MISSOURI
DEPARTMENT OF
NATURAL RESOURCES

Mike Kehoe
Governor

Kurt U. Schaefer
Director

October 1, 2025

Dan Haug
Office of Administration
Division of Budget & Planning
State Capitol Building, Room 124
Jefferson City, MO 65101

Dear Dan Haug:

The Department of Natural Resources is pleased to submit its Fiscal Year 2027 Budget Request. The Missouri Department of Natural Resources serves as stewards of our natural resources to benefit Missourians. Our vision focuses on managing Missouri's natural resources to build a lasting legacy of stewardship for future generations.

The department has been entrusted with a number of large infrastructure projects we are diligently managing to successful completion:

- The department continues to administer more than \$400 million in state American Rescue Plan Act grant funds for fiscal years 2023-2027 to local governments for critical wastewater, stormwater and drinking water infrastructure.
- With the infusion of additional allocations to our State Revolving Funds from the Infrastructure Investment and Jobs Act, the department anticipates making \$2.2 billion in loan and grant commitments from the program for Missouri water infrastructure over the next five years.
- DNR has completed 8 of the 28 revenue bond projects. Other examples of the \$68 million revenue bond projects currently underway at 22 state parks include campground upgrades, expansions and new cabins.

This budget request reflects the department's priority to strengthen Missouri communities with effective, efficient and targeted funding assistance. In current fiscal year 2026, approximately 86% of the department's budget, more than \$1 billion, is directed to pass through to Missouri communities.

Sincerely,

Kurt U. Schaefer
Director

2. CORE DESCRIPTION

1x Core Reductions: The FY 2027 Department Request includes a core reduction of \$13,214 one-time General Revenue expense and equipment authority; and a core reduction of \$4 million one-time General Revenue pass-through authority (for modernizing processes with online IT applications) from the FY 2026 budget. NOTE: For the FY 2027 budget, the department has submitted a corresponding NDI requesting the \$4 million in pass through authority be reappropriated to the capital improvements AB17 Re-appropriation bill in FY 2027. The pass-through authority will allow for the completion of IT application projects appropriated by the 103rd General Assembly (2025 session).

Core Reallocation: The FY2027 budget also includes a \$52,014 reallocation from the director's specific GR/Federal/Other pay plan appropriations to core appropriation authority within the Department Operations budget unit.

Department Operations includes the Department Director, Deputy Director(s), Administrative Support, Communications, and Legal. They are responsible for managing the organizational units within the department that implement statewide environmental and natural resource policies resulting in environmentally-sound decisions that protect our air, land, and water while fostering economic development; and promoting efficient administration and operations.

NOTES:

Financial data includes contract audit appropriations (other funds), which are set at a level to encumber and pay our commitments. These often span more than one fiscal year. That, in conjunction with staff turnover, have caused unexpended appropriation balances. The department continues to review operating expenditures to be efficient and effective with state resources.

FY 2026 includes \$4 million one-time General Revenue pass-through authority for modernizing processes with online IT applications.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 430001B	DEPARTMENT: NATURAL RESOURCES
BUDGET UNIT NAME: DEPARTMENT OPERATIONS	
APPROP. BILL SECTION: 6.200	DIVISION: DEPARTMENT OPERATIONS

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The department requests retention of 5% flexibility between funds (Federal and Other). Flexibility will allow the department to align appropriation authority with planned spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by Department Operations team members. Also included is 3% flexibility from 6.200 to 6.405 (General Revenue) related to the Legal Expense Fund.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Flexibility was not used in FY 2025.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY 2025.	Flexibility will allow the department to align appropriation authority with planned spending during the fiscal year based on funds availability and will help ensure effective, responsive service delivery by Department Operations team members.

**Department of Natural Resources
Department Operations
Permitting App Implementation
DI# NOP.43B.007**

Budget Unit 430001B

Bill Section 06.200

This department-wide item requests the remaining \$4,000,000 in IT applications authority be reappropriated to the capital improvements AB17 Re-appropriation bill in FY 2027. The pass-through authority will allow for the completion of projects appropriated by the 103rd General Assembly (2025 session).

The funding will allow more transparent and streamlined web-based applications and forms (such as renewals, change of information, etc.). It will modernize the submission, review, status information availability and approval process of permits, funding opportunity applications, etc. This will be done through a phased approach to modernize several of our external interactions and internal processes.

These efforts are supported by the entities the department serves and department team members – it will provide transparency to those permitted; reduces contact points for status inquiries; promotes efficiency; and provides team members the ability to focus on more complicated permits, applications, reviews, etc.

A streamlined path forward has been laid out and upon OA's approval, can proceed to the design phase.

Without the funds the department will be unable to modernize its permitting process and applications – alternative funding sources are not available to dedicate to this project.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The ServiceNow platform is already procured by the state which reduces the cost of implementation versus building a new platform from scratch and should be quicker to implement.

The funds will be used to hire an implementer to help not only build the platform, but integrate with aspects of existing systems that currently function as needed.

The FY 2026 unexpended appropriation is currently \$4,000,000.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 430067B, 430010B, 430012B, 430013B, 430014B, 430016B, 430017B, 430009B BUDGET UNIT NAME: ENVIRONMENTAL QUALITY OPERATIONS APPROP. BILL SECTION(S): 6.225	DEPARTMENT: NATURAL RESOURCES DIVISION: ENVIRONMENTAL QUALITY
--	--

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Division of Environmental Quality (DEQ) requests retention of 15% flexibility between Personal Service (PS) and Expense and Equipment (E&E) for General Revenue and 15% flexibility between programs and/or regional offices for General Revenue. For Federal and Other Funds, the division requests an increase of 15% flexibility (from 25% to 40%) between funds. Flexibility will allow the department to address environmental emergencies or other unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by the division, especially with federal funding reductions in recent years, coupled with federal funding uncertainties in the near future. Also included is 3% flexibility from 6.225 to 6.405 (General Revenue) related to the Legal Expense Fund.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$ 218,100 PS Program to Program (GR) \$ 5,600 PS to EE (GR) \$ 2,219,852 PS Fund to Fund (Federal/Other) \$ 301,881 EE Fund to Fund (Federal/Other) \$ 557,758 PS Fund to Fund (Other/Other) \$ 267,508 EE Fund to Fund (Other/Other) \$ 3,570,699 Total	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Various fund-to-fund, PS to PS, and E&E to E&E flex was used to align operating appropriation authority to proper funding levels based on service delivery needs during the year.	Flexibility will allow the department to address unanticipated needs, such as environmental emergencies or situations that may require an extraordinary response, by aligning appropriation authority with necessary spending based on funds availability to help ensure effective, responsive service delivery by the division.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 430020B, 430021B, 430023B, 430019B 430028B	DEPARTMENT: NATURAL RESOURCES
BUDGET UNIT NAME: ENVIRONMENTAL QUALITY PASS-THROUGH	
APPROP BILL SECTION(S): 6.235, 6.240, 6.250, 6.230, 6.275	DIVISION: ENVIRONMENTAL QUALITY

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Division of Environmental Quality (DEQ) requests retention of 50% flexibility between funds (Other) for Water and Wastewater Infrastructure (430020B) as well as retention of 25% flexibility between funds (Federal and Other) for these pass-through budget units: Water Quality Studies (430021B); Air Pollution Control Grants & Contracts (430023B); and Technical Assistance Grants (430019B). Flexibility will be used when needed to align appropriation authority with planned spending based on funds availability for pass-through programs.

In addition, DEQ requests retention of 10% flexibility between Personal Service (PS) and Expense and Equipment (E&E) for the Post-Closure Fund (1198) related to closure and postclosure activities at solid waste landfills with forfeited financial assurance instruments (430028B).

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
PSD \$85,806,950 Fund to Fund (Other/Other)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was used to align Wastewater Loans appropriation authority based on available funding to process encumbrances and pass through project payments.	Fund flexibility will be used when needed to align appropriation authority with planned spending based on funds availability for pass-through programs. PS and E&E flexibility will be used to ensure effective, responsive service delivery related to solid waste forfeiture sites.

2. CORE DESCRIPTION

The Financial Assistance Center is dedicated to helping Missouri communities plan, finance, and build water infrastructure projects that improve the lives of Missourians. To accomplish this goal, the center provides financial assistance to applicants for projects including drinking water and wastewater infrastructure and a variety of other water quality improvements. The center's pass-through authority is located in a separate core decision item form.

NOTES:

In March 2022, the Water Protection Program's Financial Assistance Center was realigned and shifted from the Water Protection Program to a new program under the Division of Environmental Quality. Prior year actual (FY 2023) data is included in the Water Protection Program Operations Core form. These changes were reflected in the FY 2024 budget request as this was the first opportunity to adjust the budget.

2. CORE DESCRIPTION

Voluntary Core Reduction: The FY 2027 Department Request includes a voluntary core reduction of \$923,141 Other Funds (Stormwater Control Loans - 1754 fund).

Note: The department intends to request the AB 6.235 State Revolving Fund (SRF) appropriation authority related to FY 2026 SRF intended use plan awards (from funds 1602-Water and Wastewater Loan Revolving Fund and 1649-Water and Wastewater Loan Fund) to be reappropriated to AB 17 in the FY 2027 budget, similar to SRF authority shifted to AB 17.396 by the legislature in the FY 2026 budget. In addition, FY 2027 planned awards are included in the department's FY 2027 new decision item request (see DI# NOP.43B.002).

The Financial Assistance Center provides low-cost financial assistance to aid Missouri communities with capital improvements to water, wastewater, and stormwater systems. The program provides grants and below-market-rate loans for water and wastewater infrastructure. Small communities receive grants for engineering studies to plan for infrastructure improvement. Communities receiving infrastructure loans and grants serve approximately 3,999,671 Missouri residents annually.

The PSD core includes General Revenue to fund the Drinking Water State Revolving Fund (DWSRF) capitalization grants required match, which secures the annual DWSRF capitalization grants. The capitalization grants provide Missouri communities with financial assistance for infrastructure projects.

Budget Unit 430020B
Bill Section 06.235

NOTES:

In many cases, pass-through appropriation has been provided for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Beginning in FY 2014, appropriations were provided for encumbrance purposes separate from expenditures. Both types of appropriations are included in the data above through FY 2025. In FY 2026, the encumbrance appropriations were removed from the budget. The FY 2026 PSD (expenditure only) appropriations are: Drinking Water Match \$9,251,461; Construction Grants \$3,010,000; Clean Water State Revolving Fund Loans \$231,186,320; Rural Water and Sewer Grants and Loans \$1,520,000; Storm Water Control Grants and Loans \$2,433,141; Water Infrastructure Grants and Loans \$15,945,000; and Drinking Water State Revolving Fund Loans \$468,886,171.

Bill Section 06.235

State Revolving Fund PSD

In the FY 2026 session, the legislature increased State Revolving Fund (SRF) pass through appropriations by reappropriating FY 2025 unexpended AB 6.235 SRF authority to AB 17.396 and set the FY 2026 AB 6.235 SRF authority at an amount equal to the amount of new SRF projects expected to be awarded during FY 2026. Due to how the FY 2026 AB 17.396 language was written, the full amount needed to encumber FY 2025 and prior SRF awards was not fully reappropriated. The department is requesting to reappropriate FY 2026 authority in AB 6.235 to a new section in AB 17 for FY 2027, as well as this request for appropriation authority of \$1.16 billion in FY 2027, which includes the shortfall of \$487,173,221 from the FY 2026 AB 17 reappropriation and \$673,421,583 for anticipated new awards during FY 2027. The SRF program is experiencing high demand, and the large authority will allow the department to fully encumber multi-year SRF infrastructure loan and grant commitments upon award and fully encumber the projects awarded during prior to FY 2026.

Background: The Clean Water (CW) and Drinking Water (DW) SRF programs operate through a cooperative agreement with the U.S. Environmental Protection Agency (EPA) and are managed by the department's Financial Assistance Center (FAC). The CWSRF is managed in accordance with the Clean Water Act Section 606 and the operation and management of the program is directed by State regulations 10 CSR 20-4.040, 10 CSR 20-4.041, and 10 CSR 20-4.050. The DWSRF is managed in accordance with the Safe Drinking Water Act and the operation and management of the program is directed by State regulations 10 CSR 60-13.020 through 10 CSR 60-13.030.

The FAC is responsible for establishing, operating, and administering the SRF program to provide low interest loans and a limited number of grants. The SRF program helps Missouri communities to plan, finance, and build water infrastructure projects that improve water quality and provide safe drinking water to Missourians. The SRF program is funded through federal grants, revolving fund cash, loan repayments, the required state match, and interest earnings.

Demand has increased significantly with the announcement of over \$827 million in additional SRF funding through the Infrastructure Investment and Jobs Act (IIJA) over a five-year period. The FAC uses cash flow modeling/financial planning to identify all cash flows associated with the SRF program over time, including loan disbursements and repayments, earnings on investments, and bond issuance and repayment. The cash flow model allows the program to make early loan commitments that will fully utilize funds available when the planned projects are ready to close on their loan. SRF funding commitments are contained within the annual Intended Use Plans and project lists. A typical SRF project takes 12-18 months from application to loan closing followed by an additional 20-36 months to draw (spend) the funds during project construction.

Sewer Overflow and Stormwater Reuse Municipal Grant Stormwater Assistance Program PSD

The \$3.1 million federal appropriation increase would allow the FAC to accept its Federal Fiscal Year (FFY) 2025 and FFY 2026 allotments from EPA to implement the Sewer Overflow and Stormwater Reuse Municipal Grant (OSG) Stormwater Assistance Program. Urban stormwater is a significant source of water pollution and can be a public health concern. Many communities often face financial challenges trying to correct these issues given the costs to construct, operate, and maintain the infrastructure. The grant program will provide funding for critical stormwater infrastructure projects in communities including combined sewer overflows (CSO) and sanitary sewer overflows (SSO). The request is for a federal appropriation increase to accept the funds. If the appropriation increase is not received, the division will not apply for the OSG funds from EPA.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

State Revolving Fund PSD

The following estimates were derived by using the draft FFY 2026 Clean Water and Drinking Water SRF Intended Use Plans Project Priority Lists and planning schedules for projects that borrowers plan to begin by June 30, 2027, as well as the AB 17.396 reappropriation shortfall from the FY 2026 legislative session.

FY 2026 AB 17.396 reappropriation shortfall: \$487,173,221

FY 2027 projected financial assistance to be awarded: CWSRF \$450,565,720 and DWSRF \$222,855,863

Total AB 6.235 request = \$1,160,594,804

Sewer Overflow and Stormwater Reuse Municipal Grant Stormwater Assistance Program PSD

The FFY 2024 OSG allotments were used as a guide. Allotments for FFY 2025 and FFY 2026 have not been released by EPA. The allotment from FFY 2024 was \$1,567,000. The FAC wishes to implement the new funding program in FY 2027 and plans to apply for both FFY 2025 and FFY 2026 funds (\$1,567,000 x 2 = \$3,134,000).

2. CORE DESCRIPTION

In FY 2024, the Missouri General Assembly appropriated \$18.5 million in HB 6, Section 6.238 for specific construction projects as listed below. This one-time authority was reduced from HB 6 and reappropriated to HB 17 in the FY 2025 budget.

- HB Section Name\Total Appropriation
- 6.238 City of Strafford \$6,000,000
- 6.238 City of Ellington \$5,000,000
- 6.238 City of Silex \$15,000
- 6.238 City of Marshfield \$5,000,000
- 6.238 Bridge-Fellows Lake \$2,500,000

3. PROGRAM LISTING (list programs included in this core funding)

2. CORE DESCRIPTION

In FY 2026, the Missouri General Assembly appropriated \$400,000 in HB 6, Section 6.234 “For the construction, installation, and maintenance of a flood wall and lift pump for a city with more than one hundred eighty-five but fewer than two hundred ten inhabitants and located in a county with more than one hundred fifty thousand but fewer than two hundred thousand inhabitants, provided that local matching funds must be provided on a 90/10 state/local basis”. This one-time authority was reduced in the FY 2027 budget.

NOTE: The department has submitted a corresponding NDI of \$400,000 to allow spending in FY 2027 for this one-time, multi-year project.

2. THIS REQUEST CAN BE CATEGORIZED AS:

Cost to Continue

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In FY 2026, the Missouri General Assembly appropriated \$400,000 in HB 6, Section 6.234 "For the construction, installation, and maintenance of a flood wall and lift pump for a city with more than one hundred eighty-five but fewer than two hundred ten inhabitants and located in a county with more than one hundred fifty thousand but fewer than two hundred thousand inhabitants, provided that local matching funds must be provided on a 90/10 state/local basis". This one-time authority was reduced in the FY 2027 core budget.

This corresponding \$400,000 NDI will allow spending in FY 2027 for this one-time multi-year project as appropriated by the General Assembly.

**NEW DECISION ITEM

2. CORE DESCRIPTION

In FY 2026, the Missouri General Assembly appropriated \$1,000,000 in HB 6, Section 6.236 "For sewer infrastructure improvements for a nursing facility located in any city with more than six hundred eighty but fewer than seven hundred sixty inhabitants and located in a county with more than six thousand but fewer than seven thousand inhabitants and with a county seat with more than four hundred but fewer than one thousand inhabitants". This one-time authority was reduced in the FY 2027 budget.

NOTE: The department has submitted a corresponding NDI of \$1,000,000 to allow spending in FY 2027 for this one-time, multi-year project.

3. PROGRAM LISTING (list programs included in this core funding)

2. CORE DESCRIPTION

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$13,214 one-time Other Funds expense and equipment authority from the FY 2026 budget.

Core Reallocation: The FY 2027 budget includes a core reallocation of \$711,500 PS, \$38,500 Expense and Equipment, and 11 FTE from the Regional Offices. This reallocation is needed to complete the reorganization between the Regional Offices and the Water Protection Program.

The Water Protection Program (WPP) works to protect surface water and groundwater, and promotes safe drinking water for all Missourians. To accomplish this goal, the program provides financial and technical assistance, issues permits, conducts compliance assistance, and classifies water bodies to protect their uses. Encompassed in WPP is the Nonpoint Source (NPS) Management Program which provides federal Clean Water Act Section 319 implementation grants to accomplish significant results in the control and mitigation of NPS pollution. The program's pass-through authority is located in a separate core decision item form.

Other	1,418,393	935,710	617,738	4,197,468

*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Fiscal uncertainties and hiring limitations have resulted in lower expenditures. The program manages expenditures to stay within available revenues. In addition, federal expense and equipment appropriations have been maintained to allow for new federal funding that may become available.

CORE DECISION ITEM

Natural Resources
Division of Environmental Quality
CORE - Water Protection Program Operations

Budget Unit 430010B
Bill Section 06.225

NOTES:

In March 2022, the Water Protection Program's Financial Assistance Center was realigned and shifted from the Water Protection Program to a new program under the Division of Environmental Quality, and the Non-Point Source Unit was realigned and shifted from the Soil and Water Conservation Program to the Water Protection Program. Prior year actual (FY2023) data for the Financial Assistance Center is included in the Water Protection Program Operations Core form. Prior year actual (FY 2023) data for the 319 Unit is included in Soil and Water Conservation Program Operations. These changes are reflected in the FY 2024 budget request as this was the first opportunity to adjust the budget.

In FY 2026, the Water Protection Program and Regional Offices were realigned, which shifted the Central Field Operations Section from the Regional Offices to the Water Protection Program. These changes are reflected in the FY 2027 budget.

2. CORE DESCRIPTION

Voluntary Core Reduction: The FY 2027 Department Request includes a voluntary core reduction of \$500,000 Water Quality Study Grant authority from Other Funds (Natural Resources Protection Water Pollution Permit Fee Fund).

The Water Protection Program provides management and oversight of:

Public Drinking Water Sample Analysis - Provides funding for statutorily-required routine sampling for Missouri's community and non-community public water systems.

Water Quality Studies - Through this appropriation, the department provides funding to strategically monitor a portion of the state's waters that have designated uses. These data inform decisions on how to protect and improve water quality.

The budget includes appropriation authority of \$9,000,000 to be used for encumbrance purposes only.

Division of Environmental Quality
CORE - Water Quality Studies PSD**

Budget Unit 430021B

Bill Section 06.240

NOTES:

In many cases, pass-through appropriation has been provided for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Beginning in FY 2014, appropriations were provided for encumbrance purposes separate from expenditures. Both types of appropriations are included in the data above, therefore high unexpended balances will continue to be reflected. The FY 2026 PSD (expenditure only) appropriations are: Water Quality Studies \$11,797,460 and Drinking Water Analysis \$599,852. The FY 2026 budget includes appropriation authority of \$9,000,000 to be used for encumbrance purposes only, which must lapse.

2. CORE DESCRIPTION

The Water Protection Program provides management and oversight of:

CAFO Closures - This appropriation authorizes the expenditure of Concentrated Animal Feeding Operation Indemnity Funds for closure of certain lagoon structures placed under state control due to bankruptcy, failure to pay property taxes, or abandonment. When the department determines that an owner has successfully closed a CAFO, all moneys paid into the fund by such operation are returned to the owner.

Budget Unit 430022B

Bill Section 06.245

NOTES:

A fee of ten cents per permitted animal unit is paid annually for a period of ten years by the owner or operator of each class IA concentrated animal feeding operation (CAFO) utilizing flush systems. While only class IA CAFOs pay a fee, the fund shall be expended to close class IA, class IB, class IC and class II concentrated feeding operations that have been placed in control of the government due to bankruptcy, failure to pay property taxes, or abandonment. In the event a concentrated animal feeding operation successfully closes, Section 640.747, RSMo, indicates that all money paid by such operator into this fund shall be returned to such operation. To-date, none of the criteria has been met, therefore the appropriation lapses.

2. CORE DESCRIPTION

NOTE: This \$41,000 one-time authority from the FY 2024 budget was reduced in the FY 2025 budget.

Additional ambient water quality monitoring in the Elk River watershed provides updated information on the status of nutrients and bacteria in the Elk River and its major tributaries. The Elk River TMDL (total maximum daily load) for nutrients was approved by U.S. Environmental Protection Agency (EPA) in March 2004 and only limited nutrient data (i.e., Total Nitrogen, Total Phosphorous) has been collected since that time. Additionally, the major tributaries to the Elk River have not had bacteria (i.e., E.coli) data collected since 2007. Collecting additional nutrient and bacteria data in the Elk River watershed provides updated information on how water quality may have changed over the past two decades and provides insight on what additional pollutant reductions may be necessary to achieve water quality standards.

2. CORE DESCRIPTION

The Air Pollution Control Program strives to maintain and improve the quality of Missouri's air to protect public health, general welfare, and the environment. The program issues construction and operating permits to help ensure facilities are built in compliance with the laws and rules designed to protect public health. The program, working with the department's regional offices, identifies facilities that are not in compliance and works with them to reach compliance. By collecting air monitoring and emission inventory information, the program provides benchmark data for the state's air-quality planning efforts. Air monitoring data can be measured against that benchmark to provide an indicator of whether air pollution control in Missouri is successful. In the St. Louis area, the department and the Missouri State Highway Patrol oversee the joint vehicle emissions and safety inspection program. The program's pass-through authority is located in a separate core decision item form.

2. CORE DESCRIPTION

The Environmental Remediation Program protects human health and the environment from threats posed by hazardous waste and other contaminants. The program oversees the cleanup of contamination, which promotes property re-use; regulates the management, closure, and risk-based cleanup of petroleum storage tank sites; and ensures long-term stewardship of sites where contamination remains. The program's pass-through authority is located in a separate core decision item form.

This core budget is facing fiscal challenges.

3. PROGRAM LISTING (list programs included in this core funding)

Other	404,128	364,739	384,875	1,841,558

*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Fiscal uncertainties and hiring limitations have resulted in lower operating expenditures. The program has managed expenditures to stay within available resources.

2. CORE DESCRIPTION

Voluntary Core Reduction: The FY 2027 Budget Request includes a voluntary core reduction of \$500,000 for Contaminated Site federal PSD.

The Environmental Remediation Program addresses environmental contamination caused by human activity at sites such as industrial facilities, gas stations, mining sites, and other sites. The program sets standards and oversees investigation and cleanup activities conducted by responsible parties; businesses and developers; and federal, state, and local governments. In some cases, the program directly controls the investigation or cleanup at a site using federal or state funds to contract for activities including preparing work plans and reports, conducting chemical analysis, performing cleanup, and related activities. Where appropriate, the department will perform operation and maintenance or long-term stewardship activities at sites where remedial action has occurred to help ensure the remedy remains protective of human health and the environment.

This core budget is facing fiscal challenges.

2. CORE DESCRIPTION

Voluntary Core Reduction: The 2027 Department Request includes a core reduction of \$150,000 Other Funds transfer authority pursuant to recent law changes (H.B. 516, 2025 Session).

Legislation passed in 2025 (H.B. 516) states "Notwithstanding the provisions of subdivision (7) of subsection 1 of section 260.391 to the contrary, and beginning August 28, 2025, moneys to the fund shall no longer be transferred from the hazardous waste fund ...".

Transfer authority allowed for contract services to perform sampling associated with radioactive investigations.

3. PROGRAM LISTING (list programs included in this core funding)

Not applicable. This core decision item is a transfer of funds to the Radioactive Waste Investigation Fund (1560).

2. CORE DESCRIPTION

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$1,070,186 one-time General Revenue transfer authority from the FY 2026 budget.

The department's Environmental Remediation Program assesses contaminated sites and oversees the remedial action at sites subject to Federal Superfund Law and other applicable laws. Superfund obligations represent the state's share of costs for remedial action currently underway or already completed in Missouri where the responsible party is either unknown, uncooperative, or insolvent. The U.S. Environmental Protection Agency (EPA) uses federal Superfund dollars to pay for the clean-up, and the state pays 10% of remedial action costs and 100% of operations and maintenance (O&M) through Superfund state contracts. State-funded O&M is needed once EPA transfers the site back to state authority. O&M can include repair, maintenance, or replacement of engineered structures or mechanical systems; addressing erosion on earthen caps or maintenance to groundwater extraction treatment systems; conducting inspections, sampling and monitoring groundwater and/or other environmental media; maintenance and compliance activities related to institutional controls governing property uses; and other routine activities such as interagency coordination, site visits, technical meetings, and participation in five-year reviews of remedial actions.

Section 260.391.7, RSMo, passed in 2005, directs that "...the department shall request an annual appropriation of general revenue equal to any state match obligation to the U.S. Environmental Protection Agency for cleanup performed pursuant to the authority of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA)." This core General Revenue transfer, when combined with the new decision item request, meets this obligation.

CORE DECISION ITEM

Natural Resources
Division of Environmental Quality
CORE - Superfund Obligations Core GR Transfer

Budget Unit 430024B
Bill Section 06.255

The State's Superfund obligations include the 10% cost share for eight (8) active remediation sites (as invoiced by EPA) and 100% of the cost of O&M for sites that have completed active remediation. These obligations are itemized below.

Madison County OU3 (Removal of lead contamination from residential yards) \$ 197
Newton County Mine Site OU1 & OU2 (Removal of mine waste and lead-contaminated residential soils) \$ 706,037
Big River Mine Tailings/St. Joe Minerals Corp \$ 1,836,534
Southwest Jefferson County Mining Site OU1, OU2 and OU3 \$ 13,015
Washington County Lead District Furnace Creek OU1 \$ 12,308
Washington County Lead District Furnace Creek OU2 \$ 2,060
Washington County Lead District Old Mines OU1 \$ 45,295
Washington County Lead District Potosi OU1 \$ 32,126

Operations & Maintenance * (sites listed below) \$ 154,937

Total GR Transfer Needed \$ 2,802,509

Superfund Obligations GR Transfer Core \$ 660,406
Superfund Obligations GR Transfer NDI (See Superfund Obligations NDI) \$ 2,142,103
Total GR Transfer Requested \$ 2,802,509

* State-funded O&M is needed once EPA transfers the site back to state authority. Sites included in this O&M request are: Valley Park, Madison County, Times Beach, Bee Cee, Annapolis, Quality Plating, Jasper County, Riverfront, Washington County, Southwest Jefferson County, Newton County, and Oak Grove Village.

NEW DECISION ITEM

RANK: 005 OF 14

**Department of Natural Resources
Division of Environmental Quality
Superfund Obligations Transfer
DI# NOP.43B.001**

Budget Unit 430024B

Bill Section 06.255

Superfund obligations represent the state's share of cost for remedial action currently underway or already completed in Missouri where the responsible party is either unknown, uncooperative, or insolvent. The U.S. Environmental Protection Agency (EPA) uses federal Superfund dollars to pay for the clean-up and the state pays 10% of remedial action costs and 100% of operations and maintenance through Superfund state contracts. The level of Operation and Maintenance (O&M) response depends on the complexity of the cleanup and the extent of potential failure of any components of the remedial actions. O&M can include repair, maintenance, or replacement of engineered structures or mechanical systems; addressing erosion on earthen caps or maintenance to groundwater extraction treatment systems; conducting inspections; sampling and monitoring groundwater and/or other environmental media; maintenance and compliance activities related to institutional controls governing property uses; and other routine activities such as interagency coordination, site visits, technical meetings, and participation in five-year reviews of remedial actions.

Section 260.391.7 RSMo, passed in 2005, directs "...the department shall request an annual appropriation of general revenue equal to any state match obligation to the U.S. Environmental Protection Agency for cleanup performed pursuant to the authority of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA)." This new decision item, when combined with the core General Revenue transfer request, meets this obligation.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

2. CORE DESCRIPTION

Underground Storage Tank (UST) efforts protect human health and the environment by registering USTs, implementing a tank inspection program including the oversight of contract inspections, ensuring compliance with state and federal UST laws, overseeing the investigation and risk-based cleanup of contamination from leaking tanks, and overseeing the closure of out-of-use tanks. The risk based cleanup of underground storage tank sites is often the key to the transfer, sale, or reuse of the property.

2. CORE DESCRIPTION

Core Reallocation: The FY27 Department Request includes a core reallocation of \$185,000 Federal PS and 3.55 FTE to Other Funds (Hazardous Waste Fund) to better align the budget with planned spending by fund type.

The Waste Management Program operates two federally authorized Resource Conservation and Recovery Act (RCRA) regulatory programs, one pursuant to 40 CFR Part 258, Subtitle D for Sanitary Landfill design and operation, and one pursuant to 40 CFR §272.1300 authorizing Missouri to administer and enforce a hazardous waste management program in lieu of the Federal RCRA Subtitle C program.

Under RCRA Subtitle D and state laws and regulations, the program issues permits, enforces, and oversees sanitary, construction and demolition, special waste, and utility waste landfills; solid waste processing facilities, such as transfer stations; infectious waste; and material recovery facilities, as set forth in the Solid Waste Management Law. Program staff conducts civil investigations of illegal dumping and investigates possible migration of methane gas from solid waste disposal areas and seepage of leachate and methane gas into groundwater.

CORE DECISION ITEM

Division of Environmental Quality
CORE - Waste Management Program Operations

Budget Unit 430014B
Bill Section 06.225

The Scrap Tire Unit plans and oversees scrap tire dump cleanup activities; awards scrap tire material resurfacing and market development grants; reviews scrap tire hauler, processor, and site permits; and provides technical assistance for beneficial use determinations. The program, working with a statewide network of partners, strives to protect the environment and public health by minimizing solid waste generated by Missouri citizens, businesses, and institutions through effective and efficient materials management through department oversight of the twenty (20) solid waste management districts and the district grant program.

Under RCRA Subtitle C and state laws and regulations, the program issues permits, enforces, and oversees the management of hazardous waste including efforts to reduce hazardous waste production and oversight of hazardous waste generation, transportation, storage, and disposal at businesses in accordance with the federal Toxic Substance Control Act.

This core budget is facing fiscal challenges.

The program's pass-through authority is located in a separate core decision item form.

Other	919,261	1,234,292	636,636	3,307,685

*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Fiscal uncertainties and hiring limitations have resulted in lower operating expenditures. The program has managed expenditures to stay within available resources.

Note: Fringes budgeted in Appropriation Bill 5 except for certain fringes budgeted directly to MoDOT, Highway Patrol, and Conservation.

Other Funds: 1569:Solid Waste Management Scrap Tire Subaccount Fund
 1570:Solid Waste Management Fund

2. CORE DESCRIPTION

Core Reallocation: The FY2027 Department Request includes a \$500,000 reallocation within the budget unit from the solid waste management grants appropriation (fund 1570-solid waste) to the scrap tire grants appropriation (fund 1569-scrap tire subaccount).

The Waste Management Program provides management and oversight of:

Solid Waste Management PSDs: The program provides approximately \$10 million annually to the solid waste management districts for administration and funding of community-based "reduce, reuse, and recycle" grants. This grant program builds solid waste management infrastructure to better use materials that otherwise would have been disposed of in landfills or illegally dumped. Through projects funded by the district grant program, opportunities are provided to communities throughout Missouri to create and/or retain "green jobs" in the recycling sector of the Missouri economy. These grants encourage waste reduction, reuse, recycling, energy recovery, and efficient processing of Missouri's solid wastes. Local governments, small and large businesses, schools, sheltered workshops, and individuals seek and receive grants to support activities to remove materials from the waste stream and return the materials for beneficial reuse or energy recovery. The program also supports the removal of illegally dumped scrap tires from the environment by providing funds for tire dump cleanup activities, as well as funding scrap tire material surfacing grants.

Division of Environmental Quality
CORE - Solid Waste Management PSD

Budget Unit 430026B

Bill Section 06.270

NOTES:

Appropriations are set at a level to accommodate solid waste management district allocation amounts as they become known and remittable, and scrap tire activities as they are awarded and completed. Funds obligated for multi-year projects roll to the next fiscal year's core appropriation, resulting in large unexpended balances.

The FY 2026 PSD core appropriations include: \$12,498,820 for solid waste activities from the Solid Waste Management Fund (0570) and \$2,000,000 for scrap tire activities from the SWMF-Scrap Tire Subaccount (0569).

2. CORE DESCRIPTION

The Waste Management Program provides management and oversight of:

Financial Assurance Instruments (FAIs) PSD: FAIs are collateral provided to the state by landfill and scrap tire site owners/operators to properly implement closure and/or postclosure activities should the owner/operator fail to do so or is no longer capable of doing so. Sufficient financial assurance is needed to ensure closure and/or postclosure activities for solid waste facilities are conducted when needed to protect public health and the environment. This involves activities required to ensure closed landfills have adequate funding and controls in place to ensure environmental protection for at least 30 years after the landfill closes. Such activities include: maintenance or replacement of the landfill cover, which costs several thousands of dollars per acre; an adequate soil/vegetative cap to prevent water infiltration; methane gas monitoring to protect public safety; monitoring for potential groundwater and surface water impacts; and erosion control and groundskeeping (i.e., mowing and removal of trees).

CORE - Solid Waste Forfeitures PSD

Budget Unit 430028B
Bill Section 06.275

NOTES:

Appropriations are set at a level to accommodate work awarded and completed on landfills where the program had forfeited assurance instrument funds available for payment. Funds obligated for multi-year projects roll to the next fiscal year's core appropriation, resulting in large unexpended balances.

General Revenue and other funds lapses are due to the multi-year nature and timing of forfeiture encumbrances and expenditures. During postclosure maintenance, extraordinary expenses may periodically occur and require immediate attention (e.g., methane gas system repairs, erosion control, cap failures, and leachate collection system repairs). However, if those expenses do not occur, the appropriation balance may lapse.

In FY 2023, the appropriation authority was increased to cover future potential expenditures using the projected cash balance at the end of FY 2022; however, it was approved as a one-time appropriation increase instead of an on-going appropriation increase. This resulted in a higher lapse. The request was made to allow the department to complete larger projects within one fiscal year, reducing the additional costs of multiple mobilizations. The request was also made to allow the department to more efficiently utilize forfeited FAIs to save time and reduce overall costs.

FY 2023 expenditures were for regular groundcover maintenance at closed landfills. The Waste Management Program (WMP) was unable to award a contract for gas migration activities for the Links at Stone Canyon (the highest value project that WMP has pending) due to continued issues with a lengthy bid process, increased labor and material costs, and general contractor fees.

The FY 2026 PSD core appropriations include: \$452,796 forfeited financial assurance instrument funds and accrued interest held in the State General Revenue Fund (1101) as required by 260.228 RSMo; and \$425,413 for forfeited financial assurance instrument funds and accrued interest held in the Post closure Fund (1198) to allow for expenditures that may be ongoing over a 30-year period for each of the specified facilities.

2. CORE DESCRIPTION

Core Reallocation: The FY 2027 Budget Request includes a core reallocation of \$711,500 PS, \$38,500 Expense and Equipment, and 11 FTE to the Water Protection Program. This reallocation is needed to complete the reorganization between the Regional Offices and Water Protection Program.

Core Reallocations: The FY 2027 budget also includes core reallocations from Federal Funds to Other Funds as follows: \$710,000 PS and 14 FTE (Natural Resources Protection Water Pollution Permit Fee Fund - \$550,000, 10.75 FTE; Safe Drinking Water Fund - \$75,000, 1.50 FTE; and Hazardous Waste Fund - \$85,000, 1.75 FTE) as well as \$85,000 Expense and Equipment (Natural Resources Protection Air Pollution Permit Fee Fund - \$25,000; Natural Resources Protection Water Pollution Permit Fee Fund - \$50,000; and Hazardous Waste Fund - \$10,000). These shifts better align the budget with planned spending by fund type.

The Regional Offices are located throughout the state of Missouri and work in partnership with the DEQ environmental programs to protect the state's air, land, and water resources, which are important for Missouri citizens' quality of life and the economy. The program provides consistent, efficient delivery of services closer to where Missourians live and work. This is accomplished through timely compliance assistance, inspection, on-site visits to permitted facilities, wastewater and air burn permit issuance, and investigating reported environmental concerns. Regional offices are located throughout the state to provide more local access to those we serve.

*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

CORE DECISION ITEM

Natural Resources
Division of Environmental Quality
CORE - Regional Offices Operations

Budget Unit 430016B

Bill Section 06.225

NOTES:

The department continues to review operating expenditures to be efficient and effective with state resources.

In FY 2026, the Water Protection Program and Regional Offices were realigned, which shifted the Central Field Operations Section from the Regional Offices to the Water Protection Program. These changes are reflected in the FY 2027 budget.

2. CORE DESCRIPTION

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$13,214 one-time Other Funds expense and equipment authority from the FY 2026 budget.

The Environmental Services Program (ESP) provides field support and monitoring functions throughout Missouri. The Environmental Emergency Response Section maintains 24 hour per day support and response capability for hazardous substance releases, radiological incidents, homeland security events, and natural disasters. Local fire departments, haz-mat teams, law enforcement, and first responders rely upon these services. In FY 2025, 856 hazardous substance spills, leaks, and other chemical-related incidents were reported through the emergency response system. ESP includes the state's environmental laboratory, which is certified by the U.S. Environmental Protection Agency. The program performs chemical analysis of public drinking water supplies and collects and analyzes air, water, and soil samples. ESP provides management and oversight for the Hazardous Substances Analysis & Emergency Response PSD budget unit, which is located in a separate core decision item form.

Budget Unit 430017B

Bill Section 06.225

American Rescue Plan Act funds were allocated to cover development, construction, and furnishing of the new multi-agency laboratory campus in Jefferson City. However, no funds were allocated to physically move the agencies once the facility was completed. Relocation of all team members and laboratory equipment currently located at the existing Environmental Services Program (ESP) facility to the new facility is planned for FY 2027 (Fall 2026). Due to the specialized equipment and sensitivity of analytical laboratory instruments, a specialized relocation service is being sought to manage the laboratory move. This service will conduct the required shut-down procedures, packaging, moving, start-up procedures, and recalibration of each analytical instrument, as well as packaging and moving hazardous laboratory chemicals. The move would be conducted in two phases to minimize disruption of the laboratory services to our clients and the public. ESP would be unable to cover the moving costs through our existing operational budget being funded mostly through fee funds that are facing solvency issues and the uncertainty of receiving federal grant funds due to potential proposed cuts at the federal level.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

NEW DECISION ITEM

Budget Unit 430017B

Bill Section 06.225

The relocation of the ESP is a one-time expense and will include laboratory instruments, laboratory chemicals, field instruments, and offices. The new laboratory campus will house ESP's 11 different environmental laboratories.

The ESP received a preliminary quote from a specialized laboratory relocation service that totaled approximately \$593,000. The laboratory relocation service includes required shut down procedures, packaging, moving, start-up procedures, and recalibration of each analytical instrument as well as packing and moving hazardous laboratory chemicals. Due to the fragile and complex nature of the laboratory instruments, contracting with a laboratory relocation specialist would ensure instrument breakage would be alleviated and/or covered by the contract. Each of ESP's instruments range anywhere in cost from \$10,000 to \$500,000. Damage or destruction of one piece of equipment could mean substantial costs to repair or repurchase as well increase downtime of the instrument.

The ESP will utilize the statewide moving contract for moving field instruments and office spaces. Assuming 2 days to move field instruments and office spaces, ESP estimates approximately \$10,000.

The ESP is also including \$110,000 for furniture, fixtures, and equipment related to the move. ESP expects to purchase a localized water filtration system in multiple laboratories, small refrigerators for the laboratories and break areas, and any other small items that may arise during the moving process.

The ESP has also added a 5% contingency of approximately \$37,000 to cover any increases in prices, overages, or unexpected expenses.

Laboratory Moving Contract: \$593,000
 Field Equipment and Office Moving: \$10,000
 Furniture, Fixture and Equipment: \$110,000
 Contingency: \$37,000
 Total One-Time NDI Request: \$750,000

2. CORE DESCRIPTION

In cases where a responsible party cannot be located or fails to take timely action, the Environmental Services Program may hire a contractor to address threats to public health or the environment. Emergency situations are unpredictable and occur without warning, and the size and scope of required actions vary widely and may be extreme. This appropriation is needed to alleviate potentially catastrophic events.

2. CORE DESCRIPTION

This decision item funds the administration of the Division of Environmental Quality (DEQ), which includes the Financial Assistance Center, Water Protection Program, Air Pollution Control Program, Environmental Remediation Program, Waste Management Program, Regional Offices (St. Louis, Lee's Summit, Macon, Poplar Bluff, and Springfield), and Environmental Services Program.

Division administration is responsible for long-range planning to implement policies to protect public health and the environment. These responsibilities include the integration, direction, coordination, and other management functions for the programs' statutory mandates. In addition, the division's Environmental Investigation Unit investigates criminal violations of environmental laws.

The program's pass-through authority is located in a separate core decision item form.

Other	180,252	276,994	278,551	957,107

*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Federal operating E&E appropriations have historically been set at a level to take advantage of potential federal funding opportunities. The department continues to review operating expenditures to be efficient and effective with state resources.

 Other Funds: 1568:Natural Resources Protection Water Pollution Permit F

2. CORE DESCRIPTION

The Technical Assistance Grants PSD provides authority for technical assistance grants, environmental studies, environmental education projects, and demonstration and pilot projects. In addition, this appropriation allows the department to develop partnerships and pursue federal funds that often have a competitive application process.

2. CORE DESCRIPTION

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$53,681 one-time General Revenue expense and equipment from the FY 2026 budget.

The Missouri Geological Survey (MGS) includes the Geological Survey Program, Land Reclamation Program, Dam and Reservoir Safety Program, Water Resources Center, and Soil and Water Conservation Program.

The Geological Survey Program investigates the state's geology and provides geologic and hydrologic information to assist with decisions relating to economic development, site remediation, contaminant migration, subsurface investigations, and geologic hazards. The program also determines the character and availability of the state's energy and mineral resources. Staff implement the Water Well Drillers' Act by establishing standards for domestic water wells, monitoring wells, and geothermal ground source heat pump wells.

The Land Reclamation Program regulates surface mining of coal and industrial minerals, administers reclamation of coal mine and industrial mine lands on which bonds were forfeited, administers reclamation of coal mine lands abandoned prior to 1977, and regulates the metallic mineral waste disposal areas of mining operations.

CORE DECISION ITEM

Natural Resources
Missouri Geological Survey
CORE - Missouri Geological Survey Operations

Budget Unit 430031B

Bill Section 06.290

The Dam and Reservoir Safety Program administers the provisions of the Missouri Dam and Reservoir Safety Law. The program regulates nonfederal, nonagricultural dams 35 feet and higher through inspections, registration, and issuance of construction permits. Dams are a critical part of our state's infrastructure, providing many benefits including water supply, flood protection, hydropower, irrigation, and recreation. There are approximately 741 regulated dams. The program works with citizens, dam owners, engineers, and emergency managers to ensure dams in Missouri are constructed, maintained, and operated in a safe manner.

Water Resources Center (WRC) provides information for Missouri's comprehensive water needs by examining both surface and groundwater use and availability. WRC investigates water supply issues; supports formal water planning efforts; promotes flood and drought resiliency knowledge and projects; manages erosion control and streambank restoration studies and projects; maintains and updates Missouri's Public Water Supply database for groundwater wells; collects, analyzes and distributes groundwater-level data from a statewide network of observation wells; evaluates public water supply wells; and provides casing and total depth specifications. WRC provides guidance and technical expertise for planning and development of regional water supply projects throughout Missouri. WRC defends the state's vital water resources interests, including those related to navigation, flood control, other uses of the Missouri and Mississippi rivers before numerous interstate and interagency river basin associations, and implements (upon approval of the department's FY 2027 NDI) the Water Preservation Act water export permitting program in conjunction with the Missouri Soil and Water Districts Commission.

The Soil and Water Conservation Program (SWCP) provides guidance and support to the Soil and Water Districts Commission and the 114 local soil and water conservation districts throughout the state. SWCP administers the Cost-Share, Conservation Monitoring, and District Grants programs, as well as various research and planning projects. SWCP administers the conservation programs through the soil and water conservation districts for the control and reduction of soil erosion on agricultural land and protection of water resources. Missouri's SWCP and soil and water conservation districts are recognized, locally and nationally, for their successful efforts to reduce soil erosion and address water quality on agricultural land.

The division's pass-through authority is located in separate core decision item forms.

CORE DECISION ITEM

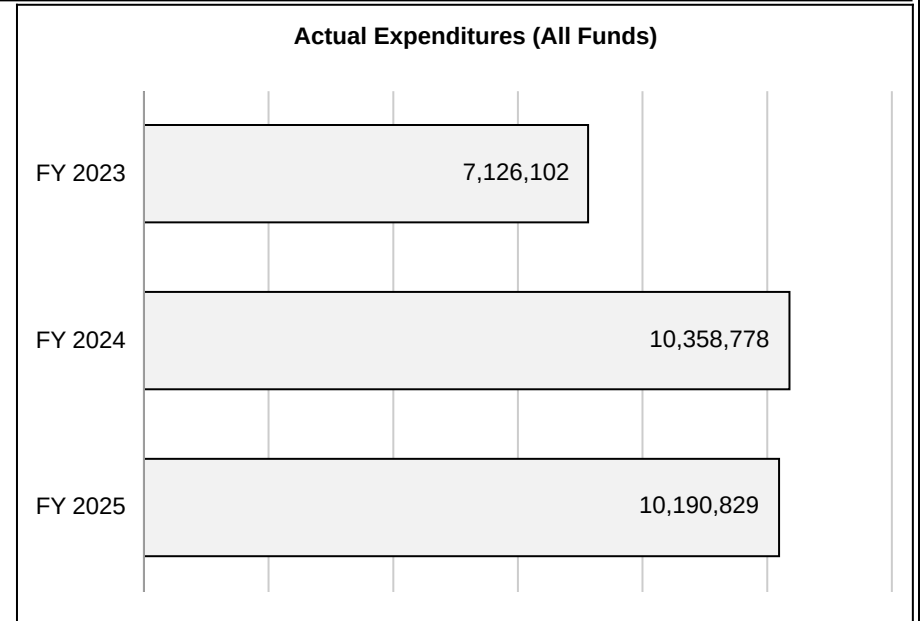

Natural Resources
Missouri Geological Survey
CORE - Missouri Geological Survey Operations

Budget Unit 430031B

Bill Section 06.290

NOTES:

FY 2023 - FY 2025: The division continuously looks for federal funding opportunities or partnerships to maximize these appropriations to fulfill our mission. Unexpended in Other Funds appropriation is usually the result of fee fund availability or staff turnover.

FY 2024: In March 2022, the Soil and Water Conservation Program (SWCP) within the Division of Environmental Quality (DEQ) was reallocated to the Missouri Geological Survey. These changes are reflected in the FY 2024 budget.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 430031B, 430034B, 430076B, 430040B	DEPARTMENT: NATURAL RESOURCES
BUDGET UNIT NAME: GEOLOGICAL SURVEY OPERATIONS; MINED LAND REC TRANSFER; MULTIPURPOSE TRANSFER; CLARENCE CANNON	
APPROP. BILL SECTION: 6.290, 6.295, 6.300, 6.320	DIVISION: MISSOURI GEOLOGICAL SURVEY

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Missouri Geological Survey requests retention of 25% flexibility between funds (Federal and Other) for Geological Survey Operations (430031B). Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by the division. Also included is 3% flexibility from 6.290, 6.295, 6.300, and 6.320 to 6.405 (General Revenue) related to the Legal Expense Fund.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$ 19,000 PS Fund to Fund (Federal/Other)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Fund-to-fund flex was used to align operating PS appropriation authority to proper funding levels based on service delivery needs during the year.	Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by the division.

NEW DECISION ITEM

RANK: 009 OF 14

**Department of Natural Resources
Missouri Geological Survey
Water Preservation Act PS EE
DI# NOP.43B.005**

Budget Unit 430031B

Bill Section 06.290

This new decision item is proposed to implement the Water Preservation Act in accordance with Section 640.406, RSMo, effective August 28, 2025 (SB 82, 2025 Session). Missouri follows a riparian water rights doctrine (allocating water among those who possess land along its path). The Water Preservation Act seeks to establish tools to help the state defend against water being transported out of state. Ineffective implementation will limit our ability to defend Missouri's interests and claims to water, especially when drought conditions lead to a state of emergency.

This request includes development and network maintenance costs of \$500,000 per fiscal year to track and manage data related to water use, hydrologic conditions, and availability of all water sources in Missouri, which is necessary to evaluate export permit decisions, and to support state of emergency declarations for drought conditions, in accordance with the statute. An Environmental Program Specialist (1 FTE) and an Environmental Program Analyst (1 FTE) with standard expense and equipment are requested to administer this program.

The Environmental Program Specialist is required to serve as a data manager/technical expert to track and manage data related to all facets of water use and needs in Missouri, including volume and withdrawal rates, and to evaluate necessary export permit decisions; consolidate and display existing water data usage information from other sources such as major water users and public drinking water datasets (as applicable); track water reporting of annual withdrawal from exempt water exporters; and allow for the evaluation of the state's water resources beneficial uses and create new data categories for other beneficial uses. These tasks will facilitate better understanding and analysis of data to be used during the initial permitting and renewal processes as well as state of emergency declarations. Staff will also install, maintain, and report on soil moisture and stream monitoring equipment.

The Environmental Program Analyst is required to conduct the permitting technical work, including permitting actions and reporting. Staff will install, maintain, and report on soil moisture and stream monitoring equipment. Staff will also coordinate with internal units, sections, programs, regional offices of the department; external private, state, and federal agencies; and permittees, exempt entities, and stakeholders.

\$500,000 is requested for the development of a database/permit submission/major water user re-evaluation request tracking system to be built and maintained by the state. Following initial development of the system, the \$500,000 ongoing costs will be used to maintain and enhance that system, as well as our soil moisture and streamgage networks, which support evaluation of availability of water sources. Given that the Water Preservation Act statute requires re-evaluation of water export permits when a state of emergency is declared for drought conditions, it is imperative that Missouri's monitoring networks provide sufficient objective data to inform these emergency declarations. The state has established a framework for hydrologic data, but as we have observed during the recent, multi-year drought and flooding events, data gaps exist in many (if not all) of the hydrological datasets. These data gaps have likely led to instances where the objective data is not available to allow for informed decision-making at the local level in various areas of the state, resulting in underestimated drought designations. Ongoing funding is required to provide for continued maintenance and expansion of the Missouri soil moisture network as well as the Missouri streamgage network, which is supplementary and lower cost to the USGS streamgage network.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were

NEW DECISION ITEM

RANK: 009 OF 14

**Department of Natural Resources
Missouri Geological Survey
Water Preservation Act PS EE
DI# NOP.43B.005**

Budget Unit 430031B

Bill Section 06.290

calculated.)

The requested number of FTE and levels of funding were determined based on the department's institutional knowledge on minimum requirements to stand up a permitting program and are based on the assumption that 10 new applications for water export permits would be considered each year. Funding estimates for the continuation and expansion of the Missouri streamgage and soil moisture networks are based on the department's institutional knowledge of requirements to maintain and expand networks based on experience with the existing groundwater level observation network, and the soil moisture and streamgage networks. Development of a database management system is being requested to ensure consistency in approach and to standardize aspects of the program, as applicable. This data management work would consolidate and display existing water data usage information from other sources such as major water users and public drinking water systems (as applicable) as well as create new data categories for other beneficial uses.

Rulemaking has the potential to result in additional economic impacts that are unknown at this time.

2. CORE DESCRIPTION

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$1,907,216 one-time General Revenue expense and equipment for Missouri river flood risk studies from the FY 2026 budget.

Water Resources Center provides management and oversight of the following pass-through programs:

Multipurpose Water Resource Program PSD: The Multipurpose Water Resource Program fund is intended to support development of public water supply, flood control storage, and treatment and transmission facilities. The Multipurpose Water Resource Act authorizes the department to administer moneys appropriated to the fund through provision of grants or other financial assistance and allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs.

State Water Plan: This appropriation is used for professional services to implement the State Water Plan recommendations and advance the department's efforts and responsibilities to ensure that the availability of water resources supports Missouri's current and future beneficial uses and is not a limiting factor in economic growth. The primary areas of this effort include water supply availability, drought response, watershed feasibility studies, and addressing interstate water needs.

Budget Unit 430035B
Bill Section 06.300

NOTES:

FY 2023 - FY 2025: The Multipurpose Water Resource Program Transfer of \$31.9 million was reallocated to its own budget unit (430076B) in the FY 2025 budget. Lapse is attributed to the Multipurpose Water Resource Program (Other). Appropriations are set to allow the department to encumber all contracts in place at any one time even though expenditures could occur over multiple years.

FY 2026: Appropriations include Multipurpose Water Resource Program \$48,187,310; State Water Plan \$924,920; and one-time Missouri River Flood Risk Studies \$1,907,216.

2. CORE DESCRIPTION

The division's Land Reclamation Program provides management and oversight of the following programs:

The Abandoned Mine Land (AML) unit oversees the reclamation of abandoned mine sites in Missouri, including sites abandoned prior to the Surface Mining Control and Reclamation Act of 1977. For coal sites abandoned prior to 1977, the program uses federal funds to directly contract for the reclamation activities at these sites.

The Mined Land Reclamation Fund PSD provides appropriation authority for reclamation of sites where bonds have been forfeited on permit-revoked mine sites. Reclamation involves work to restore mined lands to productive uses such as agricultural, wildlife habitat, water impoundment, or development. The program may collect reclamation bonds and directly contract for the reclamation activities, or the program may allow the surety bond holder to perform the reclamation in place of the original permit holder.

2. CORE DESCRIPTION

The division's Geological Survey Program provides management and oversight of the following pass-through programs:

Oil and Gas Remedial Fund: This appropriation is used to plug abandoned oil and gas wells that have the potential to impact surface and groundwater resources and may pose a threat to human health. The fund is also used to handle emergency situations, such as a leaking gas well.

Abandoned Oil and Gas Wells: This federal appropriation from Bipartisan Infrastructure Law funding is used to supplement and sustain an abandoned oil and gas well program in Missouri. This funding is used to assess, inventory, plug and remediate, and reclaim abandoned oil and gas wells and surrounding land for new beneficial purposes. This strengthens the Oil and Gas Remedial Fund, which is currently inadequate to address liabilities associated with abandoned oil and gas wells.

2. CORE DESCRIPTION

NOTE: The \$3,830,000 Abandoned Oil & Gas Wells pass-through authority was reallocated from this budget unit to the Oil and Gas Wells PSD budget unit in the FY 2025 budget.

The division's Geological Survey Program provides management and oversight of the following pass-through program:

Abandoned Oil & Gas Wells: This federal appropriation from Bipartisan Infrastructure Law funding is used to supplement and sustain an abandoned oil and gas well program in Missouri. This funding is used to assess, inventory, plug and remediate, and reclaim abandoned oil and gas wells and surrounding land for new beneficial purposes. This strengthens the Oil and Gas Remedial Fund, which is currently inadequate to address liabilities associated with abandoned oil and gas wells.

2. CORE DESCRIPTION

The division's Soil and Water Conservation Program (SWCP) provides management and oversight of the following pass-through financial assistance programs:

Cost-Share Grants: Funds provide cost share assistance to install soil and water conservation practices that reduce soil erosion on agricultural land and protect water resources. Practices are designed to maintain soil productivity and prevent continued degradation of water quality. Agricultural landowners are less likely to implement these practices without the financial incentives and technical assistance made possible by the citizens of Missouri through the Parks and Soil and Water Sales Tax. Over 1 million tons of soil is saved annually as a result of practices implemented through the cost share grants.

Grants to Soil and Water Conservation Districts: This appropriation provides funds for the operation of each of Missouri's 114 Soil and Water Conservation Districts. The SWCP allocates funds to each district. The locally elected soil and water district board of supervisors specifically budget and allocate how the funds will be spent depending on the needs of that district. Funding is provided for district personnel salaries, benefits, information/education programs, equipment, and general administrative expenses. The districts provide support to landowners participating in conservation practices as well as to farmers and landowners who may not participate in conservation programs by providing technical assistance and information/education programs.

CORE DECISION ITEM

Natural Resources
Missouri Geological Survey
CORE - Soil and Water Conservation PSD

Budget Unit 430039B

Bill Section 06.315

Technical Grants: This federal fund appropriation is used to build technical capacity in the districts. The department pays for technical staff, equipment, supplies, and training to assist district employees in the implementation of conservation practices.

Conservation Monitoring: This appropriation funds continuous water quality monitoring streamgages, and edge of field monitoring stations. The data is used to measure the effectiveness of practices at reducing the nutrient and sediment runoff and to determine where to focus efforts of conservation practices.

Research Grant: Funds provide grants to Missouri state colleges and universities to perform soil and water conservation related research, which gathers data for the development and refinement of conservation programs.

Water Quality Practices: This federal funding is utilized for new and innovative nutrient loss reduction soil and water conservation practices in select watersheds to address priorities in reducing sediment and nutrient runoff and improving water quality.

2. CORE DESCRIPTION

A General Revenue transfer, beginning in FY 2020, is used to match federal funding for the coal program.

Reference(s): Sections 444.772, 444.820, 444.905, RSMo. This fund is used for administration and enforcement of Sections 444.500 - 444.970, RSMo, Strip Mine Law and Surface Coal Mining Law, and for reclamation of land affected by strip mining and surface mining and for no other purpose.

The department utilizes funding provided by the U.S. Department of Interior Office of Surface Mining to enable the Abandoned Mine Land (AML) unit to oversee reclamation of coal mine sites abandoned prior to 1977. Reclamation includes closing dangerous mine shafts, eliminating dangerous high walls, improving severely impacted land, and stabilizing subsiding ground beneath homes and roads.

The AML unit permits and inspects active coal sites and oversees reclamation of coal mine land; serves as the regulatory authority for coal mine permitting, inspection, and enforcement; and maintains certification for blasters at coal mines in compliance with the federal Surface Mining Control and Reclamation Act (SMCRA).

2. CORE DESCRIPTION

A General Revenue transfer, beginning in FY 2019, allows the department to carry out provisions of the Multipurpose Water Resource Act (Section 256.435 to 256.445, RSMo).

The transfer supports development of public water supply, flood control storage, and treatment and transmission facilities. It allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs.

3. PROGRAM LISTING (list programs included in this core funding)

Not applicable. This core decision item is a transfer of funds to the Multipurpose Water Resource Program Fund (0815). This transfer provides funding for activities included in the Missouri Geological Survey Resource Development & Sustainability PSD Core.

2. CORE DESCRIPTION

In FY 2025, a one-time transfer was made to the Flood Resiliency Improvement Fund with the purpose of carrying out the provisions of the Flood Resiliency Act (Section 256.800, RSMo). Appropriated investments in this fund will provide long-term flood resiliency along the Missouri and Mississippi Rivers and their tributaries and improve statewide flood forecasting and monitoring ability.

The Missouri River flood resiliency projects funded by this transfer were reappropriated to the capital improvements AB17 reappropriation bill in FY 2026.

3. PROGRAM LISTING (list programs included in this core funding)

Not applicable. This core decision item is a transfer of funds to the Flood Resiliency Improvement Fund (1238). This transfer provides funding for activities included in the Missouri Geological Survey Flood Resiliency PSD Core.

2. CORE DESCRIPTION

Transfer from General Revenue to the Water Development Fund for the cost of water supply storage, pursuant to the Clarence Cannon Water Contract. The FY 2027 budget will pay the FFY 2025 water supply storage expenses. The state's payment obligation is currently estimated to be completed in State FY 2040 for FFY 2038 storage. Appropriation will be utilized for payment of the annual water supply storage invoice and for the reduction of principal of the state contract.

2. CORE DESCRIPTION

The Water Development Fund is used to pay the cost of water supply storage, pursuant to the Clarence Cannon Water Contract. The FY 2027 budget will pay the FFY 2025 water supply storage expenses. The state's payment obligation is currently estimated to be completed in State FY 2040 for FFY 2038 storage. Appropriation will be utilized for payment of the annual water supply storage invoice and for the reduction of principal of the state contract.

2. CORE DESCRIPTION

The Division of Energy advances the efficient use of diverse energy resources through financial and technical assistance and education. The division operates as the designated State Energy Office, directing the use of federal State Energy Program funds to support state-led energy initiatives.

Division team members support business and community development and the use of diverse in-state resources and energy efficiency through interaction with utility companies, the Public Service Commission, the Department of Natural Resources' environmental programs, and the Department of Economic Development's business expansion and attraction operations. Team members also support the increased use and innovative development of bioenergy solutions, as well as market research and demonstration projects that advance the use of reliable and affordable domestic energy resources and technologies.

The division's pass-through authority is located in a separate core decision item form.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 430042B, 430045B, 430046B	DEPARTMENT: NATURAL RESOURCES
BUDGET UNIT NAME: ENERGY OPERATIONS; ENERGY EFFICIENT SERVICES; APPROPRIATED TAX CREDITS	
APPROP. BILL SECTION(S): 6.330, 6.340 & 6.345	DIVISION: ENERGY

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Division of Energy requests retention of 50% flexibility between federal and other fund operating appropriations (430042B) and 25% flexibility between federal and other fund pass-through appropriations (430045B). Flexibility is needed to ensure our ability to immediately address any identified operational modifications to ensure the provision of the highest quality services to Missourians and will be used when needed to align appropriation authority with planned spending based on funds availability for pass-through programs.

Also included for the Wood Energy Tax Credit Program (430046B) is 3% flexibility from 6.345 to 6.405 (General Revenue) related to the Legal Expense Fund.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Flexibility was not used in FY 2025.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY 2025.	Flexibility will allow the department to align appropriation authority with planned spending during the fiscal year based on funds availability and will help ensure effective, responsive service delivery by Energy Operations team members.

Federal Funds: 1140:Department of Natural Resources Federal and Other
 Other Funds: 1667:Energy Set Aside Program Fund
 1935:Energy Futures Fund

2. CORE DESCRIPTION

Voluntary Core Reduction: The FY 2027 Department Request includes a voluntary core reduction of \$5,000,000 encumbrance appropriation authority from Other Funds.

The Division of Energy advances the efficient use of diverse energy resources to improve the affordability and reliability of energy services, achieve greater energy security for future generations, and balance a healthy environment with a healthy economy. Through the energy efficiency loans, grants, and services programs, the division helps to ensure energy resilience and affordability for communities and residents by supporting local energy efficiency and renewable energy projects.

The Division's Energy Loan Program, a revolving loan fund capitalized through Petroleum Violation Escrow (PVE) funds, partners with DNR environmental programs and other governmental entities to achieve greater environmental quality and improve affordability and reliability through energy improvements. Team members also provide technical and financial assistance to state and local governments, school districts, businesses, industries, and citizens for energy improvements.

NOTE: The FY 2027 PSD budget above includes appropriation authority of \$13,000,000 Federal and Other funds to be used for encumbrance purposes only, which must lapse.

NOTES:

In many cases, pass-through appropriation has been provided for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Beginning in FY 2014, appropriations were provided for encumbrance purposes separate from expenditures. Both types of appropriations are included in the data above, therefore high unexpended balances will continue to be reflected. The FY 2026 PSD (expenditure only) appropriations are for Energy Efficient Services \$99,754,073 and Low Income Weatherization Assistance \$9,948,293.

Also included is appropriation authority of \$18,000,000 to be used for encumbrance purposes only, which must lapse.

2. CORE DESCRIPTION

Voluntary Core Reduction: The FY 2027 Department Request includes a voluntary core reduction of \$3,300,000 appropriation authority from Other Funds based on remaining funds to transfer.

The General Assembly created the Municipal Utility Emergency Loan Program (MUELP) in House Bill 15 (2021) to provide \$50 million in zero-interest loans to natural gas and electricity municipal utilities and municipal utilities' commissions for increased costs incurred due to the February 2021 extreme winter weather event. The Division of Energy began accepting applications on June 2, 2021, and as of June 30, 2022, had loaned (expended) approximately \$43 million.

Loans are to be repaid within 5 years; repayments are deposited into the Utility Revolving Fund. This appropriation allows transfer of the repayments from the Utility Revolving Fund into the General Revenue Fund.

3. PROGRAM LISTING (list programs included in this core funding)

appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The department is requesting to reappropriate remaining funding to AB6 or AB17 so the project can be completed as appropriated by the General Assembly.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

In FY 2026, the Missouri General Assembly appropriated \$3,000,000 in HB 6, Section 6.343 "For the Missouri University of Science and Technology for a small modular nuclear reactor science and development program".

NOTE: the department is developing an agreement with the university (up to and not-to-exceed the original \$3,000,000) and expects costs to continue into FY 2027 for this multi-year project. The department intends to reduce any remaining authority in the FY 2028 budget.

Bill Section 06.345

NOTES:

FY 2023 \$6 million appropriation: The Wood Energy Tax Credit sunset in FY 2023, and was extended by HB 3 in the First Extraordinary Session of 2022. FY 2023 appropriation language did not allow for tax credits to be issued in FY 2023. A FY 2023 Supplemental Bill passed, with language allowing expenditure for the tax credits, tied to an additional \$3,000,000, for a total of \$6,000,000 appropriated. To prevent exceeding \$3,000,000 allowed for the credit, the department placed \$3,000,000 of the appropriation in agency reserve, which therefore lapsed.

Appropriation for the Wood Energy Tax Credit was \$3,000,000 in FY 2024 and FY 2025 and increased to \$4,800,000 in FY 2026 of which \$1,800,000 was one-time authority. Statutory authority for the authorization of credits lapsed on June 30, 2020, and was reinstated and extended to June 30, 2028.

Expenditures from this appropriation include tax credits issued and redeemed during the fiscal year.

2. CORE DESCRIPTION

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$745,676 one-time Other Funds expense and equipment authority for Ranger Radios from the FY 2026 budget.

Core Reallocation: The FY 2027 Department Request includes a \$175,432 reallocation from the Park Ranger Salary budget unit (430093B) to the Division of State Parks Operating budget unit (430048B).

Missouri Division of State Parks proudly stewards the operating and/or maintenance of 93 state parks and historic sites, plus trails such as Katy Trail and Rock Island Trail in addition to the trails within the parks boundaries. The total acreage maintained by the division is approximately 162,000 acres that spans between state parks and historic sites. The 162,000 acres constitutes approximately 0.5% of the total 2.5% of Missouri's land currently managed by state departments for the preservation and stewardship of ecosystem resources, serving both human communities and the natural environment. The Division of State Parks' mission is to preserve and interpret not only the state's most outstanding natural features but also the state's cultural landmarks to provide appropriate recreational opportunities paired with educational opportunities in these areas. The division's pass-through authority is located in a separate core decision item form.

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

CORE DECISION ITEM

Natural Resources
Division of State Parks
CORE - State Parks Operations

Budget Unit 430048B

Bill Section 06.350

NOTES:

FY 2023 - FY 2024 Section 4. Financial History data includes Division of State Parks pass-through appropriations. Beginning in FY 2025, pass-through appropriations are budgeted separately in State Parks PSD budget unit 430077B.

FY 2023 - FY 2024: In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances. Included in the data is also appropriation authority to encumber outdoor recreation grant commitments which must lapse (\$27.4 million).

FY 2023 - FY 2024: Includes \$150,000 for Bruce R. Watkins Strategic Plan & Programming.

2. CORE DESCRIPTION

CORE DECISION ITEM

Natural Resources
Division of State Parks
CORE - State Parks PSD Core

Budget Unit 430077B

Bill Section 06.350

1x Core Reduction: The FY 2027 Department Request includes a core reduction of \$150,000 one-time General Revenue expense and equipment for Bruce R. Watkins planning from the FY 2026 budget.

Core Reallocation: The FY2027 budget also includes a \$5,000 reallocation from the Payment in Lieu of Taxes appropriation to the Levee District Payments appropriation.

The budget includes appropriation authority of \$27,400,000 to be used for encumbrance purposes only related to Outdoor Recreation Grants.

Missouri Division of State Parks provides management and stewardship of several pass-through programs:

Bruce R. Watkins Center: The department, through a contractual agreement, assists the Kansas City Board of Parks and Recreation Commissioners with the operation of the Bruce R. Watkins Cultural Heritage Center. The center is committed to honoring and interpreting the African American diaspora - especially within Missouri and Kansas City - educational and cultural initiatives that illuminate the historical legacy, contemporary and ongoing contributions of African Americans. This center emphasizes African American's profound influence on the city's and state's cultural heritage in addition to community life shaping the region's identity.

Levy District Payments: Division of State Parks owns land that is protected by levy districts. Payments made to the levy districts are for the cost to maintain the levy located on the land, in order to avoid flooding.

Payment in Lieu of Taxes: The division meets the intent of the State Constitution and uses the Parks Sales Tax funds to make payments to counties in lieu of property taxes on land acquired by the Division of State Parks after July 1, 1985.

Gifts to State Parks: Purchases may be made using funds the division receives from donors, insurance settlements, court awards, and other sources, which are typically designated to fulfill a specific purpose - such as a memorial park bench, commemorative monument, or dedicated tree/garden.

State Parks Resale: To support visitor needs, the division purchases items for resale and stocks resale items in the central warehouse to support individual parks/site statewide. Resale offerings in park stores include souvenirs, publications and practical items that enhance safety as well as convenience for park visitors.

Bill Section 06.350

Concession Default: State park concession operations are competitively bid concession contracts that are awarded and managed by the Division of State Parks. If there are no bidders for a contract or a concessionaire is unable to complete the terms of their contract due to default or if an emergency arises, the division will operate the concession until a new contract can be awarded or obtain additional appropriation authority to operate the concession on a permanent basis, to ensure customer service remains uninterrupted.

State Park Grants: The division may receive federal grant awards to address operations and resource needs, ensuring continued support for Missouri's state parks system. The Bus Grant Program is the one state-sponsored grant awarded to the division. This grant program increases opportunities for schools and youth-focused nonprofits with transportation expenses, creating an avenue to connect children with experiencing Missouri's rich natural and cultural resources.

Federal Outdoor Recreation Grants: Depending upon the grant, the division can distribute federal matching grants to cities, counties, school districts, and nonprofit organizations to develop parks and trails.

- The Land and Water Conservation Program offers funding for the acquisition and development of public outdoor recreation areas and facilities.
- The Outdoor Recreation Legacy Partnership Program seeks to provide new or significantly improved recreation opportunities in economically disadvantaged communities.
- The Recreational Trails Program provides funding to develop and maintain recreational trails, along with trail-related facilities for both non-motorized and motorized recreational uses.

NOTES:

FY 2023 - FY 2024 Section 4. Financial History data can be found in the Division of State Parks Operating budget unit 430048B (where pass-through appropriations were budgeted prior to FY 2025).

FY 2025 - FY 2026: In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances. Included in the data is federal appropriation authority to encumber outdoor recreation grant commitments which must lapse (\$27.4 million). Also included is \$150,000 for Bruce R. Watkins Strategic Plan & Programming.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER:	430048B, 430050B, 430078B, 430051B	DEPARTMENT:	NATURAL RESOURCES
BUDGET UNIT NAME:	STATE PARKS OPERATIONS & HISTORIC PRESERVATION	DIVISION:	STATE PARKS
APPROP. BILL SECTION(S):	6.350, 6.355, 6.360		

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Division of State Parks requests an increase of 5% flexibility (to 10%) between funds (Federal and Other) for State Parks Operations (430048B) and 25% flexibility between funds (Federal and Other) for State Historic Preservation Operations (430050B). Included is 25% flexibility between funds (Federal and Other) for State Historic Preservation Grants (430078B). Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery and pass-through program requirements. Also included is 3% flexibility from the Historic Preservation Transfer in section 6.360 to 6.405 (General Revenue) related to the Legal Expense Fund.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Flexibility was not used in FY 2025.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY 2025.	Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery and pass-through program requirements.

RANK: 010 OF 14

**Department of Natural Resources
Division of State Parks
Outdoor Recreation Grants Incr
DI# NOP.43B.006**

Budget Unit 430048B / 430077B

Bill Section 6.350

The department is requesting \$15 million in additional spending and encumbrance authority. The Land and Water Conservation Fund (LWCF), Recreational Trails Program (RTP), and Outdoor Recreation Legacy Partnership Program (ORLP) grants are administered by the department. The majority of the grants are used to provide funding to local communities for outdoor recreation facilities and trail development, per Chapter 258, RSMo.

Additional pass-through authority for the spending and encumbrance of federal funds is needed to fully utilize the federal apportionment. The ORLP grant threshold has increased from \$2.25 million to \$15 million maximum per project. The department currently has three active ORLP grant projects totaling \$5.7m. Additionally, the LWCF apportionment has also increased over the past three years, allowing a \$500 thousand maximum per project.

The total number of applications received far exceeds the annual funding available. Additionally, rising construction and material costs have seen a reciprocal increase in the grant amounts being requested. Consequently, the department is funding higher dollar projects which results in fewer overall projects being funded on an annual basis.

In addition, the FFY 2023 federal budget included language to provide for administrative grants to states in an effort to administer the ever-growing Land and Water Conservation Fund (LWCF) federal grant program. The National Park Service (NPS) has reinstated administrative grants which allow states to recover costs related to overseeing and managing the grant program.

The FFY 2023 Consolidated Appropriations Act, P.L. 117-328, included a provision fulfilling the President's request to allow the NPS to retain up to 7% of the FFY 2023 State Conservation Grants funding to provide states with 50:50 matching grants to support state administration of the LWCF State and Local Assistance (SLA) Program. The principal purpose of the LWCF administrative grant program is to increase state capacity to implement the LWCF program's requirements, which have grown with increased funding following passage of the Great American Outdoors Act in 2020. This request will allow the division to use the federal administrative funds to comply with federal mandates related to administration of the program.

The LWCF SLA Program is administered jointly by the NPS and the states, who carry out broad and essential program responsibilities including statewide planning; project solicitation, selection, and submission; grant administration; and perpetual post-award oversight responsibilities. While the authority for the administrative grants is currently provided only for FFY 2023, the NPS is committed to continuing to request the authority in future years and work to permanently authorize this crucial authority and funding.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

NEW DECISION ITEM

RANK: 010 OF 14

Department of Natural Resources
Division of State Parks
Outdoor Recreation Grants Incr
DI# NOP.43B.006

Budget Unit 430048B / 430077B

Bill Section 6.350

The National Park Service's Outdoor Recreation Legacy Partnership Program (ORLP) has increased the amount of federal funds available in competitive grants to \$450 million annually. Missouri is authorized to submit all eligible applications received for the ORLP funds. We are estimating \$15 million in annual grant project requests.

In FY 2025, the department encumbered \$27.2 million in obligations of the \$27.4 million encumbrance authority and expended \$5.9 million of the \$7.8 million in spending authority for these federal grant awards.

In order to apply for these grants and the maximum amount of funding available, the department is requesting an increase in Federal appropriation authority of \$15 million in spending authority and \$15 million in encumbrance authority (to obligate grant commitments which can span over three years.)

LWCF administrative grants are available for FFY 2025 through FFY 2028. In effort to ensure compliance with the LWCF SLA Program, the department is requesting an additional \$71,833 in spending authority for operating expenses. Every grant award requires post completion inspections, inspections on a five year rotation, training requirements, etc. Expenditures for travel, supplies and required training will be expended over four fiscal years.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

The initial FY 2025 budget included two projects (HB 6.352). These one-time projects were reappropriated to the capital improvements AB17 bill in FY 2026 to allow for completion of the projects.

- Annie and Abel Van Meter State Park \$500,000 - Construction of a single lane standard dump station (could require an upgrade to existing sanitary system). This is to stop the dumping of RV septic tanks outside the park.
- Roaring River State Park \$125,000 - Construction of a public restroom near the fish cleaning station where there is currently no restroom.

3. PROGRAM LISTING (list programs included in this core funding)

Not applicable

2. CORE DESCRIPTION

The State Historic Preservation Office (SHPO) works with not only citizens but also entities throughout the state to identify, evaluate, and protect Missouri's diverse range of historic, architectural, and archaeological resources. The SHPO staff manages nominations to the National Register of Historic Places, performs Section 106 reviews (under the National Historic Preservation Act's Section 106, SHPO must participate in the review of all federal agency actions when federal funding, permitting, or licensing is involved), assesses rehabilitation projects for state and federal tax credit eligibility as well as responds to archaeological issues ranging from unmarked human burials to construction-related discoveries, and disturbances of culturally sensitive areas. The program's pass-through authority is located in a separate core decision item form.

CORE - State Historic Preservation Operations

Budget Unit 430050B
Bill Section 06.355

NOTES:

FY 2023 - FY 2024 Section 4. Financial History data includes State Historic Preservation pass-through appropriations. Beginning in FY 2025, pass-through appropriations are budgeted separately in Historic Preservation Grants PSD budget unit 430078B. In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances.

Bill Section 06.355

NOTES:

FY 2023 - FY 2024 Section 4. Financial History data can be found in the State Historic Preservation Operating budget unit 430050B (where pass-through appropriations were budgeted prior to FY 2025). In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER:	430052B, 430055B, 430057B, 430058B, 430059B, 430060B, 430065B	DEPARTMENT:	NATURAL RESOURCES
BUDGET UNIT NAME:	VARIOUS AGENCY-WIDE	DIVISION:	AGENCY-WIDE
APPROP. BILL SECTION(S):	6.365, 6.375, 6.380, 6.385, 6.405		

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The department requests retention of 25% flexibility between funds (Other) for Environmental Restoration (430052B), 75% flexibility between funds (Federal and Other) for Refunds (430055B), 75% flexibility between funds (Other) for Sales Tax Reimbursement to GR (430057B), 5% flexibility between funds (Other) for the DNR and ITSD Cost Allocation Fund Transfers (430058B and 430060B) and 25% flexibility between funds (Other) for the HB 13 Cost Allocation Fund Transfer (430059B). The department requests retention of 5% flexibility between the DNR Cost Allocation transfer, HB 13 Cost Allocation transfer, and OA ITSD Cost Allocation transfer. Flexibility will allow appropriation authority alignment by fund source based on receipt of funds for refunds and reimbursements of sales tax to General Revenue. Flexibility for Cost Allocation transfers will allow adjustments, if needed, for responsive service delivery. Also included is 3% flexibility from various sections to 6.405 (General Revenue) related to the Legal Expense Fund.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$ 6,420 CAF HB 13 TRF (Other to Other) \$ 99,784 CAF ITSD TRF (Other to Other) \$ 80,901 CAF TRF (Other to Other) \$ 46,000 Refunds (Other to Federal)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Fund-to-fund flex was used for all three CAF transfers as well as to process refunds. These shifts aligned appropriation authority to proper funding levels based on service delivery needs during the year.	Flexibility may be used to align the budget by fund source for proper use of revenues/receipts and/or based on funds availability for responsive service delivery.

 1568:Natural Resources Protection Water Pollution Permit F

2. CORE DESCRIPTION

As the designated trustee for natural resources for the State of Missouri for purposes of state and federal law, the department assesses injuries to natural resources resulting from the release of hazardous substances or pollutants to the environment. Where appropriate, the department recovers damages from parties who cause natural resource injuries. Such damages may include the cost of restoring the natural resources or the cost of the lost use of the resources. Additionally, the department may recover reasonable costs incurred in assessing injuries. Damages recovered are then available to restore or replace the injured resources, as well as for future assessment, restoration, or rehabilitation of injured natural resources and related costs.

Recovered monies fund "on-the-ground" long-term restoration projects to benefit aquatic and terrestrial habitat, groundwater, and surface waters. The department and, where federal law applies, the federal trustees issue Requests for Proposals (RFPs) for restoration, award project funds, and implement natural resource habitat restoration projects statewide. Restoration projects to restore areas impacted by mining are ongoing in Southwest Missouri and in the Big River and Viburnum Trend areas of the Southeast Missouri Lead Mining District. The department is currently funding groundwater restoration projects in the Kansas City, St. Louis and Springfield areas.

CORE - Environmental Restoration

Budget Unit 430052B

Bill Section 06.365

NOTES:

In recent years, the department focused staff time on developing and implementing on-the-ground restoration projects to benefit local communities and the environment. Appropriations are set to allow for expenditures that will occur under the restoration plans for projects in current and future fiscal years. Higher appropriation amounts allow the department to encumber and pay restoration commitments, which often span multiple fiscal years and can result in unexpended appropriation balances.

2. CORE DESCRIPTION

This appropriation provides an efficient payment mechanism for internal services such as vehicle replacements and other interdivisional expenses (lab expenses, vehicle maintenance, conferences/training, and central supply). The department also bills other governmental agencies or members of the general public for external services such as publication/data sales, environmental services, and environmental education. This appropriation allows the department to respond to both internal and external customers.

2. CORE DESCRIPTION

This cost share proposal uses the department's federal indirect cost rate to allocate administrative costs to dedicated funding sources. The indirect cost rate is an established rate approved by our federal cognizant agency, the Environmental Protection Agency, and is used consistently throughout the department. Each dedicated fund's share is based upon its proportionate percentage of personal services, fringe benefits, and expense and equipment appropriations.

3. PROGRAM LISTING (list programs included in this core funding)

Not applicable - This core decision item represents appropriated transfers from the department's dedicated funds to the DNR Cost Allocation Fund. These transfers provide funding for the department's appropriations from the DNR Cost Allocation Fund. The specific DNR Cost Allocation Fund appropriations/activities are included in other core budget decision items.

NEW DECISION ITEM

RANK: 008 OF 14

Department of Natural Resources
Agency Wide Operations
Cost Allocation Trf Increases
DI# NOP.43B.011

Budget Unit 430058B, 430059B, 430060B

Bill Section 06.385

Increases to the department's Cost Allocation Fund Transfers are necessary for continuity of operations.

DNR's Cost Allocation Fund (CAF) is comprised of appropriated transfers from the department's dedicated funds. These transfers provide funding (cash) for the direct appropriations from the fund including: department and division administration in various DNR budget units (DNR CAF), HB13 leased and state-owned facilities costs (HB13 CAF), and OA Information Technology Services Division costs in HB 5 (ITSD CAF).

The total of these transfers has remained at approximately \$15 million since FY 2015, which is no longer sufficient to fund our DNR, HB13 and ITSD needs. Revised transfer needs are attributable to increases in pay plan, fringe benefits, building/utility costs, and general cost increases/inflation.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This new decision item provides additional transfer authority for planned CAF expenditures due to increased costs.

The department's cost allocation methodology uses the department's federal indirect cost rate to allocate administrative costs to dedicated funding sources. The indirect cost rate is an established rate approved by our federal cognizant agency, the Environmental Protection Agency, and is used consistently throughout the department. Each dedicated fund's share is based upon its proportionate percentage of personal services, fringe benefits, and expense and equipment appropriations.

DNR Cost Allocation Transfer Increase \$930,737
 HB13 Cost Allocation Transfer Increase \$31,874
 ITSD Cost Allocation Transfer Increase \$1,113,129
 Total Increase Needed \$2,075,740

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

The Environmental Improvement and Energy Resources Authority (EIERA) provides financing, research, and technical assistance for environmental and energy related projects. Section 260.010, RSMo, created and established the EIERA as a governmental instrumentality of the State of Missouri, functioning as a body corporate and politic. A five-member board appointed by the Governor directly oversees the activities of the Authority.

2. CORE DESCRIPTION

Missourians who store/sell petroleum are required to have a financial responsibility mechanism to pay for costs of cleanup and third party damages if the tank or piping leaks. Private insurance is unavailable or prohibitively expensive for many small businesses that own tanks. The Petroleum Storage Tank Insurance Fund (PSTIF) provides an economical way for tank owners/operators to comply with this requirement. In addition, thousands of tank sites in the state were contaminated with petroleum before environmental laws were enacted and are not economically viable due to environmental liability. The PSTIF also pays for cleanup of these sites, subject to statutory criteria, which stimulates redevelopment of these properties. The PSTIF is funded by a fee on all petroleum coming into the state and nominal fees paid by insured tank owners. It is managed by an 11-member Board of Trustees who has made preventing leaks a priority; loss ratios demonstrate the success of the Board's loss prevention efforts. This core funds all of the Board's staff and operating expenses including receipt/review of applications, deposit of participation fees, issuance of coverage documents, inspections, annual compliance reviews, loss prevention activities, accounting and annual audit, actuarial analyses and cash flow projections, data management, and coordination with other state agencies.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 430063B	DEPARTMENT: NATURAL RESOURCES
BUDGET UNIT NAME: AGENCY-WIDE TANK BOARD	
HOUSE BILL SECTION(S): 6.400	DIVISION: PETROLEUM STORAGE TANK INS FUND BOARD

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

The Board requests retention of 5% flexibility between Personal Service (PS) and Expense and Equipment (E&E) for the Petroleum Storage Tank Insurance Fund (0585). Flexibility will allow the Board to address unanticipated needs by aligning appropriation authority with planned spending during the fiscal year to help ensure effective, responsive service delivery by the Board.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Flexibility was not used in FY 2025.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY 2025.	Flexibility will allow the Board to address unanticipated needs by aligning appropriation authority with planned spending during the fiscal year to help ensure effective, responsive service delivery by the Board.
