**2. CORE DESCRIPTION**

The Division of Alcohol and Drug Abuse (ADA) and the Division of Comprehensive Psychiatric Services (CPS) administratively merged in FY 2013 creating the Division of Behavioral Health (DBH). With regard to ADA services, DBH is responsible for ensuring that prevention, treatment, and recovery services are accessible to persons with substance use disorders, those at risk of substance misuse, and compulsive gamblers. In order to carry out its mission, DBH provides services to individuals through 203 community provider contracts, and treats about 42,000 individuals with substance use disorders each year. In addition, approximately 539,000 individuals are impacted through DBH's prevention programming, and 15,200 through the Substance Awareness Traffic Offender Program (SATOP). DBH also provides prevention, treatment and recovery services to address the opioid epidemic. This core provides funding for personal services and expense and equipment for administrative staff who are essential in overseeing all statewide programs by establishing policies and procedures; monitoring, evaluating and providing technical assistance to a network of community providers; providing data analytics; and applying appropriate fiscal procedures to ensure financial accountability.

## PROGRAM DESCRIPTION

Department: Mental Health

HB Section(s): 10.100

Program Name: ADA Administration

Program is found in the following core budget(s): ADA Administration

**1a. What strategic priority does this program address?**

We will support recovery, independence, and self-sufficiency of Missourians with mental illness, substance use disorders, and developmental disabilities.

**1b. What does this program do?**

The Division of Behavioral Health (DBH) has the responsibility of ensuring that prevention, treatment, and recovery services are accessible to persons with substance use disorders, those at risk of substance misuse, and compulsive gamblers. DBH's administrative responsibilities include, but are not limited to: funding treatment services, technical assistance and training, standard setting to ensure quality services, research, public information dissemination, review and oversight of the Division's budget, and program planning and policy development for prevention, treatment, and recovery services.

Division administrative responsibilities include:

- Development and implementation of administrative standards and operating policies for all program areas. Standards and policies include guidelines for quality of care and quality improvement processes as well as client safety and clinical appropriateness.
- Development of curricula and implementation of training modules for substance use disorder practitioners to ensure current evidence-based practices are implemented in Division programming.
- Monitoring, evaluating and providing technical assistance to its provider network to ensure services maintain the highest levels of quality programming.
- Maintaining research and literature for dissemination to its provider network and the general public on treatment and prevention practices.
- Cooperation with other state and federal agencies to ensure coordination of evidence-based prevention programming.
- Applying standardized management, fiscal, and personnel procedures and practices. Administrative oversight is provided for the budget, provider allocations, fiscal notes, and research and evaluation support. DBH applies appropriate financial procedures and provides the necessary data to support federal requirements necessary for maintaining funding.

**2a. Provide an activity measure(s) for the program.**

	Consumers Served		
	FY 2017	FY 2018	FY 2019
	Actual	Actual	Actual
Treatment	39,896	40,215	40,420

<b>Unduplicated Total</b>	<b>64,732</b>	<b>63,755</b>	<b>63,258</b>

**Notes:**

- 1) Consumers who receive more than one category of service are counted once for each category.
- 2) SATOP includes individuals receiving only an assessment. Decrease in consumers is a result of decreased arrests for impaired driving offenses.

**2b. Provide a measure(s) of the program's quality.**

**2c. Provide a measure(s) of the program's impact.**

2d. Provide a measure(s) of the program's efficiency.

**Note:** This graph represents the proportion of consumers who have services paid for by MO HealthNet Division (MHD) in Missouri.  
*Significance:* DBH continues to maximize state general revenue by ensuring each consumer's Medicaid eligibility is established in a timely manner and that Medicaid reimbursable services/programs are accessible.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

**Note:** Additional authority was appropriated in FY 2018 for the State Targeted Response to the Opioid Crisis Grant. Expenditures were lower in FY 2018 due to the late start-up of the grant. As a continuation to the State Targeted Response Grant, the Davison was awarded the State Opioid Response Grant. Additional authority was appropriated in FY 2020 as well as supplemental authority in FY 2019.

<b>4. What are the sources of the "Other " funds?</b> For FY 2020 Other includes Health Initiatives Fund (HIF) (0275) \$47,827.	
<b>5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)</b> Sections 631.010 and 313.842, RSMo.	
<b>6. Are there federal matching requirements? If yes, please explain.</b> Yes. **PROGRAM DESCRIPTION**

**Department:** Mental Health  
**Program Name:** Community-based Prevention  
**Program is found in the following core budget(s):** Prevention & Education Services

**HB Section(s):** 10.105

**1a. What strategic priority does this program address?**

Enhance prevention initiatives.

**1b. What does this program do?**

**Community-based prevention programs** provide preventive interventions with children, families, and college students; training, technical assistance, and support for coalitions; prevention evaluation, research, and data analysis; public education and social marketing, and information and referral services. Direct prevention services utilize evidence-based programs and strategies and conduct pre- and post-testing and/or evaluations. **Prevention Resource Centers** provide training, technical assistance and support to community coalitions across the state. There are over 160 Missouri registered coalitions. These coalitions have been highly successful in substance use policy change in their communities. **High Risk Youth** programs provide evidence-based prevention services to youth and families with high risk factors for substance use. These programs use curricula that have been rigorously evaluated and determined to be effective at preventing alcohol and other drug use. **College Campus-based Programs** are provided on 14 state-supported and 7 private institutions of higher education. These programs work toward reducing rates of harmful and dangerous drinking on campuses. **Prevention Evaluation** supports all prevention services through the provision of data for assessing prevention needs and program effectiveness. The Missouri Student Survey is included among the evaluation activities. The Behavioral Health Data Tool website provides users with the ability to access and analyze community-level data to support strategic planning and implementation of targeted interventions.

**2a. Provide an activity measure(s) for the program.**

*Note: These numbers include individuals served in direct face-to-face programs and do not include individuals exposed to prevention education via media spots. 'Other' includes persons whose age was not collected at the time of the prevention program.*

Data Source: U.S. Department of Health and Human Services, National Survey on Drug Use and Health.

Significance: Current alcohol use by Missouri adolescents has fallen from 19.96% to 10.80%.

Target: Use among Missouri adolescents to be at or below that for the US (2016).

Note: Prior data only available from 2018 due to changes in the questionnaire.

Data Source: U.S. Department of Health and Human Services, National Survey on Drug Use and Health (NSUDH).

(This is called the "Maintenance of Effort," or MOE, requirement.)

**7. Is this a federally mandated program? If yes, please explain.**

No. However, the Substance Abuse Prevention and Treatment Block Grant requires that 20% be expended for prevention activities.

**Program Name:** School-based Prevention  
**Program is found in the following core budget(s):** Prevention & Education Services

**1a. What strategic priority does this program address?**

Enhance prevention initiatives.

**1b. What does this program do?**

**School-based Prevention Intervention and Resource Initiative (SPIRIT)** delays the onset of substance use and decreases the use of substances, improves overall school performance, and reduces incidents of violence. To achieve these goals, prevention agencies are paired with school districts to provide technical assistance in implementing evidence-based substance use prevention programming. SPIRIT is operated by four prevention agencies serving nine school districts across the state, including Carthage R-IX, Knox Co. R-1, New Madrid Co. R-1, Ritenour, East Prairie, Greenwood, S. Shelby, Macon, and Scotland Co. R-I.

SPIRIT was selected by the Substance Abuse and Mental Health Services Administration (SAMHSA) to receive the national 2010 Service and Science award for exemplary implementation of evidence-based interventions. The evaluation results demonstrate that the program has had a positive impact on attitudes and behaviors of students, decision making skills, bullying, use of substances, age of first use, and overall school performance. School administrators cite SPIRIT as having positively impacted their students and schools. Recent research has concluded that every dollar invested in school-based substance use prevention programs potentially saves \$18 in substance use disorder costs (2013 National Drug Control Strategy).

The Division of Behavioral Health (DBH) is requesting authority for the Substance Abuse and Mental Health Services Administration (SAMHSA) First Responders-Comprehensive Addiction and Recovery Act (CARA) grant. This project, Connecting the DOTS (Drug Overdose Trust and Safety), will reduce the number of fatal opioid overdoses in Missouri and facilitate treatment and recovery service referrals for overdose survivors. DOTS will provide innovative and collaborative public-health and occupational safety-oriented training to first responders and equip them with naloxone. The Department of Mental Health (DMH) will lead this program in partnership with the University of Missouri - St. Louis, Missouri Institute of Mental Health (UMSL-MIMH), Department of Health and Senior Services (DHSS), Safety and Health Integration in the Enforcement of Laws on Drugs (SHIELD) collaborators at Northeastern University, the Missouri Hospital Association and Behavioral Health Network of greater St. Louis, and local public health departments and emergency response agencies in Missouri's highest risk counties.

**DEPARTMENT REQUEST:**

The five primary goals of the DOTS program are to: 1) expand access to occupational safety and public-health oriented training through locally-led adaptation of the SHIELD curriculum to include non-police emergency responders and online modules; 2) implement SHIELD training to improve police practices, responders' ability to respond safely and effectively to overdose events, and attitudes that promote both occupational safety and public health-minded practices; 3) reduce the number of fatal opioid overdose events in Missouri through naloxone distribution; 4) improve first responders' ability to make appropriate post-overdose service referrals by increasing the number and quality of collaborations between first responders and community treatment, recovery, and social service providers; 5) increase the number of overdose survivors who are connected to treatment and/or recovery services following an overdose event.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

- 6a. Provide an activity measure(s) for the program.**  
The activities to be measure will be the number of trainings and amount of naloxone distributed.
- 6b. Provide a measure(s) of the program's quality.**  
The grant's quality will be measured by the number of post overdose service referrals.
- 6c. Provide a measure(s) of the program's impact.**  
The grant's impact will be measured by the number of individuals trained and lives saved by naloxone.
- 6d. Provide a measure(s) of the program's efficiency.**  
The grant's efficiency will be measured by the number of survivors connected to treatment and/or recovery services.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

The SHIELD training was developed specifically for law enforcement. The goal for this grant includes adapting the training both to the local context and so that it is applicable to a broader audience of first responders (fire and EMS). The training content will be adapted through planning workshops in each county and inviting all relevant partners to the table to provide input (e.g., health departments, police and other first responders, harm reductionists, etc.) and train-the-trainer workshops. DOTS will deliver occupational safety and public-health oriented overdose response training for first responders, focusing on hotspot areas in high-need counties with unmet need; and implement secondary prevention strategies, including the distribution of naloxone.

<b>Department:</b> <u>Mental Health</u>	<b>Budget Unit:</b> <u>66325C</u>
<b>Division:</b> <u>Alcohol and Drug Abuse</u>	
<b>Core:</b> <u>ADA Treatment Services</u>	<b>HB Section:</b> <u>10.110</u>

**2. CORE DESCRIPTION**

The Division of Behavioral Health (DBH) contracts with community-based providers for substance use disorder treatment services. DBH-funded services for individuals with substance use disorders are provided to priority populations including: MO HealthNet-covered individuals, pregnant women and women with dependent children, offenders under the supervision of the Department of Corrections and drug courts, people who inject drugs, and people under civil involuntary commitment for danger to self or others.

Treatment sites are located across the state offering multiple levels of care in order to provide Missourians access to treatment. DBH has developed treatment programs that focus on providing a complete continuum of recovery services, including extended outpatient services in the community and, where possible, close to home. Multiple levels of care and comprehensive service packages are offered to provide ready access to treatment and to assist in achieving and maintaining recovery from alcohol and drugs. Services are individualized and have three basic levels of intensity. Treatment routinely includes assessment, individual and group counseling, family counseling, education, peer support, participation in self-help groups, and other structured, therapeutic interventions. In addition, families can also participate in individual and group counseling. Detoxification and residential support services are offered for those who need a safe drug-free environment early in the treatment process.

The goals of treatment are to assist individuals in obtaining and sustaining recovery from substance use disorders. Such recovery goals include reduction of substance misuse; reduction in criminal behavior associated with substance misuse; obtaining and maintaining meaningful employment; securing stable housing; and increasing social connectedness.

Comprehensive Substance Treatment and Rehabilitation (CSTAR) is the only intensive substance use disorder treatment in Missouri reimbursed under MO HealthNet. The following programs for specialized populations are available through CSTAR: Women and Children, Adolescents, and individuals with Opioid dependence. There are also CSTAR programs for the general population. Additionally, Medically Monitored Inpatient Detoxification is available in some CSTAR programs, providing moderate medical support for those withdrawing from drugs and/or alcohol. DBH contracts with 25 primary recovery sites, 50 recovery support contracts, and 205 CSTAR sites. Treatment services at all programs are subject to clinical utilization review to promote service delivery that is necessary, appropriate, and provided in accordance with admission criteria and service definitions.

**NOTES:**

**(1)** Increase in appropriation is primarily due to new funding for medications and utilization increases.

**(2)** In response to the 21st Century Cures Act, the Division applied for and received the State Targeted Response to the Opioid Crisis Grant. Additional authority and expenditures are related to the Opioid Crisis grant. Federal authority also increased due to the CCBHO demonstration project to move from fee-for-service to a Prospective Payment System. Lapse in GR is due to the Governor's spending restriction being released on June 29, 2018.

**(3)** Additional funding was appropriated in FY 2019 for Recovery and Peer Recovery services.

**(4)** As a continuation to the State Targeted Response Grant, the Division was awarded the State Opioid Response Grant in FY 2020. Additional authority was appropriated in FY 2020 as well as supplemental authority in FY 2019.

**(5)** Reduction of excess federal authority due to the end of the Access to Recovery grant and the MAT PDOA grant. Additional funding was appropriated in FY 2020 for medications, utilization increase, provider rate increase, recovery support services and the continuation of the CCBHO demonstration project.

## PROGRAM DESCRIPTION

Department: **Mental Health**

HB Section(s): **HB 10.110**

Program Name: **Substance Use Disorder Community Services**

Program is found in the following core budget(s): **Treatment Services**

**1a. What strategic priority does this program address?**

Advance supports for substance use recovery and decrease opioid-related deaths.

**1b. What does this program do?**

Comprehensive Substance Treatment and Rehabilitation (CSTAR) programs are designed to provide an array of comprehensive, but individualized, treatment services with the aim of reducing the negative impacts of substance use disorders to individuals, family members and society. Services available in CSTAR increase individuals' abilities to successfully manage chronic substance use disorders. CSTAR features three levels of outpatient care that vary in duration and intensity, with specific services received based on individuals' needs. Persons may enter treatment at any level in accordance with eligibility criteria. Only substance use disorder treatment programs designated by the department as CSTAR are approved for reimbursement under MO HealthNet. Top priority for admission is given to pregnant women who inject drugs because of the risk to unborn babies and public safety. CSTAR programs serve a large number of Missouri offenders with substance use disorders that are re-entering their communities following incarceration or are under probation supervision. Effective substance use disorder treatment for these individuals reduces criminal recidivism and promotes a productive and safe return to their communities.

**~Specialized CSTAR programs for Women and Children** offer priority treatment to women who are pregnant, postpartum, or have children in their physical care and custody. Depending on assessed needs, additional services may include daycare, residential support, and community support for young children that accompany their mothers into treatment. Treatment focuses on issues particularly impactful to women and mothers, such as developing job skills and establishing healthy, safe relationships. These programs have demonstrated clear success in supporting drug-free births to women enrolled, as well as assisting in the reunification of families that have had children removed from custody. Two of these programs ("Alt Care"), one in St. Louis and one in Kansas City, provide services solely to women under the supervision of the MO Department of Corrections.

**~Specialized CSTAR programs for Adolescents** offer the full menu of treatment services, as well as academic education, to youth between the ages of 12 and 17 years.

**~CSTAR General Population programs** are intensive outpatient treatment programs for both men and women with substance use disorders. The full menu of treatment services is available.

**~CSTAR Opioid treatment programs** are federally accredited to provide services on an outpatient basis to individuals who demonstrate physiological dependence to opiates. In addition to the full menu of treatment services, clients also receive medical evaluations, as treatment involves the use of methadone for medically supervised withdrawal. Individuals are able to reduce or eliminate illegal drug use and maintain employment while receiving opioid treatment. In addition to pregnant women and people who inject drugs, priority admission is also afforded to persons who are HIV-positive.

**~CSTAR Medically Monitored Inpatient Detoxification programs** offer a moderate level of medical care to individuals whose intoxication or withdrawal symptoms are so severe that 24-hour inpatient care and monitoring is required; but the full resources of a hospital are not necessary.

## PROGRAM DESCRIPTION

**Department: Mental Health**

**HB Section(s): HB 10.110**

**Program Name: Substance Use Disorder Community Services**

**Program is found in the following core budget(s): Treatment Services**

**1b. What does this program do? (Continued)**

Primary Recovery Plus (PR+) substance use disorder treatment programs are designed like CSTAR programs to provide an array of comprehensive individualized treatment services with the aim of reducing the negative impacts of substance use disorders (SUD) to individuals, families, and society. These sites are unable to bill services to MO HealthNet because the number of residential beds creates an Institution of Mental Disease (IMD), thus triggering reimbursement limitations. Services available in PR+ increase individuals' abilities to successfully manage chronic SUDs. These outpatient programs feature three treatment levels of care that vary in duration and intensity. Individuals may enter treatment at any level in accordance with eligibility criteria and individual need.

Recovery Support services supplement substance use disorder treatment programs and expand access to an array of supportive services that include employment assistance and emergency housing. Recovery supports are delivered by nontraditional and faith-based community organizations. The highest priority populations for all Division addiction programs are pregnant women and people who inject drugs because of the risks to unborn babies and public safety. All Division addiction programs serve a large number of Missouri offenders with substance use disorders who are re-entering their communities following incarceration or who are under probation supervision. Effective substance use disorder treatment for these individuals reduces criminal recidivism and promotes a productive and safe return to their communities.

The nation is facing an opioid epidemic and Missouri has been a state hard hit by overdoses, deaths, and increasing admissions to treatment for opioid use disorder (OUD). As part of the federal response, a two-year State Targeted Response (STR) grant was awarded in 2017 and a two-year State Opioid Response (SOR) grant was awarded in 2018. Missouri utilizes these funds to increase public awareness; promote responsible opioid prescribing; enhance physician knowledge of OUDs and increase the number of doctors able to treat them; enhance treatment programs' interventions and expand fast access to needed medications; expand the treatment for OUDs in publicly funded primary care centers; train emergency responders and other citizens in the use of naloxone for overdose reversal; promote the use of peer supports in recovery; make emergency housing available; and support four recovery community centers to provide assistance to those seeking recovery.

2c. Provide a measure(s) of the program's impact.

**Drug-Free Births in CSTAR Programs**

**Notes:**

- 1) From FY 2016 through FY 2019 there have been 392 babies born drug-free.
- 2) In 2016, Missouri babies with Neonatal Abstinence Syndrome cost Insurance payers including Medicaid a total of \$102.7 million for hospitalizations after birth. The average cost per baby in 2016 was \$43,804 for an average of 10 hospital days. (DHSS)

**Children Returned to Parental Custody  
In CSTAR Programs**

**Note:** Since FY 2016, 1,574 children have been returned to their parent's custody from foster care. In FY 2018, the annual cost per foster child was \$9,327.

**2c. Provide a measure(s) of the program's impact. (Continued)**

**CSTAR Consumers with No Substance Use in the Past Month**

**Note:** Based on consumers discharged within the fiscal year.  
*Significance: Treatment improves substance use patterns for the majority of consumers.*

**Percent Transitioning from Detox to Treatment**

**Note:** National data from the Treatment Episode Dataset - Discharges, 2014 (SAMHSA, 2017).  
 Missouri data based on consumers who are discharged from detox in FY 2019 and are admitted to treatment within 5 days of discharge.  
*Significance: Studies confirm that providing access to treatment services immediately following detoxification for substance use disorder is critical to positive outcomes. This graph demonstrates that Missouri is doing significantly better than the national average in linking individuals from detox into formal treatment.*

The use of medications for the treatment of substance use disorders (SUD) is growing rapidly. Currently, the FDA has approved addiction medications for alcohol use disorders and opioid use disorders. Many individuals with substance use disorders also experience other mental health disorders, including depression and anxiety. The use of these medications can substantially increase the likelihood someone will recover from their illness and sometimes save lives. With symptoms better managed through medication, individuals are much less likely to use illicit opioids and put themselves at risk for overdose. In addition, medications are used in the shorter term in the substance use disorder field to assist with detoxification and withdrawal symptoms. Individuals who have success in detoxification are more likely to continue in formal treatment for their SUD.

This decision item requests general revenue replacement of funding for pharmaceuticals to treat substance use disorders. As this is a rapidly evolving field, many of the medications are new and do not have generic alternatives. Thus, the expense of the medications can be prohibitive.

If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

**DEPARTMENT REQUEST:**

This item replaces federal funds to support the use of FDA-approved addiction medications. There are newer formulations being approved that improve adherence and prevent diversion. Additionally, medications to assist with detoxification and withdrawal symptoms can be appropriately provided on an outpatient basis, thereby preventing more costly stays in residential settings. Funding will allow the Department of Mental Health (DMH) to continue to serve approximately 3,600 individuals.

	FY 2017	FY 2018	FY 2019
# Served with OUD/AUD	25,238	25,505	25,706
# Served with MAT	6,133	7,575	9,380
# Served without MAT	19,105	17,930	16,326

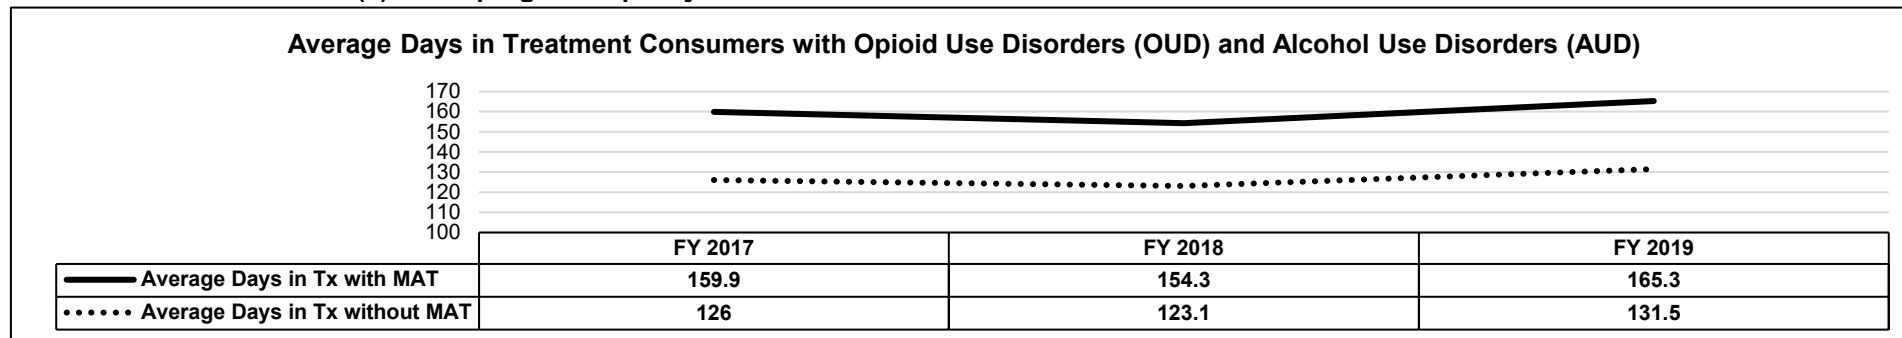

*Significance:* While the increase in the number of consumers receiving treatment for OUD or AUD has only slightly increased, the number of consumers receiving MAT has increased 53% since FY 2017. The use of addiction medications is considered an evidence-based practice.

**6b. Provide a measure(s) of the program's quality.**

*Significance:* The length of service for individuals receiving medication assisted treatment for OUD or AUD is more than 30 days longer on average since FY 2017. Research indicates that most addicted individuals need at least 3 months in treatment to significantly reduce or stop their drug use and that the best outcomes occur with longer durations of treatment.

**6c. Provide a measure(s) of the program's impact.**

*Significance:* During the last three years, the % of those with an OUD or AUD receiving MAT services has increased by about 12% while the % of these same individuals who receive detox or residential service has decreased about 11%. Individuals served with MAT experience less disruption to employment and familial relationships while receiving treatment.

**Significance:** These data show that for the last three years of service follow-up, a person who received MAT services in a given year visited the emergency department (ED) during the next fiscal year at a much lower rate than those with an OUD or AUD who did not receive MAT services.  
**Data Source:** All Medicaid consumers who had an OUD or AUD were included. The data above represents the average number of ED visits a person with OUD or AUD has in the fiscal year following the service year. **Significance:** These data show that for the last three years of service follow-up, a person who received MAT services in a given year had fewer hospital stays, on average, during the next fiscal year than those with an OUD or AUD who did not receive MAT services.

The St. Louis region has been the hardest hit in Missouri in terms of the opioid crisis and overdose deaths. While there are a number of substance use treatment providers in this region, demand continues to exceed capacity. The Assisted Recovery Center of America (ARCA) has been successfully operating in St. Louis for decades. In FY 2011, the Department of Mental Health (DMH) entered into a limited Comprehensive Substance Treatment and Rehabilitation (CSTAR) contract with ARCA, enabling them to serve as the medical service provider (for addiction medications and monitoring) for other substance treatment agencies that lacked this resource. Only CSTARs can bill the MO HealthNet Division (MHD) for individuals who have Medicaid. DMH is seeking to make ARCA a full, stand-alone CSTAR program, enabling them to provide the full array of psychosocial and medical services for individuals with substance use disorders (SUDs), primarily opioid use disorders and alcohol use disorders. This will provide additional access to individuals needing treatment and will ensure quicker admission to treatment since an affiliation with another DMH provider is not required. This alone will help decrease loss of life.

**Note:** This graph reflects that in the Eastern region, a significant number of individuals indicated no use of substances in the month prior to discharge. **Significance:** It costs much less to treat an individual with a substance use disorder (which will likely lead to positive outcomes in employment, housing, relationships, and decreased legal involvement), than it does to leave individuals' SUDs untreated. Without intervention, societal costs of substance disorders include lost productivity, increased unemployment, decreased stability in housing, increased costs to the justice system, increased costs to the healthcare system, etc.

The Division of Behavioral Health (DBH) administers community contracts for the professional treatment of individuals with gambling disorders and affected family members. Services include individual and group counseling, family therapy, financial planning, and referrals for legal assistance. Services are provided by a professional designated by the Missouri Credentialing Board with a Certified Gambling Disorder Credential (CGDC). DBH authorizes and monitors services provided by contracted agencies. Funding for the compulsive gambling program is supported through the collection of one cent of the admission fee from Missouri gaming casinos.

**2. CORE DESCRIPTION**

The Substance Awareness Traffic Offender Program (SATOP), recently renamed to reduce stigma, is legislatively mandated for any person who has pled guilty or has been found guilty of impaired driving offenses, or for the offense of Minor in Possession or Abuse and Lose. By statute, completion of a SATOP is a condition to drivers' license re-instatement. SATOP incorporates education and treatment interventions at various levels of intensity based on an individual assessment, blood alcohol content (BAC) at time of arrest, driving record, treatment history, and prior arrest history. The Division of Behavioral Health (DBH) contracts with community agencies across the state for these services. Program sites include: 169 Offender Management Units (OMU), 145 Offender Education Programs (OEP), 84 Adolescent Diversion Education Programs (ADEP), 66 Weekend Intervention Programs (WIP), 127 Clinical Intervention Programs (CIP), and 110 Serious and Repeat Offender Programs (SROP). The goal is to reduce impaired driving and increase public safety on Missouri's roadways.

## PROGRAM DESCRIPTION

Department: Mental Health

HB Section(s): 10.120

Program Name: SATOP

Program is found in the following core budget(s): SATOP

**1a. What strategic priority does this program address?**

Advance supports for substance use recovery and decrease injuries and fatalities associated with impaired driving.

**1b. What does this program do?**

The Substance Awareness Traffic Offender Program (SATOP), recently renamed to reduce stigma, is a statewide system of comprehensive, accessible, community-based education and treatment programs designed for individuals arrested for alcohol and drug-related driving offenses or arrested with possession or use of alcohol or a controlled substance prior to age 21. The goals of the program are to prevent future incidents of impaired driving and to get those with serious substance use disorders into treatment.

Completion of a SATOP is a statutory condition of license reinstatement. The program incorporates a comprehensive assessment to determine program placement into any of the four levels of education and/or treatment interventions. The placement of an offender is determined by several factors which include the individual's history of drug and alcohol use, Blood Alcohol Content (BAC) at the time of arrest, and their arrest and treatment history.

The Offender Education Program (OEP) is a 10-hour education course designed specifically for first-time offenders who are considered to have a low risk of recidivism and a low need for clinical treatment services. The Adolescent Diversion Education Program (ADEP) is the education counterpart for individuals under age 18. The Weekend Intervention Program (WIP) is comprised of 20 hours of education during a 48-hour weekend of structured activities. The Clinical Intervention Program (CIP) is a 50-hour outpatient treatment program designed for repeat DWI offenders considered to be at high risk for re-offending. The Serious and Repeat Offender Program (SROP) requires at least 75 hours of substance use disorder treatment services, provided in no less than 90 days, for serious and/or repeat DWI offenders. A serious offender is one who has a BAC percent of 0.15 or greater at the time of arrest and meets criteria for a substance use disorder. A repeat offender is one who has been arrested on two or more separate occasions for operating a motor vehicle while under the influence of alcohol or drugs, having resulted in administrative action by the Department of Revenue.

**2. CORE DESCRIPTION**

The Division of Comprehensive Psychiatric Services (CPS) and the Division of Alcohol and Drug Abuse (ADA) administratively merged in FY 2013 creating the Division of Behavioral Health (DBH). DBH has the responsibility of ensuring that prevention, evaluation, care, and rehabilitation services are accessible to persons with behavioral health disorders. DBH exercises administrative supervision and oversight of inpatient psychiatric hospitals, residential facilities, and community based programs funded or licensed/certified by the department. This core provides funding for personal services and expense and equipment for administrative staff who are essential in overseeing all statewide community programs and state-operated psychiatric hospitals by establishing policies and procedures; monitoring, evaluating and providing technical assistance; providing data analytics; and applying appropriate fiscal procedures to ensure financial accountability.

## PROGRAM DESCRIPTION

**Department: Mental Health**

**HB Section(s): 10.200**

**Program Name: CPS Administration**

**Program is found in the following core budget(s): CPS Administration**

**1a. What strategic priority does this program address?**

We will support recovery, independence, and self-sufficiency of Missourians with mental illness, substance use disorder, and developmental disabilities.

**1b. What does this program do?**

This core item funds the administration of psychiatric services within the Division of Behavioral Health (DBH) through the following functions: Program and Policy Planning and Development; Training and Technical Assistance; Quality of Treatment; Compliance and Monitoring; and Financial and Data Management. Through program development, monitoring, and oversight DBH provides quality treatment to adults and children who have been diagnosed with Serious Mental Illness, Severe Emotional Disturbance, and in many cases are dually diagnosed with both a psychiatric and a substance use disorder.

DBH supports four hospital systems. Each system is directed by a Regional Executive Officer and consists of one to three state operated inpatient facilities. Funding for these positions is through the budgets of the inpatient facilities; however, DBH provides direction, guidance and oversight for the hospital systems. The hospital systems were developed to consolidate administrative staff from each inpatient facility into a centralized regional administration in order to gain efficiency and standardization of treatment and policy. The four hospital systems are: 1) Western: Center for Behavioral Medicine and Northwest Missouri Psychiatric Rehabilitation Center; 2) Central: Fulton State Hospital; 3) Eastern: Metropolitan St. Louis Psychiatric Center, St. Louis Psychiatric Rehabilitation Center, and Hawthorn Children's Psychiatric Hospital; and 4) Southeast: Southeast Missouri Mental Health Center.

DBH Administration supports management and policy making for all of DBH's psychiatric services and assures: 1) the accessibility and coordination of treatment services throughout the state; 2) the availability and competence of both state and community treatment staff; and 3) the integration and attainment of the goals identified by the Department. DBH Administration works closely with community service providers to plan and implement specialized projects such as Disease Management 3700, a Department of Social Services and Department of Mental Health cost containment initiative. DBH provides funding and oversight for approximately 250 private provider contracts delivering mental health and residential services and supports.

DBH Administration applies for and oversees numerous federal grants to assist in the funding of treatment for both adults and children. This includes the annual application for the Community Mental Health Services Block Grant (approximately \$8.5 million annually).

**3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)**

**4. What are the sources of the "Other " funds?**

Mental Health Earnings Fund (MHEF) - \$300,000

**5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Section 632.010, RSMo. □

**6. Are there federal matching requirements? If yes, please explain.**

The federal Community Mental Health Services Block Grant requires that the state maintain an aggregate level of general revenue spending for mental health services that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.)

**7. Is this a federally mandated program? If yes, please explain.**

No. However, the Community Mental Health Services Block Grant allows 5% to be expended for administration.

**2. CORE DESCRIPTION**

The Facility Support HB Section was created to assist the Division of Behavioral Health (DBH) by establishing a single section to administer several allocations to facilities. These allocations have historically come from various house bill sections within the DBH budget: Adult Community Programs, Loss of Benefits and PRN Nursing Pool. This also establishes a mechanism to allow the allocation of Medicare earnings to the facilities to assist them in coping with census pressures, safety, and patient acuity issues.

**Loss of Benefits**

Pursuant to Chapter 552 RSMo., the Department of Mental Health (DMH) must provide secure inpatient hospitalization for those individuals committed by the Circuit Courts as not competent to proceed and not guilty by reason of mental disease or defect. Individuals so committed incur costs for necessary medical care. However, the Social Security Domestic Employment Reform Act of 1994 removed Social Security Disability Insurance (SSDI), Retirement Survivors Disability Insurance (RSDI), and Social Security Retirement (SSA) for those individuals committed as incompetent to proceed and not guilty by reason of mental disease or defect. Medicare Part B premiums, which help pay for necessary health care costs, were previously paid for out of these Social Security funds. Payment of these premiums will maintain Medicare insurance for those eligible forensic clients thereby allowing Medicare to pick up a major portion of client medical expenses. This core item will pay for Medicare Part B premiums and other necessary health care costs for those individuals so committed to DMH.

**CORE DECISION ITEM**

<b>Department:</b>	<b>Mental Health</b>	<b>Budget Unit:</b>	<b>69112C</b>
<b>Division:</b>	<b>Comprehensive Psychiatric Services</b>		
<b>Core:</b>	<b>Facility Support</b>	<b>HB Section:</b>	<b>10.205</b>

**PRN Nursing & Direct Care Staff Pool**

A nursing shortage exists both statewide and nationally. This shortage, in conjunction with non-competitive state salaries, has limited the number of qualified nursing personnel available to staff state-funded mental health facilities. This continuing shortage could adversely impact the safety and security of staff and patients; the Joint Commission accreditation status; Medicare Certification; third party reimbursements and disproportionate share hospital (DSH) reimbursement. It is also difficult to maintain appropriate direct care staffing complements due to the rapidly changing acuity levels of clients treated in the inpatient wards. In some instances it is necessary to provide two staff for one patient because of the severity of the patient's illness and resultant aggressive behavior.

A new bill section was created to address the nursing shortage and direct care staffing issue by allowing DBH to establish a PRN (as needed) nursing and direct care staff pool. This was accomplished through a redirect of Personal Service funding and FTE from DBH facility budgets to the new bill section. Individuals hired into this pool will not be allowed to work more than 1,039 hours per year (.49 FTE) and will not be eligible for state benefits. The fringe benefit funding associated with the DBH facilities' FTE was core transferred into this new bill section from HB 5 (O/A Fringe) to fully support the PRN nursing pool.

**Federal Authority**

This will allow the facilities to utilize Medicare collections for the purchase of medical services in order to comply with the Medicare bundling requirements. In addition, this will also allow DBH to utilize state operated waiver collections to restore facilities expenses and equipment costs incurred for training, pay for annual expenses to implement Medicare Part D, and to utilize Medicare Part D collections to assist facilities with staffing to cope with over census pressures.

**Voluntary by Guardian**

In FY11, DBH initiated a change within its state operated inpatient psychiatric system to reduce costs and improve care for individuals with serious mental illness. This program supports discharging of individuals voluntarily placed by guardians from state facilities into the community who require intensive residential supports and who would otherwise occupy inpatient beds.

**2. CORE DESCRIPTION**

The Division of Behavioral Health (DBH) Adult Community Programs serve individuals with serious mental illnesses. Priority populations include individuals who are discharged from state hospitals; committed by the courts in forensic status; under the supervision of Probation and Parole; Medicaid eligible; or experiencing crises, to include danger of harm to self or others.

DBH is responsible for ensuring prevention, evaluation, treatment and rehabilitation services are accessible wherever possible. Treatment that is based in the community is both successful and cost effective, as a result of new medications and evidence-based therapies.

Adult Community Programs are administered locally by Certified Community Behavioral Health Organizations (CCHBOs) and Community Mental Health Centers (CMHC) that serve as administrative agents for twenty-five (25) defined service areas. Community services are designed to promote independent living in the least restrictive setting possible. The goal of treatment is recovery. Recovery from behavioral health disorders is defined as a process of change through which individuals improve their health and wellness, live self-directed lives, and strive to reach their full potential. The four goals that support a life in recovery are successfully managing one's illness; having a safe place to live; participating in meaningful daily activities, such as a job or school; and maintaining healthy

## PROGRAM DESCRIPTION

<b>Department: Mental Health</b>	<b>HB Section(s): 10.210</b>
<b>Program Name: Adult Community Services</b>	
<b>Program is found in the following core budget(s): Adult Community Programs</b>	
<b>1a. What strategic priority does this program address?</b>	
Advance supports for recovery from behavioral health conditions and decrease premature deaths associated with co-morbid conditions, suicide, and other mental health conditions.	
<b>1b. What does this program do?</b>	
Adult Community Programs are administered locally by Certified Community Behavioral Health Organizations (CCHBOs) and Community Mental Health Centers (CMHC) that serve as administrative agents for twenty-five (25) defined service areas. These agencies serve individuals with serious mental illnesses who often have comorbid behavioral and medical conditions, prioritizing the following individuals: discharged from state hospitals, committed by courts in forensic status, under Probation and Parole supervision, that are Medicaid eligible, and in crisis.	
These programs provide a comprehensive treatment and community-based support system, delivering evidence-based, cost-effective behavioral health rehabilitative services. By actively participating in these programs, many individuals with serious mental illness can successfully live and work in the community. They can avoid repeated, expensive, emergency department visits and/or psychiatric hospitalizations.	
DBH has successfully implemented new technologies to integrate behavioral health and medical care. The Disease Management 3700 project and the Healthcare Home initiative have assured the coordination of physical and behavioral health services to individuals with serious mental illness. The results are improved health outcomes and lower healthcare costs.	
DBH also implemented emergency room enhancement (ERE) projects located in twenty out of twenty-five service areas of the state with the purpose of developing models of effective intervention for people in behavioral health crises, creating alternatives to unnecessary hospitalization or extended hospitalization. Individuals are referred from local hospital emergency rooms to behavioral health providers for ongoing treatment and care coordination to prevent unnecessary and costly hospital admissions.	
Thirty-one (31) Community Mental Health Liaisons (CMHL) are employed at CCBHOs and CMHCs across the state. The purpose of the CMHL is to assist law enforcement and court systems to link individuals with behavioral health needs to treatment. CMHLs have created partnerships with law enforcement agencies and courts to save valuable resources on unnecessary incarcerations and hospital stays and have improved outcomes on individuals with behavioral health issues.

HB Section(s): 10.210

Program Name: Adult Community Services

Program is found in the following core budget(s): Adult Community Programs

### 1b. What does this program do? (Continued)

Funds are used to support a wide array of residential services that include residential care facilities, group homes, and independent supported housing. Provision of these services and supports enable individuals to successfully live and work in their communities. Residential services are provided in the client's community through contractual arrangements. As individuals move into more independent housing alternatives, they require intensive but flexible services and supports in order to maintain that housing. Treating individuals of all ages and with unique needs in community settings requires a variety of residential alternatives.

The United States Supreme Court decision in *Olmstead v. L.C.* stated that unjustified segregation of persons with disabilities constitutes discrimination and is in violation of the Americans with Disabilities Act. States must ensure that individuals with disabilities are served in the least restrictive environments based on their individual needs and choices.

As Missouri works to meet the mandates of the *Olmstead* decision, supportive housing plays a major role. The programs are designed to provide individuals with serious mental illness (SMI) safe housing in combination with the support services needed to be able to live in the most integrated settings possible in a community of their choice.

The Division of Behavioral Health is requesting funds for the Certified Community Behavioral Health Organization (CCBHO) initiative to provide a trend factor adjustment to current CCBHOs. In addition, this funding will provide for the Quality Incentive Payments (pay for performance) as outlined in the Medicaid state plan amendment. This program was originally authorized under Section 223 of the Protecting Access to Medicare Act of 2014 (H.R. 4302), and has since been extended by Congress in two additional bills. The intent of this initiative is to expand access to quality, evidence-based behavioral healthcare, thereby avoiding inappropriate and unnecessary use of jails, prisons, and emergency departments. In addition to mandated evidence-based services, CCBHOs must also provide Emergency Room Enhancement services, medication assisted treatment (MAT) by waived prescribers, liaisons to law enforcement, school-based services, crisis services, and other innovations.

**DEPARTMENT REQUEST:**

A key feature of the CCBHO initiative is a focus on quality and outcomes. The CCBHOs are required to report on a variety of different outcome measures in a pay-for-performance model. Funding is being requested to begin to further the shift toward paying for quality versus paying for volume in Medicaid. The six measures currently included in the Medicaid state plan Quality Incentive Payment of 1% include: Youth Hospital Follow-Up; Adult Hospital Follow-Up; Antipsychotic Medication Adherence; Engagement in Substance Use Disorder Treatment; Youth Suicide Risk Assessment; and Adult Suicide Risk Assessment.

**6d. Provide a measure(s) of the program's efficiency.**

**Note:** CCBHO providers are required to provide Health Home services. These data are provided by the Missouri Institute of Mental Health (MIMH) evaluation team. The numbers are based on all Community Mental Health Centers Healthcare Home (CMHC HCH) enrollees who had at least one month of HCH services in the year measured (e.g. CY 2018). The savings were calculated by subtracting the calendar year savings from the calendar year prior to HCH enrollment. For example, an individual who was enrolled in the CMHC HCH in 2013, would have a baseline year of 2012. As long as that person had 12 months of MO HealthNet eligibility in 2012, their 2012 cost would be calculated, and subtracted from their 2013 costs. The per member per month payments paid in 2013 for all persons included in the calculation were counted against the gross savings numbers to produce the net savings of \$288 per member per month.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

The Division will recognize quality and outcomes or required measures and provide quality incentive payments to those CCBHOs who meet or are showing improvement toward reaching positive clinical outcomes for those they serve.

The Division of Behavioral Health is requesting funds to expand the Certified Community Behavioral Health Organization (CCBHO) initiative to three additional regions of the state. This program was originally authorized under Section 223 of the Protecting Access to Medicare Act of 2014 (H.R. 4302), and has since been extended by Congress in two additional bills. Funding for the three proposed new sites include: the Cape Girardeau region (Cape Girardeau, Perry, St. Genevieve, Madison, Bollinger counties), Fulton/Mexico region (Callaway, Montgomery, Audrain, Pike, Ralls, Monroe counties), and Sikeston region (Scott, Mississippi, New Madrid, Stoddard counties). The intent of this initiative is to expand access to quality, evidence-based behavioral healthcare, thereby avoiding inappropriate and unnecessary use of jails, prisons, and emergency departments. In addition to mandated evidence-based services, CCBHOs must also provide Emergency Room Enhancement services, medication assisted treatment (MAT) by waived prescribers, liaisons to law enforcement, school-based services, crisis services, and other innovations.

**6d. Provide a measure(s) of the program's efficiency.**

**Note:** CCBHO providers are required to provide Health Home services. These data are provided by the Missouri Institute of Mental Health (MIMH) evaluation team. The numbers are based on all Community Mental Health Centers Healthcare Home (CMHC HCH) enrollees who had at least one month of HCH services in the year measured (e.g. CY 2018). The savings were calculated by subtracting the calendar year savings from the calendar year prior to HCH enrollment. For example, an individual who was enrolled in the CMHC HCH in 2013, would have a baseline year of 2012. As long as that person had 12 months of MO HealthNet eligibility in 2012, their 2012 cost would be calculated, and subtracted from their 2013 costs. The per member per month payments paid in 2013 for all persons included in the calculation were counted against the gross savings numbers to produce the net savings of \$288 per member per month.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

The Department will continue to move more of its community-funded programs into value-based, cost-certain payment methodologies. These should be based on the CCBHO model of moving away from fee-for-service payment that can reward volume-based billing rather than appropriate clinical interventions and outcomes. Future changes to the CCBHO initiative include moving more core funding into the quality payment and potentially moving the system to more of a per member per month (PMPM) model as recommended by the recent Rapid Response Review - Assessment of Missouri Medicaid Program.

Ongoing claims and outcomes analysis will continue to guide system improvement and resource allocation to each provider.

**2. CORE DESCRIPTION**

Statute mandates that certain fees and costs for involuntary civil detention proceedings for an individual who presents a likelihood of harm due to a mental illness or substance use disorder be paid by the State (Sections 56.700, 57.280, 488.435, 630.130, 632.415, RSMo.).

It is required that reasonable attorney fees and costs be paid in involuntary civil detention hearings when the court has determined that the individual is unable to pay. Likewise, reasonable attorney fees and costs are paid for involuntary electroconvulsive therapy court proceedings when the court has determined the individual is unable to pay. Sheriff mileage fees for executing a court warrant for civil involuntary detention proceedings are considered court costs and are reimbursed at the rate set by the Internal Revenue Service.

**NOTES:**

The fees imposed by the courts are set by the Supreme Court. Effective July 1, 2003, pursuant to Supreme Court Operating Rule 21.01, Probate Courts could no longer collect the thirty-five dollar fee for involuntary hospitalizations proceedings that had for many years been charged and subsequently paid by the Department of Mental Health from this appropriation. The Supreme Court Operating Rule 21.01 effective July 1, 2004, once again allows the Probate Court to collect the thirty-five dollar fee, but not in cases where the costs are to be paid by the State.

**(1)** Increase in appropriation for FY 2018 is due to supplemental funding in the amount of \$181,304. On-going funding was appropriated in FY 2019 in the amount of \$112,091.

**(2)** In FY 2020, authority for payments to prosecuting attorneys in certain counties to employ an assistant attorney and investigative or clerical staff was transferred to the Attorney General's Office, Missouri Office of Prosecuting Services.

## PROGRAM DESCRIPTION

Department: Mental Health

HB Section(s): 10.220

Program Name: Forensic Support Services

Program is found in the following core budget(s): Forensic Support Services

**1a. What strategic priority does this program address?**

Foster ongoing recovery and self-sufficiency through treatment, habilitation, and integration of community services for Missourians with mental illness and developmental disabilities in state-operated programs.

**1b. What does this program do?**

The Department of Mental Health (DMH) is statutorily mandated to monitor forensic clients acquitted as not guilty by reason of mental disease or defect who are granted a conditional release to the community by the court and those committed as sexually violent predators. Monitoring is a public safety function that is provided by Forensic Case Monitors under the direction of the Director of Forensic Services and the facility Forensic Review Committee. There are twelve Forensic Case Monitors located across the state who oversee 420 forensic clients on court-ordered conditional release statewide.

Forensic Case Monitors review the case of each forensic client on conditional release at least monthly, and more often if necessary, to determine compliance with court-ordered conditions of release and to ensure that forensic clients are receiving care and treatment consistent with their needs and the goal of public safety. If the Forensic Case Monitor determines the client has violated court-ordered conditions of release or needs inpatient psychiatric treatment, the client may be voluntarily admitted or the Director of Forensic Services may issue an order returning the client to inpatient treatment and initiate proceedings to revoke the conditional release. The Forensic Case Monitors must also provide testimony at court proceedings and revocation hearings and must educate community providers about forensic and public safety issues.

DMH, upon order of the Circuit Court, provides pretrial evaluations on issues of competency to stand trial and criminal responsibility. DMH requires that evaluations be completed by Certified Forensic Examiners who must hold doctorate degrees in medicine, osteopathy or psychology and who must complete required supervision and training. This certification process is the responsibility of the Director of Forensic Services.

**2a. Provide an activity measure(s) for the program.**

**Note:** Forensic clients represented in this graph are only those clients who were committed to the Department as Not Guilty by Reason of Mental Disease or Defect (NGRI).

*Significance: The Division is successfully monitoring NGRI clients in the community versus a hospital setting.*

**2c. Provide a measure(s) of the program's impact.**

<b>Number of NGRI clients on conditional release</b>	
June 30, 2015	454
June 30, 2016	449
June 30, 2017	426
June 30, 2018	420

Data for June 30, 2019 is not yet available.

<b>NGRI clients remaining on conditional release on the following calendar year</b>		
	<b>Clients</b>	<b>%</b>
June 30, 2015	428	92.0%
June 30, 2016	414	91.2%
June 30, 2017	402	89.5%
June 30, 2018	389	91.3%

*Significance: This demonstrates the success of the conditional release system within DMH. Clients are effectively transitioning from an inpatient setting to the community due to several factors: 1) Support from, and continuing treatment by, the community mental health centers and 2) Supervision, and ongoing oversight by, the Forensic Case Monitors and Forensic Review Committees.*

*Target: To stay at or above 90%*

**2. CORE DESCRIPTION**

Youth Community Programs core item is to fund an array of treatment interventions for youth experiencing serious emotional disturbance (SED) residing in the community. Children and youth with SED and acute psychiatric needs are the primary clients that receive services funded by Youth Community Programs. An estimate of prevalence from a January 2018 analysis<sup>1</sup> shows approximately ten percent (10%) of all Missouri children, or 137,683 children, could experience SED. Based upon a conservative presentation rate of fifty percent (50%) of children experiencing SED, some 68,842 children may need services from the public mental health authority. However, in FY 2019 only 20,618 children received DBH services, leaving an estimated 48,223 children unserved.

## PROGRAM DESCRIPTION

<b>Department: Mental Health</b>	<b>HB Section(s): 10.225</b>
<b>Program Name: Youth Community Services</b>	
<b>Program is found in the following core budget(s): Youth Community Programs</b>	
<b>1a. What strategic priority does this program address?</b> Strengthen and integrate community services and advance supports for youth with a serious emotional disturbance.	
<b>1b. What does this program do?</b> <p>Twenty percent (20%) of youth live with a mental health condition and fifty percent (50%) of all lifetime cases of mental illness begin by the age of 14 years. Ignoring mental health conditions in childhood can have lasting adverse effects on the individual's functioning and mental, physical, social, emotional, or spiritual well-being as adults.</p> <p>Funding supports a comprehensive array of services that are developmentally appropriate including crisis intervention, medication management, family counseling, evidence based interventions and residential out-of-home placement.</p> <p>Program provides services to children with a serious emotional disturbance to maximize functioning, reduce symptoms, promote family integration, and improve school attendance.</p> <p>For most children with a serious emotional disturbance served by the Division of Behavioral Health (DBH), their mental health needs can be addressed in their home environment. But for a small number of children, due to the severity of their mental illness, they cannot be maintained in the home and a temporary out-of-home placement is required. Out-of-home placement is a setting with 24 hour monitoring and oversight; specific planned activities for children; individual and group treatment. Out-of-home placements vary as far as their restrictiveness level from least restrictive to more restrictive and the determinant of restrictiveness is based on the child's mental health condition. The least restrictive environment is a Treatment Family Home with the next level being a Professional Parent Home, and then residential services. Beyond residential, inpatient is the most restrictive level of placement.</p> <p>Treatment Family Homes (TFH) consist of trained and qualified individuals who work with children in their own home. The goal of this service is to reunite children with their families whenever possible. Treatment parents receive over 40 hours of training. Up to three children can be placed in each TFH.</p> <p>Professional Parent Homes (PPH) consist of trained and qualified professionals serving only one child at a time in their home, due to the severity of the child's needs. The parenting role is the sole employment for these parents. They are required to complete 40 hours of basic training as well as an enhanced training package.</p>

**2c. Provide a measure(s) of the program's impact.**

**Note:** This graph represents a decrease in ER visits or hospitalizations due to a more stable living arrangement. Inpatient hospitalizations represent medical reasons only.

**2d. Provide a measure(s) of the program's efficiency.**

**Note:** Average costs per client in Hawthorn's Children's Psychiatric Hospital continues to increase as a result of the acuity level of the child client base requiring more one-to-one supervision. In addition, average lengths of stay for children with complex needs has increased by approximately 10 to 15 days for the community.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

**4. What are the sources of the "Other " funds?**

Mental Health Local Tax Match Fund (MHLTMF) - \$1,257,879 and Mental Health Interagency Payment Fund (MHIPF) - \$600,000

**5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program #, if applicable.)**

Sections 630.405 - 630.460, 632.010.2(1), 632.050 and 632.055, RSMo.

**6. Are there federal matching requirements? If yes, please explain.**

The federal Community Mental Health Services Block Grant requires that the state maintain an aggregate level of general revenue spending for mental health services that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.) Community Psychiatric Rehabilitation and Targeted Case Management are MO HealthNet services and require a 40% state match.

**7. Is this a federally mandated program? If yes, please explain.**

No. However, the Community Mental Health Services Block Grant requires children's expenditures to continue to meet their MOE requirement. In addition, 10% must be spent on young adults, 16 to 25 years of age, experiencing early serious mental illness, including psychotic disorders.

The Division of Behavioral Health applied for and received the Missouri Transition Age Youth-Local Engagement & Recovery (MO TAY-LER) Grant in FY 2019. This grant is targeted to improve access to treatment for youth and young adults ages 16 to 25 that have or are at risk of a serious mental health condition. The purpose of the grant is to grow capacity in engagement, specialized services, and coordination of access and treatment for youth and young adults. Youth and young adults will receive necessary care and treatment and have improved life outcomes at home, school, work, and in their community. DBH received additional authority in FY20 for this grant, however, the funding was only for one year. This is a five year grant (grant period 3/31/2019 - 3/30/2024).

**2. CORE DESCRIPTION**

This core item funds medication and medication-related services for people with serious mental illnesses who could not otherwise afford them. Psychiatric medication is a vital part of treatment for mental illness. New medications that are more effective and produce fewer side effects are developing rapidly. Individuals are more likely to take improved medications, and thus experience better outcomes such as reduced symptoms and improved social functioning.

Approximately 80% of the individuals served by the Division of Behavioral Health (DBH) for the treatment of severe and persistent mental illness have their medication costs covered through MO HealthNet. For almost all uninsured clients receiving mental health services, the cost of seeing a psychiatrist and buying medications is a major barrier to accessing needed services. Without these medical interventions, most would see an increase in the occurrence and severity of symptoms of mental illness, potentially leading to homelessness, incarceration, suicide, and other negative outcomes.

**PROGRAM DESCRIPTION**

**Department:** Mental Health **HB Section(s):** 10.230  
**Program Name:** CPS Medications  
**Program is found in the following core budget(s):** CPS Medications

**1a. What strategic priority does this program address?**

Advance medication options for individuals in treatment for, and recovery from, behavioral health disorders.

**1b. What does this program do?**

This core funding ensures accessibility to necessary medications needed to treat serious and persistent mental illness for those that are uninsured. It supports the use of newer, more effective medications that increase the likelihood that a person will take them. Compliance with prescribed medications results in better outcomes and less frequent hospitalizations. This funding is for adults and youth in the Division of Behavioral Health (DBH) State Operated facilities and community settings. This funding can also support medication-related services, such as physician services, to ensure access to medications from the most appropriate medical professionals.

**2a. Provide an activity measure(s) for the program.**

Medication is an essential treatment component for persons with serious mental illness and substance use disorders. State facilities, as well as community providers, are facing growing costs for medications. Additional funds for medication cost increases are needed to maintain adequate treatment practices.

This decision item requests funding for the ongoing inflation of pharmaceuticals. This increase can be attributed to the rising cost of drug ingredients; increase in units per prescription; cost of new, expensive medications; and utilization increases. The inflation rate requested in this decision item is identical to the inflation rate requested by MO HealthNet Division for pharmacy.

This item also includes funding to cover the annual cost increase for contracted pharmacy and advanced practitioner services.

**2. CORE DESCRIPTION**

There is a need to substantially increase the capacity to provide evidenced-based practices (EBP) to children that have been abused. The consequences of not treating trauma are costly, significant and long-term for individuals and society in general. In the U.S., 61% of men and 51% of women report exposure to at least one lifetime traumatic event, and in public behavioral health settings, 90% of clients have experienced trauma (*Trauma (n.d.) SAMHSA-HRSA Center for Integrated Health Solutions. Retrieved from <http://www.integration.samhsa.gov/clinical-practice/trauma>*). Currently the number of qualified, trained clinicians to provide EBP is severely limited. These funds will be invested in training, education for frontline staff, and expanding capacity. Funds will also be used to address structural barriers such as workforce issues in rural communities, support for necessary facility upgrades for certain models, and identification of screening and assessment tools.

**Funding will be reallocated into Youth Community Programs house bill section in the FY21 budget.**

**PROGRAM DESCRIPTION**

<b>Department: Mental Health</b>	<b>HB Section(s): 10.230</b>
<b>Program Name: MH Trauma Treatment for Children</b>	
<b>Program is found in the following core budget(s): MH Trauma Treatment Children</b>	
<b>1a. What strategic priority does this program address?</b> Strengthen the Department of Mental Health (DMH) and contracted workforce in the provision of evidence based practices.	
<b>1b. What does this program do?</b> The capacity to provide trauma based treatments to abused children in Missouri is currently very limited. The capacity issue is due in large part to the payment structures for behavioral health. Reimbursement does not adequately cover the cost of the staff time and effort to become proficient and certified in a particular Evidence Based Practice (EBP). The following EBPs are a priority for this effort: Motivational Interviewing, Trauma-Focused Cognitive Behavioral Therapy, and Eye Movement Desensitization Reprocessing. The provision of these EBP's will raise the standard of care and improve access to services for children, families, and communities impacted by trauma.  Funding will address building capacity of clinicians trained in EBPs, structural barriers such as workforce issues in rural communities, support for necessary facility upgrades for certain EBP models, identification of screening and assessment tools, and resources that allow consumers to identify clinicians trained in EBP.

Section 630.097.1, RSMo.

6. Are there federal matching requirements? If yes, please explain.

The federal Community Mental Health Services Block Grant requires that the state maintain an aggregate level of general revenue spending for mental health services that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.)

7. Is this a federally mandated program? If yes, please explain.

## PROGRAM DESCRIPTION

<b>Department: Mental Health</b>	<b>HB Section(s): 10.300, 10.305, 10.310, 10.315,</b>
<b>Program Name: State Operated Adult Facilities</b>	<b>10.320, 10.325, 10.330</b>
<b>Program is found in the following core budget(s): Adult Inpatient Facilities</b>	
<b>1a. What strategic priority does this program address?</b> Provide inpatient treatment program for adults with complex mental illnesses.	
<b>1b. What does this program do?</b> <p>State operated adult facilities provide inpatient hospitalization and psychiatric treatment for individuals with serious mental illness. The facilities serve forensic individuals committed by the criminal courts and individuals civilly committed by the probate courts who are involved in the criminal justice system and require a high security environment. These individuals present a danger to themselves or others and cannot be effectively treated in a less restrictive environment.</p> <p>The forensic program provides psychiatric evaluation, care and treatment for mentally ill individuals ordered into the system by the Circuit Courts. The forensic program requires not only the specialized knowledge and services needed for working with individuals with serious mental illness, but also specialized knowledge of the more structured procedural issues surrounding interaction with the judicial system. This highly specialized service provides the capability of evaluation and treatment in a secure environment.</p> <p>The Division of Behavioral Health (DBH) has a full range of secured treatment settings in order to effectively treat forensic clients and to ensure public safety in accordance with Chapter 552, RSMo. These settings are provided through various applications of secured perimeters, including inside and outside containment, internal security systems, escort requirements and security staffing. Services are provided with the desired goal of progressive movement from a highly structured living situation to a less structured living situation. In this manner, people are given the opportunity to move through a system specifically designed to provide them with an accompanying increased emphasis on demonstrated acceptable standards of behavior.</p> <p>The Department of Mental Health (DMH) has seen a steadily increasing number of individuals who have been referred by the criminal courts as not competent to stand trial for competency restoration. This increase is resulting in hospitals operating at or over existing capacity and individuals waiting in jails for beds to open up.</p>

**Note:** This graph represents an unduplicated count of clients served. NGRI - Persons committed for care and treatment under Section 552, RSMo. as "not guilty by reason by mental disease or defect". Discharges occur upon order of the court following a hearing to determine if the person is likely to be dangerous to others. IST - Persons committed for care and treatment under Section 552, RSMo. as "incompetent to stand trial". Discharges occur upon order of the court. Statute requires that a competency assessment report be provided to the court every 180 days. The base target for IST is 180 days while the stretch target is 150 days. VbG/PIST - Persons who are permanently incompetent to stand trial and who have a guardian or who are awaiting assignment of a guardian. Discharges occur upon consent of the guardian. Other - Individuals with serious risk histories who are civilly committed by the Probate Court or admitted by guardian. Discharges depend upon commitment status.

**4. What are the sources of the "Other " funds?**

Mental Health Earnings Fund (MHEF) - \$337,857

**5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Sections 632.010.2 and 632.010.2(1), RSMo.

**6. Are there federal matching requirements? If yes, please explain.**

Inpatient facilities provide General Revenue (GR) match for MO HealthNet eligible services through the certification of GR expenses, so no additional match is required. Also, the cost associated with the operation of the DBH hospitals significantly impacts the reimbursement made by MO HealthNet under the federal disproportionate share hospital requirements.

**7. Is this a federally mandated program? If yes, please explain.**

The federal Community Mental Health Services Block Grant requires that the state maintain an aggregate level of general revenue spending for mental health services that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.) Outpatient services in the state facilities' budgets are captured in the MOE calculation.

**1a. What strategic priority does this program address?**

Provide inpatient treatment program for adults with complex mental illnesses.

**1b. What does this program do?**

The state-operated Sex Offender Rehabilitation and Treatment Services (SORTS) provides treatment to change the person's mental abnormality so that the person is not likely to commit acts of sexual violence if released. The SORTS provides appropriate treatment and housing for individuals adjudicated by the courts as sexually violent predators. With passage of the Sexually Violent Predator law, which was effective January 1, 1999, the Missouri General Assembly mandated that individuals adjudicated by the court as sexually violent predators be committed indefinitely to the custody of the Director of the Department of Mental Health for "control, care and treatment until such time...that the person is safe to be at large". In order for such commitments to pass constitutional scrutiny, the Department must provide care and treatment that is consistent with existing professional standards and practice, and federal case law. The law also requires that individuals committed for treatment as sexually violent predators be kept in a secure facility and housed separately from Department of Corrections inmates and from other mental health clients who have not been found to be sexually violent predators.

The current SORTS program is operated within two Division of Behavioral Health (DBH) facilities, Southeast Missouri Mental Health Center and Fulton State Hospital.

The SORTS program is responsible for preparing clients for community reintegration. If clients are provided a conditional release by the probate court, the program is also responsible for facilitating the transition into the community and for communication with community providers, Probation and Parole and DBH Forensic Case Monitors who provide community supervision.

In addition to the housing and treatment of individuals committed under this statute, the Department provides a psychiatrist and/or a psychologist to participate in the Multidisciplinary Team to assist the Prosecutor's Review Committee in determining whether an individual may meet the definition of a sexually violent predator. Furthermore, the Department is required to provide a psychiatrist or psychologist to evaluate each individual for whom the court finds probable cause to believe the person is a sexually violent predator. Finally, the Department must provide the committing court an annual report regarding the committed person's mental condition.

**2. CORE DESCRIPTION**

This core item funds the operation of Hawthorn Children's Psychiatric Hospital which provides psychiatric hospital inpatient and residential services to children and youth with Severe Emotional Disturbances (SED) or acute psychiatric needs. An estimate of prevalence from a January 2018 analysis\* shows approximately ten percent (10%) of all Missouri children, or 137,683 children, could experience SED.

In response to growing referrals from social service agencies and families, the children's facility operated by the Division of Behavioral Health (DBH) is treating children with more challenging, complex, and ingrained behaviors. Many of these children are dually diagnosed with intellectual disabilities, requiring enhanced safety measures, staffing patterns and skills. In addition, many if not most of the children seeking services have experienced multiple traumatic events requiring an extensive comprehensive assessment and specific trauma focused evidence-based interventions.

This facility is the only one of its kind in the state and serves children and youth that cannot be treated elsewhere.

**PROGRAM DESCRIPTION**

Department: Mental Health HB Section(s): 10.335  
 Program Name: State Operated Children's Facility  
 Program is found in the following core budget(s): State Operated Children's Facility

**1a. What strategic priority does this program address?**

Provide treatments, habilitation and support services to individuals in state-operated programs.

**1b. What does this program do?**

Hawthorn Children's Psychiatric Hospital (HCPH) is a Joint Commission accredited 44 bed psychiatric facility that provides inpatient and residential treatment programs for children 6-18 years of age who have acute and severe psychiatric problems. HCPH is the only facility of its kind in the state. HCPH uses an interdisciplinary team approach to address the medical, psychological, social, educational, vocational and recreational needs of the child. This involvement may include family counseling and parent training designed to complement services the child receives. The goal is to enable the child to reach their full potential and return to the community.

An inpatient placement is the most restrictive setting on the children's continuum of care.

**2a. Provide an activity measure(s) for the program.**

**Note:** This graph represents an unduplicated count of clients served. The decline of client count is directly associated with the increasing acuity level of the children/youth served along with the temporary closure of beds as a result of required HVAC renovations at the facility.

PROGRAM DESCRIPTION

Department: Mental Health HB Section(s): 10.335  
 Program Name: State Operated Children's Facility  
 Program is found in the following core budget(s): State Operated Children's Facility

2b. Provide a measure(s) of the program's quality.

**Note:** The two graphs above represent the percent of clients at discharge or annual review who respond positively to the Client Perception of Outcomes and Facility Environment domains on the Inpatient Consumer Survey. The national mean includes all adult and children's facilities reporting. *Target: Base - Exceed national mean; Stretch - 85%*

**PROGRAM DESCRIPTION**

Department: Mental Health HB Section(s): 10.335  
 Program Name: State Operated Children's Facility  
 Program is found in the following core budget(s): State Operated Children's Facility

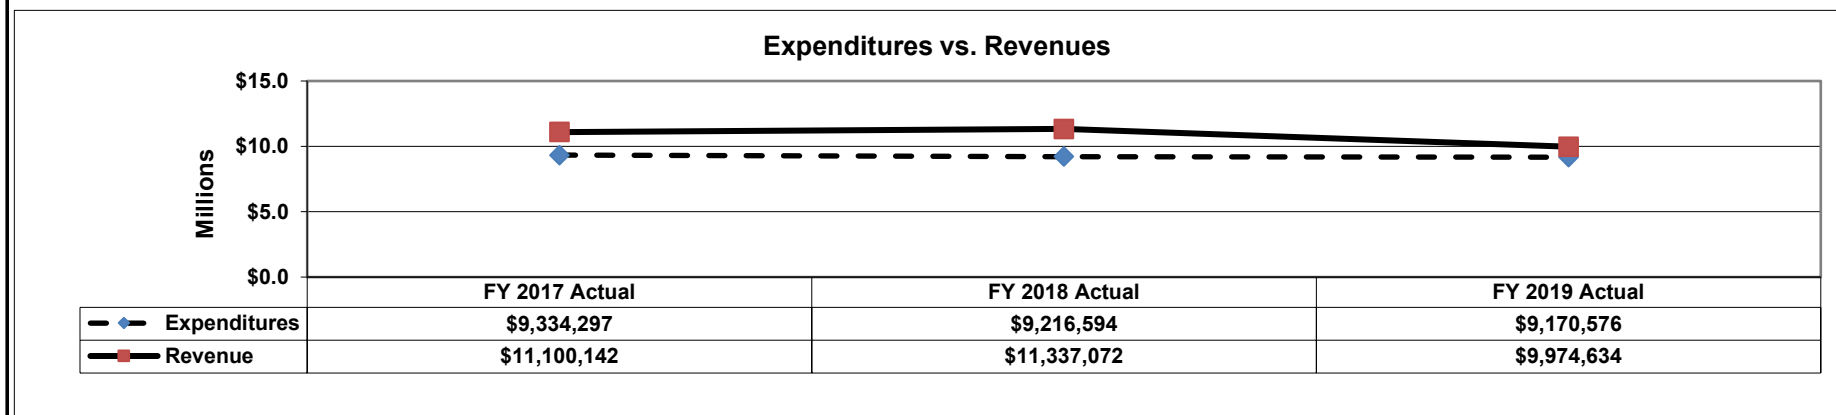

2c. Provide a measure(s) of the program's impact.

**Note:** Readmission rates are reported through the Uniform Reporting System (URS). URS data is only available through 2018. This graph represents the 30 day readmission rate for Missouri compared to the national average for readmission of consumers to a state hospital after 30 days. *Target: To be below the national rate. Stretch: 0%*

The large increase in readmissions for Hawthorn was the result of multiple medically related hospitalizations for a small number of consumers during the last reporting year. When a consumer is sent for medical treatment a discharge occurs and readmitted upon their return.

2d. Provide a measure(s) of the program's efficiency.

**Note:** Revenues represent all third party reimbursements and the 60% federal reimbursement for DSH claim. Expenditures do not include fringe.

## PROGRAM DESCRIPTION

<b>Department: Mental Health</b>	<b>HB Section(s): 10.335</b>
<b>Program Name: State Operated Children's Facility</b>	
<b>Program is found in the following core budget(s): State Operated Children's Facility</b>	
<b>5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)</b> Sections 632.010.1 and 632.010.2(1), RSMo.	
<b>6. Are there federal matching requirements? If yes, please explain.</b> Inpatient facilities provide General Revenue (GR) match for MO HealthNet eligible services through the certification of GR expenses - no additional match is required. Also, the cost associated with the operation of Hawthorn significantly impacts the reimbursement made by MO HealthNet under the federal disproportionate share hospital (DSH) requirements.	
<b>7. Is this a federally mandated program? If yes, please explain.</b> The federal Community Mental Health Services Block Grant requires that the state maintain an aggregate level of general revenue spending for mental health services that is greater than or equal to the average of the past two years. (This is called the "Maintenance of Effort," or MOE, requirement.) Outpatient services in the state facilities' budgets are captured in the MOE calculation.
