October 1, 2015

The Honorable Jeremiah W. (Jay) Nixon  
Governor of Missouri  
State Capitol, Room 218  
Jefferson City, MO 65101

Dear Governor Nixon:

I am pleased to submit the proposed fiscal year 2017 budget for the Missouri Department of Labor and Industrial Relations. As identified in the Department's Vision and Mission, it will remain dedicated to promoting and protecting labor and industry with the vision of employees and businesses succeeding together in safe and healthy workplaces free from unlawful discrimination.

After reviewing core resources and operations, we have reallocated core resources within and between various budgeting organizations. The core reallocations allow the Department to comply with its federal cost allocation plan and reallocate appropriation authority to needed areas. In addition, the Department is requesting:

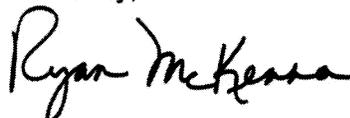

- A core reduction and a core transfer related to the DWC Computer Modernization.
- A core reduction in the Unemployment Insurance Trust Fund federal interest payment appropriation for authority which is no longer needed.

The Department is also requesting new appropriation authority:

- To restore personal services funding and 3.1 FTE cut from the Wage and Hour Program in FY 2016.
- For the Second Injury Fund (SIF), allowing the Division of Workers' Compensation to use all (SIF) receipts to pay awarded claims as funds become available. An FY 2016 Supplemental Request is also included for additional SIF appropriation authority.
- To replace one Mine Inspection Program vehicle.
- To restore personal services funds and 10 FTE for Administrative Law Judges cut from the FY 2016 and FY 2010 budgets.

We welcome the opportunity to discuss these budget issues with you in further detail. Please feel free to contact me at (573) 751-3978 should you have questions or need additional information.

Sincerely,

Ryan McKenna  
Director

**2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Senate Bill 1 was passed in the FY 2013 Legislative Session and was effective on January 1, 2014. This act modified the law relating to the Second Injury Fund and occupational disease within the workers' compensation system. One component of the act is the ability to impose a supplemental surcharge not to exceed 3% of net premiums from 2014 to 2021 in an effort to bolster the Second Injury Fund. In addition to the increase in revenue, the act also established a payment priority schedule.

Currently the Second Injury Fund has approximately 6,023 cases in which payments have been held, with unpaid obligations around \$47 million. The \$47 million is the cost of the first payment only and does not include the bi-weekly benefits and interest that has accrued since the original payments were due. In addition to the held awards, there are approximately 25,232 Second Injury Fund cases open and pending with the division.

Since obligations from the Second Injury Fund are in excess of predicted revenues for the next few years, the fund needs to have adequate appropriation authority to use all receipts to pay awarded claims as those funds become available.

Continue to prioritize and process payments from the Second Injury Fund according to state laws as funds become available.

**2. CORE DESCRIPTION**

The Director and Staff provides support functions to the various departmental agencies: administrative services, financial management, human resources, legal services, public information, strategic planning, and research and analysis. The cost of these administrative functions is shared among the programs within the department that benefit from these services through the Administrative Fund Transfer.

The DOLIR Administrative Fund is classified as a Federal fund; however, its funding sources via transfer are: General Revenue \$461,692 (3.90%); Workers' Comp \$1,887,210 (15.93%); Special Employment Security \$330,531 (2.79%); and Federal Funds \$9,166,895 (77.38%). The Administrative Fund Transfer core request appears later in the budget request.

## PROGRAM DESCRIPTION

**Department of Labor and Industrial Relations**

**Program Name: Administration**

**Program is found in the following core budget(s): Director and Staff**

**1. What does this program do?**

Administration provides the following support functions to six agencies: administrative services (procurement, forms and supply), financial management, human resources, legal services, public information, legislative affairs and research and analysis.

The cost of these administrative functions is shared among the programs within the department that benefit from these services. As a result, fiscal year 2016 is cost allocated as follows: General Revenue \$463,308 (3.91%); Workers' Comp \$1,887,210 (15.93%); Special Employment Security \$330,531 (2.79%); and federal funds \$9,165,279 (77.37%). The department also transfers monies from the programs that receive direct services from the administrative sections, from these same funding sources.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

An administrative fund was created under chapter 286, RSMo which allows the Department of Labor and Industrial Relations to expend funds which relate to the administration of the laws under jurisdiction of the department.

**3. Are there federal matching requirements? If yes, please explain.**

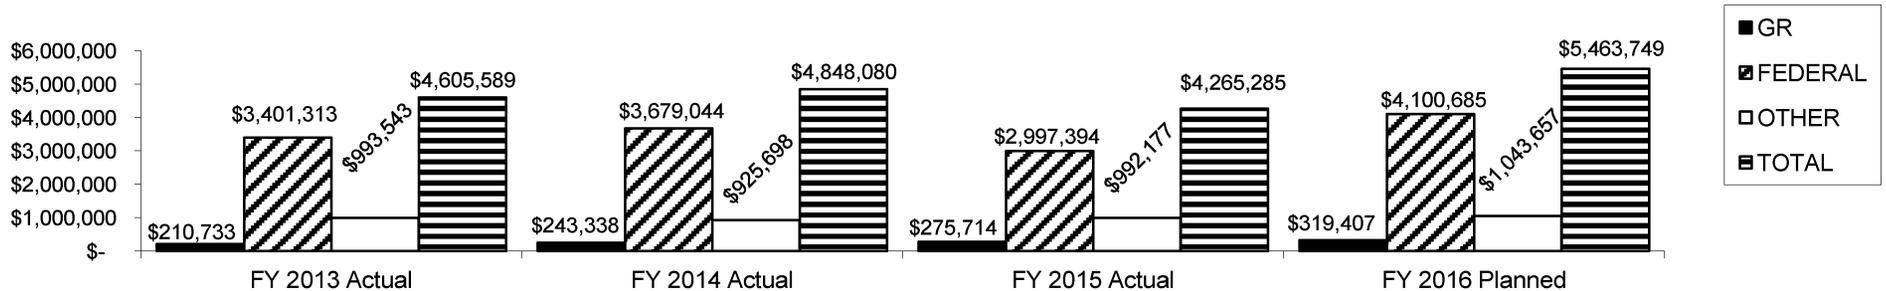

While the structure of administration is not required, certain functions such as mailing, accounting, and so forth are mandated under programs within the department.

**4. Is this a federally mandated program? If yes, please explain.**

No.

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**Program Expenditure History**

Note: Actual expenditures include fringe.

**2. CORE DESCRIPTION**

The Director and Staff pays its personal services and expense and equipment expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. In compliance with its federal cost allocation plan, the department transfers monies into this fund from four funding sources: General Revenue, Federal, Workers' Compensation, and Special Employment Security funds. By using the DOLIR Administrative Fund, the department complies with the cost allocation requirements more efficiently in payment, payroll processing, and procurement. Fiscal, payroll, and procurement staff can input one-line accounting distributions rather than three-line entries, which were entered when costs were allocated over three funds for each transaction, reducing data entry by at least 67%.

The transfers include amounts necessary to meet required fringe benefit transfers for the fund, which appear in HB 5.

**2. CORE DESCRIPTION**

The majority of the personal services and some expense and equipment expenditures for OA, ITSD staff assigned to the Department of Labor and Industrial Relations (DOLIR) are paid from the DOLIR Administrative Fund. OA, ITSD personal services, fringe benefit, and expense & equipment appropriations from the DOLIR Administrative Fund are expected to be approximately \$6,000,105. In compliance with its federal cost allocation plan, the department transfers monies into this fund from four funding sources: General Revenue, Federal, Workers' Compensation, and Special Employment Security funds. By using the DOLIR Administrative Fund, the department complies with the cost allocation requirements more efficiently.

The transfers include amounts necessary to meet required OA, ITSD fringe benefit transfers for the fund, which appear in HB 5.

In addition, OA Facilities Management, Design & Construction charges the DOLIR Administrative Fund directly for state-owned building operational costs. The department expects charges of approximately \$251,353 in FY 2017.

**2. CORE DESCRIPTION**

This core includes funding for the administration of all Division of Labor Standards' programs. Four program components within the Division are also funded in this core.

- Mine and Cave Inspection Program: conduct statutorily required inspections, and safety and health consultations at Missouri's mines and show caves.
- The Wage and Hour program is composed of three components and responds to thousands of inquiries from employers and workers in Missouri about their responsibilities and rights under Missouri's (and Federal) Wage and Hour Laws. Program components include:
- Child Labor: educate employers, school officials, parents, and working youth about their rights and responsibilities under the Missouri Child Labor Law; and review complaints to ensure that no child under sixteen years of age is employed in an occupation or a manner that is hazardous or detrimental to the child's safety, health, morals, educational processes, or general well-being.
  - Prevailing Wage: provide outreach to educate contractors, public bodies, and workers on their rights and responsibilities under the law.
  - Minimum Wage: responds to employers and workers regarding their rights and responsibilities under the minimum wage laws and proactively educates employers and workers about the minimum wage laws.

The number of Wage and Hour Investigators has been reduced various times over the past several years from 18.7 Investigators in FY 2003 to 3.9 Investigators in FY 2016. These reductions have impacted the Division of Labor Standards' ability to comply with the mandates of the Revised Statutes of Missouri. The reduction of 3.10 FTE in FY 2016 further impairs the Wage and Hour Section's ability to perform its core functions; therefore the department is requesting restoration of the FTE and funding removed in the FY 2016 budget.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The Division of Labor Standards, Mine and Cave Inspection Program, is requesting a replacement vehicle for the program. The current vehicle is a 2008 Ford Escape 4WD, current mileage of 161,496, and is accumulating approximately 17,000 miles per calendar year. This vehicle travels to mining properties and heavy industry locations over difficult terrain to perform statutorily required inspections. Therefore, the program requires a 4X4 vehicle with off road capabilities and proper storage for all of the sensitive and specialized equipment, gear, and tools used during the inspection process. Other available vehicles that may be more fuel efficient or smaller in size do not meet these requirements. The program plans to utilize a vehicle offered thru the fixed vehicle pricing program at Missouri State Surplus Property to meet its needs for this one-time purchase as allowed under Chapter 293, RSMo.

The price for a 4X4 vehicle that will meet the needs of the program is estimated at \$15,000. The Division of Labor Standards plans to select a vehicle from the inventory at Missouri State Surplus Property. The Mine Inspection Fund (fund 0973) will be used for this one-time purchase as allowed in Chapter 293, RSMo.

**2. CORE DESCRIPTION**

The On-Site Safety and Health Consultation Program is 90% funded by the Federal Occupational Safety and Health Administration (OSHA) with a 10% required state match, funded from the Workers' Compensation Fund (0652). The program provides a state administered, no-cost consultative service to assist Missouri's small employers in achieving compliance with OSHA's safety and health standards, helping employers to avoid Federal fines and penalties, providing a healthful and hazard-free place of employment for Missouri workers, and reducing occupational accidents and illnesses. Occupational safety and health consultants visit workplaces and assist employers with safety and health hazard recognition, evaluation, and control at their work facilities. The program also informs employers of overall program safety and health management techniques and provides safety and health employee training designed to control hazards at the worksite.

In FY 2012, the program saved the businesses it served approximately \$4.8 million dollars in possible OSHA fines for serious hazards.  
 In FY 2013, the program saved the businesses it served approximately \$10.4 million dollars in possible OSHA fines for serious hazards.  
 In FY 2014, the program saved the businesses it served approximately \$9.7 million dollars in possible OSHA fines for serious hazards.  
 In FY 2015, the program saved the businesses it served approximately \$9.3 million dollars in possible OSHA fines for serious hazards.

**2. CORE DESCRIPTION**

The Mine Safety and Health Training Program is 80% funded by the federal Mine Safety and Health Administration (MSHA) with a 20% required state match, which is funded from the Workers' Compensation Fund (0652). The program provides new miners with the initial regime of safety and health training courses; first aid, cardiopulmonary resuscitation, mine rescue, miner's rights, and hazards associated with the task assigned. The Mine Act of 1977 (Title 30 Code of Federal Regulations Parts 46, 48, 49, 56, 57, 71, and 75) requires miners complete these courses before they are allowed to start work. Each year thereafter, the miner must receive an eight hour refresher course on those same topics and any topic that is necessary to stop a trend of accidents, injuries, or fatalities. Courses are site specific and tailored to the type and scope of the mining operation.

## PROGRAM DESCRIPTION

**Department of Labor and Industrial Relations**

**Program Name: Mine Safety and Health Training**

**Program is found in the following core budget(s): Mine Safety and Health Training**

**1. What does this program do?**

This program trains and re-trains miners to implement safe and healthy work habits in the mining workplace. Missouri miners must be compliant in the training rules and regulations of the Mine Safety and Health Administration (MSHA) to be able to work in a mine. Each miner must receive an initial regimen of safety and health training and an annual refresher. Program instructors travel to the mine site, conduct a safety and health audit, prepare lesson plans that are site specific and correspond to the training plan of the company, and then present the training topics to the miners. The program aids in the reduction of accidents, injuries, and fatalities and assists mine owners in avoiding costly fines and penalties from the federal Mine Safety and Health Administration (MSHA).

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

This program is federally mandated under Title 30 Code of Federal Regulations Parts 46, 48, 49, 56, 57, and 75 and Section 293.520, RSMo.

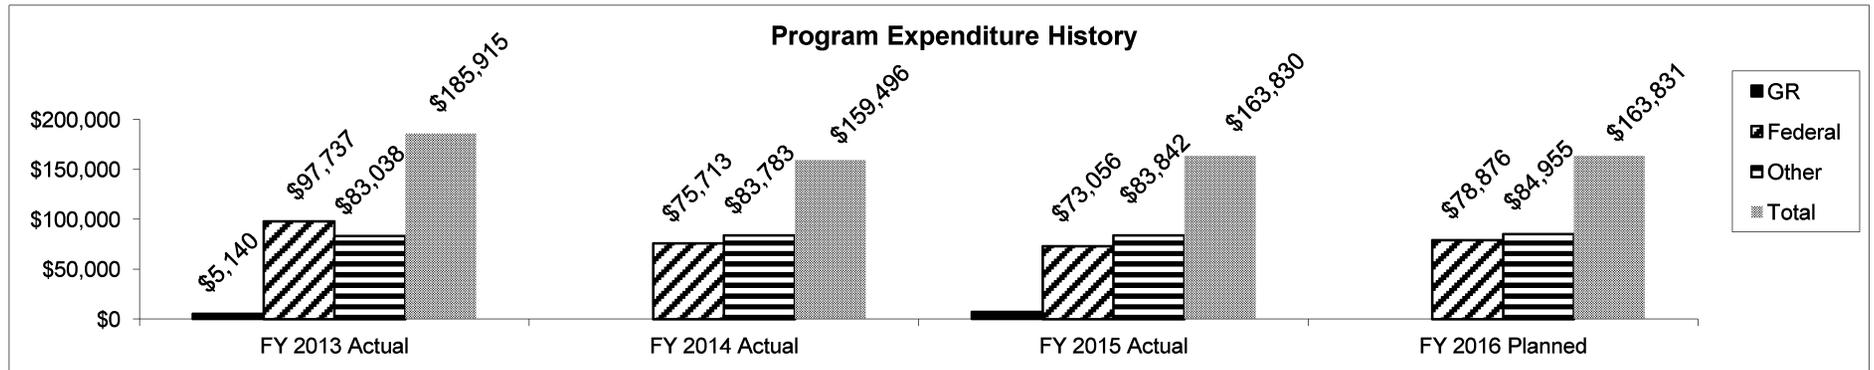

**3. Are there federal matching requirements? If yes, please explain.**

Yes, this program is 80% federal & 20% state match.

**4. Is this a federally mandated program? If yes, please explain.**

MSHA requires training be provided under the Mine Act of 1977 for mines to operate legally.

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**6. What are the sources of the "Other " funds?**

Workers' Compensation (0652)

**2. CORE DESCRIPTION**

The workers' compensation system ensures an employee who sustains an accident, injury or occupational disease receives medical treatment, wage loss replacement benefits, permanent partial or permanent total disability benefits and/or death benefits under the law. The division also oversees benefits that are owed on occupational diseases due to toxic exposure. The division provides various options to resolve disputes that may arise between the injured employee and the employer/insurer and/or the second injury fund (SIF), including adjudication services through its seven offices. The division regulates individual employers and groups/trusts who have been authorized to self-insure their workers' compensation obligations and investigates allegations of workers' compensation fraud and noncompliance. The division also authorizes payment of compensation and benefits from the SIF and administers the Line of Duty and Tort Victims' Compensation Programs.

An annual transfer of \$50,000 to the Kids' Chance Scholarship Fund, as required by section 173.258, RSMo., is also included in this core.

**PROGRAM DESCRIPTION**

**Department of Labor and Industrial Relations**

**Program Name: Workers' Compensation**

**Program is found in the following core budget(s): Workers' Compensation Administration**

**1. What does this program do?**

The workers' compensation program processes all reports of job-related injuries and formal claims for compensation filed under Missouri's workers' compensation law. This program also provides mediation services to resolve disputed issues between an employee and an employer or insurer. It administers the rehabilitation of seriously injured workers, resolves disputes concerning the reasonableness of medical fees and charges, reviews and approves applications by employers or group trusts for self-insurance authority, investigates allegations of workers' compensation fraud and noncompliance, and processes benefit payments from and collection of surcharges to the Second Injury Fund.

This program also administers the Tort Victims' Compensation program. The tort victims program processes applications for benefits and issues administrative determinations that may compensate people who have been physically injured due to the negligence or recklessness of another and who have been unable to obtain partial or full compensation pursuant to a court judgment because the party at fault had no insurance, has filed for bankruptcy, or for other reasons as specified by law. This program also administers the Line of Duty Compensation Fund, which provides a \$25,000 benefit to the estate of any emergency personnel killed in the line of duty.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

This program is mandated under chapter 287, RSMo.

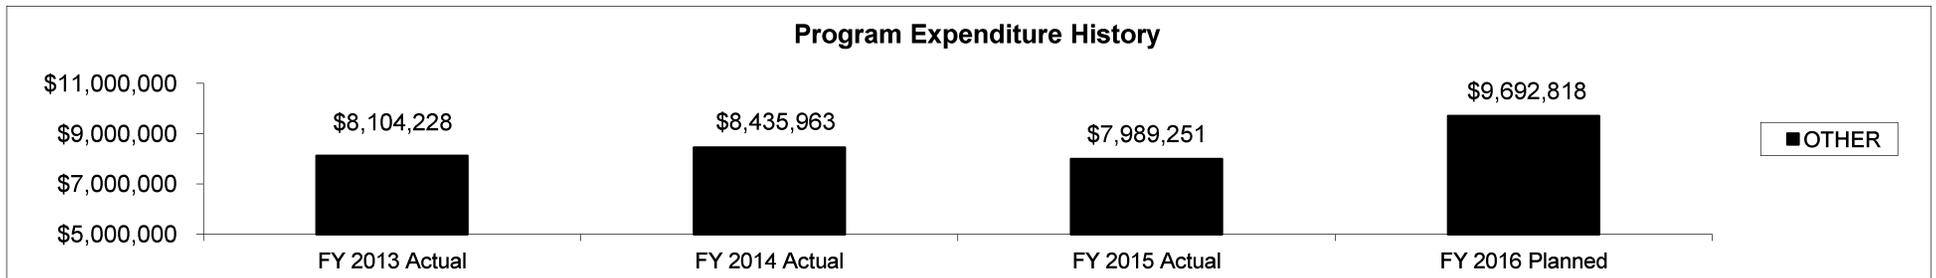

**3. Are there federal matching requirements? If yes, please explain.**

No

**4. Is this a federally mandated program? If yes, please explain.**

No

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**

**6. What are the sources of the "Other " funds?**

**2. CORE DESCRIPTION**

The Tort Victims' Compensation Fund compensates people who have been injured due to the negligence or recklessness of another, such as in a motor vehicle collision, and who have been unable to obtain full compensation because the party at fault had no insurance, inadequate insurance, has filed for bankruptcy, or for other reasons specified in the law.

Tort Victims' Compensation Fund revenue is generated from awards of punitive damages in civil lawsuits in Missouri. Under the law, payments to eligible claimants are suspended until the balance of the fund exceeds \$100,000. Any sum awarded that cannot be paid due to lack of funds appropriated for the payment of claims of uncompensated tort victims does not constitute a claim against the state. Due to the unreliability of the funding source, there may not be a sufficient amount to pay benefits in a given year.

As described in section 537.650, RSMo, (previously section 477.650, RSMo) 26% of the court awards received are to be transferred to the Basic Civil Legal Services Fund (Fund 0757).

**2. CORE DESCRIPTION**

The Line of Duty Compensation Fund (0939) was established in section 287.243, RSMo., to provide a \$25,000 benefit payment to the families of emergency personnel killed in the line of duty, subject to appropriation.

This core contains the General Revenue transfer appropriation to provide the monies necessary to pay eligible claims that may be filed with the division in FY2017. There are four claims currently pending. The General Revenue transfer is used in the absence of the receipt of any other monies, including voluntary contributions, gifts, or bequests to the fund. Only in the amount necessary to pay awarded benefits each year is transferred.

The division is statutorily required to pay line of duty compensation benefits awarded to claimants. It is unknown how many claims will be filed within a given fiscal year; therefore, the core request of \$450,000 is an estimate.

In FY 2013, line of duty compensation benefits were paid on 13 claims totaling \$325,000.  
 In FY 2014, line of duty compensation benefits were paid on 10 claims totaling \$250,000.  
 In FY 2015, line of duty compensation benefits were paid on 2 claim totaling \$50,000.  
 In FY 2016 to date, there have been no line of duty compensation benefits paid.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Senate Bill 1 was passed in the FY 2013 Legislative Session and was effective on January 1, 2014. This act modified the law relating to the Second Injury Fund and occupational disease within the workers' compensation system. One component of the act is the ability to impose a supplemental surcharge not to exceed 3% of net premiums from 2014 to 2021 in an effort to bolster the Second Injury Fund. In addition to the increase in revenue, the act also established a payment priority schedule.

Currently the Second Injury Fund has approximately 6,023 cases in which payments have been held, with unpaid obligations around \$47 million. The \$47 million is the cost of the first payment only and does not include the bi-weekly benefits and interest that has accrued since the original payments were due. In addition to the held awards, there are approximately 25,232 Second Injury Fund cases open and pending with the division.

Since obligations from the Second Injury Fund are in excess of predicted revenues for the next few years, the fund needs to have adequate appropriation authority to use all receipts to pay awarded claims as those funds become available.

**2. CORE DESCRIPTION**

The Division of Employment Security (DES) administers the state's unemployment insurance (UI) program. The UI Program provides a measure of protection against loss of wages for workers who become unemployed through no fault of their own. The UI benefits paid to eligible workers assists Missouri's economy during periods of economic downturn by helping stabilize the level of consumer purchasing power. As a part of the state UI program, the DES contributions staff collects the state UI tax and wage item data regarding the amount of wages paid to each individual reportable worker. The funds included in this appropriation also finance the administrative cost of operating various related federal programs, such as Disaster Unemployment Assistance (DUA) and Trade Adjustment Assistance (TAA).

**2. CORE DESCRIPTION**

Established in section 288.042, RSMo, this provision finances the administration and unemployment benefits paid by the War on Terror Program. This appropriation authority has never been used.

Any employer that is found in any Missouri Court or United States District Court located in Missouri to have terminated or taken adverse employment action against a "war on terror veteran" due to his or her absence while deployed, shall be subject to an administrative penalty of \$35,000. A "war on terror veteran" is a Missouri resident who serves in the National Guard or is a member of a United States Armed Forces reserve unit who was domiciled in Missouri immediately prior to deployment and a Missouri court has found that the person was discharged or laid off from his or her employer during deployment or within thirty days of completing deployment. The war on terror veteran is entitled to receive veterans' unemployment benefits for 26 weeks.

Due to the severity of the War on Terror penalty that would be levied against offenders, the Division of Employment Security believes there will be few unemployment claims against this core.

**3. PROGRAM LISTING (list programs included in this core funding)**

**2. CORE DESCRIPTION**

This appropriation provides for the Division of Employment Security (DES) to use intercepted state income tax refund checks for the purpose of repaying unemployment insurance (UI) benefit overpayments and delinquent employer contributions. This aids the DES in collecting monies due to the Unemployment Compensation Trust Fund. Without this collection method, funds for the payment of UI benefits would decrease. The administrative costs associated with this core request are included in the division's administrative core request.

## PROGRAM DESCRIPTION

**Department of Labor and Industrial Relations**

**Program Name: Prevention/Elimination of Illegal Discrimination**

**Program is found in the following core budget(s): Mo Commission on Human Rights Administration**

**1. What does this program do?**

The Missouri Human Rights Act seeks to eliminate discrimination in the workplace, public accommodations, and housing. Discrimination can be based on race, color, religion, national origin, ancestry, sex, disability, age, and familial status. This program provides equitable and timely resolutions of discrimination claims through enforcement of the Missouri Human Rights Act. Allegations of discrimination are reviewed and investigated and a determination is made whether there is probable cause to believe discrimination has occurred. If discrimination is found, conciliation is attempted. If the complaint is not resolved in conciliation, a public hearing may take place to adjudicate the matter.

This program offers training to public and private employers, organized groups, school districts, and housing providers on topics including sexual harassment prevention, disability sensitivity, and fair housing information. MCHR provides expanded education and outreach for Missouri citizens to understand their rights and responsibilities under the law.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

This program is mandated under the Missouri Human Rights Act, Chapter 213, RSMo.; Title VII of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, the Age Discrimination in Employment Act and the Americans with Disabilities Amendments Act.

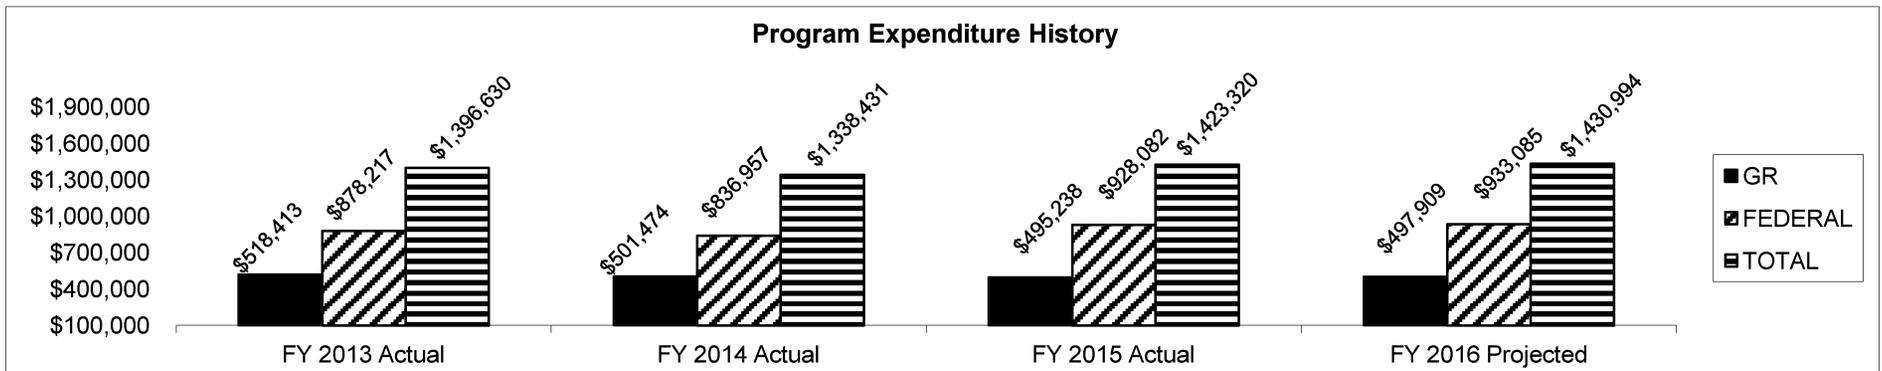

**3. Are there federal matching requirements? If yes, please explain.**

No

**4. Is this a federally mandated program? If yes, please explain.**

No; however, the MO Commission on Human Rights has worksharing contracts with the Equal Employment Opportunity Commission (EEOC) and Department of Housing and Urban Development (HUD).

**5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.**
