## **The Missouri Department of Corrections Department Overview**

The mission of the Missouri Department of Corrections is to supervise and provide rehabilitative services to adult offenders in correctional institutions and to enhance public safety in Missouri communities. The Department has over 11,000 corrections professionals working in four divisions and the Office of the Director.

The Office of the Director coordinates the internal activities of all the divisions as well as with all external stakeholders such as the press, public and elected officials. The Office of the Director contains the Budget and Research Unit, Victim Services Unit, Reentry/Women's Offender Program, Office of Professional Standards, Office of the General Counsel, Public Information Office and Legislative/Constituent Services Unit. The newest addition, the Office of Professional Standards, reports directly to the department's director. It is charged with examining department operations as it relates to employee conduct and professionalism.

The Division of Human Services (DHS) functions as the administrative division for the Department and contains the following support services: Personnel Office, Fiscal Management Unit, Offender Financial Services, Staff Training Office, General Services Section, Strategic Planning Unit and Employee Health and Safety Section.

The Division of Adult Institutions (DAI) operates 21 adult correctional facilities which are responsible for ensuring offenders sentenced to the Department's custody are confined in a safe, secure and humane manner and have access to programs and services to assist them in becoming productive citizens. The Division also operates the Central Transfer Authority, which is responsible for approving offender transfers between institutions and scheduling treatment beds; the Central Transportation Unit, which is primarily responsible for the return of parole violators from across the state and country; the Offender Grievance Unit, which is responsible for processing offender grievance appeals; and the Security Intelligence Unit, which is responsible for the oversight of divisional security issues.

The Division of Offender Rehabilitative Services (DORS) provides programming and services to assist offenders in becoming productive citizens upon release from prison. Such programs include Reception and Diagnostic Center Assessment, Adult Education, Library Services, Substance Use and Recovery Services, Offender and Staff Drug Testing, Offender Health Care (Medical and Mental Health), Specialized Mental Health Units, Sexual Offender Assessment and Treatment, Mental Health Offender Assessment and Treatment, Work-based Education and the Missouri Vocational Enterprises.

The Division of Probation and Parole operates 55 field district offices, nine field satellite offices, 22 institutional parole offices, six Community Supervision Centers and one Transition Center in order to supervise offenders sentenced to a term of probation by the courts or released from incarceration on parole or conditional release by the Parole Board. It monitors offenders through direct supervision, which may include the use of Residential Facilities and Electronic Monitoring. The agency also uses supervision strategies including community-based substance use and mental health treatment services for offenders.

<b>2. CORE DESCRIPTION</b>				
<p>The Missouri Department of Corrections (DOC) is committed to the philosophy of improving offenders' transition from prison to the community through implementation of the Missouri Reentry Process (MRP). This involves collaborative efforts with other state agencies and community organizations to identify and manage the factors contributing to the health, safety and prosperity of Missouri communities. Improved public safety requires a comprehensive effort between the Department of Corrections, the state's criminal justice system (including the courts and state and local law enforcement), our communities and the General Assembly to effectively manage every offender sentenced to be supervised by the department. The Department of Corrections manages risk to the community by assigning offenders along its continuum of supervision strategies in the field and in our facilities. Offenders under community supervision are continuously assessed for their risk to re-offend. Offenders sentenced to confinement are secured in institutions where operations are safe, constitutional and humane. Incarcerated offenders are required to prepare for reentry by successfully meeting expectations for restitution, education, work and treatment. The Director of the Department of Corrections is charged with shaping legislation as well as formulating policy and procedures for effective and efficient implementation of goals and objectives that improve public safety. To apply these pre-release and reentry-oriented policies and procedures to the offender population, the Office of the Director directs and coordinates the actions of the department's four divisions: Human Services, Adult Institutions, Offender Rehabilitative Services, and Probation and Parole.</p>				
<p>The Office of the Director is also responsible for providing oversight to the contract which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are addressed to prepare the parent and child for reunification.</p>

Workforce development

**1b. What does this program do?**

The Office of the Director provides direction and guidance to the department's divisions and professional workforce to plan, implement and operate the activities necessary to fulfill the goals and objectives of the Strategic Plan. This includes:

- Consultation and coordination with the Executive, Legislative and Judicial branches of state government
- Continued development of responsive and reciprocal relationships with local governments and community organizations
- Communication and interaction with the department's constituencies including employees, victims, offenders, offender families and the public

Functions include: Deputy Director's Office, Budget and Research Unit, Victim Services Unit, Reentry/Women's Offender Program, Public Information Office, and Constituent Services Office.

The Office of the Director oversees the Puppies For Parole Program which creates partnerships between participating correctional facilities and local community animal shelters at no cost to the department or the state.

The Office of the Director is responsible for providing oversight to the contract which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are also addressed to prepare the parent and child for reunification. These funds were originally in the Department of Social Services core budget and were transferred to the Department of Corrections in the FY10.

**1a. What strategic priority does this program address?**

Recidivism and risk reduction

**1b. What does this program do?**

The Department of Corrections' Missouri Reentry Process (MRP) is a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment services, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with the state-level MRP Steering Team, the 26 local MRP Steering Teams, and various other state, federal and community agencies, organizations and faith-based groups.

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable and provides a means for them to repay their debt to the victim and the community. These initiatives also provide the offender an opportunity to leave the system with an improved attitude and sense of belonging as well as strengthened social bonds that serve as the foundation of our communities. Through the efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, refurbished bicycles, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Impact of Crime on Victims Classes (ICVC) which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization.

<p>Per RSMO 595.0209, we are required to notify all victims of Dangerous Felonies and Voluntary Manslaughter regarding any post conviction actions on the related offenders. Senate Bills 491 and 921 have expanded these requirements by adding offenses to the list of Dangerous Felonies, as well as by adding more required registration offenses. Data on these offenses over the past three years, and more specifically the growth since these charges have been implemented, indicates a probable work load increase of 100% in order to comply with the new requirements.</p>

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFF fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Each offender serving time for a crime requiring mandatory registration will necessitate a letter being sent to each identified victim. Depending on the crime, there is the possibility of multiple victims. In order to obtain victim information, staff must contact the prosecuting attorney's office, thus increasing the time spent on each notification. Many of these crimes result in short sentences, which means an immediate setting of the hearing. Statute requires all notices of hearings be made at least 30 days prior to the hearing, which constricts the time allowed to process the notifications. The calculation of a possible workload increase of 100% is based on the number of new admissions of offenders whose offenses would require victim notification according to the new criminal code for the years 2014 - 2017. New admissions consist of new court commitments and probation revocations, including court stipulated 120 day and long term drug treatment offenders. Due to the specificity needed in the initial victim notification letters, none of these victim notifications are capable of being automated.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAPP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

In FY2018, the department must audit eight correctional institutions and three community confinement facilities. Due to the excessive cost of contracting for PREA audits for large facilities, prison audits will be conducted by a state within the auditing consortium. Missouri will reciprocate by providing audits to other states within the consortium. The auditing consortium will enable the state to maintain compliance while conserving state funding. The average cost for Missouri to conduct an audit in another state is \$4,500.

Because Community Supervision Centers (CSCs) house approximately 30 offenders, they cost less for the department to audit compared to prisons. For the last two years, the department has contracted for PREA audits for our CSCs because it is less expensive than providing reciprocal audits within the auditing consortium. The average cost for contracted PREA audits is approximately \$3,000 per facility.

The department is requesting the following funding:

8 prisons x \$4,500 = \$36,000  
1 CRC x \$4,500 = \$4,500  
2 CSCs x \$3,000 = \$6,000

## 2. CORE DESCRIPTION

This core request provides funding for oversight and coordination of the Department of Corrections' Missouri Reentry Process (MRP) which is a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections (DOC), partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program works to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women who are incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with the state-level MRP Steering Team, 26 local MRP Steering Teams, and various other state, federal and community agencies, organizations and faith-based groups.

**1a. What strategic priority does this program address?**

Recidivism and risk reduction

**1b. What does this program do?**

The Department of Corrections' Missouri Reentry Process (MRP) is a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment services, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with the state-level MRP Steering Team, the 26 local MRP Steering Teams, and various other state, federal and community agencies, organizations and faith-based groups.

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable and provides a means for them to repay their debt to the victim and the community. These initiatives also provide the offender an opportunity to leave the system with an improved attitude and sense of belonging as well as strengthened social bonds that serve as the foundation of our communities. Through the efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, refurbished bicycles, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Impact of Crime on Victims Classes (ICVC) which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization.

### 2. CORE DESCRIPTION

The Department of Corrections (DOC) requires spending authority to seek, accept and expend funds from Federal and other authorized sources. Funds are used for a variety of purposes including education, substance use and recovery services, assessment and testing, offender reentry programs and information systems enhancements. The department utilizes federal grants to assist in the following areas: Special Education; Carl Perkins grants; Title I and Title III Education grants; the Residential Substance Abuse Treatment Program (RSAT); and others grants that may become available.

This request also provides spending authority to accept cash donations for the Puppies for Parole (P4P) Program within the state's correctional centers. Offenders within the institutions train dogs from local animal shelters to improve the dog's adoptability within the local community. The P4P program creates a partnership between a participating correctional facility and a local community animal shelter. The program operates at no cost to the state of Missouri or the DOC, although the department seeks donations to help care for the animals. Veterinary services are provided by the partnering agency. Animals normally remain in the program approximately 8-10 weeks, but no longer than six months. Offenders are screened and must meet eligibility requirements to participate in the program. Upon completion of the program, the dogs are adopted, which is facilitated by the partnering agency.

What does this program do?</b>            This authority also gives the Department the ability to accept cash donations for a Puppies for Parole (P4P) Program within the State's correctional centers. Offenders within the institutions train dogs from local animal shelters to improve the dog's adoptability within the local community. The P4P Program creates a partnership between participating correctional facilities and a local community animal shelter. The program operates at no cost to the State or the Department, although the Department will be seeking donations to help care for the animals. Veterinary services are provided by partnering agencies. Animals will normally remain in the program approximately 8-10 weeks, but under no circumstances longer than six months. Offenders are screened and must meet eligibility requirements to participate in the program. Upon completion of the program, the dogs are adopted which is facilitated by the partnering agency.</p>

**1a. What strategic priority does this program address?**

Workforce development

**1b. What does this program do?**

The Office of the Director provides direction and guidance to the department's divisions and professional workforce to plan, implement and operate the activities necessary to fulfill the goals and objectives of the Strategic Plan. This includes:

- Consultation and coordination with the Executive, Legislative and Judicial branches of state government
- Continued development of responsive and reciprocal relationships with local governments and community organizations
- Communication and interaction with the department's constituencies including employees, victims, offenders, offender families and the public

Functions include: Deputy Director's Office, Budget and Research Unit, Victim Services Unit, Reentry/Women's Offender Program, Public Information Office, and Constituent Services Office.

The Office of the Director oversees the Puppies For Parole Program which creates partnerships between participating correctional facilities and local community animal shelters at no cost to the department or the state.

The Office of the Director is responsible for providing oversight to the contract which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are also addressed to prepare the parent and child for reunification. These funds were originally in the Department of Social Services core budget and were transferred to the Department of Corrections in the FY10.

**1a. What strategic priority does this program address?**

Recidivism and risk reduction

**1b. What does this program do?**

The Department of Corrections' Missouri Reentry Process (MRP) is a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health treatment services, housing, job training and placement services. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. The purpose of this assistance is to empower professionals and community members to better assist the offender population with their reintegration to the community. The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions to women incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with the state-level MRP Steering Team, the 26 local MRP Steering Teams, and various other state, federal and community agencies, organizations and faith-based groups.

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable and provides a means for them to repay their debt to the victim and the community. These initiatives also provide the offender an opportunity to leave the system with an improved attitude and sense of belonging as well as strengthened social bonds that serve as the foundation of our communities. Through the efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, refurbished bicycles, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Impact of Crime on Victims Classes (ICVC) which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization.

<b>1b. What does this program do?</b>												
The Missouri Department of Corrections operates 21 adult correctional institutions in communities throughout the state. These 21 institutions incarcerate close to 33,000 offenders at any given time. The Division of Adult Institutions employs over 8,000 staff in its correctional institutions. The staff work in many different functional areas performing duties related to custody and security, case management, offender programming, food preparation, institutional maintenance, offender recreation, fiscal management, personnel services, offender record keeping, storekeeping/warehouse services, and mailroom services. The staff performing these functions and others are all working to ensure that offenders sentenced to the department's custody by the courts are confined in a secure, safe and humane manner and that they are provided programs and services to assist them in becoming productive citizens.

**1a. What strategic priority does this program address?**

Recidivism and risk reduction

**1b. What does this program do?**

This program provides appropriate treatment for offenders with drug-related offenses and substance use histories who are mandated to participate in treatment. The department has established a continuum of care with a range of evidence-based services that include:

- diagnostic center screening
- clinical assessment and classification
- institutional substance use treatment services
- pre-release planning at ten correctional centers.

Three other institutions have substance use and recovery services for general population offenders including intake, assessment, and substance use and relapse education services.

Additionally, the Department of Corrections provides contract oversight and quality assurance monitoring for institutional programs, as well as program research and evaluation. The Special Needs Program at Northeast Correctional Center is funded by the Residential Substance Abuse Treatment for Prisoners (RSAT) grant from the U.S. Department of Justice. Finally, Substance Use and Recovery Services works in a close partnership with the Department of Mental Health Division of Alcohol and Drug Abuse to facilitate timely, continuing care when high-risk offenders are released from prison to probation or parole supervision.

**2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapters 217.785, 217.362, 217.364, 559.115, 559.036 and 559.630-635 RSMo.

The Transition Center of St. Louis (TCSTL) (formerly St. Louis Community Release Center) is a 350-bed community-based facility that assists male offenders with reintegration to the community from prison or provides stabilization while they remain assigned under community supervision. The transition center provides the department with critical transitional services for offenders supervised in the metropolitan St. Louis area. The Parole Board stipulates offenders for assignment to the center based on their need for more structured supervision/assistance during the release process. The TCSTL also provides a means to assess offenders under Parole Board supervision who are at risk for revocation. Finally, the facility may be used as a more intense supervision strategy for probationers at risk for revocation by the courts.

<b>1a. What strategic priority does this program address?</b>						
Recidivism and risk reduction						
<b>1b. What does this program do?</b>						
The Department of Corrections proposes to reduce the prison growth rate by working to insure that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The department believes that providing a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute the most annual prison admissions and revocations is one critical step to reducing this growth rate. The Community Supervision Centers are a method to provide such short-term intervention in the community.						
The department has six Community Supervision Centers to serve the other areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for at least 30 offenders in need of structured residential supervision. These centers are located in St. Joseph, Hannibal, Farmington, Kennett, Poplar Bluff and Fulton.

### 2. CORE DESCRIPTION

RSMo. 650.058 gives the Department of Corrections (DOC) the authority to make restitution payments to individuals convicted of a felony in a Missouri court who were later found to be "actually innocent" solely as a result of the DNA profiling analysis. Individuals are paid \$50 per day restitution for every day of post-conviction incarceration for the crime for which the individual was found to be "actually innocent." These payments are capped at \$36,500 per year, which constitutes restitution for two years of wrongful incarceration, and are subject to appropriation.

In FY07 the department was appropriated sufficient funds to begin making these restitution payments to individuals who had been exonerated by the DNA profiling system to date. Since that time, the department has paid restitution for up to five offenders per year. In FY19, there will be two individuals receiving restitution payments.

### 2. CORE DESCRIPTION

Ongoing operations require the procurement of sufficient telecommunications services and equipment for the Department of Corrections (DOC) administrative offices, 21 correctional centers, one transition center, 55 Probation and Parole district offices, nine satellite offices, numerous sub-offices and six community supervision centers. The DOC's Telecommunications Manager coordinates with the Office of Administration Division of Information Technology, equipment vendors, and local and long-distance service providers to ensure that an adequate number of the correct type of phone/data lines and equipment are provided to department staff. The Telecommunications Manager is responsible for filing and maintaining the department's frequency licenses with the Federal Communication Commission. The utilization of a centralized funding source allows the department to manage costs more efficiently, accommodate regional and temporary fluctuations in prices and provide standardization of phone and data lines throughout the Department of Corrections.

**1b. What does this program do?**

The Missouri Department of Corrections operates 21 adult correctional institutions in communities throughout the state. These 21 institutions incarcerate close to 33,000 offenders at any given time. The Division of Adult Institutions employs over 8,000 staff in its correctional institutions. The staff work in many different functional areas performing duties related to custody and security, case management, offender programming, food preparation, institutional maintenance, offender recreation, fiscal management, personnel services, offender record keeping, storekeeping/warehouse services, and mailroom services. The staff performing these functions and others are all working to ensure that offenders sentenced to the department's custody by the courts are confined in a secure, safe and humane manner and that they are provided programs and services to assist them in becoming productive citizens.

The Transition Center of St. Louis (TCSTL) (formerly St. Louis Community Release Center) is a 350-bed community-based facility that assists male offenders with reintegration to the community from prison or provides stabilization while they remain assigned under community supervision. The transition center provides the department with critical transitional services for offenders supervised in the metropolitan St. Louis area. The Parole Board stipulates offenders for assignment to the center based on their need for more structured supervision/assistance during the release process. The TCSTL also provides a means to assess offenders under Parole Board supervision who are at risk for revocation. Finally, the facility may be used as a more intense supervision strategy for probationers at risk for revocation by the courts.

<b>1a. What strategic priority does this program address?</b>								
Recidivism and risk reduction								
<b>1b. What does this program do?</b>								
The Department of Corrections proposes to reduce the prison growth rate by working to insure that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The department believes that providing a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute the most annual prison admissions and revocations is one critical step to reducing this growth rate. The Community Supervision Centers are a method to provide such short-term intervention in the community.								
The department has six Community Supervision Centers to serve the other areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing probation and parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for at least 30 offenders in need of structured residential supervision. These centers are located in St. Joseph, Hannibal, Farmington, Kennett, Poplar Bluff and Fulton.

<b>2. CORE DESCRIPTION</b>			
This is the core request for the ongoing purchase of food and food-related supplies for 21 correctional facilities, one (1) community release center, three (3) community supervision centers and two (2) cook-chill production facilities operated by the Department of Corrections (DOC). Subsection 217.240.2 RSMo. requires that all offenders confined in a correctional facility be supplied with a sufficient quantity of wholesome food. The DOC provides three (3) nutritionally-balanced daily meals to the offender population.			
The use of a centralized funding pool for food provides the department with several benefits:			
<ul style="list-style-type: none"> <li>• Allows the department to manage costs more efficiently</li> <li>• Allows the department to accommodate for emergencies</li> <li>• Allows for the management of temporary changes in institutional population</li> <li>• Accommodates regional and temporary fluctuations in prices</li> <li>• Allows for the operations of the regional cook-chill facilities</li> <li>• Provides savings from quantity discounts on purchases</li> </ul>

#### **NOTES:**

The Food appropriation has an unavoidable lapse every year due to the period at the end of every fiscal year when SAM II is inaccessible due to its closing out one fiscal year and being loaded for the next fiscal year. This means that funds cannot be encumbered nor orders placed during this period. Because of the perishable nature of many food products, the Department must place large orders prior to SAM II becoming inaccessible so products can be received during that time period. This product is paid for in the following year and this process generates lapse.

#### **FY18:**

Federal food authority was reduced to \$125,000 in FY18 and will be reduced to \$0 in FY19.

#### **FY17:**

Federal funds lapsed due to being ineligible to receive federal reimbursements.

#### **FY16:**

Federal lapse due to authority that could not be used due to lower federal reimbursements.

#### **FY15:**

Federal lapse due to authority that could not be used due to lower federal reimbursements.
