The Department of Revenue was established in 1945 by the Missouri Constitution to serve as the central collection agency for all state revenue. The primary duties of the Department are to collect taxes, title and register motor vehicles, and license drivers. The Department of Revenue consists of the following divisions:

The ***Taxation Division*** administers Missouri's tax laws. It processes and administers forms and reports for the collection of revenue due the state and local taxing jurisdictions. This division has five bureaus: Business Tax, Income Tax, Collections and Taxpayer Assistance, Processing, and Field Compliance.

The ***Motor Vehicle and Driver Licensing Division*** administers Missouri's laws that relate to titling and registration of motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft; licenses drivers and dealers; and oversees 173 contracted license offices. This division consists of three bureaus: Motor Vehicle, Driver License, and License Offices.

The ***General Counsel's Office*** ensures the Department's compliance with law and internal policies, advises the director and divisions on legal matters relative to the Department, and represents the Department in courts and administrative tribunals. The office also includes three investigative bureaus: Criminal Tax Investigation, Compliance and Investigation, and Internal Audit and Compliance.

The ***Administration Division*** provides administrative support to all other areas of the Department. This division includes three bureaus: Human Resources and Total Rewards, Financial Services, and General Services.

The Director's Office is also part of the Administration Division. The Director's Office includes the director, chief operating officer, key administrative staff, the Communications Office and the Legislative Office.

The Department is committed to delivering focused and efficient results to Missouri citizens and businesses. The Department's "placemat" highlights the themes and initiatives the Department is pursuing to achieve its vision of providing *every* customer the best experience *every* time.

Department strategic overview: FY24 Budget

DEPARTMENT:	Revenue
DIRECTOR:	Wayne Wallingford
DEPARTMENT ASPIRATION:	To provide every customer the best experience every time.
HIGHLIGHTS FROM FY21-FY22	<ul style="list-style-type: none"> • Customer Focus - Continued emphasis on our vision, mission, and values for the Department (DOR). Our vision is "To provide <u>every</u> customer the best experience <u>every</u> time". This new vision, mission, and values became an integral part of our FY23 dashboard development. • REAL ID - As of September 7, 2022, license offices had processed 1,842,155 REAL ID-compliant transactions since March 25, 2019. Overall, REAL ID transactions have accounted for approximately 36% of all transactions in September, 37% in both August and July and 35% in June 2022. DOR continues to communicate the new REAL ID deadline of May 3, 2023. • Taxation Secondments - In May 2021 and again in 2022, the DOR Taxation division implemented the Income Tax Secondment. A Secondment is define as a temporary transfer to another role or business area away from your primary job. The Secondments team won the Governor's Award for Quality and Productivity in 2022. • ChatBot - DORA - Since launching on November 2, 2019 and through August 31, 2022, the DOR's 24/7 virtual assistant chatbot, DORA, has handled 5,124,763 customer inquiries. On average, 27.4% of user sessions have occurred during non-business hours (outside of 8 a.m. to 5 p.m. on weekdays), and DORA has been able to answer 94% of all inquiries. The DORA is available via Facebook integration, SMS texting, and DOR website. DORA has been enhanced in 2021 to allow for customer feedback and in 2022 to allow for live agent chat sessions. • Digital Work - Throughout FY21 and FY22, the DOR worked towards a paperless workplace in order to reduce reliance on paper processing, increase workforce mobility, and improve response time. The DOR was able to work with our vendor to program our IBML 6400 scanners to create digital images that can be stored in various secure sites for team member access. These scanners had previously only be used to image tax returns and for payment processing. • Diversity and Inclusion - The Diversity and Inclusion Counsel conducted culture talks with DOR team members and are working on opportunities for improvements for FY22. • Integrated Motor Vehicle and Driver Licensing System - Worked with the legislature and other entities to secure funding for a state-of-the-art customer-centric integrated motor vehicle and driver licensing system.
FY23 PRIORITIES	<ul style="list-style-type: none"> • Talent Acquisition and Retention - Focus on long-term human resources planning and recruiting appropriate candidates for positions within the Department. • License Office Training - Improve License Offices transactional accuracy and reduce internal staff workload by developing License Office training videos for Motor Vehicle and Driver License transactions. • MVDL Communications - promote REAL ID, Mobile ID, and Electronic notifications through various media channels and license offices. • Integrated Motor Vehicle and Driver Licensing System - Begin the development of the modernization and integration of the state-of-the-art customer-centric integrated motor vehicle and driver licensing system. • License Offices Contract Renewal Process- Develop a streamlined and systematic approach to track and report on license office contract renewals. • Online Driver License Program - Design, develop, and implement an online driver license renewal portal and implement a digital driver license program. • Implement Remote Seller Provisions - Ensure all required provisions of SB153 are implemented and available for businesses required to file returns and pay tax on Missouri sales. • Missouri Online Renewal Exchange (MORE) - Modify the online application to allow customers to choose a license office to process their
FY24 PREVIEW	<ul style="list-style-type: none"> • Integrated Motor Vehicle and Driver Licensing System - Have a portion of the integrated system available for processing DOR MVDL transactions. • Customer Service Feedback - The DOR will partner with OA to identify software and hardware to place in license offices to capture customer satisfaction feedback with real-time data analytics. • Economic Development Partner - Use integrated systems to access and analyze data to become a best-in-class economic development partner. • Lower Turnover - Reduce turnover and become a top employer in the state.

INITIATIVES

Talent Acquisition & Retention:

Focus on long-term human resources planning and recruiting appropriate candidates for positions within the Department.

License Office Training:

Improve License Offices transactional accuracy and reduce internal staff workload by developing License Office training videos for Motor Vehicle and Driver License transactions.

Legislative Review:

Complete a review of Motor Vehicle and Driver License rules and statutes and make recommended changes to allow for the most efficient implementation of the upcoming integrated MVDL system.

Enhance Customer Experience:

Focus on Improvements the Taxation Division can make to our processes that reduce the burden on our customers to comply and provide easier submission methods.

MVDL Promotions:

Promote REAL ID, Mobile ID, and Electronic Notifications through various media channels and License Offices.

FCB Audit/Education Strategy:

Focus on ensuring each business industry operating in the State of Missouri has the information necessary to collect the correct amount of sales and use tax.

Administrative Alcohol Hearings:

Make improvements to the administrative alcohol hearings processes.

DOR Leadership Essentials and Applications Program (LEAP):

Develop and implement an advanced leadership program for department leaders.

Create an Associate Auditor Pilot Program:

Develop a pilot program to establish an associate auditor classification.

Taxation Workforce Planning:

Develop and implement a formal workforce planning document, which establishes competencies for every position in Taxation. Routinely recognize those team members that make significant contributions to their work group or the Department.

Annual License Office Meetings:

Conduct annual license office meetings to improve communication, offer training, and receive feedback from License Offices.

License Offices Contract Renewal Process:

Develop a streamlined and systematic approach to track and report on license office contract renewals.

Electronic Payroll Transaction Change Process:

Develop and implement an electronic process for Payroll Transaction Changes (PTC).

Implement Remote Seller Provisions:

Ensure all required provisions in SB153 are implemented and available for businesses required to file returns and pay tax on Missouri sales.

MVDL Modernization:

Recognize and onboard awarded vendor and identify system infrastructure needs.

Missouri Online Renewal Exchange (MORE)/Remote Driver License Updates:

Allow license offices to process online transactions.

Revenue Premier Enhancements:

Make improvements to Revenue Premier to improve efficiency.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The FY 2024 budget includes appropriation authority for the statewide pay increase for employees, including three components:

- 8.7% pay increase for employees;
- Updated shift differentials for staff working in 24/7 congregate care facilities to \$2 per hour for evening and overnight shifts; and,
- A market-based pay increase for non-commission based executive agency directors (based on the 2019 State of Missouri Compensation & Benefits Study commissioned by CBIZ, aged by 10.7% to July 2022, based on private and public sector data for neighboring states only; or a 4.33% COLA for directors already making the CBIZ rate, based on the lowest percent increase given to directors currently being paid under the CBIZ rate).

2. CORE DESCRIPTION

Constitutional Amendment 3, passed by a majority vote on the 2004 General Election ballot, limits the amount of highway funding the Department of Revenue may spend for the cost of collection up to but not exceeding 3 percent of the collection of a particular tax or fee collected per Article IV, Sections 29, 30(a), 30(b), and 30(c) of the Constitution of the State of Missouri.

The Highway Collections core is comprised of the highway funding the Department is appropriated pursuant to Constitutional Amendment 3 and the amount of General Revenue needed to fund the motor fuel tax, motor vehicle sales and use tax, and the motor vehicle and driver license issuance, renewal, and suspension responsibilities of the Department as set out in statute. Failure to fulfill these statutory obligations would have a negative impact on the collection of highway funding and diminish the safety of Missouri's highway system because motor vehicle and driver license suspension and revocation actions could be jeopardized.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Missouri Vocational Enterprises (MVE) produce vehicle tabs, decals and disabled placards for the Department of Revenue. Due to increased raw material prices, the Department's cost for tabs, decals, sheeting, and disabled placards increased effective October 15, 2022 as indicated in the chart in question 4 below.

Section 301.290.1, RSMo, states the "Correctional enterprises of the Department of Corrections shall purchase, erect and maintain all of the machinery and equipment necessary for the manufacture of the license plates and tabs issued by the director of revenue and signs used by the state transportation department". Section 301.290.3, RSMo, states "Correctional enterprises shall furnish the plates and signs at such a price as will not exceed the price at which such plates and signs may be obtained upon the open market, but in no event shall such price be less than the cost of manufacture, including labor and materials."

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The estimated annual cost increase for the Department based upon order volume is calculated as follows:

The Systematic Alien Verification for Entitlements (SAVE) Program is an inter-governmental information sharing initiative designed to aid licensing bureaus in verifying a driver license applicant's immigration status for lawful presence. Section 302.171 RSMo requires that the director shall verify that an applicant for a driver's license is lawfully present in the United States before accepting the application. The electronic verification of lawful status is also mandated per the provisions of the REAL ID Act of 2005 to maintain a compliant REAL ID document issuance program pursuant to 302.170 RSMo. The United States Department of Homeland Security has provided notification of a rate increase from \$0.50 to \$1.00, effective October 1, 2023, with incremental increases to be applied in the subsequent four fiscal years until the full increased fee of \$3.10 per inquiry is met.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The current annual SAVE verification transactions is 71,322 based on FY 22 inquiries. With the rate increase of \$0.50 per inquiry per year, the estimated cost for FY24 is \$71,322.00 and will increase an additional estimated \$35,661.00 in FY25, FY26, and FY27. FY28 the fee increase will be \$0.60 per inquiry for an estimated fee increase of \$42,793.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

On-going participation in SAVE program for electronic verification of lawful status.

6b. Provide a measure(s) of the program's quality.

Non-U.S. Citizen applicants, who require verification of lawful status may continue to apply for licensure.

6c. Provide a measure(s) of the program's impact.

Continued compliance with Missouri law and the REAL ID Act of 2005 by verifying a United States Citizenship and Immigration Services (USCIS) document holders' lawful status and status end date. This allows those applicants to be issued accurate documents for the allotted time allowed per verification of lawful status and status end date.

6d. Provide a measure(s) of the program's efficiency.

Electronic verifications continue allowing more timely issuance of documents to applicants presenting USCIS documents.

2. CORE DESCRIPTION

The Department of Revenue currently uses approximately 50 disparate motor vehicle and driver licensing systems that includes a mixture of mainframe, PC software and distributed web applications to support the Motor Vehicle and Driver Licensing (MVDL) Division. The current legacy systems have been in operation for many years and were developed uniquely for each function. The systems are becoming increasingly difficult and expensive to use and maintain. Mainframe costs will continue to increase as other state agencies transition from the mainframe to newer technology. The various systems were built using a silo approach, which substantially limits communication between them. Limited ability to expand data collection (e.g., vehicle colors) makes it difficult to support safety initiatives, such as AMBER Alerts, that rely on quick identification of vehicles. With such systems, the Department is limited in leveraging newer technology to realize processing efficiencies and deliver quality service to its customers. Moreover, the existing systems will be difficult, if not impossible, to modify to accommodate new mandates that might arise from the state legislature or the federal government.

Newer, more nimble, and robust technologies are available, which may significantly improve the Department's ability to issue titles and register motor vehicles, trailers, all-terrain vehicles, manufactured homes (title only), and marine craft; issue driver license and nondriver identification cards; suspend and revoke driver licenses when applicable; track and account for revenue collected from motor vehicle and driver license transactions; and better serve Missouri citizens.

CORE DECISION ITEM

Department of Revenue	Budget Unit	86104C
Division - Motor Vehicle and Driver Licensing		
Core - MVDL System	HB Section	4.005
<p>The Department's overall objective is to update or replace existing systems with an integrated customer-centric MVDL system. The Department expects to realize the following benefits with an integrated system: reduced operational and maintenance costs; additional ways to identify and collect delinquent taxes; expanded online services (including a DMV portal for public access); an integration that allows access to both driver and motor vehicle data when viewing a customer's record to improve the customer's experience; quicker and easier implementation of law changes; and more reliable data with better analytical capabilities.</p> <p>During the 2021 legislative session, SB 176 passed, which updates the requirements relating to dealer administrative fees in §301.558 so that ten percent of any fee authorized under this section and charged by motor vehicle dealers shall be remitted to the the newly enacted Motor Vehicle Administration Technology Fund. Monies in the fund shall be used solely by the department of revenue for the purpose of development of a modernized, integrated system for the titling of vehicles, issuance and renewal of vehicle registrations, issuance and renewal of driver's licenses and identification cards, and perfecting and releasing of liens and encumbrances on vehicles. At the time the new system is complete, the ten percent of fees collected will decrease to one percent for system maintenance.</p>

2. CORE DESCRIPTION																			
The Taxation Division collects taxes mandated by Missouri statutes, which account for more than 98 percent of general revenue, by inputting returns and payments into the integrated tax system, manually reviewing returns, correcting returns, approving refunds, sending out notices, answering correspondence and phone calls, distributing tax revenue to political subdivisions, registering businesses, operating collections programs, and conducting audits. The Division requests to continue core funding to effectively and efficiently administer and enforce Missouri laws.																			
The core includes an appropriation for organization dues to the Multistate Tax Commission. The Multistate Tax Commission keeps the Department informed of tax operations and procedures in other states and at the national level. Membership is mandated by Section 32.200, RSMo, and allows Missouri to participate in and receive revenue collections from multi-state audits.																			
Additional divisional costs are included in the Highway Collections budget unit.

PROGRAM DESCRIPTION

Department of Revenue

HB Section(s): _____

Program Name: **Business Tax Bureau**

Program is found in the following core budget(s): **Taxation**

1a. What strategic priority does this program address?

Embed Transformational Purpose; Focus on Service Culture; Partnerships; IT Roadmap

1b. What does this program do?

The **Business Tax Bureau** collects excise taxes, reviews and issues sales/use tax refunds, responds to sales/use tax and employer withholding tax correspondence, and distributes locally imposed sales/use taxes to local jurisdictions to provide every customer the best experience every time.

2a. Provide an activity measure(s) for the program.

i. Excise Tax - Volume of Returns and Payments

Excise Tax processes returns and payments for the following tax types: motor fuel, cigarette and other tobacco products, and financial institutions. The section also processes all county fee payments. The Department continues looking for ways to increase the number of electronically filed returns and payments. There was a slight decrease of 1% in the number of returns and payments received electronically in FY 2022 compared to FY 2021.

PROGRAM DESCRIPTION

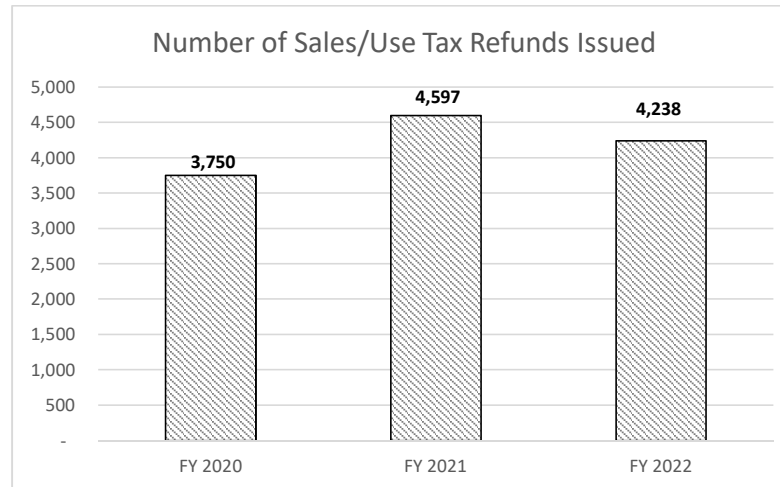

Department of Revenue

HB Section(s): _____

Program Name: **Business Tax Bureau**

Program is found in the following core budget(s): **Taxation**

ii. Sales/Use Tax Refunds - Volume of Refunds Issued

Unlike income tax refunds, sales/use tax overpayments are not issued directly from a return. Sales/use tax refunds must be submitted to the Department via a refund request form. A refund request may consist of one or multiple filing periods. Customers may apply for a sales/use refund for filing periods with payments within ten years from the request date. Each refund request is closely reviewed to ensure the appropriate tax was paid on Missouri sales before a refund is issued. In FY 2022, we noted an 8% decrease in number of refunds issued.

PROGRAM DESCRIPTION

Program Name: **Business Tax Bureau**

Program is found in the following core budget(s): **Taxation**

iii. Correspondence - Volume of Correspondence Received

The Department experienced an increase in correspondence received during FY 2022. The increase was caused by a number of factors, including several that were beyond the section's control. In FY 2023, the Department has begun evaluating our existing non-filer process, which results in a significant portion of our incoming correspondence. By refining the process, we feel we can limit the impact to our customers and our staffing through the reduction of unnecessary notices.

iv. Local Tax - New Sales/Use Taxes Imposed by Cities, Counties and Districts

New sales/use tax rates are imposed each quarter based on ballots passed by Cities, Counties, and Districts. The Department anticipates that FY 2023 may see a large number of use taxes imposed from the passing of Remote Seller Legislation that goes into effect January 1, 2023.

2b. Provide a measure(s) of the program's quality.

i. Excise Tax - Denied Refund Dollar Amount

Motor fuel refund requests can be denied for various reasons, including: out-of-date refund requests, no Missouri fuel tax was paid, or the fuel use is not exempt from Missouri tax. In FY 2020, an abnormally large refund request was received and denied as it did not meet statutory requirements.

PROGRAM DESCRIPTION

Department of Revenue

HB Section(s): _____

Program Name: **Business Tax Bureau**

Program is found in the following core budget(s): **Taxation**

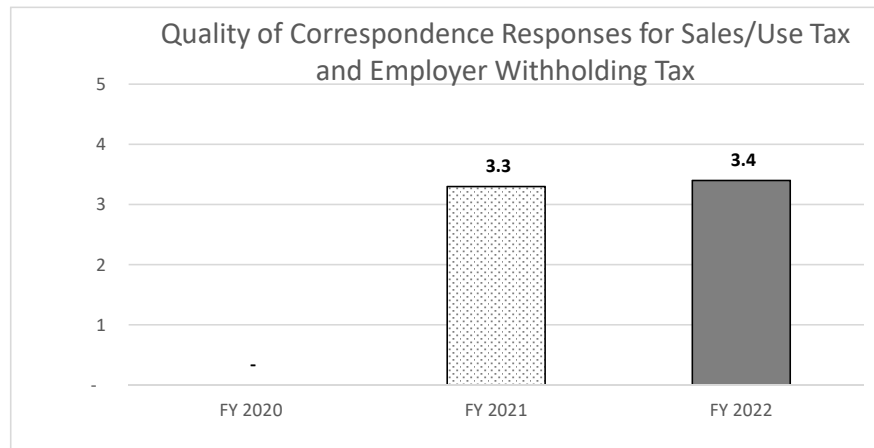

ii. Sales/Use Tax Refunds - Denied Refund Dollar Amount

When a refund request is received, it is reviewed to ensure the correct amount of tax was paid on Missouri sales. If it is determined the sales were taxable or tax wasn't paid, the refund request is denied or reduced.

We continually work with customers and tax practitioners to ensure sufficient information is provided to deliver the quality service. This effort has reduced the claims denied for lack of information.

iii. Correspondence - Quality of Correspondence Responses for Sales/Use Tax and Employer Withholding Tax

The Department did not track data for the quality of our correspondence processing for FY 2020. In early 2021, we implemented a survey feature in our email responses to customers to rate their satisfaction of service with the Department. The overall quality of our responses for sales and withholding correspondence was rated at a 3.4 out of 5 or 68% for FY 2022. This is a 2% increase from FY 2021 to FY 2022.

iv. Local Tax - Dollars Distributed

The Department collects and distributes state and local sales and use tax from in-state and out-of-state businesses. The distribution is completed by the 10th day following the month in which the sales and use tax returns are processed.

PROGRAM DESCRIPTION

Department of Revenue

HB Section(s): _____

Program Name: **Business Tax Bureau**

Program is found in the following core budget(s): **Taxation**

2c. Provide a measure(s) of the program's impact.

i. Excise Tax - Dollar Amount of Refunds

An average of 6,163 excise tax refunds have been processed each fiscal year for the past three fiscal years. The refund applicant must provide the original fuel tax receipts to verify that Missouri fuel tax was paid. The user must apply for a refund within one year from the date of purchase or April 15 of the year following the purchase, whichever is later. The number of refund claims received in FY 2022 decreased by 792 which also resulted in a reduction in the total refund dollars issued. We expect an increase in FY 2023 in total excise refund claims as a result of Senate Bill 262 passed in the 2021 legislative session, which allows for a refund of the tax increase paid on motor fuel used for highway purposes.

ii. Sales/Use Tax Refunds - Dollar Amount of Refunds

An average of 4,195 sales and use refunds were processed each fiscal year for the past three fiscal years. A refund could include one tax filing period or up to 120 filing periods.

In FY 2021, we received several larger refund claims due to lower than expected sales during the peak of the COVID-19 social distancing mandates. In addition, the cross education of additional staff resulted in a higher number of refunds issued.

PROGRAM DESCRIPTION

Department of Revenue

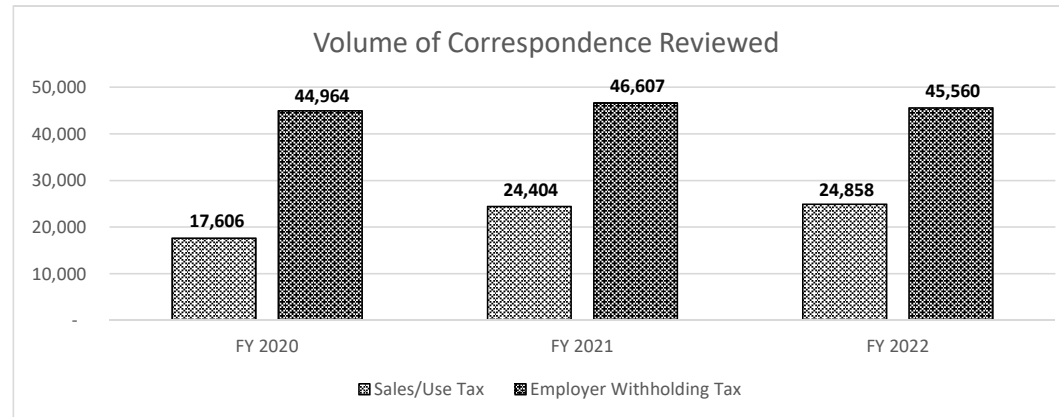

HB Section(s): _____

Program Name: **Business Tax Bureau**

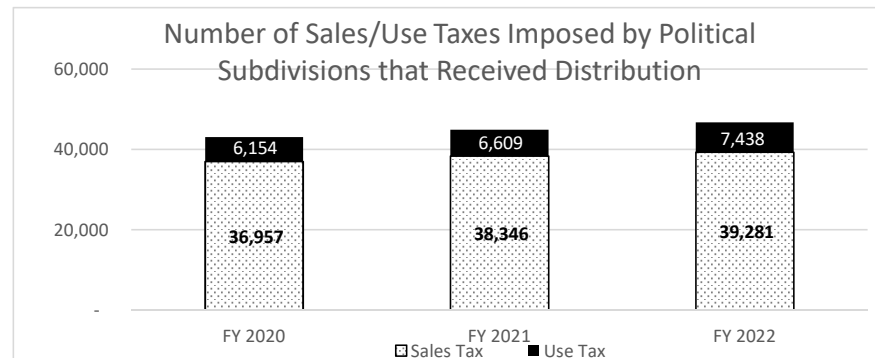

Program is found in the following core budget(s): **Taxation**

iii. Correspondence - Volume of Correspondence Reviewed

Correspondence is received by many media types, such as: mail-in, email, and MyTax Missouri portal service requests.

iv. Local Tax - Number of Sales/Use Taxes Imposed by Political Subdivisions

Cities, counties, and districts can impose several different types of sales/use taxes in accordance with local sales/use tax statutes. The Department then separately distributes each tax imposed/collected to the applicable political subdivisions. The number of sales and use taxes imposed by political subdivisions will vary depending on newly imposed taxes, annexations, and expirations of tax.

2d. Provide a measure(s) of the program's efficiency.

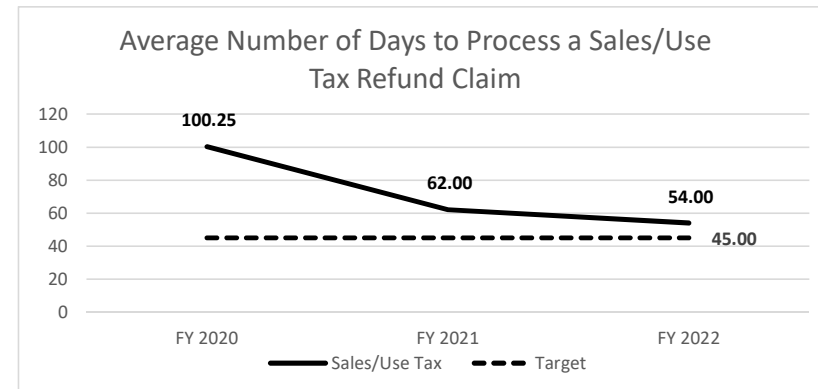

i. Excise Tax - Days to Process a Refund Claim

A motor fuel refund applicant must provide the original fuel tax receipts verifying Missouri fuel tax paid. Each refund request is reviewed to ensure motor fuel tax was paid to Missouri. The COVID-19 pandemic impacted the processing time in FY 2020. We cross educated additional staff on this function as well as adopted a "scan first" policy that scans incoming paper documents to PDFs which resulted in a reduced cycle time in FY 2021. As a result of SB262, passed during the 2021 legislative session, beginning October 1, 2021, taxpayers were no longer required to submit the original receipts with their claim and requires refunds to be issued within 45 days of receipt before refund interest is due. With these changes and a reduced number of claims received, the days to process a refund claim has decreased.

ii. Sales/Use Tax Refunds - Days to Process a Refund Claim

There was a decrease of 12 days to process a refund claim in FY 2022 compared to FY 2021. We received fewer claims and had additional staff educated on the process which attributed to the reduction.

iii. Correspondence - Turnaround Time for Sales/Use Tax and Employer Withholding Tax

In FY 2021, the bureau experienced a decrease in our number of days to respond to correspondence due to the Department's cross education and staff utilization efforts. However, in FY 2022 the section experienced staff turnover and prolonged vacancies which has hindered the section's ability to maintain a 30 day turnaround time. Other items that contributed to longer response times, were staff continuing to submit and test bugs for the Integrated Revenue System, reviewing notices, assisting with manual review of business tax returns, keying returns, and cross education within the Business Tax Bureau.

iv. Local Tax - Sales/Use Distributions to Local Jurisdictions

By statute, local sales/use tax distribution must be completed by the 10th calendar day following the month the tax return was processed. The Department has a target to process distribution within 4 business days after the close of the end of the month to meet the expectations of the local jurisdictions.

Program Name: Collections and Tax Assistance

Program is found in the following core budget(s): Taxation

1a. What strategic priority does this program address?

Embed Transformational Purpose; Focus on Service Culture; Partnerships; IT Roadmap

1b. What does this program do?

The **Collections and Tax Assistance Bureau** is responsible for operating a call center, collecting delinquent tax liabilities, and issuing tax clearances and no tax dues to help customers. The bureau also performs account resolution through collection activities that include account management, lien filing, garnishments, and working with collection agencies and prosecuting attorneys to collect delinquent taxes.

2a. Provide an activity measure(s) for the program.

i. Call Center - Incoming Call Volume

Comment: In FY2022, the incoming calls decreased by 1% compared to FY2021. We attribute this to the Department's initiative to maintain a work in progress for all functions. This has allowed customer's returns, emails, and correspondence to be answered quicker and thus generate fewer calls. With the implementation of live chat and call scheduling options, we expect to see call volumes decrease as customers have new convenient options to contact us.

2b. Provide a measure(s) of the program's quality.

i. Call Center - Incoming Calls Abandoned / Answered

Comment: In FY2022, the abandoned/deflected calls increased by 59% compared to FY2021. The call center struggled to fill vacancies in FY2022, averaging 27 vacancies, per month.

The call center struggled to fill vacancies in FY2022 and often operated on reduced staff due to COVID-19. We continue to obtain, train, and retain quality agents to assist customers. With the roll out of our new Cloud based call system, we are now reviewing repeat caller information and making an attempt to call taxpayers back who have called us multiple times in one day in an effort to resolve their account.

ii. Garnishment - Debts Reviewed for Garnishment vs. Garnishments Issued

All debts are reviewed before garnishments are issued. The bureau reviews external data sources to search for assets to garnish, such as wages or bank accounts. A lien must be present on the debt before a garnishment can be issued. System restrictions prevented new liens from being filed consistently in previous fiscal years. This has decreased the number of accounts eligible for garnishment as many of the cases we review pertain to debt(s) over five years old. New liens are now being filed and the debt(s) are being reviewed for garnishment.

During FY 2022, Collection Enforcement reviewed upwards of 30,000 accounts before transferring case inventory from a terminated collection agency to a newly onboarded agency. Ongoing litigations regarding the statute of limitations on administrative judgments also prevented the team from preparing garnishments for judgments over, or close to, ten years old.

2c. Provide a measure(s) of the program's impact.

i. Enforced Collections - Garnishment Collections and Collections made by our Extraordinary Collections (ECO) staff.

The Enforced Collections team files liens, revokes business licenses, issues garnishments, and evaluates offers-in-compromise. The specialized Extraordinary Collections (ECO) staff work with the Taxation collection attorneys to file motions in court or injunctions and place liens for businesses with debts over \$50,000, that are operating without a sales tax license.

In an effort to increase collections in this fiscal year, the team began filing manual liens against repeat or high dollar offenders in order to proceed with issuance of garnishment orders. We established a process of manually reviewing and requesting judgments, worked to establish process improvements for ECO reports, and manually reviewed case inventory before assigning to a new collection agency. These efforts resulted in a favorable increase in collections.

2d. Provide a measure(s) of the program's efficiency.

i. Call Center - Average Queue Time

The Call Centers average hold time increased during FY 2022. Several factors contributed to this increase. Increased outbound calls:

1. Customers may leave voicemails for agents to process requests. Often agents must make a return call to the customer. Implementation of an online Schedule a Tax Call application in Aug 2021 allows customers to schedule a time for an agent to contact them. This required these employees to be available to make outbound calls, leaving them unavailable to answer incoming calls.

2. May 2022, the call center switched to Genesys Cloud which allows customers the option of a virtual hold. This decreased our abandoned calls but increased our average speed of answer.

3. Increased turnover and less seasoned staff; We averaged 27 vacancies, per month. This equated to an average of 13 fewer agents interacting with customers daily compared to FY 2021.

4. Agents are now trained to correct many issues while the customer is on the phone, which often lengthens the phone call. The average talk/handle time for a call increased from 7 minutes and 40 seconds in FY 2021 to 8 minutes and 47 seconds in FY 2022.

5. The Department issued 643,264 more notices in FY 2022 than in FY 2021, which caused an increase in customer contacts.

ii. Tax Clearance - Days to Respond to a Request

Tax Clearances requests require a more extensive review than a No Tax Due.

The increase in cycle time for Tax Clearance requests and No Tax Due requests can be attributed to a complete turnover in staff and leadership in this group. We are currently fully staffed and processing requests within the timeframe of our targeted goals.

iii. Live Chat and Schedule a Tax Call.

Live chat was rolled out on May 25, 2022. Currently, the following topics are available: Where's My Refund, Status of Registration Application and Balance Due on Business Tax Accounts. We plan to roll out additional chat topics in FY 2023.

Schedule a Tax Call was rolled out on August 2021, an upgraded version of this feature was implemented February 2022. This allows a customer or tax practitioner to set up a specific time for a representative to call them. This feature allows customers to avoid long hold times and select a time that works for them.

2c. Provide a measure(s) of the program's impact.

i. Audits - Audit Findings & Collections per Year

The Audit Services section identifies unreported tax revenues that would have otherwise gone undetected. Impact in this area is measured by the amount of findings and collections resulting from completed audits.

Audit services were briefly suspended for the last 3 months of FY 2020 due to the COVID-19 pandemic, which directly impacts FY 2021 audit findings. Audit assessments are sent and paid through the collections department. A collection may not be made by the customer until settlement or after hearing for appealed audits, unless they pay under protest. The actual collection, in most instances, is not influenced by FCB. There were two extraordinary corporate audits in FY 2022, totaling \$48 million in audit findings, which inflated the total audit findings in this period.

2c. Provide a measure(s) of the program's impact (cont).

ii. Nexus - Collections per Year

The Nexus Unit measures impact in the form of collections from Voluntary Disclosure Agreements (VDA), Multistate Tax Commission (MTC) Voluntary Disclosure Agreements, and various Discovery programs.

iii. Tax Electronic Services - Impact of Requests

Tax Electronic Services assists all areas of Taxation by fulfilling data, report and system access requests. These data requests and reports are used by the various areas of Taxation to improve their processes, see impact of system issues, or planning purposes. Measuring the types of issues addressed allows us to monitor how we are best impacting team members in the Division year after year.

i. Audits - Cycle Days from Open to Close

The Field Compliance Bureau measures efficiency as the average Audit Cycle Days per audit category. Audit cycle days is the number of days to complete the audit from the start of field work until the audited returns are submitted to begin the assessment process. Monitoring our average cycle days ensures we are performing audits efficiently and with minimal disruption to Missouri business activities.

2d. Provide a measure(s) of the program's efficiency (cont).

iii. Tax Electronic Services - Turnaround Time for Requests, Tickets, and Bugs

Beginning in FY 2021, Tax Electronic Services began tracking turnaround time for all requests, tickets, and bugs. This represents the number of days it takes to complete the request, measured from the time the ticket or request is submitted until the date it is completed. Monitoring the average time to complete requests allows us to ensure we are providing timely service in response to data and security request.

i. Returns Manually Reviewed - Volume

The Income Tax Bureau conducts manual review of certain returns to ensure returns are calculated correctly and that the customers provided proper support for their refund claims. The due date for tax year 2020 was extended from April 15, 2020 to July 15, 2020; causing returns normally due in FY 2020 to be received in FY 2021, increasing the returns received for manual review in FY 2021. This phenomena did not occur in this fiscal year, accounting for the reduction in returns received for manual review in FY 2022.

The bureau sends outbound notices to customers whose accounts were adjusted or show a balance. In FY 2022, the bureau sent out 1,013,399 notices for individual income tax and property tax credits. The bureau also receives inbound correspondence and responds to inquiries regarding customer's individual income tax and property tax credit accounts. The FY 2022 increase in individual income tax correspondence received was due to the increase in notices issued within the fiscal year. The increase of notices issued stemmed from the extended due date for the 2019 and 2020 individual income tax returns.

iv. Refunds Stopped Due to Fraud - Volume

The bureau works with an external vendor to continually update a fraud analytics algorithm that identifies fraudulent returns. The algorithm is updated based on patterns found by our fraud team, other states sharing fraud patterns, and continuous analysis by our partnering vendor. A score is assigned to each electronically filed return. If the score exceeds the thresholds set, the return is flagged for manual review. The bureau also utilizes reports developed to identify fraud on paper returns. In FY 2020, the bureau identified a fraud scheme related to Forms 1099 with excessive withholding. This scheme was identified in Missouri and other states. These fraudulent claims continued throughout FY 2021 and FY 2022, but the volume was significantly lower.

Fraud is typically observed in our Individual Income Tax MeFile process (electronically filed returns). In FY 2022, 75% of the fraud received was the result of a new type of fraud received through Property Tax Credit (PTC) Claims. This fraud was identified by the algorithm and staff. The score was immediately amplified to identify and flag claims which met the criteria, allowing DOR to prevent the issuance of fraudulent PTC refund claims.

v. Volume of Notices Issued to State Employees, Professional Licensees, and Other Discovery Programs

The bureau is required to perform a tax compliance check on all state employees, professional licensees including attorneys and insurance licensees to determine if the taxpayer has filed the last 3 years of tax returns and that all state taxes owed have been paid. If an employee or licensee has not filed a return or has a delinquency, a notice is mailed to the taxpayer. If the taxpayer fails to remedy or make arrangements for tax compliance, the agency or board of professional registration is notified. The bureau receives data from the IRS to identify additional leads of potential taxpayers who haven't filed a tax return or have discrepancies on their filed return. If any non-filed period or discrepancy is identified, a notice is mailed to the taxpayer.

The Division of Professional Registration has requested the Department suspend the Professional Registration program. The increase in the number of notifications sent out on discrepancies and non-filers is due to additional programs being operational in FY 2022.

2b. Provide a measure(s) of the program's quality.

i. Rate of Returns Going to Manual Review

Individual income tax returns and property tax credit claims are segmented below by filing type. Customers send 2D returns to the Department in paper form, and these returns are scanned into the system by reading a barcode on the return. Non-2D paper returns have no barcode and must be keyed into the system or scanners read data entered on each line of the return.

The Department received 89 percent of individual income tax returns and property tax credit claims electronically overall in FY 2022. The number of paper returns received continues to decrease annually.

Non-2D barcode paper returns have a much higher manual review rate than 2D or electronic returns, as data entry errors also cause manual review. In FY 2022, the Processing Bureau increased the volume of non-2D returns processed through the data capture functionality. This new data capture process initially caused an increase in error, we will continue to refine this process. A quality control process is completed daily during the tax season to identify issues from internal and external sources that cause returns to be triggered for manual review unnecessarily. This process allows the bureau to identify and correct issues early.

ii. Individual Income and Property Tax Credit Correspondence - Average Number of Days to Respond

In FY 2019, the bureau implemented the individual income tax component the Integrated Tax System. The increase in days to respond in FY 2020 was due to certain functionality not being operational until late FY 2020. The bureau worked diligently in FY 2021 and FY 2022 to resolve defects and to construct detailed staffing plans to lower our average days to respond to customer inquiries. These staffing plans are reviewed daily during tax season and again at the end to identify any gaps in the staffing plan that could decrease our response time to the taxpayers. These efforts will continue into FY 2023.

1) Number of Tax Returns Processed

Business Tax Returns includes the following returns: Sales, Vendor's Use, Consumer's Use, Employer's Withholding, Insurance Tax, Financial Institution Tax and Tire and Lead-Acid Battery Fees.

*Income Tax and Property Tax Credit Returns were impacted in FY 2020 and FY 2021 by the COVID-19 July 15, 2020 extended due date. In FY 2021, we experienced two tax due dates.

2a. Provide an activity measure(s) for the program (cont).

2) Number of Sales/ Use / Withholding Returns Corrected

The Processing Bureau reviews and corrects returns that have been flagged by the system for errors (exceptions), such as missing information, taxpayer calculation mistakes, and incorrect jurisdiction or site codes. Correcting these errors allows the taxpayer's return to process with accurate rates and figures.

In FY 2021, the bureau implemented system changes to streamline return processing which increased the number of withholding returns reviewed and corrected. Reducing the number of errors per return, increases the number of returns processed on a daily basis. The bureau also utilized data driven staffing plans to determine the staffing level required to process incoming return volumes and cross education to increase the number of employees trained to process error corrections. The reduction in sales/use tax returns processed in FY 2021 is reflective of staff utilization and education.

In FY 2022, the withholding system changes significantly reduced the number of returns that require manual review. The bureau's numerous system changes to sales and use tax and the increased participation in electronic filing continues to reduce the number of daily return errors. The reduction in return errors and additional staffing increased the number of returns reviewed and corrected.

2b. Provide a measure(s) of the program's quality.

Business Tax returns are sent to a suspended status if the return has exceptions (errors). These exceptions must be reviewed and corrected before the return can be posted or fully processed. Exceptions include missing information, taxpayer calculation mistakes, incorrect jurisdictions or site codes, or taxpayers not registering properly before filing their return.

In early FY 2020 a integrated system enhancement was implemented, along with a few other identified exception improvements. These changes led to a 43% reduction in the number of return exceptions received per month. In early FY 2021 the second integrated system enhancement was implemented. The targeted exception improvements and the integrated system enhancements yielded a 73% average reduction in the number of return exceptions received monthly by mid-FY 2021.

In FY 2022, we continued to aggressively promote electronic filing options and conducted outreach efforts to educate and assist businesses with online filing which led to a 11% increase in sales and use tax returns received electronically and fewer incoming exceptions.

The bureau set a fiscal year goal to reduce incoming exception by 10% as reflected in our FY23 Target. We will continue outreach efforts to educate and assist businesses with online filing. We anticipate a system enhancement for adding new locations on sales and use tax returns. This system enhancement will improve customers online filing experience and further reduce return exceptions.

*Deposits were impacted by the COVID-19 July 15, 2020 extended due date for Individual, Corporate and Fiduciary tax returns and payments. This extended due date increased deposits in FY 2021 because there were two tax due dates in the fiscal year. In FY 2022, the Department saw large increases in deposits for income and state and local sales taxes.

▨ Registration Applications	80%
■ Business Tax Returns	80%
▨ Individual Income Tax Returns	90%
■ Property Tax Credit Claims	62%
▨ Corporate Income Tax Returns	80%

Electronic returns require less manual intervention and have a lower error rate. Electronic business returns pre-populate specific jurisdiction and site codes and auto-calculates certain fields resulting in fewer manual calculations and typographical errors. In FY 2021, the Department implemented an online Property Tax Credit Application to provide an electronic method of filing to submit a claim when not filing an individual return.

2. CORE DESCRIPTION														
The Department of Revenue collects approximately \$13.9 billion in general revenue and \$1 billion in highway-related revenue annually. The primary mechanism for the collection and distribution of funds collected by the Department is the integrated tax system.														
The Department awarded the contract to implement the integrated tax system in February 2012 with staggered release dates for different tax types. The final release was deployed on August 8, 2020.														
The Department used this core funding to pay vendor deliverables, state data center, and software/equipment costs associated with the integrated tax system. The Department requests continued funding of \$7.65 million for the following:														
* Various system enhancements including; Intelligent operational reporting, enhanced machine learning tools, mobile application filing and paying, and enhanced collection tools														
* Software maintenance														
* Ongoing system maintenance and operational support.														
* Enhance collection of the Missouri tax on marijuana sales.														

CORE DECISION ITEM

Core - Integrated Tax System		HB Section	4.01	
More than 90 percent of the rules in Revenue Premier were customized to meet Missouri's unique taxing laws. Due to the complexity of the customized code, neither DOR nor ITSD are able to provide daily, ongoing operational support for the system. RSI, the vendor for Revenue Premier, employs skilled technicians who will be able to provide operational support for the integrated tax system. In FY24, we estimate that the operational support costs will total approximately \$2.86 million. The General Assembly appropriated \$150,000 to the Department to make upgrades to Revenue Premier which will enhance collection of the Missouri Marijuana sales.

PROGRAM DESCRIPTION

HB Section(s): 4.01

Program Name - Integrated Tax System

Program is found in the following core budget(s): Integrated Tax System

1a. What strategic priority does this program address?

Embed Transformational Purpose; Focus on Service Culture; IT Roadmap

1b. What does this program do?

The **Integrated Tax System** enables the Missouri Department of Revenue to administer the following tax types: Tire and Battery, Sales, Use, Employer Withholding, Individual Income (including Property Tax Credits) and Corporate Income. These tax types comprise the majority of the state's collections for general revenue. In addition, the system allows businesses to register for sales and use tax collection and generates the necessary licenses and documents that businesses need to operate retail businesses in Missouri. Administrative functions include maintaining all financial and administrative activities for each taxpayer, generating notices, collections functions and creating the files needed to generate sales and use tax distributions to all local political subdivisions that have enacted a sales or use tax.

2a. Provide an activity measure(s) for the program.**i. Returns Processed in the Integrated Tax System**

Note: FY20 return totals were down due to the extended individual income tax filing date. FY21 return totals were increased due to the extended individual income tax filing date.

ii. Sales / Use Tax Money Distributed to Local Jurisdictions through the Integrated Tax System

v. Businesses Registered through the Integrated Tax System**2b. Provide a measure(s) of the program's quality.****i. Defect Analysis**

The Integrated Tax System is made up of hundreds of thousands of separate business rules. The Department and the vendor have spent more than 8 years creating the various functions, coding them, and ensuring the correct operational output. Throughout the implementation of the integrated system, we have encountered many defects. A defect may be as small as a comma in the incorrect place on a notice or as large as a tax rate that impacts millions of filers. Changes needed to implement new legislation and enhanced functionality are also tracked as defects. The data below reflects the amount of defects created and closed in the applicable years.

ii. Refund Turnaround Time

One of the most important functions the Integrated Tax System plays is the timely issuance of individual income tax refunds and property tax credits. Each year the Department receives approximately 1.6 million refund claims. Approximately 12 percent of the refund claims require a manual review, which can delay the issuance. The information below reflects the volumes and percentages of refunds issued in the applicable timeframes.

2d. Provide a measure(s) of the program's efficiency.

There are a number of components of the Integrated Tax System that make it more efficient than our previous legacy systems. Items include:

- 1) **Reduced time to educate new employees** -- nearly 50% decrease, in certain situations.
- 2) **Ability to cross educate staff in multiple areas of the system** -- the Department's cross training efforts have continued to increase each year since the inception of the integrated system.
- 3) **Ability to target work based on skill level of the team member** -- in FY21, the Department began to use temporary staff to review sales tax exceptions. This was the first time this activity was not limited to full-time staff.
- 4) **Electronic images of tax returns, payments, and correspondence available in host system** -- this will ultimately reduce the total paper stored by the Department and reduce handoffs between work areas.
- 5) **Tax staff can easily extract data from the system** -- this lessens our dependence on IT staff and provides us a greater ability to improve processes.

SB745 passed by the 2022 legislative session modifies the 'sales at retail' definition in Chapter 144, RSMo. Effective August 28, 2022, it adds solar photovoltaic energy systems and all components to make such system to the list of items that are exempt from sales tax. Sales tax is only exempt if the system is purchased or constructed and is sold or leased to an end user or is used to produce, collect and transmit electricity for resale or retail sale it will be exempt. An individual purchasing solar panels themselves to install on their home is not eligible for this exemption.

2. CORE DESCRIPTION									
The Motor Vehicle and Driver Licensing Division core funding represents the non-highway portion of the resources needed to collect fees and taxes and enforce state laws for the following activities: - Issuing marine craft and all-terrain ownership documents (titles) and registering marine craft and all-terrain decals; - Issuing nondriver licenses (identification cards); - Maintaining the official marine craft and all-terrain vehicle and nondriver license records, including issuance information and vehicle liens; - Issuing disabled placards and temporary registration permits; - Licensing and regulating motor vehicle and marine craft dealers and manufacturers; - Issuing business licenses to title services, lease rental companies, and salvage dealers; - Managing public motor vehicle and driver licensing call centers; and - Overseeing the operations of approximately 173 contracted license offices that assist the state in the issuance of titles, registrations, and nondriver licenses.									
The Federal amount and FTE listed in the core is currently uncommitted appropriation authority.									
Additional divisional costs are included in the Highway Collections budget unit.

PROGRAM DESCRIPTION

Department of Revenue

HB Section(s): 4.005 and 4.015

Program Name - Driver License Bureau

Program is found in the following core budget(s): Highway Collections and Motor Vehicle and Driver Licensing Division

1a. What strategic priority does this program address?

Embed Transformational Purpose; Focus on Service Culture; Team Member Recognition and Engagement; Partnerships; IT Roadmap

1b. What does this program do?

The Driver License Bureau issues driver licenses, permits, and non-driver identification cards to serve the citizens who operate a motor vehicle in addition to those citizens who need proof of identification. In addition to issuance, the Bureau may suspend, revoke, and deny driving privileges.

2a. Provide an activity measure(s) for the program.

PROGRAM DESCRIPTION

Department of Revenue

HB Section(s): 4.005 and 4.015

Program Name - Driver License Bureau

Program is found in the following core budget(s): Highway Collections and Motor Vehicle and Driver Licensing Division

2b. Provide a measure(s) of the program's quality.

The target for the number of days to issue a license is contractual with the vendor. Except in extraordinary circumstances, if they do not issue a driver license or non-driver identification card within three days, DOR collects liquidated damages. **In FY22, DOR issued 1,019,758 driver and non-driver ID's in 3.1 days, on average.**

Real vs. NonReal ID's Issued*

*This pie chart shows the percentage of Missourians with Real ID vs Non Real IDs as of August 3, 2022. Real ID effective May 3, 2023.

In FY2021, DOR implemented a new phone system with an enhanced Interactive Voice Response (IVR) which has decreased the number of calls going to an agent. The new system allows more calls to be handled through our IVR, improving customer service and lessening the number of calls to team members. In FY22 Approximately 62% of calls received by the Driver License Bureau are completed within the new IVR. During this time, our turnover rate has also decreased allowing the bureau to retain knowledgeable team members to better assist our customers.

Days to Issue a License

Real ID's & Non-Real ID's Issued by Fiscal Year

**The FY23 Projected amounts are based upon the documents due for renewal in FY23, and based upon the past new DL and NDL transactions. DOR estimates 35% of individuals will opt-in for Real ID, excludes permits.

Accident Suspension Measures

In FY2022, the average turnaround time for an accident case to be processed is 60-65 days before the suspension would go effective. Within the 60-65 days, several different processes occur. The Department is statutorily required to enter the accident report within 10 days of being received; we average 5-7 days. There are three types of accident suspensions: Failure to File Accident Report, which suspends the license if we have not received a response within 15 days from request; Mandatory Insurance Suspension, which suspends the license 30 days from the date the notice was mailed; and Mandatory Insurance/Security Suspension, which suspends the license 30 days from the date the notice was mailed.

Within the Accidents and Reinstatement section of DLB, Failure to Pay Judgments are keyed within 3-5 days and action is active 5 days after being keyed. Out of state judgments and accidents are keyed within 5 days and action is active 3 days after being keyed. Failure to maintain financial responsibility suspensions are keyed daily, a notice is generated the following day, and the suspension becomes effective 15 days from the notice.

The Department is statutorily required to add a conviction to a driving records within 7 days from the date of conviction, 10 days for CDL. We average a 2-3 day turnaround time for adding convictions to driver records. Administrative Alcohol suspensions and revocations, Chemical Refusal revocations, Abuse and Lose suspensions, Minor in Possession and Zero Tolerance suspensions are all keyed within 3-5 days of being received. Child Support Suspensions are keyed daily.

PROGRAM DESCRIPTION

Department of Revenue

HB Section(s): 4.005 and 4.015

Program Name - License Offices Bureau

Program is found in the following core budget(s): Motor Vehicle and Driver Licensing Division and Highway Fund

1a. What strategic priority does this program address?

Embed Transformational Purpose; Focus on Service Culture; Team Member Recognition and Engagement; Partnerships; IT Roadmap

1b. What does this program do?

The License Offices Bureau, oversees Contracted License Offices throughout the state to help Missourians that need to complete motor vehicle or driver licensing transactions by ensuring the offices are complying with contract requirements and fulfilling the needs of the citizens efficiently.

2a. Provide an activity measure(s) for the program.

*The FY2023 transactions are projected to increase as a result of transactions processed by the Mail-In Processing Licensing Office, and Online Motor Vehicle Renewals and Phone-In Renewals processed by License Offices.

2b. Provide a measure(s) of the program's quality.

Anyone who visits a license office throughout the state has the opportunity to fill out a customer satisfaction survey. The responses are gathered and the results are rolled up into a grade point average. The data can be used to analyze staff performance and focus on staff development needs, which in turn helps us understand the overall performance of the license offices across the state. We have made significant efforts to increase the Citizen Report Card Results through increased training and improved communication efforts.

Staff assisting Missourians in nearly 173 license offices across the state are able to reach the Jefferson City call center with motor vehicle and driver licensing transaction questions. Instead of turning a customer away or redirecting them to another location, the staff of the license offices call the dedicated line for assistance while they are with working with the customer. The call center data is used to determine training needs to ensure clerks in the license offices gain knowledge and expertise to independently assist customers quickly and efficiently.

1a. What strategic priority does this program address?

Embed Transformational Purpose; Focus on Service Culture; Team Member Recognition and Engagement; Partnerships; IT Roadmap

1b. What does this program do?

The Motor Vehicle Bureau (MVB) issues ownership documents, registers vehicle and trailer plates and regulates business to help citizens who sell, purchase, or salvage a vehicle, marine craft, or trailer by ensuring vehicles are properly registered and dealerships follow state rules and regulations.

2a. Provide an activity measure(s) for the program.

Motor Vehicle Titles Issued*

Business Licenses Issued**

*Includes motor vehicle and marine titles issued.

**Business Licenses include motor vehicle dealers, marine craft dealers, salvage dealers, title service, and lease rental. In FY2020 all business licenses were renewed annually, beginning in FY2021 two-year renewal licenses began, which results in the cyclical fluctuation in business licenses processed annually.

2b. Provide a measure(s) of the program's quality.

The target for the number of days to issue a title is three days. The national average for original titles to be issued is three to four weeks after title application is received.

In FY22, the MVB issued 1,948,832 original motor vehicle and marine titles and 73% of those (1,422,647) were issued in 0-3 days.

In FY2021, MVB implemented an enhanced Interactive Voice Recognition (IVR) self service phone system which decreased the number of calls handled by a Call Center team member. In FY2022, approximately 41% of calls (183,513 of 447,147 total calls) received by the MVB were completed through the new IVR system. MVB maintains a remote customer service center to ensure calls are answered effectively. This process allows the Department to retain knowledgeable team members to assist our citizens.

The average wait time in call queue increased from FY2021 to FY2022 is due to low volume of applicants, staff shortages, and high turn over rates.

2b. Provide a measure(s) of the program's quality. (cont.)

The Department of Revenue is statutorily required to process new dealer applications within eight hours of receipt. In FY2022, the Department processed new dealer applications and met the statutory requirement.

The Dealer renewal season in FY2022 began August 08, 2021 and 4,460 dealer renewal letters were issued.

The Department receives complaints regarding licensed dealerships, and the bureau reviews the complaints, investigates, and takes the appropriate actions. If administration determines that the complaint needs further investigation, a case is opened and the Compliance and Investigation Bureau (CIB) audits and investigates the licensee. CIB and the MVB work together to ensure that the investigations are completed and disciplinary action is taken when necessary. If CIB finds that action needs to be taken, all parties involved are notified. In FY2022, 833 complaints had actions taken against them. Disciplinary actions can include a penalty assessment up to license revocation.

This is an important and necessary process to ensure consumers are protected and that licensed dealers conduct business in accordance with the law.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The MVDL Division requests funding for a Customer Service Queue system for each of the 173 current contract license offices located throughout the State and DOR Central license offices. This queue system would include the hardware for each office for customer check-in, a digital display for customers waiting to see where they are in line, and a performance management software that will track in real-time, the number of customers served, the type of transactions, and the customer wait time. The software should offer data analytics to assist in management decisions such as staffing for peak customer wait times, dates, etc.

After surveying jurisdictions through an American Association of Motor Vehicle Administrators (AAMVA) survey, the Department received 21 responses from states who have implemented, or are implementing, a customer queue system. Per their responses, the new system was well adopted by customers and they have enjoyed the relaxed wait times knowing and seeing when they were next in line. Some states have had a queueing system of this nature in place for over 15 years with positive feedback from the customers.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department has surveyed other states with similar queue systems to determine the best approach and cost estimates. In addition, the DOR procurement team has received cost estimates from vendors to install each offices' queue system equipment and the annual maintenance for the system. The initial equipment install would be a one time cost of \$1.5 million for the queue system, display board, and software to track wait times. The annual maintenance cost for the queue system would be \$1 million for ongoing training and software from the vendor, and modifying renewal notices with a QR code for scanning into the queue system upon arrival. Each stand alone system would cost roughly \$8,600 to install with annual maintenance cost of \$5,700.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

The queue system will allow the customer to track their estimated wait time to conduct a transaction at the local offices.
Through data analytics, the license offices will be able to make decisions for peak customer wait times, staffing, training, equipment, office space, etc.

6b. Provide a measure(s) of the program's quality.

The queue system will improve customer service by identifying metrics such as tracking the number of customers served, the type of transactions processed, as well as identifying customer wait times.

6c. Provide a measure(s) of the program's impact.

The queue system will result in a better customer experience through display boards indicating when the client's turn to process a transaction in the local office. This system will also assist the local management in each office to measure the effectiveness of process improvements.

6d. Provide a measure(s) of the program's efficiency.

The queue system will provide indept analysis of each office to determine where efficiencies can be gained "To provide every customer the best experience every time".

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

- * Educating on queueing functionality and queue assignments
- * Implementation of the queueing system in the 173 contract license offices
- * Training license office staff to utilize the solution
- * Training license office management on how to identify efficiencies gained through analytics
- * Customer satisfaction surveys
- * Streamline processes to reduce wait times and increase customer satisfaction

2. CORE DESCRIPTION									
<p>The General Counsel's Office provides comprehensive legal and investigative support to all operational and support divisions in the Department of Revenue to assist them in accomplishing the Department's goals and objectives.</p> <p>The Office advises the director and divisions on legal matters relative to the Department and represents the Department in courts and administrative tribunals. It also conducts external investigations and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to taxation, motor vehicle, and driver laws. In addition to external investigations, it conducts internal audits and investigations of the contracted license offices.</p> <p>The Office receives federal grants from the Missouri Department of Transportation's Highway Safety Division and the Federal Highway Administration. These grants allow the Department to work case files involving intoxication-related license actions on appeal and chemical refusal cases handled by local prosecuting attorneys. The grants also fund motor fuel tax and odometer and title fraud investigations.</p> <p>Additional costs are included in the Highway Collections budget unit.</p>

1b. What does this program do?

The General Counsel's Office (GCO) provides comprehensive legal support to all operational and support divisions in the Department of Revenue to assist the divisions in accomplishing the Department's goals and objectives. GCO attorneys and staff provide legal research and advice for the divisions, defend complex litigation before the Administrative Hearing Commission, Missouri circuit courts and federal bankruptcy courts; work with the Attorney General's Office in defending complex litigation involving the Department; prepare legal analysis on pending legislation; draft and review contracts; draft and review administrative rules; administer the Departments compliance with the Sunshine law; and ensure the Departments compliance with privacy and confidentiality laws. GCO also conducts external investigations and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to taxation, motor vehicle and driver laws. In addition to external investigations, GCO conducts internal audits and investigations of contracted license offices.

The Sales and Income Tax Sections litigate and collect delinquent or disputed taxes and fees owed to the state. The Bankruptcy Unit ensures departmental compliance with bankruptcy code provisions and collects delinquent taxes owed by filing claims in the federal Bankruptcy courts. The Sales and Income Tax Sections also save the state money by successfully defending against claims made for refunds or reductions in taxes and negotiating settlements. "Projected Collections" represents the amount awarded by a tribunal that GCO anticipates will be collected in the future, "Actual Collections" represents actual amount paid to GCO in the fiscal year, and "Cost Avoidance" represents the amount originally claimed for a refund, minus what is actually paid.

2. CORE DESCRIPTION

The Administration Division includes three programs and the Office of the Director. The three administrative programs provide support functions to increase the effectiveness of tax revenue collections and motor vehicle and driver licensing programs. This Division leads these three programs and the Department's operational excellence initiatives, including continuous improvement initiatives and performance data analytics.

The Office of the Director sets strategy and action plans, builds internal expertise, shapes policy, and directs operational performance. The Office of the Director also handles legislative inquiries and proposals, manages press inquiries and internal and external communications, including social media and website content and educational videos; and assists with community outreach efforts.

The Human Resources and Total Rewards program provides support to all team members in the areas of human resources initiatives, payroll process, policy, employment law guidance, recruitment, and team member professional development.

The Financial Services program is responsible for providing services to the divisions in the areas of budget, procurement, and accounts receivable/payables. This program manages the deposit and cashing of state and non-state revenues for the Department and from other governmental agencies. This program provides strong internal controls by performing reconciliations and reviews, and preparing financial statements and reports.

The General Services program provides services and support in the areas of incoming and outgoing mail processing; record archiving; supply ordering; license plate, tab, and other inventory distribution; delivery services; and liaison for facility leasing.

The Division's federal funds are associated with the oversight of the child support collection services contract. In conjunction with the Missouri Department of Social Services (DSS), the Division administers the contract that receipts and disburses child support payments. The DSS is responsible for the grant application award and administration. The cost is split between the federal (66 percent) and state (34 percent) government funds. The DOR reports its cost to DSS quarterly.

Additional divisional costs are included in the Highway Collections budget unit.

2. CORE DESCRIPTION

The Department of Revenue postage appropriations support the annual processing of approximately 12 million pieces of outgoing mail through its Mail Service Center and contracted vendors. The Department's outgoing mail volume is the largest in state government. The core postage request includes mailings of marinecraft registration renewal notices, marinecraft titles, collection and enforcement notices, and statutorily required pieces of certified mail.

Additional postage costs are included in the Highway Collections budget unit for driver license renewals, motor vehicle registration renewal notices, motor vehicle titles, collection and enforcement notices and statutorily required pieces of mail.

These mailings support the operational programs in their role of revenue collection by notifying citizens of taxes due and owed and of renewal dates of licenses and vehicle registrations to aid in timely renewals. Failure to provide these mailings would negatively impact revenue collections; result in decreased enforcement of tax, driver, motor and marinecraft, and other laws; and violate statutory mandates to deliver certain notices by regular or certified mail.

The Department of Revenue's postage appropriations support the annual processing of approximately 12 million pieces of outgoing mail through its Mail Service Center and contracted vendors. The Department's outgoing mail volume is the largest in state government.

Effective July 10, 2022, the United States Postal Service increased mailing rates for letters an average of 7.5 percent, postcards 10 percent, and certified mail 6.5 percent.

Because of the increase postage costs, the Department will experience a shortfall in its postage budget.

2. CORE DESCRIPTION

The Department of Revenue collects taxes imposed on freight line companies as authorized by Sections 137.1021, RSMo. Six-tenths of 1 percent is transferred to the Blind Pension Fund and a 1 percent collection fee is transferred to the General Revenue Fund. The remaining proceeds are distributed to counties based on each county's percentage of rail track line to the aggregate total of the state.

Subject to appropriation, for all taxable years beginning on or after January 1, 2009, a freight line company is allowed a credit for eligible expenses against the tax. The state reimburses any political subdivision of this state for any decrease in revenue due to the credit. This appropriation is used to reimburse the political subdivisions.

This appropriation was not funded in Fiscal Year 2021 and Fiscal Year 2022.

2. CORE DESCRIPTION

Any port authority located in this state may establish an Advanced Industrial Manufacturing Zone or AIM Zone as authorized by Section 68.075, RSMo. Fifty percent of the state tax withholdings on new jobs within such a zone is deposited into the Port Authority AIM Zone Fund and subsequently distributed back to the AIM Zone for the purpose of expansion, development or redevelopment. The port authority approves any projects and must submit an annual budget to the Department of Economic Development explaining how and when the monies will be spent.

This appropriation request allows the Department of Revenue to distribute the funds in the Port Authority Aim Zone Fund back to the port authorities.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Chapter 68, RSMo, requires the Department of Revenue to deposit fifty percent of the state tax withholdings on new jobs within an Advanced Industrial Manufacturing (AIM) Zone after the development or redevelopment has commenced, into the Port Authority AIM Zone Fund. The Department then, upon request of the Port Authority, distributes funds to the Port Authority for the purpose of continuing to expand, develop, and redevelop the AIM Zone.

The Department is authorized to appropriate \$500,000.00 from the Port Authority AIM Zone Fund in a fiscal year. In Fiscal Year 2022, there was \$557,910 requested for appropriation. Therefore, the Department was not able to disperse \$57,910 of those funds during Fiscal Year 2022 due to the appropriation cap. The Department anticipates paying an additional \$1,591,155.00 in Fiscal Year 2023.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The cost to continue estimation is based off the Department's supplemental request for Fiscal Year 2023. This calculation took into account what remains to be appropriated in Fiscal Year 2022 that must be appropriated in Fiscal Year 2023 due to the cap of \$500,000.00, what is projected to be appropriated in Fiscal Year 2023, and the original appropriation cap amount.

Chapter 620, RSMo, requires the Department of Revenue to deposit twenty-five percent of the state tax withholdings on new jobs within a Targeted Industrial Manufacturing Enhancement (TIME) Zone for distribution to the zone board for the purpose of completing infrastructure projects to promote the economic development of the region. The Department, by statute, is allowed to appropriate an amount of \$5,000,000 within a fiscal year. The Department submitted a supplemental request for Fiscal Year 2023.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The cost to continue estimation is based off the total appropriation amount listed in Section 620.2250.14, RSMo, that states, "The total amount of withholding taxes retained by all TIME zones pursuant to the provisions of this section shall not exceed five million dollars per fiscal year." Therefore, the Department is requesting the maximum allowed appropriation amount of \$5,000,000.00 because we are unaware of how many TIME Zones will be established in a given fiscal year that would be eligible to retain the withholdings allowed in Chapter 620.

2. CORE DESCRIPTION

The Department of Revenue exercises the statutory authority in Sections 136.150 and 140.850, RSMo, to use outside resources to supplement its collection of delinquent taxes. The Department refers delinquent accounts to local prosecuting attorneys and contracts with private collection agencies for the collection of delinquent taxes. This appropriation is used to pay the prosecuting attorney fees and collection agency contracts.

2. CORE DESCRIPTION																																																																																											
<p>Sections 144.380 and 143.902, RSMo, allow the Department of Revenue to file a certificate of lien with circuit courts for income, withholding, sales and use tax delinquencies. The Department also files administrative judgements to garnish a taxpayer's wages, bank accounts or financial holdings. With this appropriation, the Department, per Section 144.380.4, RSMo, pays the county recorder of deeds \$3.00 to file a lien and \$1.50 when the Department requests the lien to be released.</p>

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Chapter 142, RSMo, requires the Department of Revenue to collect and distribute motor fuel taxes collected each month. SB 262, passed during the 2021 General Assembly, authorizes a motor fuel tax increase. The tax rate increased to 19.5 cents per gallon on October 1, 2021 and 22 cents per gallon on July 1, 2022. The rate will increase to 24.5 cents per gallon on July 1, 2023; 27 cents per gallon on July 1, 2024; and 29.5 cents per gallon on July 1, 2025.

During Fiscal Year 2022, the Taxation Division distributed \$204,899,950.58 of the \$215,829,687 allotment to the cities and counties of Missouri. This was an increase of 12% from Fiscal Year 2021. Based on this increase and the additional tax increase of \$0.025 on July 1, 2023, we believe we will need \$305,000,000 in total (\$60,791,710 increase from FY2023) for Fiscal Year 2024 to be able to distribute the monies due to the cities and counties of Missouri.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department is requesting a core increase for Fiscal Year 2024 based on the anticipated increase to the motor fuel tax distribution to the cities and counties.

2. CORE DESCRIPTION

Individuals requesting specialty plates make a contribution of an emblem use authorization fee to organizations sponsoring the specialty plate. If statute allows the individual to make the emblem use authorization fee to the Department, the Department must remit these fees to the applicable organization. This appropriation allows the Department to remit the contribution fees defined by statute.

Section 301.3141, RSMo, requires the Director of Revenue to remit all emblem use contribution fees collected for the SOME GAVE ALL specialty license plate to the Veterans of Foreign Wars Department of Missouri.

Section 301.3175, RSMo, requires the Department to remit all emblem use contribution fees collected for the BACK THE BLUE specialty plate to the Missouri Law Enforcement Memorial Foundation.

Section 301.3176, RSMo, requires the Department to remit all emblem use contribution fees collected for the BACKSTOPPERS specialty plate to the BackStoppers Organization.

2. CORE DESCRIPTION

Pursuant to Section 155.080, RSMo, the state imposes a use tax of nine cents on each gallon of aviation fuel used to propel aircraft with reciprocating engines. Operators may apply for a refund of the use tax for aviation fuel used in commercial agricultural aircraft. This appropriation allows the Department of Revenue to process the refund claims from the commercial agricultural aircraft operators.

2. CORE DESCRIPTION

The Department of Revenue refunds any overpayment or erroneous payment of workers' compensation taxes paid by insurance companies per Section 287.170, RSMo. Overpayments occur because insurance companies file estimated quarterly payments during the year based on prior year activity. In June of each year, when insurance companies file annual returns, estimated and actual liabilities are reconciled and refunds, if necessary, are issued. The Department uses this appropriation to process these refund claims.

2. CORE DESCRIPTION

The Department of Revenue issues refunds for the overpayment or erroneous payment of taxes collected on tobacco products. The Department collects a tax of eight and one-half mills per cigarette on the sale of cigarettes. Receipts from the tax are deposited into the State School Money, Fair Share, and Health Initiatives funds.

A tax of 10 percent of the manufacturer's invoice price, before discounts and deals, is also levied on the first sale of tobacco products other than cigarettes. The receipts from this tax are deposited into the Health Initiatives Fund.

The Department uses this appropriation to issue refunds to taxpayers for overpayments of tax on cigarettes and other tobacco products as maintained in Chapter 149, RSMo.

2. CORE DESCRIPTION

Domestic stock insurance companies pay a two percent tax on the direct premium received on business performed in Missouri pursuant to Section 148.320, RSMo. Annually the collected tax is distributed to the county treasurer and to the treasurer of the school district in which the principal office of the company is located according to Section 148.330.4, RSMo. Premium tax credits, authorized in Section 135.500 to 135.529, RSMo, and Sections 348.430 and 348.432, RSMo, only reduce the amounts apportioned to the general revenue fund and does not reduce any moneys appropriated to county treasurers or to the treasurers of the school districts.

The Department uses this appropriation to allow for the apportionments mandated by statute and to hold both the county and the school districts harmless for tax credits claimed.

2. CORE DESCRIPTION

Pursuant to Section 135.815, RSMo, prior to the authorization of any tax credit application, the administering agency must verify with the Department of Revenue and the Department of Commerce and Insurance that the tax credit applicant does not owe any delinquent income, sales, use or insurance taxes or interest or penalties on such taxes. A delinquency does not affect the authorization of the application of such tax credits, except that the amount of credits issued is reduced by the applicant's delinquency. If any credits remain after satisfying all income, sales, use or insurance tax delinquencies, the remaining credits are issued to the applicant, subject to restrictions or other provisions of law.

2. CORE DESCRIPTION

The Department of Revenue, pursuant to Sections 143.782 through 143.788, RSMo, places intercepted Missouri income tax refunds in an escrow account to satisfy debts larger than \$25. This appropriation allows the Department to apply intercepted refunds towards delinquent motor vehicle sales and use taxes and motor vehicle and driver license fees.

The Department also executed a reciprocal agreement with the state of Kansas to intercept refunds for the satisfaction of debts between Kansas and Missouri. The program was implemented in Fiscal Year 2010. Through Fiscal Year 2021, Kansas intercepted \$13.3 million on behalf of Missouri. Missouri intercepted \$7.1 million on behalf of Kansas. This appropriation allows the Department to forward intercepted amounts to the state of Kansas.

2. CORE DESCRIPTION

The Department of Revenue requests \$2.5 million to transfer funds from the School District Trust to the credit of the General Revenue Fund. The Department deposits one cent on the dollar of sales and use tax collections to the School District Trust Fund according to Proposition C. The money in this fund is distributed to public school districts of the state as provided in Sections 163.031 and 163.087, RSMo. Section 144.701, RSMo, provides a state collection fee not to exceed \$2.5 million or 1 percent of the amount deposited in the School District Trust Fund, whichever is less.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Revenue collects one-tenth of one percent additional sales tax on the taxable sales at retail for the Department of Natural Resources. Article IV, Section 47(a) of the Missouri Constitution authorizes this collection. The Department uses this appropriation to transfer sixty-six hundredths percent of the funds collected from the Parks Sales Tax Fund to the General Revenue Fund.

The parks sales tax collections have continued to increase over the past several years. The current appropriation authority of \$375,000 is less than the FY23 calculated transfer amount. The "E" was removed from this appropriation. The Department requests an increase to more accurately reflect anticipated transfers.

2. CORE DESCRIPTION

Section 610.026.1, RSMo, requires that "except as otherwise provided by law, each public governmental body shall provide access to and, upon request, furnish copies of public records." The Department deposits collections from the sale of information to the DOR Information Fund.

The Department, at the end of each state fiscal year, determines the amount to transfer from the DOR Information Fund to the State Highways and Transportation Department Fund pursuant to Section 32.067(1), RSMo. The transfer amount is the amount of monies derived from highway users as an incident to their use or right to use the highway of the state which were deposited into the DOR Information Fund less the amount of disbursements from the DOR Information Fund which were made to produce the monies referred to in Section 32.067(1), RSMo.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Chapter 142, RSMo, requires the Department of Revenue to collect and distribute motor fuel taxes collected each month. SB 262, passed during the 2021 General Assembly authorizes a motor fuel tax increase. The tax rate increased to 19.5 cents a gallon on October 1, 2021 and 22 cents a gallon on July 1, 2022. The rate will increase to 24.5 cents a gallon on July 1, 2023; 27 cents per gallon on July 1, 2024; and 29.5 cents a gallon on July 1, 2025.

During Fiscal Year 2022, the Taxation Division transferred the full amount allotted of \$560,178,001 to the Highway Fund. An additional \$41,892,790.53 was needed to complete the transfer. This additional amount was included in the July 2022 transfer instead. There was a 13% increase in monies transferred to the Highway Fund in Fiscal Year 2022 compared to Fiscal Year 2021. This was in large part to the motor fuel tax increase imposed by Senate Bill 262 in the 2021 legislative session. As a result of the increase in monies transferred in FY2022 and the additional tax increase of \$0.025 on July 1, 2023, we believe \$898,000,000 (\$148,460,060 in excess of the FY2023 appropriation) will be needed to cover all transfers to the Highway Fund in Fiscal Year 2024.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department is requesting a core increase for Fiscal Year 2024 based on the anticipated increase to the motor fuel tax transfer.

2. CORE DESCRIPTION

Organizations seeking authorization for a new specialty plate submit an application form and appropriate fee to the Department of Revenue. The fee is deposited into the DOR Specialty Plate Fund and should defray the implementation costs of issuing, developing, and programming the authorized plate.

Pursuant to Section 301.3150(2), RSMo, at the end of each fiscal year, the Department determines the amount of collections over disbursements and transfers the net collections to the State Highways and Transportation Department Fund. This appropriation enables the Department to transfer the applicable funds.

2. CORE DESCRIPTION

Beginning in Fiscal Year 2018, the General Assembly appropriated \$1 to transfer from the Department's core budget to the State Legal Expense Fund for the payment of claims, premiums, and expenses provided by Section 105.711 through Section 105.726, RSMo. In order to fund such expenses, the General Assembly also authorized three percent flexibility from the Department's operating budget into the \$1 transfer appropriation.
