenses.

Agriculture and State Fair – Provides for inspections of products, market development, and awards for competition at the State Fair.

Social Assistance – Provides financial, health, and other services to qualifying individuals.

Transportation and Law Enforcement – Provides transportation services, road construction and maintenance, and the enforcement of vehicle laws and traffic safety.

Unemployment and Workers' Compensation – Provides for the administration of these laws and benefits to workers who qualify for workers' compensation.

Reimbursements and Other – Provides various reimbursements of costs to other governments and various regulatory commissions not included in other functional areas.

The **Debt Service Funds** account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Debt Service Funds:

Water Pollution Control Bond and Interest – Accounts for moneys used to pay the principal of the Water Pollution Control Bonds and the interest thereon.

Third State Building Bond Interest and Sinking – Accounts for moneys used to pay the principal of the Third State Building Bonds and the interest thereon.

Fourth State Building Bond and Interest – Accounts for moneys used to pay the principal of the Fourth State Building Bonds and the interest thereon.

Stormwater Control Bond and Interest – Accounts for moneys used to pay the principal of the Stormwater Control Bonds and the interest thereon.

Missouri Road Bond – Accounts for moneys used to pay bonds issued by the Highway and Transportation Commission.

The **Permanent Funds** account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.

Permanent Funds:

Arrow Rock State Historic Site Endowment – Accounts for moneys transferred from the State Parks Earnings Fund, as well as other moneys or property received by grant, gift, donation, or bequest specified for the enhancement of the Arrow Rock State Historic Site.

Confederate Memorial Park – Accounts for the income from investments acquired by gifts, donations, and bequests to be used for the maintenance of the Confederate Memorial Park.

State Public School – Accounts for all moneys, bonds, lands, and other properties belonging to or donated to the State for public school use in establishing and maintaining free public schools.

Smith Memorial Endowment Trust – Accounts for moneys bequeathed for the use and benefit of the Crippled Children's Service.

The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises.

Non-Major Enterprise Funds:

State Fair Fees – Accounts for the fairground admission fees used to improve the grounds and to pay the operating costs of the State Fair.

State Parks – Accounts for park concessions and contributions which are used to acquire and operate state parks.

Natural Resources Revolving Services – Accounts for moneys received from the delivery of services and the sale or resale of maps, plats, reports, studies, records, and other publications and documents.

Historic Preservation Revolving – Accounts for gifts, grants, and contributions used to acquire, preserve, restore, maintain, or operate any historical properties.

Missouri Veterans' Homes – Accounts for fees to provide services for persons confined to one of the veterans' homes.

State Agency for Surplus Property – Accounts for the surplus property operation.

Department of Revenue Information – Accounts for fees received by the Department of Revenue for publications and used to pay the costs of providing this information.

The Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the State on a cost-reimbursement basis.

Internal Service Funds:

Natural Resources Cost Allocation – Accounts for the administrative costs of the Department of Natural Resources.

Mental Health Interagency Payments – Accounts for moneys received through interagency agreements for services provided by other agencies.

State Facility Maintenance and Operation – Accounts for moneys collected from tenants for rent to cover the costs of operations in state-owned office buildings and institutions, charges to tenants in leased space to cover costs of real estate administrative services, and charges to capital improvement projects to cover the costs of project management services.

Office of Administration Revolving – Accounts for the following operations: printing services, flight operations, vehicle management, garage services, data processing and telecommunication services, building and grounds, insurance services, postage, and personnel administration.

Working Capital Revolving – Accounts for the operation of correctional industry programs and correctional farm programs.

General Government Revolving – Accounts for various service operations of the House of Representatives, Supreme Court, Adjutant General, Senate, Treasurer, and Department of Corrections.

Social Services Administrative Trust – Accounts for moneys transferred or paid to the Department of Social Services from any governmental entity or the public for goods and services provided.

Economic Development Administrative – Accounts for moneys collected for goods and services provided to other divisions and used to pay the cost of providing such services.

Professional Registration Fees – Accounts for moneys received from the professional boards for administrative services.

Conservation Employees' Insurance Plan – Accounts for health insurance coverage on a self-insured basis and life insurance coverage by a third party provider for Department of Conservation employees.

Transportation Self-Insurance Plan – Accounts for highway and highway patrol moneys used to pay workers' compensation claims. Moneys are also used to pay auto claims against the Department of Transportation.

Missouri State Employees' Insurance Plan – Accounts for long-term disability and death benefits provided on a self-insured basis for state employees.

Missouri Consolidated Health Care Plan – Accounts for medical care benefits provided on a self-insured basis for active state employees.

MoDOT and MSHP Medical and Life Insurance Plan – Accounts for the medical coverage provided on a self-insured basis and death benefits provided on an insured basis to Department of Transportation employees and members of the Missouri State Highway Patrol.

The Fiduciary Funds account for assets held by the State in a trustee or agent capacity.

Pension (and Other Employee Benefit) Trust Funds:

Missouri State Employees' Retirement System:

Missouri State Employees' Plan – Accounts for retirement, survivor, and disability benefits paid to employees of the State who are not covered under another state-sponsored retirement plan.

Judicial Plan – Accounts for retirement, survivor, and disability benefits to judges in the State of Missouri.

Missouri Department of Transportation and Highway Patrol Employees' Retirement System – Accounts for retirement, survivor, and disability benefits paid to Department of Transportation employees and members of the Missouri State Highway Patrol.

Missouri Consolidated Health Care Plan State Retiree Welfare Benefit Trust – Accounts for health and welfare benefits paid for the exclusive benefit of current and future retired employees of the State who are not covered under another state-sponsored other post-employment benefit plan.

Missouri State Public Employees' Deferred Compensation Incentive (IRC 401a) Plan – Accounts for retirement benefits paid to employees of the State.

Missouri State Public Employees' Deferred Compensation (IRC 457) Plan – Accounts for deposits from State employees, which are invested for the benefit of the employees until properly authorized to distribute.

Private-Purpose Trust Funds:

Alternative Care Trust – Accounts for all moneys received and spent by the Division of Family Services on behalf of children in their custody.

Johnson-Travis Memorial Trust – Accounts for all moneys, stocks, and securities given to the State by Miss Pansy Johnson or for the benefit of the Pansy Johnson-Travis Memorial State Gardens. Moneys will be used solely to establish, develop, and maintain the gardens.

Unclaimed Property – Accounts for moneys unpaid or unclaimed within one year after final settlement of any executor or administrator, assignee, sheriff or receiver and all unclaimed deposits, dividends, and interest of banks unable to locate the owners.

Agency Funds:

Social Security Contributions – Accounts for the receipt of contributions from various state funds for the State's share of social security contributions, which are due to the Federal Social Security Administration.

Missouri State Employees' Voluntary Life Insurance – Accounts for moneys withheld from employees' compensation for the contracts entered into with life insurance companies.

Program – Accounts for the receipt of various taxes, refundable deposits, and other moneys to be held until the State has the right or obligation to distribute them to various entities or individuals.

Institution – Accounts for deposits to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

The Component Units account for all transactions relating to legally separate entities which, for reporting purposes, are a part of the State.

Non-Major Component Units:

Missouri Development Finance Board – Accounts for moneys from bond proceeds, gifts, and grants to make loans for industrial development.

Missouri Agricultural and Small Business Development Authority – Accounts for moneys from bond proceeds, gifts, and grants to make loans for property acquisitions/renovations and pollution control facilities.

Missouri Transportation Finance Corporation – Accounts for moneys from federal, state or local sources, and from bond proceeds to be used for projects approved by the Missouri Highways and Transportation Commission.

Missouri Wine and Grape Board – Accounts for moneys derived from the privilege of selling wine to be used for marketing development in developing programs for growing, selling, and marketing of grape products grown in Missouri.

The Statistical Section presentations include Financial Trends, Revenue Capacity, Debt Capacity, Demographic and Economic Information, and Operating Information trends. The statistical data presented is intended to provide report users with a broader understanding of the environment in which the State operates.

Index and Overview

This part of the State's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the State's overall financial health.

Fin	an	cial	Tre	nds
ГШ	יוום	LIAI	116	IIUS

These schedules contain trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Net Position by Component	151
Changes in Net Position	152
Fund Balances - Governmental Funds	154
Changes in Fund Balances - Governmental Funds	156

Revenue Capacity

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Revenue Base - Taxable Sales by Industry	158
Revenue Base - Personal Income by Industry	
Personal Income Tax Revenue	
Personal Income Tax Rates	161
Revenue Payers by Industry	162
Personal Income Tax Filers/Liability	

Debt Capacity

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Ratios of Outstanding Debt1	64
Pledged Revenue Coverage	66

Demographic and Economic Information

These schedules contain demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.

Demographic Indicators	167
Economic Indicators	168
Principal Employers	169

Operating Information

These schedules contain operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

State Employees by Function	170
Operating Indicators by Function	171
Capital Asset Statistics by Function	172

Sources: Unless otherwise noted, the information in these schedules is derived from the State of Missouri Comprehensive Annual Financial Report for the years shown.

¹Revenues for Missouri Road Fund consist of a portion of the taxes and fees received by the State from the motor fuel tax, sales tax on motor vehicles, use tax on motor vehicles, revenue derived from motorists for their usage of the highways of the State, federal grants, and bond proceeds.

²Operating Expenses do not include depreciation/amortization.

³Coverage equals net available revenue divided by debt service.

^{**}Number of Alcohol Arrests is zero due to a loss of grant funding to perform alcohol compliance buys.

^{***}Total loans guaranteed during fiscal year 2013 was zero, as the authority to ensure loans ended June 30, 2010, due to the enactment of the Health Care and Education Affordability Reconciliation Act. However, the Department of Higher Education will continue to act as the US Department of Education's agent in fulfilling responsibilities relating to outstanding guarantees, which totaled \$2.4 billion as of June 30, 2013.
