2. CORE DESCRIPTION

This appropriation provides funding for personal services and expense and equipment for Children's Service Workers and support staff in each of the 46 Judicial Circuits in the State of Missouri. Front line staff respond to allegations of child abuse or neglect; provide assistance for families in need of services to keep or return children home safely; secure appropriate out-of-home placements for children placed in the Division's custody; and locate permanent homes when it is in the best interest of the child. As a whole, Missouri's Child Welfare System became accredited through the Council on Accreditation (COA) effective November 2009 and was re-accredited March 2015. Children's Division is currently going through the re-accreditation process. Maintaining these standards helps to ensure the safety of children and to expedite moving kids from state custody to permanency.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.305

Program Name: Children's Field Staff and Operations

Program is found in the following core budget(s): Children's Field Staff and Operations

1a. What strategic priority does this program address?

Effective, supported, and accountable workforce

1b. What does this program do?

The Children's Division (CD) highest priorities are to ensure the safety of children and move children from the state's custody to permanency. The Division protects Missouri's most vulnerable children by responding to allegations of child abuse and neglect; assisting families to help children remain in or return home safely; ensure safe out-of-home placements for children placed in the Division's custody; and locate permanent homes for children who cannot return home.

CD direct service staff, supervisory, administrative, and clerical support the programs administered. The Division's administrative structure provides that the Division Director or Deputy Director will supervise regional administrative staff, and they in turn will manage the Division's local county offices which are organized into judicial circuits. Regional staff are responsible for all programs operated by the Division within their respective region. Each Circuit Manager has similar responsibility for that circuit's staff, and employs supervisory and clerical staff to facilitate the management of these programs. A typical circuit structure would have a unit or units of Children's Service Workers, a Social Service Supervisor(s), clerical staff, and a Circuit Manager.

Administrative staff are engaged in activities related to program monitoring and evaluation, personnel management and appraisals, training, and automated system support. These positions are responsible for quality of service provision and for monitoring of case activities to assure accuracy. They also provide significant on-the-job training to new employees. Clerical staff assist clients entering the local offices, organize and coordinate workflow, and perform data entry functions.

Children's Service Workers investigate child abuse and neglect reports, perform family assessments, provide permanency planning for children, and ensure that permanency will have achieved expeditiously. The Children's Service Worker is an advocate for the children, and an integral partner with the juvenile court. They assure the safety of the child, and provide for the needs of the children and their families in a manner that serves the child's best interest. According to Section 210.112, RSMo, it was the intent and goal of the General Assembly to have the CD attain accreditation by the Council on Accreditation (COA). As of November 2009, COA announced that CD was fully accredited. CD has remained accredited since. Attaining and maintaining accreditation demonstrates to consumers and stakeholders that the CD is adhering to nationally recognized standards. COA supports sound policy and reasonable caseload sizes to help ensure the safety and welfare of children. The following is a brief discussion of the vital responsibilities of the Children's Service Worker. CD has implemented several strategies focused on family engagement through the Five Domains of Wellbeing, Signs of Safety, Structured Decision Making, Team Decision Making, and Trauma-Informed practices.

Responding to Reports of Child Abuse and Neglect: A Children's Service Worker initiates an investigation or family assessment into allegations of child abuse or neglect within 24 hours of the report to the Child Abuse & Neglect Hotline. If the report indicates behavior that may constitute a criminal violation, the report is screened as an investigation, and a co-investigation will be conducted with local law enforcement. Should the findings from the investigation determine that abuse/neglect did occur, the perpetrator is placed on the Central Registry. Services are accessible to the family as appropriate. The other child abuse/neglect reports that are not criminal are then addressed through a family assessment. The primary purpose of the comprehensive family assessment is to assess the child's safety and the family's need for services. The agency seeks to form a collaborative relationship with the family and their community to build on existing strengths. Through this process, the focus is on long-term success for the family, rather than on an individual incident.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.305

Program Name: Children's Field Staff and Operations

Program is found in the following core budget(s): Children's Field Staff and Operations

Family-Centered Services: If the result of the investigation or family assessment concludes that the child is in danger, the worker collaborates with law enforcement and/or the Juvenile Court to take immediate steps to protect the child and begins working with the family to prevent any further abuse or neglect. Treatment services are put into place to help prevent the reoccurrence of abuse or neglect and to help the family regain custody in instances where the removal of the child(ren) was necessary.

Alternative Care: In many instances, the protection of the child requires the removal of the child from the home and placement in an alternate living arrangement. The Children's Service Worker makes arrangements for this placement, monitors the placement, and when appropriate, makes plans for the subsequent return of the child to their natural home.

Recruitment and Retention: CD contracts for all recruitment, recommendations for licensure/approval, and retention of resource homes in Jackson County and the Northwest portion of the state. The contract began as a pilot, as required by a report of the Task Force on Recruitment, Licensing and Retention of Foster Care and Adoptive Homes, and has continued since. CD is also piloting an enhanced effort for recruiting, licensing, and retaining foster and adoptive homes in the Southern regions of the state.

The Children's Division Child Abuse and Neglect Hotline Unit (CA/NHU): The hotline accepts confidential reports of suspected child abuse, neglect, or exploitation. Reports are received through a toll-free nationwide telephone line which is answered seven days a week, 24 hours a day. Members of certain occupational groups, such as teachers, social workers, and physicians are mandated by law (mandated reporters) to make reports to the hotline. The reporters can make reports that are non-emergency in nature through a web-based on-line application. Any person may report and anonymous reports are accepted from individuals who are not mandated by occupation to report through the toll-free telephone line. Missouri law requires mandated reporters to identify themselves when making a report. The toll-free number is 1-800-392-3738. In addition, all schools are required by law to post signs containing a child-friendly acronym for the child abuse hotline. That phone number is 1-844-CAN-TELL. In 2018, the phone system was updated from analog to digital with additional call management capabilities such as expanding the queue size to 50 callers versus 12 and adding a callback option for mandated reporters.

Permanency Attorneys: The Foster Care budget includes CD contracts with attorneys to achieve timely permanency of children in state custody. Additional attorneys were hired to assist in the courtroom and work side by side with staff to help move children to permanency. Contracted and staff attorneys are placed throughout the state to assist in the reduction of children in state custody.

Mobility Project: CD provides iPads to approximately 1,500 frontline staff statewide. CD staff use the Family and Children Electronic Services (FACES) application and virtual desktop (VDI) to enter and save case data while out in the field. In addition, staff use the iPad to access email, calendars, FaceTime to supplement visits between incarcerated parents and children, GPS for locating homes, internet access to search for local services to serve family needs, the Signs of Safety application, the Child Protector application, including talk to text, and free texting applications that allow staff to use the iPad to text with clients. All iPads are equipped with data plans. Wi-Fi access has been installed in all Children's Division offices.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

Planned FY 2022 expenditures are net of reverted and reserves.

4. What are the sources of the "Other " funds?

Health Initiatives Fund (0275)

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State Statute(s): Sections 207.010, 207.020, and 208.400, RSMo.; Federal: 42 USC Sections 670 and 5101.

6. Are there federal matching requirements? If yes, please explain.

Children's Division administrative reimbursement is based on the Children's Division random moment time study rate. The time study rate is determined by polling a select number of Children's Division staff to determine the amount of time spent on particular programs. The time spent on each program and the earnings for these programs are used to determine a federal reimbursement rate.

7. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected. Line staff and operations activities related to these obligations would be considered mandatory.

House Bills 429 (2021) and 432 (2021) establish the Birth Match Program, which orders data sharing between the Departments of Social Services, Health and Senior Services, and the courts to compare birth reports with reports of parents who have been convicted of certain crimes or have a termination of parental rights in order to ensure the safety of the child and provide services, if needed.

NEW DECISION ITEM

Department: Social Services	Budget Unit	90085C
Division: Children's Division		
DI Name: Birth Match Implementation	DI# 1886013	HB Section 11.305

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Based on the requirements of the bills, the number of Termination of Parental Rights (TPRs) was determined to be 530 from February 2020 to March 1, 2021. Of those 530 TPRs, we estimated a potential 75% had the required POE finding, which was determined to be 398 cases. As further required in the bill, looking at the numbers over a ten year period, it brings the calculation to 3,975 cases.

Per the current census, women of child bearing age (ages 18-40), totaled 1,735,000 women. Based on that population, there were 72,000 live births in Missouri; this information was obtained from the DHSS website. Based on these numbers, 4% of the population would have a child this year. 3,975 cases times 4% birth rate, equals an initiation of 165 additional contacts per year.

By dividing 365 days by the 45 day statute requirement that a report be concluded, and the twelve (12) investigations per worker ratio, a total of approximately 97 investigations per year would result from this legislation. This creates a requirement for two (2) additional FTEs .

It is estimated that this legislation may result in additional opening of Family Centered Services (FCS) cases. If 25% of the 165 initiated contacts result in a FCS case divided by the caseload ratio of 20 cases per caseload, it would result in two (2) additional FTEs being needed.

There is the assumption that this legislation could result in additional need for funding for Alternative Care. In the broad assumption that 10% (that would not have otherwise come into alternative care) of the 165 initiated reports resulted in an alternative care case being opened, calculated by the 165 cases divided by the 15 case ratio per worker, this would result in an additional FTE needed for case management.

Effective, supported, and accountable workforce

1b. What does this program do?

The Children's Division (CD) staff training program provides a well trained workforce that is vital to ensuring children and families are treated and supported while CD is involved, and can reduce turnover of front line CD staff. The Leadership and Professional Development unit provides training and development for staff, resource providers, and contracted case management partners. This program operates through centrally coordinated, regionally located training teams that provide a continuum of leadership and professional development opportunities, including new employees and resource parent training, and ongoing and continued development for tenured staff and contracted partners.

CD Leadership and Professional Development unit provides training to staff on CD policies and practices, using federal and state statutes as a framework to ensure children and families receive the appropriate services to meet their individual needs. New staff receive formal in-class training, and on-the-job (OJT) training with their supervisor and/or specialist coach. Ongoing training is provided to staff based on updated policy and/or changes to state and federal statutes. CD has increased its efforts to incorporate simulation technology in the case management training to better equip the workforce to be successful in their positions and work with children and families. In addition, CD is utilizing webinars and eLearning opportunities to allow staff to spend more time with children and families addressing their needs.

HB Section(s): 11.315

Program Name: Children's Treatment Services

Program is found in the following core budget(s): Children's Treatment Services

1a. What strategic priority does this program address?

Protecting children from abuse/neglect

1b. What does this program do?

The Children's Division Children's Treatment Services (CTS) program provides services designed to assist children and families with reducing risks to child safety, and improving family functions. Services include traditional therapeutic psychological testing, assessments and counseling, crisis intervention, emergency medical examinations for allegation of CA/N, transportation, juvenile court diversion, intensive in-home services, and intensive family reunification services. Each area of service is described in greater detail below.

"Traditional" CTS Services

Services are provided to families with children identified as abused or neglected, or at risk of abuse or neglect, to prevent injury to the children and to reduce the risk of abuse/neglect. Because of the multitude of challenges experienced by these families, it is necessary to have a variety of services available. Services provided through CTS contracts are intended to prevent further incidents of child abuse and neglect by strengthening families through services delivered, to divert children from foster care, and to assist families in having their children returned to their homes. The services described below are available on a statewide basis. MO HealthNet funding is used in lieu of CTS when the child or family is MO HealthNet eligible and the service is covered by Medicaid.

CTS Services include:

- Mental Health Assessment – Assessment services to identify the treatment needs of the child or family for the purpose of assisting the Division to develop and implement a treatment plan
- Behavioral Health Services – Services required to meet the child's additional needs which require additional units outside of MO HealthNet coverage
- Crisis Intervention Services – Services for a child to alleviate or diffuse a situation of immediate crisis
- Day Treatment – Therapeutic treatment programs to serve emotionally disturbed, developmentally disadvantaged, and abused or neglected children, and to provide therapy for members of the child's family
- Drug Testing – Specimen collection, evaluation and reporting of drug testing panels administered to clientele of the Division
- Family Therapy – Intensive family therapy treatment services to families at the contractor's facility or in the home of the family
- Group Therapy – Guidance and instruction provided through therapeutic interaction between the contractor and a group consisting of two or more individuals
- Individual Therapy – Therapy in the form of guidance and instruction
- Parent aide – Placement of a trained parent aide in the home of a family as part of the family/child's case treatment plan. The aide assists the parent(s) in developing parenting and homemaking skills
- Parent Education and Training Program – The contractor provides an instructional program in the form of appropriate parenting techniques for a group consisting of three or more individuals. The programs are competency based, to demonstrate appropriate parenting techniques

The service is accessed only when other resources to alleviate the crisis have been fully explored. Eligible services include home repair, child safety items, health-related purchases, employment/school supplies, household items, rent/mortgage arrears, and transportation.

Emergency Medical Exams Related to CA/N

The Division pays for medical examinations related to child abuse investigations when other payment resources (e.g. Medicaid, private insurance, direct payment by parents) are not available.

Juvenile Court Diversion

This service allows the Juvenile Court to provide services to youth who come to their attention without placing the youth in the custody of CD. The services are aimed at diverting the children from CD custody.

Intensive In-Home Services and Intensive Family Reunification Services

Intensive In-Home Services (IIS) is a short-term, intensive, home-based crisis intervention program that offers families in crisis the possibility of remaining safely together and averting the out-of-home placement of children. Families that have a child or children at imminent risk of removal from the home due to neglect, abuse, family violence, mental illness, emotional disturbance, juvenile status offense, and juvenile delinquency are offered IIS. The IIS program combines skill-based intervention with maximum flexibility so that services are available to families in their home or other natural settings according to their unique needs. Among other services, family members may receive individual and family counseling, parenting education, child development training, household maintenance education, nutritional training, job readiness training, and referral to other community resources. Services provided are focused upon assisting in crisis management and restoring the family to an acceptable level of functioning.

Intensive Family Reunification Services (IFRS) are intensive, short-term, home-based interventions provided to reunite children in out-of-home care with the child's identified family. The purpose of IFRS is to improve the family's functioning, teach skills to enable family members meet the needs of the family's children, and gain support within the family's community to enable families to be safely reunified. This intervention is approximately 60-90 days in duration, and staff are available to the family 24 hours a day, seven days a week, in order to ensure that children transition successfully back to their homes and communities.

IIS and IFRS are available statewide for the benefit of all Missouri families.

On March 11, 2021 HR 1319 (American Rescue Plan) was signed into law. The American Rescue Plan Act (ARPA) provides support to children, families, and communities in response to the COVID pandemic and resulting economic downturn.

An additional \$250B has been made available to states for community-based child abuse prevention efforts. ARPA funding provides a comprehensive approach to transform the way we support children and families to meet communities where they are and address system inequalities. The goal of these activities is to develop, operate, expand, enhance, and coordinate community-based programs to prevent and strengthen families to reduce the likelihood of child abuse. Examples of services include family resource programs, parenting education programs, and respite care programs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? As of September 2021, the Department of Social Services (DSS) had not received an award letter or federal guidance on how the funds can be spent. DSS estimates that they may receive up to \$5,000,000.

2. CORE DESCRIPTION

Crisis Care provides temporary care for children whose parents/guardians are experiencing an unexpected crisis or emergency situation that requires immediate action resulting in a need for short-term care and who would be at risk for abuse and neglect or at risk of entering state custody without this care. Crisis care services are designed to alleviate the immediate stress and to enhance the families' capability of preventing future crisis or emergency situations from occurring. Crisis Care providers serve children ages birth through 17 years of age. Some examples of crisis or emergency situations include unexpected hospitalization of a parent or another child in the home, unexpected incarceration of one or both parents, death of one or both of the parents, or leaving with no one immediately available to care for the child or children. Lack of food, utilities, shelter, domestic violence, overwhelming parental stress, and other crisis situations that jeopardize the immediate safety and well-being of the child or children are also examples of crisis or emergency situations. Some families have minimal support systems to rely on in times of crisis. These services assist families in overcoming current crisis situations and help to build future support networks to assist in times of need.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.315

Program Name: Crisis Care

Program is found in the following core budget(s): Crisis Care

1a. What strategic priority does this program address?

Protecting children from abuse/neglect

1b. What does this program do?

The Children's Division Crisis Care program provides temporary care for children (ages 0-17) whose parents/guardians are experiencing unexpected crisis or emergent situations requiring immediate action resulting in short-term care and who would be at increased risk for abuse and neglect and/or at risk of entering state custody without this care. Care for these children typically results from an immediate emergency, where the parent has no other support system to provide care for the child(ren). Examples of situations include: parental incarceration or death, hospitalization or another sick child in the household, homelessness, domestic violence, increased parental stress, or lack of basic needs. Crisis Care Providers take a holistic approach with the family, to not only address the immediate crisis, but to also look at the underlying issues that cause the crises. Additionally, Crisis Care Providers aid the families in building a natural support network and educate the families how to better cope with crises that result in the need for Crisis Care services.

Crisis Care services are provided free of charge to families voluntarily accessing services in response to a family crisis. These services are available twenty-four hours a day, seven days a week. A teen or child will be accepted at a crisis care facility at any time, day or night, if space is available. If space is not available, families are referred to other crisis care facilities or to other resources that meet their immediate needs. Crisis Care contracts are awarded through a competitive bid process. The annual award amounts are outlined below.

2. CORE DESCRIPTION

The Further Consolidated Appropriations Act of 2020 included funding for states to apply for Family First Prevention Services Act Transition funding. The purpose of the funding allows the Children's Division to support activities directly associated with the implementation of the Family First Prevention Services Act (FFPSA) by October 1, 2021. FFPSA requires states to adequately meet the needs of children and families by offering preventative services to assist children to remain safely in their homes and ensuring children in care are placed in the least restrictive, most family-like setting appropriate to the child's special needs when foster care is needed. For the purposes of Title IV-E Prevention Services, children identified as being candidates for foster care are those at imminent risk of entering foster care; however can remain safely in the home with family engagement in supportive services to address mental health, substance use, or in-home parenting services. Eligibility for Title IV-E Prevention Services must be defined in each child's prevention plan.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.320

Program Name: Family First Prevention Services

Program is found in the following core budget(s): Family First Prevention Services

1a. What strategic priority does this program address?

FFPSA requires states to adequately meet the needs of children and families by offering preventative services to assist children to remain safely in their homes and ensuring children in care are placed in the least restrictive, most family-like setting appropriate to the child's special needs when foster care is needed.

1b. What does this program do?

The Children's Division is actively engaged in planning activities to implement requirements of the Family First Prevention Services Act (FFPSA) by October 1, 2021, to ensure children in care are placed in the least restrictive, most family-like setting appropriate to the child's special needs when foster care is needed. The Children's Division is continuing planning efforts for future implementation of prevention services, as part of FFPSA, to adequately meet the needs of children and families by offering preventative services to assist children to remain safely in their homes. For the purposes of Title IV-E Prevention Services, children identified as being candidates for foster care are those at imminent risk of entering foster care, however, can remain safely in the home with family engagement in supportive services to address mental health, substance use, or in-home parenting services. Eligibility for Title IV-E Prevention Services must be defined in each child's prevention plan.

The following target population groups for Family First Prevention eligibility may include:

- Children identified as needing services through an active investigation or assessment, or are already receiving services by the state agency, to include non-court and court-involved cases
- Children involved in a newborn crisis assessment where the mother or child had a positive toxicology screening during pregnancy or at the time of birth
- Children, including pre or post-natal infants, of pregnant or parenting youth currently in foster care or who have exited foster care within the past five years
- Children who have exited foster care through reunification, guardianship, or adoption within the past five years and are at risk of disruption
- Siblings of children in foster care who still reside in the family home with identified safety concerns and are at risk of entering foster care

FFPSA was passed and signed into law as part of the Bipartisan Budget Act on February 9, 2018. The FFPSA provides support to the child welfare system by providing the tools needed to help children and families who come to the attention of the child welfare system. FFPSA allows for federal reimbursement of money under Title IV-E of the Social Security Act to be used toward prevention services allowing children to remain safely with their families and out of the foster care system. When foster care is needed, it permits federal reimbursement for care in family-based settings, as a major focus of the act is to place children with relatives or in foster family homes, and certain residential treatment programs for children with demonstrated clinical need. The intent of FFPSA is to ensure that children whose needs cannot be met in a family setting receive high-quality residential treatment services, for only as long as needed, that allow them to successfully transition back to family care.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.325

Program Name: Foster Care Special Expenses

Program is found in the following core budget(s): Foster Care

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth while safely reducing children in care

1b. What does this program do?

The Children's Division (CD) Foster Care program provides the least restrictive environment for children placed into foster care by Missouri courts. Services and supports provided to youth, birth parents, and caregivers to remedy the issues that prompted the child(ren) being brought into custody. The Division works toward permanency (reunification, adoption, or guardianship) for all children in their care, while working toward improving their well-being.

Foster and relative families caring for children between the ages of 0-36 months also receive an additional \$80 per month to help meet the special needs of infants such as diapers, formula, and supplies.

Foster Care Case Management

Contracted Case Management providers receive a case rate per child per month for children being served by the private agency. A portion of that case rate is for foster care services and is paid from this appropriation. Contracted case managers contract directly with foster, relative, and respite providers.

Legal Expenses

The Foster Care appropriation is used to pay legal expenses when a child cannot safely return home, and a decision is made to terminate parental rights. Legal expenses include litigation fees, attorney fees, and costs. Attorneys may contract directly with the department, or they may be secured by the prospective adoptive parents.

Planned FY 2022 expenditures are net of reverted and reserves.

4. What are the sources of the "Other " funds?

Foster Care and Adoptive Parents Recruitment and Retention Fund (0979)

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: Sections 173.270, 211.031, and 453.315, RSMo.; Federal: 42 USC Sections 670 and 5101

6. Are there federal matching requirements? If yes, please explain.

Children and youth receiving services from the Children's Division are grouped into two categories for expenditure purposes - Homeless Dependent and Neglected (HDN) and IV-E. Expenditures for HDN children and youth are state-funded or TANF funded. Expenditures on behalf of eligible IV-E children and youth are reimbursable at the IV-E program rate a 50% state match (50% federal earned) for IV-E administrative costs. Some expenditures are reimbursable at the Social Services Block Grant federal rate of 100%. Expenditures related to TANF are reimbursable at 100% federal and require MOE unless identified as maintenance of effort.

7. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected. Administrative activities related to these obligations would be considered mandatory.

The outdoor program is designed to offer therapeutic learning opportunities and rehabilitative outcomes for youth in foster care through backpacking trips; adventure activities such as climbing and caving; wilderness trips; low and high ropes challenge courses; primitive skills; and camping. Adventure activities are designed to be a catalyst for inspiring change in character and integrity in the children served. In a relatively short period, children in these programs experience perspective changes and gain increased efficacy, vision, and hope. The General Assembly appropriated funding for placement costs for a residential licensed or accredited "Outdoor Learning" program in South Central Missouri for the treatment of foster children.

Safety and wellbeing for foster youth

1b. What does this program do?

The Children's Division (CD) contracts to fund placement costs for a residential licensed or accredited "Outdoor Learning" program for the treatment of foster children. The outdoor program is designed to offer therapeutic learning opportunities and rehabilitative outcomes for youth in foster care through backpacking trips; adventure activities such as climbing and caving; wilderness trips; low and high ropes challenge courses; primitive skills; and camping. Adventure activities are designed to be a catalyst for inspiring change in character and integrity in the children served. In a relatively short period, children in these programs experience perspective changes and gain increased efficacy, vision, and hope. Youth are placed in situations where communication, trust, and focus among campers must be attained to meet the therapeutic needs of each person, as well as the group. Participants who are involved increase their skills in areas of confidence, communication, coping, and conflict management. They are also able to improve peer relationships.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.326

Program Name: Foster Care Maintenance Payments

Program is found in the following core budget(s): Foster Care Maintenance Payments

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth while safety reducing children in care

1b. What does this program do?

The Children's Division (CD) Foster Care program provides the least restrictive environment for children placed into foster care by Missouri courts. Services and supports provided to the youth, birth parents, and caregivers to remedy the issues that prompted the child(ren) brought into custody. The Division works towards permanency (reunification, adoption, or guardianship) for all children in their care, while working toward improving their well-being.

Traditional Foster Care Program CD, in conjunction with courts, take notice of children and youth who have been abused or neglected. In other cases, children or youth are placed in the care of CD as a result of mental or behavioral health challenges and delinquent behavior. By law, CD requires reasonable efforts to provide support and services to every parent/caregiver and child to reduce risk of serious harm to the child prior to and during out of home placement. During the documented court hearings, courts determine whether sufficient reasonable efforts were made by CD. CD has a responsibility to provide for the well-being (physical, medical, educational, emotional and social/behavioral needs) for all child(ren) in care. CD must also promptly develop and implement, the most appropriate treatment plan with the family to facilitate early reunification or another permanent plan for the child. Children are returned to the custody of their parents or placed in other permanent arrangements only by order of the court.

For funding for a child while in out-of-home care, the child must be described in the court order as abused/neglected or having committed a status offense and be placed with a licensed contracted foster family, residential facility, relative family, or transitional living placement.

Licensed foster homes and licensed relative care providers receive a standardized monthly maintenance payment to cover daily living expenses such as room, board, clothing and incidentals. Foster homes that serve children with elevated needs (Level A, Level B, and medical foster care) receive payments based on the enhanced needs of the child.

All foster children, regardless of placement type, are eligible to receive medical/dental care, including services available through Health Children and Youth (HCY) preventative health care program, Title XIX through MO HealthNet, Child Care, special medical and non-medical expenses, and Children's Treatment Services (CTS).

The Children of Youth in Alternative Care (CYAC) program allows for the provision of maintenance and special expenses for a child who is born to a youth in the CD's custody. The youth and child must be in the same eligible placement.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.326

Program Name: Foster Care Maintenance Payments

Program is found in the following core budget(s): Foster Care Maintenance Payments

Youth with Elevated Needs- Level A- Program

The Level A Foster Family Placement Program was designed for children who have moderate to severe behavioral issues. These children require a family setting that can provide structure and supervision. Children with elevated needs experience multiple placements due to their behavior in traditional foster care placements. A goal of the Level A program is to provide children with moderate to severe behavior issues with an individualized, consistent, and structured family setting in which they can learn to control behaviors that limit their ability to function in a normal home setting and in society. Level A foster care is not meant to replace appropriate residential treatment placement. However, it is intended to provide an alternative to residential treatment for children experiencing moderate to severe behavior problems. In order for the Level A foster parent to provide the structure, consistency, and individualization these children require, they are allowed to care for no more than two Youth with Elevated Needs at a time with a total of no more than 6 alternative care children. CD ensures parents are adequately prepared and supported to effectively care for and intervene on behalf of the children placed in their home.

Youth with Elevated Needs - Level B Program

The Level B Foster Parent Program was developed as a result of seeing an influx of children with increasingly diverse and complex needs that were not adequately met through traditional foster care or the Level A Program. These children experienced multiple placements as they were moved from foster family to residential care, and back again, in an attempt to secure stability. Such moves were often very traumatic for the children and at high cost. A goal of the program is to provide children who exhibit serious behavior and emotional disorders with intensive individualized intervention in a family and community-based setting. Level B placements are viewed as a transitional placement, designed to stabilize the child and prepare him/her for a less structured environment, i.e., traditional foster care, family reunification, and/or successful independence.

Children who qualify for Level B care may pose a threat to the safety of themselves, others, or property. Due to the severity of the children's needs, Level B Foster Parents are not allowed to care for more than two children screened in for this level of care at the same time, with a total of no more than four children.

Families/individuals interested in providing specialized Level B care and interventions for children and youth must meet all foster home licensing requirements, receive an additional nine (9) hours of Level B foster parenting workshops plus the eighteen (18) hours of specialized Level A training, and demonstrate the skills required to care for children requiring this high level of structure and care. The Level B Foster Parent serves as the primary change agent for these children and must be available to respond immediately to any problem experienced or created by the child, whether it is at home, at school, or in the community. Level B Foster Parent homes receive a higher monthly-rate to ensure their availability to meet the needs of the children daily.

PROGRAM DESCRIPTION

Program Name: Foster Care Maintenance Payments

Program is found in the following core budget(s): Foster Care Maintenance Payments

Each month, CD staff and the Level B parent meet to assess the child's continuing need for this level of care. A formal reassessment is completed every six months.

Medical Foster Care Program

Some examples of children who may qualify for Medical Foster Care include those suffering from: "shaken baby" syndrome, multiple sclerosis, cerebral palsy, muscular dystrophy, severe apnea, debilitating heart/lung/kidney conditions and failure to thrive, drug-affected children, physically disabled children who suffer from complications of other illnesses, and severely developmentally delayed children with complicating illnesses. Each month CD staff and the Medical Foster Care Parent will assess the child's continuing need for this level of care. Every twelve (12) months a formal reassessment is required to determine the progress of the child and the continued need for Medical Foster Care. Chronically ill or terminally ill children may require this level of care for long periods.

Families/individuals interested in providing this specialized level of care for children and youth must meet all foster home licensing requirements and must possess the experience, time, and commitment to provide necessary service to the Medical Foster Care child. The families/individuals must receive child-specific training from the medical professionals currently caring for the child in the hospital or rehabilitative setting. Medical Foster Care families receive a higher monthly rate to ensure the level of care, availability, and intensity of care these children require.

These children require far more than the routine daily care of children in non-medical settings. This may include assistance with bathing, eating, dressing, and their basic-level activities. They may also require medical treatments on a daily basis and/or frequent trips for medical care/therapy.

Emergency Foster Care Program

The Emergency Foster Care Program was designed to meet the needs of children who, after careful assessment, are determined to be in danger or threat of harm if they remain in the care of their parent(s), and that delivery of protective services will not provide immediate adequate protection for them. In many instances the family and children require immediate, short term separation for family members to remedy the problems which prompted the children being brought into care. Emergency Foster Care is not intended to be a long term placement, and generally is not to exceed thirty (30) days. When possible, the children are placed in relative homes, and only when these resources are not available, are the children placed in Emergency Foster Care.

Families/individuals interested in providing this level of care for the children and youth must meet all foster home licensing requirements and must possess the commitment to provide emergency care for children 24 hours a day, for a maximum of thirty (30) days. Emergency Foster Care Homes must accept placements of children at any hour of the day, seven days a week, and agree to maintain bed space, within their licensed capacity, for designated children. Emergency Foster Care parents are paid a higher daily rate for children placed in their homes under this program to compensate for the intensive one-on-one attention these children require and for the twenty-four-hour availability.

Foster Care Case Management

Contracted Case Management providers receive a case rate per child, per month for children being served by the private agency. A portion of that case rate is for foster care services, and is paid from this appropriation. Contracted case managers contract directly with foster, relative, and respite providers.

Relative Care Program

The Relative Care Program exists because it is the most desirable and first choice for children who must be removed from their homes. Relative care provides children in the custody of CD with familiar caretakers who have previously been involved with the family. Relative foster care providers are persons, related by blood or marriage to the child or who have a close relationship with the child and/or the child's family. Relative care providers must also meet the same licensing/approval standards as non-relative foster homes, except for certain non-safety licensing standards which can be waived with Regional Office approval. Grandparents must be notified first when children are removed from their homes, per Missouri statute and CD policy.

Definitions:

Level A: Placements for children with severe to moderate behavior problems.

Medical: Placements for children with acute medical problems or severe physical/mental disabilities.

Level B: Career foster parents - placement for children with serious severe emotional and/or behavior problems.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.327

Program Name: Residential Treatment

Program is found in the following core budget(s): Residential Treatment

1a. What strategic priority does this program address?

Safety, wellbeing, behavior support, and rehabilitative treatment services for foster care youth.

1b. What does this program do?

The Children's Division Residential Treatment program provides children who are status offenders, have been abused or neglected, and/or who have emotional or psychological difficulties with necessary treatment and rehabilitative services in a residential environment, offering various levels of residential services available to these youth and children, depending on their specific needs. Two basic federal funding streams partially help fund Residential Treatment: Title IV-E (Foster Care, and Adoption and Guardianship Assistance) and Title XIX (Medicaid).

Residential contractors provide room and board, supervision, and therapeutic rehabilitative services to children within their programs. Rehabilitative services are necessary to address the behavioral needs of children and transition them to community-based settings through rehabilitative planning, evaluation, and service delivery. Children who receive such services have completed a Childhood Severity of Psychiatric Illness (CSPI) assessment to establish eligibility. A portion of the children and youth receive residential services as a result of an emergency need for placement, or are young women in need of maternity and infant care, rather than because of behavioral needs.

The residential contracts allow the department to maintain compliance with federal requirements, strengthen Medicaid rehab claiming protocols, and maintain compliance with the federal district court order, to base room and board reimbursements on a cost-based methodology.

Residential Treatment Service include:

- Emergency Shelter – temporary living arrangement other than their own home, which will assure a safe and protected environment.
- Level 2/Moderate/Residential – for children who are in need of twenty-four hour care for moderate behavioral needs.
- Level 3/Severe/Residential – for children who are in need of twenty-four hour care in a stable, structured, therapeutic environment that focuses on treatment.
- Level 4/Psychiatric/Intensive – for children previously in acute psychiatric hospital or children whose treatment needs are beyond severe.
- Above Level 4 – services are short term and provide services above and beyond Level 4 Residential Care.
- Therapeutic Foster Care Services – services provided to eligible youth consisting of highly intensive individual treatment in a family foster home setting and community environment.
- Aftercare Services – short term intensive services provided to eligible youth and their families to expedite the youth's return home from residential care.
- Maternity Residential Services – services are for pregnant adolescents for whom a family or family-like resource is not available.
- Maternity Residential Services with Infant – services for parenting adolescents and their newborn infants, for whom a family or family-like resource is not available.
- Infant/Toddler Residential Services – services directed toward children under the age of seven, including those who are medically fragile, drug/alcohol-affected, and/or severely emotionally disturbed for whom a family or family-like resource is not available.

Specialized Care Management Contract

The Interdepartmental Initiative for Children with Severe Needs was a consortium of the Departments of Elementary and Secondary Education, Health and Senior Services, Mental Health, and Social Services designed to address a more responsive approach to children with severe behavioral health needs that negatively impact their ability to remain in their homes and communities. These children's severe behavioral health issues negatively impact their placement success in traditional Children's Division residential care, Mental Health residential care, or Mental Health hospitalization. The children and their families have complex interactions with mental health, medical, social service, legal, and education systems. They often receive a series of increasingly intense and expensive state services including long-term placement in residential care. This contract includes outcomes to measure child safety, permanency, stability, and well-being.

The Specialized Care Management contract award covers 42 counties; 10 Eastern Missouri counties; 10 Central Missouri counties; 5 Kansas City Area counties; 9 counties in Southwest Missouri (this area can be expanded as negotiated with the contracted agency), and 8 Southeast Missouri counties. The contract serves a maximum of 375 children, ages 6 - 20 years. As of June 2021, there were 331 children were served by this contract.

Voluntary Placement Agreements (VPA)

This program allows children to receive appropriate and necessary services, which include out-of-home placement to address mental health needs. The VPA allows the parent to retain custody of their child, while receiving services that the parent cannot afford or access. The VPAs are not to exceed 180 days. The ultimate goal is to provide services and reunify the child with his/her parent(s) as quickly as possible.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.327

Program Name: Residential Treatment

Program is found in the following core budget(s): Residential Treatment

S.B. 1003 Arrangements

Children can be placed in the custody of the CD solely to access mental health services when no abuse or neglect has occurred. This program allows children to receive appropriate and necessary services to address mental health needs when custody of the child has been returned to their parent/custodian. The child receives services which the parent cannot afford or access even though the court has terminated jurisdiction and returned custody to the parent/custodian.

Foster Care Case Management

Contracted Case Management providers receive a case rate per child, per month, for children being served by the private agency. A portion of the case rate is for residential treatment services and is paid from this appropriation. Contracted case managers contract directly with residential agencies for their services.

Developmental Disabilities

CD, through a Memorandum of Understanding (MOU) with the Department of Mental Health, has access to services for children with developmental disabilities. Through this MOU, CD can access appropriate services for children in the Division's custody. DMH accesses Medicaid dollars for the services, and the general revenue match is paid by the CD through the Residential Treatment appropriation. Children must meet the following criteria: A individual must have a developmental disability (per state law Section 630.005, RSMo) that occurred before age 18 or a severe health problem such as autism, epilepsy, or cerebral palsy that results in a need for specialized habilitation services. They may also have been injured or have a brain injury (from accidents, etc.). However, the disability should be expected to be a continuing problem rather than short-term, and result in significant functional limitation in at least three areas. These children will, in most cases, transition from DSS services to DMH adult services.

Independent Assessor

CD is piloting an Independent Assessor program for changes to residential treatment for youth in foster care. This is being done in preparation for the implementation of federal legislation the Family First Prevention and Services Act which will require full implementation by October 2021. The Independent Assessor would require that before a foster youth is placed in residential treatment, the youth must be assessed by an independent qualified clinician who is separate from both the residential facility and the Children's Division. The youth will be assessed either in-person or via tele-health so the youth has a voice in what happens to them while they are in the foster care system. The clinician will then prepare a report to be sent to the juvenile and family court for the court's consideration. The court will make a finding if residential treatment is in the child's best interest. These changes are being made to ensure that residential treatment is truly being used for the youth to determine who needs it most and to reduce the amount of time youth spend in residential treatment.

PROGRAM DESCRIPTION

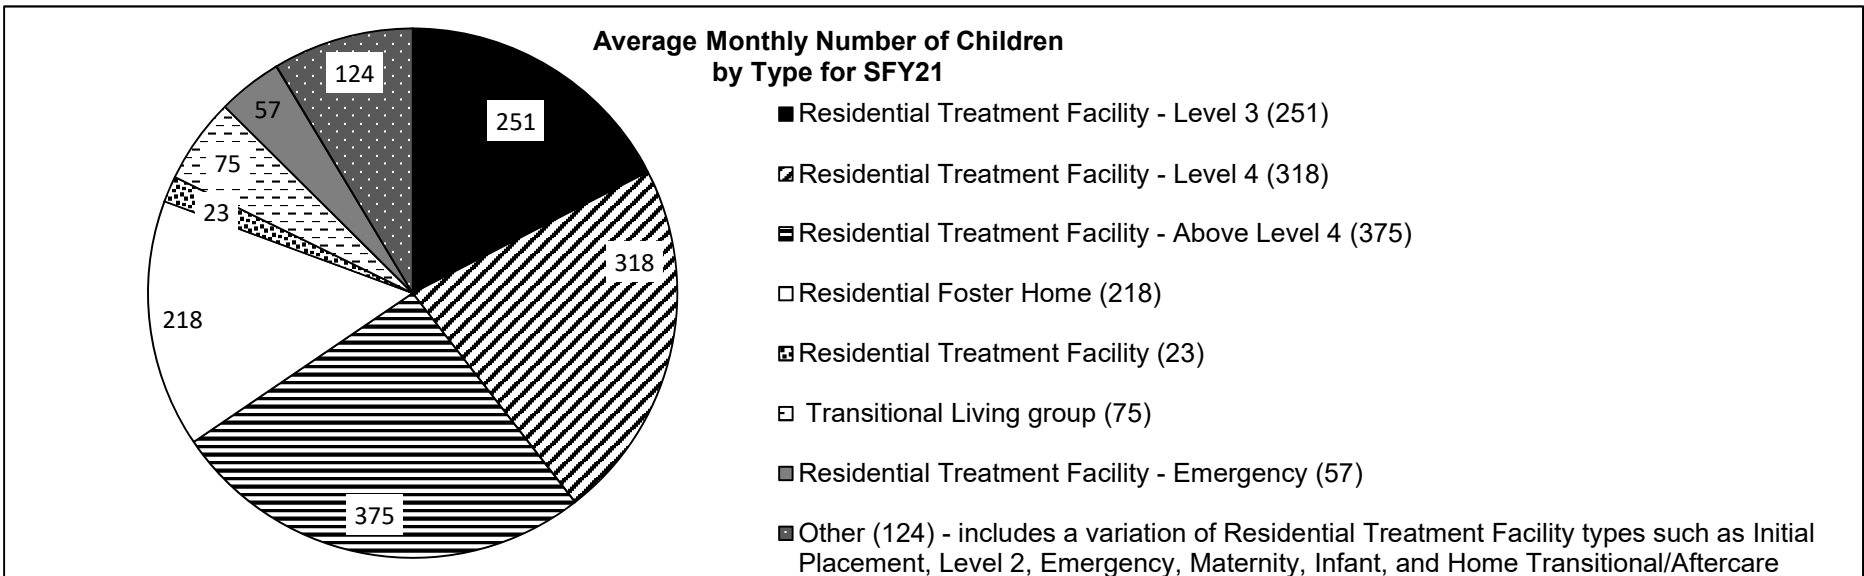

Department: Social Services

HB Section(s): 11.330

Program Name: Foster Parent Training

Program is found in the following core budget(s): Foster Parent Training

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth in stable foster placements

1b. What does this program do?

The Children's Division Foster Parent Training program equips applicants for the roles and responsibilities of foster parenting and provides existing foster parents with advanced training to enhance their functioning as foster parents. Pre-service training introduces applicants to the goals of foster parenting, provides them with an overview of the entire foster care system, and prepares them for the challenges of parenting foster children. In-service training provides foster parents with the opportunity to strengthen their foster parenting skills in a variety of different areas specific to the children they are parenting and challenges encountered.

The specific parenting skills needed to meet the unique needs of the foster youth population and their caregivers are continually assessed through national research and provider engagement. New training topics are continuously being reviewed and added to training requirements.

New foster parents must complete the family assessment process and 27 hours of Foster Specialized Training, Assessment, and Resource Support/Skills pre-service training. Relative care providers must complete the family assessment process and the 9-hour STARS for the Caregiver Who Knows the Child pre-service training. These programs are competency-based, and designed to strengthen the quality of family alternative care services by providing the tools and skills families need to protect and nurture foster children, meet children's developmental needs, support relationships between children and their families, connect children with safe nurturing relationships intended to last a lifetime, and work as a member of the family support team. Families must demonstrate competence in the aforementioned areas before they are licensed. Children's Division is coordinating pilots of two new resources parent pre-service training curriculums to help foster and adoptive resources applicants, by providing the best training available to equip them with skills and information to co-parent the Children's Division's population of children in foster care. The resource parents are expected to work closely with birth families and are required to obtain 30 hours of training during each 2-year licensing period.

Program Name: Foster Youth Educational Assistance

Program is found in the following core budget(s): Foster Youth Educational Assistance

1a. What strategic priority does this program address?

1b. What does this program do?

The Children's Division provides youth in foster care or former foster youth (from age 16 - 26) with financial assistance for tuition and other fees associated with the cost to attend post-secondary education or training programs. Early and on-going support for education is extremely important in preparing youth for self-sufficiency. The Foster Youth Education Assistance Program assists eligible youth interested in pursuing higher education with reaching their goals.

This program was expanded in FY 2017, to allow youth up to the age of 26 to pursue other types of post-secondary education such as certificate programs, or vocational and technical education. Additionally, the expansion of the program provides support services such as transportation and housing so the youth has the propensity to complete their program of study, and reduces the need for large student loan debt.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.340

Program Name: Foster Care Case Management Contracts

Program is found in the following core budget(s): Foster Care Case Management Contracts

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth

1b. What does this program do?

The Children's Division (CD) contracts with not-for-profit organizations to provide foster care case management (FCCM) services to children who have been removed from their homes and are under the jurisdiction of the Juvenile Court as a result of being at serious risk of or have been abused and/or neglected. FCCM providers form a statewide network committed to meeting the therapeutic and placement needs of children and families at the community level. The goal of the performance-based case management contracts is to improve safety and timely permanency for these children, while also reducing re-entries into care.

Missouri's mobilization and empowerment of the private sector has also allowed increased flexibility to direct its limited and highly demanded resources to focus on child abuse and neglect prevention, and investigation of child abuse and neglect, which is solely CD's responsibility, per MO statute, and has enabled CD to implement evidence informed program and practice improvement.

Services purchased include the following:

- Continuous availability to accept children and families for services on an immediate basis;
- Child and parent assessments
- Treatment planning
- Placement planning
- Service planning
- Permanency/concurrent planning
- Recruit, develop, and provide ongoing support to relative/kinship, foster and adoptive

homes. Additionally, the contractors are expected to develop community resources to serve children and their families in care. FCCM providers collaborate closely with numerous public service divisions and with community-based providers to meet a wide array of child and family needs. Funding for therapeutic services, placement cost, goods to meet immediate child/family needs, and ongoing clothing cost for children served is included in the case rate.

These services are paid from the foster care and residential treatment appropriations. More information can be found in those program descriptions.

Performance outcomes are incorporated into these contracts with the expectation that contractors achieve these outcomes. The performance measures are reviewed annually and renegotiated at the time of contract renewal or rebid.

A Request for Proposal (RFP) was released for bid with a closing date of January 27, 2020. Awards for this bid were issued in July of 2020 to be implemented in October 2020. The current contract award went into effect October 1, 2020. This contract is awarded for one year with 4 additional renewal periods.

2a. Provide an activity measure(s) for the program.

In the first contract period, a total of 2,055 children in out-of-home care were transferred to contractors.

- Additional funding was received in FY 2007 and FY 2008 to assist with accreditation of the Children's Division. As a result, 232 additional children were transferred to contractors.
- In October, 2008, an additional 315 children began receiving contracted services in the Central, South Central and Wouthwest regions of the state, bringing the total number of children served to 2,602.
- In October, 2009, expenditure restrictions resulted in case reductions which reduced the total number of children served to 2,522.
- In January, 2011, an additional 30 children began receiving contracted services in the Kansas City region. The expansion into Cass County increased the total number of children served to 2,552.
- In October, 2012, contracts were awarded for 2,625 children to be served.
- In October, 2014, contracts expanded by 480 children and added Cole, Franklin and Johnson counties, bringing the total to 3,105 children.
- In October, 2016, contracts expanded by 330 children and added Crawford County, bringing the total to 3,435 children.
- In October, 2020, contracts expanded to the Southeast Region of the state to include St. Francois, Washington, Stoddard, Dunklin, Ripley, and Butler counties. The contract award will no longer include Johnson and Crawford counties, and will have a reduction of cases awarded in St. Louis City, St. Charles, Cass, Greene, Jasper, Newton, and McDonald Counties to accommodate the expansion to the new Region. The total number of children served is 3,435.

2b. Provide a measure(s) of the program's quality.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.345

Program Name: Adoption Subsidy

Program is found in the following core budget(s): Adoption Subsidy

1a. What strategic priority does this program address?

Continued support to maintain permanency

1b. What does this program do?

The Children's Division Adoption Subsidy is a collaborative agreement between the Children's Division (CD) staff and the adoptive family, to help the family in meeting the needs of the child with financial, medical, and support services that may be available through subsidy, until the child is 18.

Adoption Subsidy

Adoption Subsidy is a financial assistance program available to children who are designated as having special needs (Section 453.065, RSMo.). Payments are made to the adoptive parent on behalf of the child. The subsidy is available to children in the care of the Children's Division, the Division of Youth Services, the Department of Mental Health, and licensed child-placing agencies. Under certain circumstances, it may also be available to a child who is not now, but has previously been in the custody of CD. Funding is also used to pay for contracted resource development activities such as adoption assessments.

Adoption Subsidy Agreements

Payment for maintenance, services provided by Title XIX (Medicaid), psychological/behavioral services, legal services related to the adoption, and other special services are authorized through an Adoption agreement. This agreement is determined through an evaluation of the needs of the child. The agreement is legally binding.

The Adoption Subsidy Agreements may be renegotiated at the request of the adoptive parent(s) at any time when changes in the needs of the child or the circumstances of the family are brought to the attention of the Division through an amendment to the agreement. All adoption agreements expire when a child reaches age 18. In the case of adoption subsidy, an agreement for a child over age 17 may only on a yearly basis, be negotiated with the family to a maximum age of 21 when there is a documented extraordinary mental health, physical, or dental need.

Current Monthly Rate of Payment FY 22:

Age 0-5	\$ 325.00
Age 6-12	\$ 385.00
Age 13-Over	\$ 505.00
Elevated Needs (Behavioral/Medical)	\$ 865.00

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.345

Program Name: Guardianship Subsidy

Program is found in the following core budget(s): Guardianship Subsidy

1a. What strategic priority does this program address?

Continued support to maintain permanency

1b. What does this program do?

The Children's Division Guardianship Subsidy is a collaborative agreement between the Children's Division (CD) staff and the guardian(s), to help the family in meeting the needs of the child with financial, medical, and support services that may be available through subsidy until the child is 18.

Subsidized Guardianship

Subsidized Guardianship provides eligible individuals with the same services that an adopted child would receive under the Guardianship Subsidy program. Individuals who qualify for this program are people related to the child by blood or affinity who have legal guardianship of a minor child. Close, non-related persons, who have legal guardianship and whose lives are so intermingled with the child such that the relationship is similar to a family relationship, are also eligible for guardianship. For the purposes of this program, the term "legal guardianship" refers to the legal guardianship established by a probate court under the provision of the probate court code of the Missouri Revised Statutes.

Guardianship Subsidy Agreements

Payment for maintenance, services provided by Title XIX (Medicaid), psychological/behavioral services, legal services related to the guardianship, and other special services are authorized through a guardianship agreement. This agreement is determined through an evaluation of the needs of the child. The agreement is legally binding. The guardianship subsidy agreements may be renegotiated at the request of the guardian(s) at any time when changes in the needs of the child or the circumstances of the family are brought to the attention of the Division through an amendment to the agreement. All guardianship agreements expire when a child reaches age 18.

Current Monthly Rate of Payment FY 22:

Age 0-5	\$ 325.00
Age 6-12	\$ 385.00
Age 13-Over	\$ 505.00
Elevated Needs (Behavioral/Medical)	\$ 865.00

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

* Expenditure history represents only the guardianship functions
Planned FY 2022 expenditures are net of reverted and reserves

4. What are the sources of the "Other " funds?

N/A

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

State statute: Sections 453.005 - 453.170, RSMo. ; Federal: 42 USC Sections 670 and 5101

6. Are there federal matching requirements? If yes, please explain.

Children and youth receiving services from the Children's Division are grouped into two categories for expenditure purposes - Homeless Dependent and Neglected (HDN) and Title IV-E eligible. Expenditures for HDN children and youth are 100% state-funded or TANF funded. Expenditures on behalf of Title IV-E eligible children and youth are reimbursable at the IV-E program rate. There is a 50% state match (50% federal earned) for IV-E administrative costs. Expenditures related to TANF are reimbursable at 100% federal unless identified as maintenance of effort.

7. Is this a federally mandated program? If yes, please explain.

The federal Child Welfare Act and the federal Child Abuse Prevention and Treatment Act obligate Missouri to care for children who are abused and neglected.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Funding is being requested for Adoption Subsidy and Subsidized Guardianship to continue supplemental funding requested in FY 22 and for caseload growth in FY 23. The number of children moving to permanent homes through either adoption or guardianship has increased. With increased efforts through legislation expanding the definition of eligible guardians, CD has seen an increase in the number of children in guardianship. Children in Adoption Subsidy increased by 219 in FY 21 and 821 in FY 20. Children in Subsidized Guardianship grew by 441 in FY 20 and 198 in FY 21. CD continues to place a concentrated effort to decrease the number of children in Foster Care by moving them to a permanent home. As a result, the number of children moving to permanency are expected to increase in FY22 and FY 23.

Funding is also being requested to continue supplemental funding requested in FY 22. In FY 21, the Foster Care Case Management Contract was rebid. Additional funds are needed to cover the costs of these contracts.

CD is also requesting additional funding for Alternative Care Trust Fund to fully utilize these funds for children in care.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.355

Program Name: Transitional Living

Program is found in the following core budget(s): Transitional Living

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth while transitioning to economic stability.

1b. What does this program do?

The purpose of the Children's Division Transitional Living Program (TLP) is to facilitate youth moving from structured family or residential settings to adult independence in group homes, apartments, or with advocates. This program is available for youth ages 16 and over, who are moving from a structured family or residential setting and whose permanency plan is independence, or for youth who have re-entered care. The placement is focused on the youth receiving life skills teaching designed to prepare the youth for independence. Placement types in TLP include group homes and single/scattered-site apartments, and the Transitional Living Advocate program. Entry into TLP must be planned by the youth's Family Support Team and authorized by the Children's Division.

Desired outcomes include increasing the number of youth who:

- Have resources to meet their living expenses
- Have a safe and stable place to live
- Are successfully working toward completion of academic/vocational goals
- Have positive personal relationships with adults in the community
- Are avoiding high-risk behaviors
- Are able to access needed physical and mental health services
- Have, or can obtain, essential documents

Transitional Living Group Home and Single/Scattered Sit Apartments

The Transitional Living Program is appropriate for older youth who require guidance, coaching, and mentoring in a safe and supervised environment to learn independent living skills in a community setting. Desired outcomes include education, employment, self-sufficiency, and community involvement.

Transitional Living Advocacy Program (TLA)

The Transitional Living Advocate (TLA) program provides a safe and familiar setting for youth to live and continue life skills training. Youth in this setting receive encouragement and guidance with regard to employment, education, and/or training to prepare for a successful transition from Children's Division custody. The advocate for the youth must be at least age 21, maybe married or single, and is willing to provide the time, a home, supervision, and support needed by the youth transitioning out of care. TLAs must have flexible attitudes and expectations for the youth during this time of transition. They must have an understanding of adolescent behavior, and be able to allow the youth to make mistakes and deal with consequences. Communication is essential when working with youth as well as allowing the youth to form value systems. The advocate is aware of community resources that will support the youth's endeavors and must be willing to assist the youth in accessing services, including educational support, job readiness training, physical/mental health, and money management. This type of placement is crucial to the youth's successful transition to adulthood.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.355

Program Name: Transitional Living

Program is found in the following core budget(s): Transitional Living

Transitional Living Group Home (TLGH)

The Transitional Living Group Home is a licensed and contracted Residential Care Agency operating a site dedicated solely for residents, ages 16 through age 18, who have a goal of "another planned permanent living arrangement." The program allows the residents to learn and practice life skills in a group setting with on-site supervision in accordance with residential treatment facility licensing rules. It offers youth the opportunity to transition smoothly from a more restrictive environment to a less restrictive setting, based on the readiness of the youth.

Transitional Living Single/Scattered Site Apartments (TLSS)

Scattered site apartments are an approved and contracted living arrangement dedicated solely to resident(s), age 18 and over, who have demonstrated the ability to make responsible decisions, maintain employment, and have a clear understanding of the financial and emotional demands of living independently and who have a plan of independent living. The program intent allows the resident(s) to learn and practice life skills and prepare for the future in an apartment setting. Youth receive support and guidance, however supervision is minimal.

Independent Living

The Transitional Living appropriation also supports Independent Living activities. Services provided through the Chafee Foster Care Program include assistance in obtaining a high school diploma, career exploration, vocational training, job placement and retention, daily living skills, budget and financial management skills, and preventive health education.

The focus is on academic achievement, job readiness, community services and support, youth leadership, and independent living skills. Contractors assess the individual needs of youth and match their needs with the services they provide.

2a. Provide an activity measure(s) for the program.

TLA is Transitional Living Advocates (home-based settings)

TLGH is Transitional Living Group Homes (supervised group setting)

TLSS is Transitional Living Scattered Sites (community placement, including apartments; limited to those 18 and over)

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.355

Program Name: Independent Living

Program is found in the following core budget(s): Independent Living

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth while transitioning to economic stability

1b. What does this program do?

The Children's Division Chafee Foster Care program assists foster and former foster youth in achieving positive outcomes in their transition to independent adulthood through life skills teaching. Youth are referred by their case manager to a contracted provider. Chafee services are used to assist youth in achieving their own goals for self-sufficiency, and to ensure youth recognize and accept responsibility in preparation for and transitioning to adulthood. This appropriation also provides support for Chafee services for youth in Transitional Living Placements.

The Chafee Foster Care Independence Program (CFCIP) serves the following purposes:

- To help children who are likely to remain in foster care until 18 years of age, and beyond, make a successful, self-sufficient, and productive transition to adulthood
- To provide personal and emotional support to children aging out of foster care, through the promotion of interactions with dedicated adult mentors
- To provide financial, housing, counseling, employment, education, and other appropriate support services to former foster care recipients between 18 and 21 and youth who obtained adoption or legal guardianship after age 16 to complete their own efforts to achieve self-sufficiency
- Assist youth who are likely to remain in foster care until age 18 with regular, on-going opportunities to engage in age, or developmentally-appropriate, activities
To assist youth who are likely to remain in foster care until 18 years of age receive the education, training, and services necessary to obtain employment
- To assist youth who are likely to remain in foster care until 18 years of age prepare for and enter post-secondary training and education institutions
-

Chafee funds are also utilized to continue supporting Missouri's Aftercare program for youth who have exited state custody at age 18 or older but have not yet reached age 23. Additionally, funds are used for the administration and facilitation of foster youth advisory boards.

Many services are available through the Chafee Foster Care Program. Contractors provide services to all foster youth, ages 14 through 23, who are referred to the program. Services focus on academic achievement, job readiness, community services and support, youth leadership, and independent living skills. Contractors assess the needs of each individual youth and provide necessary life skills training, or assist the youth in obtaining appropriate resources.

The Children's Division Child Assessment Center program provides victims of child abuse and neglect an avenue to be interviewed by a trained forensic interviewer about their abuse in a child-friendly, neutral, and culturally sensitive environment, and provides medical, mental health, and advocacy services to children and their families.

2. CORE DESCRIPTION

The purpose of this appropriation is to provide a mechanism for the Children's Division (CD) to forward Title IV-E funds to the Juvenile Courts when Title IV-E eligible children are placed in Juvenile Court residential facilities. When IV-E eligible children are in the custody of the Juvenile Court, providing the Juvenile Courts with the Title IV-E match for maintenance helps to ensure these children do not enter the Division's custody.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.365

Program Name: IV-E Authority - Juvenile Courts

Program is found in the following core budget(s): IV-E Authority - Juvenile Courts

1a. What strategic priority does this program address?

Safety and well being for foster youth

1b. What does this program do?

The Children's Division (CD) contracts with certain juvenile courts or family courts to reimburse the court the federal match for children who are placed in the court's custody and in an out-of-home placement. In order to qualify, Program Eligibility Analysts must determine the child to be Title IV-E eligible and reimbursable. This program brings federal dollars to the courts so that they can plan for the child and maintain their placement without placing the child in the custody of CD.

There are three contracts with juvenile or family courts throughout the state. CD has contracts with Boone County Juvenile Court (13th Judicial Circuit), Jackson County Family Court (16th Judicial Circuit), and the Bruce Normile Juvenile Justice Center (2nd Judicial Circuit--Adair, Knox, and Lewis Court).

No performance measures are included for this program as it is a pass through program.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

Planned FY 2022 expenditures are net of reverted and reserve.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.375

Program Name: IV-E Authority CASA Training

Program is found in the following core budget(s): IV-E Authority CASA Training

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth

1b. What does this program do?

The Children's Division contracts with the Missouri Court Appointed Special Advocate (CASA) Association, enabling the association to access federal funding for certain CASA training programs to support and promote court-appointed volunteer advocacy for the state's abused and neglected children. CASA volunteers receive no less than 30 hours of training prior to being assigned to a case. These volunteers are supported by local CASA program staff with professional backgrounds in the legal and child welfare fields.

These federal dollars will allow the Missouri CASA Association to maximize their training dollars by matching the general revenue funds received through the Office of State Court Administrators (OSCA) budget with federal Title IV-E funds.

No performance measures are included for this program as it is a pass through program.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

Planned FY 2022 expenditures are net of reverted and reserve.

2. CORE DESCRIPTION

The Children's Division (CD) receives the Child Abuse and Neglect (CA/N) Basic Grant and the Children's Justice Act (CJA) Grant. The guidelines for the federal grants specify criteria that must be met, and specifies limitations for how the funds can be expended.

The CA/N Grant must be used by states for improving child protective service systems such as the intake, assessment, screening, and investigation of reports of abuse and neglect; creating and improving the use of multidisciplinary teams and interagency protocols; developing, improving, and implementing safety and risk assessment tools; training related to improving staff skills, and supporting collaboration among and across agencies.

The CJA Grant must be used to improve the investigation, prosecution and judicial handling of cases of child abuse and neglect, particularly child sexual abuse and exploitation in a manner that limits additional trauma to the child victim. Funds are typically used for developing curricula and conducting training for personnel in law enforcement and child protective services; establishing and enhancing child advocacy centers and other multidisciplinary programs; and establishing and supporting local and state child fatality review teams.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.380

Program Name: Child Abuse/Neglect Grants

Program is found in the following core budget(s): Child Abuse/Neglect Grants

1a. What strategic priority does this program address?

Protecting children from abuse/neglect

1b. What does this program do?

The Children's Division develops, establishes, and operates programs for caseworkers designed to improve the following:

- The handling of child abuse and neglect cases, particularly cases of child sexual abuse and exploitation, in a manner which limits additional trauma to the child victim
- The handling of cases of suspected child abuse or neglect related to fatalities
- The investigation and prosecution of cases of child abuse and neglect, particularly child sexual abuse and exploitation

The CA/N Grant is used by states for improving child protective service systems such as the intake, assessment, screening, and investigation of reports of abuse and neglect; creating and improving the use of multidisciplinary teams and interagency protocols; developing, improving, and implementing safety and risk assessment tools; training related to improving staff skills, and supporting collaboration among and across agencies.

The CJA Grant is used to fund initiatives for the investigation and prosecution of child abuse and funding attendance at various training/conferences revolving around child welfare (including multidisciplinary training).

2a. Provide an activity measure(s) for the program.

As the dollars are limited to grants approved and received through federal funding, the Missouri Task Force on Criminal Justice approves grant applications that are beneficial to Task Force in its charge of assuring appropriate use of CJA funds.

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.380

Program Name: Child Abuse/Neglect Grants

Program is found in the following core budget(s): Child Abuse/Neglect Grants

2b. Provide a measure(s) of the program's quality.

2c. Provide a measure(s) of the program's impact.

Children in care and custody of Children's Division

HB Section(s): 11.380

Program Name: Child Abuse/Neglect Grants

Program is found in the following core budget(s): Child Abuse/Neglect Grants

2d. Provide a measure(s) of the program's efficiency.

The Child Abuse/Neglect Grant and Criminal Justice Act Grant are federal funding streams used to support multi-disciplinary teams for collaboration and information sharing, to ensure the safety of those who experienced abuse and neglect. Without this funding, DSS would not be able to collaborate with the state only funding to the extent it currently does to provide support for programs and initiatives around proper handling of child abuse and neglect cases, including investigation and prosecutions, and various child welfare trainings, conferences and seminars.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

PROGRAM DESCRIPTION

Department: Social Services

HB Section(s): 11.385

Program Name: Foster Care Children's Account

Program is found in the following core budget(s): Foster Care Children's Account

1a. What strategic priority does this program address?

Safety and wellbeing for foster youth

1b. What does this program do?

The Division of Finance and Administrative Services manages any outside income received by children in the care and custody of Children's Division (CD), to provide a central account for the distribution of funds received for these children, thus offsetting state expenses. Children receive outside income from a variety of sources, including Social Security (SSI and OASDI); Veterans Benefits; Railroad Retirement benefits; and lump sum payments (excludes the child's wages, if any). This income is used to offset the cost of maintaining the child in alternative care and used to pay any special expenses for the child. The use of these funds reduces the payments made for children from state funding sources.

If a child receives past SSI payments that exceed six times the federal monthly benefit rate, a separate special account referred to as a "dedicated account" must be established for the child. The past-due benefits must be deposited into the dedicated account, and may not be combined with the child's SSI benefits or any other funds. CD may expend funds for medical treatment, education, job skills training, and other specific expenses related to the child's impairment from this dedicated account. Expenditures from the dedicated fund must be approved by the Social Security Administration.

No performance measures are included for this program as it is a core that represents client accounts.

States do not have to serve as a Representative Payee for kids in Foster Care. Missouri has opted for the opportunity based on the information below: Section 205(j)(1) and section 163 l(a)(2)(A) of the Social Security Act provides broad authority for the Social Security Administration (SSA) to determine whether an individual beneficiary should have a representative payee. Section 205(j)(1) of the Act provides for the appointment of a representative payee if it is determined "that the interest of the individual under this title would be served thereby... regardless of the legal competency or incompetency of the individual". Missouri has opted to serve as this representative payee.
