Missouri State Parks provides management and oversight of the following pass-through programs: Bruce R. Watkins Cultural Heritage Center in Kansas City, Payment in Lieu of Taxes (PILT), Gifts to State Parks, State Parks Resale, Concession Default, State Park Grants, and Outdoor Recreation Grants. This authority is needed to honor contractual agreements as well as statutorily and constitutionally mandated obligations, and provides authority to spend donations/awarded grants, conduct resale operations in state parks and historic sites, administer federal pass-through grants, and for continuation of public services in the event of contracted concessionaire default.

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

(1) In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances. Included in the data is also appropriation authority to encumber outdoor recreation grant commitments which must lapse (\$14.6 million FY 2019; \$17.8 million FY 2020, FY 2021 and FY 2022).

(2) New in FY 2022, \$150,000 for Bruce R. Watkins Strategic Plan & Programming.

PROGRAM DESCRIPTION

Department of Natural Resources

HB Section(s): 6.360

Missouri State Parks

Program is found in the following core budget(s): Missouri State Parks

1a. What strategic priority does this program address?

Missouri State Parks promotes environmental responsibility and resource stewardship, and provides family-friendly sustainable state parks, historic sites, and outdoor recreation opportunities.

1b. What does this program do?

The mission of Missouri State Parks (MSP) is to preserve and interpret the state's most outstanding natural landscapes and cultural landmarks, and to provide appropriate recreational opportunities in these areas.

- Recreation Management and Law Enforcement: Operate and/or maintain 92 State Parks and Historic Sites statewide with a wide variety of amenities such as camping, lodging, park stores, boat rentals, trail system, and other visitor services. State Park Rangers provide law enforcement services and protect park visitors, their property, and cultural and natural resources.
- Maintenance, Repair, and Construction: Evaluate, design, and construct projects and major repairs to parks' facilities such as buildings, roads, bridges, trails, visitor centers, campgrounds, shower houses, historic properties, and water/wastewater systems.
- Natural Resource Management: Preserve and manage native ecosystems and species, manage invasive species and conduct prescribed burns, secure research agreements, and maintain natural resource collections and databases.
- Cultural Resource Management: Identify and preserve historic buildings and landscapes, archaeological sites, artifacts, and other cultural resources.
- Resource Interpretation Management: Develop and review exhibits and interpretive panels; implement facility-specific interpretative plans; and develop and present interpretive programs and other educational material to help the public understand and appreciate the natural and cultural resources of Missouri.
- Grants Management: Identify grants consistent with strategic priorities from federal, state, or other sources primarily for local recreational opportunities.
- Program-Specific Funding: Includes authority for the Bruce R. Watkins Cultural Heritage Center, Payment in Lieu of Taxes (PILT), Gifts to State Parks, State Parks Resale, Concession Default, State Park Grants, and Outdoor Recreation Grants. This authority is needed to honor contractual agreements as well as statutorily and constitutionally mandated obligations, and provides authority to spend donations/awarded grants, conduct resale operations in state parks and historic sites, administer federal pass-through grants, and for continuation of public services in the event of contracted concessionaire default.

Prescribed fire is used to restore natural communities, preserve natural areas, manage native plants and wildlife, improve pollinator habitat, suppress invasive plants, and reduce wildfire potential. The prescribed burn management goal is to burn each unit on a 3-5 year cycle, ideally every three years. The fire season runs from October through March each year. Percentage of designated acreage burned are as follows: FY 2019 is 24%, FY 2020 is 19%, and FY 2021 is 17% for a total percent within three years of 60%.

Base Goal is 20% of the 39,257 acres currently designated for fire management.
Stretch Goal is 33% of the 39,257 acres currently designated for fire management.

Total Number of State Parks Impacted	
FY 2019	30
FY 2020	23
FY 2021	31

The number of acres managed annually is heavily dependent on weather conditions. Conditions during FY 2020 and FY 2021 limited the amount of fire management through the fall. Conditions during FY 2019 limited the amount of fire management, however, despite the bad weather, staff worked diligently in one week to burn 7,000 acres.

The majority of the grants are used to provide funding to local communities for outdoor recreation facilities and trail development, per Chapter 258, RSMo.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? The Land and Water Conservation Fund (LWCF) and the Recreational Trails Program (RTP) are two federally funded pass-through grant programs administered by the Department. These programs help communities develop outdoor recreation opportunities, such as new trails, playgrounds, ballfields, and swimming pools. In the last few years, the availability of outdoor recreation dollars through the LWCF program has increased substantially (largely due to the full authorization of the program under the John D. Dingell, Jr. Conservation, Management, and Recreation Act, and permanent funding under the Great American Outdoors Act). Missouri's formulary apportionment of LWCF funds has increased 309% in the last five years.

The National Park Service's Outdoor Recreation Legacy Partnership Program (ORLP) funds park projects in municipalities with populations over 50,000 residents and has increased the amount of federal funds available in competitive grants from \$40 million biennially to \$125 million annually. Missouri is authorized to submit all eligible applications received for the ORLP funds. The Department is estimating \$5 million in annual grant requests.

Encumbrance utilization is expected to increase beginning in FY 2022. The National Park Service (NPS) experienced delays in their award process as a result of COVID-19. The FFY 2020 grant awards are still pending approval and will likely award at the same time as the FFY 2021 projects.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

Increased encumbrance authority will allow the Department to apply for and secure additional federal grant funding of outdoor recreation projects for Missouri applicants. Pending LWCF and RTP projects have received preliminary National Park Service (NPS) approval and are awaiting formal award of funds before encumbrance can proceed.

Encumbrance utilization is expected to increase beginning in FY 2022. The NPS experienced delays in their award process as a result of COVID-19. The FFY 2020 grant awards are still pending approval and will likely award at the same time as the FFY 2021 projects.

6b. Provide a measure(s) of the program's quality.

The Department receives Land and Water Conservation Fund (LWCF) and Recreational Trail Program (RTP) grants to help communities develop outdoor recreation opportunities. Total number of applications received far exceeds the funding available. Thus the Department is able to fund less than half of the community grant requests each year. Additional funding authority would allow more communities to take advantage of these grant opportunities.

In FFY 2021, the maximum amount a grantee was allowed to apply for under the LWCF increased from \$250,000 to \$500,000. We believe the dip in funding requests is a result of spending restrictions related to COVID-19.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The New Decision Item will begin a transformational rails-to-trails project providing walking/hiking and biking opportunities across the State of Missouri.

The Rock Island Line Corridor is a 144.3 mile Missouri section of the former Chicago, Rock Island, and Pacific Railroad that runs from Windsor to Beaufort. This funding will allow initial maintenance and security of the entire Rock Island Line Corridor (e.g. bollards at road crossings, fencing, signage, as well as park rangers and operations and maintenance staff for ongoing operations) as authorized in Sections 253.175 and 253.177, RSMo. The timeline for public access to the trail is dependent upon the Department's FY 2023 ARPA NDI request for development and improvement of a 35 mile section of the trail running from Eugene to the Gasconade River, as well as other funding availability for trail development.

The National Trails System Act (16 U.S.C. § 1247(d) and 49 C.F.R. § 1152.29) established a process allowing for voluntary agreements between a railroad company and a trail agency to use an out-of-service corridor as a trail until a railroad might need the corridor again for rail service. An Interim Trail Use Agreement, signed December 17, 2019, by the Department ensures the preservation of the former railroad corridor for future transportation use and paves the way for donations to Rock Island Trail State Park Endowment Fund (0908) for recreational trail use. The Missouri State Parks Foundation has been the steward of donations to this point.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The FY 2023 personal service request includes 5.00 FTE. Two park Rangers will oversee security and law enforcement activities to safeguard the security of the Rock Island Corridor, one Maintenance/Grounds Technician and one Specialized Trades Worker will provide necessary services for maintenance and repairs to the trailway. The Park/Historic Site Supervisor will provide ongoing oversight and management of day-to-day operations and oversee completion of initial maintenance.

The Rock Island-funded expense and equipment request totals \$798,977, is work done on the entire Rock Island Corridor, and includes:

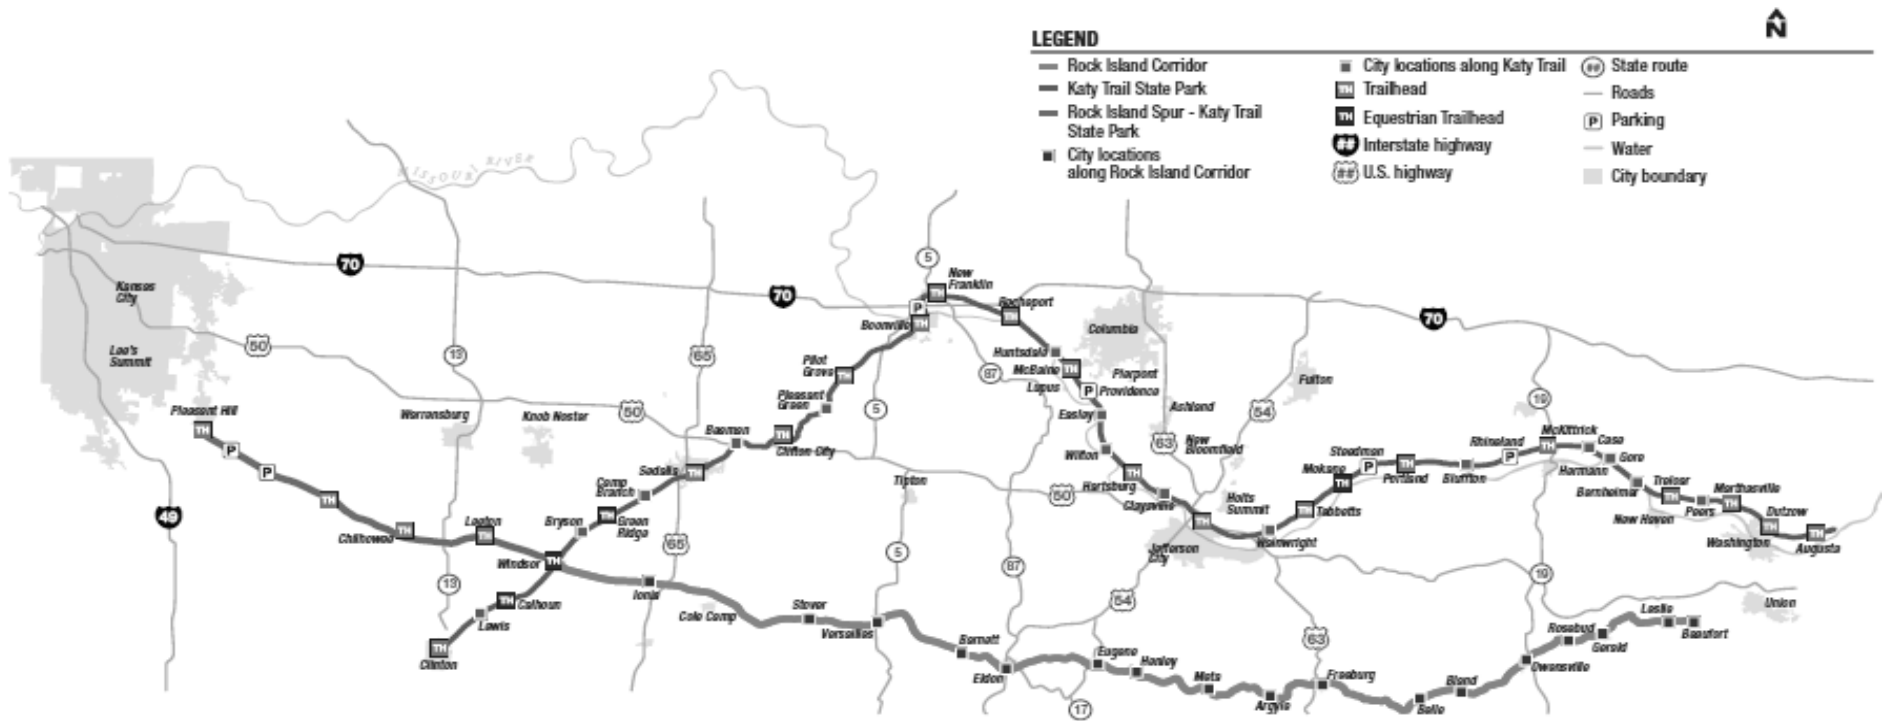

- Outfitting two new Rangers = \$173,007 including vehicles, uniforms, equipment, and supplies
- Fencing to be completed in FY 2023 = \$216,776 (estimate based on completing 10% of needed fences per year)
- Signage = \$61,668 including boundary signs at crossings as well as along the trail
- Crossing, Bridges, and Tunnel Closures = \$347,526

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.
Activity measure for this funding request will be ongoing operations and initial maintenance, such as fencing and securing crossings, bridges, and tunnels of the Rock Island Corridor project.

6b. Provide a measure(s) of the program's quality.
This project provides improved customer satisfaction by increasing available trails throughout the State of Missouri meeting the needs of visitors and overnight guests at state parks, historic sites, and campgrounds.

6c. Provide a measure(s) of the program's impact.
Program impact will be measured by completion of securing necessary personnel to maintain ongoing operations as well as complete initial maintenance projects including fencing, signage, and securing crossings, bridges, and tunnels.

6d. Provide a measure(s) of the program's efficiency.
Program efficiency based on ongoing operations and availability of trail usage to the public.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Securing additional appropriation will safeguard the state's ability to take advantage of a unique opportunity to invest federal funding to enhance the development of additional public trails throughout the State.

2. CORE DESCRIPTION

The State Historic Preservation Office (SHPO) works with citizens and groups throughout the state to identify, evaluate, and protect Missouri's diverse range of historic, architectural, and archaeological resources. The SHPO coordinates nominations to the National Register of Historic Places, conducts Section 106 reviews (under Section 106 of the National Historic Preservation Act, SHPO must participate in the review of all federal agency actions when federal funding, permitting, or licensing is involved), reviews rehabilitation projects for state and federal income tax credits, and responds to archaeological issues such as unmarked human burials. The program's pass-through authority is located in a separate core decision item form.

2a. Provide an activity measure(s) for the program.

The Certified Local Government (CLG) program is the official preservation partnership connecting local, state, and federal governments. Communities in this network receive technical and financial assistance to save local historic places for future generations. Since the program's creation in 1980, it has grown to include 2,073 CLGs with 63 in Missouri, ranking us 12th nationally for the most CLGs.

Base Goal is the highest actual from prior 3 years plus a slight annual increase.
 Stretch Goal is one additional over the base goal.

PROGRAM DESCRIPTION

Department of Natural Resources
 MSP - State Historic Preservation
 Program is found in the following core budget(s): State Historic Preservation

HB Section(s): 6.365

2b. Provide a measure(s) of the program's quality.

Under Section 106 of the National Historic Preservation Act, SHPO must participate in the review of all federal agency actions when federal funding, permitting, or licensing is involved to determine if the project has the potential to affect historic properties. The Department expects an increase of Section 106 reviews associated with the American Rescue Plan Act (ARPA); FFY 2022 to FFY 2024 average processing times may be impacted.

FFY 2019 processing time was higher due to staff vacancies.

Base Goal: Review applications in 17 days or less.

Stretch Goal: Decrease the number of days it takes to review Section 106 applications to 16 days or less.

Total Number of Project Applications		
FFY	Received	Reviews**
2019	2,223	3,370
2020	2,488	3,473
2021	2,036	2,901
Total	6,747	9,744

**Some projects may require multiple reviews throughout the application process. Processing time averages include each review separately.

2c. Provide a measure(s) of the program's impact.

SHPO helps customers with a variety of historic preservation needs including: applications, nominations, grants awarded, Certified Local Government evaluations, and outreach services.

Base Goal uses prior information collected and shows a slight annual increase.
 Stretch Goal assumes a 1% annual increase over prior stretch goal.

PROGRAM DESCRIPTION

 Program is found in the following core budget(s): **State Historic Preservation**

2d. Provide a measure(s) of the program's efficiency.

The State Historic Preservation Office (SHPO) is responsible for assisting the National Park Service and the Missouri Department of Economic Development in administering their programs by reviewing federal and state historic tax credit applications. SHPO's role is to determine whether the proposed and completed rehabilitation meets the Secretary of the U.S. Department of the Interior's rehabilitation standards. Processing time is a coordination between the SHPO, the applicant, and other agencies.

Base Goal: Review and forward federal and state applications and minimize the number of applications pending review within the fiscal year.

Stretch Goal: Increase the percentage of federal and state historic tax credit applications reviewed each year and reduce the number of applications pending review each fiscal year.

Total Number of Applications			
Fiscal Year	Received	Processed	Pending
2019	1288*	747	541
2020	794	1,071	264
2021	636	782	118

2d. Provide a measure(s) of the program's efficiency. (continued)

Eligibility assessments are a preliminary step that provides staff the opportunity to assist customers early in the process of writing a National Register of Historic Places nomination which makes the final review process more efficient. SHPO encourages members of the public to submit Eligibility Assessments as the first step in the National Register of Historic Places nomination process. Every assessment is reviewed within 30 days by at least three members of the SHPO staff.

Starting in Spring of 2020, health measures to prevent the spread of COVID-19 resulted in processing delays related to staff implementing remote working policies.

Base Goal: Review applications in 14 days or less.

Stretch Goal: Decrease the number of days it takes to review these assessments to 13 days or less.

Entertainer Tax Transfer to the Historic Preservation Revolving Fund	DI#	<u>1780015</u>
	HB Section	<u>6.370</u>

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This Governor recommended request is in accordance with Section 143.183, RSMo, which governs the allocation and transfer of state income tax revenues received from nonresident members of professional athletic teams and nonresident entertainers to the Historic Preservation Revolving Fund (HPRF) and other funds.

The State Historic Preservation Office (SHPO) provides management and oversight of these funds which are used to preserve, restore, hold, maintain or operate any historic properties, and may be awarded as grants to preserve, protect, or restore historic county courthouses and historic county courthouse grounds (Section 253.403, RSMo).

Transfer dollars, used towards our 40% match, also allow receipt of federal funding. Federal dollars provide for mandated state and federal historic preservation programs, services, and grants. This in turn supports economic development in Missouri. The match amount varies and was \$386,869 in FY 2021 and is estimated to be \$424,000 in FY 2022.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Nonresident athlete and entertainer taxes are estimated to bring in a total of \$32.5 million for FY 2023. This item would proportionally share 10% of that amount (\$3.25 million) between each of the recipients, including \$325,000 (10% of \$3.25 million) for historic preservation.

The requested amount brings the total GR transfer to \$1,354,619 and will be utilized for historic preservation projects that fall within the fund's scope of work. The FY 2023 core includes funding recommended by the Governor to restore the transfer to prior levels, and support the State Historic Preservation Office and historic preservation grants.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The FY 2022 budget includes appropriation authority for a 2% pay increase for employees beginning January 1, 2022. The remaining six months were unfunded, but the stated intent of the legislature was to provide the funding in FY 2023.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

To help address high turnover and vacancy rates across the state, funding is needed to address statewide salary needs. The FY 2023 budget includes appropriation authority for three pay plan components and their associated fringes:

- 5.5% pay increase for employees
- \$15/hr state employee baseline wage adjustment
- Compression adjustments between positions

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriated amount for the Fiscal Year 2023 pay plan was based on a 5.5% pay increase for employees, raising the baseline wage of employees to \$15/hr, and adjustments related to compression issues as a result of the increases.

The 5.5 percent COLA increase is based on the average increase of four general structure adjustment economic indicators:

- Consumer Price Index for the Midwest – 6.4 percent;
- Employment Cost Index – 4.3 percent;
- World at Work Salary Budget Increases – 2.9 percent; and
- Personal Income – 8.3 percent.

2. CORE DESCRIPTION

As the designated trustee for natural resources for the State of Missouri for purposes of state and federal law, the Department assesses injuries to natural resources resulting from the release of hazardous substances or pollutants to the environment. Where appropriate, the Department recovers damages from parties who cause natural resource injuries. Such damages may include the cost of restoring the natural resources or the cost of the lost use of the resources. Additionally, the Department may recover reasonable costs incurred in assessing injuries. Damages recovered are then available to restore or replace the injured resources, as well as for future assessment, restoration, or rehabilitation of injured natural resources and related costs.

Recovered monies fund "on-the-ground" long-term restoration projects to benefit aquatic and terrestrial habitat, groundwater, and surface waters. The Department and, where federal law applies, the federal trustees issue Requests for Proposals (RFPs) for restoration, award project funds, and implement natural resource habitat restoration projects statewide. Restoration projects to restore areas impacted by mining are ongoing in Southwest Missouri and in the Big River and Viburnum Trend areas of the Southeast Missouri Lead Mining District. The Department is currently funding groundwater restoration projects in the Kansas City and Springfield areas.

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

(1) In recent years, the Department focused staff time on producing appropriate restoration plans and developing on-the-ground restoration projects to benefit local communities. Appropriations were set to allow for expenditures that will occur under the restoration plans in future fiscal years. Higher appropriation amounts allow us to encumber and pay our restoration commitments, which often span multiple fiscal years and can result in unexpended appropriation balances. Significant spending of restoration funds is anticipated in FY 2022 and future fiscal years.

PROGRAM DESCRIPTION

Department of Natural Resources

HB Section(s): 6.375

AWO - Environmental Restoration

Program is found in the following core budget(s): Environmental Restoration

1a. What strategic priority does this program address?

Environmental Restoration efforts help Missouri citizens thrive by managing natural resources to promote a healthy environment and economy by:

- Promoting environmental responsibility and resource stewardship.
- Enhancing services, information, and communication to improve customer experience.
- Supporting outdoor recreation and economic development.
- Modernizing infrastructure, strengthening workforce, and supporting economic development.
- Improving internal processes to better serve our customers.

1b. What does this program do?

Violations of environmental laws can have a long-lasting effect on the state's natural resources and affect the quality of life of its citizens. Federal and state laws authorize the Department to recover damages from parties who cause injuries to natural resources. Recovered funds are then available to help replace or restore injured resources, provide improvements to offset the damage, or provide background data to help measure or mitigate similar future actions that may injure the environment.

Department staff work to determine the impacts of releases of pollutants and hazardous substances on the environment. Staff conduct natural resource damage (NRD) assessments at sites to determine the nature and extent of the impact of the release(s), seek monetary damages to compensate the public for injured or lost natural resources when appropriate, and implement on-the-ground restoration projects for injured natural resources in Missouri. Currently, there are ongoing restoration efforts in the Southeast, Southwest, and Kansas City areas of Missouri. These projects will continue for a number of years with recovered funds.

Program is found in the following core budget(s): Environmental Restoration

2b. Provide a measure(s) of the program's quality.

Base Goal = 5% Annual Increase in Acres Restored

Stretch Goal = 30% Annual Increase in Acres Restored

Acres with active oversight and acres with active restoration completed will gradually increase over time as restoration projects are identified and initiated. Projects with active oversight will then begin to level out and decrease over time.

The Department and the Trustees fund on-site and compensatory projects to benefit habitat and allow for use of the restoration project areas. Projects include Webb City mine land restoration, prairie restoration, and soil and water stream bank stabilization projects. The goal of restoration projects is to compensate the public for the loss of natural resources.

PROGRAM DESCRIPTION

Department of Natural Resources

HB Section(s): 6.375

AWO - Environmental Restoration

Program is found in the following core budget(s): Environmental Restoration

2c. Provide a measure(s) of the program's impact.

The Department funds “on the ground” long-term projects to benefit aquatic and terrestrial habitat, groundwater and surface water, and conducts assessment and restoration activities with natural resource damage monies - examples include:

- Develop a Restoration and Compensation Determination Plan (RCDP) in Southwest and Southeast Missouri to assess natural resource damages.
- Develop and implement projects for the Missouri Statewide Groundwater Restoration Plan to address injuries to the state's groundwater.
- Conduct assessment activities on lands and streams in the Old Lead Belt to determine the levels of metals and possible injury to aquatic and terrestrial life.
- Issue requests for proposals (RFPs), award funds, and implement natural resource habitat restoration projects in Southwest and Southeast Missouri.
- Provide funds and oversight for upland and stream restoration practices in Southeast and Southwest Missouri.

Natural Resource Restoration Projects

Restoration projects frequently may span multiple years from initial funding to completion due to complexity and size. We anticipate focusing on existing projects during the next three years rather than bringing in a large amount of new projects.

Annual Base Goal = Complete one project

Annual Stretch Goal = Complete two projects

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

This budget does not contain General Revenue.

Unknown settlements and level of work required each year may trigger a lapse of appropriation authority in any given year. In recent years, the Department has focused staff time on developing restoration plans for public comment and identifying restoration projects. Restoration project expenditures are anticipated to continue on existing projects as well as additional projects as they are identified. FY 2022 Planned is shown at full appropriation.

PROGRAM DESCRIPTION

Department of Natural Resources

HB Section(s): 6.380

AWO - Natural Resources Revolving Services

Program is found in the following core budget(s): Natural Resources Revolving Services

1a. What strategic priority does this program address?

Efficient payment mechanism for services

1b. What does this program do?

This appropriation provides an efficient payment mechanism for internal services such as vehicle replacements and other interdivisional expenses (lab expenses, vehicle maintenance, conferences/training, and central supply). The Department also bills other governmental agencies or members of the general public for external services such as publication/data sales, environmental services, and environmental education. This appropriation allows the Department to respond to both internal and external customers.

2a. Provide an activity measure(s) for the program.

Due to nationwide vehicle supply chain issues caused by COVID-19, it was not possible to procure all necessary vehicles in FY 2020 and FY 2021.

2b. Provide a measure(s) of the program's quality.

This appropriation allows the Department to respond to both internal and external customers.

2c. Provide a measure(s) of the program's impact.

This appropriation allows the Department to respond to both internal and external customers.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Allowing for obligations to be paid, this new decision item request for FY 2023 (and potentially FY 2024) increases the Department's revolving fund PSD (program-specific/pass-thru) appropriation authority. The fund was created in Section 640.065, RSMo, and is used for the continuing operations of the very services and products from which the revenues came. For instance, vehicle user fee revenue, to replace vehicles.

The temporary increased authority will allow the Department to "catch up" and return to our normal vehicle replacement cycle. Due to nationwide vehicle supply chain issues caused by COVID-19, it was not possible to procure all necessary vehicles in FY 2020 and FY 2021. This resulted in appropriation lapse, and currently, the Department projects a shortfall of appropriation needed to procure the necessary vehicles. This increased appropriation authority is only for replacing existing vehicles and will not be used to add vehicles to expand the fleet.

The Department retains a vehicle fleet (approximately 550) to enable employees located throughout the state to conduct their core work such as park maintenance and safety, and emergency response. Employees in Jefferson City utilize the OA Carpool for activities such as attending meetings and trainings or conducting site visits or inspections.

COVID-19's Impact on Vehicle Replacements

Estimated Time of Arrival	Pre-COVID-19	Post-COVID-19
Sedans	12 - 18 weeks	unknown
Trucks	16 - 20 weeks	30+ weeks
SUVs	16 - 20 weeks	28+ weeks
Police Interceptor Utility	18 - 24 weeks	30+ weeks

Payment is made upon delivery and invoice receipt. For FY 2021, the average days to pay an invoice was 21 days and ranged between 7 to 60 days. Contracts grant 45 days to pay.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Due to COVID-19 and subsequent supply chain issues in FY 2020 and FY 2021, the Department was not able to take possession and make payment on 41 vehicles over this two-year time period totaling \$782,077 and \$651,824 respectively. As a result, the Department's vehicle inventory includes aging vehicles. When replacing a vehicle the Department considers mileage (currently we recommend replacement of vehicles with greater than 120,000 miles), reliability, age, and maintenance costs. The Department requests an increase to our appropriation for FY 2023 (and potentially FY 2024) to return to our normal vehicle replacement cycle.

For FY 2022, it is projected approximately \$650,000 in authority will be utilized for payment of FY2021 vehicles, and therefore not available for FY 2022 vehicle replacement, thus needed in FY 2023. An increase in authority may again be requested in FY 2024 to cover FY 2023 obligations rolled over because of additional delays (shutdowns, parts shortages).

Vehicle Replacement Projections	FY 2023	FY 2024
Targeted Vehicle Replacement	2,000,000	2,000,000
Typical Department Vehicle Replacement Plans	(1,400,000)	(1,400,000)
Projected Carry-forward from previous years	<u>600,000</u>	<u>600,000</u>

Vehicle fleet management options are being explored and implemented. By using three-year replacement plans, we are able to anticipate roughly how many vehicles will need to be replaced in a given year and the approximate cost. This is especially critical when planning for the replacement of larger, more expensive vehicles. We are beginning to redistribute the Department's lower mileage vehicles around the state to balance utilization and ensure the most reliable vehicles are available for the most critical activities.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

The Department will measure this activity by how many vehicles are purchased, delivered, and paid for during FY 2023. This will be compared to vehicle purchases in previous fiscal years to ensure the Department is properly maintaining our vehicle fleet.

6b. Provide a measure(s) of the program's quality.

The Department will continue to track vehicles in the fleet and will monitor vehicles for mileage, age, and general conditions. Currently, 100 vehicles are over the 120,000 mileage replacement criteria. With the replacement of older vehicles, the Department's fleet will become safer for staff using them.

6c. Provide a measure(s) of the program's impact.

The Department will continue to monitor fleet vehicles and ensure sufficient, safe vehicles are available for staff usage. Replacement of older vehicles will allow the Department to have more working vehicles available for staff usage, will reduce the amount of vehicle repairs and rental cars needed, and ensure that we are able to provide timely responses to situations in the field.

6d. Provide a measure(s) of the program's efficiency.

The Department will continue to monitor fleet vehicles to ensure staff have safe, reliable, and efficient vehicles to use when representing the State of Missouri. The Department will continue to review vehicle usage versus repair costs, accidents, and gas mileage to ensure that state resources are being utilized to the best of the Department's ability.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

The Department will maximize the utilization of the fleet vehicles through evaluation of mileage at replacement, vehicle functional use, service histories, and overall performance. We will continue to replace only vehicles in need of replacement. We will research all angles of product availability to ensure proper replacement of our fleet. We will diligently work with OA fleet and vendors to locate vehicles in order to purchase within fiscal year. With the proposed increase, this should allow us to overcome our vehicle replacement shortfalls.

<u>Cost Allocation and Federal Fund Transfers</u>	<u>HB Section 6.395, 6.400</u>

2. CORE DESCRIPTION

Department: Through a transfer to the Cost Allocation Fund, dedicated funds within the Department share in the cost of administering the programs in the Department. This cost share proposal uses the Department's federal indirect cost rate to allocate administrative costs to dedicated funding sources. The indirect cost rate is an established rate approved by our federal cognizant agency, the Environmental Protection Agency, and is used consistently throughout the Department. Each dedicated fund's share is based upon its proportionate percentage of personal services, fringe benefits, and expense and equipment appropriations.

HB 13: Through a transfer to the Cost Allocation Fund, dedicated funds within the Department share in the Department's HB 13 costs for leased and state-owned facilities.

OA ITSD - DNR: Through a transfer to the Cost Allocation Fund, dedicated funds within the Department share in the cost of the Office of Administration Information Technology Services Division - DNR (OA ITSD - DNR). In addition, a transfer from the Department's Federal Fund to the Office of Administration, Information Technology Services Division Federal Fund provides funding for OA ITSD-DNR's federal appropriations.

3. PROGRAM LISTING (list programs included in this core funding)

Not applicable - This core decision item represents appropriated transfers from the Department's dedicated funds to the DNR Cost Allocation Fund. These transfers provide funding for the Department's appropriations from DNR Cost Allocation Fund. The specific DNR Cost Allocation Fund appropriations/activities are included in other core budget decision items, HB 13 budget decision items, and OA ITSD - DNR (HB 5) budget decision items. In addition, this core decision item includes an appropriated transfer from the Department's Federal Fund to the OA ITSD's Federal Fund to provide funding for OA ITSD-DNR's federal appropriations.

2. CORE DESCRIPTION

The Environmental Improvement and Energy Resources Authority (EIERA) provides financing, research, and technical assistance for environmental and energy-related projects. Section 260.010, RSMo, created and established the EIERA as a governmental instrumentality of the State of Missouri, functioning as a body corporate and politic. A five-member board appointed by the Governor directly oversees the activities of the Authority.

During FY 2019, the EIERA's operating budget was brought under appropriation with the Supplemental House Bill 14 which will continue to allow staff to participate in the Missouri State Retirement System. This replaced the \$1 core appropriation authority, removed in the FY 2019 budget.

Environmental Improvement and Energy Resources Authority (EIERA)

Program is found in the following core budget(s): EIERA

1a. What strategic priority does this program address?

The Environmental Improvement and Energy Resources Authority provides solutions that help Missourians and the environment thrive through finance, research, and technical assistance in order to foster the responsible management of our air, land, water, and energy resources for the well-being of our citizens and Missouri's economy.

1b. What does this program do?

The Environmental Improvement and Energy Resources Authority (EIERA) provides financing, research, and technical assistance for environmental and energy-related projects. The EIERA:

- Issues municipal bonds to capitalize the State Revolving Fund (SRF) programs, which provide low-interest financing for water and wastewater infrastructure.
- Provides financial assistance through the Market Development Program to small businesses that divert waste from landfills to create products with recycled materials while creating jobs.
- Issues municipal bonds on behalf of private and investor-owned utilities to finance pollution-prevention infrastructure projects.
- Provides low-cost financing and technical assistance to communities and businesses to assist with the cleanup of contaminated properties, known as Brownfields.
- Provides paying-agent services to investor-owned utilities that fund low-income weatherization services through Community Action Agencies located throughout the state.
- Provides paying-agent services and technical and administrative assistance for environmental restoration efforts.

2a. Provide an activity measure(s) for the program.

Beneficiaries of EIERA Efforts

	FY 2019 Actual	FY 2020 Actual	FY 2021 Actual	FY 2022 Projected	FY 2023 Projected	FY 2024 Projected
Water and Wastewater Systems	5	17	11	12	12	12

Total Project Assistance Dollars (in millions) *	\$33.7 mil	\$130.4 mil	\$276.5 mil	\$150.0 mil	\$150.0 mil	\$150.0 mil

EIERA finance, research, and technical assistance supports entities in reaching their community development goals.

*Drop in assistance dollars for 2019 is a due to decrease in water/wastewater loan demand for that year.

2b. Provide a measure(s) of the program's quality.

EIERA bonds issued to capitalize the State Revolving Fund program are rated AAA. This is the highest rating possible and provides the least costly funds available for borrowers. This rating is maintained by continual oversight of the existing portfolio and through sound, conservative underwriting policies.

2c. Provide a measure(s) of the program's impact.

Client dollars saved are dependent on assistance provided.

Base Goal: Average of the past 2 years plus a 4% annual increase.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The PSTIF Board has two core appropriations, neither of which has been increased in many years. In a litigious environment, the Board's legal expenses have increased in the last few years, despite the Board's claim of sovereign immunity from such suits. The Board manages these expenses effectively, however there are current lawsuits against the Board that, depending on the outcome, may require additional expenses for defense. The outcome of these lawsuits may not be known until late FY 2022. For this reason, the Board makes this "contingency" request to allow flexibility for an appropriate response, should it be needed, in FY 2023.

(RSMo 319.129: fund created -- administration of fund)

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

In determining the amount requested for this "contingency", the Board must consider the possibility of an unfavorable outcome in one or more lawsuits requiring an appeal or retrial. The amount requested is based on historical costs associated with ongoing litigation and includes only those costs above that which is already included in the Board's core appropriation request for E&E.

The Board makes no statement, express or implied, concerning the likelihood or probability of an unfavorable outcome in one or more of these lawsuits.
