**2. CORE DESCRIPTION**

The State Drug Task Force Grant Program makes it possible for Missouri to aggressively address the many public safety issues associated with illicit drugs and violent crime. Since the inception of the first statewide drug strategy in 1986, Missouri has implemented many programs focused on drug awareness/education, enforcement, prosecution, rehabilitation, and treatment efforts. These programs have helped improve the quality of life for Missouri's citizens. With the continued funding, the DPS will be able to address the current and future needs of the state relating to drugs and violent crime. DPS collaborates with state and local law enforcement agencies to provide a proactive approach for the public safety of Missourians. The State Drug Task Force Grant program provides funding to drug task forces (DTF) throughout the state for drug related crime response and prevention including equipment/technology for drug interdiction activities.

**2. CORE DESCRIPTION**

The State of Missouri's original victim assistance program was established under the auspices of the Department of Public Safety by the General Assembly with the adoption of Section 595.050 RSMo in 1981. With the passage of Section 595.100, RSMo (1988), the Services to Victims Fund was established. The Services to Victims Fund consists of money collected pursuant to Section 595.045, RSMo. Upon appropriation, this money shall be used solely for the administration of contracts for services to victims of crime pursuant to Sections 595.050, 595.055, and 595.105, RSMo. Funds are awarded to state and local units of government and private nonprofit agencies to provide direct services to victims of crime. Eligible services include, but are not limited to, direct services, emergency services, crisis intervention counseling, and victim advocacy. This funding is primarily utilized by domestic violence shelters, a rape crisis center, child abuse treatment facilities, law enforcement and prosecutors to provide high quality services that directly improve the health and well-being of victims of crime.

**2. CORE DESCRIPTION**

Since 1995 the State of Missouri has been receiving funding through the S.T.O.P. (Services\*Training\*Officers\*Prosecutors) Violence Against Women Grant Program (STOP VAWA) as authorized by the Violence Against Women Act (VAWA) and subsequent legislation. Federal guidelines require that at least 25 percent of each year's grant award to the state be awarded for law enforcement programs, at least 25 percent for prosecution programs, at least 5 percent to court programs, and at least 30 percent for nonprofit, nongovernmental victim service programs. Of the 30% allocated for victim service programs, 10% must be allocated to culturally specific community-based organizations. These are statutory requirements. The remainder of the funds may be spent at the discretion of the DPS Director to address the statutory program purposes of this program. Further, 20% of the total amount granted shall be allocated to projects in two or more allocation categories that meaningfully address sexual assault. In distributing funds, Missouri must give priority to areas of varying geographic size with the greatest showing of need, take into consideration the geographic population of the area to be served, equitably distribute monies geographically including non-urban and rural areas, and ensure that the needs of previously underserved populations are identified and addressed.

**2. CORE DESCRIPTION**

The Office for Victims of Crime, Crime Victims Compensation Program (CVC) provides financial assistance to eligible crime victims/family members who have suffered harm as a result of violent crime. In the case of death, the CVC may help the victim's legal dependents. The CVC is designed to assist victims/family members of violent crimes through a period of financial hardship as a payer of last resort. If a victim has exhausted other sources of compensation, such as health insurance, and has no other source of reimbursement, CVC may help pay for crime related medical costs, wage loss, psychological counseling, funeral expenses and support for dependent survivors up to a maximum limit of \$25,000. Eligibility for the CVC is determined through an application process. A portion of funding for the program come from court costs assessed in criminal prosecutions. Additional funds are received from a federal formula grant from the U.S. Department of Justice, Office for Victims of Crime. DPS-OVC administers the VOCA Compensation grant that is a funding source for the CVC program. This federal formula grant is separate from the VOCA Assistance program administered by DSS. Effective July 1, 2008 medical providers in Missouri are prohibited from charging victims for a sexual assault forensic exam or charges incurred in collecting evidence during the exam. The DPS-OVC, Sexual Assault Forensic Examination (SAFE) Program pays medical providers directly. The Child Physical Abuse Forensic Examination (CPAFE) began in 2016, and pays professional fees for SAFE-CARE providers who perform forensic examinations to collect and preserve evidence on children under 18 who have been a victim of physical abuse in Missouri; or provide a case review of previously gathered photographs, medical records, or investigative information provided by a multi-disciplinary team on children under 18 who have been a victim of physical abuse in Missouri. Both the SAFE and CPAFE programs are first payers. Per 11 CSR 30-12.020 (8) and RSMo 595.220.6 RSMo, victims should NOT be billed for any forensic exam charges eligible through either program.

**2. CORE DESCRIPTION**

The Peace Officer Standards and Training Commission disburses funds from the Peace Officer Standards and Training Commission Fund to law enforcement agencies to pay for the costs of Continuing Law Enforcement Education training for law enforcement officers or technical or professional training for non-commissioned personnel employed by a law enforcement agency. To be eligible for disbursement, courts shall assess a surcharge of \$1 in each criminal case pursuant to Section 488.5336 RSMo. Monthly, the county or municipality will forward the collected surcharges to the Missouri Department of Revenue to be deposited to the Peace Officer Standards and Training Commission Fund. Distribution of these funds is made annually with agencies contributing less than \$500 receiving \$500, and agencies contributing in excess of \$500 receiving a percentage of their contribution determined by the difference between the total contribution less the total amount of agencies receiving \$500. The entire formula for funding is located in 11 CSR 75-16.010. The core request of \$950,000 will continue to allow the Department of Public Safety to assist law enforcement with their continuing education costs.

**2. CORE DESCRIPTION**

This provides funding for body worn cameras and storage for officers of the Missouri State Highway Patrol and Capitol Police. Many law enforcement agencies continue to undergo public scrutiny, and citizens have an expectation law enforcement officers will wear body worn cameras during the performance of their duties. Body worn cameras will enhance what is captured and improve officer safety through training and increase agency transparency while providing additional accountability to the public.

Patrol personnel are issued Air Purifying Respirators (APRs) as part of their standard equipment. These respirators are intended to mitigate potential injury and protect Patrol employees from hazardous breathing atmospheres. Quantitative fit testing of a respirator is required prior to issuing a respirator, annual recertification, or when issued a different make, model, or size. Quantitative fit testing confirms the respirator issued to an employee will provide them with the proper respiratory protection. Funding is requested to replace the Fit Test Instruments.

Due to downsizing and overall uncertainty at the federal level, the Patrol is seeking dedicated funding for the Missouri Information Analysis Center (MIAC). As a 24/7 operation, the MIAC provides a public safety partnership for local and state agencies that will collect, evaluate, analyze, and disseminate information and intelligence in a timely, effective and secure manner. MIAC also collects suspicious activity reports to be evaluated and analyzed to identify potential trends or patterns of terrorist or criminal operations within the state of Missouri. Additionally, MIAC requires sustained, recurring funding to support its suite of mission-critical software tools. All software used by MIAC operates on annual subscription models—there are no one-time purchase options available. These tools are essential for fulfilling MIAC’s responsibilities which include intelligence sharing, public safety, and homeland security. The specialized software platforms utilized by the MIAC include Case Management & Secure Information Sharing, Situational Awareness, Open Source Intelligence (OSINT), Financial Analysis, Multimedia Forensics, and Unified Search Capability. This NDI request will cover the annual salary for 2 federally funded positions and secure dedicated funding for ongoing software subscription costs.

The Patrol has four (4) armored vehicles assigned to Mobile Field Force teams and S.W.A.T. at Troops A, C, D, and F. A new vehicle for Troop C was purchased in 2024 and the other three vehicles were purchased in 2006. The age of the armored vehicles purchased in 2006 has negatively impacted their reliability. This is a reappropriation from FY26. The difference in the amount listed and the FY26 NDI amount is \$64,124, which reflects the current cost of an armored vehicle.

Based on historical purchasing data of new Patrol vehicles, there has been an approximate 50% increase in vehicle prices from 2018 to 2025. Since the last core increase in this appropriation in 2017, the Patrol has been able to absorb some of these inflationary price increases due to lower staffing levels. Historically, the Patrol purchases, on average, approximately 400 vehicles per year. If staffing levels were at historical norms, the price increases could not be covered without additional funding.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If**

The Patrol anticipates replacing approximately 325 vehicles in FY27. The Dodge Charger is no longer available for purchase requiring the Patrol to purchase SUVs, which has an average increased cost of \$8,890 from the 2023 Police Pursuit Dodge Charger as compared to 2026 vehicles.  
325 x \$8,890 = \$2,889,250

The current General Headquarters laboratory will relocate into a new 130,000 square feet. laboratory in October 2026. The relocation of highly complex and sensitive laboratory equipment to the new laboratory will require coordination with numerous vendors. The vendors must specialize in the crating, transporting, and installation of this equipment in order to ensure the instruments are not damaged and remain in full working condition. In addition, the new laboratory will allow for new forensic science opportunities and expanded services that cannot be performed in the current, outdated facility. The Crime Lab is requesting necessary funds to pay for the relocation of scientific equipment, chemicals and supplies to the new laboratory along with funds to purchase new equipment in order to expand services at the new location.

Agents have a diverse set of duties including review new liquor licenses (7,700+ in FY'25) and renewal applications with changes (a significant portion of the 27,000+ issued for FY'26) to determine applicants' qualifications and eligibility for licensure, conduct routine inspections at roughly 13,000 individual locations across the state, conduct enforcement activities of both instate and outstate licensees (approximately 16,000 licensees), conduct free Server Training presentations (64 training sessions with over 950 retail employees/business owners trained in FY'25), and work diligently to build partnerships with local partners. The agent to license ratio is roughly 1:1,070; much higher than most states. As Liquor Law and the industry continue to evolve and expand, agents are unable to adequately maintain compliance with current staff levels (just 15 frontline liquor agents), and turnover only amplifies the issue. This creates an unfair playing field and leads to liquor violations, but also wider-scale societal issues.

The Jefferson City and Springfield district offices operate with just three field agents each, which makes balancing office and field work a challenge, especially when there are vacancies. ATC is asking for two agents, one per district, to reduce the impact when vacancies occur and to improve the agent to license ratio and our effectiveness.

ATC is responsible for ensuring that all brands sold in Missouri are safe for consumers. We do this through the brand registration process (over 25,000 annually). By statute, any brand registration submission that is not approved within five working days receives conditional approval. Given that, the goal is to be within five days on processing; however, we are currently 48 days out. Some distributors do not acknowledge the conditional approval, one being a very large distributor, which delays distribution of these products and has a negative impact on the industry.

ATC is also responsible for collecting excise tax for all intoxicating liquor solicited and sold in Missouri. In FY'25 over \$51.1 million was collected in excise tax. Of that, \$432,821 was collected as a result of desk audits. Malt and liquor excise tax collections are deposited to General Revenue, while wine tax goes to the Department of Agriculture and the Missouri Wine and Grape Board. The goal is to be on the current month for reconciliation to ensure the state gets timely payment of all excise tax owed; however, we are currently 15 months out, due in part to a vacancy that remained unfilled for over a year.

Having a hybrid brand registration-excise tax position would make a significant impact on these two sections. Currently we have just two full-time and two part-time brand staff, and two full-time excise staff, all of whom, in addition to their primary functions, have other areas of responsibility. Both sections have experienced occasional turnover which creates a two-fold burden in added workload from the vacancy and the added capacity needed to train new hires. This hybrid position would provide flexibility to absorb the impact of vacancies and increase the velocity of work productivity.

The ATC auditor is primarily responsible for identifying and addressing trade practice violations statewide and assisting with revenue collection efforts. With only one, it is challenging to effectively respond to concerns of trade practice issues and to ensure a level playing field. The current auditor reviews wine direct shipper reports, documents violations, and assists in the collection of additional excise tax, penalty, and interest. With no statutory reporting requirement for alcohol carriers, the reviews are time consuming and require meticulous manual review. A second auditor would allow for more focused efforts with field audits, allow for assistance with wine direct shipper reviews, and would avoid a complete stall of work when vacancies exist.

ATC is a small agency that is responsible for all state liquor licensing across Missouri and for all out-of-state licensees that ship into Missouri, collecting excise tax, registering all brands sold in Missouri, and enforcing all the liquor laws and regulations. The division has 38 FTE that do the above for over 16,000 licensees. We have a very limited staff, which makes it difficult to fully and effectively perform all of our duties. We are asking for 2 agents, 1 auditor, and 1 hybrid brand label and excise tax staff to allow some relief and to better equip the division to perform the duties that are required. This would also benefit the industry, providing them more timely customer service. Several responses on the most recent Quarterly Pulse Survey requested additional staff, which speaks to how the voluminous amount of work with the limited number of resources is impacting our staff.

Section 311.735, RSMo created the Division of Alcohol and Tobacco Control Fund within the state treasury. Section 311.730, RSMo provides that 70% of the fees collected from liquor licenses and permits are deposited to this fund. Money that is collected into the fund may only be used by the Division of Alcohol and Tobacco Control for the administration of the liquor control laws and laws prohibiting the sale of tobacco to minors, and any other duties relating to licensing, training, technical assistance, brand registration, and excise tax collections. There was \$8.3 million in the fund on July 9, 2025. ATC expects to add a minimum of \$4.4 million each year (license fee collections were \$6.3 million in FY25). The current appropriation from this fund is \$6.9 million dollars (\$2.3 million funds the development of ATC's online system set to go live in FY26). The Division is asking for \$630,205 in FY27 and \$475,453 ongoing from this fund to hire two agents (\$66,000 PS and \$108,189 E&E, each), one hybrid brand and excise tax clerk (\$45,650 PS and \$11,572 E&E), and one auditor (\$53,900 PS and \$12,232 E&E), which includes \$158,473 estimate fringe for all four. 10% has been added to each of the salaries to ensure we have sufficient appropriations to support the Governor's years of service pay plan in the event these positions are filled by current state employees with many years of service. E&E includes office equipment, annual subscriptions, and supplies for all staff, and vehicles, maintenance, and law enforcement equipment for agents. ATC will be able to more efficiently and effectively handle the operations of the Division with these additional staff.

**2. CORE DESCRIPTION**

Pursuant to Section 311.240.4, RSMo, application for renewal of licenses must be filed on or before May 1st of each year. Thus, the Division uses the refund allotment to refund license fees that were paid in advance and not used due to various reasons such as sale of the business. The Division must refund businesses that have paid in advance for a license that was not used. This ensures compliance with Regulation 11 CSR 70-2.150(2), which addresses refunds on licenses.

**Bill Section 8.215**

The Boiler and Pressure and Vessel Safety Inspection Program strives to ensure the safety of the general public while in office buildings, churches, schools, day care centers, convenient stores and other similar public and commercial locations by providing oversight of the inspection of boilers and pressure vessels. The program is currently staffed with seven inspectors, a Program Manager, one clerical, and one part-time position. Inspectors are responsible for conducting inspections throughout the entire state on objects not otherwise inspected by insurance company inspectors or municipal inspectors.

The workload of the program is tremendous. Each Division inspector averages 940 inspections annually. At this time, approximately 47,000 objects are registered with the Boiler and Pressure Vessel Safety Program. Currently 7,977 boilers and pressure vessels are past their expiration date requiring inspection by Division of Fire Safety staff. The average inspection time for Boilers and water heaters can range from one to two and half hours, and the average inspection time for pressure vessels can range from fifteen minutes to one and a half hours. This does not include the time it takes to travel to each location. Additional inspectors would cut down the travel time and help address the amount of overdue objects.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

This request is for two Boiler and Pressure Vessel Safety field Inspectors to address the backlog of uninspected objects.

**Bill Section 8.215**

The Division of Fire Safety is requesting one-time funding to replace four vehicles in FY27. The vehicles associated with this request have an average age of 7 years and an average mileage of 133,461. Each vehicle assignment has been evaluated, and each vehicle requested is based on current and projected mileage. High-mileage vehicles are proven to be more costly. Repair and maintenance costs continue to rise, adding further strain to an already tight expense budget. As always, our major concern is the safety of our employees. The Division of Fire Safety administration strongly feels as though we are jeopardizing employee and citizen safety by not continuing to provide staff with dependable transportation. This request is for 1 full-size vehicle and 3 mid-size vehicles, as well as funding for related safety and evidence storage equipment.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

A one-time appropriation of \$151,300 to replace aging, high-mileage vehicles is needed.  
 \$48,000 - 1 full-size vehicle  
 \$88,800 - 3 mid-size vehicle  
 \$14,500 - Truck bed covers, slide-outs and supporting inspection and investigation equipment.

According to RSMo Chapters 316, 320, 650, & 701, the Division of Fire Safety responsibilities include investigating fires and explosions in Missouri; fireworks permitting and shooter training and licensing; conducting fire safety inspections in facilities licensed by Mental Health, Family Services, and Health and Senior Services; boiler and pressure vessel safety inspections; training and certification of fire service, EMS, and law enforcement personnel; amusement ride permitting, safety inspections, and accident investigations; elevator safety inspections; the licensing and regulation of blasters and blasting companies; and the oversight of the Division's budget and program planning and policies. The requested flexibility would assist to ensure that the most efficient and effective services are provided. Effective response to changing situations is difficult when working within the boundaries of fixed budgets which have decreased over the last several years. Due to core reductions and restrictions, expense budgets are tight. Flexibility to operate across appropriation lines among all funds is needed to meet statutory obligations and continue providing the best possible service to the citizens of Missouri.

**2. CORE DESCRIPTION**

The most recent report published by the National Fire Protection Association (NFPA) states an estimated annual average of 18,100 (5%) reported home structure fires started by smoking materials killed an average of 590 (23%) people annually, injured 1,130 (10%), and caused \$476 million in direct property damage (7%) between 2012- 16. In order to reduce deaths and injuries from this preventable tragedy, as well as to decrease property loss from fires due to unattended cigarettes, the 2009 General Assembly passed House Bill 205 and created the Fire Safe Cigarette Act. This Act requires the Division of Fire Safety to regulate the sale of reduced ignition propensity cigarettes. Similar programs have been implemented within State Fire Marshal offices in all 50 states, and proven to reduce the number of cigarette-related fires. Division responsibilities include a certification process for cigarette brand families and individual cigarette styles, including recertification every three years; recertification if the cigarette is altered in any way; notification of certifications to the Attorney General and the Department of Revenue; a monitored testing process; approval of cigarette markings; handling of funds for certification processing; and management of the Cigarette Fire Safety and Fire Fighter Protection Act Fund to be used for the delivery of fire prevention and safety programs. The Division has registered or renewed 4,986 Brand Styles as reduced propensity cigarettes.

**2. CORE DESCRIPTION**

This funding provides a wide spectrum of courses at no cost to the fire service, law enforcement personnel, emergency responders, local emergency planning committees, and other state agencies upon request. It is estimated that at least 80% of Missouri's approximate 25,000 fire fighters volunteer their service and often represent departments with little or no budget for training. The intent is to provide emergency response personnel with the most current training available in order to prepare them to respond to lifesaving incidents involving the citizens and visitors of our State. These training programs, from the basic firefighter course to the very complex technical rescue course, represent the most fundamental and integral part of emergency services. Without funding for these programs, the health and safety of firefighters and emergency responders around the state will be directly effected, as well as the countless citizens who depend on an effective response in their time of need. Although not state-mandated, 75% of the fire departments serving populations of 10,000 or more citizens require fire fighter training and/or certification. To charge for training programs is possible; however, to do so would significantly decrease their effectiveness by reducing their exposure to the target audiences. The result would be a sharp decline in readiness, safety, and professionalism of our emergency services.

Six new Veterans Service Officers are needed to add support to the underserved regions within Missouri. While the salary increases over the last few years have proven to aid in retention among employees. VSOs had a turnover of 88.1% in FY25 due to the workload. **2. CORE DESCRIPTION**

Overtime is a necessary expenditure in any 24-hour skilled nursing care setting and the Missouri Veterans Homes are no exception. Prior to payroll reimbursement from Corona Virus Relief Funds, this overtime appropriation was exhausted by the middle of the fiscal year. When the authority in this appropriation is fully expended, overtime pay reverts back to the regular payroll appropriation within the Veterans Homes fund.

Increase Homes E&E to support the ever-increasing costs to care for Veterans in the Homes.

As census continues to increase the costs of care continues to rise for food, medication, contracted medical care, etc.

Increase nursing positions by 80 FTE in FY27 in order to achieve a census of 1070 Veterans Home beds filled. This is a phased approach that would require subsequent increases in FY29 and FY30. With these increases, MVC is confident in returning to full census capacity of 1,238 by FY30.

**2. CORE DESCRIPTION**

The Gaming Commission's role is to monitor gaming-related activities to ensure criminal elements do not infiltrate licensed gaming operations. The Commission also works to protect the public by ensuring games are conducted fairly according to rules. The Commission receives its operation funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955, RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

**2. CORE DESCRIPTION**

Fringe benefits for employees of the Missouri State Highway Patrol assigned to Gaming are provided through a retirement and insurance system other than MOSERS and MCHCP. Because of this, state contributions for these fringes are paid directly to the systems and not transferred. It is necessary that specific funds for this purpose be appropriated. Benefits include health and life insurance, retirement and long-term disability, worker's compensation, and the Employee Assistance Program.

**2. CORE DESCRIPTION**

The Gaming Commission receives its operational funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955 RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows:\$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

**3. PROGRAM LISTING (list programs included in this core funding)**

**2. CORE DESCRIPTION**

The Gaming Commission receives its operational funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955 RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

**2. CORE DESCRIPTION**

The State Emergency Management Agency (SEMA) is the state of Missouri's coordinating agency for disaster planning, response, and recovery. SEMA works with other state departments and agencies, local and federal governments, and volunteer and faith-based organizations to ensure coordinated and efficient management during large scale emergencies and disasters. When a disaster occurs that exceeds the recovery capability of local and state resources, SEMA assists the Governor in compiling information necessary to initiate a request for federal disaster relief funds. When a disaster is declared by the President, SEMA administers the funds for relief purposes and functions as the liaison between other state agencies, affected local subdivisions, and the federal government. As confirmed by a hazard vulnerability analysis, Missouri has a long and varied disaster history, thus; a potential exists for repeated catastrophes and disasters - both would threaten life and property in Missouri. SEMA is also responsible for administration of the National Flood Insurance Program within Missouri. Other duties include the year-round administration and dispersal of federal funds to local governments for emergency management activities, year-round coordination of planning and response activities for public health emergencies and the on-going training and exercise program for local government officials. SEMA is responsible for assisting local governments in developing local emergency operations plans, which will increase their capability to provide for the protection of their population from disasters.

**2. CORE DESCRIPTION**

The Missouri Emergency Response Commission (MERC) is responsible for administering the state and federal Emergency Planning and Community Right-to-Know Act (EPCRA). Industries affected by this legislation are required to report to the MERC annually to comply with state and federal laws. Fees are collected annually according to established reporting procedures. The MERC provides response and mitigation training of hazardous chemical accidents to Local Emergency Planning Committees or Districts (LEPCs & LEPDs), and Fire Departments. The MERC assists the LEPCs & LEPDs in the development and review of hazardous materials plans and serves as a distribution point for the Federal Hazardous Materials Transportation Uniform Safety Act funds of 1990 (HMTUSA) for training and planning grants.

Debris removal for non-declared disasters and LEPC and LEPC state grant funding is also provided. In FY 25 a one-time appropriation was added to spend funding deposited into a newly created Ag Resiliency Fund.
