The Department of Corrections is an agency dedicated to public safety through the successful management and supervision of offenders in prison and on probation or parole. The department's responsibility is to administer the sentence set by the court in ways that promote public safety at the lowest cost. Offenders assigned to the department are managed by ensuring they are supervised at the appropriate custody or supervision level. A cadre of over eleven thousand trained correctional professionals committed to the vision, mission, and values of the department assess each offender's criminal history, evaluate community and institutional conduct and enforce court orders and department rules. This mixture of on-going assessment, classification, referral to supervision strategies and assignment to basic habilitation interventions are several of the key methods used to promote sober, responsible, productive and law-abiding behavior. When offenders are held accountable for their actions, the public's safety is enhanced.

In all, the department is responsible for the care, custody and supervision of approximately 90,400 adult offenders in Missouri. There are currently more than 32,900 adult felons confined in Missouri's correctional facilities and approximately 57,500 probationers and parolees across the state.

The Department is composed of four divisions and the Office of the Director.

The Office of the Director coordinates the internal activities of all the divisions as well as with all external stakeholders such as the press, public and elected officials. The Office of the Director contains the Budget Unit; the Research, Planning and Process Improvement Unit; Victim Services Unit; Reentry/Women's Offender Program Unit; Office of Professional Standards; Office of the General Counsel; Public Information Office; and Legislative/Constituent Services. The newest addition, the Office of Professional Standards, reports directly to the department's director. It is charged with examining department operations as it relates to employee conduct and professionalism.

The Division of Human Services (DHS) functions as the administrative division for the Department and contains the following support services: Personnel Office, to include corrections officer recruitment; Fiscal Management Unit; Offender Financial Services; Staff Training Office; General Services Section, which includes food service, construction, and facilities repair and maintenance; Procedures and Forms Management Unit; and Employee Health and Safety Section, which includes emergency management and employee wellness..

The Division of Adult Institutions (DAI) operates 21 adult correctional facilities which are responsible for ensuring offenders sentenced to the Department's custody are confined in a safe, secure and humane manner and have access to programs and services to assist them in becoming productive citizens. The Division also operates the Central Transfer Authority, which is responsible for approving offender transfers between institutions and scheduling treatment beds; the Central Transportation Unit, which is primarily responsible for the return of parole violators from across the state and country; the Offender Grievance Unit, which is responsible for processing offender grievance appeals; and the Security Intelligence Unit, which is responsible for the oversight of divisional and department-wide security issues.

The Division of Offender Rehabilitative Services (DORS) provides programming and services to assist offenders in becoming productive citizens upon release from prison. Such programs include Reception and Diagnostic Center Assessment, Adult Education, Library Services, Substance Use and Recovery Services, Offender and Staff Drug Testing, Offender Health Care (Medical and Mental Health), Specialized Mental Health Units, Sexual Offender Assessment and Treatment, Mental Health Offender Assessment and Treatment, Work-based Education and the Missouri Vocational Enterprises.

The Division of Probation and Parole operates 55 field district offices, nine field satellite offices, 22 institutional parole offices, six Community Supervision Centers and one Transition Center in order to supervise offenders sentenced to a term of probation by the courts or released from incarceration on parole or conditional release by the Parole Board. It monitors offenders through direct supervision, which may include the use of Residential Facilities and Electronic Monitoring. The agency also uses supervision strategies including community-based substance use and mental health treatment services for offenders.

2. CORE DESCRIPTION									
<p>The Missouri Department of Corrections (DOC) is committed to the philosophy of improving offenders' transition from prison to the community through implementation of the Missouri Reentry Process (MRP). This involves collaborative efforts with other state agencies and community organizations to identify and manage the factors contributing to the health, safety and prosperity of Missouri communities. Improved public safety requires a comprehensive effort between the Department of Corrections, the state's criminal justice system (including the courts and state and local law enforcement), our communities and the General Assembly to effectively manage every offender sentenced to be supervised by the department. The Department of Corrections manages risk to the community by assigning offenders along its continuum of supervision strategies in the field and in its facilities. Offenders under community supervision are continuously assessed for their risk to re-offend. Offenders sentenced to confinement are secured in institutions where operations are safe, constitutional and humane. Incarcerated offenders are required to prepare for reentry by successfully meeting expectations for restitution, education, work and treatment. The Director of the Department of Corrections is charged with shaping legislation as well as formulating policy and procedures for effective and efficient implementation of goals and objectives that improve public safety. To apply these pre-release and reentry-oriented policies and procedures to the offender population, the Office of the Director directs and coordinates the actions of the department's four divisions: Human Services, Adult Institutions, Offender Rehabilitative Services, and Probation and Parole.</p> <p>The Office of the Director is also responsible for providing oversight to the contract which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are addressed to prepare the parent and child for reunification.</p>

Improving Workforce; Reducing Risk and Recidivism

**1b. What does this program do?**

It provides direction and guidance to the department's divisions and professional workforce to plan, implement and operate the activities necessary to fulfill the goals and objectives of the Strategic Plan. This includes:

- Consultation and coordination with the Executive, Legislative and Judicial branches of state government
- Continued development of responsive and reciprocal relationships with local governments and community organizations
- Communication and interaction with the department's constituencies including employees, victims, offenders, offender families and the public

Functions include: Deputy Director's Office; Budget Unit; Research, Planning and Process Improvement; Victim Services Unit; Reentry/Women's Offender Program; Public Information Office; and Constituent Services Office.

The Office of the Director oversees the Puppies For Parole Program which creates partnerships between participating correctional facilities and local community animal shelters at no cost to the department or the state.

The Office of the Director is responsible for providing oversight to the contract which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are also addressed to prepare the parent and child for reunification. These funds were originally in the Department of Social Services core budget and were transferred to the Department of Corrections in the FY10.

**1a. What strategic priority does this program address?**

Reducing Risk and Recidivism

**1b. What does this program do?**

This program addresses the needs of individuals under the supervision of the Missouri Department of Corrections (DOC) by providing the tools offenders need to be successful, law abiding citizens. The department accomplishes this through the Missouri Reentry Process (MRP), a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment services, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with 14 local MRP groups and various other state, federal and community agencies, organizations and faith-based groups.

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable and provides a means for them to repay their debt to the victim and the community. These initiatives also provide the offender an opportunity to leave the system with an improved attitude and sense of belonging as well as strengthened social bonds that serve as the foundation of our communities. Through the efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Impact of Crime on Victims Classes (ICVC) which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization.

The Kansas City Reentry Program provides reentry services in the Kansas City area (Jackson and Clay County). Probationers and parolees at moderate-to-high risk to re-offend are eligible for services, and referrals will be made by the supervising Probation and Parole Officer. The contractor provides services that include, but need not be limited to, housing, employment (job development, readiness, placement and retention) and mentoring. Through a network of providers the contractor also assists offenders and their families in obtaining treatment resources, family services, identification documents, financial assistance, education services, and health services. Through case management and ongoing interaction the contractor assists offenders in reducing criminogenic needs and eliminating barriers to compliance. This program started in FY11.

Per RSMO 595.0209, we are required to notify all victims of Dangerous Felonies and Voluntary Manslaughter regarding any post conviction actions on the related offenders. Senate Bills 491 and 921 have expanded these requirements by adding offenses to the list of Dangerous Felonies, as well as by adding more required registration offenses. Data on these offenses over the past three years, and more specifically the growth since these charges have been implemented, indicates a probable work load increase of 35% in order to comply with the new requirements.

Each offender serving time for a crime requiring mandatory registration will necessitate a letter being sent to each identified victim. Depending on the crime, there is the possibility of multiple victims. In order to obtain victim information, staff must contact the prosecuting attorney's office, thus increasing the time spent on each notification. Many of these crimes result in short sentences, which means an immediate setting of the hearing. Statute requires all notices of hearings be made at least 30 days prior to the hearing, which constricts the time allowed to process the notifications. The calculation of a possible workload increase of 35% is based on the number of new admissions of offenders whose offenses would require victim notification according to the new criminal code for the years 2014 - 2017. New admissions consist of new court commitments and probation revocations, including court stipulated 120 day and long term drug treatment offenders. Due to the specificity needed in the initial victim notification letters, none of these victim notifications are capable of being automated.

To ensure continued compliance with the Prison Rape Elimination Act (PREA) of 2003, the department must audit 1/3 of each type of facility every year. The Missouri Department of Corrections has been utilizing Violence Against Women Act and Byrne grant funding to assist the department in reaching compliance with the standards. The current grant funding will expire at the end of FY2017 and is not available in the future; therefore, the department is requesting funding to ensure the agency can continue to maintain compliance.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

In FY2018, the department must audit eight correctional institutions and three community confinement facilities. Due to the excessive cost of contracting for PREA audits for large facilities, prison audits will be conducted by a state within the auditing consortium. Missouri will reciprocate by providing audits to other states within the consortium. The auditing consortium will enable the state to maintain compliance while conserving state funding. The average cost for Missouri to conduct an audit in another state is \$4,500.

Because Community Supervision Centers (CSCs) house approximately 30 offenders, they cost less for the department to audit compared to prisons. For the last two years, the department has contracted for PREA audits for our CSCs because it is less expensive than providing reciprocal audits within the auditing consortium. The average cost for contracted PREA audits is approximately \$3,000 per facility.

The department is requesting the following funding:

8 prisons x \$4,500 = \$36,000  
 1 Transition Center x \$4,500 = \$4,500  
 2 CSCs x \$3,000 = \$6,000

#### 2. CORE DESCRIPTION

This core request provides funding for oversight and coordination of the Department of Corrections' Missouri Reentry Process (MRP), which is a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections (DOC), partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program works to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women who are incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with the state-level MRP Steering Team, 26 local MRP Steering Teams, and various other state, federal and community agencies, organizations and faith-based groups.

**1a. What strategic priority does this program address?**

Reducing Risk and Recidivism

**1b. What does this program do?**

This program addresses the needs of individuals under the supervision of the Missouri Department of Corrections (DOC) by providing the tools offenders need to be successful, law abiding citizens. The department accomplishes this through the Missouri Reentry Process (MRP), a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment services, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with 14 local MRP groups and various other state, federal and community agencies, organizations and faith-based groups.

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable and provides a means for them to repay their debt to the victim and the community. These initiatives also provide the offender an opportunity to leave the system with an improved attitude and sense of belonging as well as strengthened social bonds that serve as the foundation of our communities. Through the efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Impact of Crime on Victims Classes (ICVC) which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization.

## 2. CORE DESCRIPTION

The Department of Corrections (DOC) requires spending authority to seek, accept and expend funds from federal and other authorized sources. Funds are used for a variety of purposes including education, substance use and recovery services, assessment and testing, offender reentry programs and information systems enhancements. The department utilizes federal grants to assist in the following areas: Special Education; Carl Perkins grants; Title I and Title III Education grants; the Residential Substance Abuse Treatment Program (RSAT); and others grants that may become available.

This request also provides spending authority to accept cash donations for the Puppies for Parole (P4P) Program within the state's correctional centers. Offenders within the institutions train dogs from local animal shelters to improve the dog's adoptability within the local community. The P4P program creates a partnership between a participating correctional facility and a local community animal shelter. The program operates at no cost to the state of Missouri or the DOC, although the department seeks donations to help care for the animals. Veterinary services are provided by the partnering agency. Animals normally remain in the program approximately 8-10 weeks, but no longer than six months. Offenders are screened and must meet eligibility requirements to participate in the program. Upon completion of the program, the dogs are adopted, which is facilitated by the partnering agency.

**3. Are there federal matching requirements? If yes, please explain.**  
 Substance Use and Recovery Services - The Residential Substance Abuse Treatment grant requires a 25% GR match.

**4. Is this a federally mandated program? If yes, please explain.**  
 Academic Education - Federal Supreme Court decisions require the provisions of "access to courts" through the provisions of legal resources, reference material provided in the offender libraries and self-improvement materials. **1a. What strategic priority does this program address?**

Reducing Risk and Recidivism

**1b. What does this program do?**

This authority gives the department the ability to accept cash donations for Puppies for Parole (P4P) program within the state's correctional centers. Offenders within the institutions train dogs from local animal shelters to improve the dog's adoptability within the local community. The P4P program creates a partnership between participating correctional facilities and a local community animal shelter. The program operates at no cost to the state or the department, although the department will be seeking donations to help care for the animals. Veterinary services are provided by partnering agencies. Animals will normally remain in the program approximately 8-10 weeks, but under no circumstances longer than six months. Offenders are screened and must meet eligibility requirements to participate in the program. The Puppies for Parole Program (P4P) reduces recidivism by providing job and life skills to offenders. Upon completion of the program, the dogs are adopted which is facilitated by the partnering agency.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Improving Workforce; Reducing Risk and Recidivism

**1b. What does this program do?**

It provides direction and guidance to the department's divisions and professional workforce to plan, implement and operate the activities necessary to fulfill the goals and objectives of the Strategic Plan. This includes:

- Consultation and coordination with the Executive, Legislative and Judicial branches of state government
- Continued development of responsive and reciprocal relationships with local governments and community organizations
- Communication and interaction with the department's constituencies including employees, victims, offenders, offender families and the public

Functions include: Deputy Director's Office; Budget Unit; Research, Planning and Process Improvement; Victim Services Unit; Reentry/Women's Offender Program; Public Information Office; and Constituent Services Office.

The Office of the Director oversees the Puppies For Parole Program which creates partnerships between participating correctional facilities and local community animal shelters at no cost to the department or the state.

The Office of the Director is responsible for providing oversight to the contract which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are also addressed to prepare the parent and child for reunification. These funds were originally in the Department of Social Services core budget and were transferred to the Department of Corrections in the FY10.

**1a. What strategic priority does this program address?**

Reducing Risk and Recidivism

**1b. What does this program do?**

This program addresses the needs of individuals under the supervision of the Missouri Department of Corrections (DOC) by providing the tools offenders need to be successful, law abiding citizens. The department accomplishes this through the Missouri Reentry Process (MRP), a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment services, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with 14 local MRP groups and various other state, federal and community agencies, organizations and faith-based groups.

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable and provides a means for them to repay their debt to the victim and the community. These initiatives also provide the offender an opportunity to leave the system with an improved attitude and sense of belonging as well as strengthened social bonds that serve as the foundation of our communities. Through the efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Impact of Crime on Victims Classes (ICVC) which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization.

The Kansas City Reentry Program provides reentry services in the Kansas City area (Jackson and Clay County). Probationers and parolees at moderate-to-high risk to re-offend are eligible for services, and referrals will be made by the supervising Probation and Parole Officer. The contractor provides services that include, but need not be limited to, housing, employment (job development, readiness, placement and retention) and mentoring. Through a network of providers the contractor also assists offenders and their families in obtaining treatment resources, family services, identification documents, financial assistance, education services, and health services. Through case management and ongoing interaction the contractor assists offenders in reducing criminogenic needs and eliminating barriers to compliance. This program started in FY11.

**1b. What does this program do?**

The Missouri Department of Corrections Division of Adult Institutions (DAI) operates 21 adult correctional facilities which are responsible for ensuring offenders sentenced to the department's custody are confined in a safe, secure and humane manner and have access to programs and services to assist them in becoming productive citizens. The department must satisfy the constitutional obligation to incarcerate offenders in a manner which ensures that their fundamental human rights are not violated. These 21 institutions incarcerate close to 33,000 offenders at any given time. The Division of Adult Institutions employs over 8,000 staff in its correctional institutions. The staff work in many different functional areas performing duties related to custody and security, case management, offender programming, food preparation, institutional maintenance, offender recreation, fiscal management, personnel services, offender record keeping, storekeeping/warehouse services, and mailroom services.

### 1a. What strategic priority does this program address?

Reducing Risk and Recidivism

### 1b. What does this program do?

Substance use and recovery services are a critical step in reducing criminal behavior, relapse, and recidivism by breaking the cycle of addictions and initiating a structured plan for recovery. This program provides appropriate treatment for offenders with drug-related offenses and substance use histories who are mandated to participate in treatment. The department has established a continuum of care with a range of evidence-based services that include:

- diagnostic center screening
- clinical assessment and classification
- institutional substance use treatment services
- pre-release planning at ten correctional centers.

Three other institutions have substance use and recovery services for general population offenders including intake, assessment, and substance use and relapse education services.

Additionally, the Department of Corrections provides contract oversight and quality assurance monitoring for institutional programs, as well as program research and evaluation. The Special Needs Program at Northeast Correctional Center provides substance use disorder services for offenders who cannot be served or adequately served at other prison-based treatment programs due to a variety of disabilities. The program is funded by the Residential Substance Abuse Treatment for Prisoners (RSAT) grant from the U.S. Department of Justice. Finally, Substance Use and Recovery Services works in a close partnership with the Department of Mental Health Division of Behavioral Health to facilitate timely, continuing care when high-risk offenders are released from prison to probation or parole supervision.

### 2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

**1b. What does this program do?**  
The Transition Center of St. Louis (TCSTL) (formerly St. Louis Community Release Center) is a 350-bed community-based facility that assists male offenders with reintegration to the community from prison or provides stabilization while they remain assigned under community supervision. The transition center provides the department with critical transitional services for offenders supervised in the metropolitan St. Louis area. The Parole Board stipulates offenders for assignment to the center based on their need for more structured supervision/assistance during the release process. The TCSTL also provides a means to assess offenders under Parole Board supervision who are at risk for revocation. Finally, the facility may be used as a more intense supervision strategy for probationers at risk for revocation by the courts.

Reducing Risk and Recidivism

**1b. What does this program do?**

The department provides a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute the most annual prison admissions and revocations is one critical step to reducing this growth rate.

The department has six Community Supervision Centers to serve the other areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for at least 30 offenders in need of structured residential supervision. These centers are located in St. Joseph, Hannibal, Farmington, Kennett, Poplar Bluff and Fulton.

Community Reentry Contracts aided in reducing recidivism by increasing the availability of resources to offenders in the community. Community Reentry contracts were awarded to local non-for-profits and faith-based organizations to provide a variety of services that include, but need not be limited to, housing, transportation, case management, substance abuse and mental health services, employment (job development, readiness, placement and retention), child care, education and vocational classes, basic needs and mentoring. Grantees could receive up to \$50,000 per grant. The program was appropriated in FY12, but was partially restricted in FY17 and core reduced to \$0 in FY18.

Justice Reinvestment is a data-driven approach to improve public safety and reinvest savings in strategies that can decrease crime and reduce recidivism.

Joint MDOC and DMH data show that only 20% of the people assessed as needing treatment services in the community, receive them. Further, only half of those people who begin a course of community treatment sustain their involvement beyond 90 days and those who participate in fewer than 90 days do no better than people who needed but did not receive treatment, meaning only 10% of people who need community-based services received the type of services that improved their outcomes.

Investment in community-based recovery support services provides an alternative to costly incarceration and provides higher success. Currently, 86% of prison admissions are tied to either a) failures of people on community supervision or b) sentences to prison-based substance abuse or mental health treatment. Timely access to effective community treatment has the potential to dramatically reduce both types of prison admissions and is more cost effective.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Council of State Governments (CSG) has been studying the criminal justice system in Missouri as well as the Missouri Department of Corrections to develop a comprehensive justice reinvestment plan for the state. This new decision item consists of 3 tiers. Tier 1 is the most intensive of services and will consist of supportive housing, care coordination and case management. Tier 2 consists of targeted care coordination and case management and Tier 3 will focus on the high-risk population. Services across the three tiers are provided to a total of 886 individuals annually. Services provided to these individuals will reduce arrests by 20% along with a 15% reduction in return to incarceration for participants.

National research also shows that that community-based behavioral health services are less expensive and have larger impacts. In the long term, Missouri could (a) drastically reduce sentences to prison for treatment, (b) improve the long-term outcomes for people with behavioral health conditions while (c) reducing overall systems costs with a significant investment in community behavioral health services.

Assuming the \$5 million annual investment is maintained moving forward, and also considering other elements of the Justice Reinvestment package not reliant on this particular investment, such as better training for supervision officers and improved screening and assessment tools and supervision practices, the demand for prison beds will be reduced by 754 beds by the end of FY23.

Incremental funding will be needed for five years to implement the plan which includes community services such as mental health, substance abuse, case management and reentry for probationers and parolees. 7,000 individuals will be served by the fifth full year of implementation.

## 2. CORE DESCRIPTION

RSMo. 650.058 gives the Department of Corrections (DOC) the authority to make restitution payments to individuals convicted of a felony in a Missouri court who were later found to be "actually innocent" solely as a result of the DNA profiling analysis. Individuals are paid \$50 per day restitution for every day of post-conviction incarceration for the crime for which the individual was found to be "actually innocent." These payments are capped at \$36,500 per year, which constitutes restitution for two years of wrongful incarceration, and are subject to appropriation.

In FY07 the department was appropriated sufficient funds to begin making these restitution payments to individuals who had been exonerated by the DNA profiling system to date. Since that time, the department has paid restitution for up to five offenders per year. In FY19, there will be two individuals receiving restitution payments.

Improving Workforce; Reducing Risk and Recidivism; Safer Work Environment

## 1b. What does this program do?

The Missouri Department of Corrections Division of Adult Institutions (DAI) operates 21 adult correctional facilities which are responsible for ensuring offenders sentenced to the department's custody are confined in a safe, secure and humane manner and have access to programs and services to assist them in becoming productive citizens. The department must satisfy the constitutional obligation to incarcerate offenders in a manner which ensures that their fundamental human rights are not violated. These 21 institutions incarcerate close to 33,000 offenders at any given time. The Division of Adult Institutions employs over 8,000 staff in its correctional institutions. The staff work in many different functional areas performing duties related to custody and security, case management, offender programming, food preparation, institutional maintenance, offender recreation, fiscal management, personnel services, offender record keeping, storekeeping/warehouse services, and mailroom services.

MVE operates industries and programs to produce a variety of products and services for state agencies, city and county governments, political subdivisions, state employees, and not-for-profit organizations. The Missouri Vocational Enterprises program (MVE) helps to reduce recidivism by increasing the employability of offenders.

The goal of this program is to increase employment and training opportunities for offenders assigned to correctional centers to promote productive and law-abiding conduct after release to the community. MVE has 50 job titles registered with the U.S. Department of Labor in Apprenticeship Programs; 1,432 offenders have completed these programs and there are 424 active offenders working on their apprenticeship programs. Apprenticeship programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release.

Currently, 22 industries are operated in 12 correctional centers statewide. These industries employ more than 1,350 offenders each month. Products and services include:

- Chemical Products

**1b. What does this program do?**

The Transition Center of St. Louis (TCSTL) (formerly St. Louis Community Release Center) is a 350-bed community-based facility that assists male offenders with reintegration to the community from prison or provides stabilization while they remain assigned under community supervision. The transition center provides the department with critical transitional services for offenders supervised in the metropolitan St. Louis area. The Parole Board stipulates offenders for assignment to the center based on their need for more structured supervision/assistance during the release process. The TCSTL also provides a means to assess offenders under Parole Board supervision who are at risk for revocation. Finally, the facility may be used as a more intense supervision strategy for probationers at risk for revocation by the courts.

The department provides a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute the most annual prison admissions and revocations is one critical step to reducing this growth rate.

The department has six Community Supervision Centers to serve the other areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for at least 30 offenders in need of structured residential supervision. These centers are located in St. Joseph, Hannibal, Farmington, Kennett, Poplar Bluff and Fulton.

## 2. CORE DESCRIPTION

This is the core request for the ongoing purchase of food and food-related supplies for 21 correctional facilities, one (1) community transition center, six (6) community supervision centers and two (2) cook-chill production facilities operated by the Department of Corrections (DOC). Subsection 217.240.2 RSMo. requires that all offenders confined in a correctional facility be supplied with a sufficient quantity of wholesome food. The DOC provides three (3) nutritionally-balanced daily meals to the offender population.

The use of a centralized funding pool for food provides the department with several benefits:

- Allows the department to manage costs more efficiently
- Allows the department to accommodate for emergencies
- Allows for the management of temporary changes in institutional population
- Accommodates regional and temporary fluctuations in prices
- Allows for the operations of the regional cook-chill facilities
- Provides savings from quantity discounts on purchases

**NOTES:**

The Food appropriation has an unavoidable lapse every year due to the period at the end of every fiscal year when SAM II is inaccessible due to its closing out one fiscal year and being loaded for the next fiscal year. This means that funds cannot be encumbered nor orders placed during this period. Because of the perishable nature of many food products, the Department must place large orders prior to SAM II becoming inaccessible so products can be received during that time period. This product is paid for in the following year and this process generates lapse.

**FY18:**

Federal food authority was reduced to \$125,000 in FY18 and will be reduced to \$0 in FY19.

**FY17:**

Federal funds lapsed due to being ineligible to receive federal reimbursements.

**FY16:**

Federal lapse due to authority that could not be used due to lower federal reimbursements.

**FY15:**

Federal lapse due to authority that could not be used due to lower federal reimbursements.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The Department of Corrections Training Academy is required to provide firearms training for Probation and Parole Officers who elect to carry firearms per state statute 217.710. The Training Academy has firearms simulators in each of our three training regions to provide decision making (shoot/no-shoot) training for our Probation and Parole Officers. This training is very valuable to staff who carry firearms and allows them to view and respond to real-life scenarios that they may face.

Firearms simulators introduce our Probation and Parole Officers to life-like range, field and office environments that closely resemble targets and backdrops that an officer may encounter in the field of office. Some of the skills they learn during this training are "given a situational skill target, they demonstrate weapons safety and effective shooting fundamentals." Officers also are expected to apply and justify a use of force response according to Missouri DOC use of force policy.

The use of simulators allows the DOC to have the Officers that carry firearms safely practice with their firearms prior to going to range. All Probation and Parole Officers that carry firearms are required to complete training on these simulators on an annual basis. The DOC also uses these simulators to provide remedial training to any staff member throughout the DOC who is having difficulty qualifying with a weapon.

There are currently three (3) simulators (one in each training region) that are malfunctioning at an alarming rate and have caused DOC to cancel/reschedule many recent trainings. One was purchased in 2004, one in 2008 and another in 2011. Even the simulator that was purchased most recently has been having serious maintenance issues. We need to update to the latest technology that will allow us to provide the quality firearms and use of force decision making training that our Officers deserve.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT.** (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This request is for replacement of existing firearms simulators that were purchased more than 10 years ago. Repair costs for the simulators have been accumulating in recent years. Three simulators costing \$25,000 each need to be replaced at this time.

3 Firearms simulator X \$25,000 each = \$75,000
