2. CORE DESCRIPTION

Constitutional Amendment 3, passed by a majority vote on the 2004 General Election ballot, limits the amount of highway funding the Department may spend for the cost of collection up to but not exceeding 3 percent of the collection of a particular tax or fee collected per Article IV, Sections 29, 30(a), 30(b), and 30(c) of the Constitution of the State of Missouri. The Highway Collections core is comprised of the highway funding the Department is appropriated pursuant to Constitutional Amendment 3 and the amount of General Revenue needed to fund the motor fuel tax, motor vehicle sales and use tax, and the motor vehicle and driver license issuance, renewal, and suspension responsibilities of the Department as set out in statute. Failure to fulfill these statutory obligations would have a negative impact on the collection of highway funding and diminish the safety of Missouri's highway system because motor vehicle and driver license suspension and revocation actions could be jeopardized.

The Department is requesting additional funding to support the transition from embossed license plates to flat license plates in coordination with the Department of Corrections, Missouri Vocational Enterprise (MVE). This change is necessary to modernize plate production, streamline operations, and align with current industry standards. After further evaluation, flat plates are more efficient, flexible, cost-effective, and compatible with modern technologies. The Department is transitioning to a new Motor Vehicle and Driver License Integrated system, also known as FUSION. Senate Bill 398 in 2023 requires all motor vehicle dealerships to collect and remit sales tax on all motor vehicle sales once FUSION goes live. With this new law and opportunity, the Department is transitioning the business of motor vehicle sales where the motor vehicle dealership will handle the title and registration on behalf of the Missouri citizen. This transition will provide a one stop shop opportunity for the Missouri citizen where they are not required to go to a license office to continue their title and registration needs and will be able to obtain an interim license plate while they wait 7-10 business days to receive their metal license plate in the mail. The Department anticipates the FUSION system will go live for vehicle services in late 2026 or early 2027.

The additional funding is needed to cover the one-time cost associated with the required equipment changes and includes the increase in plate cost due to transitioning to flat plates. The Department has received an increase in plate costs three times in the last 10 years. The MVE anticipates a 41 percent plate cost increase to be able to fulfill the flat plate manufacturing.

Along with the additional request for the funding of flat license plates, the Department is also requesting additional funding to support the transition to a centralized distribution model for license plates and tabs. Under this new process, plates and tabs will be mailed directly to customers rather than being sent in bulk to license offices for in-person disbursement. While this model enhances customer services, reduces inventory issues, and improves security and tracking, it introduces new operational costs. Specifically, there will be a increase in postage, shipping materials, and envelope supplies required to mail items directly to Missouri citizens.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Bill Section 4.005

The Department conducted a detailed cost analysis based on projected production and distribution volumes for the upcoming fiscal year. Based on anticipated annual production of approximately 1 million plates and with the cost per plate increasing from \$1.86 to \$2.60, the additional funding needed for the first six months of FY27 will be \$2,841,750.00.

The Department conducted an additional cost analysis related to the transition from embossed plates to flat plates using projected production and distribution volumes from the last three fiscal years. With the cost of embossed plates at \$2.60 and transitioning to flat plates at a cost of \$4.56, including the cost of tabs and the paper for the interim license plates, the additional funding needed for the last six months of FY27 will be \$4,977,405.71.

For centralized distribution, which will occur during the last six months of FY27, assumptions were based on mailing an estimated 2.7 million items annually, including plates, renewal tabs, and related correspondence, directly to Missouri citizens. The Department calculated per-unit mailing costs using current USPS postage rates, as well as the cost of envelopes. The total requested amount reflects the sum of both the flat plate transition and the shift to centralized fulfillment, ensuring the Department can meet operational demands without service delays or disruption. The additional funding needed for centralized distribution will be \$3,039,622.63.

With the current allotted budget of \$4,740,000 for plates and tabs, the Department would need an additional \$6,118,778.37 to cover the FY27 increase cost of embossed plates, the transition to flat plates, and the transition to centralized inventory. Temporary license plates will be eliminated with the new system; therefore we should see an increase in collections of highway funds.

CORE - MVDL System

Bill Section 04.005

The Department currently uses approximately 50 disparate motor vehicle and driver licensing systems that includes a mixture of mainframe, PC software and distributed web applications to support the Motor Vehicle and Driver Licensing (MVDL) Division. The current legacy systems have been in operation for many years and were developed uniquely for each function. The systems are becoming increasingly difficult and expensive to use and maintain. Mainframe costs will continue to increase as other state agencies transition from the mainframe to newer technology. The various systems were built using a silo approach, which substantially limits communication between them. Limited ability to expand data collection (e.g., vehicle colors) makes it difficult to support safety initiatives, such as AMBER Alerts, that rely on quick identification of vehicles. With such systems, the Department is limited in leveraging newer technology to realize processing efficiencies and deliver quality service to its customers. Moreover, the existing systems will be difficult, if not impossible, to modify to accommodate new mandates that might arise from the state legislature or the federal government.

Newer, more nimble, and robust technologies are available, which may significantly improve the Department's ability to issue titles and register motor vehicles, trailers, all-terrain vehicles, manufactured homes (title only), and marine craft; issue driver license and nondriver identification cards; suspend and revoke driver licenses when applicable; track and account for revenue collected from motor vehicle and driver license transactions; and better serve Missouri citizens.

The Department's overall objective is to update or replace existing systems with an integrated customer-centric MVDL system. The Department expects to realize the following benefits with an integrated system: reduced operational and maintenance costs; additional ways to identify and collect delinquent taxes; expanded online services (including a DMV portal for public access); an integration that allows access to both driver and motor vehicle data when viewing a customer's record to improve the customer's experience; quicker and easier implementation of law changes; and more reliable data with better analytical capabilities.

During the 2021 legislative session, SB 176 passed, which updates the requirements relating to dealer administrative fees in Section 301.558, RSMo. so that ten percent of any fee authorized under this section and charged by motor vehicle dealers shall be remitted to the newly enacted Motor Vehicle Administration Technology Fund. Monies in the fund shall be used solely by the Department for the purpose of development of a modernized, integrated system for the titling of vehicles, issuance and renewal of vehicle registrations, issuance and renewal of driver's licenses and identification cards, and perfecting and electronically releasing of liens and encumbrances on vehicles. At the time the new system is complete, the ten percent of fees collected will decrease to three and a half percent for system maintenance.

2. CORE DESCRIPTION

The Taxation Division collects taxes mandated by Missouri statutes, which account for more than 98 percent of general revenue, by inputting returns and payments into the integrated tax system, manually reviewing returns, correcting returns, approving refunds, sending out notices, answering correspondence and phone calls, distributing tax revenue to political subdivisions, registering businesses, operating collections programs, and conducting audits. The Division requests to continue core funding to effectively and efficiently administer and enforce Missouri laws. The core includes an appropriation for organization dues to the Multistate Tax Commission. The Multistate Tax Commission keeps the Department informed of tax operations and procedures in other states and at the national level. Membership is mandated by Section 32.200, RSMo, and allows Missouri to participate in and receive revenue collections from multi-state audits.

Additional divisional costs are included in the Highway Collections budget unit.

CORE - Integrated Tax System

Budget Unit 190011B
Bill Section 04.010

The Department collects approximately \$13.9 billion in general revenue and \$1 billion in highway-related revenue annually. The primary mechanism for the collection and distribution of funds collected by the Department is the integrated tax system. The Department awarded the contract to implement the integrated tax system in February 2012 with staggered release dates for different tax types. The final release was deployed on August 8, 2020. The Department used this core funding to pay vendor deliverables, state data center, and software/equipment costs associated with the integrated tax system.

The Department requests continued funding of \$7.65 million for the following:

*Various system enhancements including; Intelligent operational reporting, enhanced machine learning tools, mobile application filing and paying, enhanced collection tools, and tools to help prevent fraud.

*Software maintenance

*Ongoing system maintenance and operational support.

*Enhance collection of the Missouri tax on marijuana sales.

More than 90 percent of the rules in Revenue Premier were customized to meet Missouri's unique taxing laws. Due to the complexity of the customized code, which includes collection of over 2,500 different local political subdivision taxes, neither the Department nor ITSD are able to provide daily, ongoing operational support for the system. RSI, the vendor for Revenue Premier, employs skilled technicians who will be able to provide operational support for the integrated tax system. The General Assembly appropriated \$150,000 to the Department to make upgrades to Revenue Premier which will enhance collection of the Missouri Marijuana sales.

2. CORE DESCRIPTION

The Administration Division provides administrative support and executive leadership to help all Department divisions by enabling them to focus on their primary responsibilities with effective communication strategies, responding to legislative contacts, processing fiscal notes, human resource and payroll processing, professional development initiatives, financial and general services, and performing internal audits and reviews to ensure the Department and contractors are in compliance.

The Division's federal funds are associated with the oversight of the child support collection services contract. In conjunction with the Missouri Department of Social Services (DSS), the Division administers the contract that receipts and disburses child support payments. The Department is in the process of transferring these duties and funding back to DSS.

Additional divisional costs are included in the Highway Collections budget unit.

2. CORE DESCRIPTION

The Department postage appropriations support the annual processing of approximately 10 million pieces of outgoing mail through its Mail Service Center and contracted vendors. The Department's outgoing mail volume is the largest in state government. The core postage request includes mailings of marine craft registration renewal notices, marine craft titles, collection and enforcement notices, and statutorily required pieces of certified mail. Additional postage costs are included in the Highway Collections budget unit for driver license renewals, motor vehicle registration renewal notices, motor vehicle titles, collection and enforcement notices and statutorily required pieces of mail. These mailings support the operational programs in their role of revenue collection by notifying citizens of taxes due and owed and of renewal dates of licenses and vehicle registrations to aid in timely renewals. Failure to provide these mailings would negatively impact revenue collections; result in decreased enforcement of tax, driver, motor and marine craft, and other laws; and violate statutory mandates to deliver certain notices by regular or certified mail.

The Department's postage appropriation supports the annual processing of approximately 10 million pieces of outgoing mail through its Mail Service Center and contracted vendors. The Department's outgoing mail volume is the largest in state government. The United States Postal Service implemented a postage rate increase in July of 2025. There was an overall 7.2 percent increase to mail a letter, 8.9 percent increase to mail a postcard, and a 9.2 percent increase to mail certified. The requested General Revenue amount includes an 8.3 percent increase from our driver license vendor, Idemia. Because of the increase postage costs, the Department will experience a shortfall in its postage budget.

2. CORE DESCRIPTION

The Department collects taxes imposed on freight line companies as authorized by Sections 137.1021, RSMo. Six-tenths of 1 percent is transferred to the Blind Pension Fund and a 1 percent collection fee is transferred to the General Revenue Fund. The remaining proceeds are distributed to counties based on each county's percentage of rail track line to the aggregate total of the state. Subject to appropriation, for all taxable years beginning on or after January 1, 2009, a freight line company is allowed a credit for eligible expenses against the tax. The state reimburses any political subdivision of this state for any decrease in revenue due to the credit. This appropriation is used to reimburse the political subdivisions.

2. CORE DESCRIPTION

Any port authority located in this state may establish an Advanced Industrial Manufacturing Zone or AIM Zone as authorized by Section 68.075, RSMo. Fifty percent of the state tax withholdings on new jobs within such a zone is deposited into the Port Authority AIM Zone Fund and subsequently distributed back to the AIM Zone for the purpose of expansion, development or redevelopment. The port authority approves any projects and must submit an annual budget to the Department of Economic Development explaining how and when the monies will be spent. This appropriation request allows the Department of Revenue to distribute the funds in the Port Authority Aim Zone Fund back to the port authorities.

The Department refunds any overpayment or erroneous payment of workers' compensation taxes paid by insurance companies per Section 287.170, RSMo. Overpayments occur because insurance companies file estimated quarterly payments during the year based on prior year activity. In June of each year, when insurance companies file annual returns, estimated and actual liabilities are reconciled and refunds, if necessary, are issued. The Department uses this appropriation to process these refund claims.

2. CORE DESCRIPTION

The Department issues refunds for the overpayment or erroneous payment of taxes collected on tobacco products. The Department collects a tax of eight and one-half mills per cigarette on the sale of cigarettes. Receipts from the tax are deposited into the State School Money, Fair Share, and Health Initiatives funds. A tax of 10 percent of the manufacturer's invoice price, before discounts and deals, is also levied on the first sale of tobacco products other than cigarettes. The receipts from this tax are deposited into the Health Initiatives Fund. The Department uses this appropriation to issue refunds to taxpayers for overpayments of tax on cigarettes and other tobacco products as maintained in Chapter 149, RSMo.

2. CORE DESCRIPTION

Domestic stock insurance companies pay a two percent tax on the direct premium received on business performed in Missouri pursuant to Section 148.320, RSMo. Annually, the collected tax is distributed to the county treasurer and to the treasurer of the school district in which the principal office of the company is located according to Section 148.330.4, RSMo. Premium tax credits, authorized in Section 135.500 to 135.529, RSMo, and Sections 348.430 and 348.432, RSMo, only reduce the amounts apportioned to the general revenue fund and does not reduce any moneys appropriated to county treasurers or to the treasurers of the school districts. The Department uses this appropriation to allow for the apportionments mandated by statute and to hold both the county and the school districts harmless for tax credits claimed.

2. CORE DESCRIPTION

Pursuant to Section 135.815, RSMo, prior to the authorization of any tax credit application, the administering agency must verify with the Department and the Department of Commerce and Insurance that the tax credit applicant does not owe any delinquent income, sales, use or insurance taxes or interest or penalties on such taxes. A delinquency does not affect the authorization of the application of such tax credits, except that the amount of credits issued is reduced by the applicant's delinquency. If any credits remain after satisfying all income, sales, use or insurance tax delinquencies, the remaining credits are issued to the applicant, subject to restrictions or other provisions of law.

Section 610.026.1, RSMo, requires that "except as otherwise provided by law, each public governmental body shall provide access to and, upon request, furnish copies of public records." The Department deposits collections from the sale of information to the DOR Information Fund. The Department, at the end of each state fiscal year, determines the amount to transfer from the DOR Information Fund to the State Highways and Transportation Department Fund pursuant to Section 32.067(1), RSMo. The transfer amount is the amount of monies derived from highway users as an incident to their use or right to use the highway of the state which were deposited into the DOR Information Fund less the amount of disbursements from the DOR Information Fund which were made to produce the monies referred to in Section 32.067(1), RSMo.

Organizations seeking authorization for a new specialty plate submit an application form and appropriate fee to the Department. The fee is deposited into the DOR Specialty Plate Fund and should defray the implementation costs of issuing, developing, and programming the authorized plate. Pursuant to Section 301.3150(2), RSMo, at the end of each fiscal year, the Department determines the amount of collections over disbursements and transfers the net collections to the State Highways and Transportation Department Fund. This appropriation enables the Department to transfer the applicable funds.

This request is for 5 new positions, two hearing officers, two administrative clerical, and one appraiser. The STC currently has over 19,000 appeals pending and will expect another 15,000-20,000 appeals for the 2025 reassessment year. The Legal Section has been reduced by over 70% since reassessment and is unable to resolve taxpayer appeals efficiently with the currently staffing level. The inability to resolve taxpayer appeals timely results in taxpayer funds being held in escrow for one-three years. Two administrative/clerical staff are being requested to support the STC office. One administrative position would support the Office of Ombudsman, which is required by Section 138.435, RSMo. The other administrative position would be assigned to the Administration Section to provide support to the Administrative Secretary as well as the other sections within the STC. The Local Assistance Section is required to conduct commercial appraisals in the 114 counties and City of St. Louis. The reduction of 70% of the staff has caused this section to run behind in finalizing the assessment cycle consistently. The STC has suffered staffing of almost 60%, while still being required to maintain the required functions of the office. The lack of efficiency by this office is a result of the erosion of staff and resources over the years.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The requested position salaries are inline with the salary structure of the State of Missouri General Pay Structure for these positions.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

Section 137.750, RSMo., states the State of Missouri may provide local assessment jurisdictions with up to 60% of all costs associated with implementing a two-year reassessment plan. The current assessment maintenance appropriation reimburses at 50% of all costs associated with implementing a two-year reassessment plan. This core request in the amount of \$11,314,882 will provide reimbursements to counties at \$3.30 per parcel based upon the 2024 parcel count of 3,428,782.

The median cost per parcel required to implement the statewide assessment program stands at \$22.48. The core request provides funding to pay for 12% of the actual cost required to assess property in the State of Missouri with the balance of 88% being borne by local government and public school districts. Property tax revenues in 2024 were approximately \$10.43 billion, of which roughly \$7.82 billion provides funding to local public schools.

Section 137.750, RSMo, states the State of Missouri may provide local assessment jurisdictions with up to 60% of all costs associated with implementing a two-year assessment plan not to exceed \$7.00 per parcel. The State currently reimburses one-half of these assessment costs. County assessment program costs range from \$11.52 to \$50.28 per parcel, with a median cost per parcel of \$22.48, and costs continue to increase. This request in the amount of \$65,014 and the core request of \$11,314,882, will provide funding at \$3.30 per parcel utilizing the 2025 parcel count of 3,448,453 for FY-2027. The increase in parcel count from 2024 to 2025 is 19,701 parcels.

NOTES:

Supplemental budget requests were approved in the amount of \$5,359,864 in FY 22, \$6,992,701 in FY 23, and \$2,200,000 in FY 24 for sales-related vendor costs due to removal of estimated "E" appropriation and separate appropriation for advertising in FY 2014, subsequent breakout of vendor costs as a separate appropriation in FY 2015 and breakout of Pull-Tab vendor costs as an additional appropriation in FY 17, with no flexibility between appropriations.

Unexpended balance in all three years is mainly due to unexpended Pull-Tab vendor costs appropriation.

Budget Unit 190054B

Bill Section 4.180

This requested increase in advertising appropriation is at no cost to the state of Missouri (not from taxes or General Revenue). Its only purpose is to raise revenue for Missouri education.

The Lottery has proven a high return on investment (ROI) on its use of advertising dollars which equals a high revenue return for Missouri schools. In FY19, when the advertising budget was \$16 million, the Lottery generated \$5.79 in incremental profit for Missouri schools for every \$1 invested in advertising.

Advertising is a best practice in any business, organization or non-profit. This is especially true for the highly competitive retail environment where the Lottery is offered alongside thousands of other products. Most competing brands spend 10-13% of total sales on advertising. This increase would raise Lottery's advertising budget to \$10 million, or .62% of sales, which compares to the average lottery industry ad budget of 1.04% of sales and an average ad budget of contiguous state lotteries of 1.24% of sales.

This funding is needed to sustain our current customer base and attract new players. The Lottery needs to increase its brand awareness and relevance to be successful. Newer generations openly support businesses who project corporate social responsibility. However, we are seeing a decline in players' positive feelings about the Lottery, which in turn leads to less play as a result of virtually no messaging about the revenue the Lottery raises for education.

Lottery advertising spend impacts thousands of Missouri businesses. By increasing sales through advertising, businesses that sell lottery products (primarily grocery and convenience stores throughout the state) and those involved in the advertising industry (media outlets, actors, media production companies) benefit as well. Lottery advertising is responsible. We are committed to truthful and respectful advertising of our games and promotions, as well as proactive responsible gaming messaging.

The state statute that established the Missouri Lottery and its responsibilities is 313.321, RSMo.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Increase would raise Lottery's advertising budget to \$10 million, or .62% of sales. Average lottery industry ad budget is 1.04% of sales, average ad budget of contiguous state lotteries is 1.24% of sales.
