The General Assembly appropriated MIRA funds (\$750,000) and ICF funds (\$1,200,000) into this section to more accurately reflect actual spending. GR lapse due to DOC expenditure restriction plan in response to the Coronavirus Pandemic. Other funds lapse due to insufficient cash receipts into the MIRA fund. Flexibility was used within the Institutional E&E Pool and \$150,000 was flexed from Probation & Parole Staff to meet year-end expenditure obligations.

FY19:

Although Institutional E&E was appropriated \$627,687 from the OA Revolving Administrative Trust Fund (RATF) and \$1,000,000 of Working Capital Revolving Fund authority, neither of those funding sources were available to spend and subsequently lapsed. Flexibility was used to meet year-end expenditure obligations. Institutional E&E received \$2,500,000 from Medical Services and \$250,000 from Food Purchases.

FY18:

Flexibility was used to meet year-end expenditure obligations. Institutional E&E received \$500,000 flex from Medical Services and \$200,000 flex from Food Purchases.

2. CORE DESCRIPTION

The Wage & Discharge appropriation is utilized to comply with statutory obligations of providing wages to approximately 25,000 offenders and providing transportation services, clothing, and discharge monies to offenders, as necessary, upon release. These funds also support the wages of offenders performing specialized or semi-skilled work assignments across the institutions especially in the areas of computer programming and facility maintenance. The decline in the offender population has allowed the department to revisit the pay structure for offender wages and increase the number of premium pay positions.

The Division of Adult Institutions provides management and oversight of 20 state correctional centers with a goal of improving lives for safer communities.

The adult correctional centers are responsible for the following:

- Providing a safe and secure environment for staff and offenders,
- Providing offenders with adequate living conditions, clothing, and food,
- Assisting offenders with changing their cognitive behavior through risk reduction classes, and
- Assisting staff with their professional development.

This includes the number of offenders who received services at least one day. FY20 Actual is lower than targeted. During the last three months of the fiscal year, the number of offenders received decreased because of COVID.

2c. Provide a measure(s) of the program's impact.

Revised measure for FY2021 to better align with evidence based practices.

This is a new measure related to the new risk reduction instrument; the first period of measurement is with FY20 actual. This measure is of Moderate, High, and Very High risk level offenders based on ORAS assessments and their enrollments in Pathway to Change and Impact on Crime Victims classes. This number is below target. We are targeting higher risk offenders who have more behavioral issues and as such are not available to attend in seat programs. In addition, we reduced the number of offenders in these classes due to social distancing for COVID.

2. CORE DESCRIPTION

Offender Healthcare represents core funding for constitutionally and statutorily mandated health services (medical, mental health and sex offender services) for incarcerated offenders in 20 correctional facilities. The Department of Corrections uses these funds to maintain and improve the health of incarcerated offenders by minimizing the effect of infectious and chronic diseases, improving the health of offenders with chronic mental illness, reducing the number of sexual assault victims within the offender community, providing statutorily required sex offender treatment and assessment, and ensuring that offenders are constitutionally confined.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

The Medical Services section oversees the comprehensive medical care provided by the contract vendor. This is a managed-care system, which stresses healthcare education, disease prevention, immediate identification of health problems, and early intervention to prevent more debilitating chronic health problems. Medical units are staffed with nurses and physicians at every correctional center and provide care ranging from a regular sick call to extended or infirmary care. The following ancillary medical services are provided at all our correctional centers, unless otherwise specified:

- X-rays
- Blood draws and other laboratory analysis
- Dental care
- Optometric care
- Audiology screenings
- Physical therapy
- Telemedicine

The medical contract monitoring staff ensures that offenders receive medical care that is equivalent to the community standard and that all mandates of the contract are fulfilled. The goal is to return offenders to the community as medically stable as possible, so they may become productive citizens of the state.

Comprehensive mental health services improve offender health and stability, which contribute to both institutional security and overall offender functioning while incarcerated and contribute to offender success and community safety upon release.

Sex offender treatment and assessment provide evidence-based therapeutic interventions and ongoing assessment to reduce risk to reoffend and promote safer communities upon release.

Mental health services include:

- Psychiatric intake and treatment
- Psychiatric medication management and monitoring
- Individual psychotherapy
- Group therapy
- Activity therapy
- Case management and discharge planning
- Crisis intervention and management
- Sex offender treatment and assessment

Though the population has decreased, as our population with more healthcare needs stay, we may likely see a rise in encounters. This is not based on the population, but the health of the remaining population.

Even though population is decreasing, the need for mental services by the resident population is remaining stable or increasing.

2. CORE DESCRIPTION

The Offender Healthcare Equipment appropriation is utilized is to purchase healthcare equipment for 20 correctional facilities. These funds are used to repair or replace inoperable or obsolete equipment required by the offender healthcare contract. Effective use of these funds decreases offender out-counts by allowing more services to be provided inside correctional facilities. This in turn promotes public safety and allows the Department of Corrections to utilize security staff more efficiently.

1a. What strategic priority does this program address?

Reducing risk and recidivism

1b. What does this program do?

Substance Use and Recovery Services provides appropriate treatment to offenders with substance use related offenses, histories of abuse, and/or who are mandated to participate in treatment. The department has established a range of evidence-based services that include:

- diagnostic center screening
- clinical assessment
- institutional substance use treatment services
- pre-release planning

Additionally, the Department of Corrections provides contract oversight and quality assurance monitoring of these programs. The federally funded Special Needs Program at Northeast Correctional Center provides services for individuals who cannot be adequately addressed in other programs. Substance use and recovery services works in close partnership with the Department of Mental Health to facilitate timely continuing care when high need offenders are released from prison-based treatment centers to probation and parole.

Substance use and recovery services are a critical step in reducing criminal behavior, relapse and recidivism.

2a. Provide an activity measure(s) for the program.

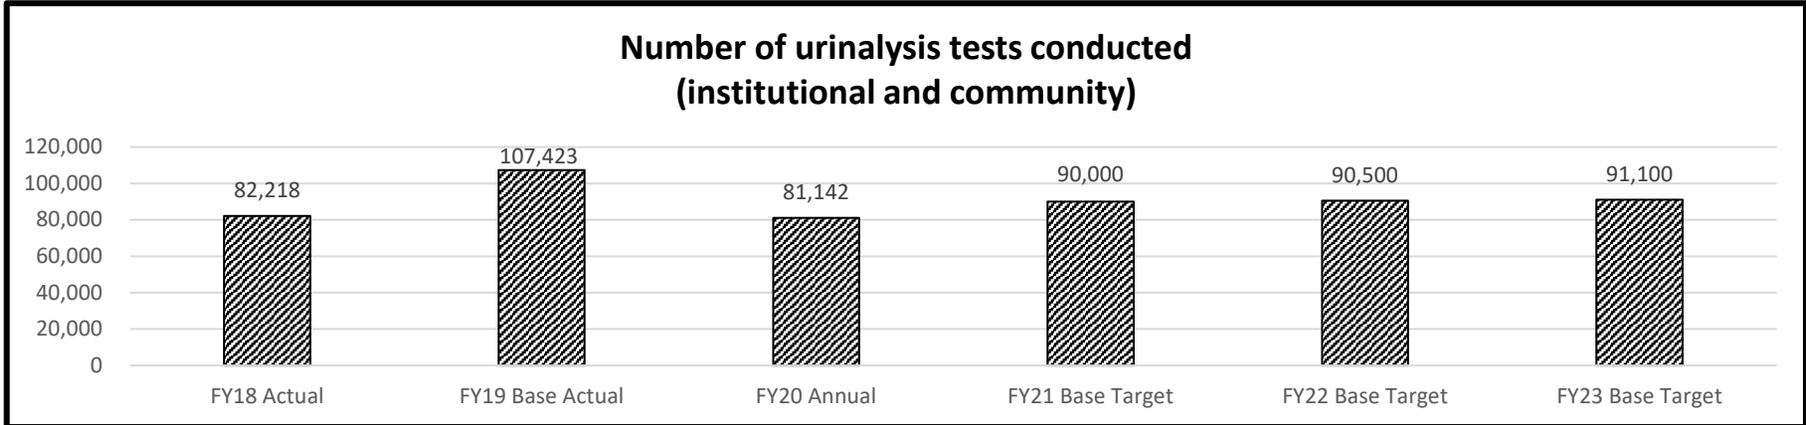

Due to institutional population decline, an increase of individuals served is not anticipated. However, screening scores of offenders indicate that approximately 75% (currently 20,700) of them need substance use disorder services. Thus at present, approximately 15,000 individuals in prison need services and are unable to receive them while incarcerated due to insufficient capacity for treatment.

2. CORE DESCRIPTION

The Department of Corrections conducts random and targeted drug testing of offenders in prison and in the supervised community. Urinalysis testing is conducted to ensure the safety and security of the offenders, the staff and the public and to identify opportunities for early relapse intervention. The testing processes are conducted at the department's toxicology lab, located at the Cremer Therapeutic Community Center.

Each month:

- at least 10% of the offender population in the institutions is randomly tested for substance use through urinalysis;
- at least 5% of the offender population who are suspected of substance abuse based on staff observations, searches, or because they are assigned to work release programs outside institutions is target tested for substance use through analysis; and
- offenders under community supervision are random and target tested.

The toxicology lab is also responsible for conducting the urinalysis testing of departmental employees.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

The Department of Corrections, through a combination of state-operated programs, inter-agency agreements and outsourced services, provides qualified educators to conduct institution-based education and vocational programs for offenders. Incarcerated offenders without a verified high school diploma or high school equivalency certificate are required to be enrolled in academic education classes. Offenders who have obtained a high school diploma or equivalency certificate may apply for admission to vocational, work-related skills training. Providing education services reduces risk and recidivism by equipping offenders with necessary knowledge and skills to increase employability and enhance success in the community. The department continuously assesses the educational needs of offenders from their intake through their release to the community.

Vocational skills training for offenders is a work-based approach to skills training that prepares offenders for employment after release. The department provides a comprehensive training program that prepares offenders to secure meaningful employment upon release from prison. Training courses include skills such as the following:

- Welding
- Auto mechanics
- Commercial vehicle operation
- Technical literacy, which includes computer skills
- Cosmetology
- Heavy equipment operation
- Culinary arts

The department identifies industry-specific skills required of entry-level workers to ensure that training provides required competencies for employment. Department of Labor certificates are awarded for program completion, facilitating employment upon release.

4. What are the sources of the "Other " funds?

Offender Canteen Fund (0405)

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 217.355 RSMo., Public Law 94-142 (Federal), Title I, II, IV and V, Title II-Work Force Investment Act/Adult Education and Literacy, Supreme Court decisions regarding offender libraries (Federal).

6. Are there federal matching requirements? If yes, please explain.

No. There are no matching requirements, however, the federal government does require "maintenance of effort" which means that the state must spend at least as much on education each year as in the previous year.

7. Is this a federally mandated program? If yes, please explain.

Federal Supreme Court decisions require the provision of "access to courts" through the provision of legal resources, reference material provided in the offender libraries and self-improvement materials. Offenders under age 22 who qualify as special needs children under provisions of Part B of the Federal Individuals with Disabilities Education Act (IDEA), must be provided a Free and Appropriate Public Education (FAPE).

In FY2020, the department requested and the General Assembly approved a fund switch of the remaining institutional canteen staff, all institutional librarians, all Career and Technical Education staff, and three Academic Education staff from General Revenue funding to Inmate Canteen Fund (ICF) funding. The combined annual General Revenue savings was \$4,332,859 (salaries and fringe) and 81.00 FTE (FY2020 salary and fringe levels). At the time of the request the department believed the ICF could support the additional expenses; however the continued drop in the offender population has resulted in significant revenue declines for the fund and all of the additional expenses are not sustainable.

The department is requesting to fund swap all Career and Technical Education staff, \$1,609,015 (plus \$1,122,922 fringe) and 42.00 FTE, back to General Revenue funding. This request should allow the ICF to remain solvent going forward and continue to support the costs of its own operations plus the significant programming and services (almost \$5 million per year) the fund supports for the offenders in the areas of education, recreation, and religious services. If the fund becomes insolvent the costs of those services would need to be picked up by General Revenue.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This request switches all Career and Technical Education staff from Inmate Canteen Fund funding to General Revenue funding.

5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

The revenue decline since FY18 is associated with the discontinuation of the sale of tobacco products and the decline in the offender population.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

DOC is requesting to move the cost of Career and Technical Education staff from the Inmate Canteen Fund back to General Revenue. This reduction in Inmate Canteen Fund expenditures will assist with the long-term sustainability of the fund, which would still support almost five million dollars per year in services and programming for offenders.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

Missouri Vocational Enterprises (MVE) operates industries to provide viable training/skills to offenders and produces a variety of products and services for state agencies, city and county governments, political subdivisions, state employees, and not-for-profit organizations. MVE instills personal responsibility in offenders through the development of diverse training programs that enhance offender employability and the opportunity for success while incarcerated and upon release.

- 22 industries are operated in 12 correctional centers statewide.
- These industries employ as many as 2,400 offenders annually.
- MVE has 50 job titles registered with the U.S. Department of Labor in Apprenticeship Programs.
- 1,781 offenders have completed these programs.
- There are 1,028 offenders actively working on their apprenticeship certification.
- Apprenticeship Programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release.

MVE continues to focus on improving its brand image by identifying key stakeholders, understanding those stakeholder's needs, meeting those needs and shifting mindsets from, "we have to buy from MVE, to we want to buy from MVE."

MVE is also focused on improving business practices and process flow to create a more efficient operation. In return, the customer will realize a cost savings and better buying experience. In addition, MVE continues to evaluate existing offender training programs, as well as explore future training programs that can be implemented within our correctional facilities.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

Community Supervision services make communities safer by holding offenders on probation, parole or conditional release accountable for their behavior by developing individualized plans and strategies for offender success.

- The division focuses on public safety by implementing evidence-based risk reduction strategies and programming. This includes actuarial assessments and targeting interventions to ensure the moderate and high-risk offenders are a priority with supervision and treatment resources.
- Evidence-based case management strategies have been implemented with the expected outcomes to be reduced recidivism and enhanced public safety.
- These strategies have been largely successful in redirecting internal resources during this period, reduction in supervision services will jeopardize public safety.

The Parole Board has undertaken several initiatives to base release decisions on an updated risk assessment instrument, which will allow the ongoing review of release decisions based on dynamic risk variables. This allows the board to adjust decisions when data suggests the offender's risk of reoffending could be mitigated by an alternative release strategies. This allows better allocation of resources between prisons and community supervision.

One of the department's strategic initiatives is to improve safety for our staff. In support of the Justice Reinvestment Initiative for the state of Missouri and in response to the COVID-19 crisis, the Division of Probation and Parole has changed the way business is done by developing a heightened presence and increased visibility in the community, providing more case management and supervision while in the community during non-traditional work hours to include conducting arrests of the Probation and Parole clients, and significantly increasing remote-work. Equipping officers with safety equipment and training them in proper arrest procedures will allow law enforcement more time to focus on the deterrence, investigation and apprehension of offenders committing violent crimes.

In FY2020, the department received an appropriation to provide 60% of field Probation and Parole Officers ballistic vests. This request is for the one-time funding to provide ballistic vests for the remaining 40% of staff.

2. CORE DESCRIPTION

This core request provides personal services funding for the Transition Center of St. Louis (TCSTL), previously known as the St. Louis Community Release Center (SLCRC), a 350 bed facility that provides housing and transitional programming to men released from the Division of Adult Institutions or those under community supervision in need of transitional services. Participation in available programming helps residents to balance the requirements of supervision with the responsibilities of living in the community. There are four phases to the program that includes assessment, intensive case management, reentry preparation, and programming tailored specifically to the offenders based on the assessment and treatment plan. Offenders continue to work in the community, are assigned a mentor and begin to transition back to the community after 90 days. The TCSTL has engaged with many community partners who have become part of the treatment team.

1b. What does this program do?

The Transition Center of St. Louis (TCSTL) (formerly St. Louis Community Release Center) is a 350-bed community-based facility that assists male offenders with reintegration to the community from prison.

- TCSTL provides stabilization while offenders remain assigned under community supervision.
- The Center provides the department with critical transitional services for offenders supervised in the metropolitan St. Louis area.
- The Parole Board stipulates offenders for assignment to the center based on their need for more structured supervision/assistance during the release process.
- The Center also provides a means to assess offenders under Parole Board supervision who are at risk for revocation.
- The Center may be used as a more intense supervision strategy for probationers at risk for revocation by the courts.

2. CORE DESCRIPTION

This section contains funding for three community corrections programs; electronic monitoring, residential facilities, and automated low-risk offender supervision. All three programs are funded by the Inmate Revolving Fund, which is sustained primarily through Intervention Fees paid by offenders under supervision.

The Electronic Monitoring Program (EMP) contracts for equipment and support services that enhance the supervising probation and parole officer's ability relative to monitoring, control and enforcement of offender movement, curfew restrictions, and alcohol consumption. This program aids reduction of recidivism by enabling more timely detection and response to violations for offenders who have been unresponsive or unsuccessful under traditional caseload supervision. In FY20, the division supervised an average of 1,063 offenders per day with electronic monitoring equipment.

Residential Facilities are contracted services, which provide transitional housing and programming to offenders who have no established home plans or are in need of additional structure to help ensure success on supervision. They provide offender assistance with obtaining employment, treatment and counseling services, life skills development, and transitioning back into the community.

Automated low-risk offender supervision is an FY 2022 new decision item request. Currently, Probation and Parole Officers' caseloads are a mix of high-risk, moderate-risk, and low-risk offender cases. The department is requesting appropriation authority to contract with a vendor for an automated supervision system for low-risk offenders on community supervision. The exact nature of the system will be determined through the state procurement process including a competitive bid.

1a. What strategic priority does this program address?

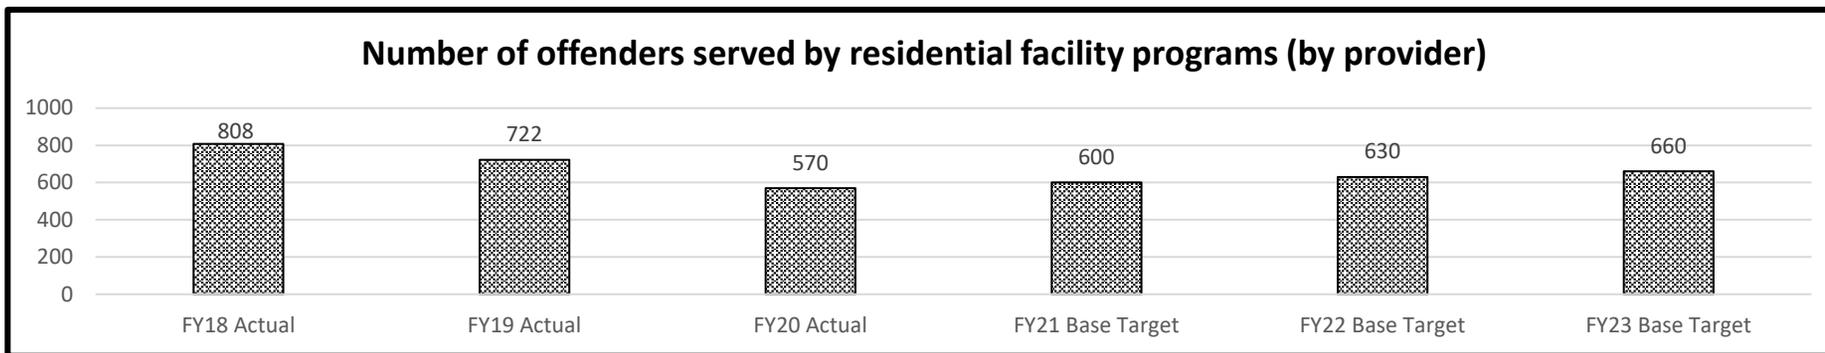

Reducing Risk and Recidivism

1b. What does this program do?

Residential Facilities are contracted services, which help reduce recidivism by providing transitional housing and programming to offenders in need of additional structure in the community. These services help ensure success on supervision, resulting in enhanced public safety.

- Residential facilities provide assistance to offenders in obtaining employment, treatment and counseling services, life skills development, and transitioning back into the community.
- Residential facilities serve an annual population of over 750 offenders for an average of 90 days per offender.
- The division provides a total of 156 residential beds in St. Louis, Kansas City and Columbia.
- The average daily cost per offender for a residential bed is \$72.94. The funding is solely through the Inmate Revolving Fund, which is sustained primarily through Intervention Fees paid by offenders under supervision.

2a. Provide an activity measure(s) for the program.

The department revised the use of electronic monitoring to better align with evidence based practice during FY19. The yearly capacity decreased to 688 with 100% completion of program. Target assumes 90% complete rate. This decreases the number served by increasing the length of stay for individual participants.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The exact system procured (and also the cost) will be determined via competitive bid through the state procurement process. The department is requesting this funding as a subsection of the larger Community Corrections section with appropriation flexibility. Once the procurement process is completed (by FY2023 budget) the department will request reallocation of authority as required.

5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

As an alternative to constructing additional prisons to meet increases in prisoner population, the Department of Corrections (DOC) operates six Community Supervision Centers (CSCs) to reduce the prisoner growth rate by insuring that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The CSCs provide a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing Probation and Parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for up to 40 offenders in need of structured residential supervision.

1a. What strategic priority does this program address?
 Improving Lives for Safer Communities by Reducing Risk & Recidivism

1b. What does this program do?
 The Parole Board determines whether a person confined in an institution within the Division of Adult Institutions of the Department of Corrections shall be paroled, and to release conditional offenders who are not released on parole. The Parole Board provides for the professional assessment and release of offenders by using appropriate treatment, sanctions and controls, with the primary consideration being the promotion of public safety. When necessary, the Parole Board may return and revoke parole and conditional release violators.

The Parole Board conducts approximately 850 parole consideration/hearings per month. Other duties of the Parole Board include making recommendations to the Governor regarding Executive Clemency applications and conducting conditional release extension hearings.

The Parole Board consists of seven members who are appointed by the Governor, currently five of the seven seats are filled. Approximately 30 staff, including Parole Analysts and clerical, support the Parole Board.

2a. Provide an activity measure(s) for the program.

This is a new program measure. The Board has revised procedures to better align with evidence based practices. This coupled with the decrease in the institutional population means we expect to conduct fewer hearings over the next few years.

2b. Provide a measure(s) of the program's quality.

This is a new program measure. No value for FY19. The grid release policy went into effect 9-1-19. While we are able to determine the number of individuals who will be eligible for a grid release, we are not able to assess the percent who will exit in compliance with the grid because we do not have a reliable distribution of the institutional population's risk on the ORAS instruments. Risk assessment with the ORAS began on July 1, 2019.

1a. What strategic priority does this program address?
 Building a Safer Work Environment, and Reducing Risk and Recidivism

1b. What does this program do?

The canteen fund is for the operation of department institutional canteens, which are authorized to sell groceries, household, health and beauty supplies, clothing and shoes, clear case electronics, and other miscellaneous items to inmates at the lowest practical price for offender use and benefit. Per Section 217.195, RSMo, income generated from this fund can be expended solely to improve offender recreational, religious, or educational services, and for canteen cash flow and operating expenses and equipment from Inmate Canteen Fund (0405). Providing these services reduces risk and recidivism by offering desired items for purchase by offenders, which increases their quality of life while incarcerated. The utilization of income for recreational, religious, or educational services also reduces risk by providing services which offer a positive focus for offenders during their incarceration.
