This program provides appropriate treatment for offenders with drug-related offenses and substance use histories who are mandated to participate in treatment. The Department has established a continuum of care with a range of evidence-based services that include: diagnostic center screening; clinical assessment and classification; institutional substance use treatment services; and pre-release planning at ten correctional centers. Three other institutions have substance use and recovery services for general population offenders including intake, assessment, and substance use and relapse education services. Additionally, the Department of Corrections provides contract oversight and quality assurance monitoring for institutional programs, as well as program research and evaluation. The special needs program at Northeast Correctional Center is funded by the Residential Substance Abuse Treatment for Prisoners (RSAT) grant from the U.S. Department of Justice. Finally, Substance Use and Recovery Services works in a close partnership with the Department of Mental Health Division of Alcohol and Drug Abuse to facilitate timely continuing care when high-risk offenders are released from prison to Probation or Parole supervision.

**1. What does this program do?**

The Department continuously assesses the educational needs of offenders from their intake through their release to the community. Through a combination of state-operated programs, inter-agency agreements and outsourced services, the Department of Corrections provides qualified educators to conduct institution-based education and vocational programs for offenders. Incarcerated offenders without a verified high school diploma or high school equivalency certificate are required to be enrolled in academic education classes. Offenders who have obtained a high school diploma or equivalency certificate may apply for admission to vocational, work-related skills training. Libraries at every correctional institution serve the informational and recreational needs of offenders, including constitutionally mandated "access to courts" through legal resources and reference materials.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 217.355 RSMo., Public Law 94-142 (Federal), Title I, II, IV and V, Title II-Work Force Investment Act/Adult Education and Literacy, Supreme Court decisions regarding offender libraries (Federal).

**3. Are there federal matching requirements? If yes, please explain.**

No. There are no matching requirements, however the federal government does require "maintenance of effort" which means that the state must spend at least as much on education each year as in the previous year.

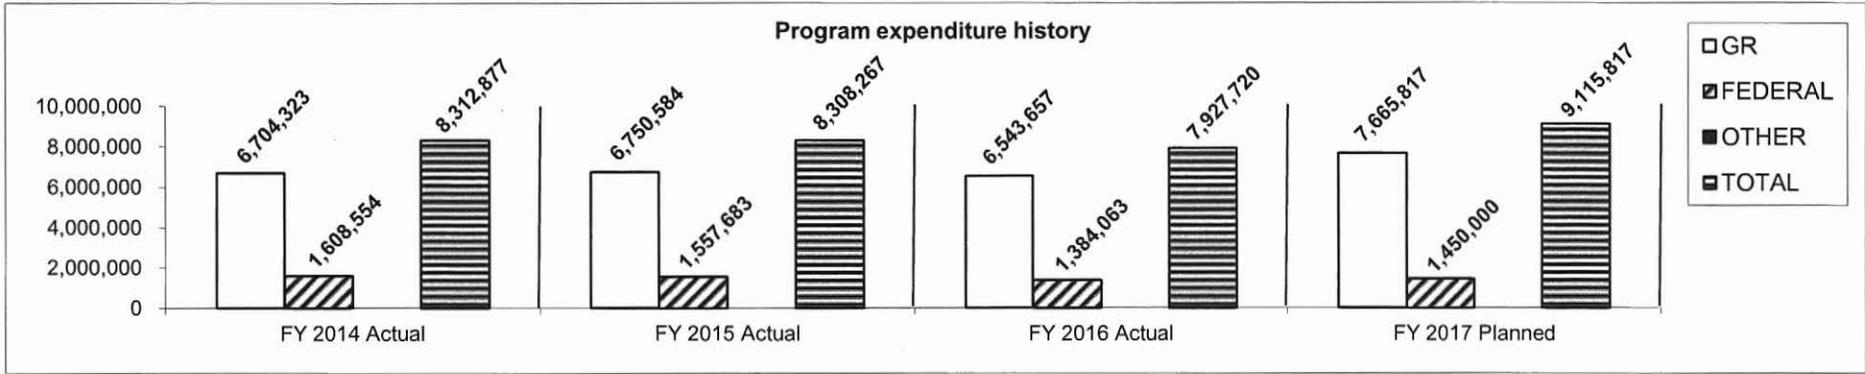

**4. Is this a federally mandated program? If yes, please explain.**

Federal Supreme Court decisions require the provision of "access to courts" through the provision of legal resources, reference material provided in the offender libraries and self-improvement materials. Offenders under age 22 who qualify as special needs children under provisions of Part B of the Federal Individuals with Disabilities Education Act (IDEA), must be provided a Free and Appropriate Public Education (FAPE).

This request for additional contracted offender healthcare services funding is needed because of an increase in the offender population and per diem rate. The offender healthcare contract is \$12.578 per offender per day or \$4,590.97 per offender per year in FY17 and includes Medical and Mental Health Services. In FY18 the healthcare contract rate is \$12.946 per offender per day or \$4,725.29 per offender per day. The prison population is estimated to be 33,011 in FY18.

**2. CORE DESCRIPTION**

This request is to provide funds to purchase healthcare equipment for 21 correctional facilities. These funds are used to repair or replace inoperable or obsolete equipment required by the offender healthcare contract. Effective use of these funds decreases offender outcounts by allowing more services to be provided inside correctional facilities. This in turn promotes public safety and allows the Department of Corrections to utilize security staff more efficiently.

**1. What does this program do?**

This program provides appropriate treatment for offenders with drug-related offenses and substance use histories who are mandated to participate in treatment. The Department has established a continuum of care with a range of evidence-based services that include: diagnostic center screening; clinical assessment and classification; institutional substance use treatment services; and pre-release planning at ten correctional centers. Three other institutions have substance use and recovery services for general population offenders including intake, assessment, and substance use and relapse education services. Additionally, the Department of Corrections provides contract oversight and quality assurance monitoring for institutional programs, as well as program research and evaluation. The special needs program at Northeast Correctional Center is funded by the Residential Substance Abuse Treatment for Prisoners (RSAT) grant from the U.S. Department of Justice. Finally, Substance Use and Recovery Services works in a close partnership with the Department of Mental Health Division of Alcohol and Drug Abuse to facilitate timely continuing care when high-risk offenders are released from prison to Probation or Parole supervision.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapters 217.785, 217.362, 217.364, 559.115, 559.036 and 559.630-635 RSMo.

**3. Are there federal matching requirements? If yes, please explain.**

The Residential Substance Abuse Treatment grant requires a 25% match.

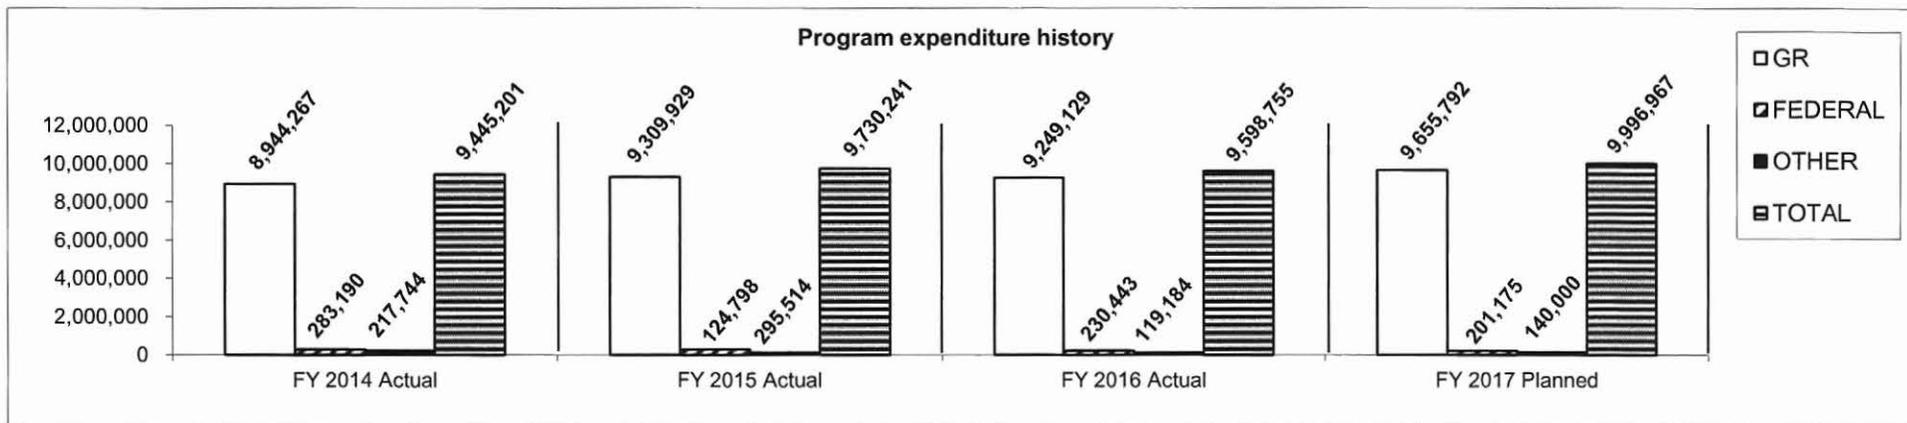

**4. Is this a federally mandated program? If yes, please explain.**

No.

- Monthly, at least 5% of the inmate population suspected of substance use based on staff observations, searches, or because they are assigned to work release programs outside institutions is target tested for substance abuse through urinalysis.

Also note that:

- Random and targeted urinalysis testing is conducted monthly on offenders under community supervision.
- Drug testing requirements are included in federal grant applications and progress reports.
- Pre-employment, random and targeted testing of department employees is conducted to ensure the safety and security of offenders, the staff and the public.

**1. What does this program do?**

The Department conducts a program of random and targeted substance use testing of offenders in prison and in the community. This testing allows for early intervention when an offender engages in substance use. In order to provide substance use testing in a timely and efficient manner, the Department operates its own toxicology laboratory at the Cremer Therapeutic Correctional Center in Fulton. Testing is scheduled so that 5% of the offender population is randomly tested for substance use through urinalysis monthly. Also, 5% of incarcerated offender population whom staff suspect use, due to search or observations or work release programs, are target tested for substance use through urinalysis. Random and targeted testing is conducted monthly on offenders under community supervision. The toxicology lab normally provides results within 24 hours of receiving samples. In addition to testing offenders, the Department also provides pre-employment and random and targeted testing of the agency employees to ensure that the Department meets its commitment to public safety.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 217.020 RSMo.

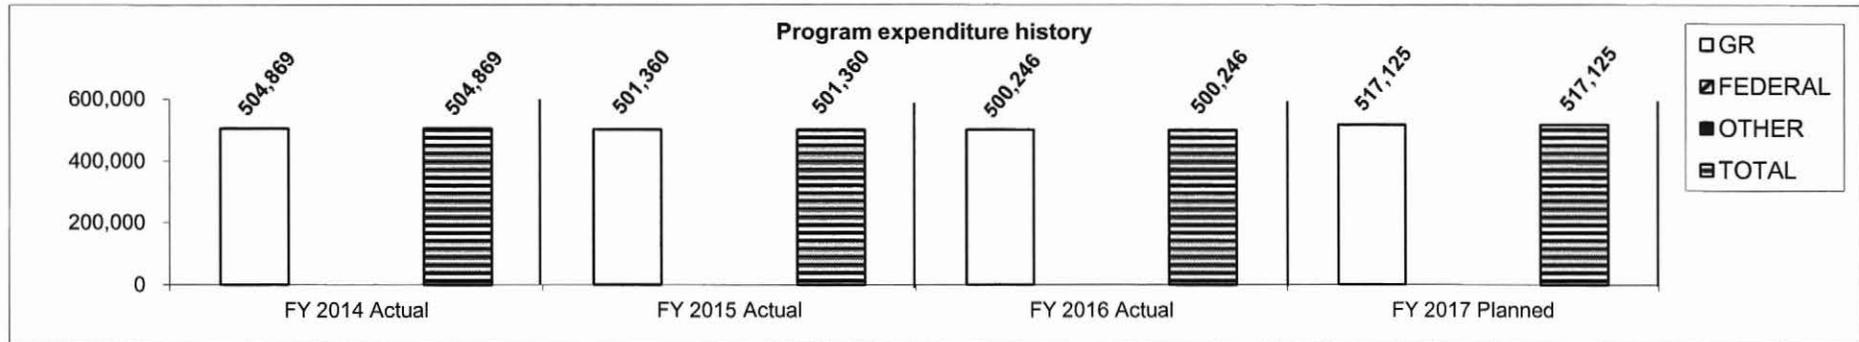

**3. Are there federal matching requirements? If yes, please explain.**

No.

**4. Is this a federally mandated program? If yes, please explain.**

Drug testing is not mandated by federal statute, but it is a requirement for the application for most of the federal funds the Department receives.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 217.355 RSMo., Public Law 94-142 (Federal), Title I, II, IV and V, Title II-Work Force Investment Act/Adult Education and Literacy, Supreme Court decisions regarding offender libraries (Federal).

**3. Are there federal matching requirements? If yes, please explain.**

No. There are no matching requirements, however the federal government does require "maintenance of effort" which means that the state must spend at least as much on education each year as in the previous year.

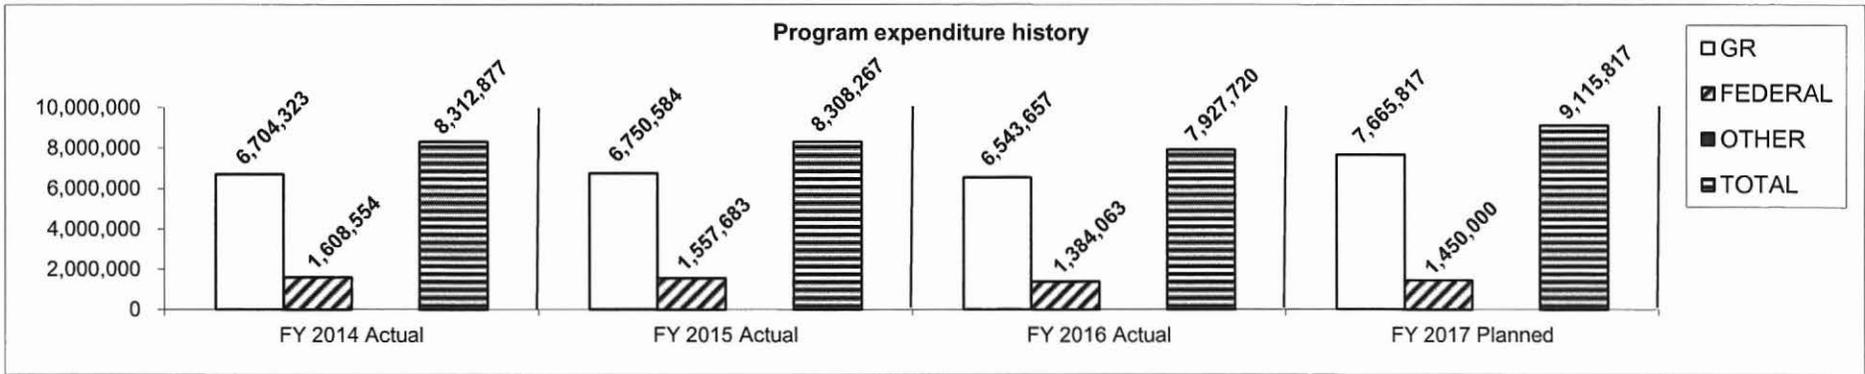

**4. Is this a federally mandated program? If yes, please explain.**

Federal Supreme Court decisions require the provision of "access to courts" through the provision of legal resources, reference material provided in the offender libraries and self-improvement materials. Offenders under age 22 who qualify as special needs children under provisions of Part B of the Federal Individuals with Disabilities Education Act (IDEA), must be provided a Free and Appropriate Public Education (FAPE).

**2. CORE DESCRIPTION**

This is a request for authority to spend from the Working Capital Revolving Fund to continue the operations of Missouri Vocational Enterprises (MVE) factories and services. The MVE program operates industries and programs to produce a variety of products and services for state agencies, city and county governments, political subdivisions, state employees and not-for-profit organizations. The goal of this program is to increase employment and training opportunities for offenders assigned to correctional centers and to promote productive and law-abiding conduct after release to the community. There are 390 active offenders working on their apprenticeship programs; 1,378 offenders have completed apprenticeship programs. Apprenticeship programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release. Currently, 23 industries are operated in 13 correctional centers statewide. These industries employ more than 1,380 offenders each month. Products and services include Chemical Products, Industrial Laundry, Clothing Factory, Furniture Factory, Graphic Arts, Engraving License Plate Factory, Office Systems Manufacturing, Shoe Factory, Tire Recycling, Forms Printing, Warehouse/Distribution network, Plastic Bags Manufacturing, Cardboard Carton Manufacturing, Toilet Paper Manufacturing, Metal Products, Signs and Toner Cartridge Recycling.

**1. What does this program do?**

As of June 30, 2016 there were 58,845 offenders under the supervision of the Division. In FY16, the average caseload supervision level distribution was Assessment 13.67%, Level III (high-risk) 20.59%, Level II (medium-risk) 36.71%, Level I (low-risk) 27.20% and Absconders 1.82%. The total number of cases served during the past year (FY16) was 98,725.

The Division has continued to focus on public safety by implementing evidence-based risk reduction strategies and programming. This would include actuarial assessments and targeting interventions to ensure the moderate and high-risk offenders are a priority with supervision and treatment resources. Evidence-based case management strategies have been implemented with the expected outcomes to be reduced recidivism and enhanced public safety. While these strategies were largely successful in redirecting internal resources during this period, the further reduction in supervision services will jeopardize public safety.

The Parole Board has undertaken several significant initiatives using updated risk assessment data developed by the Department's Research and Evaluation Unit on factors closely associated with success/failure under supervision. The emphasis of these initiatives is to accelerate the release of low-risk offenders and to enable the ongoing review of release decisions based on dynamic risk variables. Where the new data suggests that the offender's risk of reoffending could be mitigated by an alternative release strategy, the Parole Board can establish a new release date. Use of the dynamic risk instruments enables better allocation of resources but has increased the workload on institutional parole offices as well as in the community.

**2. CORE DESCRIPTION**

This core request provides personal services funding for the St. Louis Community Release Center (SLCRC), a 550-bed community-based facility that assists male offenders with re-integration to the community from prison or stabilization while remaining assigned under community supervision. The St. Louis Community Release Center provides the Department of Corrections with critical transitional services for offenders supervised in the metropolitan St. Louis area. The Parole Board stipulates offenders for assignment to the center based on their need for a more structured supervision/assistance/home plan. SLCRC also serves as a secure location to assess offenders under Parole Board supervision in St. Louis City who are at risk for revocation. Pending a determination to retain the offender under supervision, implement an alternate community supervision plan or return for formal revocation hearings, the offender's risk to abscond or re-offend is mitigated by temporary residency at the center. The facility may also be used as a more intense supervision strategy for probationers at risk for revocation by the Courts and for offenders who are awaiting approval of an out-of-state home plan.

**2. CORE DESCRIPTION**

The Department of Corrections established a Command Center to provide timely responses to recover offenders who have absconded from community supervision while on Electronic Monitoring, at a Residential Facility, on Global Positioning System (GPS) tracking, at the Community Release Center or who have escaped from the Division of Adult Institutions. The 24-hour a day, 7-day a week operation enters warrants and initiates investigations as soon as notification is received that offenders have escaped or violated conditions of their community supervision.

In FY17 the Legislature switched Command Center salaries from the Inmate Revolving Fund (IRF) to General Revenue (GR) due to a decrease in IRF collections and an increase in client discharges. The decreased level of funding in the Inmate Revolving Fund made it impossible to continue paying these salaries and to provide the same level of services for offenders such as electronic monitoring, substance abuse treatment, and residential facility beds.

**1. What does this program do?**

As of June 30, 2016 there were 58,845 offenders under the supervision of the Division. In FY16, the average caseload supervision level distribution was Assessment 13.67%, Level III (high-risk) 20.59%, Level II (medium-risk) 36.71%, Level I (low-risk) 27.20% and Absconders 1.82%. The total number of cases served during the past year (FY16) was 98,725.

The Division has continued to focus on public safety by implementing evidence-based risk reduction strategies and programming. This would include actuarial assessments and targeting interventions to ensure the moderate and high-risk offenders are a priority with supervision and treatment resources. Evidence-based case management strategies have been implemented with the expected outcomes to be reduced recidivism and enhanced public safety. While these strategies were largely successful in redirecting internal resources during this period, the further reduction in supervision services will jeopardize public safety.

The Parole Board has undertaken several significant initiatives using updated risk assessment data developed by the Department's Research and Evaluation Unit on factors closely associated with success/failure under supervision. The emphasis of these initiatives is to accelerate the release of low-risk offenders and to enable the ongoing review of release decisions based on dynamic risk variables. Where the new data suggests that the offender's risk of reoffending could be mitigated by an alternative release strategy, the Parole Board can establish a new release date. Use of the dynamic risk instruments enables better allocation of resources but has increased the workload on institutional parole offices as well as in the community.

**2. CORE DESCRIPTION**

This funding is used for the Community Partnership for Restoration Program to provide intervention services for high-risk offenders in the St. Louis area. These intervention services include residential assessment, case management, employment placement and transportation assistance services.

Community Reentry contracts are awarded to local not-for-profits and faith-based organizations to provide a variety of services that include, but need not be limited to housing, transportation, case management, substance abuse and mental health services, employment (job development, readiness, placement and retention), child care, education and vocational classes, basic needs and mentoring. Grantees may receive up to \$50,000 per grant. The program was appropriated in FY12.

The Governor recommends a \$2,000,000 core reduction in community reentry grants for FY18.

**2. CORE DESCRIPTION**

In FY16, the Division supervised an average of 866 offenders per day with electronic monitoring equipment. This program assists with the reintegration of offenders in the community and provides additional intervention, sanctions and control for offenders who have been unresponsive or unsuccessful in traditional caseload supervision. Electronic Monitoring contracts for equipment and support services used to monitor offenders' compliance with curfew restrictions placed on them by the supervising probation and parole officer. The daily offender fee for this program was eliminated in FY08, and funding is now solely through the Inmate Revolving Fund which is sustained primarily through Intervention Fee collection and has suffered declining revenues due to a decrease in collections.

**1. What does this program do?**

This program assists with the reintegration of offenders in the community and provides additional intervention, sanctions and control for offenders who have been unresponsive or unsuccessful in traditional caseload supervision. The program contracts for equipment and support services to monitor offenders' compliance with curfew restrictions placed on them by the supervising probation and parole officer. The daily offender fee for this program was eliminated in FY08, and funding is now solely through the Inmate Revolving Fund which is sustained primarily through Intervention Fee collection and is drastically decreasing.

**2. CORE DESCRIPTION**

As an alternative to constructing additional prisons to meet increases in prisoner population, the Department of Corrections (DOC) operates six Community Supervision Centers (CSCs) to reduce the prisoner growth rate by insuring that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The CSCs provide a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing Probation and Parole district offices located in that area as well as sufficient program/classroom areas and dormitory housing space for at least 30 offenders in need of structured residential supervision.

**1. What does this program do?**

The Department of Corrections proposes to reduce the prison growth rate by working to insure that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The Department believes providing a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the State that contribute the most annual prison admissions and revocations is one critical step to reducing this growth rate. The Community Supervision Centers are a method to provide such short-term intervention in the community. In addition to the existing Community Release Center in St. Louis, the Department has six Community Supervision Centers to serve the other areas of the State that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for at least 30 offenders in need of structured residential supervision. These centers are located in St. Joseph, Hannibal, Farmington, Kennett, Poplar Bluff and Fulton.

**2. CORE DESCRIPTION**

Counties and the City of St. Louis are reimbursed for certain costs incurred in the prosecution and incarceration of indigent defendants in criminal cases. Also, counties or county sheriffs' offices are paid for costs of transporting prisoners and the costs of serving extradition warrants. The Department of Corrections receives county cost and extradition documentation, audits the documentation, prepares and then remits payments to the counties. This section represents the core appropriation for these payments. As of July 1, 2016 the Department is currently reimbursing at the rate of \$21.08 per offender per day.
