DEPARTMENT OVERVIEW

The Missouri Department of Conservation was conceived at the low point in U.S. conservation history, when unregulated hunting, fishing, trapping, and the abuse of forests had depleted the state's natural resources. First envisioned by Missouri sportsmen and conservationists, the Department was created by a constitutional amendment in 1936 as the nation's first apolitical, science-based conservation agency with exclusive authority over fish, forests, and wildlife.

The four-member Missouri Conservation Commission approves the Wildlife Code of Missouri, as well as the Department's policies, long-term strategic planning, budget, and major expenditures. Commission members, who are appointed by the governor, serve staggered, unpaid, six-year terms, as outlined in the Missouri Constitution (Article IV, Section 40(a) through 46).

The Conservation Department protects and manages the fish, forest, and wildlife resources of the state, and provides opportunities for all citizens to use, enjoy, and learn about these resources. Conservation staff sustain and improve the fish, forest, and wildlife resources, manage nearly one million acres of public land with more than 1,000 conservation areas, work with private landowners and communities to deliver conservation locally, and provide outreach and education through nature centers, schools, and events. Staff also work with dedicated volunteers and partner agencies to ensure a greater conservation reach, both in Missouri, and across the nation.

The health of our natural habitats and the species that live here have an impact on our very quality of life. Whether feeding birds, watching wildlife, hiking, hunting, canoeing, boating, target shooting, fishing, or spending time at a nature center, Missourians are engaged with the outdoors. For more than 80 years, the Conservation Department has worked with Missourians to sustain healthy fish, forests, and wildlife for all to enjoy.

As public servants and stewards of Missouri natural resources, we must also strive to continuously improve and adapt to new challenges and opportunities, so that we can achieve our mission and goals. The Department is currently engaged in a transformative effort to better align the organization to respond to these conservation challenges and opportunities. The Department is working on strategic plan alignment and successful implementation/measurement; a customer focus in everything we do; greater regional collaboration, including increased authority and decision making at the regional level; efficient delivery of program and services; and better communications at all levels of the organization.

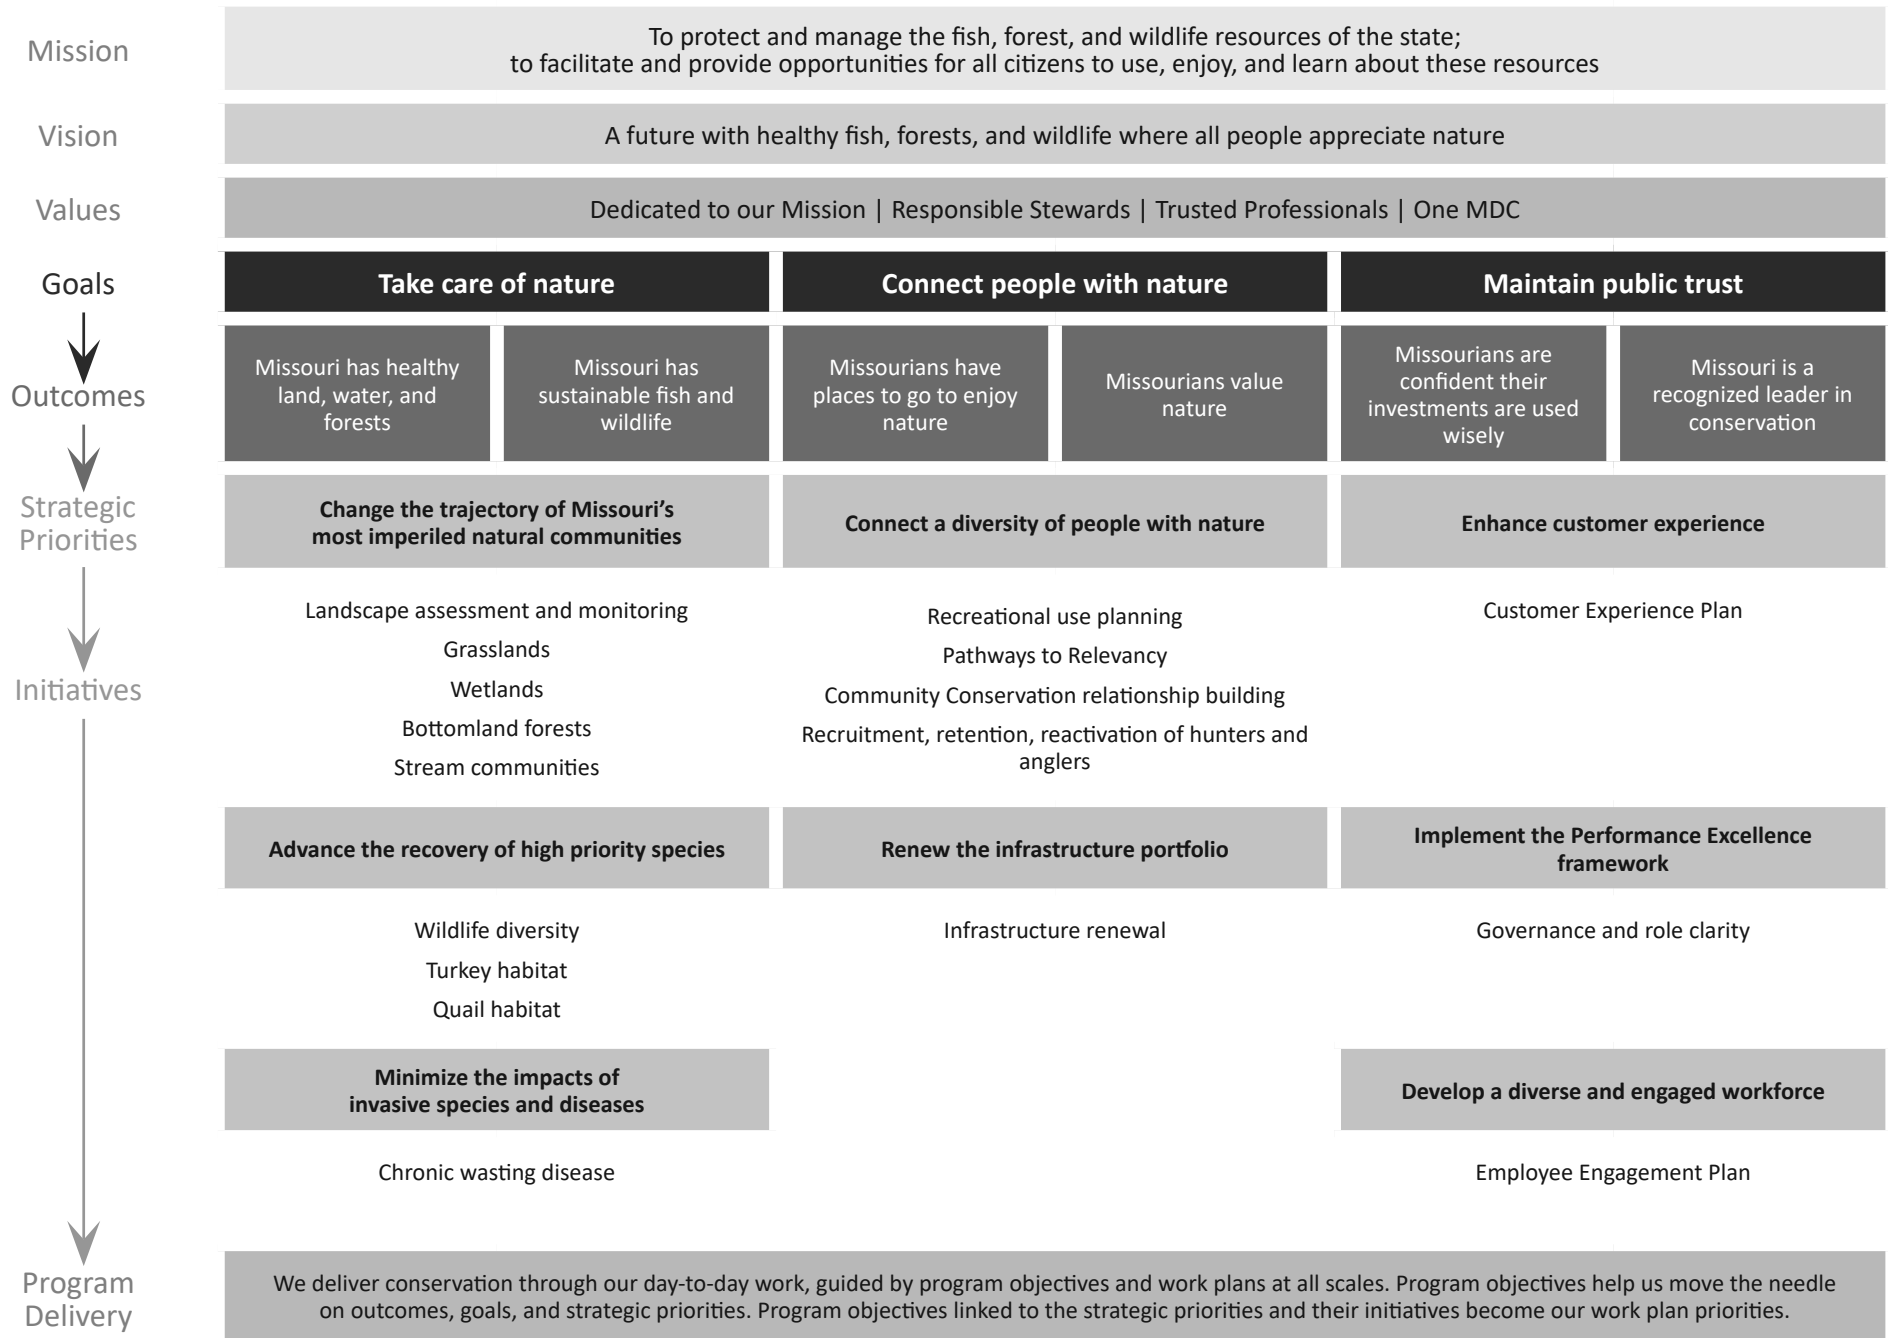

The Department has identified the following goals and corresponding program structure to manage conservation in the future:

Strategic Goals	Outcomes
Take Care of Nature	Missouri has healthy land, water, and forests
	Missouri has sustainable fish and wildlife
Connect People with Nature	Missourians have places to go to enjoy nature
	Missourians value nature
Maintain Public Trust	Missourians are confident their investments are used wisely
	Missouri is a recognized leader in conservation

With a laser focus on these strategic goals and outcomes, including our goal of tracking measurements through a public-facing dashboard, the Department has allocated the FY2027 budget request to align with these three strategic goals. The unified budgeting by strategic goals allows us to collaborate across disciplines, manage landscape-scale natural resources, and more quickly respond to resource threats. It also allows the Department to collaborate across work teams, regions, and branches, including strategic priorities and budgets, to then scale those goals, outcomes, and strategies to individual work plans for staff. This budget and priority alignment provides better work planning and performance management to align and work toward common priorities.

The amount of state sales tax revenue generated from fish and wildlife recreation spending and forest products is more than the amount of sales tax revenue received by the Conservation Department from the one-eighth of one cent Conservation Sales Tax. Conservation-related expenditures and sales generate more than \$550 million annually in state and local tax revenue. The Conservation Department's budget represents less than one percent of the entire state budget, and is funded entirely from the Conservation Commission Fund. Sources of revenue include hunting and fishing permits, commercial permits, nonresident permits, the Conservation Sales Tax, and sources of federal assistance, including the Wildlife and Sport Fish Restoration Program, and funding from the U. S. Forest Service. No state general revenue is received. In Missouri, the total economic impact of fish and wildlife recreation and the forest products industry is more than \$21.8 billion annually. Expenditures and retail sales from fish and wildlife recreation and forest products support over 85,000 jobs.

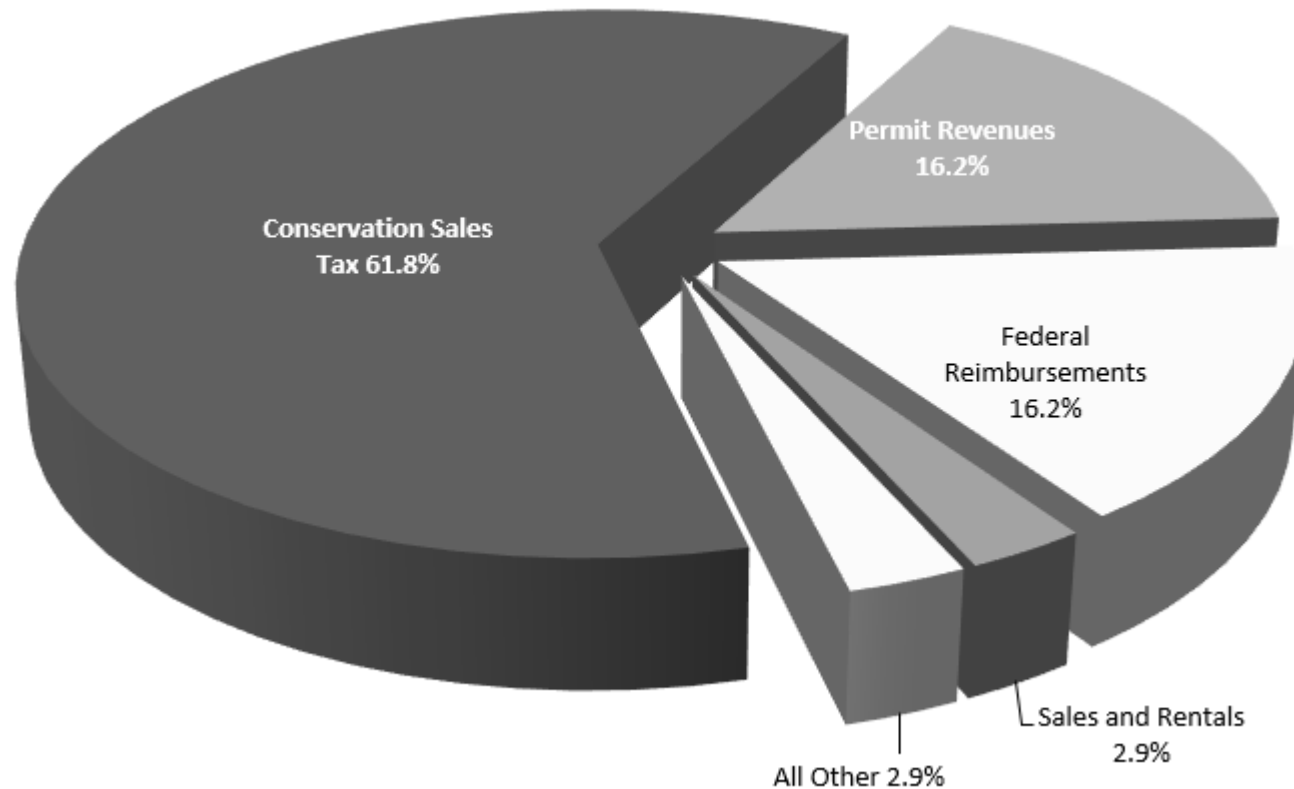

Design for the Future Strategic Plan
