Pay Plan
DI# SWO.GV.002

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriated amounts for the Fiscal Year 2026 pay plan are based on current time of state service for all full-time employees.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The old, now unused Homeland Security Fund has a fund balance of \$731.55. This fund is no longer appropriated. It was created for use in FY 2003 and FY 2004. Entire amount of cash deposited into the fund was used and the fund was inactive until FY 2007, 2008, 2009, and 2010. Some property was sold using Gov Deals (surplus property) and the proceeds were deposited back to this fund in those years. Surplus Property only keeps records for five years, so it is not possible to track down exactly when it was sold. Interest into the fund is turned off.

The \$731.55 balance will be transferred to the DPS Federal Fund. That fund is a catch-all for federal dollars and also acts as revolving funds for the Director's Office and several divisions.

2. CORE DESCRIPTION

The State Drug Task Force Grant Program makes it possible for Missouri to aggressively address the many public safety issues associated with illicit drugs and violent crime. Since the inception of the first statewide drug strategy in 1986, Missouri has implemented many programs focused on drug awareness/education, enforcement, prosecution, rehabilitation, and treatment efforts. These programs have helped improve the quality of life for Missouri's citizens. With the continued funding, the DPS will be able to address the current and future needs of the state relating to drugs and violent crime. DPS collaborates with state and local law enforcement agencies to provide a proactive approach for the public safety of Missourians. The State Drug Task Force Grant program provides funding to drug task forces (DTF) throughout the state for drug related crime response and prevention including equipment/technology for drug interdiction activities.

The "less than \$10,000" award allocation is used to purchase officer safety related equipment, such as, but not limited to, ballistic vests, reflective traffic vests, flares and road cones, body cameras, lights and sirens, vehicle partitions, restraints, and medical kits. The remaining award allocation is used primarily to fund the multi-jurisdictional drug task forces to reduce and prevent illegal drug activity and to impact crime and violence often associated with illegal drug use.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Corrections was recently found out of compliance with federal guidelines for Justice Assistance Grant (JAG) funding. A 5% federal penalty will be applied to the total federal FY 25 award amount. DPS is mandated to pass a certain amount through to DOC while the other portion of JAG is for the Narcotics Control Assistance Program and multi-jurisdictional task forces. This funding will ensure there is enough cash in the fund to support those programs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If

based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Based on federal guidance on how the amount is calculated the amount may be far less than \$215K. Using the federal FY 24 award amount, the 5% would be \$89K. However the penalty will be based on the federal FY 25 award amount. DPS will not know that amount until October of CY 2025.

2. CORE DESCRIPTION

The Deputy Sheriff Salary Supplementation Fund (DSSSF) Program was created in FY09 to supplement the salaries of county deputy sheriffs. Section 57.278 RSMo provides for money to be collected from charges for service received by county sheriffs under subsection 4 of Section 57.280 RSMo, and the money collected is paid to the state treasurer and deposited into the DSSSF. The money in the DSSSF shall be used solely to supplement the salaries, and employee benefits resulting from such salary increases, of county deputy sheriffs. The Missouri Sheriff Methamphetamine Relief Taskforce (MoSMART) is designated to administer the DSSSF. Administrative assistance is provided to the MoSMART by the Missouri Department of Public Safety, Office of the Director.

2. CORE DESCRIPTION

The State of Missouri's original victim assistance program was established under the auspices of the Department of Public Safety by the General Assembly with the adoption of Section 595.050 RSMo in 1981. With the passage of Section 595.100, RSMo (1988), the Services to Victims Fund was established. The Services to Victims Fund consists of money collected pursuant to Section 595.045, RSMo. Upon appropriation, this money shall be used solely for the administration of contracts for services to victims of crime pursuant to Sections 595.050, 595.055, and 595.105, RSMo. Funds are awarded to state and local units of government and private nonprofit agencies to provide direct services to victims of crime. Eligible services include, but are not limited to, direct services, emergency services, crisis intervention counseling, and victim advocacy. This funding is primarily utilized by domestic violence shelters, a rape crisis center, child abuse treatment facilities, law enforcement and prosecutors to provide high quality services that directly improve the health and well-being of victims of crime.

2. CORE DESCRIPTION

Since 1995 the State of Missouri has been receiving funding through the S.T.O.P. (Services*Training*Officers*Prosecutors) Violence Against Women Grant Program (STOP VAWA) as authorized by the Violence Against Women Act (VAWA) and subsequent legislation. Federal guidelines require that at least 25 percent of each year's grant award to the state be awarded for law enforcement programs, at least 25 percent for prosecution programs, at least 5 percent to court programs, and at least 30 percent for nonprofit, nongovernmental victim service programs. Of the 30% allocated for victim service programs, 10% must be allocated to culturally specific community-based organizations. These are statutory requirements. The remainder of the funds may be spent at the discretion of the DPS Director to address the statutory program purposes of this program. Further, 20% of the total amount granted shall be allocated to projects in two or more allocation categories that meaningfully address sexual assault. In distributing funds, Missouri must give priority to areas of varying geographic size with the greatest showing of need, take into consideration the geographic population of the area to be served, equitably distribute monies geographically including non-urban and rural areas, and ensure that the needs of previously underserved populations are identified and addressed.

3. PROGRAM LISTING (list programs included in this core funding)

2. CORE DESCRIPTION

The Office for Victims of Crime, Crime Victims Compensation Program (CVC) provides financial assistance to eligible crime victims/family members who have suffered harm as a result of violent crime. In the case of death, the CVC may help the victim's legal dependents. The CVC is designed to assist victims/family members of violent crimes through a period of financial hardship as a payer of last resort. If a victim has exhausted other sources of compensation, such as health insurance, and has no other source of reimbursement, CVC may help pay for crime related medical costs, wage loss, psychological counseling, funeral expenses and support for dependent survivors up to a maximum limit of \$25,000. Eligibility for the CVC is determined through an application process. A portion of funding for the program come from court costs assessed in criminal prosecutions. Additional funds are received from a federal formula grant from the U.S. Department of Justice, Office for Victims of Crime. DPS-OVC administers the VOCA Compensation grant that is a funding source for the CVC program. This federal formula grant is separate from the VOCA Assistance program administered by DSS. Effective July 1, 2008 medical providers in Missouri are prohibited from charging victims for a sexual assault forensic exam or charges incurred in collecting evidence during the exam. The DPS-OVC, Sexual Assault Forensic Examination (SAFE) Program pays medical providers directly. The Child Physical Abuse Forensic Examination (CPAFE) began in 2016, and pays professional fees for SAFE-CARE providers who perform forensic examinations to collect and preserve evidence on children under 18 who have been a victim of physical abuse in Missouri; or provide a case review of previously gathered photographs, medical records, or investigative information provided by a multi-disciplinary team on children under 18 who have been a victim of physical abuse in Missouri. Both the SAFE and CPAFE programs are first payers. Per 11 CSR 30-12.020 (8) and RSMo 595.220.6 RSMo, victims should NOT be billed for any forensic exam charges eligible through either program.

2. CORE DESCRIPTION

This provides funding for body worn cameras and storage for officers of the Missouri State Highway Patrol and Capitol Police. Many law enforcement agencies continue to undergo public scrutiny, and citizens have an expectation law enforcement officers will wear body worn cameras during the performance of their duties. Body worn cameras will enhance what is captured and improve officer safety through training and increase agency transparency while providing additional accountability to the public.

Equipment Replacement

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Due to the increased cost of supplies that need replacing (including ballistic panels and helmets, gas masks and other officer safety equipment); continued training; and additional costs for recruiting and hiring new employees for the high number of Trooper vacancies, the Patrol requests flexibility from PS to EE in the following funds: PS Hwy 1% (Approp 11136) to E&E Hwy (Approp 11430) = \$986,000 / PS GR 2% (Approp 11134) to E&E GR (Approp 11139) = \$284,000

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Patrol has a Public Order Unit program comprised of three levels based on training and equipment. Each level of the Public Order Unit is trained and equipped to its standard. The Patrol's Public Order Unit assists agencies facing civil unrest across the state, which typically involves interrupting the safe flow of traffic on Missouri's roadways. The Patrol does not have dedicated funding for this program. In 2021, with grant funding, the Patrol trained 90 officers in Level 1 Advanced Public Order training, which follows national standards for public order units. However, to maintain and replace the specialized equipment including fire retardant clothing, train new members, and conduct maintenance training, dedicated funding is needed.

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were

The Patrol is in the process of transitioning to a metal patrol boat fleet, which was found to be a cost-effective alternative to the larger fiberglass lake boats currently in inventory. They are welded aluminum, collared, center console boats that are purposely constructed for law enforcement work. Although higher in cost, the average service life is estimated to be twice as long as a similar fiberglass vessel. In addition, the aluminum hull will better withstand wake impacts, not be subject to yearly fiberglass repairs, and the collared system will protect against vessel damage during enforcement contacts.

Many police departments are moving towards or already have transitioned to pistol-mounted red dot sights (RDS). The advantages of RDS are increased accuracy; greater field of view; corrects for diminished eyesight; instant feedback for self-diagnosis; efficiency; and ease of keeping the threat in focus. This request would replace the service pistol and equip Patrol issued rifles with similar optics to maintain consistency across weapon platforms. The transition would require training with 2,800 rounds per officer. A Patrol study conducted in preparation for this request showed most officers felt more confident with the RDS and their overall accuracy improved. Also, current S.W.A.T. 5.56 rifles are over 10 years old and have a significant round count and use. Many of the rifle parts have exceeded their suggested life expectancy. Parts included are barrels, bolt assemblies, cam pin, trigger assembly, safety selector, auto sear, sear pin, buffer assembly, buffer spring assembly, selector detent, ejector and detent spring, crush washer. Failures are also beginning to occur with the currently mounted optics.

The Patrol should be able to offset some of the cost by working with the vendors to trade in existing weapons. The below estimated costs are based on the offset credit being applied

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

Equipment Replacement

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Patrol has 4 Lenco Bearcat armored vehicles assigned to Mobile Field Force and SWAT teams at Troop A (Lee's Summit), C (St. Charles), D (Springfield) and F (Jefferson City). Three of these vehicles were purchased new in 2006. Their age has negatively impacted their performance. In FY 24 the Patrol was appropriated funding to replace the Troop C Bearcat. This funding was extended in FY 25 to allow additional time to make the purchase.

This NDI would replace 1 Bearcat at one of the troop locations.

Bill Section 8.170

The Patrol has seen an increase of 26% of the cost of reagents and consumables. Maintenance agreements have also increased by 40% for the Crime Lab Division. The Patrol believes a budget increase would significantly enhance operations by accounting for increases to core operating costs and allow for reasonable instrument replacement as well as continue to prepare for the new statewide crime lab.

In 2023 the Crime Lab Division received 26,758 cases, with Drug Chemistry cases accounting for 53% (14,296) of the total workload. Drug Chemistry analysis requires the use of a Gas Chromatograph/Mass Spectrometer (GC/MS). Due to continuous usage and systemic technological changes, the expected operational lifespan of a GC/MS is 6 years per instrument. The Patrol operates 41 GC/MS instruments. Until recently, the replacement strategy was to replace approximately 7 instruments annually so that no instruments lifespan went past 6 years of use. This strategy allowed them to maintain consistent analytical capabilities, minimize downtime, ensure reliable turnaround times, and prevent backlog increase.

The current operational impact of the disruption of the replacement schedule has not only resulted in an impact to case output, but rising maintenance costs. Historically, their budget supported either regular GC/MS replacements or strategic deferral of GC/MS replacement to address other critical instrumentation needs throughout the laboratory system. Rising costs have severely limited the Patrol's ability to maintain regular replacement schedules, replace critically failed instruments, and address emergency equipment needs. Without addressing these equipment lifecycle challenges, the Crime Lab Division's ability to process cases efficiently and maintain acceptable turnaround times will continue to deteriorate.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Cost estimate: \$660,500

Funding sources: General Revenue (0101) = \$390,000 (Ongoing)

In FY 25, one time funds were added to facilitate the identification of unidentified human remains. The Patrol has outsourced this process with a lab. It is unlikely that the lab will be able to complete and invoice the Patrol by the end of FY 25. Patrol requests the appropriation for FY 26 for invoices that are unable to be paid in FY 25.

Equipment Replacement

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were

appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Equipment Replacement

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were

Bill Section 8.190

To comply with FBI Criminal Justice Information Security (CJIS) Policy, MSHP is moving to more cloud-based services. These applications protect the central fingerprinting repository, criminal history repository, wants/warrants repository, sex offender system, MACHS (portal for checking teachers, day care, medical professionals, etc.) and many other systems. Licensing fees have increased by 220% over the last seven years. The price from Checkmarx (code validation/security licenses) has increased from \$53.4K in 2020 to \$62.3K in 2024. Also, the Patrol's security vendors have increased pricing significantly over the last three years. In 2020 MSHP paid \$781 for remote firewalls and \$54K for perimeter firewalls. In 2024 those numbers increased to \$1.2K for remote firewalls and \$194.5K for perimeter firewalls.

Part of the funding will be used to upgrade the monitoring connections to local agencies that access the Missouri Uniform Law Enforcement System (MULES), which tracks criminal history information, and other services. The FBI CJIS policy has changed over the past year with new requirements including 3rd party security assessments, vulnerability scanning, event logging, and other mandatory requirements.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

- > \$300K to replace older security devices including network monitoring devices and firewalls
- > \$300K for Microsoft Azure cloud services
- > \$100K for vulnerability scanning tools and services
- > \$100K for identity protection licenses for MSHP employees and other critical users.

Due to a significant increase in the costs of goods and services in recent years, the Patrol is requesting to increase the amount allocated to offset the cost of uniforms, uniform maintenance, and uniform equipment for all its uniformed employees. The last increases to the uniform allowance were in FY18 (from \$800 to \$1,000) and in FY07 (from \$600 to \$800). The average inflation rate since FY18 has increased by an average of 3.61% per year with a cumulative inflation of 27.97%. This request is an increase for members and uniformed civilians. The Patrol is also due for a new uniform contract in FY26, which will have increased costs.

Bill Section 8.215

To help ensure the safety of the citizens of Missouri, the Division of Fire Safety issues approximately 20,000 certificates of inspection each year for boilers and pressure vessels throughout the state. An estimated 2,000 of these units are found to be in dangerous condition each year. Division inspectors conduct inspections on uninsured boilers and pressure vessels and provide consultation for the owners and operators of uninsured units. Companies insuring boilers or pressure vessels may conduct inspections at locations they insure.

Currently there are only 7 budgeted staff to conduct inspections for the entire state. These staff are funded from fee revenue from the Boiler and Pressure Vessel Safety Fund. Pursuant to RSMo 650.275, fees are set at a level which reflects the average fees from at least 75% of states which regulate boilers and pressure vessels. These fees were last increased June 2023.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

According to RSMo Chapters 316, 320, 650, & 701, the Division of Fire Safety responsibilities include investigating fires and explosions in Missouri; fireworks permitting and shooter training and licensing; conducting fire safety inspections in facilities licensed by Mental Health, Family Services, and Health and Senior Services; boiler and pressure vessel safety inspections; training and certification of fire service, EMS, and law enforcement personnel; amusement ride permitting, safety inspections, and accident investigations; elevator safety inspections; the licensing and regulation of blasters and blasting companies; and the oversight of the Division's budget and program planning and policies. The requested flexibility would assist to ensure that the most efficient and effective services are provided. Effective response to changing situations is difficult when working within the boundaries of fixed budgets which have decreased over the last several years. Due to core reductions and restrictions, expense budgets are tight. Flexibility to operate across appropriation lines among all funds is needed to meet statutory obligations and continue providing the best possible service to the citizens of Missouri.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

2. CORE DESCRIPTION

The most recent report published by the National Fire Protection Association (NFPA) states an estimated annual average of 18,100 (5%) reported home structure fires started by smoking materials killed an average of 590 (23%) people annually, injured 1,130 (10%), and caused \$476 million in direct property damage (7%) between 2012- 16. In order to reduce deaths and injuries from this preventable tragedy, as well as to decrease property loss from fires due to unattended cigarettes, the 2009 General Assembly passed House Bill 205 and created the Fire Safe Cigarette Act. This Act requires the Division of Fire Safety to regulate the sale of reduced ignition propensity cigarettes. Similar programs have been implemented within State Fire Marshal offices in all 50 states, and proven to reduce the number of cigarette-related fires. Division responsibilities include a certification process for cigarette brand families and individual cigarette styles, including recertification every three years; recertification if the cigarette is altered in any way; notification of certifications to the Attorney General and the Department of Revenue; a monitored testing process; approval of cigarette markings; handling of funds for certification processing; and management of the Cigarette Fire Safety and Fire Fighter Protection Act Fund to be used for the delivery of fire prevention and safety programs. The Division has registered or renewed 4,986 Brand Styles as reduced propensity cigarettes.

2. CORE DESCRIPTION

This funding provides a wide spectrum of courses at no cost to the fire service, law enforcement personnel, emergency responders, local emergency planning committees, and other state agencies upon request. It is estimated that at least 80% of Missouri's approximate 25,000 fire fighters volunteer their service and often represent departments with little or no budget for training. The intent is to provide emergency response personnel with the most current training available in order to prepare them to respond to lifesaving incidents involving the citizens and visitors of our State. These training programs, from the basic firefighter course to the very complex technical rescue course, represent the most fundamental and integral part of emergency services. Without funding for these programs, the health and safety of firefighters and emergency responders around the state will be directly effected, as well as the countless citizens who depend on an effective response in their time of need. Although not state-mandated, 75% of the fire departments serving populations of 10,000 or more citizens require fire fighter training and/or certification. To charge for training programs is possible; however, to do so would significantly decrease their effectiveness by reducing their exposure to the target audiences. The result would be a sharp decline in readiness, safety, and professionalism of our emergency services.

3. PROGRAM LISTING (list programs included in this core funding)

The WWI Memorial Trust Fund has enjoyed strong revenues above the amount appropriated in the House Bill as people choose to donate voluntarily to the fund through military license plate applications. This is a one-time increase in the fund towards the restoration, renovation, and maintenance of the World War I Memorial in Kansas City pursuant to RSMo 303.3033.

In the FY 25 budget cycle, a longevity salary increase was approved for certain employees at Veteran's homes. Not all staff were included in the cost estimate. After the budget was passed, additional staff titles were approved to be included. After the approval of the additional staff titles, several staff titles remained excluded. This request provides funding for both the approved staff titles and the remaining excluded staff titles.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If

The Centers for Medicare and Medicaid (CMS) recently implemented a rule (CMS 3442-F) for long term care facilities to require 3.48 nurse staffing hours per resident day (HPRD). This portion of the rule must be implemented within 2 years of the final rule publication. At least .55 HPRD of care is provided by RNs and 2.45 HPRD of care provided by nurse aides. This portion of the rule must be implemented within 3 years of the final rule publication. The previous standard was 3.00 HPRD. The new rule was effective June 21, 2024.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? The additional 78.00 FTE were calculated on a census goal of 1,070 (86% of census capacity of 1,238). Current budgeted FTE allow for a census goal of 984 (79% capacity). Current census (September 2024) is 809. As the census in the homes increases, there will be additional requests for FTE and funding to meet the required nurse staffing hours.

2. CORE DESCRIPTION

Overtime is a necessary expenditure in any 24-hour skilled nursing care setting and the Missouri Veterans Homes are no exception. Prior to payroll reimbursement from Corona Virus Relief Funds, this overtime appropriation was exhausted by the middle of the fiscal year. When the authority in this appropriation is fully expended, overtime pay reverts back to the regular payroll appropriation within the Veterans Homes fund.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Veterans has expended more for overtime then was available in the overtime appropriation in four of the last six years. Additionally, the two years that did not exceed the appropriation, CRF funds supported the payment of overtime (FY 21 and FY 22). In a normal fiscal year, the overtime appropriation is fully exhausted mid-year. Additional appropriation authority in the overtime appropriation will allow for greater transparency of the dollars spent.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If

based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

As positions are filled in the veterans homes and vacancy rates drop, more overtime is accrued and paid. In FY 24, overtime payments exceeded the appropriation by \$363,847. In FY 23, overtime payments exceed the appropriation by \$278,757. In FY 20, overtime payments exceeded the appropriation by \$1,252,391. Per Article XIV, Subsection 2.6(2) of the Missouri Constitution, adult use marijuana fees and taxes shall be distributed as follows:

- (a) First, to the Department of Health and Senior Services (DHSS) to carry out its responsibilities under the section;
- (b) Second, to governmental entities as needed to carry out responsibilities in the expungement of criminal history records under the section;
- (c) Next, the remaining fund balance shall be distributed in thirds as follows:
 - a. One-third to the Missouri Veterans Commission (MVC) and allied state agencies for veterans health care and other services;
 - b. One-third to DHSS for grants to increase access to evidence-based low-barrier drug addiction treatment;
 - c. One-third to the Missouri State Public Defender (MSPD) for legal assistance for low-income Missourians.

The Governor's recommendation is based on the most recent projection of what will be needed to fully expend the one-third share of the remaining fiscal-year-end FY 2024 balance of the Veterans, Health, and Community Reinvestment Fund, as authorized by Mo. Const. Art. XIV, Section 2.

2. CORE DESCRIPTION

The Gaming Commission's role is to monitor gaming-related activities to ensure criminal elements do not infiltrate licensed gaming operations. The Commission also works to protect the public by ensuring games are conducted fairly according to rules. The Commission receives its operation funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955, RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Art. III § 39(g) of the Missouri Constitution, adopted through Amendment 2 (2024) creates the "Compulsive Gaming Prevention Fund" to be used by the Missouri Gaming Commission for the purposes of providing counseling and other support services for compulsive and problem gamers; developing and implementing problem gaming treatment and prevention programs; and providing grants to supporting organizations that provide assistance to compulsive gamers.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If

based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Art. III § 39(g) describes two revenue sources for this fund: license fees for sports wagering operators and tax revenues from a 10% tax on adjusted gross revenue (AGR) from sports wagering.

MGC anticipates issuing up to 19 retail licenses (each generating \$250,000 in fee revenue) and 21 mobile licenses (\$500,000 each). This could result in \$15.25 million in fee revenue every five years as licenses are renewed. All license fee revenue is directed to the Compulsive Gaming Prevention Fund after reimbursing the Gaming Commission for reasonable expenses incurred to regulate sports wagering. MGC anticipates \$5,975,657 in expenses in FY 26 to regulate sports wagering. This leaves \$9,274,343 for Compulsive Gaming from license revenue alone.

Constitutional language devotes the greater of \$5 million or 10% of tax revenue from sports wagering to the Compulsive Gaming Prevention Fund. MGC estimates just over \$6 million in tax revenue in the first year based on the best available data. Together with license fee revenue, this represents a total transfer of \$14,274,343 in FY 26 to the Compulsive Gaming Prevention Fund.

2. CORE DESCRIPTION

Fringe benefits for employees of the Missouri State Highway Patrol assigned to Gaming are provided through a retirement and insurance system other than MOSERS and MCHCP. Because of this, state contributions for these fringes are paid directly to the systems and not transferred. It is necessary that specific funds for this purpose be appropriated. Benefits include health and life insurance, retirement and long-term disability, worker's compensation, and the Employee Assistance Program.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

2. CORE DESCRIPTION

The Gaming Commission receives its operational funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955 RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

3. PROGRAM LISTING (list programs included in this core funding)

Disbursement of gaming boat admission fees.

based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Art. III § 39(g) describes two revenue sources for this fund: license fees for sports wagering operators and tax revenues from a 10% tax on adjusted gross revenue (AGR) from sports wagering.

MGC anticipates issuing up to 19 retail licenses (each generating \$250,000 in fee revenue) and 21 mobile licenses (\$500,000 each). This could result in \$15.25 million in fee revenue every five years as licenses are renewed. All license fee revenue is directed to the Compulsive Gaming Prevention Fund after reimbursing the Gaming Commission for reasonable expenses incurred to regulate sports wagering. MGC anticipates \$5,975,657 in expenses in FY 26 to regulate sports wagering. This leaves \$9,274,343 for Compulsive Gaming from license revenue alone.

Constitutional language devotes the greater of \$5 million or 10% of tax revenue from sports wagering to the Compulsive Gaming Prevention Fund. MGC estimates just over \$6 million in tax revenue in the first year based on the best available data. Together with license fee revenue, this represents a total transfer of \$14,274,343 in FY 26 to the Compulsive Gaming Prevention Fund.

The State Emergency Management Agency (SEMA) is the state of Missouri's coordinating agency for disaster planning, response, and recovery. SEMA works with other state departments and agencies, local and federal governments, and volunteer and faith-based organizations to ensure coordinated and efficient management during large scale emergencies and disasters. When a disaster occurs that exceeds the recovery capability of local and state resources, SEMA assists the Governor in compiling information necessary to initiate a request for federal disaster relief funds. When a disaster is declared by the President, SEMA administers the funds for relief purposes and functions as the liaison between other state agencies, affected local subdivisions, and the federal government. As confirmed by a hazard vulnerability analysis, Missouri has a long and varied disaster history, thus; a potential exists for repeated catastrophes and disasters - both would threaten life and property in Missouri. SEMA is also responsible for administration of the National Flood Insurance Program within Missouri. Other duties include the year-round administration and dispersal of federal funds to local governments for emergency management activities, year-round coordination of planning and response activities for public health emergencies and the on-going training and exercise program for local government officials. SEMA is responsible for assisting local governments in developing local emergency operations plans, which will increase their capability to provide for the protection of their population from disasters.

With the creation of Disaster Medical Assistance Team (DMAT) response teams, there was no corresponding increase in FTE (no acknowledgement that salary payment for this work would generate FTE). With the occasional use of DMAT response teams generating unplanned FTE, the Director's Office is not allowing the division to replace positions that are vacant since that would exceed their budgeted FTE. DPS is working to ensure that each division does not exceed FTE totals with the advent of greater visibility of FTE utilized compared to FTE budgeted.

appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? SEMA is currently holding 9 positions vacant due to Director's Office requirements that divisions stay within their budgeted FTE. The FTE generated by DMAT work varies from month to month, year to year. Over the past 5 years, DMAT generated 20.71 FTE on average. This number is skewed by higher numbers in 2020 and 2021 during the pandemic response. 12 FTE will allow SEMA to fill the 9 vacancies and some flexibility to respond to potential disasters in the future.

The Missouri Emergency Response Commission (MERC) is responsible for administering the state and federal Emergency Planning and Community Right-to-Know Act (EPCRA). Industries affected by this legislation are required to report to the MERC annually to comply with state and federal laws. Fees are collected annually according to established reporting procedures. The MERC provides response and mitigation training of hazardous chemical accidents to Local Emergency Planning Committees or Districts (LEPCs & LEPDs), and Fire Departments. The MERC assists the LEPCs & LEPDs in the development and review of hazardous materials plans and serves as a distribution point for the Federal Hazardous Materials Transportation Uniform Safety Act funds of 1990 (HMTUSA) for training and planning grants.

The statute permitting the collection of fees expired August 28, 2024. There is enough fund balance to carry out the activities for Fiscal Year 2025 but not enough for Fiscal Year 2026. Fees are collected in the early months of the calendar year and legislation renewing the fee will allow for funds collected and used in FY 2027. A General Revenue pick up for FY 2026 is requested.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This funding will assist agricultural producers and landowners with recovery from and preparation for natural disasters, including the mitigation of flood and drought impacts. Missouri has experienced drought in 2018, 2022, 2023, and 2024, along with significant flooding in 2019. Because this item consists of unspent emergency funds from the previous fiscal year and it is impossible to know how much will be spent until the fiscal year is over, this appropriation needs to be extended into FY 26.

This item consists of unspent funding appropriated for National Guard readiness in the event of a governor-declared disaster in House Bill 12, less \$500,000, that would be transferred as needed to support agriculturally-related disasters. That funding would be transferred to an administratively created fund within SEMA for these response efforts.
