HB Section(s): 8.150

Program Name: Revenue Collection and Licensing

Program is found in the following core budget(s): ATC Core Budget

### 1a. What strategic priority does this program address?

Improve efficiency of collections and licensing through operational effectiveness and transitioning to an electronic license application system.

### 1b. What does this program do?

This program collects excise taxes on all alcoholic beverages sold in Missouri using an operationally effective electronic excise tax collection system. In addition, the program is in the process of providing an electronic licensing and case management system that will provide for online licensing and license fee collections.

- \$41 million annual excise tax collections on liquor, beer and wine.
- The excise taxes are verified annually by performing over 15,000 desk and field audits to ensure accurate reporting and proper payment of taxes.
- \$4.65 million annual license fee collections.
- 70% of license fee collections are credited to the Division of Alcohol and Tobacco Control Fund created in SB 373, and 30% is credited to the General Revenue Fund.
- Over 32,000 license applications and renewals are processed annually.

## PROGRAM DESCRIPTION

Department of Public Safety

HB Section(s): 8.150

Program Name: Revenue Collection and Licensing

Program is found in the following core budget(s): ATC Core Budget

### 2a. Provide an activity measure(s) for the program.

ATC provides licensing to approximately 15,000 liquor licensees throughout the state of Missouri. In addition, licensing compliance affects all citizens in Missouri by providing a safer environment enhanced by licensees adherence to laws. A total of 32,822 licenses were issued in FY'20, of which some are secondary licenses, out of state licenses, and transportation licenses.

#### FY'20 - License Types Total

##### Number of Licenses Issued by Type:

Manufacturers	235
Wine Direct Shippers	1,524
Microbrewers	89
Domestic Wineries	84
Solicitors	1,109
Wholesalers	277
Retailers	29,504
<b>Total Licenses Issued</b>	<b><u>32,822</u></b>

### Liquor Licenses Issued

### Percentage of Increase in Collections

## PROGRAM DESCRIPTION

Department of Public Safety

HB Section(s): 8.150

Program Name: Revenue Collection and Licensing

Program is found in the following core budget(s): ATC Core Budget

### 2b. Provide a measure(s) of the program's quality.

ATC's excise tax process involves 100% reconciliation between suppliers and wholesalers, which attributes to assurances that ATC is collecting all the excise taxes due to the state of Missouri on intoxicating liquor products. The online excise tax system allows licensees to enter the data, either manually or electronically, and the system generates the reconciliations. ATC will follow up on any differences that weren't reconciled during the match up process.

### 2c. Provide a measure(s) of the program's impact.

The Revenue Collection and Licensing program issues liquor licenses, primary and secondary, to over 15,000 businesses and collects over \$45 million in licensing fees and excise taxes with minimal costs. More importantly, the program helps to ensure the safety of our citizens by verifying that the proper individuals have the ability to sell alcohol in our State.

### Program Costs as Compared to Revenue Collections - FY'2020

Program Cost - \$992,659  
Revenue Collections - \$45,877,440

## PROGRAM DESCRIPTION

Department of Public Safety

HB Section(s): 8.150

Program Name: Revenue Collection and Licensing

Program is found in the following core budget(s): ATC Core Budget

### 2d. Provide a measure(s) of the program's efficiency.

ATC is streamlining the licensing process by implementing an online licensing and case management system to improve applicants' experience. ATC is at the beginning of the process (6% completed). The system is complex and complicated to implement, but will reduce license processing from 10-21 days to a projected 7-10 days.

### 3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

### 4. What are the sources of the "Other " funds?

### 1a. What strategic priority does this program address?

Increase Liquor and Tobacco Law Compliance to Create a Safer State, by Reducing Problems Related to Alcohol Consumption

### 1b. What does this program do?

The regulatory compliance program regulates the Alcohol and Tobacco Control Industry relating to the manufacture, distribution and sale of alcoholic beverages. Duties include investigative licensing, Server Training, Tobacco Merchant Training, and undercover investigations. The liquor industry operates under a three tier system that governs the marketing, promotion and sale of alcohol. This three tier system ensures that the three major components of tax collection, product integrity and market stability are constantly reinforced. ATC teaches the liquor industry on liquor control and tobacco laws through constant interactions and training conducted in the industry. Investigations are conducted for any observed or reported violations to ensure compliance of liquor control and tobacco laws.

### 2a. Provide an activity measure(s) for the program.

ATC had four Agent vacancies during FY'20 that continued to affect the regulatory activity efforts. COVID-19 also had a negative impact on regulatory activity efforts.

Vacancies impacted enforcement numbers to some extent. The Kansas City District Office operated two Agents short for the first 2 quarters of FY'20. The Springfield District Office operated one Agent short the entire FY'20 period. The St. Louis District Office operated two Agents short for the first quarter and part of the second quarter of FY'20, and was without an Agent for the fourth quarter for another vacant position. The Jefferson City Central Office operated one Agent short for part of the second quarter and the last 2 quarters of FY'20.

**2b. Provide a measure(s) of the program's quality.**

Alcohol and Tobacco law enforcement officers (Agents, District Supervisors, Deputy and Chief) are Class A POST certified.

The regulatory compliance program performed 2,854 inspections and investigations to ensure compliance with alcohol and tobacco laws and regulations. During those inspections and investigations 447 violations were discovered, or 16% resulted in violation. As regulatory efforts increase, the violation rate will decrease.

**2c. Provide a measure(s) of the program's impact.**

**A reduction in the ratio of number of violations as compared to investigations would show a positive result in increased compliance.**

	FY'19 -	FY'20 -	FY'21 -
Violations/Arrest Reports	649	664	635
Investigations*	1,830	1,772	1,950
Ratio of Violations to Investigations	35%	37%	33%

\* Investigations include routine investigations, special investigations and Law Enforcement assists.

The ratio of violations to investigations increased in FY'20 due to ATC working through a backlog of direct to consumer shipping reports during office closures and remote work in the last quarter. The wine direct shipper license allows an out-of-state or in-state wine manufacturer to ship up to two cases of wine per customer directly to consumers in Missouri each year. A large number of violation reports in FY'20 were due to wine direct shippers shipping over that limit.

### 2d. Provide a measure(s) of the program's efficiency.

ATC increased staff in FY'17 and FY'19 to accommodate a new direction in regulatory efforts. In efforts to increase compliance and provide licensees with information, ATC provides regulatory compliance to approximately 15,000 liquor licensees throughout the state of Missouri. In addition, regulatory compliance affects all citizens in Missouri by providing a safer environment enhanced by licensees adherence to laws.

#### Efficiency Measures Continued:

Number of Badges in Business Investigations should reduce violations resulting in increased compliance.

Number of Public Relations Visits will increase public's awareness of agency activities.

Increased Number of Server Training Events and Number of People Trained will decrease violations.

Reduced Number of Violation Reports shows increase in compliance.

Number of Alcohol and Tobacco Inspections should increase knowledge and result in increased compliance.

Number of Alcohol and Tobacco Investigations should reduce violations and result in increased compliance.

By tracking the above measures, ATC will be able to gauge the efficiency of the agents and their efforts. Through active and efficient enforcement, ATC should begin to see an increase in compliance to liquor control and tobacco laws and correspondingly a reduction in violations.

### 3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe

## PROGRAM DESCRIPTION

Department of Public Safety

HB Section(s): 8.150

Program Name: Administrative Disciplinary

Program is found in the following core budget(s): ATC Core Budget

### 1a. What strategic priority does this program address?

- Increase Industry Knowledge of Liquor Laws
- Increase Industry Participation in Administrative Rules Reviews and Statutes
- Improve the Quality, Efficiency and Economy of Service Provided
- Increase the Safety of the State of Missouri by Reducing Alcohol Related Problems

### 1b. What does this program do?

Administrative Discipline - The liquor control laws and the state's system of alcoholic beverage regulations are designed to ensure the public health and safety as affected by intoxicating liquor. The Division is authorized by statute to take disciplinary action against any licensee who violates any provision of Chapter 311, RSMo, or any regulation relating to intoxicating liquor. This chapter and the rules and regulations prohibit, for example, sales of alcohol to minors or to intoxicated persons or lewd activity on licensed premises, and sales or possession of controlled substances on a licensed premises. The statutory provisions allows warnings, suspensions, revocations, probation or fines for violations of liquor statutes or regulations, thereby helping to ensure conduct of licensees in the liquor business in accordance with public safety requirements. In addition, the division is authorized by statute to inspect tobacco stores and outlets for compliance with all laws related to access to tobacco and alternative nicotine products to minors and to take disciplinary measures against those in violation.

Product Registration - Law requires licensed Missouri solicitors and manufacturers to register brands of intoxicating liquors for sale to licensed wholesalers with the Division of Alcohol and Tobacco Control. Product registration gives us assurances that all excise taxes due the State of Missouri are paid, and that the product goes through the proper safeguards to ensure product integrity. We also can verify if the licensee holds the proper license to sell the product, and we have the ability to quickly remove tainted product from the market, if necessary.

Support Organization - Provides administrative, technical and managerial support to assist in the administrative and regulatory compliance of Missouri's liquor control laws and youth access to tobacco laws. Included in this area are education, budgeting, purchasing, financial, personnel/payroll support, fleet management and legislative duties.

Program is found in the following core budget(s): ATC Core Budget

### 2b. Provide a measure(s) of the program's quality.

The Administrative Disciplinary program provides a disciplinary process for violators of liquor laws and statutes. The program is designed to hold violators accountable and deter them from future violations. Those that have egregious violations and those that continually violate liquor laws and regulations are at risk of having their liquor license(s) revoked.

### 2c. Provide a measure(s) of the program's impact.

Administrative Disciplinary Actions	FY'2019	FY'2020
Total Number of Conferences Held	272	121
Total Number of Violations (Charges)	476	208
Number of Fines Issued	278	128
Amount of Fines Issued	\$ 408,700	\$ 144,900
Dismissals	16	16
Revocations	5	36
Suspensions	44	8
Total Days of Suspension	208	61
Written Warnings	105	8
Unlawful Sale to Minor Charges	161	86
Smallest Fine Amount	\$ 100	\$ 100
Largest Fine Amount	\$ 50,000	\$ 50,000
Shortest Period of Suspension	2 days	2 days
Longest Period of Suspension	15 days	30 days

The ATC Administrative Disciplinary process provides for an informal conference that allows licensees who have been charged with a violation of the liquor control laws to meet with the State Supervisor to provide an opportunity to explain the details of the situation, and provide examples of what they have done to prevent another violation from occurring. The state supervisor will issue penalties after the informal conference.

All fines go to the local school district where the violation occurred. This provides financial assistance to schools.

The Division of Alcohol and Tobacco Control respectfully requests funding to continue and complete the electronic content management (ECM) scanning project that started mid-year FY'20. The scanning did not begin until November 2019 after all equipment was received and setup, and temps were hired. Temps were only able to scan for three full months due to a slow start and due to COVID-19, which caused the scanning to be put on hold from March 2020 through the remainder of FY'20. This project will add efficiencies, foster communications, and reduce waste by moving legacy case documents to one electronic management system. This will allow ATC to reduce the processing time for customer requests of documents. Currently, the unscanned documents are in various forms (paper, microfilm and AS400 images). These documents are not searchable, and can only be accessed by central office licensing staff.

ATC is responsible for the scanning, indexing and storing of the legacy files. ATC is respectfully requesting funds to maintain 6 temporary employees to continue all the scanning, indexing and storing of the legacy files. Once the system is up to date with active files, ATC will perform the scanning, indexing and storage processes as part of their normal work day functions. Out of 30 active license bookcases with 7 shelves each needing to be scanned, 4 bookcases were completed from November 2019 to March 2020 before scanning was put on hold due to COVID-19.

The Division estimates that approximately 13 bookcases will be completed in FY'21, leaving 13 bookcases to be completed in FY'22. It takes approximately 1 month, or 690 hours, to complete 1 bookcase.

**6b. Provide a measure(s) of the program's quality.**

**6c. Provide a measure(s) of the program's impact.**

Below is a comparison of the annual savings in staff time to process document requests with the new system in place.

- Current estimated cost to process file requests:
  - Average file requests per month = 60
  - Average processing time per file = 90 minutes
  - Estimated monthly hours to process requests:
  - $60 \times 90 = 5400 / 60 = 90$  hours
  - Salary of Executive I = \$26.89/hr
  - $90 \times \$26.89/\text{hr}$
  - Total current cost = \$2,420.10
- Expected processing times:
  - All files = 5 minutes
  - $(5 \times 60) / 60 = 5$  hrs
  - Salary of Executive I = \$26.89/hr
  - $5 \times \$26.89 = \$134.45$
- Savings:  $\$2,420.10 - \$134.45 = \$2285.65$
- Annual savings in staff time to process document requests:  
 $12 \times \$2,285.65 = \$27,427.80$

**6d. Provide a measure(s) of the program's efficiency.**

**Return on Investment Summary -**

Annual Savings in staff time to process document requests is approximately \$27,428.

**Agency Success Criteria**

90% reduction in the storage of paper files which are housed at the central office. 80% reduction in processing time to request, retrieve, redact, and refile requested documents. Current document retrieval times for unscanned documents are approximated as follows:

- a. Manual files at the ATC office - 20 minutes
- b. Imaged documents - 2 hours
- c. Microfilmed files - several days

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

- ✓ Current temporary employees will continue the manual electronic scanning of all documents in these legacy files..
- ✓ Current ATC employees will scan current information as they receive it, and get it into the system as the old documents are also being loaded into the system.
- ✓ At the end of the process, all records will be stored in an electronic scanning format, easily obtained by staff statewide, and also provide a quicker easier method for providing sunshine requests within the time allotted.

### 2. CORE DESCRIPTION

Persuant to Section 311.240.4, RSMo, application for renewal of licenses must be filed on or before May 1st of each year. Thus, the Division uses the refund allotment to refund license fees that were paid in advance and not used due to various reasons such as sale of the business. The Division must refund businesses that have paid in advance for a license that was not used. This ensures compliance with Regulation 11 CSR 70-2.150(5), which addresses refunds on licenses.

According to RSMo Chapters 316, 320, 650, & 701, the Division of Fire Safety responsibilities include investigating fires and explosions in Missouri; fireworks permitting and shooter training and licensing; conducting fire safety inspections in facilities licensed by Mental Health, Family Services, and Health and Senior Services; boiler and pressure vessel safety inspections; training and certification of fire service, EMS, and law enforcement personnel; amusement ride permitting, safety inspections, and accident investigations; elevator safety inspections; the licensing and regulation of blasters and blasting companies; and the oversight of the Division's budget and program planning and policies. The requested flexibility would assist to ensure that the most efficient and effective services are provided. Effective response to changing situations is difficult when working within the boundaries of fixed budgets which have decreased over the last several years. Due to core reductions and restrictions, expense budgets are tight. Flexibility to operate across appropriation lines among all funds is needed to meet statutory obligations and continue providing the best possible service to the citizens of Missouri.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

**3. Please explain how flexibility was used in the prior and/or current years.**

PS lapse due to turnover allowed for flexibility to be used to pay necessary on-going expenses for safety equipment, vehicle maintenance, communications, and supplies.	The Division of Fire Safety anticipates using flexibility in FY22 to offset limited E&E budget, and assist expenditures for protective equipment for uniformed staff, fuel and excessive maintenance and repair on high-mileage vehicles.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 8.160

Program Name: Fire Investigation Program

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Public Safety through Fire and Arson Prevention

### 1b. What does this program do?

The Investigation Unit provides fire and explosive related investigative services to Missouri's fire service and law enforcement agencies. A Deputy Chief Investigations Manager supervises two Commissioned Investigator Supervisors and fourteen field Senior Commissioned Investigators, each located strategically throughout the state and on call twenty-four hours a day, seven days a week. Under RSMo. 320.230, the State Fire Marshal and appointed investigators are responsible for investigating incidents involving the possibility of arson, explosion, or related offenses as requested by the fire service, law enforcement and prosecuting attorneys within the state.

Fire Investigators have the power of arrest for criminal offenses when investigating the cause, origin or circumstances of fires, explosions, or like occurrences involving the possibility of arson or related offenses. Investigators also have arrest powers when aiding and assisting a Sheriff or a Chief of Police or their designated representative at their request.

The Investigation Unit has three certified Computer Voice Stress Analysis (CVSA) operators who assist Federal, state, and local law enforcement agencies by conducting examinations. Additionally, Investigators are assigned special details when activated for Homeland Security or Statewide Mutual Aid occurrences. Commissioned Fire Investigators also serve as the enforcement arm of the Fireworks and Blasting Safety programs.

### 2a. Provide an activity measure(s) for the program.

Program Name: Fire Investigation Program

Program is found in the following core budget(s): Fire Safety Core

### 2b. Provide a measure(s) of the program's quality.

Fourteen Division of Fire Safety field Senior Commissioned Investigators respond statewide 24/7 to requests from fire and law enforcement agencies. Using national standards and proven scientific methods, their mandate is to determine origin and cause of all fires, to include uncovering criminal activity. These efforts are aimed at fire and arson prevention for our Missouri communities.

Investigators with the Division of Fire Safety have an excess of 750 hours of training including POST certification, Division of Fire Safety State Fire Investigator Certification, National Fire Academy training and various Federal Law Enforcement Academy training. Investigators are trained in several fields of expertise to include insurance fraud, explosive recognition, weapons of mass destruction, and post-blast investigations. Investigators also have advanced training in clandestine drug lab investigations.

### 2c. Provide a measure(s) of the program's impact.

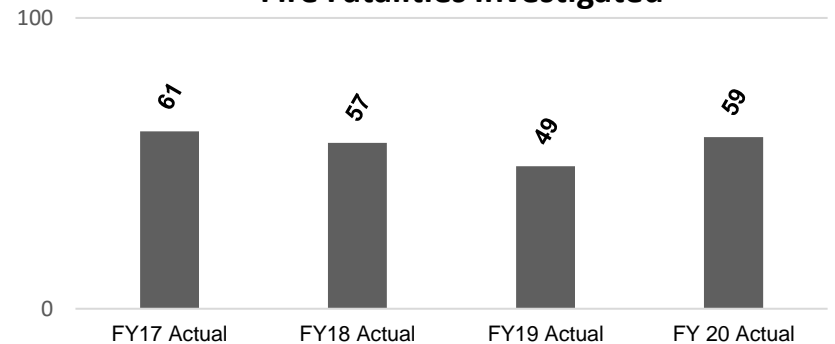

Arson is one of the most difficult of all major crimes to prove due to the large destruction of evidence. In FY20, the Division Fire Investigators worked 278 criminal investigations. Of those, 64 cases resulted in arrests. This arrest rate of 23% is above the national average.

Fire Investigators are routinely requested to scenes involving injuries and/or fatalities. In FY20 Fire Investigators responded to fires involving 59 fatalities.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: **Blasting Safety & Explosives Enforcement Program**

Program is found in the following core budget(s): **Fire Safety Core**

### 1a. What strategic priority does this program address?

Public safety from injury from explosives

### 1b. What does this program do?

In 2007 the Blasting Safety Act was implemented regulating the training, testing, and licensing of individuals who conduct blasting and setting regulations for how blasting is conducted in our State.

The seven-member State Blasting Safety Board, appointed by the Governor, has the duty to advise the State Fire Marshal in the administration of the program. The Missouri Explosives Safety Act Administration Fund (0804) is appropriated to the Division and expended for the administration and enforcement of the program.

Explosives users (companies) are to register with the Division of Fire Safety, and file an annual report of the number of tons of explosives purchased and used. Fees are based on the amount of tons of explosives used. Blasting companies began registering with the Division of Fire Safety in the fall of 2007, and began submitting reports and paying fees for explosives used in January of 2008. The economic downturn in 2009-2011 impacted the blasting industry, resulting in lower than anticipated program revenues. In the 2018 session, the General Assembly passed HB1286, allowing for an increase in fees and thereby securing the future of the program. Revised rules and corresponding fees became effective in 2020.

### 2a. Provide an activity measure(s) for the program.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: **Blasting Safety & Explosives Enforcement Program**

Program is found in the following core budget(s): **Fire Safety Core**

### 2b. Provide a measure(s) of the program's quality.

The Blasting Safety and Explosives Enforcement Program helps to ensure the safety of the public living or working near blasting sites.

The Blast Safety Investigator is trained to investigate blasting complaints from citizens.

Licensed Blasters must meet RSMo 319.303 of the Missouri Blast Safety Act, including rules adopted by the board, the code of federal regulations, and blasting industry best practices.

Upon request of Division staff, blasting companies must show verification that explosives used are within allowable limits.

### 2c. Provide a measure(s) of the program's impact.

The licensing of blasting companies and individual users of explosives assure the safety of the public. More than 300,000 tons of explosives have been used since this program was implemented in 2008. The staff has responded to and investigated nearly 500 citizen complaints since the implementation of the program. Division of Fire Safety staff work closely with the blasting industry to ensure compliance with federal and state regulations.

### 2d. Provide a measure(s) of the program's efficiency.

The Division of Fire Safety staff registers 100% of all blasting companies in the State of Missouri. The fees generated by the program allow for the appropriation of one Blast-Safety Investigator and one clerical staff. However in order to effectively and efficiently address blasting complaints from around the state in a more timely manner, the Division has cross-trained field Fire Investigators.

### 3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.) NOTE: Expenditures low in FY19 due to low fund balance, held vacant position open for extended period.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: Fireworks Licensing Program

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Public safety while enjoying fireworks

### 1b. What does this program do?

The Division of Fire Safety is charged with the investigation, permitting, and inspection of the fireworks industry in our State. Manufacturers, distributors, jobbers, wholesalers, seasonal retailers, and persons requesting special fireworks displays apply to the Division of Fire Safety for a permit to do business in Missouri. The scope of the program also entails indoor proximate fireworks shows such as those used in theatres, ballgames and concerts.

Fire Inspection and Fire Investigation staff conduct inspections of facilities selling, manufacturing, or distributing fireworks. Of the 1,272 permits issued in 2020, 1,124 were seasonal retailers. According to State law, these retailers can only sell between the dates of June 20 through July 10, and December 20 through January 2. Division staff are trained in the proper procedures for the inspection of public fireworks displays and conduct inspections of these sites before a display is permitted. Division staff also investigate complaints involving the manufacture or sale of illegal fireworks.

This program generates approximately \$160,000 annually which is deposited to the credit of the Fire Education fund (0821) and used for training Missouri's fire service.

### 2a. Provide an activity measure(s) for the program.

The Division of Fire Safety works closely with local jurisdictions to ensure 100% of all public fireworks displays are inspected prior to the event to ensure the safety of all spectators. Operators relicense every 3 years.

## PROGRAM DESCRIPTION

HB Section(s): 08.160

Program Name: Fireworks Licensing Program

Program is found in the following core budget(s): Fire Safety Core

### 2b. Provide a measure(s) of the program's quality.

Fire Inspectors and Fire Investigators attend pyrotechnic training specific to NFPA 1123 & 1126 regarding fireworks pyrotechnics, displays, and manufacturing to ensure safety standards are met. Display operators are tested to these NFPA standards prior to being licensed and must relicense every three years. Division Fire Inspectors review display sites to ensure safety requirements are met.

### 2c. Provide a measure(s) of the program's impact.

The Fireworks Licensing program issues permits to approximately 1,300 businesses annually and has licensed 205 indoor and outdoor fireworks display operators. More importantly, the program helps to ensure the safety of our citizens and visitors when enjoying fireworks with friends and family.

### 2d. Provide a measure(s) of the program's efficiency.

Because the Division never received personnel or expense funding support to administer this program since the implementation in the 1980's, the Division of Fire Safety cross-trained Fire Inspection and Fire Investigation staff to perform these mandated duties.

Division field Inspectors and Investigators make a concerted effort to inspect the 1,124 seasonal retail locations throughout the State during the 20-day Summer selling period for safety compliance. This is in addition to the public fireworks displays inspected and permitted by Division staff.

### 3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: Fire Inspection

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Public safety of the most vulnerable Missouri citizens.

### 1b. What does this program do?

The Fire Safety Inspection Unit conducts fire safety inspections for facilities and locations which are licensed or certified by several state agencies. Agencies served include the Department of Health and Senior Services, Department of Mental Health, Department of Social Services, Senior Citizens Nutrition Centers, and the Veteran's Administration. The Inspection Unit is comprised of a Deputy Chief Inspector, two Regional Chief Inspectors, and 17 Fire Safety Inspectors supported by one administrative support assistant.

Inspections conducted by this Unit are based on a variety of state statutes, promulgated rules, and nationally recognized codes and standards. These requirements are designed to reduce and/or eliminate fire safety hazards for more than 140,300 occupants of long term care, child care, mental health, youth-at-risk, and foster care homes and facilities located throughout the state. Fire safety inspections improve fire prevention measures and provide for a safer environment for all occupants.

### 2a. Provide an activity measure(s) for the program.

**NOTE - FY20 decline in inspections due to COVID-19 restrictions in State-licensed facilities. CDC guidelines have restricted inspection access for long-term care facilities.**

### 2b. Provide a measure(s) of the program's quality.

In FY20, the Fire Safety Inspection Program conducted 10,447 inspection activities with a re-inspection rate of 35% to ensure safety violations are corrected and ultimate compliance with rules, codes and standards. This improves the quality and safety of occupants and residents.

The Fire Safety Inspection Program utilizes nationally recognized codes such as National Fire Protection Association (NFPA) and the International Building and Fire Code to assist with interpretation of various rules and regulations. Division of Fire Safety Inspectors are certified to NFPA 1031, and have additional training in fire protection systems, codes, regulations, and standards.

Program Name: Training and Certification Program

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Well-trained and safe fire fighters

### 1b. What does this program do?

The Division of Fire Safety's Training and Certification Unit provides quality training and internationally accredited certification to Missouri's fire service and emergency response community. The Unit has been accredited through the International Fire Service Accreditation Congress (IFSAC), as well as the National Board of Fire Service Professional Qualifications (Pro Board) which require certifying entities to follow strict guidelines and meet the most current standard of the National Fire Protection Association (NFPA).

Many fire departments around the state require certification prior to hiring and promoting individuals. The Division currently offers 27 levels of certification and numerous training programs and has issued over 99,000 certifications since the program's implementation in 1985.

There are approximately 847 fire departments and 25,000 fire fighters serving Missouri citizens. Of those, it is estimated 80% volunteer their service and have limited, if any resources for life-saving training. The Division's Training and Certification Unit plays a vital role in providing these services.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: Statewide Fire Mutual Aid & Incident Reporting Program

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Deployment of emergency resources to agencies or citizens in need.

### 1b. What does this program do?

The Fire Mutual Aid Program is a voluntary system comprised of all fire agencies in the State. When an emergency or disaster exhausts local and regional resources, the Division is responsible for coordinating responses to requests for fire service based resources. These resources include fire suppression and personnel, as well as specialty resources including but not limited to: hazardous materials teams, heavy rescue resources, search and rescue teams, and fire-based emergency medical services.

The Statewide Fire Mutual Aid System has been activated to coordinate 27 major inter-regional responses between 2006-2020. Even when resources are not deployed inter-regionally during local mutual aid events, the Division maintains situational awareness on all major events, and serves as an information conduit between local, regional, state, and federal stakeholders for the duration of the event. The Fire Mutual Aid Coordinator is responsible for maintenance, training, and exercising this plan, as well as coordinating response in times of emergency.

The Coordinator also manages the K9 Mutual Aid, the Fire Department Registration, Donated Equipment, and Radio Frequency Sharing Agreements programs as well as serves as the State Program Manager for the National Fire Incident Reporting System in which fire departments input response information for data collection and prevention purposes.

In FY20, the Statewide Fire Mutual Aid System, in coordination with Statewide Law Enforcement Mutual Aid and local Emergency Management Directors, supported SEMA Logistics in the distribution of COVID-19 related PPE for Fire Service and Law Enforcement personnel.

### 2a. Provide an activity measure(s) for the program.

Although not officially activated, ESF 4/9 assisted SEMA by providing logistical support for Fire/Law COVID-19 PPE Distribution throughout the event. FY20 included 15 deployments of Fire Mutual Aid resources for transportation and distribution of PPE and one for Cave Rescue/Recovery. Alerts involved the rostering of resources for Civil Unrest (2) and one to support DoD Airfield Ops with apparatus.

Staff deployed to the State Emergency Operations Center (SEOC) must have Incident Command System 100, 200, 700, 800, 300, and 400 level training. Additionally, since multiple agencies respond to the SEOC, various exercises are practiced each year to include tornados, nuclear plant incidents, and earthquake scenarios to ensure all agencies are prepared to communicate and coordinate effectively with each other. Several staff at the Division of Fire Safety are trained to respond to the SEOC if activated or has issued an advisory, in addition to Regional Fire Mutual Aid Coordinators who volunteer from around the State. This ensures a capable and coordinated level of response in time of emergency.

### 2c. Provide a measure(s) of the program's impact.

Statewide Fire Mutual Aid is a component of an all-hazard system for allocation, mobilization, and deployment of fire suppression, search and rescue, and hazardous materials resources in response to local incidents that require more resources than those available under any existing inter-jurisdictional mutual aid agreement, especially in response to a major disaster where assistance is needed from one area or region of the State to another. Fire Mutual Aid is designed to augment the available resources during time of emergency or significant event. The Statewide Fire Mutual Aid Coordinator facilitates the coordination of fire suppression mutual aid resources in order to minimize human suffering, save lives and conserve property.

This program has a great impact on the Missouri communities in times of emergencies and disasters. Communication and forward preparedness is key in order to ensure a rapid and ready response.

### 2d. Provide a measure(s) of the program's efficiency.

The Division works closely with local fire departments to coordinate resources and route them to areas of the State in greatest need. This is with minimal cost to the State. Fire department participation in this program continues, however reimbursement for the deployment of local resources is a concern.

Program Name: Elevator Safety Program

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Public safety on elevator-related equipment

### 1b. What does this program do?

The Elevator Safety Program is responsible for enforcing nationally recognized safety standards for the maintenance, inspection, testing, and operation of all elevator equipment. New elevator equipment installations, as well as modifications/alterations to existing equipment, are required to comply with a plan review process based upon nationally recognized standards through the Division and a permit issued before such work begins. This program also has regulatory authority over the issuance of state licenses to qualified elevator inspectors performing inspections, as well as elevator mechanics and contractors within the State. The program is charged with enforcing safety rules and regulations, collecting prescribed fees, registering and permitting elevator equipment and processing and issuing variance requests.

Functions of this program are overseen by the Governor-appointed Elevator Safety Board. Fees collected are deposited into the Elevator Safety Fund (0257).

### 2a. Provide an activity measure(s) for the program. FY20 Decline in inspections due to limited access to facilities as a result of COVID-19.

### 2b. Provide a measure(s) of the program's quality.

Division Inspectors are responsible for all plan reviews of new installations and conduct acceptance inspections on new equipment prior to permitting. Division of Fire Safety Elevator Safety Inspectors are QEI (Qualified Elevator Inspectors) as certified by the National Association of Elevator Safety Authorities.

Division staff also conduct required annual training for 85 state-licensed elevator inspectors, as well as license and regulate 743 elevator mechanics and 62 elevator contractors who must re-license every 2 years. ASME codes and standards are adhered to stringently in the inspection of all elevator-related equipment in order to ensure the safety of the public.

### 2c. Provide a measure(s) of the program's impact.

The Elevator Safety program issues operating permits to nearly 20,000 elevators and related objects, but more importantly, the program helps to ensure the safety of our citizens and visitors when using elevators and related equipment in our State.

The Division of Fire Safety's program cited safety violations on 6,320 (32%) objects inspected in FY20 which were corrected to ensure the safety of the public.

### 2d. Provide a measure(s) of the program's efficiency.

Four Division of Fire Safety inspectors and 91 approved third-party inspectors conducted inspections on 19,696 elevators and related equipment in our State in FY20.

Periodic quality control reviews are conducted by Division staff to ensure all licensed inspectors are performing thorough and adequate inspections per state law and regulations.

Inspection and certificate fees allow the Elevator Safety program to be self- supporting . Fees are set by rule, kept at a minimum and are below average of neighboring states. Certificate fees in Iowa are \$50; Arkansas fees are \$55; whereas Missouri certificate fees are \$25.

### 3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. *(Note: Amounts do not include fringe benefit costs.) Turnover and vacancies result in reduced expenditures for FY20.*

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.160

Program Name: Amusement Ride Safety Program

Program is found in the following core budget(s): Fire Safety Core

### 1a. What strategic priority does this program address?

Public safety on amusement rides or while attending carnivals, fairs and amusement parks.

### 1b. What does this program do?

Legislation in 1997 created the Amusement Ride Safety Act with the Division of Fire Safety designated to administer the program. Before any amusement ride can operate in the State of Missouri, the ride shall be inspected by a state-approved ride inspector. With the exception of St. Louis County, there are no local inspection or enforcement programs of amusement rides in our State. Applications for the state permit and inspection reports are reviewed each year by Division staff prior to issuing a state operating permit. The staff perform quality control/spot inspections on rides which include climbing walls, ziplines, bungee jumps and dry slides. If life safety issues are noted during a spot safety inspection, the issues shall be corrected prior to ride operation. Additionally, any amusement ride accident meeting specific criteria is required to be investigated by a qualified inspector.

Because no FTE or E&E authority was appropriated for this program, the Division absorbed the duties by cross-training Elevator Safety Inspectors. Funds generated from the operating permit fees are deposited into the Elevator Safety Fund (0257) which supports both the Elevator Safety and Amusement Ride Safety programs. The Governor-appointed Amusement Ride Safety board advises Division staff.

### 2a. Provide an activity measure(s) for the program. Decline in Amusement Ride activity in FY20 and conservative estimate for FY21 due to COVID-19 issues.

**2b. Provide a measure(s) of the program's quality.**

Five Division of Fire Safety Inspectors are trained and certified by the National Association of Amusement Ride Safety Operators (NAARSO). NAARSO and American Society for Testing and Materials (ASTM) standards are used for the inspection and permitting of rides in our State.

Similar programs exist in Arkansas, Tennessee, Oklahoma, Illinois and Kansas.

**2c. Provide a measure(s) of the program's impact.**

In FY 20, 897 ride permits were issued, while 6 ride incidents were reported and investigated.

The Amusement Ride Safety program serves more than 152 amusement ride owners, but more importantly, the functions of this program help to ensure the safety of the citizens and visitors of our State when attending fairs, carnivals and amusement parks. In a typical year, the program oversees rides at all Missouri fixed park locations, as well as the Missouri State Fair, the Ozark Empire Fair, Boone and Cole county fairs, and multiple other county fairs and festivals. Many of these events were cancelled or scaled back in FY20 due to COVID-19.

**2d. Provide a measure(s) of the program's efficiency.**

Because no FTE or E&E authority was appropriated for this program, the Division absorbed the duties by cross-training the Elevator Safety Inspectors to perform the duties of this program and has recently started a training program for Fire Inspectors to perform some of these duties.

Fees remain relatively low in comparison with neighboring states. An amusement ride permit in Missouri is \$30, while a permit in Arkansas is \$100, and Kansas is between \$75-\$100 depending on the type of ride.

The Division of Fire Safety is also charged with performing quality control checks of amusement rides operating, as well as the 68 third-party amusement ride inspectors in our State.

Program Name: **Boiler and Pressure Vessel Safety Program**

Program is found in the following core budget(s): **Fire Safety Core**

### 1a. What strategic priority does this program address?

Public safety from boiler and pressure vessel related accidents.

### 1b. What does this program do?

The Boiler and Pressure and Vessel Safety Inspection Program strives to ensure the safety of the general public while in office buildings, churches, schools, day care centers, and commercial businesses by providing oversight of the inspection of boilers and pressure vessels. In addition to seven state inspectors, the Division of Fire Safety commissions 46 insurance company inspectors who provide routine inspections for their insured in Missouri. Additionally, state inspectors perform initial inspections on all newly installed objects. Also, the Chief Inspector conducts joint reviews on welding repair companies of boilers and pressure vessels to ensure compliance of jurisdictional requirements.

Functions of this program are overseen by the Governor-appointed Boiler and Pressure Vessel Safety Board. Fees collected for operating certificates are deposited in the Boiler and Pressure Vessel Safety Fund (0744).

### 2a. Provide an activity measure(s) for the program.

### 2b. Provide a measure(s) of the program's quality.

State-employed and state-commissioned inspectors must meet state and national standards and have a minimum combined education and experience of five years in the boiler and pressure vessel industry. The Division-employed inspectors each have more than 20 years in the industry. Annual continuing education courses are required of all inspectors in order to maintain the National Board Commission. Inspections are based on the National Board Inspection Code, ASME, along with state rules.

<b>3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.</b>			
<p>The Division of Fire Safety maintains a fleet of 50 vehicles yet has very limited funding to maintain, purchase and replace vehicles. Therefore funding to replace 15 high-mileage vehicles in FY22 is requested. All of these vehicles will be assigned to staff who perform program mandates and enforcement duties throughout the State.</p> <p>On numerous occasions the field staff have been unable to conduct essential duties due to problems with their assigned vehicles. Mechanical issues have been the cause of multiple rescheduled or missed inspections or meetings. Fire Investigators have traveled extended distances to process a fire scene due the vehicle of the nearest investigator being out of service. Besides being an inconvenience to the employee, this is also a burden to the public they serve.</p> <p>However, our primary concern is the safety of our employees. Division vehicles are assigned to our employees who are permanently located across the State and essentially work out of their vehicles while conducting enforcement activities and responding to fire and explosive investigations and bomb threats. Our investigation staff is on call 24-hours a day, seven days a week and is routinely called to remote areas where roadside assistance may be few and far between. Inspection staff is responsible for enforcing fire safety regulations at state-regulated facilities caring for our State's most vulnerable citizens. Field staff have been stranded roadside due to mechanical issues 20 times in the last 18 months. Employee and citizen safety by not providing staff with dependable transportation.</p> <p>Reimbursement of mileage for staff to use personal vehicles would be more costly over time. Additionally, the use of personal vehicles is impractical due to the large amount of technical equipment required to perform mandated functions (see 6b). This would also present real safety concerns due to toxin exposure from fire scene equipment contaminating personal vehicles.</p>			
<b>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</b>			
<p>This request is for fifteen vehicles to replace high mileage fleet vehicles for Division of Fire Safety field staff who do not have access to a centralized carpool fleet. These vehicles will be mid-size sedans and trucks due to the amount of equipment required for staff. Each requested replacement meets the Fleet Management recommended replacement mileage.</p> <p>\$157,032 - 9 Mid-size sedans  \$146,760 - 6 Full size trucks  \$48,000 - Truck bed covers, slide-outs and supporting equipment for fire scene investigation processing and evidence storage.</p>

Other Funds: Cigarette Fire Safety & Fire Fighter Protection Fund (0937)

### 2. CORE DESCRIPTION

The national report published by NFPA states an estimated annual average of 18,100 (5%) reported home structure fires started by smoking materials killed an average of 590 (23%) people annually, injured 1,130 (10%), and caused \$476 million in direct property damage (7%) between 2012-16.

In order to reduce deaths and injuries from this preventable tragedy, as well as to decrease property loss from fires due to unattended cigarettes, the 2009 General Assembly passed House Bill 205 and created the Fire Safe Cigarette Act. This Act requires the Division of Fire Safety to regulate the sale of reduced ignition propensity cigarettes. Similar programs have been implemented within State Fire Marshal offices in all 50 states, and proven to reduce the number of cigarette-related fires.

Division responsibilities include a certification process for cigarette brand families and individual cigarette styles, including recertification every three years; recertification if the cigarette is altered in any way; notification of certifications to the Attorney General and the Department of Revenue; a monitored testing process; approval of cigarette markings; handling of funds for certification processing; and management of the Cigarette Fire Safety and Fire Fighter Protection Act Fund to be used for the delivery of fire prevention and safety programs. The Division has registered or renewed 4,986 Brand Styles as reduced propensity cigarettes.

<p>According to RSMo Chapters 320.350, the Division of Fire Safety responsibilities include the administration of the Fire Safe Cigarette Act. The workload of the program is cyclical due to the recertification of the cigarette brands every three years, and therefore a core reallocation is counterproductive. Currently the Division is using existing personnel to administer the program. This request would allow for the remaining personal services dollars to be flexed to expense funding and used for public education and prevention programs which target our State's most vulnerable fire victims. ## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.165

Program Name: Fire Safe Cigarette Program

Program is found in the following core budget(s): Fire Safe Cigarette Core

### 1a. What strategic priority does this program address?

Reduce smoking-related fires

### 1b. What does this program do?

In order to reduce deaths and injuries from cigarette related fires, as well as to decrease property loss from fires due to unattended or discarded cigarettes, the Fire Safe Cigarette Act was created and passed in 2010. This Act requires the Division of Fire Safety to regulate the sale of reduced ignition propensity cigarettes. Similar programs have been implemented within all 50 states, and proven to reduce the number of cigarette-related fires.

Responsibilities of the program include the certification process for cigarette brand families and individual cigarette styles, including recertification every three years; recertification if the cigarette has been altered in any way; notification of certifications to the Attorney General and the Department of Revenue; a monitored testing process; approval of cigarette markings; and management of the Cigarette Fire Safety and Fire Fighter Protection Act Fund to be used for the delivery of fire prevention and safety programs. The Division has registered or renewed 4,986 Brand Styles as reduced-propensity cigarettes.

### 2a. Provide an activity measure(s) for the program.

#### CERTIFICATION BRAND FAMILIES - RECERTIFY EVERY 3 YEARS

### 2b. Provide a measure(s) of the program's quality.

The Fire Safe Cigarette program is based on model legislation passed in 49 other states, developed by the US Fire Administration in partnership with the National Association of State Fire Marshals.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.165

Program Name: Fire Safe Cigarette Program

Program is found in the following core budget(s): Fire Safe Cigarette Core

### 2c. Provide a measure(s) of the program's impact.

The Fire Safe Cigarette program has now been implemented in all 50 States in order to regulate the sale of reduced propensity cigarettes with similar statistics and revenues. According to the Centers for Disease Control and Prevention (CDC), only 15.5% of the adult population were current smokers in 2016, compared to 33.2% in 1980. Despite today's comparatively small percentage of smokers, smoking remained the leading cause of home fire deaths over the total five-year period of 2012-2016 according to the National Fire Protection Agency, Home Fires Started by Smoking report 1/2019.

The national report also states, during 2012-2016, an estimated annual average of 18,100 (5%) reported home structure fires started by smoking materials killed an average of 590 (23%) people annually, injured 1,130 (10%) per year, and caused \$476 million in direct property damage (7%) per year. While Missouri-specific data is still being compiled, the program has been proven to reduce fire deaths nation-wide as similar programs were implemented.

In addition to serving the tobacco companies, the program serves the public. In FY20, the Division Fire Inspectors conducted numerous fire prevention and safety programs utilizing the appropriation from the Cigarette Fire Safety and Fire Fighter Protection Act fund. These programs are aimed at reducing fire deaths and injuries.

**Reported home smoking material fires and deaths, by year**

Other Funds:      Chemical Emergency Preparedness Fund (0587) based on \$100,000 cap with actual authority of approximately \$80,000 annually. Fire Education Fund (0821) based on \$250,000 cap, with actual authority of approximately \$180,000 dependent upon Fireworks program revenue.

### 2. CORE DESCRIPTION

This funding provides a wide spectrum of courses at no cost to the fire service, law enforcement personnel, emergency responders, local emergency planning committees, and other state agencies upon request. It is estimated that at least 80% of Missouri's approximate 25,000 fire fighters volunteer their service and often represent departments with little or no budget for training. The intent is to provide fire service and emergency response personnel with the most current training available in order to prepare them to respond to lifesaving incidents involving the citizens of Missouri.

These training programs, from the basic firefighter course to the very complex technical rescue course, represent the most fundamental and integral part of emergency services. Without funding for these programs, the health and safety of firefighters and emergency responders around the state will be directly effected, as well as the countless citizens who depend on an effective response in their time of need.

Although not state-mandated, 75% of the fire departments serving populations of 10,000 or more citizens require fire fighter training and/or certification. To charge for training programs is possible; however, to do so would significantly decrease their effectiveness by reducing their exposure to the target audiences. The result would be a sharp decline in readiness, safety, and professionalism of our emergency services.

### 3. PROGRAM LISTING (list programs included in this core funding)

Contracted training provided throughout the state at no cost to firefighters and emergency responders due to appropriations from the general revenue fund, the chemical emergency preparedness fund, and the fire education fund.

## PROGRAM DESCRIPTION

Department of Public Safety / Fire Safety

HB Section(s): 08.170

Program Name: Contracted Fire Fighter Training

Program is found in the following core budget(s): Fire Fighter Training Core

### 1a. What strategic priority does this program address?

Provide consistent quality training to fire fighters statewide.

### 1b. What does this program do?

Through multiple contracts with various training partners, this funding provides cost free training to Missouri's fire fighters, law enforcement, and other emergency response personnel. In an effort to reach all spectrums of those we serve, the training ranges from very basic to extremely complex. Courses are delivered in a regional format in an effort to reach all corners of our State. Training topics include fire fighting, fire service management, vehicle fire fighting, technical rescue, water rescue, driver training, hazardous materials recognition and response, fire safety inspections, etc.

For many individuals who volunteer their service , this funding is their only opportunity for training. It is estimated at least 80% of Missouri's 25,000 fire fighters volunteer their service and represent departments with little or no budget for training. In FY20, these funds provided 92 classes for 1,985 fire fighters. Unfortunately the COVID-19 emergency impacted the delivery of additional training.

### 2a. Provide an activity measure(s) for the program.

### 2b. Provide a measure(s) of the program's quality.

All contracted training courses are vetted by the Governor-appointed Fire Education Commission and must meet applicable NFPA standards. Courses must be taught by Division of Fire Safety certified instructors, and proper safety equipment must be utilized during skill evolutions.

In order to maximize training dollars, course attendance minimums are established by the Commission. Evaluation forms are completed by students at the conclusion of each class indicating overall satisfaction with these programs.

**Program Name** Missouri Veterans Homes

**Program is found in the following core budget(s):** Missouri Veterans Homes

**4. What are the sources of the "Other " funds?**

- Homes Fund, Veterans Commission Capital Improvement Trust Fund (VCCITF), Veterans Trust Fund and monthly room and care charges from veterans. Currently some veterans pay \$2,187 or less per month to reside in a Veterans Home. This charge to veterans is nominal compared to private sector nursing homes. Veterans with a 70% service connected disability rating or greater are not charged, the cost of care is fully covered by the U.S. Department of Veterans Affairs.
- Missouri Gaming Commission anticipated revenues declined by 51% in FY20; anticipated revenues are projected to decline by 27% in FY21.

**5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)**

Chapter 42, RSMo. Federal Veteran Health Administration (VHA) Directive 1601SH.01 under the direction of 38 USC Sections 1710, 1720(f), 1741-1745 and Title 38 CFR sections 17.46-47, 17.190--17.200, and parts 51-52

**6. Are there federal matching requirements? If yes, please explain.**

- The United States Department of Veterans Affairs (VA) pays a daily per diem for nursing home care provided to an eligible Veteran. The VA provides 100% cost of care for Veterans with a 70% or greater service connected disability. For the remaining veterans, the VA pays a daily per diem rate of \$112.36
- The construction grants from the VA are funded 65% federal dollars and require a 35% match from the State of Missouri. The construction grants are used to fund projects that ensure the Homes are in compliance with VA Regulations and also provide state of the art physical plants.
- Construction grants require 100% state cash up front and the VA will reimburse in phases throughout the project.

**7. Is this a federally mandated program? If yes, please explain.**

No, MVC participates in the State Home Per Diem Program (SHPD Program). The SHPD Program is a grant program providing federal assistance to VA-recognized and certified State Veteran Home facilities.

### 2. CORE DESCRIPTION

The Gaming Commission's role is to monitor gaming-related activities to ensure criminal elements do not infiltrate licensed gaming operations. The Commission also works to protect the public by ensuring games are conducted fairly according to rules. The Commission receives its operation funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955, RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

### 2. CORE DESCRIPTION

Fringe benefits for employees of the Missouri State Highway Patrol assigned to Gaming are provided through a retirement and insurance system other than MOSERS and MCHCP. Because of this, state contributions for these fringes are paid directly to the systems and not transferred. It is necessary that specific funds for this purpose be appropriated. Benefits include health and life insurance, retirement and long-term disability, worker's compensation, and the Employee Assistance Program.

### 2. CORE DESCRIPTION

The Gaming Commission receives its operational funding through licensing fees, direct reimbursements and admission fees, pursuant to Sections 313.800-313.955 RSMo. Remaining net proceeds for each fiscal year are then distributed to various funds by statutory formula. The 96th Missouri General Assembly passed House Bill 1731, which changed the distribution of net proceeds in the Gaming Fund (0286). Under the provisions of this bill, the order of distribution of remaining net proceeds for each fund reads as follows: \$5 million to the Access Missouri Financial Assistance Fund, \$3 million to the Veterans Commission Capital Improvement Trust Fund, \$4 million to the Missouri National Guard Trust Fund, and all remaining net proceeds to the Veterans Commission Capital Improvement Trust Fund.

### 2. CORE DESCRIPTION

House Bill 1519 and 1165 established the Missouri National Guard (MONG) Trust Fund, (RSMo 41.214) in FY98. The statute authorizes monies deposited to be used by the Office of the Adjutant General (OTAG)/Missouri National Guard for purposes pursuant to RSMo sections 41.010 to 41.1000 in support of the State Military Department and RSMo section 173.239 in support of the National Guard Tuition Assistance Program.

The National Guard Tuition Assistance Program: Core funding for the National Guard educational assistance program for MONG members authorized in RSMo 173.239. Maintaining Missouri's authorized Guard strength level is critical for the MONG to retain military units and related Federal Department of Defense funding authorizations. If Missouri is unable to maintain its authorized troop strength, the authorization will be withdrawn and allocated to states demonstrating the ability to maintain strength. Missouri will lose the federal resources, jobs, and dollars supporting those units, as well as the emergency response capability associated with them.

The Military Veteran Funeral Honors Program: Authorized in RSMo 41.958., this statute gives the OTAG/MONG the mission of providing military honor services to all deceased MO veterans. It is estimated that 488,000 veterans currently reside in Missouri. In FY17, Missouri's Funeral Honor Program coordinated and/or conducted over 14,600 missions. The appropriation helps ensure that MO deceased military veterans receive proper military honors (Burial services) to which they are entitled based on their patriotic service to our nation and state.

### 2. CORE DESCRIPTION

This law authorized by RSMo 42.170-42.222, recognizes WWII veterans, Korean Conflict veterans, and Vietnam War veterans for their patriotic military service to our State and Nation. Entitles every Missouri WWII veteran (military service between December 7, 1941 and December 31, 1946), Korean Conflict veterans (Military service between June 27, 1950 and January 31, 1955) and Vietnam veterans (Military service between February 28, 1961 and May 7, 1975) that were honorably discharged or were in honorable status at the time of his or her death or a Missouri resident to receive a medallion, medal, and a certificate of appreciation. Any Missouri veteran's spouse or the eldest living survivor of a deceased veteran who meets qualifications for war recognition may apply for a medallion, medal and a certificate. To be eligible for the award in prior years, the veterans must have been a legal resident of Missouri or a legal resident of this state at the time he or she entered or was discharged from military service. SB 600 (2014) broadened eligibility to Missouri National Guard veterans regardless of residency. This act created two new medallion programs, "Operation Iraqi Freedom and Operation New Dawn" (military service between March 19, 2003, and December 15, 2011) and the "Operation Desert Shield and Operation Desert Storm" (military service between August 7, 1990, and June 7, 1991) which authorizes the issuance of a military medallion, medal and certificate of appreciation to any veteran who served on active duty in a unit of the Missouri National Guard regardless of whether such veteran is or ever was a legal resident of this state.

### 2. CORE DESCRIPTION

The OTAG/MONG Field Support Program supports the operations and maintenance of the Missouri National Guard readiness centers and associated grounds. The MONG operates 59 readiness centers in 54 locations; the average age of these facilities is in excess of 43 years with 56% being over 40 years of age. These military facilities are state-owned and require recurring funding to support readiness center operations, utilities, building, grounds maintenance and custodial requirements. Adequate Field Support program funding is critical to ensure members of the Missouri National Guard have adequate facilities to conduct daily operations, training, store, and maintain associated military equipment. These facilities are also utilized during state emergency duty as operational staging areas, warming shelters, and distribution points for local communities. The facilities are also utilized by the Highway Patrol as driver testing sites. Failure to provide adequate operational support will ultimately result in a loss of federal funding and resources.

The Office of the Adjutant General and the Missouri National Guard are organized under the State Constitution in accordance with directives promulgated by the federal military department, pursuant to RSMo 41.010. Section 46 of Article III of the Missouri Constitution established the responsibility of the legislature to maintain an adequate militia. National Guard Regulation (NGR) 420-10 defines the responsibilities, organization, functions, and personnel for State Construction and Facilities Management Offices. The regulation includes guidance for establishing facility maintenance and repair standards and policies for planning and executing facilities projects. The relationship between the National Guard Bureau (NGB) and the State Military Department is governed by the fact that all Army National Guard (ARNG) facilities are owned by, leased for, or licensed to the States. As a result the States, and not the Federal government, operate and maintain all ARNG facilities.

6. Are there federal matching requirements? If yes, please explain.

No federal matching requirements

7. Is this a federally mandated program? If yes, please explain.

NGR 420-10 defines the basis of operation for all ARNG real estate. States agree to maintain facilities to "required minimum standards" under the Master Cooperative Agreement.

### 2. CORE DESCRIPTION

The State Emergency Management Agency (SEMA) is the state of Missouri's coordinating agency for disaster planning, response, and recovery. SEMA works with other state departments and agencies, local governments, federal government, and volunteer and faith-based organizations to ensure coordinated and efficient management during large scale emergencies and disasters.

SEMA is responsible for developing a statewide emergency capability that will minimize casualties and property damage caused by natural or manmade disasters while at the same time minimizing the use of available resources. When a disaster occurs that exceeds the recovery capability of local and state resources, SEMA assists the Governor in compiling information necessary to initiate a request for federal disaster relief funds. When a disaster is declared by the President, SEMA administers the funds for relief purposes and functions as the liaison between other state agencies, affected local subdivisions, and the federal government. As confirmed by a hazard vulnerability analysis, Missouri has a long and varied disaster history, thus; a potential exists for repeated catastrophes and disasters - both would threaten life and property in Missouri. SEMA is also responsible for administration of the National Flood Insurance Program within Missouri.

Other duties include the year-round administration and dispersal of federal funds to local governments for emergency management activities, year-round coordination of planning and response activities for public health emergencies, and the on-going training and exercise program for local government officials. SEMA is responsible for assisting local governments in developing local emergency operations plans, which will increase their capability to provide for the protection of their population from disasters.

**Program Name: Emergency Management Performance Grant**

**Program is found in the following core budget(s): SEMA Operations and SEMA Grants**

### 1a. What strategic priority does this program address?

Enhance state-wide emergency preparedness

### 1b. What does this program do?

- The Emergency Management Performance Grant (EMPG) aims to prepare the state through planning, organization, equipment, training and exercise.
- Funding provides salaries for State Emergency Management Agency personnel, and approximately 175 local emergency management personnel.
- The grant funding is used to provide trainings and exercises to first responders and state agencies across Missouri.
- Funding is used to purchase equipment to enhance preparedness such as generators and shelters to be deployed to regions in times of disaster.
- All EMPG subrecipients also have their Local Emergency Management Plans reviewed every two years to ensure the plan is current.

### 2a. Provide an activity measure(s) for the program.

The Activity for the grant runs on a calendar year from January 1 to December 31.

\*Training is designed and offered to Emergency Management, Fire, Law Enforcement, Emergency Medical Service personnel, volunteers, etc. In FY20, over six months of training were cancelled due to COVID-19. SEMA is working to implement virtual training to resume this service.

**HB Section(s): 08.315 & '08.330**

**Program Name: Emergency Management Performance Grant**

**Program is found in the following core budget(s): SEMA Operations and SEMA Grants**

**2b. Provide a measure(s) of the program's quality.**

A survey was completed by local subrecipients at the close of their FY19 grant. SEMA asked what the locals feel we do well, and what improvement could be made.

Top four answers for what SEMA does well specific to EMPG:

**Communication**

**Knowledgeable**

**Responsive**

**Trainings and Exercises**

Top four answers for what SEMA could improve specific to EMPG:

**Provide more funding**

**Give more notice of grant application and funding**

**Lessen training and exercise requirements**

**Reduce paperwork required**

A consistent issue each year is that EMPG's primary period of performance runs on a calendar year. The award from FEMA does not come until Congress has approved a budget, which is often well after the start date of the period of performance. This has consistently caused delay of funding to locals. In 2020, with the help of an EMPG supplemental, the period of performance will change for subrecipients from calendar year, to State fiscal year. This will allow SEMA to streamline application timelines and issuance of awards in a consistent manner each year, alleviating financial burden to the locals.

## PROGRAM DESCRIPTION

Department: Public Safety - State Emergency Management Agency

HB Section(s): 08.315 & '08.330

Program Name: Floodplain Management

Program is found in the following core budget(s): SEMA Operations

### 1a. What strategic priority does this program address?

Utilize opportunities to share information with the public about the National Flood Insurance Program.

### 1b. What does this program do?

The Missouri Floodplain Management Section works with communities throughout Missouri with concerns regarding new development in the FEMA mapped Special Flood Hazard Areas, providing technical assistance and NFIP training workshops to communities to promote sound floodplain management practices that are consistent with the NFIP. The Floodplain Management Section is funded by the Federal Community Assistance Program - State Support Services Element (CAP-SSSE) grant. FEMA uses a three tiered methodology (the Tiered State Framework - TSF) for funding the CAP-SSSE grant: Foundational, Proficient, and Advanced; all based upon state performance. Using FEMA's TSF is the best way to measure state program accountability, performance management, and transparency.

### 2a. Provide an activity measure(s) for the program.

The TSF establishes three tiers to which states are assigned based on an assessment of their performance against a series of benchmarks every three (3) years.

## PROGRAM DESCRIPTION

Department: **Public Safety - State Emergency Management Agency**

HB Section(s): **08.315**

Program Name: **Disaster Recovery**

Program is found in the following core budget(s): **SEMA Operations/Grant**

### 1a. What strategic priority does this program address?

Analyze the life cycle of obligated projects within declared disasters to increase awareness of observable trends and corrective realignment of strategies to reinforce expeditious pacing of project review and increase the efficacy of the payment and the closeout process.

### 1b. What does this program do?

SEMA's Disaster Recovery Section, a branch of SEMA's Recovery Division, administers federal grants to eligible public entities for the repair and restoration of damaged public infrastructure and facilities in federally declared disaster areas through the Public Assistance Program. These expenses are a direct result of the disaster and include:

- Category A: Debris Removal
- Category B: Emergency Protective Measures
- Category C: Roads and Bridges
- Category D: Water Control Facilities
- Category E: Public Buildings and Contents
- Category F: Public Utilities
- Category G: Parks, Recreational, and Other Facilities

Disaster Recovery Programs provide:

- Supplemental assistance to eligible public entities and individuals and households
- Direct assistance (if necessary) through Direct Federal Assistance (DFA) under Federal Mission Assignments

The Disaster Recovery Programs consist of:

- Public Assistance Program
- Individuals and Households Program
- Hazard Mitigation Program

All Recovery Programs occur in accordance with Public Law 93-288, as amended, under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act through a major Presidential Declaration. The declaration is prepared by SEMA recovery staff and sent to the President of the United States on behalf of the Governor. The State Emergency Management Agency then becomes the grant recipient and pass through entity for federal disaster relief funds. These funds are provided to recover from and mitigate against natural disasters and hazards and are available to eligible state and local governments, select private non-profit organizations, individuals, and households.

### 2b. Provide a measure(s) of the program's quality.

County-level participation in hazard mitigation planning (HMP) is voluntary and is a good indicator of the value local jurisdictions place on mitigation. Plans must be updated and approved by FEMA every five years. Plans expire for a number of reasons (e.g. lack of funding); if the local jurisdiction does not have an active mitigation plan, they are not eligible for mitigation grants.

### 2c. Provide a measure(s) of the program's impact.

## PROGRAM DESCRIPTION

Department Public Safety - State Emergency Management Agency

HB Section(s): 08.315

Program Name: Public Health and Emergency Preparedness (PHEP) and Hospital Preparedness Program (HPP)

Program is found in the following core budget(s): SEMA Operations

### 1a. What strategic priority does this program address?

**Preparedness and response of the public health and medical systems.**

### 1b. What does this program do?

Conduct emergency preparedness by planning, providing technical assistance, and providing resources to ensure both public health and medical systems are prepared to respond to all hazards.

#### **The Public Health Emergency Preparedness (PHEP) includes:**

- Missouri's Strategic National Stockpile (SNS) and CHEMPACK programs provide life saving pharmaceuticals and medical supplies for use in public health emergencies severe enough to cause local supplies to run out. The stockpile (state and federal) ensures the right medicines and supplies are available when and where they are needed to save lives.
- Planning for community preparedness, community recovery, emergency operations centers, public information, mass care, mass fatality, non-pharmaceutical interventions, and volunteer management.

#### **The Hospital Preparedness Program includes:**

- Show-Me Response and Missouri's Emergency System for Advance Registration of Volunteer Health Professionals (ESAR-VHP). Show-Me Response is a database/volunteer management system that verifies identification and credentials of health professionals so that volunteers can respond more quickly during disasters.
- Medical Reserve Corp is a national network of volunteers organized primarily at the local level to improve the health and safety of local communities. The state program supports local health departments and organizations to recruit, train and manage MRC units.
- Missouri Disaster Medical Assistance Team (MO DMAT-1) is staffed by 299 members and includes various medical professionals that deploy during disasters.
- Missouri Disaster Mortuary Assistance Team (MO MORT-1) is staffed by 70 members and includes various medical professionals which also deploy during disasters.

### 2a. Provide an activity measure(s) for the program.

-Missouri Disaster Medical Assistance Team (MO DMAT-1)

Missouri Mortuary Operations Response Team (MO MORT-1)

-DMAT members supplement MOMORT, however due to the specialized nature of the MOMORT members, MOMORT cannot supplement DMAT.

**Medical Countermeasures (MCM) Program**-The Medical Countermeasures Program maintains volunteers needed to distribute medical material and supplies. The Emergency Response Center at the Missouri Department of Health and Senior Services initiates a quarterly drill to notify volunteers and request availability to respond

### 2b. Provide a measure(s) of the program's quality.

#### Show-Me Response; Number of Volunteers Registered in Database

Outreach includes: Train the Trainer Sessions, quarterly newsletter distribution, and interfaces with local volunteer units/partner agencies, resulting in annual increases in the number of volunteers registered in Show-Me Response.

## REGISTERED VOLUNTEERS FOR DISASTER RESPONSE

\*A 250% increase was due to the Joplin Tornado Response in May 2011. Since 2011, the number of volunteers has increased by 45%.

#### Show-Me Response; Satisfaction Survey

A recent survey of registered volunteers yielded an 86% favorability rate for overall satisfaction ("Adequate to Excellent"). Annual surveys will be sent moving forward to assist with benchmarking quality measures.

### 2c. Provide a measure(s) of the program's impact.

#### Show-Me Response

From March through July 2020 (during COVID-19 Response), Show-Me Response was utilized to communicate medical surge needs and volunteer opportunities to those registered in the platform. Over 40,000 targeted messages were sent to inform and request medical volunteers. The program reached out to volunteers on behalf of multiple agencies across the state to include: MO Disaster Medical Assistance Team, rural hospitals, local public health departments, county Emergency Management Directors, and the Department of Mental Health.

**Utilization of Show-Me Response

### 2d. Provide a measure(s) of the program's efficiency.

The Show-Me Response program requires verification of the credentials of health care professionals in real time during emergencies. States must query the system within two hours to generate a list of potential volunteers, contact the volunteers, and within 12 hours provide the requestor an initial list of volunteers. Within 24 hours, the requestor is provided a verified list of available volunteers. Capacity to fulfill this requirement is exercised annually. The real-event utilization of the platform during March - July met all operational requirements and guidelines.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.									
SEMA is requesting this funding in order to maximize our availability of federal grant dollars. SEMA's hazard mitigation program works with two separate national level competitive FEMA Hazard Mitigation Grants; Pre-Disaster Mitigation (PDM) and Flood Mitigation Assistance (FMA). The PDM and FMA grant programs are awarded pre-disaster and can have a federal share ranging from 75% to 100% based on the circumstances of eligibility. FEMA selects projects based on priorities and can consist of community safe rooms, storm sirens, low water crossings, and buyout acquisitions.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)									
In the last 5 years, between both FMA and PDM grants, SEMA has given up 79% of available federal dollars (\$ 2,856,676.00) due to the lack of general revenue appropriation of \$ 942,255.00, in order to be able to provide the funding for the match requirement. The grant performance periods are typically 3 to 4 years, therefore; SEMA is requesting \$200,000 in general revenue in order to maximize our availability of federal grant dollars.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

PDM and FMA Grants Received FY15-FY18,  
FY19 & FY20 Projected

**6c. Provide a measure(s) of the program's impact.**

**6b. Provide a measure(s) of the program's quality.**

The Pre-Disaster Mitigation (PDM) program makes Federal funds available to plan for, implement, and sustain cost-effective measures designed to reduce the risk to individuals and property from natural hazards, while also reducing reliance on Federal funding from future disasters. Building Resilient Infrastructure and Communities (BRIC) Program is a new FEMA pre-disaster program that will be replacing the existing Pre-Disaster Program (PDM). The goal of BRIC is to change the federal focus away from reactive disaster spending and move in the direction of research-supported, proactive investment in community resilience. The Flood Mitigation Assistance (FMA) Program makes Federal funds available to reduce or eliminate the risk of repetitive flood damage to buildings and structures insured under the National Flood Insurance Program (NFIP). FMA, PDM, now BRIC, programs strengthens national preparedness, resilience, and supports the mitigation mission through Strategic Goal #1- Building a Culture of Preparedness.

**6d. Provide a measure(s) of the program's efficiency.**

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

## PROGRAM DESCRIPTION

Department: Public Safety - State Emergency Management Agency

HB Section(s): 08.325 & 08.330

**Program Name: Missouri Emergency Response Commission (Chemical Emergency Preparedness Fund (CEPF) & Hazardous Materials Emergency Preparedness (HMEP))**

**Program is found in the following core budget(s): SEMA Operations and MERC**

**1a. What strategic priority does this program address?**

Protect Missourians from Hazardous Materials

**1b. What does this program do?**

- The Missouri Emergency Response Commission (MERC) is responsible for administering the State and Federal Emergency Planning and Community Right to Know (EPCRA) Act. Industries affected by this legislation are required to report to the MERC annually to comply with state and federal laws.
- Fees are collected annually according to established reporting procedures.
- Provides training to Local Emergency Planning Committees (LEPC's) and HAZMAT Responders on the response to and mitigation of hazardous chemical incidents.
- Provides guidance and supervision for Local Emergency Planning Committees in their month to month activities.
- Assists LEPC's in the development and review of Hazardous Materials Plans.
- Follows up with and investigates reported facilities for not reporting as required by Federal and State statute, and for non payment of Tier II fees.
- Locates new facilities needing to report and file according to law.
- Administers federally funded Hazardous Materials Emergency Preparedness (HMEP) grant which provides hazardous materials emergency planning and training funds to local emergency planning committees and responders.

**2a. Provide an activity measure(s) for the program.**

Each county must submit a CEPF application annually to receive funding. The Local Emergency Planning Committees (LEPC) then use these funds to mitigate risks through planning and the training of first responders, healthcare providers, and the citizens of their jurisdiction. During FY20, staff concentrated on assisting LEPCs that were delinquent in filing for their funding from previous years, assisted in helping re-establish LEPC's into jurisdictions that have allowed their LEPC to become inactive, and apply for their CEPF funding, train and re-train LEPC's in their responsibilities to their jurisdiction involving HAZMAT, EPCRA, and Tier II reporting.

## PROGRAM DESCRIPTION

**Department: Public Safety - State Emergency Management Agency**

**HB Section(s): 08.325 & 08.330**

**Program Name: Missouri Emergency Response Commission (Chemical Emergency Preparedness Fund (CEPF) & Hazardous Materials Emergency Preparedness (HMEP))**

**Program is found in the following core budget(s): SEMA Operations and MERC**

### Planning & Training Funds Provided to Local Jurisdictions

\*Paid with a one year lag (e.g. FY19 payments are made in FY20)

### 2b. Provide a measure(s) of the program's quality.

The MERC works with local officials to complete facility compliance reviews to ensure all facilities report hazmat as required. This ensures safety for the first responders as well as ensures local jurisdictions are receiving their allocated funding under CEPF laws. The MERC also provides training and training compliance programs as required by state and federal programs, as well as LEPC assistance programs. All of these programs ensure the safety of communities and the responders within the community to possible HAZMAT incidences.

### Facility Compliance Reviews

## PROGRAM DESCRIPTION

Department: **Public Safety - State Emergency Management Agency**

**Program Name: Missouri Emergency Response Commission (Chemical Emergency Preparedness Fund (CEPF) & Hazardous Materials Emergency Preparedness (HMEP))**

**Program is found in the following core budget(s): SEMA Operations and MERC**

### 2c. Provide a measure(s) of the program's impact.

Local Emergency Planning Committees (LEPCs) are required to review their plans annually and update them periodically. The MERC had contracted planners that assisted local officials with updating their plans, which results in counties being better prepared to respond to emergencies.

The MERC's impact is measured in our ability to assist local officials in improving the safety of their responders and citizens thorough up to date HAZMAT response plans.

## PROGRAM DESCRIPTION

Department: **Public Safety - State Emergency Management Agency**

HB Section(s): **08.325 & 08.330**

**Program Name: Missouri Emergency Response Commission (Chemical Emergency Preparedness Fund (CEPF) & Hazardous Materials Emergency Preparedness (HMEP))**

**Program is found in the following core budget(s): SEMA Operations and MERC**

### 2d. Provide a measure(s) of the program's efficiency.

The MERC utilizes federal grant funds to train first responders in hazmat emergency response. This is essential to local government planning and mitigation of response to hazardous materials incidents. Class attendance is impacted by county size and location, as well as volunteer responders availability to attend the classes. We have begun concentrating on training Missouri's rural areas rather than focusing on urban centers. This will impact our number trained, however; it will ensure we are assisting everyone throughout the state in a more equitable manner.

The MERC does not evaluate efficiency through a purely economic means. We measure our efficiency through a lens of quality training for local first responders and citizens, as well as maintaining an excellent Tier II program, an excellent and active LEPC/LEPD program, and maintaining an excellent outreach program.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.  
(Note: Amounts do not include fringe benefit costs.)

4. What are the sources of the "Other " funds?

The MERC is completely self funding by collecting Tier II fees per Federal and State statute. We also receive federal grant funding from the Federal DOT. We do not receive any general revenue funds from the state.

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

**6. Are there federal matching requirements? If yes, please explain.**

Missouri receives Tier II funds (CEPF Program) that are used to match HMEP funds. These funds are utilized to provide salaries for the Program Director (Emergency Management Manager) and two Program Specialists.

**7. Is this a federally mandated program? If yes, please explain.**

Yes. This program falls under the Emergency Planning and Community Right to Know Act, Title 42 Chapter 116 Sub-Chapter 1 Section 1101 While the State Emergency Response Commission and Local Emergency Preparedness Committees are federally mandated under the Community Right to Know Act, the HMEP grant program is not federally mandated.
