FY21:

Food Purchases flexed \$1,800,000 to Institutional E&E Pool for institutional security perimeter repair and improvements including electronic fence detection system replacement and the purchase of razor wire for fencing. Medical Services flexed \$1,530,000 to Institutional E&E Pool to meet year-end expenditure obligations, including the purchase of commodity items. Medical Services flexed \$363,000 to Institutional E&E to meet year-end expenditure obligations, including critical M&R expenses.

FY20:

The General Assembly appropriated MIRA funds (\$750,000) and ICF funds (\$1,200,000) into this section to more accurately reflect actual spending. GR lapse due to DOC expenditure restriction plan in response to the Coronavirus Pandemic. Other funds lapse due to insufficient cash receipts into the MIRA fund. Flexibility was used within the Institutional E&E Pool and \$150,000 was flexed from Probation & Parole Staff to meet year-end expenditure obligations.

FY19:

Although Institutional E&E was appropriated \$627,687 from the OA Revolving Administrative Trust Fund (RATF) and \$1,000,000 of Working Capital Revolving Fund authority, neither of those funding sources were available to spend and subsequently lapsed. Flexibility was used to meet year-end expenditure obligations. Institutional E&E received \$2,500,000 from Medical Services and \$250,000 from Food Purchases.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This request is for funding to allow the department to enter into service contracts for five (5) major operational systems at department institutions. Those systems are boiler/power plants, generators and switches, fire alarms and sprinklers, security electronics systems, and waste water treatment facilities.

The waste water treatment plant request is for funding to enter into operations contracts for the two state-owned waste water treatment plants that serve department facilities. Currently those plants are operated by a department staff person from the institution in addition to that individual's regular job duties. Retaining staff for maintenance positions that also maintain a waste water treatment plant certification has proven difficult, which has resulted in time periods of no certified staff to maintain the plants.

Currently, the department does not have funding to maintain regular service contracts on major institutional operating systems. Proper regular maintenance of these systems is critical to ensure the useful life of the systems and their components is achieved, system down-time is avoided, and the department can avoid large un-programmed expenses related to correcting system failures.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

2. CORE DESCRIPTION

The Wage & Discharge appropriation is utilized to comply with statutory obligations of providing wages to approximately 23,000 incarcerated offenders and providing transportation services, clothing, and discharge monies to offenders, as necessary, upon release. These funds also support the wages of offenders performing specialized or semi-skilled work assignments across the institutions especially in the areas of computer programming and facility maintenance. The decline in the offender population has allowed the department to revisit the pay structure for offender wages and increase the number of premium pay positions.

The Division of Adult Institutions provides management and oversight of 19 state correctional centers and one decommissioned institution with a goal of improving lives for safer communities.

The adult correctional centers are responsible for the following:

- Providing offenders with adequate living conditions, clothing, and food,
- Assisting offenders with changing their cognitive behavior through risk reduction classes, and
- Assisting staff with their professional development.

2c. Provide a measure(s) of the program's impact.

Percentage of moderate to high risk offenders enrolled in risk reduction classes

This was a new measure in FY20 related to the new risk reduction instrument. The first period of measurement is with FY20 actual. This measure is of Moderate, High, and Very High risk level offenders based on ORAS assessments and their enrollments in Pathway to Change and Impact on Crime Victims classes. This number is below target. We are targeting higher risk offenders who have more behavioral issues and as such are not available to attend in seat programs. In addition, we reduced the number of offenders in these classes due to social distancing for COVID.

2. CORE DESCRIPTION

Offender Healthcare represents core funding for constitutionally and statutorily mandated health services (medical, mental health and sex offender services) for incarcerated offenders in 19 correctional facilities and 2 transition centers. The Department of Corrections uses these funds to maintain and improve the health of justice involved individuals by minimizing the effect of infectious and chronic diseases, improving the health of offenders with chronic mental illness, providing statutorily required sex offender treatment and assessment, and relieving stress on community healthcare service providers. In FY 2022, the contracted provider for these services changed through a competitive bid process.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

The Medical Services section oversees the comprehensive medical care provided by the contract vendor. This is a managed-care system, which stresses healthcare education, disease prevention, immediate identification of health problems, and early intervention to prevent more debilitating chronic health problems. Medical units are staffed with licensed healthcare professionals at every correctional center and 2 transitions centers, and provide care ranging from a regular sick call to extended or infirmary care. The following ancillary medical services are provided at all correctional centers only, unless otherwise specified:

- X-rays
- Blood draws and other laboratory analysis
- Dental care
- Optometric care
- Audiology screenings
- Physical therapy
- Telemedicine

The medical contract monitoring staff ensures that offenders receive medical care that is equivalent to the community standard and that all mandates of the contract are fulfilled. The goal for correctional centers is to return offenders to the community as medically stable as possible, so they may become productive citizens of the state. In the transition centers, the goal is to not only return the client to the community as medically stable as possible, but also to maintain them medically and acclimate them to their responsibilities in maintaining their healthcare.

Comprehensive mental health services improve offender health and stability, which contribute to both institutional security and overall offender functioning while incarcerated and contribute to offender success and community safety upon release.

Sex offender treatment and assessment provide evidence-based therapeutic interventions and ongoing assessment to reduce risk to reoffend and promote safer communities upon release.

Mental health services include:

- Psychiatric intake and treatment
- Psychiatric medication management and monitoring
- Individual psychotherapy
- Group therapy
- Activity therapy
- Case management and discharge planning
- Crisis intervention and management
- Sex offender treatment and assessment

2a. Provide an activity measure(s) for the program.

Though the population has decreased, as our population with more healthcare needs stay, we will likely see a rise in encounters. This is not based on the population, but the health of the remaining population.

Even though the population has decreased, the need for mental health services by the resident population is remaining stable or increasing.

Target number is based on moving toward more telemedicine utilization.

We expect roughly 25% of offenders in specialty mental health programs to return to general population in any given year. The population in specialty mental health was 190 on June 30, 2019. Mental health unit data should be fairly consistent year to year since program capacity is not expected to change.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Offender Healthcare represents funding for constitutionally and statutorily mandated health services (medical, mental health and sex offender services) for incarcerated offenders in 19 correctional facilities and 2 transition centers. The Department of Corrections uses these funds to maintain and improve the health of justice involved individuals by minimizing the effect of infectious and chronic diseases, improving the health of offenders with chronic mental illness, providing statutorily required sex offender treatment and assessment, and relieving the stress on community healthcare service providers.

In May 2021, after a competitive bidding process, the healthcare contract was awarded to a new provider. The previous contract was awarded July 2014. Over the course of the last seven years, healthcare costs have increased and, as expected, the new contract has resulted in a price increase. Like the previous contract, the pricing rate is locked for the first three years of the contract and is variable based on the size of the offender population. This request is for funding for the first full fiscal year of the new contract.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? 2. CORE DESCRIPTION

The Offender Healthcare Equipment appropriation is utilized to purchase healthcare equipment for 19 correctional facilities. These funds are used to repair or replace inoperable or obsolete equipment required by the offender healthcare contract. Effective use of these funds decreases offender outcounts by allowing more services to be provided inside correctional facilities. This in turn promotes public safety and allows the Department of Corrections to utilize security staff more efficiently. In FY 2022, these funds were core reduced due to the expenses rolling into the new medical service contract.

FY20:

Lapsed funds due to staff vacancies. Other lapse due to a reduction in Corrections Substance Abuse Earnings Fund collections.

In FY20, \$7,328 of General Revenue Fund expenses for uniformed custody posts' salaries was changed to Cares Act Funding appropriated in HB 8.

FY19:

Appropriation decreased due to a core reduction of \$1,042,617 E&E. Medical Services flexed \$580,000 to Substance Use and Recovery Services for a one-time purchase of a liquid chromatograph-mass spectrometer machine to the toxicology lab and to cover a shortfall in the Substance Use Services contract.

1a. What strategic priority does this program address?

Reducing risk and recidivism

1b. What does this program do?

Substance Use and Recovery Services provides appropriate treatment to offenders with substance use related offenses, histories of abuse, and/or who are mandated to participate in treatment. The department has established a range of evidence-based services that include:

- diagnostic center screening
- clinical assessment
- institutional substance use treatment services
- pre-release planning

Additionally, the Department of Corrections provides contract oversight and quality assurance monitoring of these programs. The federally funded Special Needs Program at Northeast Correctional Center provides services for individuals who cannot be adequately addressed in other programs. Substance use and recovery services works in close partnership with the Department of Mental Health to facilitate timely continuing care when high need offenders are released from prison-based treatment centers to probation and parole.

Substance use and recovery services are a critical step in reducing criminal behavior, relapse and recidivism.

2a. Provide an activity measure(s) for the program.

Due to the department piloting increased assessments and increasing the assessment and referral opportunities going forward, these measures should increase over the coming years; however, the data to support this is still being gathered and analyzed. We estimate the additional services will increase assessments by 20% annually.

Due to institutional population decline, an increase of individuals served is not anticipated. However, screening scores of offenders indicate that an estimated 75% (currently 17,300) of them have a need for substance use disorder services. Program changes, including assessments and referrals, will allow the department to increase treatment capacity. While the amount is undetermined, we estimate capacity to increase 5% annually.

This measure is impacted by the decline in the offender population and the reduced testing in the community that resulted during COVID-19. Additional testing capacity and capabilities should contribute to an increase in testing.

This measure is impacted by the decline in the offender population in institutions. While some increase is likely, the overall projected stability of this population should make any increase minimal.

The majority of these tests (96%) are pre-employment tests. Employee recruitment could impact the degree of change for this measure.

2b. Provide a measure(s) of the program's quality.

Certified staff are treatment staff who fall in these categories: Certified Alcohol & Drug Counselor (CADC), Certified Reciprocal Alcohol & Drug Counselor (CRADC), Certified Reciprocal Advanced Alcohol & Drug Counselor (CRAADC), Criminal Justice Addictions Professional (CCJP) and be registered in Missouri or a state having reciprocity with Missouri.

A new assessment process is being piloted and will be expanded in FY22. An estimated 75% of offenders may meet the criteria for a substance use disorder based on available research. The new protocol will give the department a more accurate estimation of offenders needing treatment for next fiscal year.

Institutional treatment center completions are affected by offender conduct. Treatment center environments can become unsafe for offenders and staff if individuals with criminal behavior are permitted to stay in the programs. Completion rates of 96% may be unsustainable.

Prior to this fiscal year this measure was reported including incarcerated and community offender testing. The department has changed the measure to the incarcerated population only and has increased testing capacity. Because of this, we anticipate a slight increase in positive results.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Substance use and recovery services are a critical step in reducing criminal behavior, relapse, and recidivism by breaking the cycle of addictions and initiating a structured plan for recovery. This program provides appropriate treatment for offenders with drug-related offenses and substance use histories who are mandated to participate in treatment. The department has established a continuum of care with a range of evidence-based services that include:

- diagnostic center screening
- clinical assessment and classification
- institutional substance use treatment services
- pre-release planning at ten correctional centers

In FY2018, the department was successful in collecting a large outstanding receivable from a treatment provider who had not submitted fees in five years. This large payment has led to a one-time cash balance in the Corrections Substance Abuse Earnings that the department lacks sufficient authority to spend. The department has many one-time needs within the area of substance use and recovery services, such as staff certification costs, treatment curricula, and staff training related to updated treatment curricula. This request is for authority to utilize the one-time funds to meet these various one-time needs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

2. CORE DESCRIPTION

The Department of Corrections conducts random and targeted drug testing of offenders in prison and in the supervised community. Urinalysis testing is conducted to ensure the safety and security of the offenders, the staff and the public and to identify opportunities for early relapse intervention. The testing processes are conducted at the department's toxicology lab, located at the Cremer Therapeutic Community Center.

Each month:

- at least 10% of the offender population in the institutions is randomly tested for substance use through urinalysis;
- at least 5% of the offender population who are suspected of substance abuse based on staff observations, searches, or because they are assigned to work release programs outside institutions is target tested for substance use through analysis; and
- offenders under community supervision are random and target tested.

The toxicology lab is also responsible for conducting the urinalysis testing of departmental employees.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

The Department of Corrections, through a combination of state-operated programs, inter-agency agreements and outsourced services, provides qualified educators to conduct institution-based education and vocational programs for offenders. Incarcerated offenders without a verified high school diploma or high school equivalency certificate are required to be enrolled in academic education classes. Offenders who have obtained a high school diploma or equivalency certificate may apply for admission to vocational, work-related skills training. Providing education services reduces risk and recidivism by equipping offenders with necessary knowledge and skills to increase employability and enhance success in the community. The department continuously assesses the educational needs of offenders from their intake through their release to the community.

Vocational skills training for offenders is a work-based approach to skills training that prepares offenders for employment after release. The department provides a comprehensive training program that prepares offenders to secure meaningful employment upon release from prison. Training courses include skills such as the following:

- Welding
- Auto mechanics
- Commercial vehicle operation
- Technical literacy, which includes computer skills
- Cosmetology
- Heavy equipment operation
- Culinary arts

The department identifies industry-specific skills required of entry-level workers to ensure that training provides required competencies for employment. Department of Labor certificates may be awarded for certain program completion, facilitating employment upon release.

2. CORE DESCRIPTION

The Missouri Department of Corrections addresses the reduction of risk and recidivism by providing tools to offenders to help them succeed through resources, programs and partnerships designed to improve lives for safer communities. Successful reintegration into the community is a shared responsibility by the Department, other State Departments, local community stakeholders and the individual.

The Department of Corrections recognizes the following:

- 15,000-18,000 offenders return annually to Missouri communities.
- Reentry needs such as gainful employment, education and vocational training, safe and affordable housing, access to substance use treatment, as well as behavioral health services are critical to enhancing public safety in Missouri.
- Gender responsive resources and gender specific interventions are vital to addressing the varying pathways to prison for male and female offenders.
- Collaborative partnerships between the Department of Corrections, other state and federal agencies, local reentry service providers, law enforcement, and faith-based organizations enhance public safety.

CORE DECISION ITEM

Department	Corrections	Budget Unit	97435C
Division	Offender Rehabilitative Services		
Core	Reentry Services	HB Section	09.015

The Missouri Reentry Process focuses on coordinating efforts to assist an offender transitioning from prison to the community. These efforts include utilizing an assessment tool to identify the offender's risks and needs and then preparing a case management plan specifically built to address these risks and needs. Reentry efforts include skill enhancement, career readiness, resume writing, interview preparation, job interviews and job placement prior to release. Efforts also include addressing needs such as housing, substance use and behavioral health resources, as well as transportation, if needed.

The Women's Offender Program works to ensure accountability, reliability and continuous improvement towards meeting the department's commitment to provide gender responsive resources and interventions to women who are incarcerated or under probation or parole supervision. The Department of Corrections understands the value of partnership and works closely with other state, federal and community agencies, organizations and faith-based groups to enhance public safety.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

This program addresses the needs of individuals under the supervision of the Missouri Department of Corrections (DOC) by providing the tools offenders need to be successful, law abiding citizens. The department accomplishes this through the Missouri Reentry Process (MRP), a system of resources, programs and partnerships designed to decrease offender risk and enhance offender self-sufficiency to improve public safety. This process coordinates the efforts of the state and the community to successfully transition offenders from prison and ensure that they are released to the community with appropriate substance use and recovery treatment, mental health and behavioral health treatment services, housing, job training and employment placement, thereby, enhancing public safety in Missouri. The process targets the approximately 20,000 offenders per year who return to Missouri communities following a period of confinement in a state correctional institution. The Reentry Unit manages a number of programs and initiatives related to the MRP and provides offender reentry assistance and direction to divisions within the Department of Corrections, partnering agencies and the community. Successful reintegration into the community is a responsibility shared by the department, other state and federal agencies, law enforcement, and local stakeholders.

The Women's Offender Program was established to ensure accountability, reliability and continuous improvement in meeting the department's commitment to provide gender responsive resources and interventions as well as providing trauma informed care to women incarcerated or under probation or parole supervision. In accordance with House Bill 1355, the Women's Advisory Committee addresses the needs of women in the criminal justice system as they are affected by the changes in their community, family concerns, the judicial system and the organization and available resources of the Department of Corrections. The Department of Corrections understands the value of partnership and works closely with other state, federal and community agencies, organizations and faith-based groups to enhance public safety.

PROGRAM DESCRIPTION

Department Corrections

HB Section(s): 09.005, 09.015, 09.020

Program Name Reentry/Women's Offenders/Restorative Justice

Program is found in the following core budget(s): Reentry, OD Staff, and Federal

The Reentry Unit also provides oversight and support to the Department of Corrections' Restorative Justice efforts. Through restorative justice initiatives, offenders are encouraged to reflect on the harm caused by their criminal activity and to make restoration to victims, the community and their families as part of their sentence to prison. Restorative Justice holds the offender accountable, provides a means for them to repay their debt to the victim and the community, and allows for the identification of cognitive deficits or distortions that lead to criminal behavior. Through the concentrated efforts of offender volunteers, not-for-profit agencies and victims statewide received reparative products and services. Examples include donation of quilts, fruits and vegetables harvested from inmate gardens, wooden toys, etc., to organizations such as the Salvation Army, children's hospitals, senior citizen homes, schools, KidSmart, Newborns in Need, Head Start, Boys and Girls Club, Veterans Administration Hospitals, homeless shelters, and many more. In addition, many offenders attend Victim Impact: Listen and Learn classes which enable offenders to develop a sensitivity and respect toward victims that helps prevent further victimization. Understanding the need to engage in Restorative Justice activities allows justice-involved individuals to participate in activities that positively impact local communities.

2a. Provide an activity measure(s) for the program.

The goal is to increase the number of secured out-of-state and in-state birth certificates through collaborative work with the Department of Social Services and the utilization of TANF block funds that will positively impact the procurement of those who have previously been unable to secure an additional birth certificate prior to release.

PROGRAM DESCRIPTION

Department Corrections

Program Name Reentry/Women's Offenders/Restorative Justice

Program is found in the following core budget(s): Reentry, OD Staff, and Federal

Overall, our collaborative work with the Department of Social Services and the utilization of TANF block funds will positively impact the procurement of those who have previously been unable to secure an additional Missouri Non-Driver's License Identification Card prior to release. Due to COVID-19, there was a 90 day period where no SS card applications were able to be processed by the SSA Federal Offices. This adversely affected the number of Missouri Non-Driver's License Identification Card applications which could be submitted. The SS card is a requirement to procurement of a Missouri Non-Driver's License Identification Card.

2b. Provide a measure(s) of the program's quality.

Includes birth certificates, state identification cards and social security cards. We anticipate these figures will remain consistent. Due to COVID-19, there was a 90 day period where no SS card applications were able to be processed by the SSA Federal Offices. This adversely affected the number of Missouri Non-Driver's License Identification Card applications which could be submitted. 2. CORE DESCRIPTION

Missouri Vocational Enterprises (MVE) operates industries to provide viable training/skills to offenders and produces a variety of products and services for state agencies, city and county governments, political subdivisions, state employees, and not-for-profit organizations. MVE instills personal responsibility in offenders through the development of diverse training programs that enhance offender employability and the opportunity for success while incarcerated and upon release.

- 22 industries are operated in 12 correctional centers statewide.
- These industries historically employed as many as 2,400 offenders annually. Due to COVID in FY21, this number was reduced to approximately 1,645 offenders.
- MVE has 53 job titles registered with the U.S. Department of Labor in Apprenticeship Programs.
- 1,943 offenders have completed these programs.
- There are 632 offenders actively working on their apprenticeship certification.
- Apprenticeship Programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release.

MVE continues to focus on improving its brand image by identifying key stakeholders, understanding those stakeholder's needs, meeting those needs and shifting mindsets from, "we have to buy from MVE" to "we want to buy from MVE."

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

Missouri Vocational Enterprises (MVE) operates industries to provide viable training/skills to offenders and produces a variety of products and services for state agencies, city and county governments, political subdivisions, state employees, and not-for-profit organizations. MVE instills personal responsibility in offenders through the development of diverse training programs that enhance offender employability and the opportunity for success while incarcerated and upon release.

- 22 industries are operated in 12 correctional centers statewide.
- These industries historically employed as many as 2,400 offenders annually. Due to COVID in FY21, this number was reduced to approximately 1,645 offenders.
- MVE has 53 job titles registered with the U.S. Department of Labor in Apprenticeship Programs.
- 1,943 offenders have completed these programs.
- There are 632 offenders actively working on their apprenticeship certification.
- Apprenticeship Programs are nationally recognized by a multitude of employers and provide a gateway to employment upon release.

MVE continues to focus on improving its brand image by identifying key stakeholders, understanding those stakeholder's needs, meeting those needs and shifting mindsets from, "we have to buy from MVE, to we want to buy from MVE."

MVE is also focused on improving business practices and process flow to create a more efficient operation. In return, the customer will realize a cost savings and better buying experience. In addition, MVE continues to evaluate existing offender training programs, as well as explore future training programs that can be implemented within our correctional facilities.

1a. What strategic priority does this program address?

Reducing Risk and Recidivism

1b. What does this program do?

Community Supervision services make communities safer by holding offenders on probation, parole or conditional release accountable for their behavior by developing individualized plans and strategies for offender success.

- The division focuses on public safety by implementing evidence-based risk reduction strategies and programming. This includes actuarial assessments and targeting interventions to ensure the moderate and high-risk offenders are a priority with supervision and treatment resources.
- Evidence-based case management strategies have been implemented with the expected outcomes to be reduced recidivism and enhanced public safety.
- These strategies have been largely successful in redirecting internal resources during this period. A reduction in supervision services will jeopardize public safety.

The Inmate Fund, established in Section 217.430 RSMo., is a fund that collects fees from offenders under the supervision of the Division of Probation and Parole in order to provide enhanced supervision services of and/or enhanced transition services for offenders under of the division. The spending authority in the appropriation that supports these expenses has historically been adjusted based on the projected revenues into the fund. Several years of restriction plans, careful management of the fund by the division, better than anticipated revenues have improved the financial health of the fund to the point the department is requesting a partial restoration of authority reduced in FY 2020.

2. CORE DESCRIPTION

This core request provides personal services funding for the Transition Center of St. Louis (TCSTL), a 350 bed facility that provides housing and transitional programming to men released from the Division of Adult Institutions or those under community supervision in need of transitional services. Participation in available programming helps residents to balance the requirements of supervision with the responsibilities of living in the community. There are four phases to the program that includes assessment, intensive case management, reentry preparation, and programming tailored specifically to the offenders based on the assessment and treatment plan. Offenders continue to work in the community, are assigned a mentor and begin to transition back to the community after 90 days. The TCSTL has engaged numerous community partners who provide offender programming and services.

The Transition Center of St. Louis (TCSTL) is a 350-bed community-based facility that assists male offenders with reintegration to the community from prison.

- TCSTL provides stabilization while offenders remain assigned under community supervision.
- The Center provides the department with critical transitional services for offenders supervised in the metropolitan St. Louis area.
- The Parole Board stipulates offenders for assignment to the center based on their need for more structured supervision/assistance following release from prison.
- The Center also provides an intensive supervision strategy for offenders under community supervision who are at risk for revocation.

2. CORE DESCRIPTION

At the start of FY22, this facility (formerly known as the Kansas City Reentry Center) was transferred from the Division of Adult Institutions to the Division of Probation & Parole, becoming the Transition Center of Kansas City (TCKC). This core request provides personal services funding for TCKC, a 250 bed facility that provides housing and transitional programming to men released from the Division of Adult Institutions or those under community supervision in need of transitional services. Participation in available programming helps residents to balance the requirements of supervision with the responsibilities of living in the community. There are four phases to the program that includes assessment, intensive case management, reentry preparation, and programming tailored specifically to the offenders based on the assessment and treatment plan. Offenders continue to work in the community, are assigned a mentor and begin to transition back to the community after 90 days. The TCKC has engaged numerous community partners who provide offender programming and services.

Reducing Risk and Recidivism

1b. What does this program do?

Residential Facilities are contracted services, which help reduce recidivism by providing transitional housing and programming to offenders in need of additional structure in the community. These services help ensure success on supervision, resulting in enhanced public safety.

- Residential facilities provide assistance to offenders in obtaining employment, treatment and counseling services, life skills development, and transitioning back into the community.
- The program is structured to be 90 days in duration.
- The division contracts for 85 residential beds in St. Louis and Kansas City.
- The average daily cost per offender for a residential bed is \$68.70. The funding is solely through the Inmate Revolving Fund, which is sustained primarily through Intervention Fees paid by offenders under supervision.

2a. Provide an activity measure(s) for the program.

The department revised the use of residential facilities to better align with evidence based practice during FY19. Partway through FY21, the annual capacity decreased to 340 with 100% program utilization rate. Target assumes 90% program utilization rate.

The Electronic Monitoring Program (EMP) contracts for equipment and support services that enhance the supervising probation and parole officer's ability relative to monitoring, control and enforcement of offender movement, curfew restrictions, and alcohol consumption. This program aids reduction of recidivism by enabling more timely detection and response to violations for offenders who have been unresponsive or unsuccessful under traditional caseload supervision. In FY21, the division supervised an average of 1,229 offenders per day with electronic monitoring equipment.

2. CORE DESCRIPTION

This section contains funding for automated low-risk offender supervision. This program is funded by the Inmate Revolving Fund, which is sustained primarily through Intervention Fees paid by offenders under supervision.

Automated low-risk offender supervision was a new decision item approved by the General Assembly for FY22. Probation and Parole Officers' caseloads are a mix of high-risk, moderate-risk, and low-risk offender cases as determined by a structured, evidence based assessment. The department is requesting continued appropriation authority to contract for an automated supervision system for low-risk offenders on community supervision.

This automated system allows field officers to invest more time to the supervision of moderate and high risk offenders, which are at the greatest risk of failure on supervision, returning to prison, and committing new offenses. More active supervision of these offenders will lead to improved offender and community outcomes.

2. CORE DESCRIPTION

The Department of Corrections (DOC) operates six Community Supervision Centers (CSCs) to reduce the prisoner growth rate by insuring that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The CSCs provide a community-based, short-term intervention to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes the Probation and Parole district office for that area, as well as program/classroom areas and dormitory housing space for up to 40 offenders in need of structured residential supervision.

1a. What strategic priority does this program address?
 Improving Lives for Safer Communities by Reducing Risk & Recidivism

1b. What does this program do?
 The Parole Board determines whether a person confined in an institution within the Division of Adult Institutions of the Department of Corrections shall be paroled, and to release conditional offenders who are not released on parole. The Parole Board provides for the professional assessment and release of offenders by using appropriate treatment, sanctions and controls, with the primary consideration being the promotion of public safety. When necessary, the Parole Board may return and revoke parole and conditional release violators.

The Parole Board conducts approximately 650 parole consideration/hearings per month. Other duties of the Parole Board include making recommendations to the Governor regarding Executive Clemency applications and conducting conditional release extension hearings.

The Parole Board consists of seven members who are appointed by the Governor. Approximately 30 staff, including Parole Analysts and clerical, support the Parole Board.

2a. Provide an activity measure(s) for the program.

This is a new program measure. The Board has revised procedures to better align with evidence based practices. This coupled with the decrease in the institutional population means we expect to conduct fewer hearings over the next few years.

Department Corrections

HB Section(s): 09.235, 09.260

2b. Provide a measure(s) of the program's quality.

This is a new program measure. The grid release policy went into effect 9-1-19. While we are able to determine the number of individuals who will be eligible for a grid release, we are not able to assess the percent who will exit in compliance with the grid because we do not have a reliable distribution of the institutional population's risk on the ORAS instruments. Risk assessment with the ORAS began on July 1, 2019.

2c. Provide a measure(s) of the program's impact.

In FY20, a new measuring tool was utilized in determining completions. This coupled with the decrease in the institutional population means we expect a slight decrease in the targets for successful completions.

2. CORE DESCRIPTION

Missouri counties and the City of St. Louis are reimbursed for certain costs incurred in the prosecution and incarceration of indigent defendants sentenced to imprisonment in the Department of Corrections (Chapter 550 RSMo.), transporting prisoners from county jails to the reception and diagnostic centers (Section 57.290 RSMo.), and transporting extradited offenders back to Missouri (Chapter 548 RSMo.). In addition, counties or county sheriffs' offices are paid for costs of transporting prisoners and the costs of serving extradition warrants (Chapter 550 RSMo.). The Department of Corrections receives and audits county cost and extradition documentation, and then prepares and remits payments to the counties. This section represents the core appropriation for these payments. For FY 2022, the department is reimbursing at the rate of \$22.58 per offender per day per the language of the appropriation. All requests for reimbursement received by the department as of 6/30/21 have been paid.

2. CORE DESCRIPTION

The purpose of the Inmate Canteen is to offer personal items for offenders to purchase, including writing supplies and stamps for access to courts and communication with families. The institutions provide basic necessities to offenders, including food, soap, toilet paper, clothing, and shoes. If an offender has any needs or wants beyond the basic necessities, he must first attempt to purchase the item through the canteen. Only if the canteen does not offer that particular item can he purchase it from an outside vendor. Items for sale in the canteen with a unit cost of \$1.00 or more are sold with a 20% markup. Items for sale in the canteen with a unit cost of \$.99 or less are sold with a 40% markup. Pursuant to section 217.195 RSMo., proceeds from the Inmate Canteen are to be used for the operating costs of the canteens and then remaining funds are used for offender benefit in the areas of education, religious services, reentry services, and recreation. The Inmate Canteen Fund was moved into the State Treasury in FY19.

1a. What strategic priority does this program address?

Building a Safer Work Environment, and Reducing Risk and Recidivism

1b. What does this program do?

The canteen fund is for the operation of department institutional canteens, which are authorized to sell groceries, household, health and beauty supplies, clothing and shoes, clear case electronics, and other miscellaneous items to inmates at the lowest practical price for offender use and benefit. Per Section 217.195, RSMo, income generated from this fund can be expended solely to improve offender recreational, religious, or educational services, and for canteen cash flow and operating expenses and equipment from Inmate Canteen Fund (0405). Providing these services reduces risk and recidivism by offering desired items for purchase by offenders, which increases their quality of life while incarcerated. The utilization of income for recreational, religious, or educational services also reduces risk by providing services which offer a positive focus for offenders during their incarceration.

2a. Provide an activity measure(s) for the program.
