

COMPLIANCE COMPONENT

DEFINITION	
<i>Name</i>	Inactivity Controls
<i>Description</i>	Inactivity controls protect against unauthorized system usage by disabling an electronic session after a pre-determined time of inactivity.
<i>Rationale</i>	Appropriate inactivity safeguards must be used to protect against unauthorized access to or use of information, data, and software resident on computers, peripheral devices, and storage media or transmitted over communication lines or networks. Inactivity controls are particularly necessary in open offices where there are no walls and many people leave their computers on and available for anyone who happens to walk by.
<i>Benefits</i>	<ul style="list-style-type: none"> • Protect against unauthorized disclosure • Protect against unauthorized system usage
