# **Department Overview**

The Missouri Department of Transportation (MoDOT) is committed to providing the public with a safe and modern transportation system. MoDOT's mission is to provide a world-class transportation system that is safe, innovative, reliable and dedicated to a prosperous Missouri.

MoDOT is responsible for maintaining the seventh largest state highway system nationally with 33,832 miles of highway and 10,397 bridges. In addition to designing, building and maintaining roads and bridges, MoDOT works to improve airports, river ports, freight development, railroads, public transit systems and pedestrian and bicycle travel. The agency also administers motor carrier and highway safety programs. MoDOT's appropriations request of \$3.87 billion provides funding for all of these services; however, 15 percent of the appropriations request consists of transfer and refund appropriations, which are necessary for accounting purposes, but do not provide goods and services to taxpayers.

The Tracker, a quarterly publication, is MoDOT's organizational performance management system. MoDOT uses it to measure performance in key customer satisfaction areas such as keeping roads and bridges in good condition, keeping customers and ourselves safe, advancing economic development and operating a reliable and convenient transportation system. Information in the Tracker is used to guide departmental operations by focusing scarce resources. While key performance measures have been included in the program descriptions, The Tracker, which can be located at <a href="http://www.modot.org/about/Tracker.htm">http://www.modot.org/about/Tracker.htm</a>, provides the full set of performance measures used by the department.

# Missouri Highways and Transportation Commission

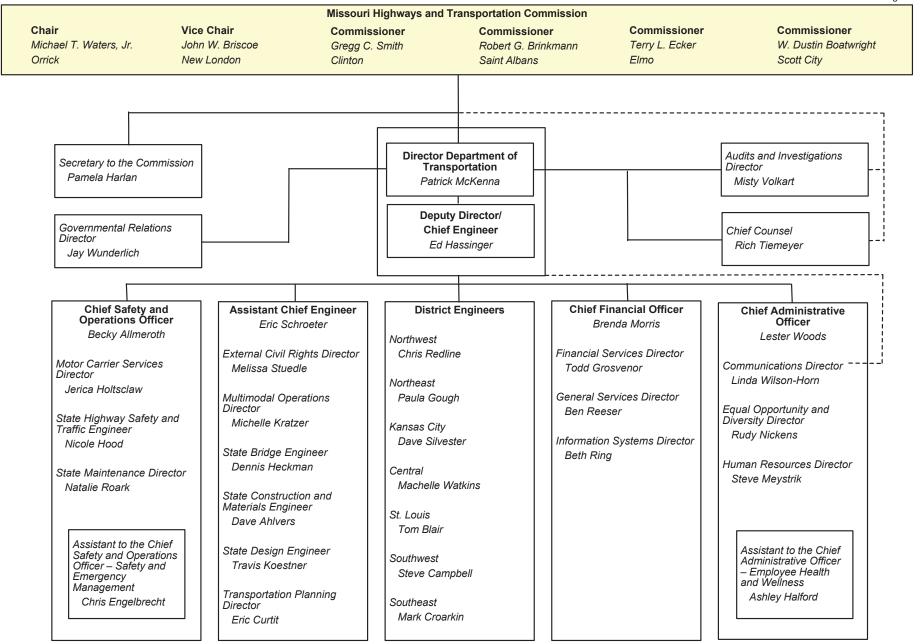

The Missouri Highways and Transportation Commission is a six-member bipartisan board that governs MoDOT. Commission members are appointed by the governor for a six-year term and are confirmed by the Missouri Senate. No more than three commission members may be from the same political party.

The Commission appoints MoDOT's director and the secretary to the commission. The director is responsible for all other employee appointments and hires.

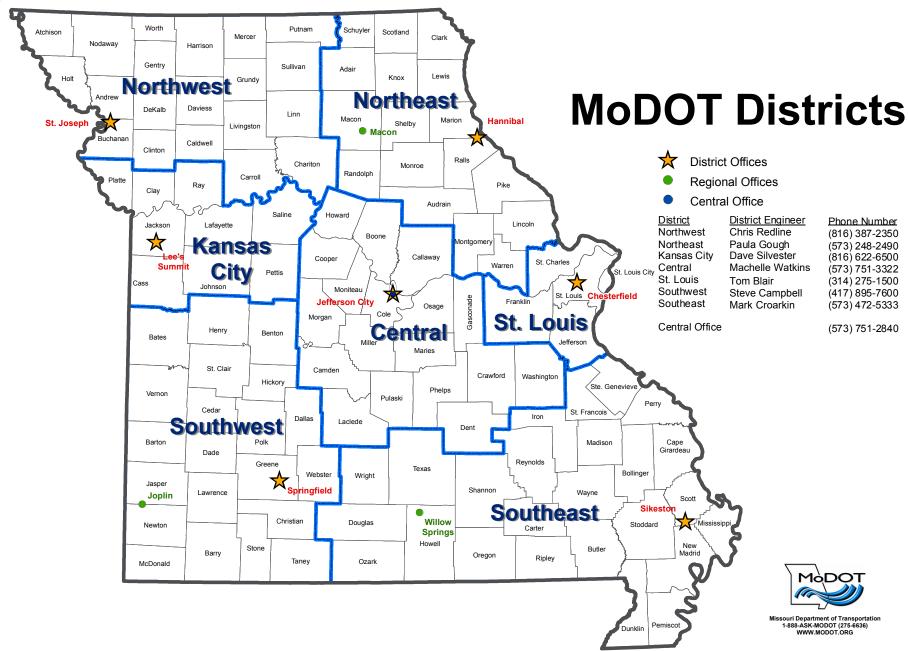

MoDOT's organizational chart is shown in Figure 1.

# **Districts**

MoDOT is divided into seven regions called districts, which are shown in Figure 2.

**Figure 2: MoDOT District Offices** 

# **MISSOURI**

# **Department of Transportation**

2020 Version 2.0

# **ASPIRATION**

Our mission is to provide a world-class transportation system that is safe, innovative, reliable, and dedicated to a prosperous Missouri

#### **THEMES**

# Safety

Moving Missourians Safely

### **Service**

Providing Outstanding Customer Service, Delivering Efficient and Innovative Transportation Projects, Operating a Reliable Transportation System

# Stability

Managing Our Assets, Stabilizing Resources and Engaging our Workforce, Building a Prosperous Economy for All Missourians

## **INITIATIVES**

- Improve Work Zone and System-wide Safety with Autonomous Truck-Mounted Attenuators
- Improve Partnerships with Other Agencies and Leverage Private Sector - Predictive Analytics to Optimize winter operations - Traffic Management on I-270 in St. Louis
- Pandemic Response to Maintaining Employee Safety and Health

- Improve Project
   Management Tools Maintenance Management
   Information System
- Facilities Optimization Strategy Implementation
- Fleet Safety and Utilization with Fleet Telematics
- Implement Enterprise Resource Planning (ERP)
- Update of the State Freight and Rail Plan
- Pandemic Response to Maintaining Essential Services

- Increase Employee
   Engagement and Recognition Training and Certification
- Research and Deploy Alternative Funding Solutions with Cross-cabinet Collaboration
- Leverage Innovations to Reduce Costs and Improve Service Quality
- SIMS Modernization Final Phases
- Federal Aid Computer System (FACS) - Phase II
- Pandemic Response to Progressive Cost Control

# **Department Strategic Overview: FY22 Budget**

DEPARTMENT:	Missouri Department of Transportation
DIRECTOR:	Patrick K. McKenna
DEPARTMENT ASPIRATION:	Provide a world-class system that is safe, innovative, reliable and dedicated to a prosperous Missouri
HIGHLIGHTS FROM FY20-FY21	* In fiscal year 2020, completed 458 projects totaling \$861 million 9.2% under budget and 88% on time.  * The Commission approved the 2020-2024 STIP totaling \$6.2 billion that is estimated on average each year to create 4,940 jobs. Transportation investments are expected to contribute \$15 billion of economic output during the next 20 years, resulting in a \$2.49 return on every \$1 invested in transportation.  * Missouri received an \$81.2 million Infrastructure for Rebuilding America (INFRA) Grant that will facilitate the construction of a new I-70 Missouri River Bridge at Rocheport and climbing lanes at Mineola Hill to improve safety and traffic flow through the Loutre River Valley. The receipt of this grant allowed the Commission to issue bonds to move forward with the Governor's Focus on Bridge program to improve 250 poor bridges around the state.  * The I-270 North Project, costing \$278 million, will address safety, congestion and system condition issues in the I-270 north corridor in St. Louis region from I-70 to the Chain of Rocks Bridge. The project is expected to be completed by December 2023.  * MoDOT has developed a list of qualified design-build teams to compete for the contract to build a new U.S. Route 169 Buck O'Neil Bridge in the Kansas City region. From this group, the Missouri Highways and Transportation Commission will select a best-value proposer to deliver the project. The selection is expected in February 2021, with construction beginning later that year.  * In March 2020, MoDOT implemented a statewide web-based Maintenance Management System (MMS) combining several reporting programs into a single system allowing maintenance personnel to assign work and equipment, as well as to document their work, the materials used and the location of the work. In addition, the system provides results and performance data so leadership can make informed decisions on the best use of available resources. It also brings about a greater measure of consistency on processes and documentation. Ultimately, MMS bene
FY22 PRIORITIES  FY23 PREVIEW	* Pass a ten-cent motor fuel tax that would be implemented by increasing it two cents a year for five years.  * Ensure resources are in place to effectively implement the next transportation authorization act that may have significant more funding than the current Fixing America's Surface Transportation (FAST) Act.  * Prohibit hand-held cell phone and other electronic wireless communication device use while driving, pass a primary safety belt law and continue to promote the Buckle Up Phone Down safety message.  * Replace motor vehicle registration fees based on vehicle horsepower with fees based on vehicle miles per gallon.  * Increasing employee compensation, which will allow the department to reduce turnover and effectively complete its mission.  * Created flexible benefits through the fiscal year 2022 Pilot Program new decision item request.  * Continue to make progress with safety and innovations.
FY23 PREVIEW	* In line with the 21st Century Task Force recommendations, continue exploring the available options for developing and implementing more sustainable and diversified transportation revenue sources.  * Continue to advocate for other changes in legislation to make Missouri highways safer.

# 2020 National Performance Report Card

#### **Road Conditions**

**Current Performance** = 91 percent major highways (5,546 miles) in good condition. 81 percent of minor highways (17,334) in good condition.

**National Ranking** = Missouri had the 7th best pavements on the National Highway System. (*FHWA Highway Statistics*)

#### **Customer Satisfaction**

**Current Performance** = 77 percent satisfied customers **National Ranking** = Missouri trails the highest rated company on the American Customer Satisfaction Index by only 7 percent.

#### **Project Management**

**Current Performance** = Missouri road and bridge projects were delivered within 0.7 percent of the award amount and 88 percent were delivered on-time.

National Ranking = Not available.

#### **Administrative Costs**

Current Performance = \$2,340 cost per mile National Ranking = Missouri has the 4th lowest administrative cost per mile.

#### Infrastructure for Business

Current Performance = No internal measure
National Ranking = A CNBC business study ranks
Missouri's infrastructure as the 24th best for business.

#### **Congestion (travel time index)**

Current Performance = Kansas City - 1.15 St. Louis - 1.15 National Ranking = Out of 101 urban areas, Kansas City and St. Louis both ranked 23rd as some of the least congested areas in the U.S. (*Texas Transportation Institute*)

#### **Number of Fatalities**

Current Performance = 880 fatalities
National Ranking = Only 18 states experienced more
motor vehicle deaths, ranking Missouri 32nd.

**RANKINGS** 

#### **Bridge Conditions**

**Current Performance** = 9 percent of Missouri bridges in poor condition by deck area.

**National Ranking** = Missouri ranked 41st for the percent of bridges in poor condition by deck area. (FHWA Highway Statistics)

#### Revenue

**Current Performance =** \$57,151 revenue per mile **National Ranking =** Missouri has the 45th lowest revenue per mile. (FHWA Highway Statistics)

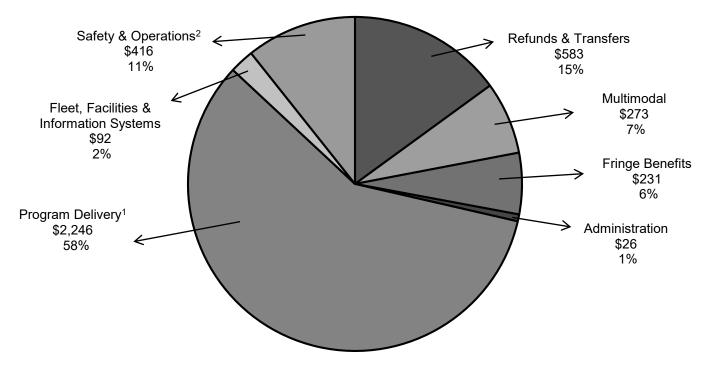

#### **Employee Turnover**

Current Performance = 12.57 percent
National Ranking = Not available.
Stretch Target = 6 percent.
(Price Waterhouse Cooper's Saratoga Institute benchmark data)

# Appropriations Request

The \$3.87 billion request for fiscal year 2022 represents an increase from the fiscal year 2021 truly agreed to and finally passed budget. Figure 3 shows MoDOT's fiscal year 2022 appropriations request by major expenditure category. The Governor's Recommended budget is \$26.5 million less than the department's request.

<sup>&</sup>lt;sup>1</sup> Program Delivery consists of Personal Services, Fringe Benefits and Expense and Equipment for the divisions of Construction, Transportation Planning, External Civil Rights and Design; Contractor Payments; Design and Bridge Consultant Payments; the Accelerated Program; Right of Way purchases; Federal Pass-Through; and Debt Service.

<sup>&</sup>lt;sup>2</sup> Safety and Operations consists of Personal Services, Fringe Benefits, Expense and Equipment and Programs for the divisions of Maintenance, Highway Safety and Traffic and Motor Carrier Services.

# **Funding**

Actual revenues for not only roads and bridges, but also other modes of transportation, for the previous three years, and projected revenues for fiscal years 2021 and 2022 are shown in Figure 4. Figure 5 shows actual transportation funding for fiscal year 2020. The Federal Highway Administration revenue and mileage reports rank Missouri 45<sup>th</sup> in revenue per mile, meaning only five other states' revenue per mile is lower than Missouri's.

State revenues and federal funding are estimated to be \$2.9 billion in fiscal year 2022. Approximately 40 percent of the state revenue from highway user fees is generated by Missouri's fuel tax of 17 cents per gallon on gasoline and diesel fuel. The state fuel tax rate has not increased since 1996. The remaining state revenues include sales taxes on motor vehicles and motor vehicle and drivers licensing fees. As shown in Figure 6, city and county governments receive 25 to 30 percent of the funds, depending on the type of user fee. MoDOT also receives appropriations from the following funds for support of various programs: General Revenue, Motorcycle Safety Trust, Grade Crossing Safety, Railroad Expense, State Transportation Assistance Revolving Loan, State Transportation, Aviation Trust, Multimodal Federal, Motor Carrier Safety Assistance Federal and Highway Safety Federal.

MoDOT's largest source of transportation revenue is from the federal government. Funding is received through various federal transportation agencies including Federal Highway Administration, Transit, Aviation and Railroad Administrations. In December 2015, Congress passed a five-year federal transportation reauthorization act entitled Fixing America's Surface Transportation (FAST) Act. The FAST Act is estimated to provide on average 2.9 percent or \$27.1 million more in federal funds to Missouri, annually. The Continuing Appropriations Act, 2021 and Other Extensions Act, Public Law 116-159, extends the surface transportation programs, including the Federal-aid highway program, under the Fixing America's Surface Transportation (FAST) Act through September 30, 2021.

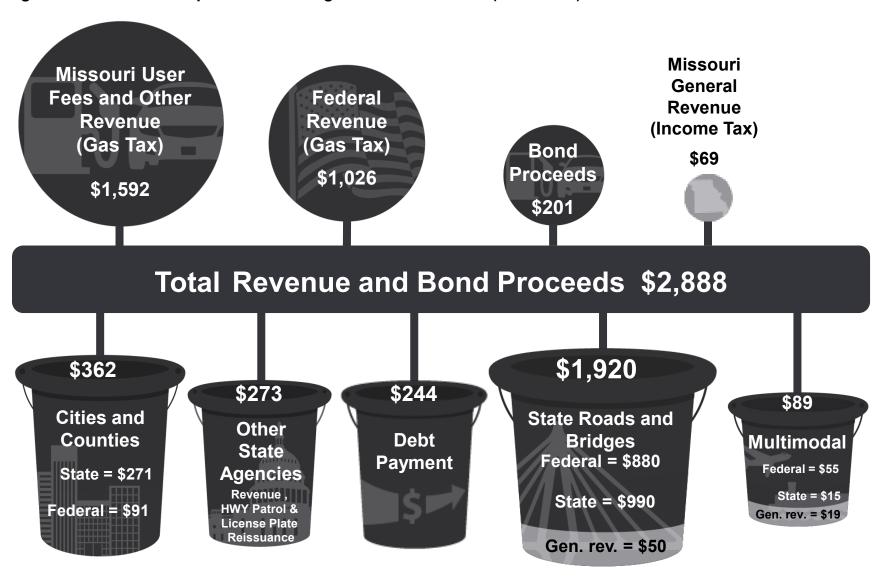

Figure 4: Actual and Projected State Revenues and Federal Funds for Fiscal Years 2018-2022 (in millions)

\$1,800 \$1,600 \$1,400 \$1,200 \$1,000 \$800 \$600	<u> </u>				•
\$800 \$600	FY 2018 Actuals	FY 2019 Actuals	FY 2020 Actuals	FY 2021 Projections	FY 2022 Projections
State Revenue*	\$1,317	\$1,302	\$1,592	\$1,448	\$1,602
Federal Funds	\$1,011	\$960	\$1,025	\$1,198	\$1,415

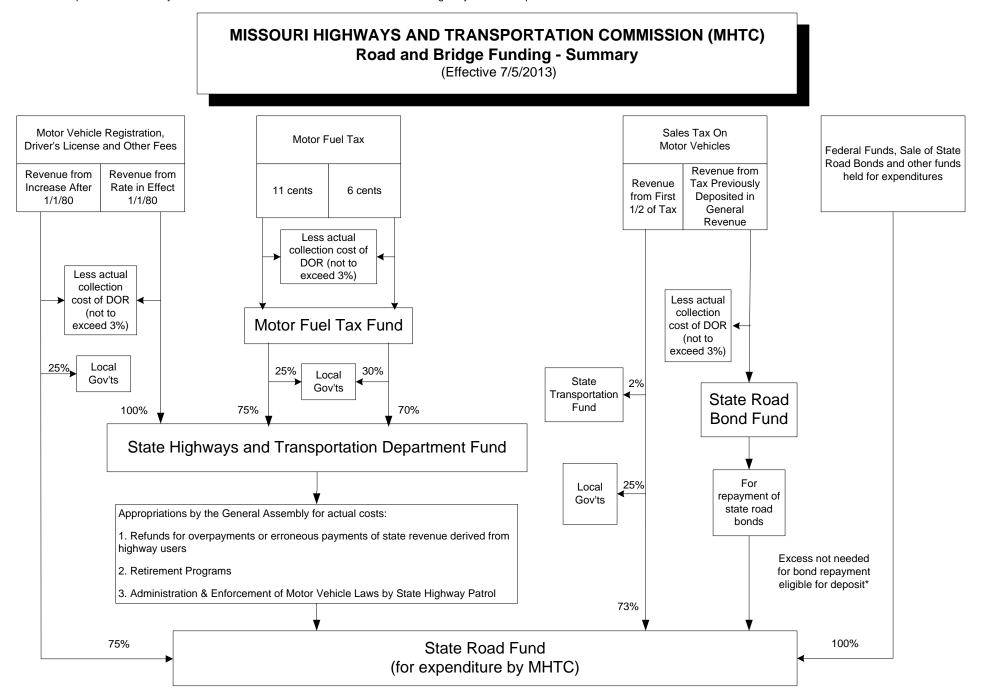

<sup>\*</sup>Does not include highway user revenues distributed to cities and counties.

Figure 5: Missouri Transportation Funding for Fiscal Year 2020 (in millions)

\*Requires certification by the Commissioner of Administration and the Missouri Highways and Transportation Commission.

# MoDOT's Priorities and the Future of Transportation in Missouri

MoDOT has taken dramatic steps over the last several years to reduce costs and form a leaner, more efficient agency. We continue to work every day to improve the condition of our infrastructure and our organization. Our top priorities are:

- Safety Moving Missourians Safely
- Service Providing Outstanding Customer Service; Delivering Efficient and Innovative Transportation Projects and Operating a Reliable Transportation System
- Stability Managing our Assets; Stabilizing Resources and Engaging our Workforce and Building a Prosperous Economy for all Missourians

These priorities are where the department will focus its attention and spend its limited funds. MoDOT has developed asset management plans for each district with the goal to maintain current pavement and bridge conditions. Without preventative maintenance, the cost of improving a road or bridge in poor condition can cost four to ten times more per project.

# Statewide Transportation Improvement Program (STIP)

MoDOT plans its highway and bridge construction schedule using a rolling five-year plan called the STIP. MoDOT works with the public, metropolitan planning organizations, regional planning commissions, modal partners and local officials to determine the highest priority projects. MoDOT is committed to involving the public, local officials, transportation stakeholders and other interested parties in the process of evaluating needs, selecting projects and defining the work to be done. MoDOT's planning framework emphasizes the value of local input. It has won awards and become a national model for transportation planning. Annually, the department prepares a financial forecast that is used to develop the STIP. An updated financial forecast for the 2020-2024 STIP was presented to the Commission on January 8, 2020. Due to the uncertain nature of the COVID-19 pandemic and its affect on transportation funding, the annual STIP update has been delayed. The department continues to use the 2020-2024 STIP as amended in April 2020 for fiscal year 2021. The established amendment process to make additions or changes to the STIP continues to be used in fiscal year 2021. Missouri's 2020-2024 STIP was approved by the Commission in July 2019. MoDOT has started the process of creating the 2022-2026 STIP which is expected to be approved in July 2021.

To guide STIP investments, MoDOT has developed asset management plans for each district with the goal to maintain current pavement and bridge conditions. MoDOT's asset management plan is a strategic practice focused on using limited resources for the preservation of the state's transportation infrastructure. The asset management plans focus on preventive maintenance improvements to keep roads and bridges in good condition. From 2021 through 2023, MoDOT plans to invest in 2,017 lane miles of interstate pavements, 3,900 miles of major route pavements, 7,437 miles of minor route pavements and 630 bridge improvements. MoDOT's asset management plan is reviewed annually and assumptions are adjusted as needed.

# Operations and Traffic Management

MoDOT's work does not end when a road is built. Operations and Traffic Management keep traffic flowing safely and efficiently. MoDOT provides snow removal, signing, striping, litter control and mowing services; intelligent transportation systems (ITS) maintenance, emergency operations, maintains roadsides and rest areas; and completes routine road and bridge repairs. The department monitors traffic trends and plans improvements. MoDOT has established a clear direction of practical innovative operations to determine ways to increase efficiency and save money. These areas include winter operations, signing, striping, mowing and pavement maintenance.

## **Motor Carrier Services**

MoDOT's Motor Carrier Services (MCS) operates a customer-focused e-business. Timeliness and safety are important to the commercial motor vehicle (CMV) industry and consumers. MCS strives to minimize the time carriers spend on credentialing by providing the functionality to manage their business at a single physical location (a one-stop shop) or from the carrier's place of business via web applications available 24 hours a day, 7 days a week. MCS strives to reduce CMV fatalities and disabling injuries through safety programs that provide education, early intervention and addressing unsafe carriers who refuse to comply with safety regulations. MCS partners with state, federal, national and international entities to meet public and carrier needs, facilitate efficient movement of freight and utilize data to promote economic development. MCS annually serves around 47,500 customers; issues approximately 130,000 credentials and over 150,000 oversize-overweight permits; conducts approximately 300 interstate and intrastate safety interventions; performs over 700 federal new entrant and state safety audits; and completes about 1,000 commercial motor vehicle inspections.

# **Highway Safety**

Calendar year 2020 ended with a significant increase in fatalities on Missouri roads. After ending 2019 with 880 fatalities, the preliminary 2020 fatality number is 985, a 12% increase. Of the drivers and passengers killed in 2020, 66% were not wearing seat belts. Fatalities related to excessive speeds were also up approximately 25% in 2020, accounting for approximately 39% of the total fatalities. In addition to the tragic loss of life and the impact to individual families, these fatalities and severe injuries result in an economic loss in Missouri totaling over \$10.0 billion based on information from the U.S. Department of Transportation. Through research, analysis of crash data and review of best practices, MoDOT's Highway Safety and Traffic Division develops programs that address high risk driver behaviors such as failure to use safety belts and child safety seats; impaired driving; speeding; and distracted driving, such as texting or talking on a cell phone while driving. MoDOT staff implements projects involving engineering, enforcement, education and emergency medical services that improve highway safety and reduce traffic fatalities and injuries.

# Major Program Initiatives

# I-270 North Project

Construction is underway on the \$278.0 million I-270 North design-build project. MoDOT's largest project in the last 10 years will address safety, congestion and system condition issues in the I-270 North corridor in St. Louis region from I-70 to the Chain of Rocks Bridge. Completion is expected by December 2023.

#### I-70 Climbing Lanes at Mineola Hill

New climbing lanes on Interstate 70 in the area known as Mineola Hill in Montgomery County were completed in November 2020. The \$15.8 million project will enable traffic to flow more safely and efficiently and will replace Loutre River bridges within the project limits. This highway project was made possible by a federal Infrastructure for Rebuilding America (INFRA) grant in combination with the replacement of the I-70 Missouri River Bridge at Rocheport in Boone and Cooper Counties. Construction will continue in 2021 on the Loutre River bridges with completion by fall.

# New I-70 Missouri River Bridge at Rocheport

This project will replace the existing four-lane I-70 Missouri River Bridge at Rocheport with a \$240.0 million structure that will be initially configured to four lanes to match I-70, with future modifications to six lanes should an I-70 expansion be funded. The existing bridge, which was built in 1960, will continue to be used during construction, meaning there will be very few impacts to traffic. The project will also reconstruct the Route BB interchange just east of the bridge. Procurement to identify a design-build team to deliver the project has begun, with selection by the Missouri Highway and Transportation Commission scheduled for July 2021. The schedule calls for the new bridge to be open to traffic by August 2024.

# Bootheel Bridge Bundle

Construction will begin in early 2021 on improvements to more than 15 bridge improvement projects in the Southeast District, 13 of which are included in the Focus on Bridges program. A design-build team was selected for the \$21.3 million project in August 2020.

# Buck O'Neil Bridge

This \$247.5 million project will build a new Buck O'Neil Bridge, carrying U.S. Route 169 over the Missouri River in Kansas City. A design-build team is expected to be selected in February 2021 with construction beginning later this year. Completion of the new bridge is scheduled by December 2024.

#### Fixing Access to Rural Missouri (FARM) Bridge Program

This \$26.0 million design-build project will replace up to 41 bridges in northern Missouri, and was enabled by receipt of a \$20.7 million federal grant under the Competitive Highway Bridge Program. A design-build team will be selected in May 2021, with construction to begin later in the year.

# **Multimodal Transportation**

MoDOT works with cities, counties and regional authorities and providers to plan improvements for aviation, railroads, public transportation, freight development and waterway facilities in Missouri. MoDOT is requesting approximately \$272.6 million to fund multimodal services in fiscal year 2022.

#### Aviation

Missouri has 121 public use airports, and 107 of them are eligible to receive federal and/or state funds through MoDOT. Missouri is one of ten block grant states in the country, so Federal Airport Improvement Program funds are issued from the Federal Aviation Administration to MoDOT. MoDOT then subgrants funds to the 69 airports in the State Block Grant Program. MoDOT also issues state Aviation Trust Fund grants to eligible airports. These federal and state grants can be used for projects such as airport planning, airfield pavement maintenance, lighting projects and obstruction removal. Commercial airlines at nine airports accounted for approximately 14.3 million boardings in calendar year 2019.

# Waterways

MoDOT provides technical and financial assistance to develop and operate 17 active port authorities and one three-state port commission in Missouri. Jackson County Port Authority is eligible for financial assistance in Missouri but is currently inactive. An annual appropriation from the legislature assists those ports with administrative and capital funds. In fiscal year 2020, the ports were able to use the state appropriations of \$5.1 million to leverage over \$14.0 million in non-state investment and directly employ 433 people. Missouri has 1,050 miles of navigable waterways on the Missouri and Mississippi rivers, and those waterways are used to transport multiple commodities such as raw materials, manufactured goods and agricultural and petroleum products. In calendar year 2019, total public port freight tonnage was 3.3 million tons. This is equivalent to 129,074 trucks on the state's highways. In addition to the ports, two publicly owned ferry services on the Mississippi River also receive federal and state funding through MoDOT. The two ferries in calendar year 2019 carried 18,359 passengers and 7,318 vehicles.

#### Railroads

MoDOT administers the state's railroad program, which includes freight rail regulation, passenger rail, light rail safety regulation, highway/rail crossing safety, rail/highway construction and railroad safety inspection and outreach. An annual appropriation from the legislature supports Amtrak passenger rail service between St. Louis and Kansas City. The trains make eight intermediate stops. Amtrak also provides national service on other routes in Missouri. In fiscal year 2020, Amtrak ridership was approximately 118,000 passengers. There are over 6,500 public and private highway-rail crossings and 4,800 miles of mainline track in the state. Missouri is the fifth-most rail intensive state by tonnage carried and the ninth in total size. The rail system is also critical to the nation's passenger rail transportation and Missouri's passenger service between St. Louis and Kansas City.

# **Public Transportation**

The Missouri Department of Transportation Transit Section administers state and federal funds to provide financial and technical assistance to 34 public transit agencies and over 200 specialized transit providers across the state. These funds are administered through programs serving general public transportation and programs serving seniors and persons with disabilities. Transit agencies provide more than 62 million one-way trips per year helping folks access goods and services throughout Missouri. MoDOT also administers federal funds for the Rural Transportation Assistance Program (RTAP), providing training in defensive driving, passenger assistance, federal requirements and other essential skills for transit drivers and agency staff.

# Freight Development

Missouri has an extensive and diverse transportation network, consisting of more than 1,350 miles of interstate highways, 4,800 miles of mainline rail track, 1,050 miles of navigable waterways and 35 airports with runways greater than 5,000 feet. Because of the investments made in our transportation infrastructure, in calendar year 2018 Missouri moved over 404 million tons of freight. Moving these products means more than 117,000 workers directly or indirectly employed by the freight transportation industry in the state. MoDOT directly supports the state's freight network by providing Freight Enhancement Program funds to non-highway projects that improve and maintain high priority freight assets and corridors that are critical to the movement of freight.

The Governor's Fiscal Year 2022 budget includes appropriation authority for Above and Beyond performance incentives beginning January 1, 2022. The ability to provide a link between compensation, "above and beyond" performance, and accountability is a proven best practice for employee reward and recognition programs used in other state governments and the private sector. The Division of Personnel partnered with all executive branch departments and a consulting firm to develop a new, top quality evaluation process, with supporting training for all supervisors and tools, to enable department leadership to identify those team members who are delivering exceptional performance. The program is designed to incentivize these individuals to continue this high level of performance and others to raise their game. With the goal of retaining those identified as top performers and the anticipation that these top performers will continue to deliver exceptional results, the request is for funding to be appropriated which provides top performers with a temporary salary increase for the services to be performed over the next year.

**Division: Department Wide** 

DI Name: Above and Beyond Performance Incentives DI# 0000016 HB Section: Multiple

#### 3. WHY IS THIS FUNDING NEEDED? (Continued)

This request is essential to the state government's transformation of its approach to compensation and incentive practices to be in line with proven best practices in high performing organizations. Along with other rewards and recognition, such monetary incentives help sustain and motivate performance. Other state governments have adopted similar approaches to incentivize individuals to continue truly exceptional performance. Such approaches can incentivize not only continued excellent performance in current roles but also a commitment to continuous improvement and additional professional development.

#### The Governor's Recommendation included funding for this item.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriated amount includes funding for the department to provide performance incentives of 5% for the top 10% of employees and a 2% pay raise for state employees beginning January 1, 2022. The performance incentives are capped at \$2,500 per employee.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

All employees below midpoint (approximately 4,250 employees) would receive a two percent increase, effective January 1, 2022.

5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

# 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

The turnover rate shows the percentage of employees who left the department during each fiscal year. The benchmark data is from Price Waterhouse Cooper's Saratoga Institute's trends in workforce analytics report. The 2021 projection was established by projecting a 2.5 percent reduction in the 2020 actual rate of employee turnover. The 2022 projection was established by projecting a 5 percent reduction in the 2020 actual rate of employee turnover, assuming the department receives the additional funding requested in fiscal year 2022.

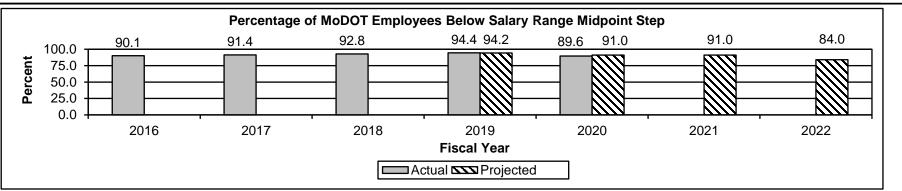

The rate of retention for new employees is a percentage of MoDOT employees who remained employed with the department for 12 months divided by the total number of new employees hired within the same time period. For calendar year 2020, this was 373 of 482 first year employees. The calendar year 2021 projected retention rate is based on a 2.5 percent increase in the number of retained employees in calendar year 2020. The calendar year 2022 projected retention rate is based on a 5 percent increase in the number of retained employees in calendar year 2020.

RANK: 1 OF 14

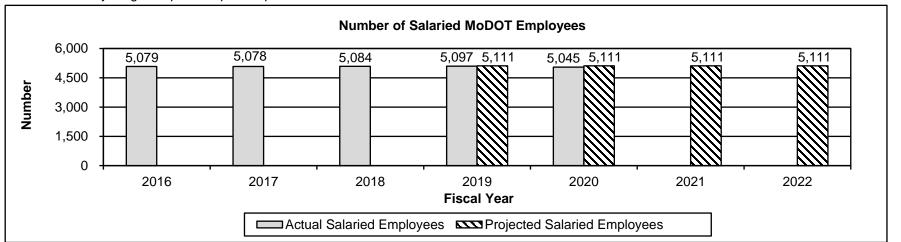

Department of Transportation Budget Unit: Multiple

**Division: Department Wide** 

DI Name: FY22 Employee Retention Strategy 1 DI# 1605005 HB Section: Multiple

Each salary grade on MoDOT's salary grid contains 18 steps. Step 10 of each salary grade is the step that most closely approximates the market midpoint of each salary range. The 2021 projection is the same as the 2020 projection since no additional funding was provided and the 2022 projection is based on receiving the additional funding for pay increases in the department's request. The department's goal is to reduce the percentage of MoDOT employees below their salary range midpoint step to 70 percent or less.

This performance measure shows the number of salaried employees by fiscal year, not full-time equivalents (FTEs). FTE is the total number of hours worked or on paid leave divided by 2,080. The 2021 and 2022 projections for salaried employees are based on the department's goal of salaried employees.

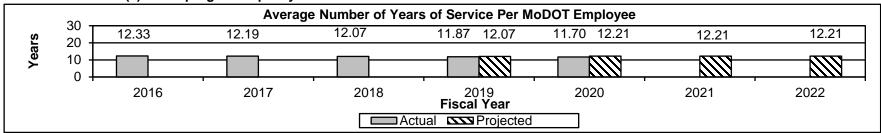

RANK: \_\_\_1 OF \_\_\_14

Department of Transportation Budget Unit: Multiple

**Division: Department Wide** 

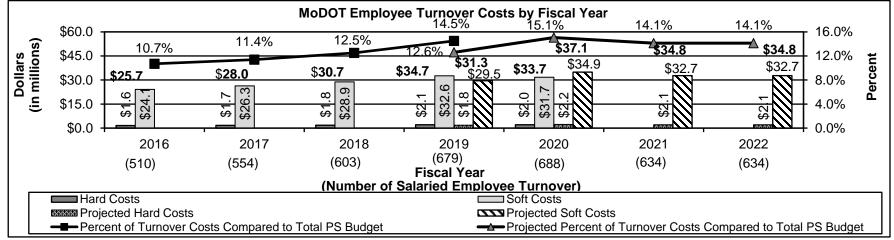

DI Name: FY22 Employee Retention Strategy 1 DI# 1605005 HB Section: Multiple

#### 6b. Provide a measure(s) of the program's quality.

The 2021 and 2022 projections are based on maintaining the current average number of years of service per MoDOT employee. MoDOT anticipates generational turnover to increase and is requesting increases in compensation to help maintain this average by retaining new employees for a longer period of time.

#### 6c. Provide a measure(s) of the program's impact.

The turnover costs calculation tool used in the formulation of this chart was adopted from the Society for Human Resources Management. Hard costs are direct costs related to staff time in separating/filling the position, advertisement efforts and pre-employment fees (drug testing and physicals). Soft costs are lost productivity tied to the departing employees, vacant positions and selection and training efforts for each new employee. This chart also shows the percentage of turnover costs compared to the total personal services (PS) budget by fiscal year. The projections are based on the department's rate of employee turnover projections for each year.

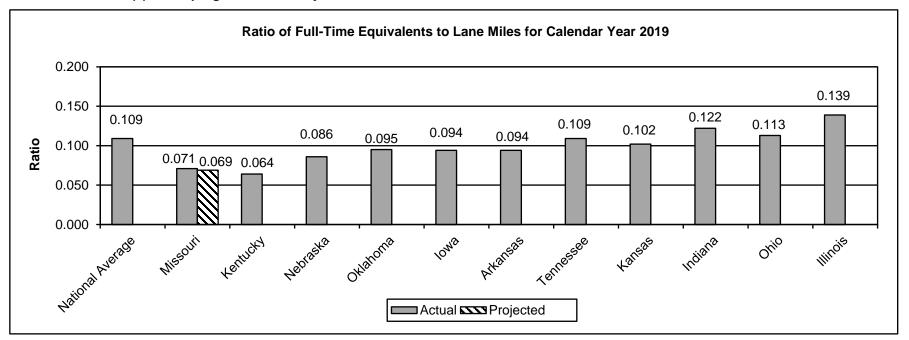

RANK: 1 OF 14

Department of Transportation Budget Unit: Multiple

Division: Department Wide

DI Name: FY22 Employee Retention Strategy 1 DI# 1605005 HB Section: Multiple

#### 6d. Provide a measure(s) of the program's efficiency.

Full-time equivalent (FTE) is the total number of hours worked or on paid leave divided by 2,080. The ratio in this measure was calculated by dividing the FTEs in the Census Bureau - 2019 Annual Survey of Public Employees and Payroll, by the estimated number of lane miles in the 2019 FHWA report of State Highway Agency-Owned Public Roads (HM-81). A low ratio means MoDOT is efficiently maintaining roadways with limited resources. The projection is based on the department's goal for FTEs. Calendar year 2020 data was not available at the time of publication.

associated with employee turnover. All employees in titles with lowest market competitiveness would receive a two percent increase, effective January 1, 2022. The strategy is intended to mitigate salary compression issues, improve employee satisfaction and morale in relation to pay, increase employee retention and reduce turnover costs. The turnover rate for fiscal year 2020 was 12.57 percent and the total cost was \$33.7 million.

This item is in addition to any statewide pay plan recommended by the Governor. This expansion item is requested to improve employee retention and reduce costs

The Governor's Recommendation did not include funding for this item.

RANK:	2	OF	14

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

All employees in titles with lowest market competitiveness (approximately 3,450 employees) would receive a two percent increase, effective January 1, 2022.

5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

# 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

The turnover rate shows the percentage of employees who left the department during each fiscal year. The benchmark data is from Price Waterhouse Cooper's Saratoga Institute's trends in workforce analytics report. The 2021 projection was established by projecting a 2.5 percent reduction in the 2020 actual rate of employee turnover. The 2022 projection was established by projecting a 5 percent reduction in the 2020 actual rate of employee turnover, assuming the department receives the additional funding requested in fiscal year 2022.

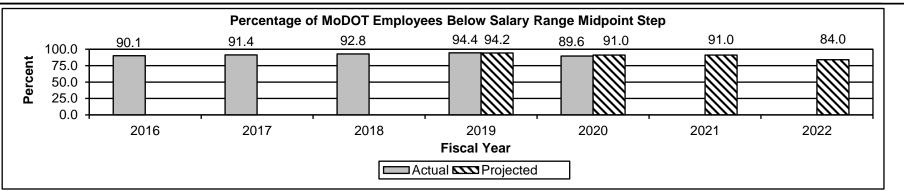

The rate of retention for new employees is a percentage of MoDOT employees who remained employed with the department for 12 months divided by the total number of new employees hired within the same time period. For calendar year 2020, this was 373 of 482 first year employees. The calendar year 2021 projected retention rate is based on a 2.5 percent increase in the number of retained employees in calendar year 2020. The calendar year 2022 projected retention rate is based on a 5 percent increase in the number of retained employees in calendar year 2020.

RANK: 2 OF 14

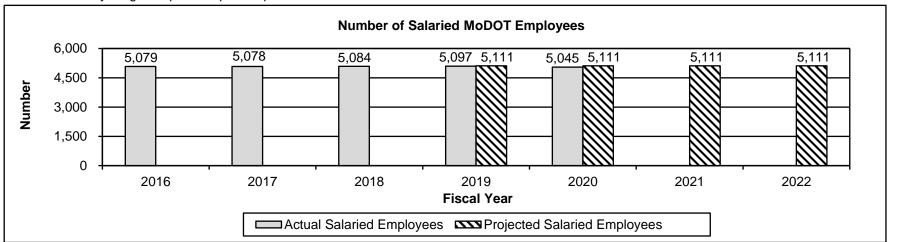

Department of Transportation Budget Unit: Multiple

**Division: Department Wide** 

DI Name: FY22 Employee Retention Strategy 2 DI# 1605006 HB Section: Multiple

Each salary grade on MoDOT's salary grid contains 18 steps. Step 10 of each salary grade is the step that most closely approximates the market midpoint of each salary range. The 2021 projection is the same as the 2020 projection since no additional funding was provided and the 2022 projection is based on receiving the additional funding for pay increases in the department's request. The department's goal is to reduce the percentage of MoDOT employees below their salary range midpoint step to 70 percent or less.

This performance measure shows the number of salaried employees by fiscal year, not full-time equivalents (FTEs). FTE is the total number of hours worked or on paid leave divided by 2,080. The 2021 and 2022 projections for salaried employees are based on the department's goal of salaried employees.

DI Name: FY22 Employee Retention Strategy 2 DI# 1605006 HB Section: Multiple

#### 6b. Provide a measure(s) of the program's quality.

The 2021 and 2022 projections are based on maintaining the current average number of years of service per MoDOT employee. MoDOT anticipates generational turnover to increase and is requesting increases in compensation to help maintain this average by retaining new employees for a longer period of time.

#### 6c. Provide a measure(s) of the program's impact.

The turnover costs calculation tool used in the formulation of this chart was adopted from the Society for Human Resources Management. Hard costs are direct costs related to staff time in separating/filling the position, advertisement efforts and pre-employment fees (drug testing and physicals). Soft costs are lost productivity tied to the departing employees, vacant positions and selection and training efforts for each new employee. This chart also shows the percentage of turnover costs compared to the total personal services (PS) budget by fiscal year. The projections are based on the department's rate of employee turnover projections for each year.

Division: Department Wide

DI Name: FY22 Employee Retention Strategy 2 DI# 1605006 HB Section: Multiple

#### 6d. Provide a measure(s) of the program's efficiency.

Full-time equivalent (FTE) is the total number of hours worked or on paid leave divided by 2,080. The ratio in this measure was calculated by dividing the FTEs in the Census Bureau - 2019 Annual Survey of Public Employees and Payroll, by the estimated number of lane miles in the 2019 FHWA report of State Highway Agency-Owned Public Roads (HM-81). A low ratio means MoDOT is efficiently maintaining roadways with limited resources. The projection is based on the department's goal for FTEs. Calendar year 2020 data was not available at the time of publication.

This item is requested to implement a pilot program for new employees that will not require any additional funds from taxpayers. This pilot program would give new hires the option of receiving a higher salary with reduced benefits, such as not participating in the defined benefit retirement plan, but receiving a contribution to their deferred compensation account. New hires would also have the option to increase their salary by not participating in the medical plan as long as they provide proof of other insurance. This pilot program would offer new employees a 25 percent increase in pay and up to a 4 percent match to their deferred compensation account from funds that would have been paid by the department for their retirement. The pilot program also offers new employees \$417 a month in additional salary for the employer contribution for medical insurance if they provide proof of other insurance. The goal of this increase is to attract new employees closer to market compensation by providing options for increasing their take home pay starting January 1, 2022. The implementation of this pilot program would also generate annual department savings of \$3,610,168. The annual savings would be directed toward improving the condition of low volume roads in rural Missouri. The department's request for 25 percent flexibility between personal services, fringe benefits and expense and equipment appropriations would allow for the implementation of this pilot program within existing resources. Other statutory changes would need to be made during the 2021 legislative session in order to implement this pilot program. The Governor's Recommendation did not include funding for this item.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This increase is based on 700 employees being hired to fill vacancies in fiscal year 2022 with 600 employees participating in the retirement portion and 200 employees participating in the medical portion of the pilot program. The average compensation would increase by \$18,024 per year for employees taking all the benefits of the pilot program and \$13,020 for employees taking just the retirement portion of the pilot program. The implementation of this pilot program would also generate annual department savings of \$3,610,168 which will be directed toward improving the condition of low volume roads in rural Missouri.

# 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

#### 6a. Provide an activity measure(s) for the program.

The turnover rate shows the percentage of employees who left the department during each fiscal year. The benchmark data is from Price Waterhouse Cooper's Saratoga Institute's trends in workforce analytics report. The 2021 projection was established by projecting a 2.5 percent reduction in the 2020 actual rate of employee turnover. The 2022 projection was established by projecting a 5 percent reduction in the 2020 actual rate of employee turnover, assuming the department receives the additional funding requested in fiscal year 2022.

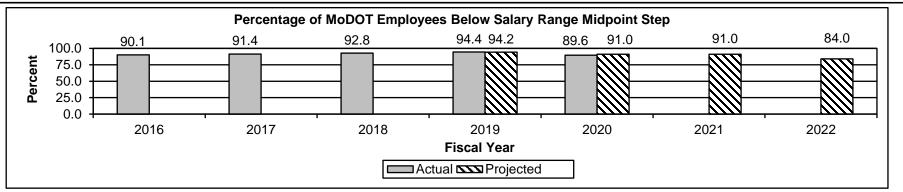

The rate of retention for new employees is a percentage of MoDOT employees who remained employed with the department for 12 months divided by the total number of new employees hired within the same time period. For calendar year 2020, this was 373 of 482 first year employees. The calendar year 2021 projected retention rate is based on a 2.5 percent increase in the number of retained employees in calendar year 2020. The calendar year 2022 projected retention rate is based on a 5 percent increase in the number of retained employees in calendar year 2020.

RANK: 3 OF 14

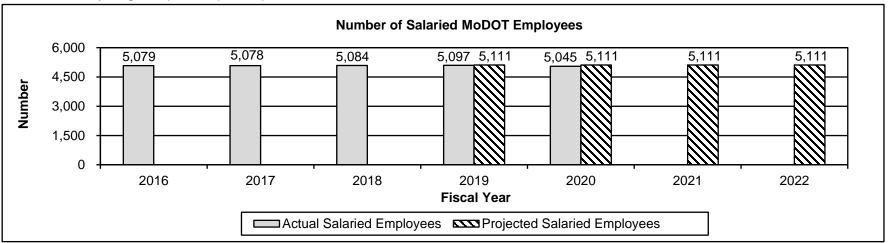

Department of Transportation Budget Unit: Multiple

Division: Department Wide

DI Name: Employee Flexible Benefits Pilot Program DI# 1605007 HB Section: Multiple

Each salary grade on MoDOT's salary grid contains 18 steps. Step 10 of each salary grade is the step that most closely approximates the market midpoint of each salary range. The 2021 projection is the same as the 2020 projection since no additional funding was provided and the 2022 projection is based on receiving the additional funding for pay increases in the department's request. The department's goal is to reduce the percentage of MoDOT employees below their salary range midpoint step to 70 percent or less.

This performance measure shows the number of salaried employees by fiscal year, not full-time equivalents (FTEs). FTE is the total number of hours worked or on paid leave divided by 2,080. The 2021 and 2022 projections for salaried employees are based on the department's goal of salaried employees.

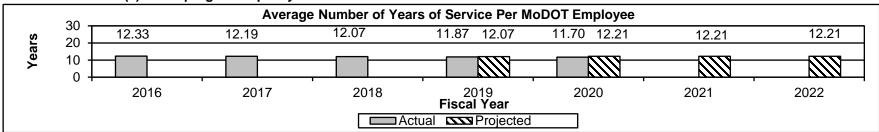

RANK: 3 OF 14

Department of Transportation Budget Unit: Multiple

**Division: Department Wide** 

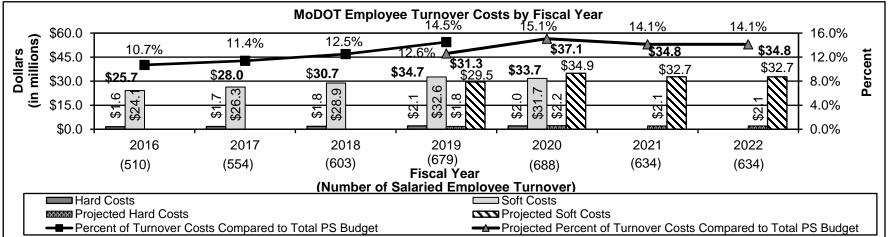

DI Name: Employee Flexible Benefits Pilot Program DI# 1605007 HB Section: Multiple

### 6b. Provide a measure(s) of the program's quality.

The 2021 and 2022 projections are based on maintaining the current average number of years of service per MoDOT employee. MoDOT anticipates generational turnover to increase and is requesting increases in compensation to help maintain this average by retaining new employees for a longer period of time.

## 6c. Provide a measure(s) of the program's impact.

The turnover costs calculation tool used in the formulation of this chart was adopted from the Society for Human Resources Management. Hard costs are direct costs related to staff time in separating/filling the position, advertisement efforts and pre-employment fees (drug testing and physicals). Soft costs are lost productivity tied to the departing employees, vacant positions and selection and training efforts for each new employee. This chart also shows the percentage of turnover costs compared to the total personal services (PS) budget by fiscal year. The projections are based on the department's rate of employee turnover projections for each year.

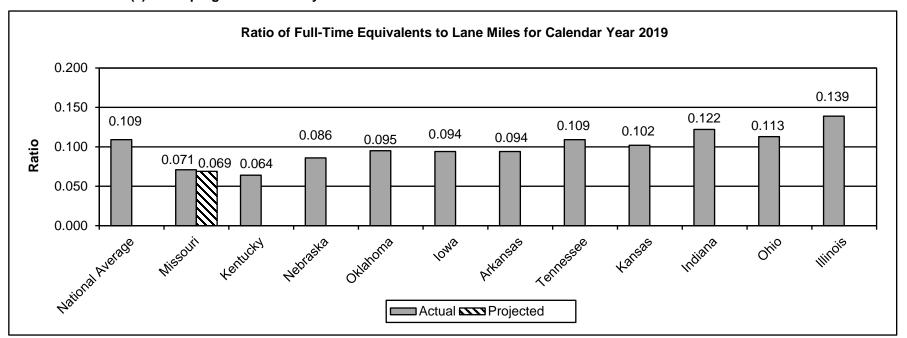

RANK: 3 OF 14

Department of Transportation Budget Unit: Multiple

**Division: Department Wide** 

DI Name: Employee Flexible Benefits Pilot Program DI# 1605007 HB Section: Multiple

### 6d. Provide a measure(s) of the program's efficiency.

Full-time equivalent (FTE) is the total number of hours worked or on paid leave divided by 2,080. The ratio in this measure was calculated by dividing the FTEs in the Census Bureau - 2019 Annual Survey of Public Employees and Payroll, by the estimated number of lane miles in the 2019 FHWA report of State Highway Agency-Owned Public Roads (HM-81). A low ratio means MoDOT is efficiently maintaining roadways with limited resources. The projection is based on the department's goal for FTEs. Calendar year 2020 data was not available at the time of publication.

# 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Other:

Pay Plan

This expansion item is needed to for an additional FTE position in Highway Safety and Traffic to be funded with National Highway Traffic Safety Administration (NHTSA) federal funds to support the Missouri Coalition for Roadway Safety (MCRS). The MCRS is a large group of safety advocates who banded together in 2004 to create Missouri's Blueprint for Safer Roadways. Partners include law enforcement, educators, emergency responders, and engineers who have launched statewide efforts to reduce fatalities and create safer roads in Missouri. With the innovative efforts of these agencies, more Missourians are arriving safely to their destinations, and fewer tragedies are occurring on Missouri roadways. This request is based on an independent assessment on the MCRS by the Governor's Highway Safety Association (GHSA) that was conducted in the fall of 2019. The assessment concluded Missouri should assign a full-time position to the coordination of the MCRS to assist in the state's strategic Highway Safety Plan (HSP) implementation.

The Governor's Recommendation is the same as the department's request regarding the funding but the Governor did not recommend an additional FTE.

# 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

## 6a. Provide an activity measure(s) for the program.

This performance measure shows the number of salaried employees by fiscal year, not full-time equivalents (FTEs). FTE is the total number of hours worked or on paid leave divided by 2,080. The 2021 and 2022 projections for salaried employees are based on the department's goal of salaried employees.

## 6b. Provide a measure(s) of the program's quality.

The 2021 and 2022 projections are based on maintaining the current average number of years of service per MoDOT employee. MoDOT anticipates generational turnover to increase and is requesting increases in compensation to help maintain this average by retaining new employees for a longer period of time.

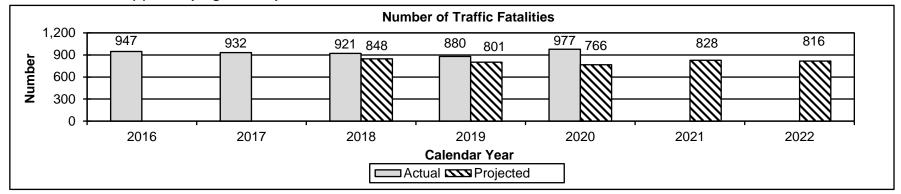

RANK: 6 OF 14

Department of Transportation Budget Unit: Safety and Operations

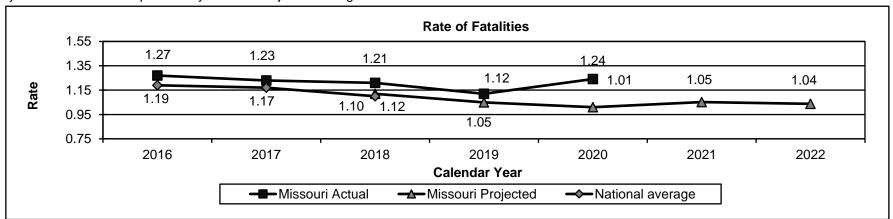

**Division: Safety and Operations** 

DI Name: Safety and Operations PS Expansion DI# 1605010 HB Section: 4.440

## 6c. Provide a measure(s) of the program's impact.

The 2021 and 2022 projections are based on a 5.91 percent and 7.25 percent reduction in traffic fatalities from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

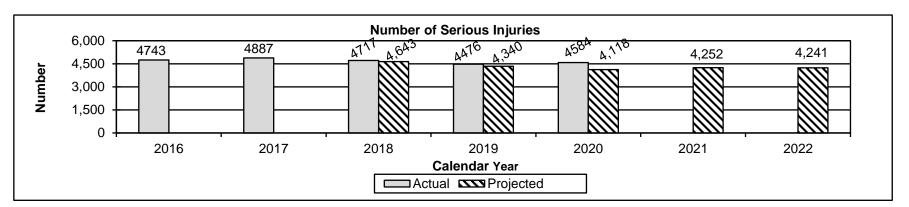

This chart displays the annual fatality rates per 100 million vehicle miles traveled (VMT). For example, the rate of fatalities in 2019 was calculated by dividing 880 fatalities by 78.7 billion VMT and multiplying that by 100 million. The projections were established using the projected number of fatalities for each year and the actual 2019 VMT. Calendar year 2020 VMT was not calculated at the time of publication.

RANK: 6 OF 14

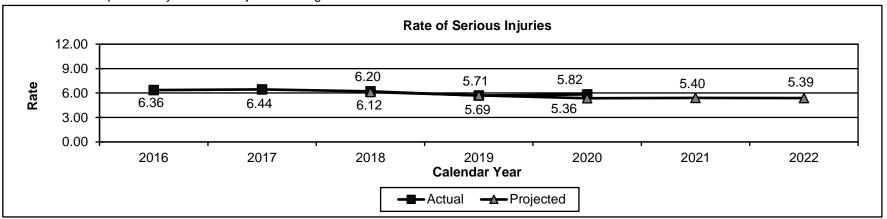

Department of Transportation Budget Unit: Safety and Operations

Division: Safety and Operations

DI Name: Safety and Operations PS Expansion DI# 1605010 HB Section: 4.440

The 2021 and 2022 projections are based on a 5 percent and 5.26 percent reduction in serious injuries from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

This chart displays the annual serious injury rates per 100 million vehicle miles traveled (VMT). For example, the rate of serious injuries in 2019 was calculated by dividing 4,476 serious injuries by 78.7 billion VMT and multiplying that by 100 million. The projections were established using the projected number of serious injuries for each year and the actual 2019 VMT. Calendar year 2020 VMT was not calculated at the time of publication.

Division: Safety and Operations

DI Name: Safety and Operations PS Expansion DI# 1605010 HB Section: 4.440

## 6d. Provide a measure(s) of the program's efficiency.

Full-time equivalent (FTE) is the total number of hours worked or on paid leave divided by 2,080. The ratio in this measure was calculated by dividing the FTEs in the Census Bureau - 2019 Annual Survey of Public Employees and Payroll, by the estimated number of lane miles in the 2019 FHWA report of State Highway Agency-Owned Public Roads (HM-81). A low ratio means MoDOT is efficiently maintaining roadways with limited resources. The projection is based on the department's goal for FTEs. Calendar year 2020 data was not available at the time of publication.

FY 2022 Governor's Recommendation

### 2. CORE DESCRIPTION

These appropriations are for the continuation of the core fringe benefits within MoDOT. The personal services fringe benefits include retirement and long term disability (LTD) contributions and medical and life insurance. Retirement and LTD projected expenditures are based upon the core salaries multiplied by the retirement and LTD rate set by the MoDOT and Patrol Employees' Retirement System (MPERS) Board of Trustees. In fiscal year 2021, the rate is 58.00 percent, and will remain the same in fiscal year 2022. MoDOT's medical insurance rates are calculated on a calendar year basis. The department's share of medical insurance costs for fiscal year 2022 is based on the 2021 and projected 2022 calendar year rates. For calendar year 2021, the total monthly premium for the "Subscriber Only" plan is \$511 while the total monthly premium for the "Subscriber/Spouse", "Subscriber/1 Child", "Subscriber/2 Children" and "Subscriber/Family" plans range from \$715 to \$1,553. These are the rates for the Preferred Provider Organization (PPO) Plan. MoDOT's share of the life insurance annual costs is projected to be \$0.09 per \$1,000 of coverage. The medical insurance costs are based upon the most current actuarial study of the medical plan.

The expense and equipment fringe benefits include medical insurance for retirees, workers' compensation and the employee assistance program (EAP). MoDOT's share of monthly medical insurance premiums for its retirees ranges from \$189 to \$892 for calendar year 2021 for employees who retired prior to January 1, 2015. The State contribution for employees who retired on or after January 1, 2015 is two percent per year of service, with a maximum state share of 50 percent. Workers' Compensation is based upon the most current actuarial study of the workers' compensation plan conducted by the actuary. The EAP is based on rates provided by the Missouri Consolidated Health Care Plan (MCHCP).

The Governor's Recommendation is the same as the department's request.

### **CORE DECISION ITEM**

Department of Transportation
Division: Department Wide
Core: Fringe Benefits

HB Section: 4.406, 4.407, 4.408, 4.409

### 4. FINANCIAL HISTORY

	FY 2018 Actual	FY 2019 Actual	FY 2020 Actual	FY 2021 Current Yr.
Appropriation (All Funds)	\$216,899,128	\$221,463,181	\$227,991,317	\$228,820,254
Less Reverted (All Funds)	\$0	\$0	\$0	N/A
Less Restricted (All Funds)	\$0	\$0	\$0	N/A
Budget Authority (All Funds)	\$216,899,128	\$221,463,181	\$227,991,317	N/A
Actual Expenditures (All Funds)	\$196,389,160	\$201,501,179	\$200,302,243	N/A
Unexpended (All Funds)	\$20,509,968	\$19,962,002	\$27,689,074	N/A
Unexpended, by Fund:				
General Revenue	\$0	\$0	\$0	N/A
Federal	\$39,520	\$81,482	\$63,661	N/A
Other	\$20,470,448 <b>(1)</b>	\$19,880,520 <b>(1)</b>	\$27,625,413 <b>(1)</b>	N/A

Reverted includes Governor's standard three percent reserve (when applicable). Restricted includes any extraordinary expenditure restrictions (when applicable).

### NOTES:

(1) The unexpended amounts are related to high turnover throughout the department.

<sup>\*</sup>Restricted amount is N/A

### FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: Multiple		DEPARTMENT:	Missouri Department of Transportation (MoDOT)					
BUDGET UNIT NAME: Multiple HOUSE BILL SECTION: 4.406, 4.407,	1.408, 4.409	DIVISION:	Department Wide					
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Department of Transportation	HB Section: 4.406, 4.407, 4.408, 4.409

Program Name: Department Wide

Program is found in the following core budget(s): Fringe Benefits

### 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system

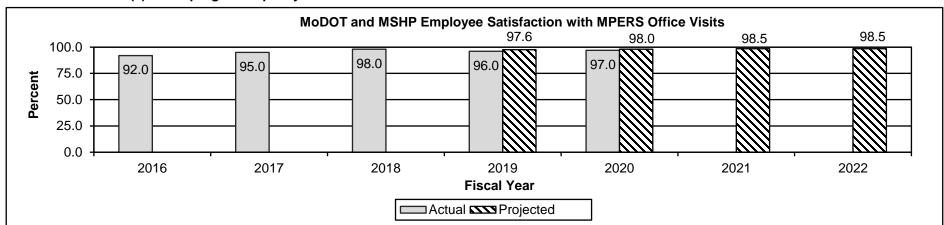

### 1b. What does this program do?

This program is for the continuation of the core fringe benefits within MoDOT. The personal services fringe benefits include retirement and long term disability (LTD) contributions and medical and life insurance. The expense and equipment fringe benefits include medical insurance for retirees, workers' compensation and the Employee Assistance Program (EAP).

### 2a. Provide an activity measure(s) for the program.

As of June 30, 2020 there were 4,746 active MoDOT employees, 4,799 retirees and 8,418 MoDOT dependents enrolled in the MoDOT/MSHP Medical Plan. MoDOT estimates approximately 200 employees will retire in calendar year 2021. As of June 30, 2020, there were 5,031 active MoDOT employees in the MoDOT and Patrol Employees' Retirement System (MPERS) retirement plan.

### 2b. Provide a measure(s) of the program's quality.

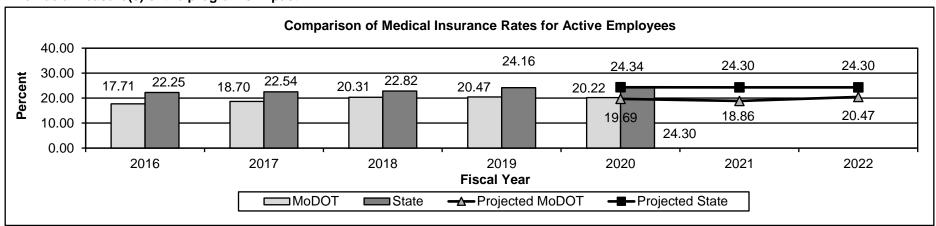

This chart shows the percent of employees who rated their satisfactions with an MPERS office visit as excellent. Data is collected through an online survey emailed to employees immediately after their office visit. "Overall, how satisfied were you with the service you received during your visit to MPERS?" was the question surveyed. The projections were established by averaging the last five years and projecting a three percent improvement.

Department of Transportation HB Section: 4.406, 4.407, 4.408, 4.409

**Program Name: Department Wide** 

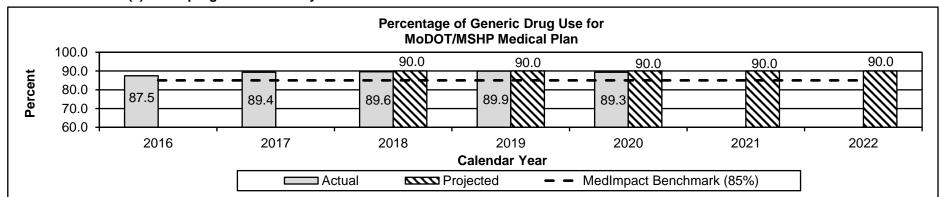

Program is found in the following core budget(s): Fringe Benefits

### 2c. Provide a measure(s) of the program's impact.

MoDOT's medical insurance rates are calculated by dividing premium contributions by personal service costs. The medical insurance rate from the state are provided in the annual budget instructions. The projections for MoDOT's medical insurance rates were calculated by dividing estimated premium contributions by budgeted personal services costs. The projections for the state's medical insurance rates were provided in the annual budget instructions.

### 2d. Provide a measure(s) of the program's efficiency.

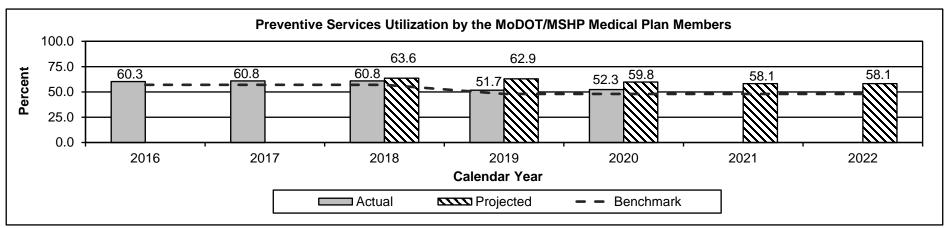

Data is provided by the prescription drug administrator and shows the increased use of generic prescriptions among plan participants. The projections are based on a five percent increase from the benchmark data provided by MedImpact.

Department of Transportation

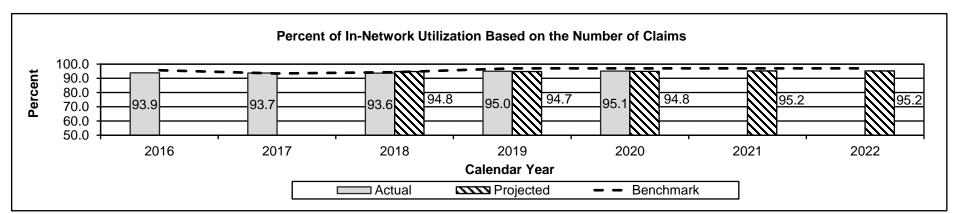

HB Section: 4.406, 4.407, 4.408, 4.409

Program Name: Department Wide

Program is found in the following core budget(s): Fringe Benefits

Preventive services primarily include annual physical exams and routine immunizations, but can also include recommended procedures such as colonoscopies and mammograms. The benchmark is set by the medical provider. The projections were established by averaging the last five years and projecting a 1.5 percent improvement.

The projections were established by averaging the last five years and projecting a one percent improvement. The benchmark is set by the medical provider.

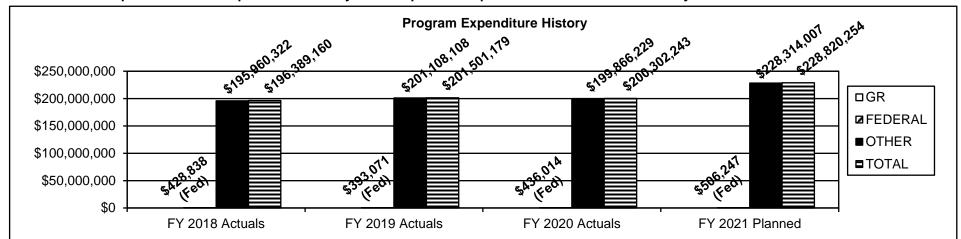

Department of Transportation

HB Section: 4.406, 4.407, 4.408, 4.409

Program Name: Department Wide

Program is found in the following core budget(s): Fringe Benefits

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

- 4. What are the sources of the "Other" funds?
  - State Road Fund (0320), Railroad Expense Fund (0659), State Transportation Fund (0675) and Aviation Trust Fund (0952)
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Article IV, Section 30(b) and (c), MO Constitution, Title 23 USC 130, 400-411, Title 49 USC (various programs), 33.546, 226.220, 226.225, 305.230 and 622.015, RSMo.
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.

Yes, this program is a federal mandate under the Affordable Care Act (ACA).

The Governor's Fiscal Year 2022 budget includes appropriation authority for Above and Beyond performance incentives beginning January 1, 2022. The ability to provide a link between compensation, "above and beyond" performance, and accountability is a proven best practice for employee reward and recognition programs used in other state governments and the private sector. The Division of Personnel partnered with all executive branch departments and a consulting firm to develop a new, top quality evaluation process, with supporting training for all supervisors and tools, to enable department leadership to identify those team members who are delivering exceptional performance. The program is designed to incentivize these individuals to continue this high level of performance and others to raise their game. With the goal of retaining those identified as top performers and the anticipation that these top performers will continue to deliver exceptional results, the request is for funding to be appropriated which provides top performers with a temporary salary increase for the services to be performed over the next year.

### **NEW DECISION ITEM**

RANK:	OF

Department of Transportation	Budget Unit: Multiple	
Division: Department Wide		
DI Name: Fringe Benefits for Above and Beyond Performance Incentives DI# 0000012	HB Section: Multiple	

### 3. WHY IS THIS FUNDING NEEDED? (Continued)

This request is essential to the state government's transformation of its approach to compensation and incentive practices to be in line with proven best practices in high performing organizations. Along with other rewards and recognition, such monetary incentives help sustain and motivate performance. Other state governments have adopted similar approaches to incentivize individuals to continue truly exceptional performance. Such approaches can incentivize not only continued excellent performance in current roles but also a commitment to continuous improvement and additional professional development.

### The Governor's Recommendation included funding for this item.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriated amount is based on departments providing performance incentives of 5% for the top 10% of employees with incentives capped at \$2,500 per employee. This expansion item is the amount needed to pay for retirement benefits related to the Above and Beyond Performance Incentives program.

### 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional

#### 6a. Provide an activity measure(s) for the program.

As of June 30, 2020 there were 4,746 active MoDOT employees, 4,799 retirees and 8,418 MoDOT dependents enrolled in the MoDOT/MSHP Medical Plan. MoDOT estimates approximately 200 employees will retire in calendar year 2021. As of June 30, 2020, there were 5,031 active MoDOT employees in the MoDOT and Patrol Employees' Retirement System (MPERS) retirement plan.

## 6b. Provide a measure(s) of the program's quality.

This chart shows the percent of employees who rated their satisfactions with an MPERS office visit as excellent. Data is collected through an online survey emailed to employees immediately after their office visit. "Overall, how satisfied were you with the service you received during your visit to MPERS?" was the question surveyed. The projections were established by averaging the last five years and projecting a three percent improvement.

**Division: Department Wide** 

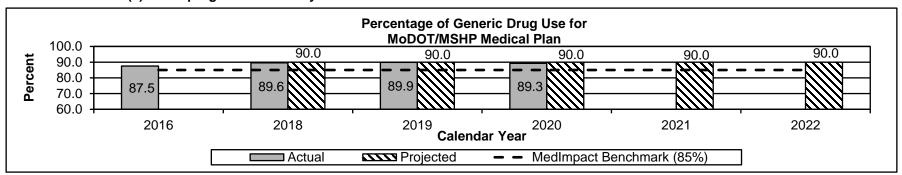

DI Name: Fringe Benefits Expansion - Retention Strategy 1 DI# 1605008 HB Section: 4.406

#### 6c. Provide a measure(s) of the program's impact.

MoDOT's medical insurance rates are calculated by dividing premium contributions by personal service costs. The medical insurance rates from the state are provided in the annual budget instructions. The projections for MoDOT's medical insurance rates were calculated by dividing estimated premium contributions by budgeted personal services costs. The projections for the state's medical insurance rates were provided in the annual budget instructions.

# 6d. Provide a measure(s) of the program's efficiency.

Data is provided by the prescription drug administrator and shows the increased use of generic prescriptions among plan participants. The projections are based on a five percent increase from the benchmark data provided by MedImpact.

Preventive services primarily include annual physical exams and routine immunizations, but can also include recommended procedures such as colonoscopies and mammograms. The benchmark is set by the medical provider. The projections were established by averaging the last five years and projecting a 1.5 percent improvement.

The projections were established by averaging the last five years and projecting a one percent improvement. The benchmark is set by the medical provider.

### 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional

#### 6a. Provide an activity measure(s) for the program.

As of June 30, 2020 there were 4,746 active MoDOT employees, 4,799 retirees and 8,418 MoDOT dependents enrolled in the MoDOT/MSHP Medical Plan. MoDOT estimates approximately 200 employees will retire in calendar year 2021. As of June 30, 2020, there were 5,031 active MoDOT employees in the MoDOT and Patrol Employees' Retirement System (MPERS) retirement plan.

## 6b. Provide a measure(s) of the program's quality.

This chart shows the percent of employees who rated their satisfactions with an MPERS office visit as excellent. Data is collected through an online survey emailed to employees immediately after their office visit. "Overall, how satisfied were you with the service you received during your visit to MPERS?" was the question surveyed. The projections were established by averaging the last five years and projecting a three percent improvement.

#### 6c. Provide a measure(s) of the program's impact.

MoDOT's medical insurance rates are calculated by dividing premium contributions by personal service costs. The medical insurance rates from the state are provided in the annual budget instructions. The projections for MoDOT's medical insurance rates were calculated by dividing estimated premium contributions by budgeted personal services costs. The projections for the state's medical insurance rates were provided in the annual budget instructions.

### 6d. Provide a measure(s) of the program's efficiency.

Data is provided by the prescription drug administrator and shows the increased use of generic prescriptions among plan participants. The projections are based on a five percent increase from the benchmark data provided by MedImpact.

# 6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional

#### 6a. Provide an activity measure(s) for the program.

As of June 30, 2020 there were 4,746 active MoDOT employees, 4,799 retirees and 8,418 MoDOT dependents enrolled in the MoDOT/MSHP Medical Plan. MoDOT estimates approximately 200 employees will retire in calendar year 2021. As of June 30, 2020, there were 5,031 active MoDOT employees in the MoDOT and Patrol Employees' Retirement System (MPERS) retirement plan.

## 6b. Provide a measure(s) of the program's quality.

This chart shows the percent of employees who rated their satisfactions with an MPERS office visit as excellent. Data is collected through an online survey emailed to employees immediately after their office visit. "Overall, how satisfied were you with the service you received during your visit to MPERS?" was the question surveyed. The projections were established by averaging the last five years and projecting a three percent improvement.

#### 2. CORE DESCRIPTION

HB 5

The appropriations included in this core represent the administrative costs to support the Missouri Department of Transportation (MoDOT) in its mission. According to the Reason Foundation's 25th Annual Highway Report, which was released in November 2020, MoDOT has the fourth lowest administrative disbursements per state controlled mile in the United States. This core decision item includes organizational dues.

\$1,502,236

The Governor's Recommendation is the same as the department's request.

# 3. PROGRAM LISTING (list programs included in this core funding)

Executive management and related support (divisions, units, district

engineers and assistant district engineers) Financial Services

Audits and Investigations

Communications

**Equal Opportunity and Diversity** 

Governmental Relations **Human Resources** 

Legal Activities at Central Office

Organizational Dues

Department of Transportation	HB Section: 4.400
Program Name: Administration	
Program is found in the following core budget(s): Administration	

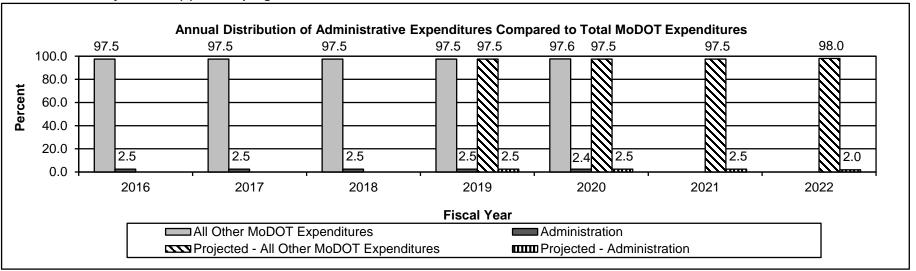

# 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians

# 1b. What does this program do?

This program funds the administrative costs to support the Missouri Department of Transportation (MoDOT) in its mission.

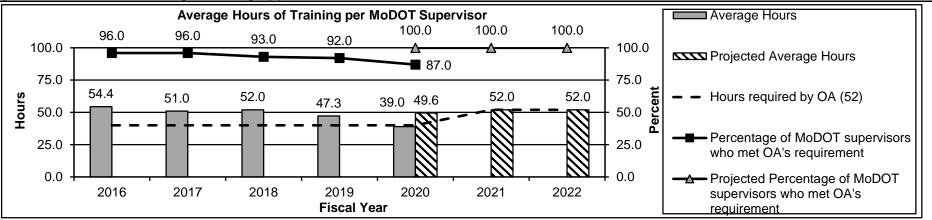

## 2a. Provide an activity measure(s) for the program.

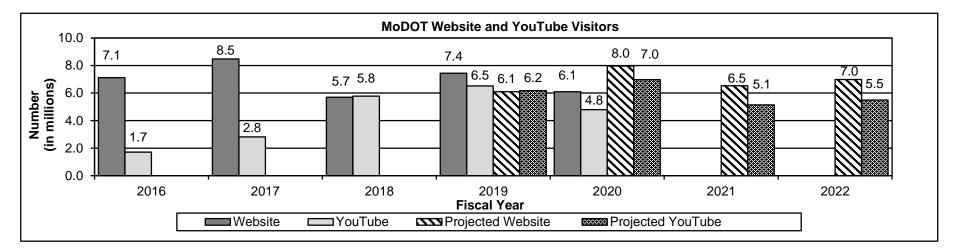

The 2021 projection was established by averaging the last five fiscal years. The 2022 projection was established by averaging the last five years and projecting a half of a percent reduction.

Department of Transportation HB Section: 4.400
Program Name: Administration

Program is found in the following core budget(s): Administration

Effective March 30, 2020, 1 CSR 20-6.010 requires all supervisors, managers and executive as defined under the Office of Administration's (OA) Management Training Rule are required to complete a minimum of 52 hours of training each year. The projections for hours of training per MoDOT supervisor is based on OA's annual training requirement. MoDOT's target is for 100 percent of the department's supervisors to meet OA's requirement.

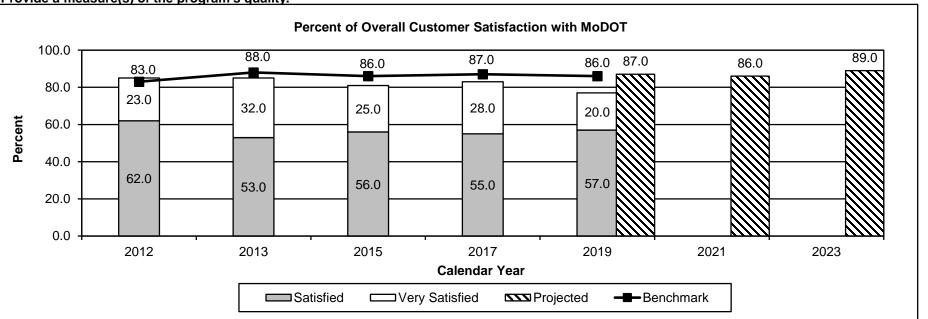

The projections were established by projecting a seven percent increase from the prior year.

Department of Transportation	HB Section: 4.400
Program Name: Administration	

Program is found in the following core budget(s): Administration

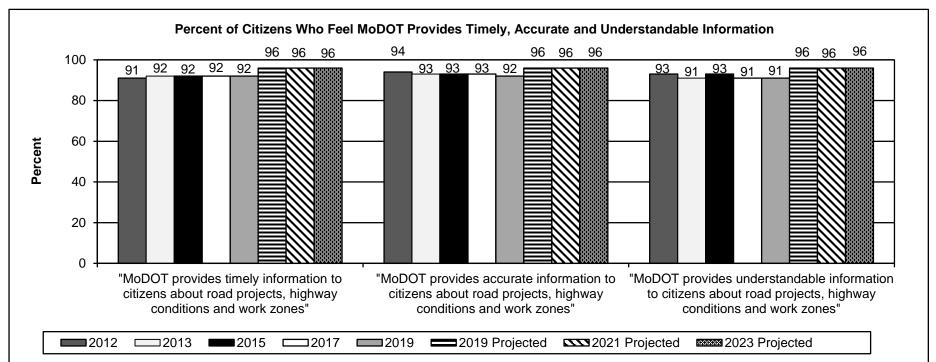

2b. Provide a measure(s) of the program's quality.

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation	HB Section: 4.400
Program Name: Administration	

Program is found in the following core budget(s): Administration

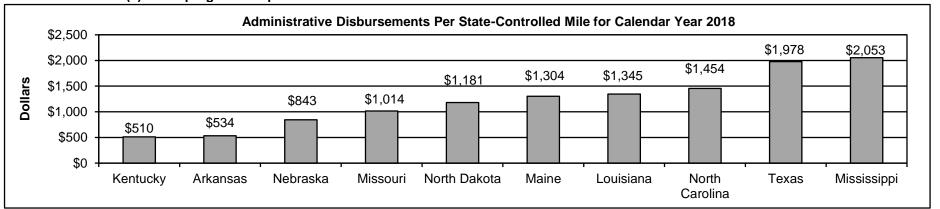

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The percent of citizens who feel that MoDOT provides timely, accurate and understandable information for the years above was calculated by adding the strongly agree and the somewhat agree responses to the statements provided in the chart. The 2021 and 2023 projections are based on the department's goals. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation HB Section: 4.400

Program Name: Administration

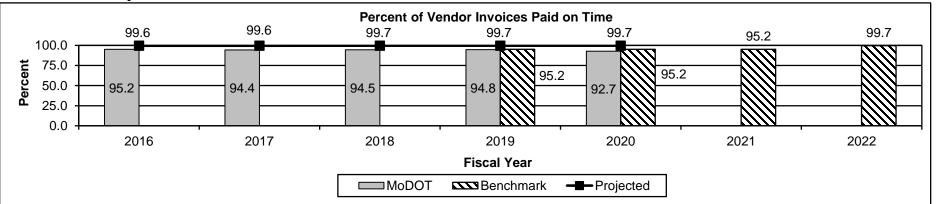

Program is found in the following core budget(s): Administration

# 2c. Provide a measure(s) of the program's impact.

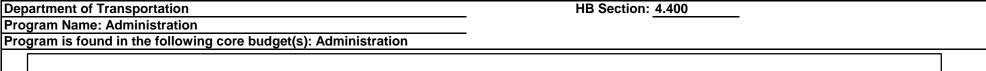

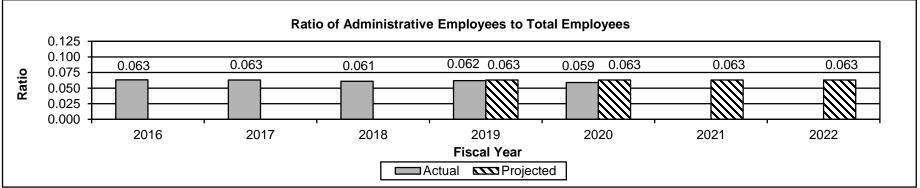

Administrative disbursements include general and central office expenditures in support of state-administered highways. This data is from the Reason Foundation's 25th Annual Highway Report, which was released in November 2020. Missouri ranks the 4th lowest nationwide in administrative disbursements per state-controlled mile for calendar year 2018.

## 2d. Provide an efficiency measure.

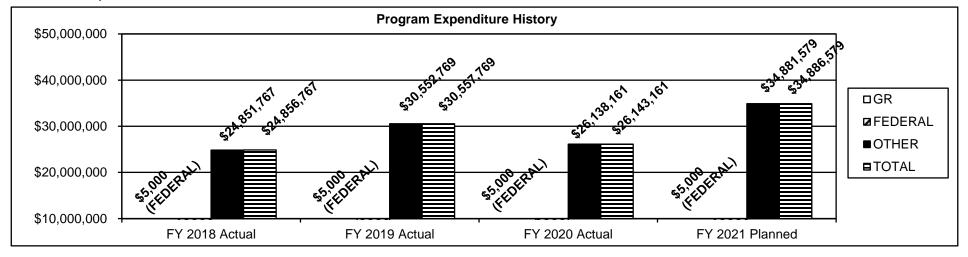

Timely is defined as a check or electronic payment issued less than 31 days from the date of the invoice. The benchmark data is from the U.S. General Services Administration. The projections for 2019, 2020 and 2021 are based on the department's goal. The 2022 projection is equal to the benchmark.

This chart shows the number of salaried administrative employees compared to total salaried employees. Data is as of June 30th of each fiscal year. The projections are based on budgeted number of employees.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

	Department of Transportation	HB Section: <u>4.400</u>				
	Program Name: Administration					
Pro	Program is found in the following core budget(s): Administration					
4.	4. What are the sources of the "Other" funds?					
	State Road Fund (0320), Railroad Expense Fund (0659)					
5.	5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include Article IV, Section 30(b), MO Constitution and 226.220, RSMo.	le the federal program number, if applicable.)				
6.	6. Are there federal matching requirements? If yes, please explain. No					
7.	7. Is this a federally mandated program? If yes, please explain. No

Other Funds: State Road Fund (0320) and State Bond Fund (0319)

directly to MoDOT, Highway Patrol, and Conservation.

#### 2. CORE DESCRIPTION

The appropriations include personal services, expense and equipment and program disbursements for planning, design, right of way acquisitions, contractor payments, pass-through funds to local entities and debt service on outstanding bonds associated with road and bridge construction. The proposed costs represent payments associated with awarded projects in the Missouri Highways and Transportation Commission-approved Statewide Transportation Improvement Program (STIP). The payments are for projects awarded in previous fiscal years, as well as the current fiscal year, because payments are made as contractors complete the work in the months after projects are awarded. These expenses, excluding debt service, are paid from the State Road Fund and later federally reimbursed by the Federal Highway Administration. Typically, 80 percent of these expenses are reimbursed with federal funding.

#### The Governor's Recommendation is the same as the department's request.

### 3. PROGRAM LISTING (list programs included in this core funding)

Planning, design, construction, rehabilitation & reconstruction of roads and bridges Construction and material inspection
Incidental costs in the purchase of right of way for construction

Research

Motorist Assist Program

Provide facilities for pedestrians and bicyclists

Landscaping and other scenic beautification Archaeological planning and research Environmental mitigation Construction contract monitoring Transportation Management System

Historical preservation

District legal activities Project monitoring

#### **CORE DECISION ITEM**

Department of Transportation	HB Section: 04.410
Program Name: Program Delivery	
Drogger is found in the following core budget(s). Drogger Delivery	-

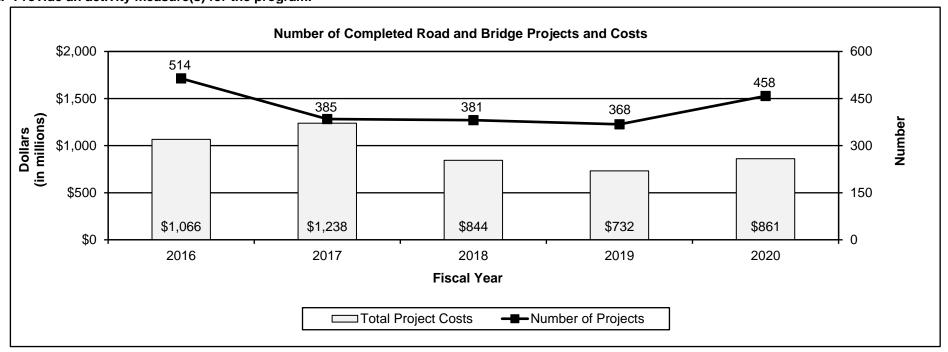

## Program is found in the following core budget(s): Program Delivery 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects, operating a reliable transportation system Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians

#### 1b. What does this program do?

This program includes personal services, expense and equipment and program disbursements for planning, design, right of way acquisitions, contractor payments, federal pass-through funds to local entities and debt service on outstanding bonds associated with road and bridge construction. The proposed costs represent payments associated with awarded projects in the Commission approved Statewide Transportation Improvement Program (STIP). The payments are for projects awarded in previous fiscal years, as well as the current fiscal year, because payments are made as contractors complete the work in the months after projects are awarded.

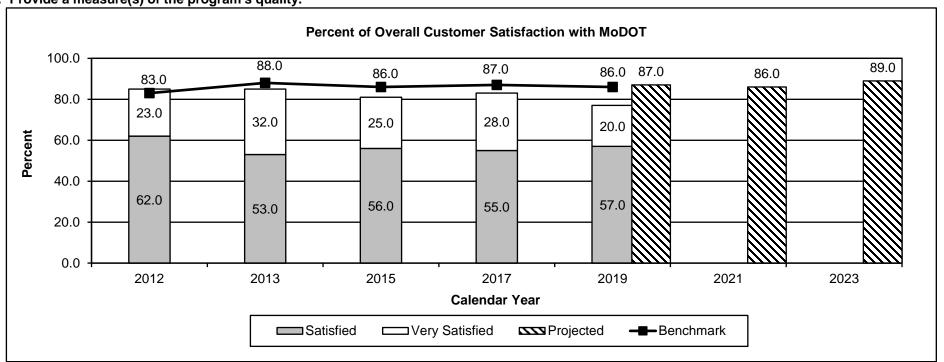

#### 2a. Provide an activity measure(s) for the program.

Department of Transportation	HB Section: <u>04.410</u>
Program Name: Program Delivery	

Program is found in the following core budget(s): Program Delivery

2b. Provide a measure(s) of the program's quality.

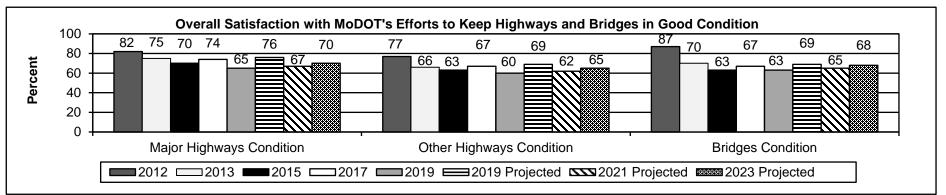

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation HB Section: 04.410

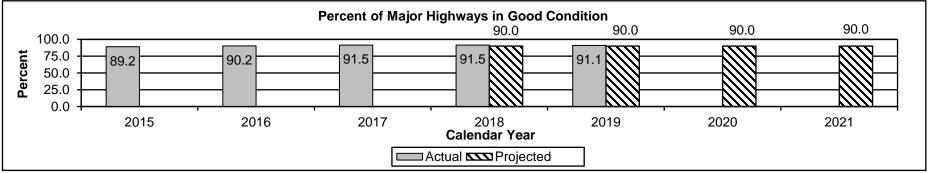

Program Name: Program Delivery

Program is found in the following core budget(s): Program Delivery

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The questions surveyed were "How satisfied are you with: MoDOT's efforts to keep the surface of major highways in good condition (smooth and free of potholes); keep the surface of other state highways in good condition (smooth and free of potholes); and keep bridges in good condition?". Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

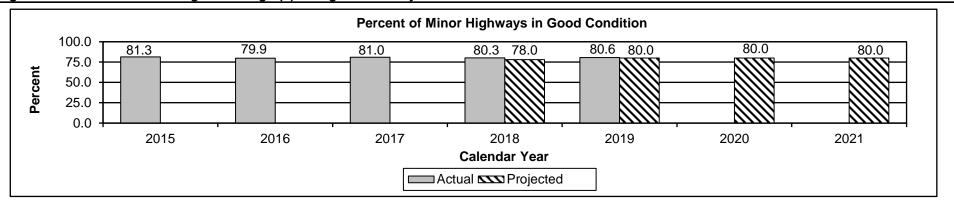

#### 2c. Provide a measure(s) of the program's impact.

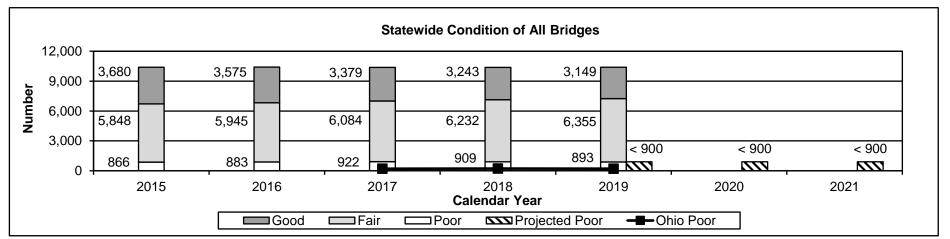

The projections for this measure are based on the statewide asset management plan and reflects the department's goal of maintaining current conditions. These are set by the department and will not change unless policy changes, regardless of performance. Currently, good comparison data is not available because states measure the condition of major and minor highways using a variety of methods. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

Department of Transportation HB Section: 04.410
Program Name: Program Delivery

Program is found in the following core budget(s): Program Delivery

The projections for this measure are based on the statewide asset management plan and reflects the department's goal of maintaining current conditions. These are set by the department and will not change unless policy changes, regardless of performance. Currently, good comparison data is not available because states measure the condition of major and minor highways using a variety of methods. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

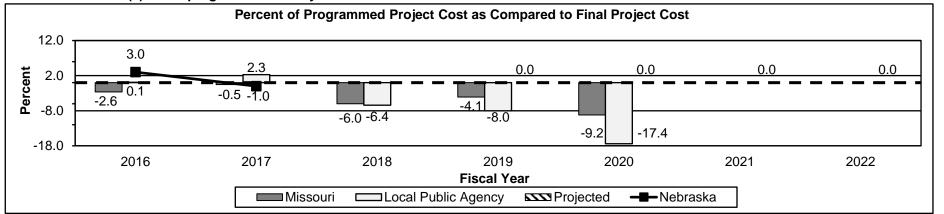

MoDOT's goal is to reduce the number of bridges in poor condition. The projections reflect the department's goal of maintaining current conditions. Ohio has been selected for comparison due to its similar demographics, geography and weather conditions. Ohio's total number of state highway bridges is only 49 less than Missouri. Ohio's Bridges in poor condition was 208 in 2017, 223 in 2018 and 218 in 2019. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

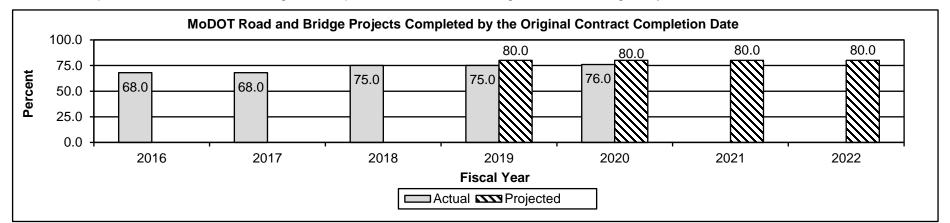

Department of Transportation	HB Section: <u>04.410</u>
Program Name: Program Delivery	

Program is found in the following core budget(s): Program Delivery

### 2d. Provide a measure(s) of the program's efficiency.

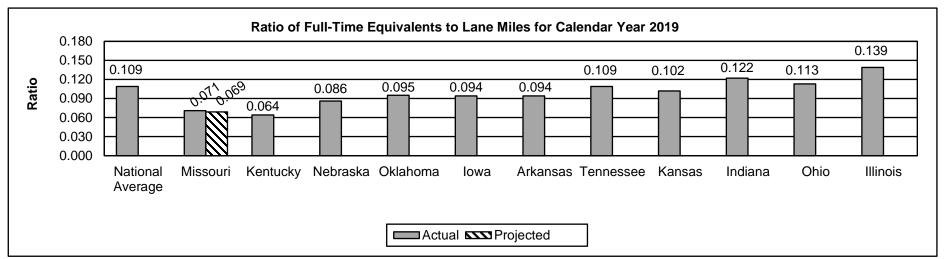

Construction projects are programmed, or budgeted, in the department's Statewide Transportation Improvement Program (STIP). Once a project is awarded and work begins, final project costs can change from the original programmed cost in the STIP. Construction project cost changes are usually caused by final quantity adjustments, weather, subgrade issues or other additional construction phase service costs. Nebraska has been selected for comparison because it is the only state with comparable data available. The target is zero percent difference, indicating MoDOT is making timely use of available funds.

MoDOT works to meet the initial contract completion date by preparing accurate plans and quantities and setting aggressive but reasonable completion dates. Occasionally, an authorized extension of the completion date is required for things like weather or additional work. This measure tracks the percentage of road and bridge projects completed by the commitment date originally established in the contract. MoDOT's target is 80 percent.

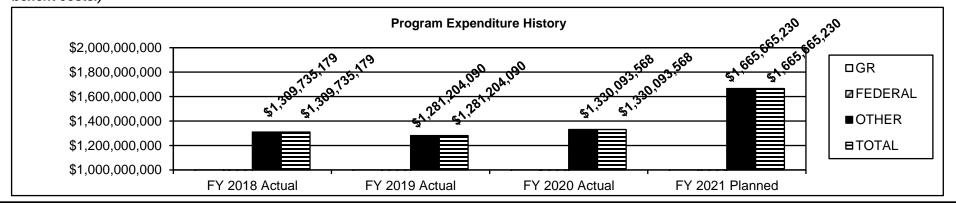

Department of Transportation HB Section: 04.410
Program Name: Program Delivery

Program is found in the following core budget(s): Program Delivery

Full-time equivalent (FTE) is the total number of hours worked or on paid leave divided by 2,080. The ratio in this measure was calculated by dividing the FTEs in the Census Bureau - 2019 Annual Survey of Public Employees and Payroll, by the estimated number of lane miles in the 2019 FHWA report of State Highway Agency-Owned Public Roads (HM-81). A low ratio means MoDOT is efficiently maintaining roadways with limited resources. The projection is based on the department's goal for FTEs. Data for 2020 was not available at the time of publication.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

Dep	artment of Transportation HB Section: 04.410
	gram Name: Program Delivery
<b>Pro</b>	gram is found in the following core budget(s): Program Delivery
1.	What are the sources of the "Other" funds?
	State Road Fund (0320) and State Road Bond Fund (0319)
5.	What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) Title 23 USC 133, Article IV, Section 30(b) MO Constitution and 226.220, RSMo.
6.	Are there federal matching requirements? If yes, please explain.  The Construction program requires a 10 to 20 percent non-federal match unless specifically identified as 100 percent federal funding.
7.	Is this a federally mandated program? If yes, please explain.  Federal funds apportioned through the Highway Act must be spent on specific transportation activities. For example, the National Highway Performance Program funds must be spent on improvements on the National Highway System.

Department of Transportation	Program Delivery 4.410
Program Name: Motorist Assistance	
Program is found in the following core budget(s): Program Delivery	

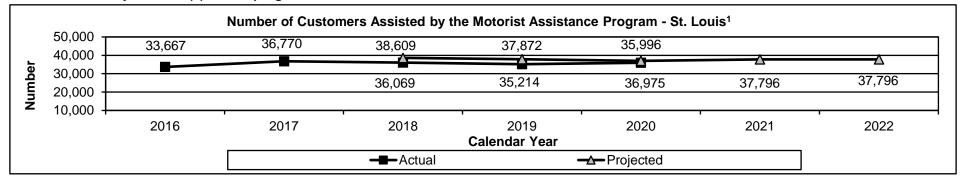

### 1a. What strategic priority does this program address?

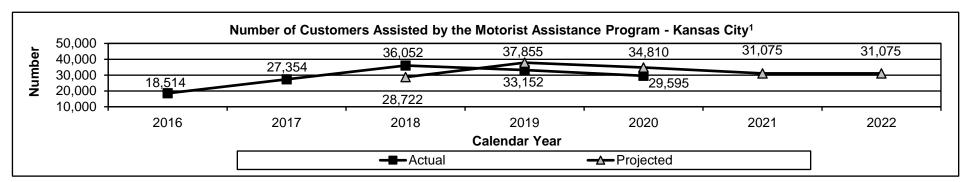

Safety - moving Missourians safely

#### 1b. What does this program do?

The Motorist Assistance Program provides services to help keep traffic safely moving and decrease congestion. Motorist Assistance personnel respond to both major and minor incidents, assisting with managing traffic and clearing the roadways of incidents. These efforts improve the safety of the responders and the driving public, as well as decrease the delays for the motorists in and around the scene. In the St. Louis and Kansas City metropolitan areas, Motorist Assistance personnel also provide assistance to motorists with minor mechanical problems, perform hazardous waste and debris removal and address the issue of abandoned vehicles. By providing these services, traveler delays are minimized and emissions are reduced.

#### 2a. Provide an activity measure(s) for the program.

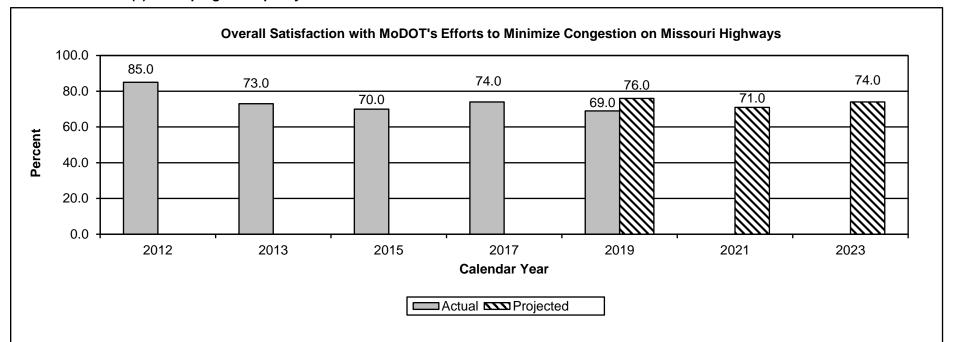

<sup>&</sup>lt;sup>1</sup>These measures are not a comparison between St. Louis and Kansas City, but a statistical chart indicating the number of customers assisted by the Motorist Assistance Program. The 2021 and 2022 projections were established by projecting a five percent increase from the number of customers assisted in 2020.

THIS REQUEST CAN BE CATEGORIZED AS: **New Legislation New Program** Fund Switch Federal Mandate **Program Expansion** Cost to Continue Space Request GR Pick-Up Equipment Replacement Pay Plan Other: 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This expansion item is requested to spend \$234.8 million for funds received from the COVID Relief Supplemental Appropriations Act of 2021, potential federal stimulus funds and any other additional funds for transportation improvements. If made available, this expansion item would allow us to use the increased funding in fiscal year 2022. The additional funding would increase contractor payments, consultant design work, and right of way purchases as the department's construction program increases. This item does not include the necessary personal service, fringe benefit and expense and equipment costs for in-house program delivery activities to administer a program of this size. Those items will be requested separately, as needed. These expenses are paid from the State Road Fund and later federally reimbursed by the Federal Highway Administration. Typically, 80 percent of these expenses are reimbursed with federal funding.

The Governor's Recommendation is the same as the department's request.

RANK:	8	OF	14

"How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

HB Section: 4.410

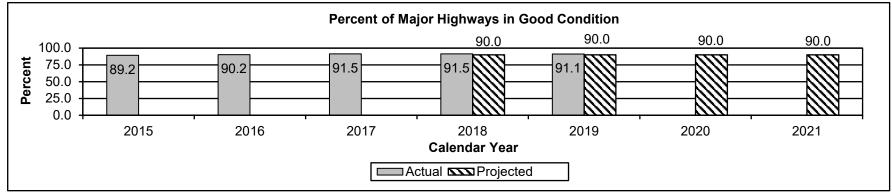

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The questions surveyed were "How satisfied are you with: MoDOT's efforts to keep the surface of major highways in good condition (smooth and free of potholes); keep the surface of other state highways in good condition (smooth and free of potholes); and keep bridges in good condition?". Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. The 2023 projection is also based on the assumption that additional funding is received. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

#### Provide a measure(s) of the program's impact. 6c.

The projections for this measure are based on the statewide asset management plan and reflects the department's goal of maintaining current conditions. These are set by the department and will not change unless policy changes, regardless of performance. Currently, good comparison data is not available because states measure the condition of major and minor highways using a variety of methods. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

MoDOT's goal is to reduce the number of bridges in poor condition. The projections reflect the department's goal of maintaining current conditions. Ohio has been selected for comparison due to its similar demographics, geography and weather conditions. Ohio's total number of state highway bridges is only 49 less than Missouri. Ohio's Bridges in poor condition was 208 in 2017, 223 in 2018 and 218 in 2019. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

# 6d. Provide a measure(s) of the program's efficiency.

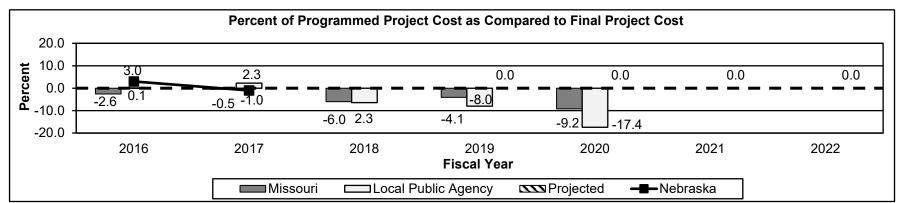

The chart above reflects the Program Delivery expenditures related to flood response.

RANK: 8 OF 14

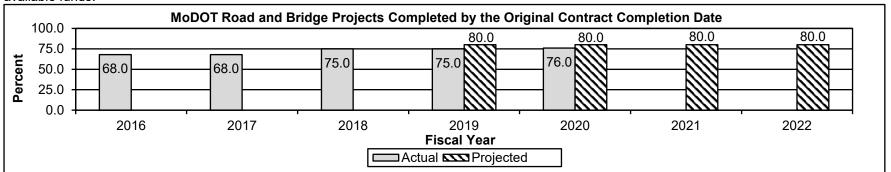

Department of Transportation Budget Unit: Program Delivery

Division: Program Delivery

DI Name: Program Delivery Program Expansion DI# 1605012 HB Section: 4.410

Construction projects are programmed, or budgeted, in the department's Statewide Transportation Improvement Program (STIP). Once a project is awarded and work begins, final project costs can change from the original programmed cost in the STIP. Construction project cost changes are usually caused by final quantity adjustments, weather, subgrade issues or other additional construction phase service costs. Nebraska has been selected for comparison because it is the only state with comparable data available. The target is zero percent difference, indicating MoDOT is making timely use of available funds.

MoDOT works to meet the initial contract completion date by preparing accurate plans and quantities and setting aggressive but reasonable completion dates. Occasionally, an authorized extension of the completion date is required for things like weather or additional work. This measure tracks the percentage of road and bridge projects completed by the commitment date originally established in the contract. MoDOT's target is 80 percent.

Department of Transportation	HB Section(s):	4.420	
Program Name: Focus on Bridges - Debt Service	_		
Program is found in the following core budget(s): Bridge Bond Debt Service			

# 1a. What strategic priority does this program address?

Service - providing outstanding customer service, deliveriny efficient and innovative transportation projects and operating a reliable transportation system Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians

# 1b. What does this program do?

This program is for the replacement or repair of bridges on the state highway system as part of the Focus on Bridges Program.

# 2a. Provide an activity measure(s) for the program.

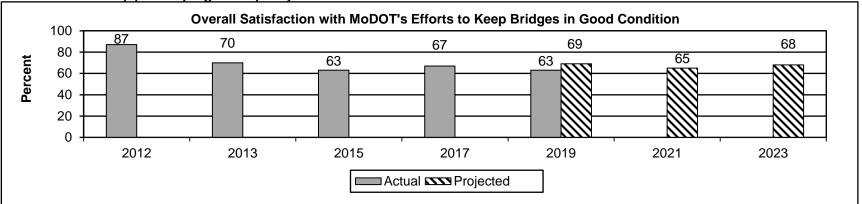

Statewide Condition					
of All Bridges	2015	2016	2017	2018	2019
Good	3,680	3,575	3,379	3,243	3,149
Fair	5,848	5,945	6,084	6,232	6,355
Poor	866	883	922	909	893
Total:	10,394	10,403	10,385	10,384	10,397
Weight Restricted <sup>1</sup>	1,303	1,253	1,194	1,131	1,081

<sup>&</sup>lt;sup>1</sup>Weight restricted means a bridge is unable to carry some normal traffic.

Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

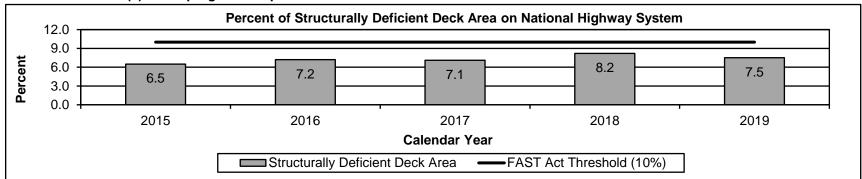

Department of Transportation	HB Section(s): _	4.420	
Program Name: Focus on Bridges - Debt Service	_		
Program is found in the following core budget(s): Bridge Bond Debt Service	_		

#### 2b. Provide a measure(s) of the program's quality.

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The question surveyed was, "How satisfied are you with MoDOT's efforts to keep bridges in good condition?". Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

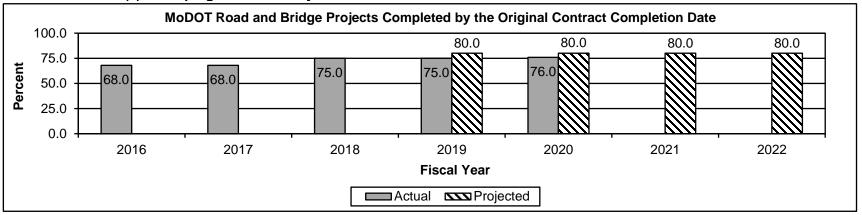

# 2c. Provide a measure(s) of the program's impact.

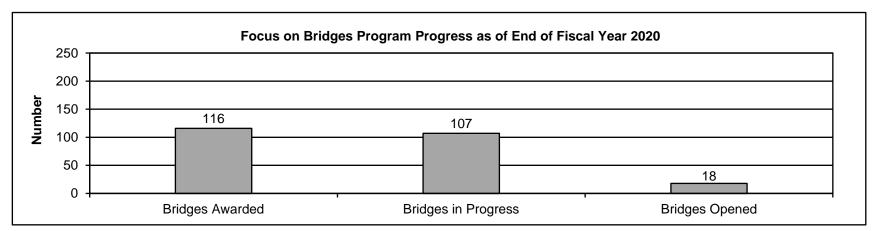

This measure shows the percent of structurally deficient deck area for bridges on the National Highway System (NHS). The MoDOT system currently has 3,570 NHS structures, with 161 being structurally deficient. The FAST Act established a 10 percent penalty threshold for states that, when exceeded, requires a state to focus money on bridges until they are back under 10 percent. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

Department of Transportation	HB Section(s):	4.420	
Program Name: Focus on Bridges - Debt Service	_		
Program is found in the following core budget(s): Bridge Bond Debt Service	_		

2d. Provide a measure(s) of the program's efficiency.

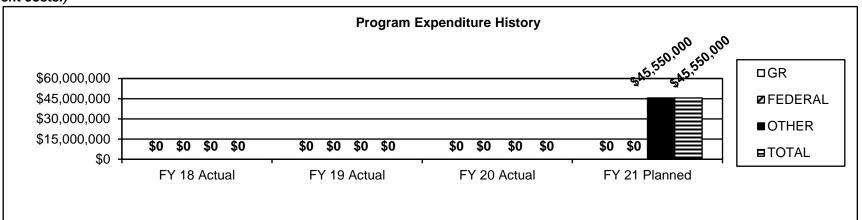

MoDOT works to meet the initial contract completion date by preparing accurate plans and quantities and setting aggressive but reasonable completion dates. Occasionally, an authorized extension of the completion date is required for things like weather or additional work. This measure tracks the percentage of road and bridge projects completed by the commitment date originally established in the contract. MoDOT's target is 80 percent.

The Focus on Bridges program will repair or replace 250 bridges in poor condition across Missouri. This program will be complete when all 250 bridges have been awarded and completed. It is projected that all 250 bridges will be awarded by the end of fiscal year 2023.

Department of Transportation	HB Section(s):	4.420	
Program Name: Focus on Bridges - Debt Service	_		
Program is found in the following core budget(s): Bridge Bond Debt Service	_		

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

- 4. What are the sources of the "Other " funds? State Road Fund (0320)
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Truly Agreed to and Finally Passed Senate Substitute #2 for Senate Concurrent Resolution 14 (2019)
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.
  No

budgeted direct	tly to MoDOT, Hig	ahwav Patro	l. and Conserva	ntion.	budaeted dire	ectly to MoD	OT. Hiahwa	y Patrol, and Co	nservation.

Other Funds: State Road Fund (0320)

Notes: HB 4 fringes for this program are included in the PS total above.

#### 2. CORE DESCRIPTION

This item is needed to pay for improvements to bridges as part of the Focus on Bridges Program. MoDOT is responsible for maintaining nearly 10,400 bridges on the state system. There are currently 893 bridges that have been rated "poor" by the Federal Highway Administration. There are 1,081 bridges in Missouri that are considered weight restricted, which means they are unable to carry some normal traffic. 388 bridges in Missouri are rated both poor and weight restricted. Federal Highway Administration statistics indicate Missouri is ranked 41st for the most bridge deck area in poor condition.

Other Funds: State Road Fund (0320)

The Governor's Recommendation is the same as the department's request.

## 3. PROGRAM LISTING (list programs included in this core funding)

This section is not applicable.

#### **CORE DECISION ITEM**

Department of Transportation

Division: Program Delivery

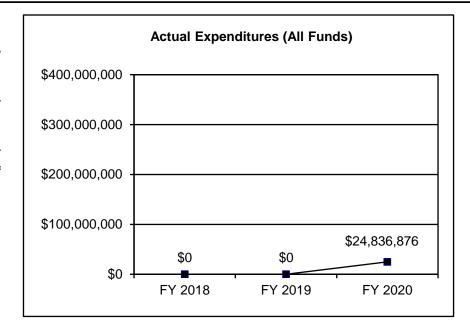

Core: Focus on Bridges - Bond Proceeds

Budget Unit: Bridge Repair & Replacement

HB Section: 4.425

### 4. FINANCIAL HISTORY

	FY 2018	FY 2019	FY 2020	FY 2021
	Actual	Actual	Actual	Current Yr.
Appropriation (All Funds)	\$0	\$0	\$301,000,000	\$301,000,000
Less Reverted (All Funds)	\$0	\$0	\$0	N/A
Less Restricted (All Funds)*	\$0	\$0	\$0	N/A
Budget Authority (All Funds)	\$0	\$0	\$301,000,000	N/A
Actual Expenditures (All Funds)	\$0	\$0	\$24,836,876	N/A
Unexpended (All Funds)	\$0	\$0	\$276,163,124	N/A
Unexpended, by Fund:				
General Revenue	\$0	\$0	\$0	N/A
Federal	\$0	\$0	\$0	N/A
Other	\$0	\$0	\$276,163,124	N/A

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

<sup>\*</sup>Restricted amount is N/A

## FLEXIBILITY REQUEST FORM

im\_didetail

Department of Transportation	HB Section(s): 4.425
Program Name: Focus on Bridges - Program Delivery	
Program is found in the following core budget(s): Program Delivery	

## 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians

## 1b. What does this program do?

This program is for the replacement or repair of bridges on the state highway system as part of the Focus on Bridges Program.

### 2a. Provide an activity measure(s) for the program.

Statewide Condition of All Bridges	2015	2016	2017	2018	2019
Good	3,680	3,575	3,379	3,243	3,149
Fair	5,848	5,945	6,084	6,232	6,355
Poor	866	883	922	909	893
Total:	10,394	10,403	10,385	10,384	10,397
Weight Restricted <sup>1</sup>	1,303	1,253	1,194	1,131	1,081

<sup>1</sup>Weight restricted means a bridge is unable to carry some normal traffic.

Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

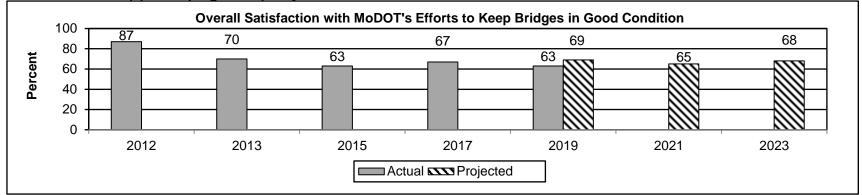

Department of Transportation

Program Name: Focus on Bridges - Program Delivery

HB Section(s): 4.425

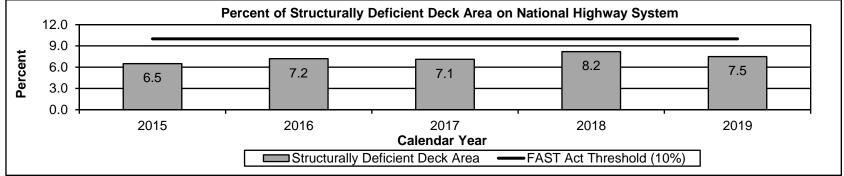

Program is found in the following core budget(s): Program Delivery

2b. Provide a measure(s) of the program's quality.

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The question surveyed was, "How satisfied are you with MoDOT's efforts to keep bridges in good condition?". Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

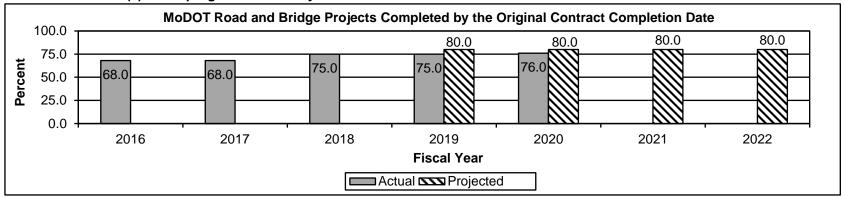

This measure shows the percent of structurally deficient deck area for bridges on the National Highway System (NHS). The MoDOT system currently has 3,570 NHS structures, with 161 being structurally deficient. The FAST Act established a 10 percent penalty threshold for states that, when exceeded, requires a state to focus money on bridges until they are back under 10 percent. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

Department of Transportation

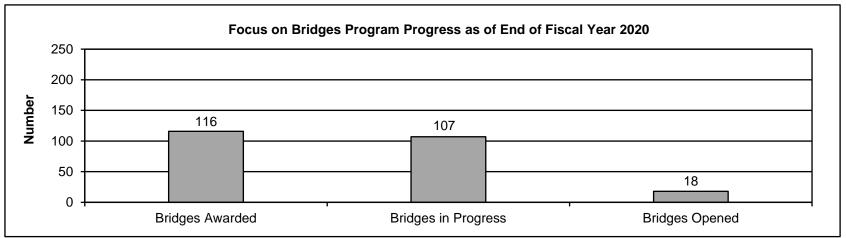

Program Name: Focus on Bridges - Program Delivery

Program is found in the following core budget(s): Program Delivery

2d. Provide a measure(s) of the program's efficiency.

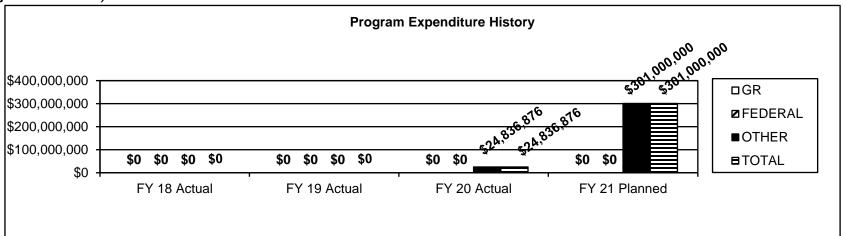

MoDOT works to meet the initial contract completion date by preparing accurate plans and quantities and setting aggressive but reasonable completion dates. Occasionally, an authorized extension of the completion date is required for things like weather or additional work. This measure tracks the percentage of road and bridge projects completed by the commitment date originally established in the contract. MoDOT's target is 80 percent.

The Focus on Bridges program will repair or replace 250 bridges in poor condition across Missouri. This program will be complete when all 250 bridges have been awarded and completed. It is projected that all 250 bridges will be awarded by the end of fiscal year 2023.

Department of Transportation	HB Section(s): 4.425
Program Name: Focus on Bridges - Program Delivery	
Program is found in the following core budget(s): Program Delivery	

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (*Note: Amounts do not include fringe benefit costs.*)

- 4. What are the sources of the "Other " funds? State Road Fund (0320)
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Truly Agreed to and Finally Passed Senate Substitute #2 for Senate Concurrent Resolution 14 (2019)
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.
  No

This page left blank intentionally.

Other Funds: State Road Fund (0320)

Other Funds: State Road Fund (0320)

Notes: HB 4 fringes for this program are included in the PS total above.

#### 2. CORE DESCRIPTION

This item is needed for the planning, designing, construction, reconstruction, rehabilitation and significant repair of bridges on the state highway system under the Missouri Highways and Transportation Commission's five year Statewide Transportation Improvement Program as part of the Focus on Bridges Program.

The Governor's Recommendation is the same as the department's request.

## 3. PROGRAM LISTING (list programs included in this core funding)

This section is not applicable.

#### **CORE DECISION ITEM**

Department of Transportation

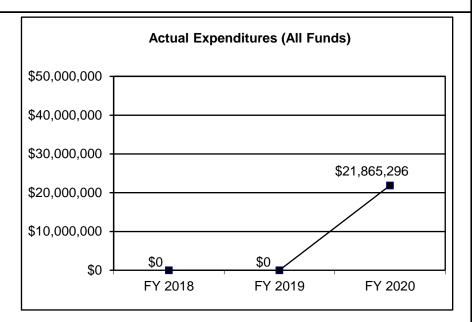

Division: Program Delivery

Core: Bridge Replacement & Repair

HB Section: 4.430

## 4. FINANCIAL HISTORY

	FY 2018	FY 2019	FY 2020	FY 2021
	Actual	Actual	Actual	Current Yr.
Appropriation (All Funds)	\$0	\$0	\$50,000,000	\$50,000,000
Less Reverted (All Funds)	\$0	\$0	\$0	N/A
Less Restricted (All Funds)*	\$0	\$0	\$0	N/A
Budget Authority (All Funds)	\$0	\$0	\$50,000,000	N/A
Actual Expenditures (All Funds)	\$0	\$0	\$21,865,296	N/A
Unexpended (All Funds)	\$0	\$0	\$28,134,704	N/A
Unexpended, by Fund:				
General Revenue	\$0	\$0	\$0	N/A
Federal	\$0	\$0	\$0	N/A
Other	\$0	\$0	\$28,134,704	N/A

\*Restricted amount is N/A

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

Department of Transportation	HB Section(s):4.430
Program Name: Bridge Replacement & Repair	
Program is found in the following core budget(s): Bridge Replacement & Repai	r

### 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians

## 1b. What does this program do?

This program accelerates the repair or replacement of bridges that are already part of the five-year Statewide Transportation Improvement Program as part of the Focus on Bridges Program.

## 2a. Provide an activity measure(s) for the program.

Statewide Condition of All Bridges	2015	2016	2017	2018	2019
Good	3,680	3,575	3,379	3,243	3,149
Fair	5,848	5,945	6,084	6,232	6,355
Poor	866	883	922	909	893
Total:	10,394	10,403	10,385	10,384	10,397
Weight Restricted <sup>1</sup>	1,303	1,253	1,194	1,131	1,081

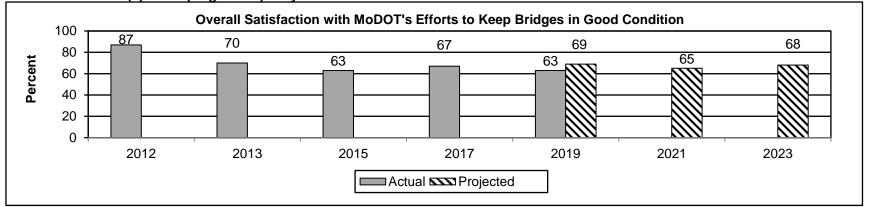

<sup>&</sup>lt;sup>1</sup>Weight restricted means a bridge is unable to carry some normal traffic.

Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

Department of Transportation HB Section(s): 4.430
Program Name: Bridge Replacement & Repair

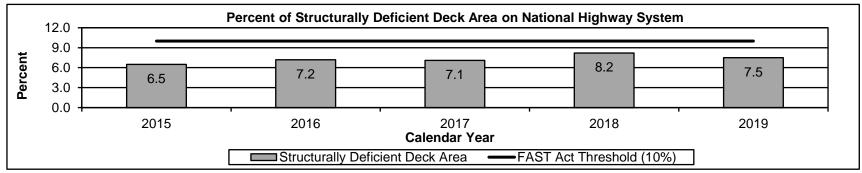

Program is found in the following core budget(s): Bridge Replacement & Repair

2b. Provide a measure(s) of the program's quality.

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The question surveyed was, "How satisfied are you with MoDOT's efforts to keep bridges in good condition?". Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

## 2c. Provide a measure(s) of the program's impact.

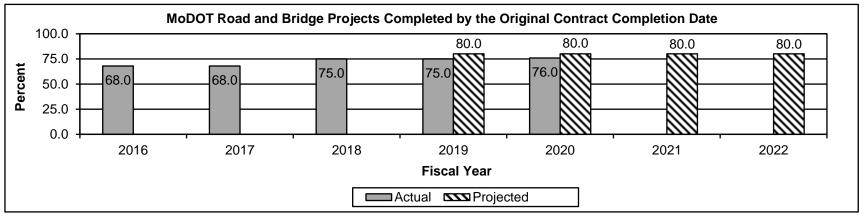

This measure shows the percent of structurally deficient deck area for bridges on the National Highway System (NHS). The MoDOT system currently has 3,570 NHS structures, with 161 being structurally deficient. The FAST Act established a 10 percent penalty threshold for states that, when exceeded, requires a state to focus money on bridges until they are back under 10 percent. Data for calendar year 2020 was not available at the time of publication due to delays caused by the COVID-19 pandemic.

Department of Transportation

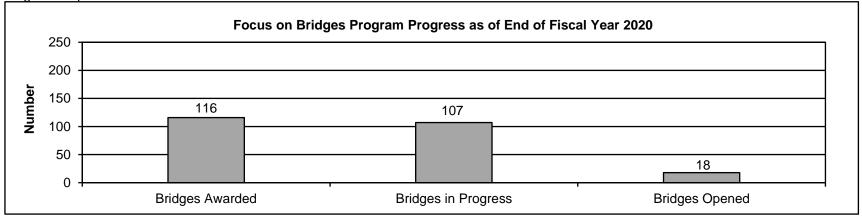

Program Name: Bridge Replacement & Repair

Program is found in the following core budget(s): Bridge Replacement & Repair

2d. Provide a measure(s) of the program's efficiency.

MoDOT works to meet the initial contract completion date by preparing accurate plans and quantities and setting aggressive but reasonable completion dates. Occasionally, an authorized extension of the completion date is required for things like weather or additional work. This measure tracks the percentage of road and bridge projects completed by the commitment date originally established in the contract. MoDOT's target is 80 percent.

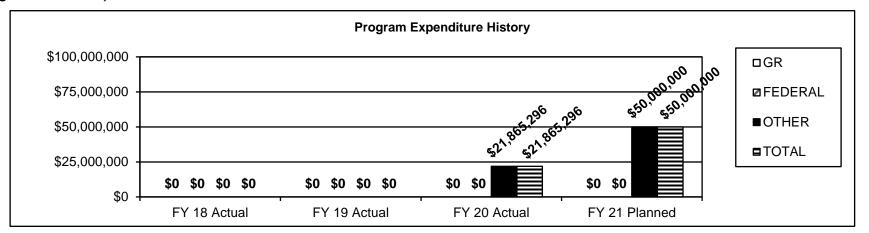

The Focus on Bridges program will repair or replace 250 bridges in poor condition across Missouri. This program will be complete when all 250 bridges have been awarded and completed. It is projected that all 250 bridges will be awarded by the end of fiscal year 2023.

Department of Transportation	HB Section(s): 4.430
Program Name: Bridge Replacement & Repair	

Program is found in the following core budget(s): Bridge Replacement & Repair

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

- 4. What are the sources of the "Other " funds? State Road Fund (0320)
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Truly Agreed to and Finally Passed Senate Substitute #2 for Senate Concurrent Resolution 14 (2019)
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.

Program is found in the following core budget(s): Trans Cost Share Program	<del>-</del>

### 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system

### 1b. What does this program do?

This is for a transportation cost-share program with local communities. MoDOT and the Department of Economic Development worked cooperatively to select projects with the greatest economic benefit to the state.

2a. Provide an activity measure(s) for the program.

**Transportation Cost-Share Program Funding**<sup>1</sup> (General Revenue)

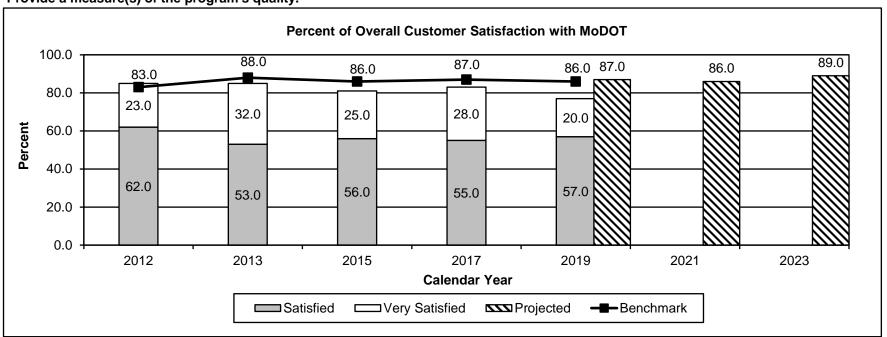

Project Sponsor	Project Description	Funding
Fenton Land Investors, LLC	North Highway Drive and Assembly Parkway improvements in Fenton	\$2,814,674
City of St. Charles	New Town Blvd improvements	\$967,500
City of St. Charles	Riverpointe roadway construction	\$5,000,000
St. Charles County	Route A improvements for the GM Wentzville Assembly Plant	\$3,500,000
City of Ozark	McCracken Road and North 3rd Street improvements	\$726,800
City of Parkville	Route 9 and 6th Street vehicular and pedestrian improvements	\$400,000
Pettis County	New Route 65 interchange north of Sedalia for Industrial Park	\$8,290,950
City of Creve Coeur	Route 67 and Old Olive Road intersection improvements	\$575,100
City of Poplar Bluff	Route 67 four-laning	\$2,724,976

<sup>1</sup>Approved by the Missouri Highways and Transportation Commission (MHTC) on July 8, 2020.

\$25,000,000

Department of Transportation	HB Section(s): 4.435
Program Name: Transportation Cost Share	
Program is found in the following core budget(s): Trans Cost Share Program	

2b. Provide a measure(s) of the program's quality.

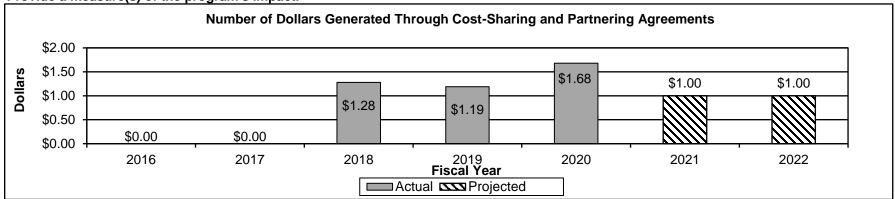

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation HB Section(s): 4.435
Program Name: Transportation Cost Share

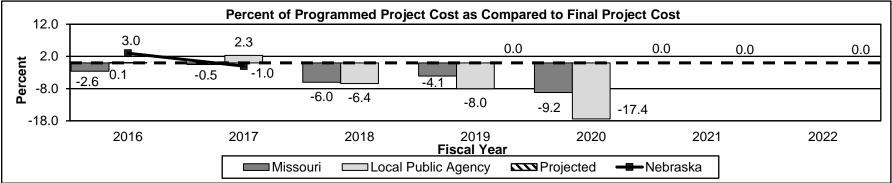

Program is found in the following core budget(s): Trans Cost Share Program

2c. Provide a measure(s) of the program's impact.

MoDOT's Cost-Share Program builds partnerships with local entities to pool efforts and resources to deliver state highway and bridge projects. When local entities partner with MoDOT, MoDOT matches their investment up to 50 percent of the project cost. This measure shows the amount local entities provided for cost-share projects for every \$1.00 of MoDOT Cost-Share Program funds. The Cost-Share Program was suspended in state fiscal years 2015, 2016 and 2017 due to the uncertainty of future transportation funding. The projections are based on the department's goal.

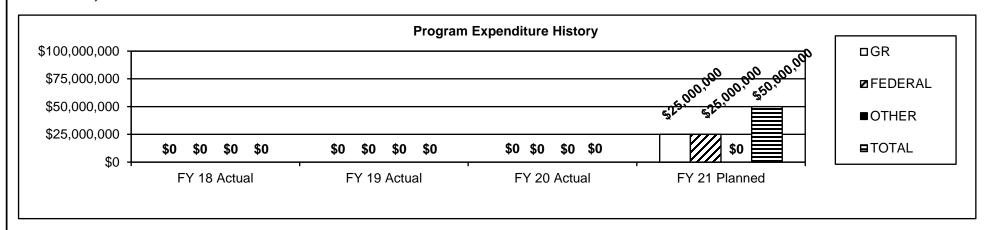

### 2d. Provide a measure(s) of the program's efficiency.

Construction projects are programmed, or budgeted, in the department's Statewide Transportation Improvement Program (STIP). Once a project is awarded and work begins, final project costs can change from the original programmed cost in the STIP. Construction project cost changes are usually caused by final quantity adjustments, weather, subgrade issues or other additional construction phase service costs. Nebraska has been selected for comparison because it is the only state with comparable data available. The target is zero percent difference, indicating MoDOT is making timely use of available funds.

Department of Transportation	HB Section(s): 4.435
Program Name: Transportation Cost Share	
Program is found in the following core budget(s): Trans Cost Share Program	_

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

- 4. What are the sources of the "Other " funds?
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  This program was originally authorized in the Truly Agreed to and Finally Passed House Bill 4, Section 4.430, from the 2019 Regular Legislative Session.
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.
  No

This page left blank intentionally.

Note: Fringes budgeted in House Bill 5 except for certain fringes budgeted directly to MoDOT, Highway Patrol, and Conservation.

4)

Other Funds: State Highways & Transportation Department Fund (0644)

directly to MoDOT, Highway Patrol, and Conservation.

Other Funds: State Highways & Transportation Department Fund (0644)

### 2. CORE DESCRIPTION

MoDOT requests funds be transferred monthly from the State Highways & Transportation Department Fund (0644) to the State Road Fund (0320) pursuant to Section 226.200.6, RSMo. The State Highways & Transportation Department Fund (0644) maintains a minimum balance of \$15.0 million.

The Governor's Recommendation is the same as the department's request.

## 3. PROGRAM LISTING (list programs included in this core funding)

This section is not applicable.

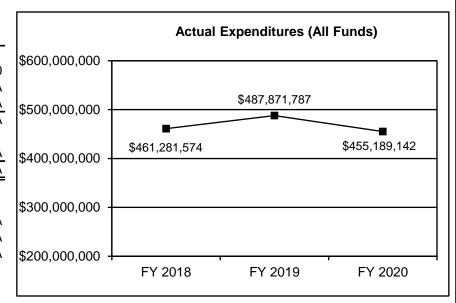

Department of Transportation Budget Unit: Program Delivery

Division: Program Delivery

Core: State Road Fund Transfer HB Section: 4.455

Dep	partment of Transportation HB Section: 4.455
	ogram Name: State Road Fund Transfer
Pro	ogram is found in the following core budget(s): Program Delivery
la.	What strategic priority does this program address?
	Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians
lb.	What does this program do?  Constitutionally, MoDOT spends the majority of its funds from the State Road Fund. Because the largest portion of state user fees are deposited into the State Highways & Transportation Department Fund, MoDOT has established a process in conjunction with the Office of Administration, State Treasurer's Office and State Auditor's Office to transfer funds from the State Highways & Transportation Department Fund to the State Road Fund.
2a.	Provide an activity measure(s) for the program. This appropriation is needed solely for accounting purposes.
2b.	Provide a measure(s) of the program's quality. This appropriation is needed solely for accounting purposes.
2c.	Provide a measure(s) of the program's impact. This appropriation is needed solely for accounting purposes.
2d.	Provide a measure(s) of the program's efficiency. This appropriation is needed solely for accounting purposes.

Department of Transportation	HB Section: 4.455
Program Name: State Road Fund Transfer	
Program is found in the following core budget(s): Program Delivery	

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

4. What are the sources of the "Other" funds?

State Highways & Transportation Department Fund (0644)

- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Article IV, Section 30(b), MO Constitution and Section 226.200.6, RSMo.
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.
  No

This page left blank intentionally.

State Highways & Transportation Department Fund (0644)

#### 2. CORE DESCRIPTION

The appropriations for the safety and operations core represent funds used by the Missouri Department of Transportation (MoDOT) for maintenance of highways and bridges, for safe and efficient traffic operations on the highway system and to enforce safety regulations for businesses and individuals involved in commercial operations on public highways in and through Missouri. The appropriations also include funding for Highway Safety programs, Motor Carrier Safety Assistance programs, the Motorcycle Safety Training program, ferryboat operations and the distribution of refunds associated with motor carriers.

With existing funding constraints, the safety and operations appropriations provide the public with as safe a transportation system as possible through restoration and preservation of roadways and bridges. In addition, these appropriations provide for continual monitoring of safety issues to include prompt emergency response such as removal of snow and ice and responding to other disaster events, like flooding. Mowing, litter pick-up, intelligent transportation systems (ITS) maintenance and various other activities are supported by the appropriations. Also, this core request will ensure the safe and efficient movement of people and goods by funding roadway visibility items such as signing, striping and other traffic-control devices used throughout the state. The appropriations also support programs to improve the flow of traffic and relieve congestion.

The Governor's Recommendation is the same as the department's request.

	CORE DECISION ITEM
Department of Transportation	Budget Unit: Safety and Operations
Division: Safety and Operations	
Core: Safety and Operations	HB Section: 4.440, 4.450
3. PROGRAM LISTING (list programs include	ded in this core funding)

- Upkeep and repair of roads, bridges, signs, signals, lighting, striping, right of way, rest areas and weigh stations, including the repair, maintenance and upkeep of tools and equipment used for such purposes
- Traffic activities
- Use of consumable inventory by maintenance organizations
- Law enforcement programs focusing on traffic safety problems
- Educational programs for law enforcement, judges, prosecutors and the public
- Traffic safety programs for motorcycle, school bus, pedestrian and bicycle safety
- Improving the collection of traffic records and data in the state
- Administering Motorcycle Safety Training Program
- Snow and ice removal
- Ferryboat operations

- Issuing oversize/overweight permits
- International Fuel Tax Agreement
- International Registration Plan
- Hazardous waste/Waste tire transporter
- Interstate Exempt/Intrastate Regulatory Authority
- Enforcement of safety regulations
- Issuing motor carrier highway fund refunds
- Issuing motor carrier motor fuel tax refunds
- Unified Carrier Registration
- Emergency response for disaster events
- ITS maintenance

Department of Transportation	HB Section: 4.440, 4.450
------------------------------	--------------------------

**Program Name: Safety and Operations** 

Program is found in the following core budget(s): Safety and Operations

## 1a. What strategic priority does this program address?

Stability - managing our assets, stabilizing resources and engaging our workforce and building a prosperous economy for all Missourians Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system Safety - moving Missourians safely

## 1b. What does this program do?

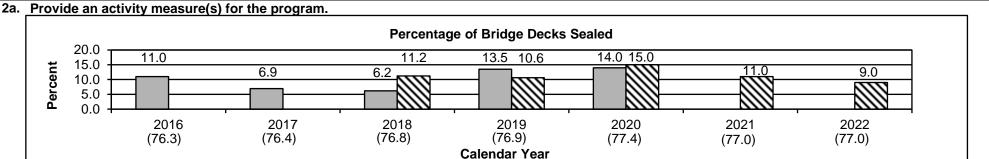

This program funds the maintenance of highways and bridges, for safe and efficient traffic operations on the highway system and to enforce safety regulations for businesses and individuals involved in commercial operations on public highways in and through Missouri. The following are examples of activities related to Safety and Operations:

- Maintenance, restoration and preservation of highways and bridges
- Snow and ice removal
- Emergency response to disaster events
- Mowing
- Litter pick-up
- Intelligent Transportation Systems (ITS) maintenance
- Signing
- Striping
- Regulation of motor carriers
- Distribution of refunds associated with motor carriers

Department of Transportation HB Section: 4.440, 4.450

**Program Name: Safety and Operations** 

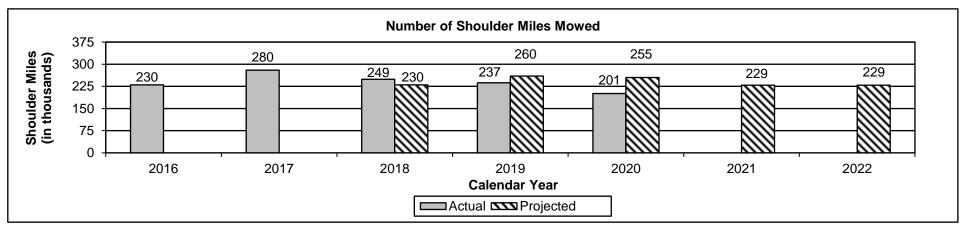

Program is found in the following core budget(s): Safety and Operations

(Total Square Footage of Bridge Deck in Millions)

Actual Projected

In order to maintain current conditions on our structures, a continued emphasis is needed to keep bridge decks sealed. Different sealing systems have varying life cycles. MoDOT's goal is to seal between 10 and 15 percent of bridge decks annually. The 2021 and 2022 projections reflect the department's plan for bridge deck sealing in the next two years.

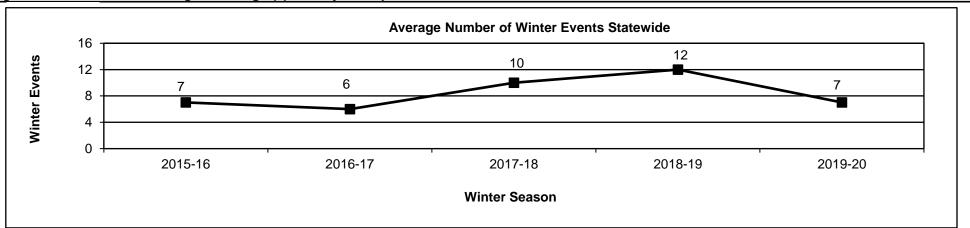

The department mows two 15 foot wide passes off the shoulder on the final mow of the season in odd numbered years, rather than one 15 foot wide pass in even numbered years. The 2021 and 2022 projection was established by averaging the number of shoulder miles mowed in the last three years.

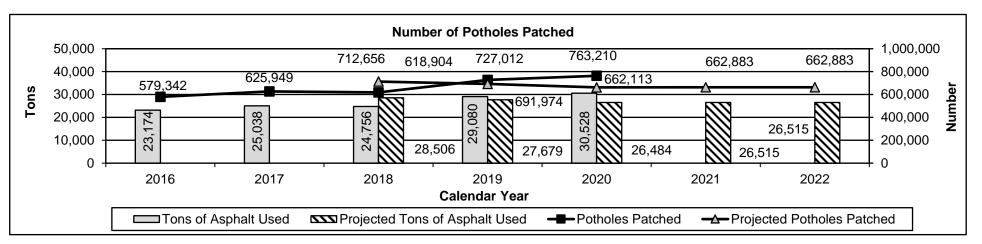

Department of Transportation HB Section: 4.440, 4.450

**Program Name: Safety and Operations** 

Program is found in the following core budget(s): Safety and Operations

The number of winter events shown in the chart represents the average number of events responded to by 184 MoDOT facilities statewide.

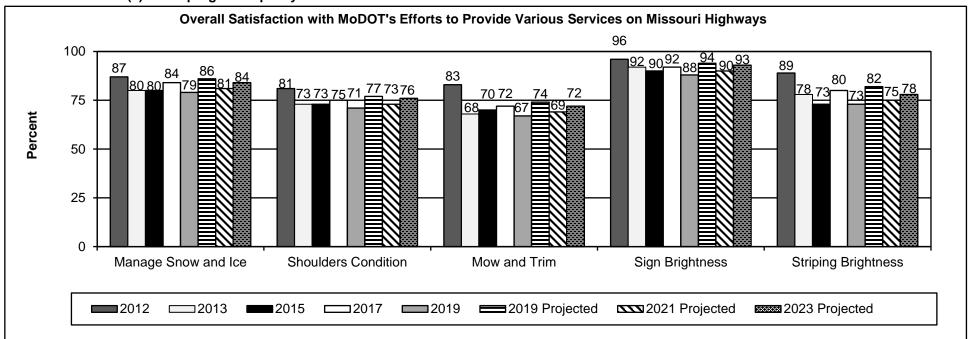

The number of potholes patched in each calendar year is estimated by the total tonnage of asphalt used during the same time period. The 2021 and 2022 projections were established by averaging the tonnage of asphalt used and number of potholes patched for the last five calendar years.

Department of Transportation HB Section: 4.440, 4.450

Program Name: Safety and Operations

Program is found in the following core budget(s): Safety and Operations

#### 2b. Provide a measure(s) of the program's quality.

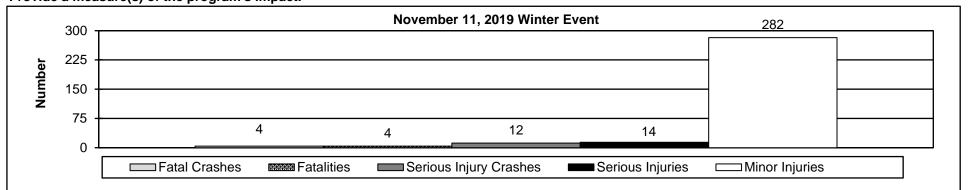

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. The questions surveyed were "How satisfied are you with: MoDOT's efforts to manage snow and ice on highways; MoDOT's efforts to keep the shoulders on highways in good condition; MoDOT's efforts to mow and trim trees, grass and weeds along highways; the brightness of MoDOT signs; and the brightness of striping on MoDOT's highways?" Overall satisfaction for the years above was calculated by adding the very satisfied and the satisfied responses. The 2021 and 2023 projections were established by projecting a two and five percent increase from the 2019 survey, respectively. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation HB Section: 4.440, 4.450

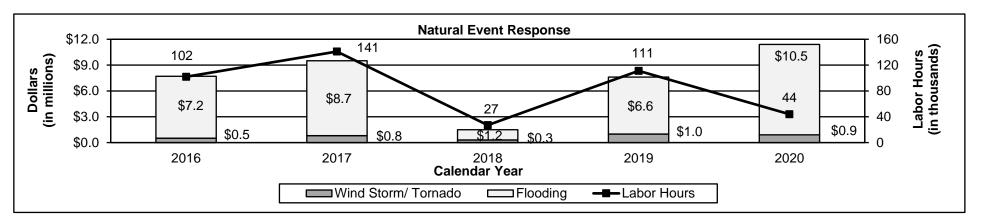

Program Name: Safety and Operations

Program is found in the following core budget(s): Safety and Operations

### 2c. Provide a measure(s) of the program's impact.

The November 11, 2019 winter event on Veterans Day followed a very mild day with temperatures throughout the state in the seventies. The storm progressed through the state from west to east along the Interstate 70 corridor beginning in the western part of the state in the morning and ending up in the eastern part of the state by the evening rush hour. Temperatures dropped dramatically with some freezing precipitation. The evening commute in the St. Louis Metro area was greatly impacted with many major roads still congested until 11 p.m. This chart shows the fatal, serious and minor crashes and injuries. The overall costs of this winter event, including labor equipment and material costs, was \$3.2 million.

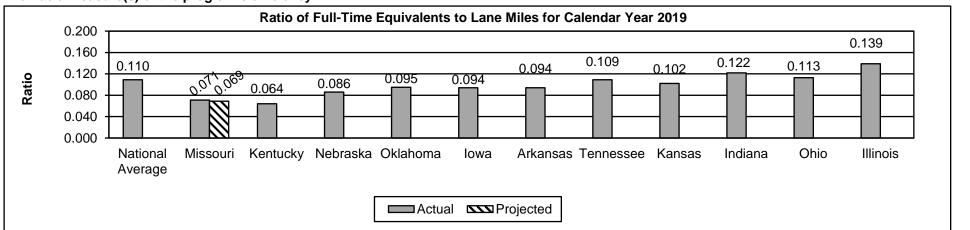

This measure tracks the maintenance dollars and labor hours expended for non-snow related natural events such as flooding, tornadoes and wind storms. These expenditures include disasters declared by the President or Governor and non-declared events.

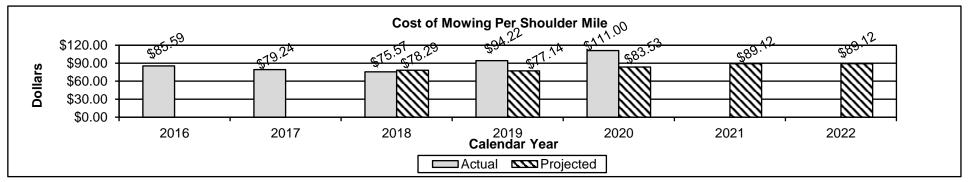

Department of Transportation HB Section: 4.440, 4.450
Program Name: Safety and Operations

Program is found in the following core budget(s): Safety and Operations

### 2d. Provide a measure(s) of the program's efficiency.

Full-time equivalents (FTEs) is the total number of hours worked or on paid leave divided by 2,080. A low ratio means MoDOT is efficiently maintaining roadways with limited resources. The ratio in this measure was calculated by dividing the FTEs in the Census Bureau - 2019 Annual Survey of Public Employees and Payroll, by the estimated number of lane miles in the 2019 FHWA report of State Highway Agency-Owned Public Roads (HM-81). A low ratio means MoDOT is maintaining roadways with limited resources. The projection is based on the department's goal for FTEs. Data for 2020 was not available at the time of publication.

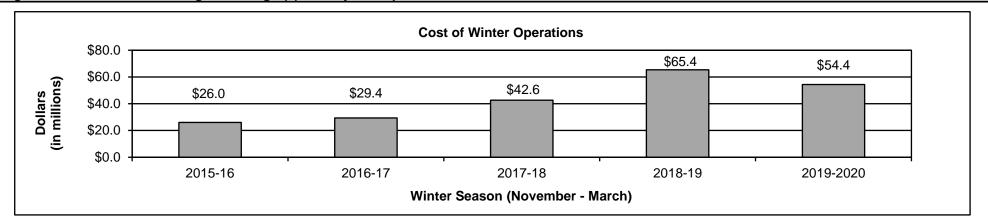

The 2021 and 2022 projections are established by averaging the cost of mowing per shoulder mile for the last five calendar years.

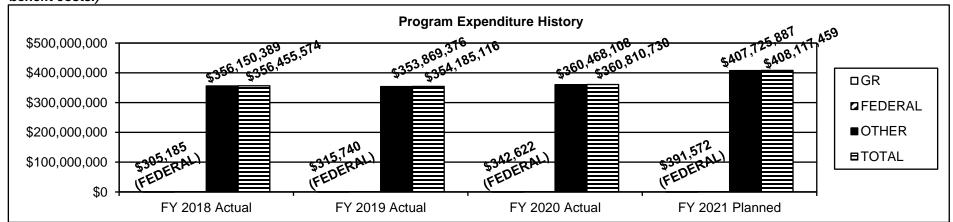

Department of Transportation HB Section: 4.440, 4.450

**Program Name: Safety and Operations** 

Program is found in the following core budget(s): Safety and Operations

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

4. What are the sources of the "Other" funds?
State Road Fund (0320) and State Highways and Transportation Department Fund (0644)

	rtment of Transportation HB Section: 4.440, 4.450
Pro	am Name: Safety and Operations
	ram is found in the following core budget(s): Safety and Operations
5.	Vhat is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
	Article IV, Section 30(b), MO Constitution; 226.220, RSMo; and Title 49 USC 139 and 145.
6.	Are there federal matching requirements? If yes, please explain.
	es, varies depending on the program
7.	s this a federally mandated program? If yes, please explain.

Department of Transportation	HB Section: 4.440	
Program Name: Safety and Operations Grants		
Program is found in the following core budget(s): Safety and Operations	<del>-</del>	

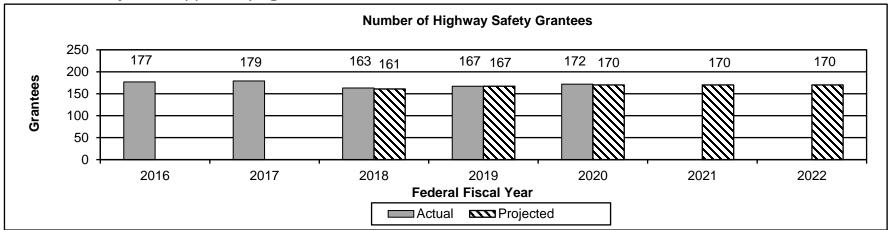

#### 1a. What strategic priority does this program address?

Safety - moving Missourians safely

### 1b. What does this program do?

The goal for this program is to help reduce death and injury resulting from traffic crashes. This program is for various Highway Safety grant programs. Grant funding is designated specifically for behavioral traffic safety programs, such as high-visibility traffic enforcement, training for law enforcement officers, and administration of the state's breath alcohol program, child passenger safety program and teen and young driver safety programs.

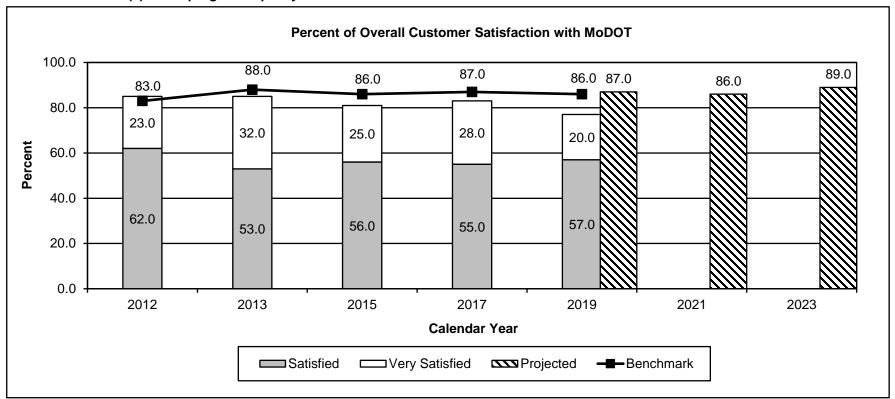

### 2a. Provide an activity measure(s) for the program.

The projections for each year are based on the department's current contracts with grantees. Individual grantees may have multiple projects, and therefore, are awarded more than one contract. For example, the 172 grantees in federal fiscal year 2020 had a total of 413 contracts awarded.

Department of Transportation	HB Section: 4.440
Program Name: Safety and Operations Grants	
Program is found in the following core budget(s): Safety and Operations	_

2b. Provide a measure(s) of the program's quality.

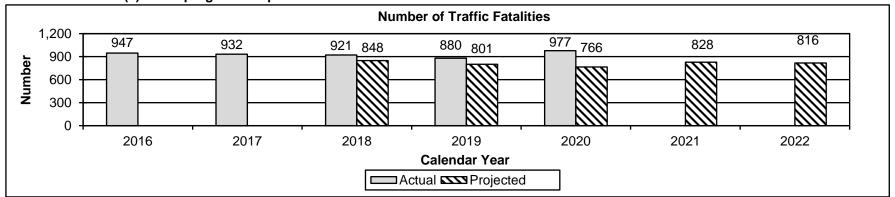

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

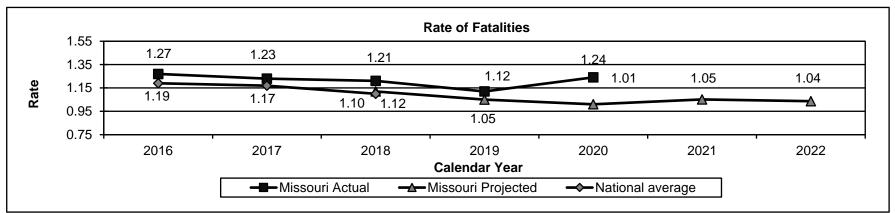

Department of Transportation HB Section: 4.440
Program Name: Safety and Operations Grants

Program is found in the following core budget(s): Safety and Operations

2c. Provide a measure(s) of the program's impact.

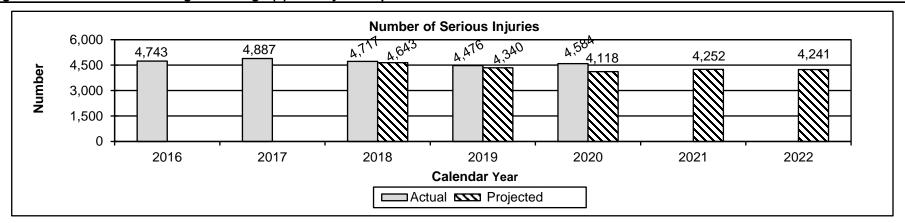

The 2021 and 2022 projections are based on a 5.91 percent and 7.25 percent reduction in traffic fatalities from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

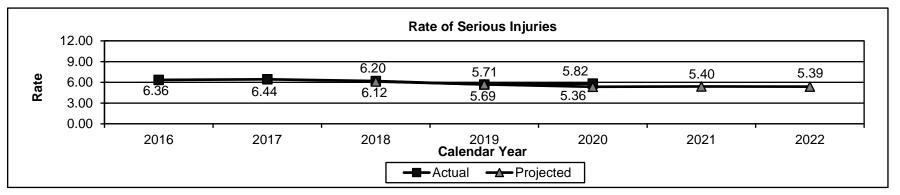

This chart displays the annual fatality rates per 100 million vehicle miles traveled (VMT). For example, the rate of fatalities in 2019 was calculated by dividing 880 fatalities by 78.7 billion VMT and multiplying that by 100 million. The projections were established using the projected number of fatalities for each year and the actual 2019 VMT. Calendar year 2020 VMT was not calculated at the time of publication.

Department of Transportation HB Section: 4.440
Program Name: Safety and Operations Grants

Program is found in the following core budget(s): Safety and Operations

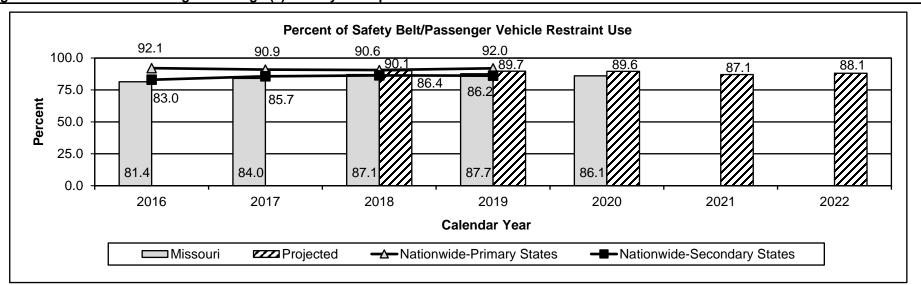

The 2021 and 2022 projections are based on a 5 percent and 5.26 percent reduction in serious injuries from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

This chart displays the annual serious injury rates per 100 million vehicle miles traveled (VMT). For example, the rate of serious injuries in 2019 was calculated by dividing 4,476 serious injuries by 78.7 billion VMT and multiplying that by 100 million. The projections were established using the projected number of serious injuries for each year and the actual 2019 VMT. Calendar year 2020 VMT was not calculated at the time of publication.

Department of Transportation	HB Section: 4.440
Program Name: Safety and Operations Grants	
Program is found in the following core budget(s): Safety and Operations	

States with a primary seat belt law rank highest on seat belt use nationwide. States that have a secondary law continue to rate lowest in national rankings. MoDOT's 2021 and 2022 projections are equal to the current national average for primary and secondary combined. Nationwide data for 2020 was not available at the time of publication.

Total Violations	221,641	237,927	228,928	211,259	200,258	168,144

This measure shows the citations and warnings written each federal fiscal year by law enforcement agencies during contracted year-long overtime projects with grants funded through MoDOT with federal highway safety funds. Law enforcement agencies are awarded overtime enforcement grants to conduct high visibility enforcement of traffic laws. Focused law enforcement efforts attempt to modify driver behavior and ultimately reduce traffic crashes in their jurisdiction.

This measure shows the citations and warnings written each federal fiscal year by participating law enforcement agencies during mobilization efforts with grants funded through MoDOT with federal highway safety funds. Throughout the year, 11 mobilization campaigns are conducted, targeting occupant restraint and impaired driving violations and include campaigns such as "Click It or Ticket" and "Drive Sober or Get Pulled Over".

Department of Transportation	HB Section: 4.440
Program Name: Safety and Operations Grants	
Program is found in the following core budget(s): Safety and Operations	

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

- 4. What are the sources of the "Other" funds?
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)
  Title 23 USC 401-412
- 6. Are there federal matching requirements? If yes, please explain.

Yes. Depending on the program, the state must provide from zero to 25 percent match.

7. Is this a federally mandated program? If yes, please explain.

Yes. Pursuant to Title 23 U.S.C. Section 154, Open Container Requirements, a transfer of two and a half percent of National Highway Performance and Surface Transportation Program apportionments must be used for educational safety or hazard elimination roadway projects due to Missouri not having laws in accordance with federal guidelines.

Department of Transportation	HB Section: 4.440
Program Name: Motor Carrier Safety Assistance Program	
Program is found in the following core budget(s): Safety and Operations	

### 1a. What strategic priority does this program address?

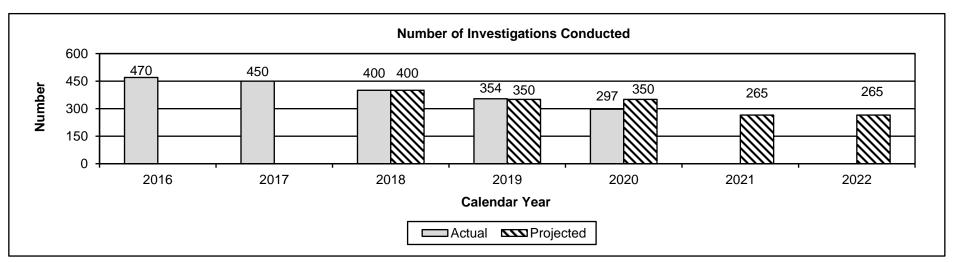

Safety - moving Missourians safely

#### 1b. What does this program do?

The Motor Carrier Safety Assistance Program (MCSAP) is a federal grant program that provides financial assistance to states and local entities to help reduce the number and severity of crashes involving commercial motor vehicles (CMVs). This program promotes safety in the motor carrier industry through enforcing rules, regulations, standards and out-of-service orders applicable to CMV safety. The activities performed to achieve the mission of the program include roadside CMV inspections, compliance investigations, motor coach inspections, safety compliance audits, traffic enforcement of CMVs and passenger vehicles around CMVs, drug interdiction, data collection and reporting, and education, which includes a statewide media campaign. MoDOT is the lead agency for MCSAP but a portion of the grant funds go directly to Missouri State Highway Patrol for commercial vehicle enforcement.

#### 2a. Provide an activity measure(s) for the program.

The department serves more than 29,000 commercial motor vehicle businesses with approximately 61,000 registered commercial trucks.

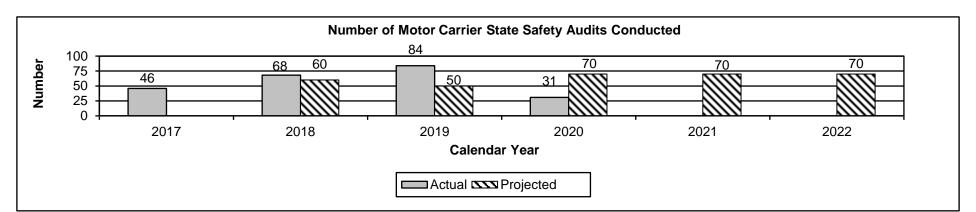

An investigation is an examination of motor carrier operations, such as a driver's hours of service, vehicle maintenance and inspection, driver qualification, controlled substance and alcohol testing, commercial driver's license requirements, financial responsibility, accidents, hazardous materials and other safety and transportation records to determine a motor carrier's compliance with safety regulations. The 2021 and 2022 projections are the department's commitment to the Federal Motor Carrier Safety Administration (FMCSA) in 2021.

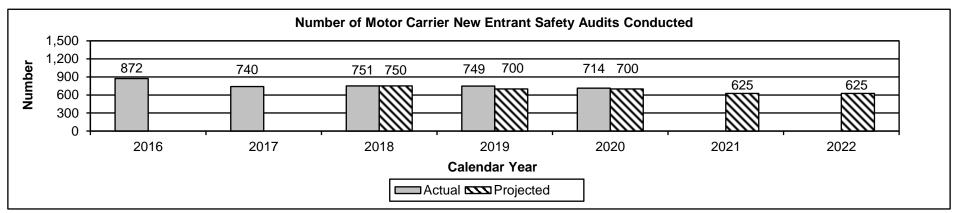

Department of Transportation

Program Name: Motor Carrier Safety Assistance Program

Program is found in the following core budget(s): Safety and Operations

A state safety audit is an educational contact and examination of the motor carrier operators who apply for intrastate authority from MoDOT Motor Carrier Services. Investigators review the operational requirements and gather critical safety data needed to make an assessment of the carrier's safety performance and basic safety management. The 2021 and 2022 projections are the department's commitment to the Federal Motor Carrier Safety Administration (FMCSA) in 2021.

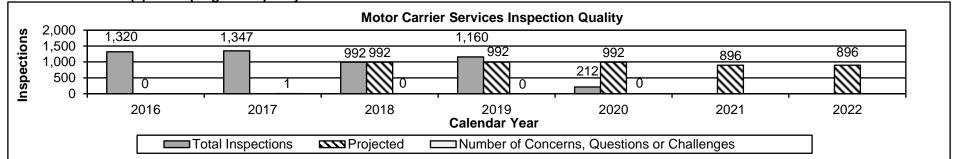

A safety audit is an examination of motor carrier operators that want to enter the business by obtaining a United States Department of Transportation (USDOT) number. Investigators review the operational requirements and gather critical safety data needed to make an assessment of the carrier's safety performance and basic safety management controls. The 2021 and 2022 projections are the department's commitment to the Federal Motor Carrier Safety Administration (FMCSA) in 2021.

Department of Transportation

Program Name: Motor Carrier Safety Assistance Program

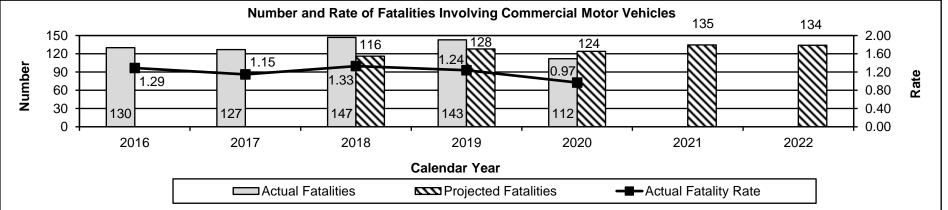

Program is found in the following core budget(s): Safety and Operations

2b. Provide a measure(s) of the program's quality.

This chart shows the quality of MCS inspections by comparing the number of concerns, questions or challenges filed by motor carriers to the total number inspections conducted by MoDOT MCS. The projections are based on the current number of MCS investigators and the number of investigations required to maintain certification. Calendar year 2020 is lower than projected due to delays caused by the COVID-19 pandemic.

## 2c. Provide a measure(s) of the program's impact.

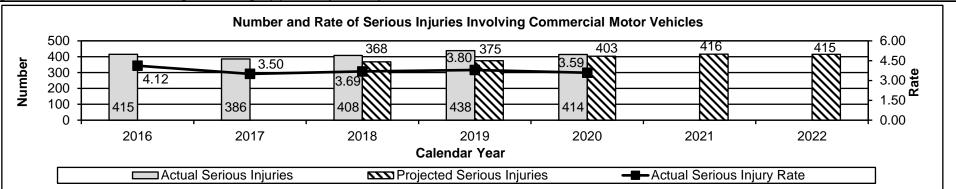

The crash rate shows the annual fatality rates per one hundred million vehicle miles traveled (VMT) by commercial motor vehicles. For example, the rate of fatalities in 2019 was calculated by dividing 143 fatalities by 11.5 billion VMT and multiplying by 100 million. The fatality projections for 2021 and 2022 are based on a 5.91 percent and 7.25 percent improvement rate from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

Department of Transportation HB Section: 4.440

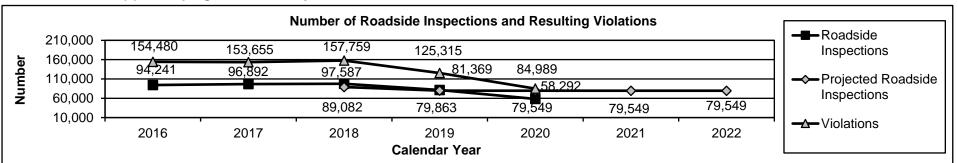

Program Name: Motor Carrier Safety Assistance Program

Program is found in the following core budget(s): Safety and Operations

The crash rate shows the annual serious injury rates per one hundred million vehicle miles traveled (VMT) by commercial motor vehicles. For example, the rate of serious injuries in 2019 was calculated by dividing 438 serious injuries by 11.5 billion VMT and multiplying by 100 million. The serious injury projections for 2021 and 2022 are based on a 5 percent and 5.26 percent improvement rate from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

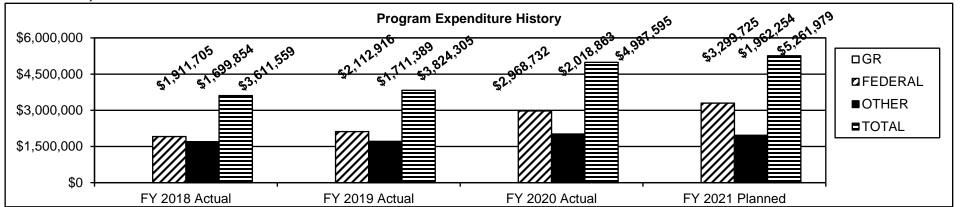

## 2d. Provide a measure(s) of the program's efficiency.

Roadside inspections are examinations of commercial motor vehicles (CMVs) and drivers by Motor Carrier Safety Assistance Program (MCSAP) inspectors to ensure they are in compliance with the federal motor carrier safety and hazardous materials regulations. If an inspection results in serious violations, the driver will be issued an out-of-service order. These violations must be corrected before the driver or vehicle can return to service. Missouri has approximately 269 MCSAP inspectors that work in the following state and local agencies: Missouri Department of Transportation, Missouri State Highway Patrol (MSHP), Kansas City Police Department, St. Louis Metropolitan Police Department and St. Louis County Police Department. The 2021 and 2022 projections are the department's commitment to the Federal Motor Carrier Safety Administration (FMCSA) in 2021.

Department of Transportation	HB Section: 4.440
Program Name: Motor Carrier Safety Assistance Program	
Program is found in the following core budget(s): Safety and Operations	

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

- 4. What are the sources of the "Other" funds? State Road Fund (0320)
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Title 49 USC 311-317
- 6. Are there federal matching requirements? If yes, please explain. Yes, local entities must provide 15 percent match of cash or in-kind.
- 7. Is this a federally mandated program? If yes, please explain.
  No

Department of Transportation	HB Section: 4.440	
Program Name: Motorcycle Safety Training Program		
Program is found in the following core budget(s): Safety and Operations		

## 1a. What strategic priority does this program address?

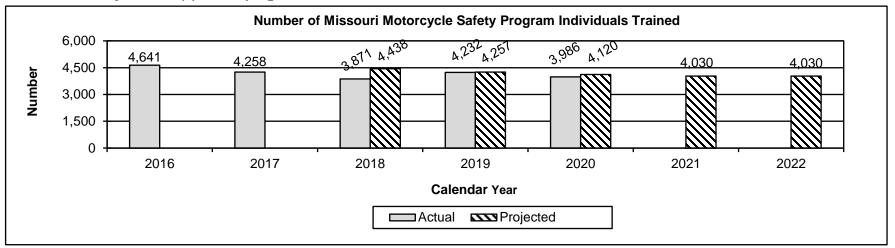

Safety - moving Missourians safely

# 1b. What does this program do?

MoDOT's Highway Safety and Traffic Division administers the funds deposited in the Motorcycle Safety Trust Fund. These funds are used to fund the Motorcycle Safety Training Program. State statute requires a \$1 surcharge from all criminal cases, including violations of county ordinances, be deposited into the trust fund.

In calendar year 2020, 3,986 individuals received training through various motorcycle training courses offered through the University of Central Missouri. The training includes basic and advanced riding, motorcycle inspection and care, instructor training and professional development.

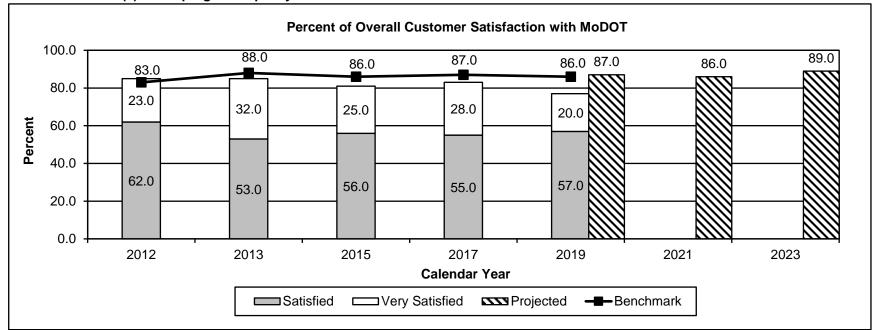

## 2a. Provide an activity measure(s) for the program.

The 2021 and 2022 projections were established by averaging the number of trainees for the last three years.

Department of Transportation	HB Section: 4.440	
Program Name: Motorcycle Safety Training Program	<u> </u>	
Program is found in the following core budget(s): Safety and Operations	_	

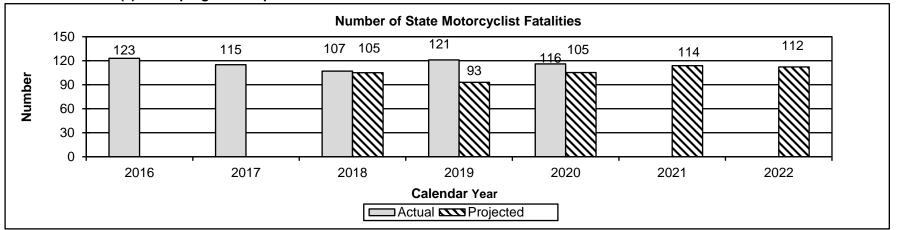

2b. Provide a measure(s) of the program's quality.

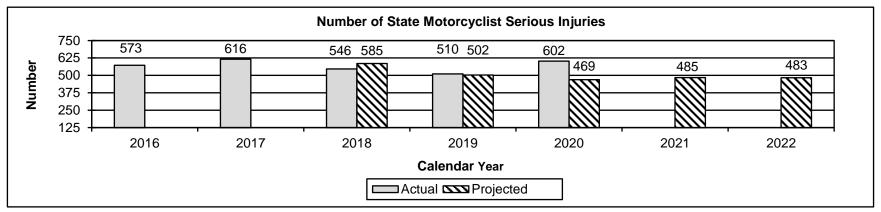

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation	HB Section: 4.440	
Program Name: Motorcycle Safety Training Program	<u></u>	
Program is found in the following core budget(s): Safety and Operations		

2c. Provide a measure(s) of the program's impact.

The 2021 and 2022 projections are based on a 5.91 percent and 7.25 percent reduction to motorcyclist fatalities from 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

The 2021 and 2022 projections are based on a 5 percent and 5.26 percent reduction to motorcyclist serious injuries from 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

Department of Transportation

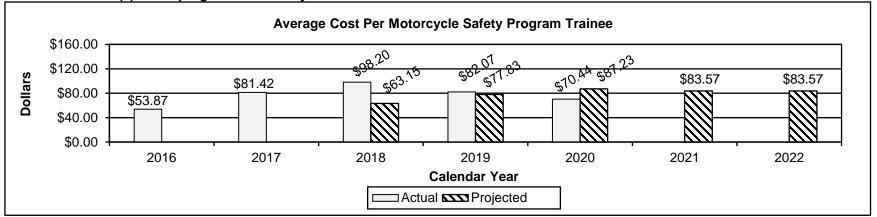

Program Name: Motorcycle Safety Training Program

Program is found in the following core budget(s): Safety and Operations

HB Section: 4.440

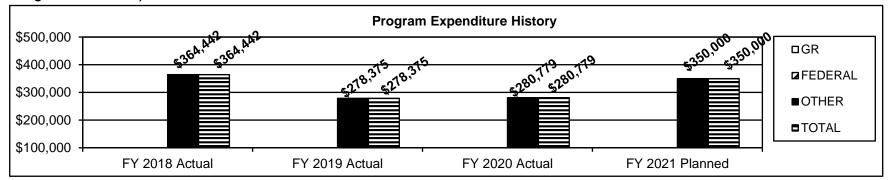

4.440

2d. Provide a measure(s) of the program's efficiency.

The average cost per motorcycle safety program trainee is calculated by dividing the total program expenditures by the number of trainees for each calendar year. In addition to training individuals, these funds are used to oversee the training locations, train instructors, provide public information and education and conduct quality assurance. The 2021 and 2022 projections are based on the average cost per motorcycle safety program trainee for the last three years.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

	Department of Transportation HB Section: 4.440	
	Program Name: Motorcycle Safety Training Program

	No	
7.	7. Is this a federally mandated program? If yes, please explain. No	
1		l

Department of Transportation	HB Section: 4.440
Program Name: Ferryboat Operations	

Program is found in the following core budget(s): Safety and Operations

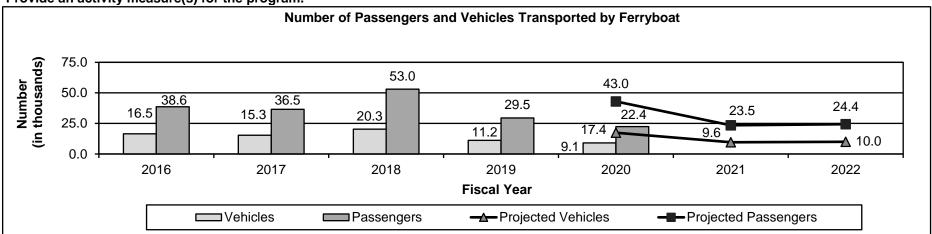

## 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system

## 1b. What does this program do?

Ferryboats are moveable bridges used in place of constructing a permanent bridge. The Ferryboat Operations program provides operating assistance to Missouri's two public ferries that cross into Illinois at Ste. Genevieve County (New Bourbon) and Kentucky at Mississippi County. Without these ferry services, tourists, freight, and other passengers would be required to drive to the nearest bridge crossing, a one-way detour of 44 miles for Ste. Genevieve County and 82 miles for Mississippi County.

## 2a. Provide an activity measure(s) for the program.

The 2021 projection for vehicles is based on the average number of vehicles from 2016 to 2020. The 2022 projection for vehicles is based on a five percent increase from the 2021 projection. The projected number of passengers is calculated using the 2021 and 2022 vehicle projections and the average passenger to vehicle ratio from 2016 to 2020.

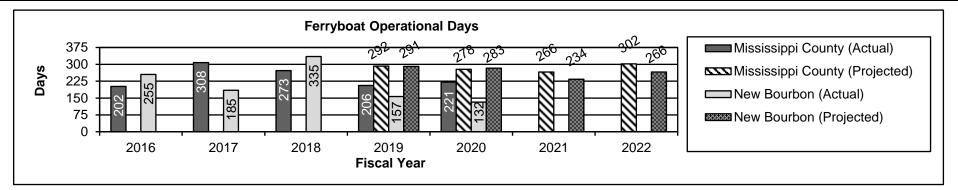

Department of Transportation

Program Name: Ferryboat Operations

Program is found in the following core budget(s): Safety and Operations

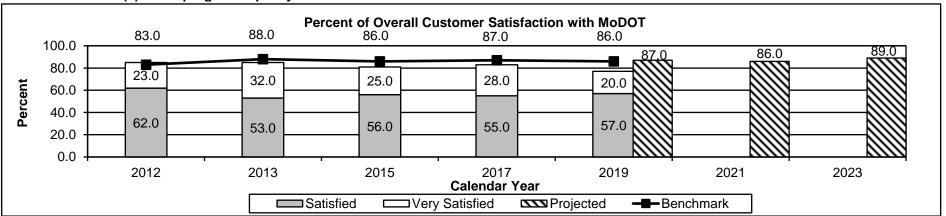

HB Section: 4.440

HB Section: 4.440

This chart measures the number of days the ferryboats located in New Bourbon and Mississippi County were in operation. The 2021 and 2022 projections were established by averaging the operational days for each ferry from 2016 to 2020 and projecting a 10 and 25 percent improvement, respectively.

## 2b. Provide a measure(s) of the program's quality.

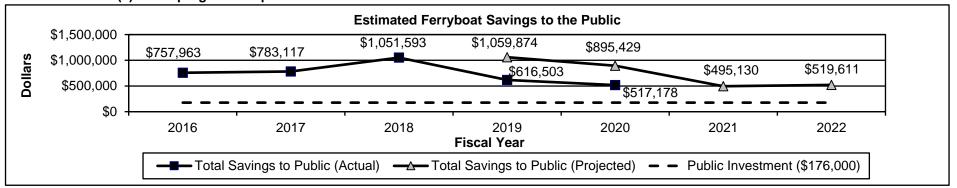

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

Department of Transportation HB Section: 4.440
Program Name: Ferryboat Operations

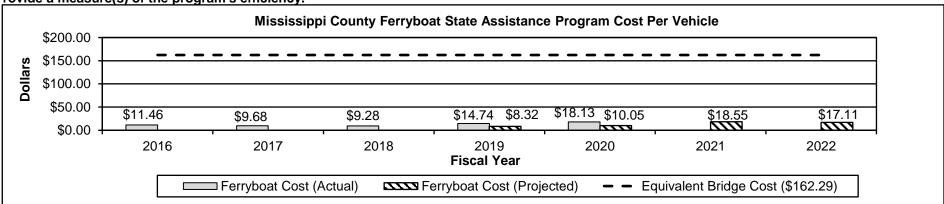

Program is found in the following core budget(s): Safety and Operations

2c. Provide a measure(s) of the program's impact.

Without ferry services, vehicles would be required to drive to the nearest bridge crossing, a one-way detour of 44 miles for New Bourbon and 82 miles for Mississippi County. The savings presented in this chart include both the estimated time savings per passenger and the fuel savings per vehicle transported by ferryboat. The projections are based on an estimated increase in the number of vehicles transported by ferryboat to 9,555 in fiscal year 2021 and 10,033 in fiscal year 2022.

2d. Provide a measure(s) of the program's efficiency.

The cost of the ferryboat state assistance program is measured by state dollars spent per vehicle utilizing the ferryboats in Mississippi County. The cost per vehicle is calculated by dividing the annual state funding per ferryboat by the number of vehicles transported by each ferryboat. The equivalent bridge cost per vehicle is calculated under the assumption that a new two-lane bridge over the Mississippi River would cost \$150 million and have an estimated life of 100 years. The projections are based on an estimated increase in the number of vehicles transported by ferryboat in fiscal year 2021 and in fiscal year 2022.

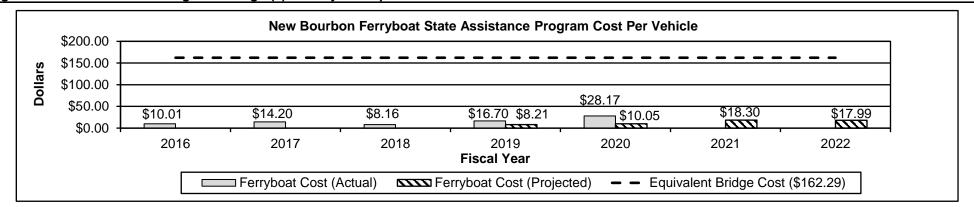

Department of Transportation

Program Name: Ferryboat Operations

Note: Fringes budgeted in House Bill 5 except for certain fringes budgeted directly to MoDOT, Highway Patrol, and Conservation.

Other Funds: State Road Fund (0320) Other Funds: State Road Fund (0320)

#### 2. CORE DESCRIPTION

This appropriation covers the costs associated with fleet, facilities and information systems.

MoDOT has a large and diverse fleet made up of 4,917 units statewide. The average age of all fleet and equipment is 7.2 years. Fleet includes everything from passenger cars and pickups to dump trucks, motorgraders and oil distributors.

MoDOT maintains 184 locations statewide for safety and operations, program delivery and administration. Routine operating costs include utilities, minor repairs, cleaning, asset management and capital improvement programs.

MoDOT also maintains a large investment in information technology such as computer equipment and software which is essential to carry out normal day-to-day operations. Installed information technology components require routine maintenance to stay operational and eventual replacement is necessary to ensure adequate performance. Software applications all require routine maintenance and, as needed, enhancements to improve functionality or to perform additional tasks needed to conduct business.

The Governor's Recommendation is the same as the department's request.

## 3. PROGRAM LISTING (list programs included in this core funding)

Fleet equipment purchases and related support Computer system purchases and related support Capital improvement program for buildings Repair, maintenance, housekeeping and utilities of district and Central Office buildings

Department of Transportation	HB Section:	4.445
Program Name: Fleet, Facilities & Information Systems		
Program is found in the following core budget(s): Fleet, Facilities & Info Systems		

#### 1a. What strategic priority does this program address?

Service - providing outstanding customer service, delivering efficient and innovative transportation projects and operating a reliable transportation system

#### 1b. What does this program do?

This program covers the costs associated with fleet, facilities and information systems.

This program ensures safe, operable fleet is available to perform services for the public, including snow removal, mowing, road and bridge inspections and striping. MoDOT has a large and diverse fleet made up of 4,917 units statewide. The average age of all fleet and equipment is 7.2 years. Fleet includes everything from passenger cars and pickups to dump trucks, motorgraders and oil distributers.

This program provides resources to maintain and improve facilities, rest areas, welcome centers and other capital assets statewide. MoDOT maintains 184 locations statewide. This includes expenses such as utilities, minor repairs, cleaning, asset management and capital improvement programs. An asset management program was implemented in fiscal year 2019 to systematically address aging facility assets, including upgrading energy efficient infrastructure.

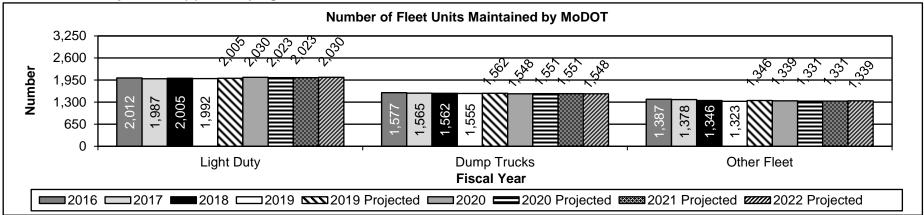

This program also provides resources to maintain a large investment in information technology such as computer equipment and software which is essential to carry out day-to-day operations. Installed information technology components require routine maintenance to stay operational and eventual replacement is necessary to ensure adequate performance. Software applications all require routine maintenance and, as needed, enhancements to improve functionality or to perform additional tasks needed to conduct business.

Department of Transportation
Program Name: Fleet, Facilities & Information Systems

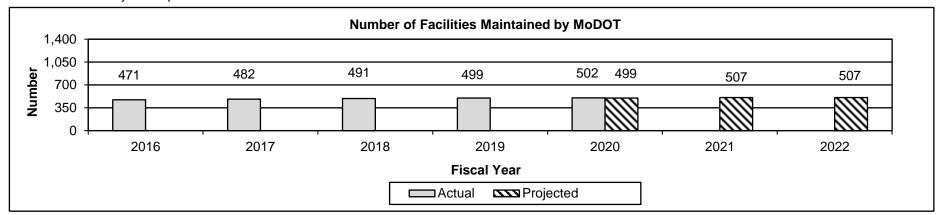

HB Section: 4.445

Program is found in the following core budget(s): Fleet, Facilities & Info Systems

2a. Provide an activity measure(s) for the program.

Light duty fleet includes cars, pickups, utility trucks, vans and light duty trucks. Dump trucks include single and tandem axle trucks. All other fleet, such as backhoes, loaders, tractors and specialty items are included in other fleet. The number of fleet maintained will not increase. The projection for fiscal years 2021 and 2022 are set by the department.

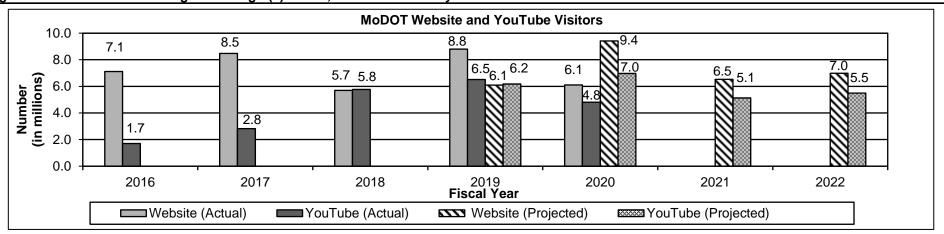

MoDOT currently maintains 502 facilities at 184 locations. A facility refers to an individual building within a location. The fiscal year 2021 and 2022 projections are based on planned capital improvement projects from MoDOT's facilities system.

Department of Transportation HB Section: 4.445

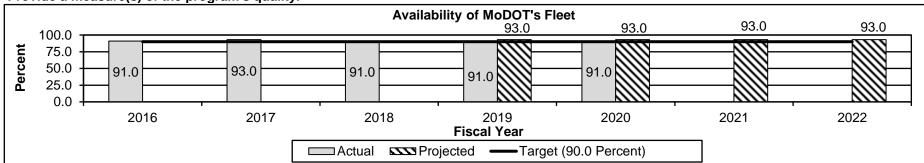

Program Name: Fleet, Facilities & Information Systems

Program is found in the following core budget(s): Fleet, Facilities & Info Systems

The projections were established by projecting a seven percent increase from the prior year.

## 2b. Provide a measure(s) of the program's quality.

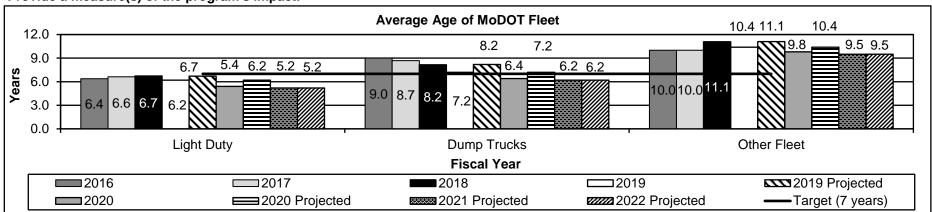

This measure shows the percentage of time MoDOT's fleet was available for use. Availability percentages are calculated by dividing a total number of hours fleet units are available by the total number of hours the units should be available during a given year. A unit is considered to be available as long as the unit can be safely operated. The 2021 and 2022 projections were established by projecting a two percent increase from fiscal year 2020.

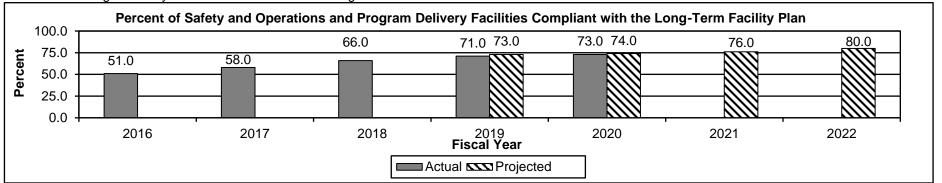

Department of Transportation HB Section: 4.445
Program Name: Fleet, Facilities & Information Systems

Program is found in the following core budget(s): Fleet, Facilities & Info Systems

2c. Provide a measure(s) of the program's impact.

Light duty fleet includes cars, pickups, utility trucks, vans and light duty trucks. Dump trucks include single and tandem axle trucks. All other fleet, such as backhoes, loaders, tractors and specialty items are included in other fleet. The 2021 and 2022 projections for each fleet type is based upon receiving the additional funding in fiscal year 2021 which will lower the age of MoDOT fleet.

To be compliant with the Long-Term Facility Plan, a facility must contain: enclosed garage bays to allow mechanics to safely maintain department fleet; sufficient number of bathrooms for number of employees assigned to location; break rooms with sufficient space for number of employees assigned to location; and sufficient cold storage for materials and equipment. The Long-Term Facilities Plan is a five year plan for capital improvement projects. The projections are based on the sites identified in the Long-Term Facilities Plan.

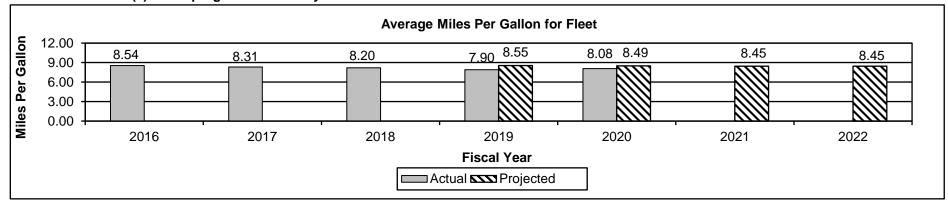

HB Section: 4.445

#### PROGRAM DESCRIPTION

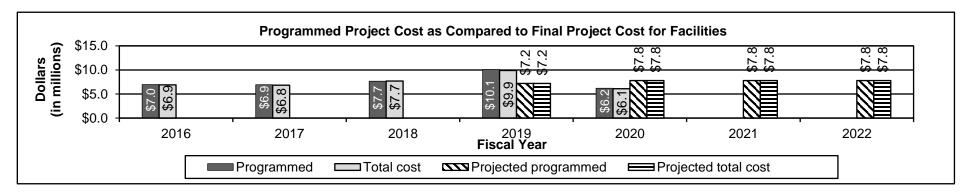

Department of Transportation
Program Name: Fleet, Facilities & Information Systems

Program is found in the following core budget(s): Fleet, Facilities & Info Systems

2d. Provide a measure(s) of the program's efficiency.

The projections were established by averaging the last five years and projecting a three percent improvement.

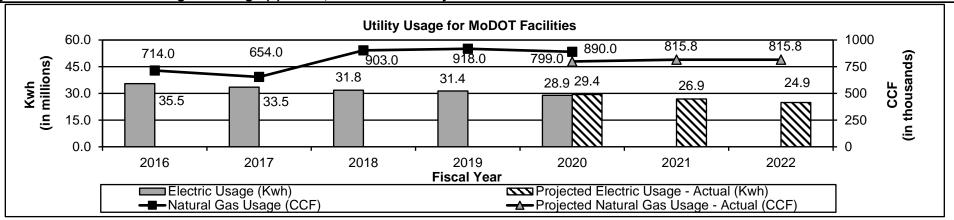

This measure determines how close total project completion costs are to the programmed, or budgeted, costs for capital asset preservation and capital improvement projects. The projections are based on the department's current capital improvement project budget as of July 1, 2020.

Department of Transportation HB Section: 4.445

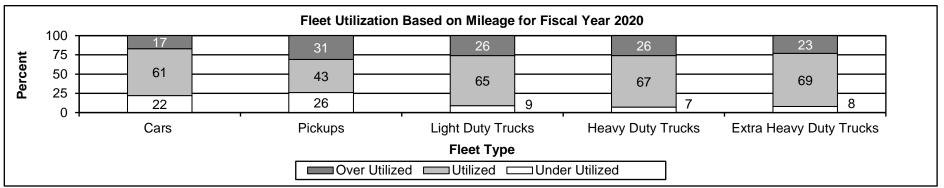

Program Name: Fleet, Facilities & Information Systems

Program is found in the following core budget(s): Fleet, Facilities & Info Systems

Kwh = kilowatt hour CCF = 100 cubic feet

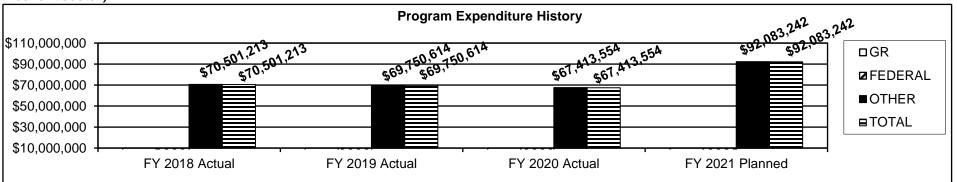

This measure tracks utility usage for department facilities, excluding roadways, to capture the impact of energy efficiency improvements in buildings and operations. The projections for electric usage were established using a two Kwh decrease from the prior year. The projections for natural gas usage were established by averaging the actual usage for the last five fiscal years.

The chart provides the fleet utilization based on annual mileage thresholds and miles driven. For example, a passenger car has a threshold of 15,000 miles per year. A passenger car is considered under utilized when used less than 11,250 miles per year. A passenger car is considered over utilized when used more than 18,750 miles per year.

Department of Transportation	HB Section: 4.445
Program Name: Fleet, Facilities & Information Systems	·
Program is found in the following core budget(s): Fleet, Facilities & Info Systems	

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

- 4. What are the sources of the "Other" funds? State Road Fund (0320)
- 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

  Article IV, Section 30(b), MO Constitution and 226.220, RSMo.
- 6. Are there federal matching requirements? If yes, please explain.
- 7. Is this a federally mandated program? If yes, please explain.
  No

## 6b. Provide a measure(s) of the program's quality.

Data is collected through a biennial telephone survey conducted by a consultant from interviews of approximately 3,500 randomly selected adult Missourians. "How satisfied are you with the job the Missouri Department of Transportation is doing?" was the question surveyed. The benchmark data is from the American Customer Satisfaction Index, a national cross-industry measure of customer satisfaction in the United States. The 2021 projection is equal to the 2019 benchmark score of 86 percent. The 2023 projection was established by projecting a three percent improvement from the benchmark. No survey was conducted in calendar years 2014, 2016, 2018 and 2020.

## 6c. Provide a measure(s) of the program's impact.

The crash rate shows the annual fatality rates per one hundred million vehicle miles traveled (VMT) by commercial motor vehicles. For example, the rate of fatalities in 2019 was calculated by dividing 143 fatalities by 11.5 billion VMT and multiplying by 100 million. The fatality projections for 2021 and 2022 are based on a 5.91 percent and 7.25 percent improvement rate from the 2019 actuals, respectively. Calendar year 2020 actuals are preliminary and are subject to change.

## 6d. Provide a measure(s) of the program's efficiency.

Two weigh stations were decommissioned in 2018 reducing the number of weigh stations to 21. The number of vehicles weighed and inspected was low in 2019 because of weight station repairs. The 2021 projection is based on the average number of vehicles weighed and inspected for the past three years. The 2022 projection is based on a two percent increase from 2021 projections.

#### 2. CORE DESCRIPTION

In fiscal year 2018, the General Assembly appropriated \$1 for transfer from the Department's core budget to the State Legal Expense Fund for the payment of claims, premiums and expenses provided by Section 105.711 through Section 105.726, RSMo. In order to fund such expenses, the General Assembly also authorized three percent flexibility from the Department's budget into the \$1 transfer appropriation.

The Governor's Recommendation is the same as the department's request.

## 3. PROGRAM LISTING (list programs included in this core funding)

This section is not applicable.
