Table A.1 Notes & Table A.2 | FY21 Department Reports of Pounds Recycled

Table A.1 | Note on Boxes with C's:

A "C" in a box on this table indicates an agency recycled the designated item by utilizing the Jefferson City (JC) or St. Louis (StL) recycling contracts. Materials collected via the JC contract include **Mixed Office Paper and Commingled Materials (Cardboard, Aluminum, Plastic, and Steel (tin) Cans)**. A box that has a number over a "C" indicates the agency reported material that was recycled statewide, but not reported in the JC or StL contract figures. For example, Natural Resources (DNR) reported 83,383 pounds of commingled materials recycled and DNR offices in JC utilized the JC Recycling Services contract to recycle commingled material.

Table A.1 | ***Note on "Totals by Material"

This column includes collection totals as reported by the recycling contractor for the following materials: **Cardboard, Carpet, Commingled, Electronic Scrap, Mixed Paper, Pallets, Plastic, and Rubber Tires**. Figures reported by the contractor do not appear in the table on this page; however, these figures are reflected in the "Totals by Material" column. Contractor figures are summarized in Table A.2 (below).

Agencies that utilized a recycling contract, but do not appear in this table include: **Dept. of Labor & Industrial Relations, Environmental Improvement Energy Resources Authority, Lottery, Tax Commission, Governor's Office, Attorney General, Auditor, Treasurer, House, and Senate**. Amounts of materials recycled by these agencies are included in the "Totals by Material" column.

Table A.1 | Contract Reporting

Total pounds recycled by agencies utilizing the Jefferson City, St. Louis, Kansas City, onsite document destruction, electronic scrap, and carpet contracts are provided in Table A.2 below. These figures are reported as cumulative totals. Due to contract reporting, data is reported by building and it is not feasible to separate data by agency where there are multiple agencies in the same building. All numbers in table A.2 are reflected in the "Totals by Material" column in Table A.1.

Table A.2 | Contract Reported Weights

Table A.3 Notes

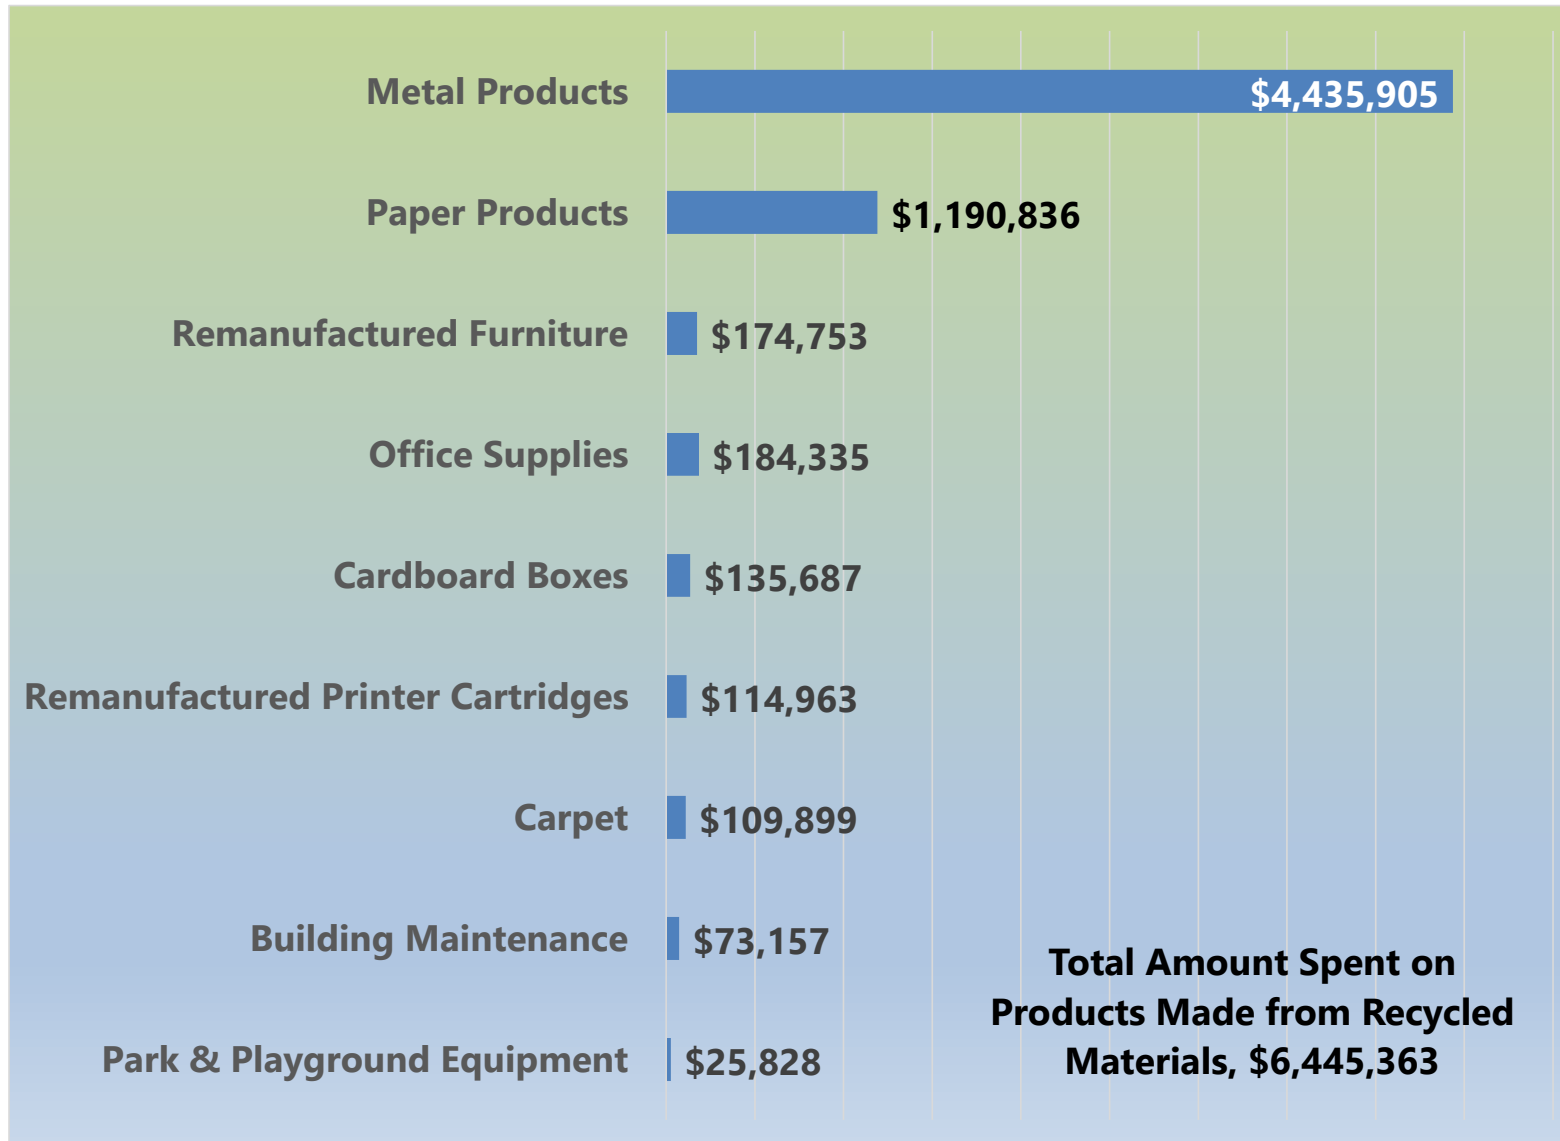

1,796 printer cartridges were recycled by employees using a statewide service for this item and are included in the 'TOTALS' amount shown in this table.

Note on Agency-Specific Printer Cartridges: Figures appearing for individual agencies may not be an accurate reflection of the number of printer cartridges recycled. In some buildings agencies utilize a centralized recycling drop-off for cartridges and it is not feasible to separate agency data once recycled.

Table B.1 Notes

When adding the figures in each row, the following amounts need to be included in the sum.

- Carpet contractors reported agency purchases of \$109,899.
- Construction Materials contractors reported purchases of \$68,320.
- Office Supplies contractors reported purchases of \$152,438.
- Missouri Vocational Enterprises provided procurement figures for the following:
 - Cardboard Boxes: \$112,930
 - Metal Products: \$183,465
 - Park & Playground Supplies-Recycled plastic tables & benches: \$25,828
 - Remanufactured Furniture & Recycled Fabric: \$174,753

**FY21 Dollars Spent on Non-Paper Recycled Products:
\$5,254,617**

APPENDIX B

Table B.2 | FY21 Purchases of Recycled Paper Compared to Virgin Paper

Product Category	Recycled Paper Purchases	Virgin Paper Purchases	Recycled Paper Purchases as a % of Total Purchases in Product Category		
	FY21	FY21	FY21	FY20	FY19
Fine Paper Products (office, copy, fax)	\$0	\$23,086	0%	1%	13%
Coarse Paper Products (napkins, towels, tissues)	\$943,545	\$973	100%	99%	97%
Forms (continuous & snap out)	\$0	\$0	0%	0%	12%
Envelopes (Plain or Printed)	\$129,165	\$129,165	50%	69%	84%
Printing by contractors (40% of total charge is attributable to paper - figures appearing in this row represent paper cost only)	\$118,126	\$134,690	47%	37%	28%
Overall Totals	\$1,190,836	\$287,914	81%	57%	80%

In fiscal year 2021 (FY21), 81 percent of agency paper purchases included recycled content. The state of Missouri spent \$943,545 on recycled toilet paper (Coarse Paper Products) in FY21 for approximately 34,311 cases of toilet paper made with 100 percent recycled content. Purchasing this type of recycled paper compared to purchasing the same amount of virgin paper translates into the following estimated environmental savings*:

- 2,280 fewer tons of wood used or about 13,700 fewer trees
- 6,400 million BTUs less energy – enough to power 61 homes in Missouri for a year
- 8,950,000 less gallons of water used – about the same amount used by 6,620 clothes washers operated for a year.
- 7,750,000 pounds less “carbon dioxide equivalent” generated – 689 fewer cars on the road each year.
- 10,000 fewer pounds of solid waste – equivalent to 2,300 Americans generating no waste for one day.

* Environmental impact estimates were made using the Environmental Paper Network Paper Calculator Version 4.0
