OFFICE OF ADMINISTRATION

DIVISION OF FACILITIES MANAGEMENT DESIGN & CONSTRUCTION

Skylights, Restore, Replace & Repair Missouri State Capitol

WHAT:

The project consists of restoration of three original historic copper skylights, replacement of two new matching skylights, and the repair of seventeen existing aluminum skylights with new glazing, gaskets, and mullion covers.

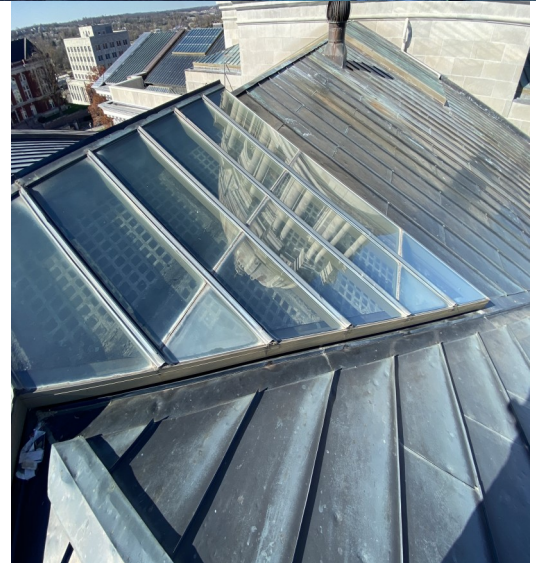

This project was designed by Strata Preservation Architecture, located in Kansas City, Missouri.

WHEN:

The project award is scheduled for the 2nd quarter of 2022, with onsite construction continuing thru the summer and fall, with the project completion prior to the start of the 2023 legislative session.

WHAT TO EXPECT:

There should be minimal construction noise with few interruptions expected for the building occupants. There may be occasional traffic flow disruptions around the building due to onsite crane work, but the building occupants will be notified prior to any closures or potential interruptions.

*Shaded areas represent skylights
