I. Policy Statement

It is the policy of the Governor of the State of Missouri to provide suitable arrangements for the display of the national and state flags on the exterior of all facilities operated by the State of Missouri. The Office of Administration, Division of Facilities Management, Design and Construction (OA-FMDC) will coordinate arrangements on behalf of the Governor’s Office.

II. Guidelines

- a. Flags will be flown every day of the year, excluding inclement weather, from 8:00 a.m. to 5:00 p.m. or until sundown, whichever occurs first, or if lighted, and may remain up 24 hours a day. The flag should not be displayed on days when the weather is inclement, except when an all-weather flag is displayed. They are lowered only when necessary to fly at half-staff or to change them due to deteriorating condition.
- b. Display of flags:
 - Flag order – single flagpole: national flag at the top, Prisoner of War/Missing in Action (POW/MIA) below the national flag, state flag below POW/MIA flag.
 - Flag order – two flagpoles: the national flag will be flown on the right as you face the poles with the building at your back.
 - If there is a malfunction of the halyards on any pole, which would allow only one flag to be flown, it should always be the national flag.
- c. Raising and lowering of flags:
 - The national flag is always raised first (briskly) and lowered last (slowly).
 - The flag should always be unfurled prior to attaching it to halyards. The Union up on the national flag, and the red side up on the State Flag. Flags should never be flown upside down.
 - The halyards are always fastened after the flags are raised, loosened and freed from the staff before the flags are lowered, then refastened to keep them from becoming snarled in the wind.
 - Care should be exercised to prevent flags from touching the ground.
 - Flags should be folded and stored securely until the next day. If wet, they should be hung in a secure (out of sight) area until dry, then folded.
