OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the Commissioner of Administration who is appointed by the Governor with the advice and consent of the Senate. The Commissioner appoints the directors of the divisions. OA is comprised of seven divisions, including: Accounting- maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; Budget and Planning- analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; Facilities Management, Design and Construction- provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; General Services- provides agencies with a variety of support services such as printing, mail services, fleet management, vehicle maintenance, and administration of the legal expense fund and the state employee workers' compensation program; maintains responsibility for the statewide in-house recycling program; transfers and/or disposes of state agencies' surplus property to maximize state resources; and administers the Federal Surplus Property Program. Information Technology Services-manages state information technology resources; provides mainframe computer processing services through the State Data Center; manages the State's telecommunication services; and provides Internet services, and network support to all state agencies; Personnel- provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and Purchasing- centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts.

In addition, the Office of Equal Opportunity (OEO) is a program housed with the Office of Administration and has primary responsibility for assisting in the coordination and implementation of minority and women participation programs throughout all departments of the executive branch of state government.

A number of boards and commissions' budgets are also assigned to OA including: Administrative Hearing Commission; Office of Child Advocate; Children's Trust Fund; Governor's Council on Disability; Missouri Public Entity Risk Management (MOPERM); the Missouri Ethics Commission; and the Board of Fund Commissioners Public Debt (House Bill 1), which appears in a separate budget book entitled "Board of Fund Commissioners". Appropriations for state general obligation debt are appropriated to the Office of Administration in House Bill 1 and budget requests appear in a separate budget book entitled "Board of Fund Commissioners".

The Office of Administration also administers a number of debt and related debt obligations appropriations, various pass-through distributions from the federal government, and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, budget requests for those benefits appear in a separate budget book entitled "Employee Benefits."

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The appropriated amount for the Fiscal Year 2022 pay plan was based on a 2% pay increase for employees beginning January 1, 2022. The Fiscal Year 2023 requested amount is equivalent to the remaining six months in order to provide the core funding necessary for a full fiscal year.

2. CORE DESCRIPTION

The Commissioner's Office provides centralized services to the department, including legislative and policy issue research and tracking, legal counsel, and budget preparation and tracking. The statewide Office of Equal Opportunity (OEO) is also assigned to the Commissioner's Office. The core budget for OEO appears as a separate request.

3. PROGRAM LISTING (list programs included in this core funding)

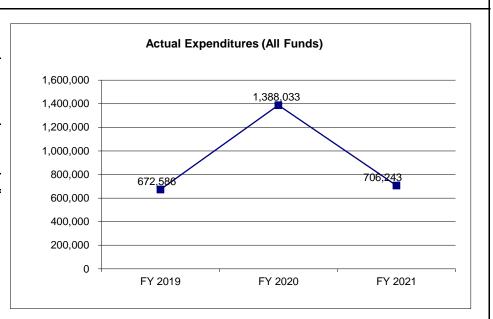

See OA Divisions' program listings.

The Prescription Drug Monitoring Program (PDMP) was established through new legislation during the 2021 regular session for the purpose of overseeing the collection and use of patient dispensation information for prescribed controlled substances. A newly created Prescription Drug Monitoring Task Force will oversee this program with technical, legal, and administrative support being provided by the Office of Administration. This program also requires the joint oversight task force to enter into a contract with a vendor through a competitive bid process for operation of the prescription drug monitoring program. The vendor shall be responsible for the collection and maintenance of patient dispensation information.

CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

OA estimates this will require two additional FTE, with a fiscal impact of \$145,000 PS annually for one Executive Director \$65,000, and one Legal Counsel \$80,000. E&E of \$20,000 is also requested for any necessary travel, meal reimbursements, etc. incurred by these new FTE or the joint oversight task force. Funding will also be required for vendor costs associated with collecting and maintaining all the patient dispensation information. There are custom off the shelf solutions that are utilized by other surrounding states with an estimated cost of \$1,390,652 in the first year for contracted database development. Ongoing contracted costs for operation of the prescription drug monitoring program will be affected by a number of variables including the frequency of data collection, the number of prescriptions being written and filled, the number of pharmacies reporting, and the number of practitioners checking patient drug histories. These costs are estimated to be approximately \$525,000 on an ongoing basis. There is a federal grant the state can apply for which could cover up to \$400,000 of the first year costs associated with starting a PDMP. \$400,000 is being requested in federal authority to allow the state to use that federal funding if it is received.

Originally established by Executive Order 94-03, the Office of Equal Opportunity (OEO) works to ensure the State of Missouri is providing an equal opportunity within its workforce and supply chain by certifying minority and women-owned businesses. This includes helping the state agencies satisfy Executive Order 05-30's requirements that all state entities make every feasible effort to purchase goods and service from minority and women owned businesses. Additionally, OEO works to promote Executive Order 10-24's vision of developing and supporting a robust workforce diversity program and assists each department in developing a workforce diversity plan. The OEO Director has the primary responsibility advising the Governor on issues relating to equal employment opportunity (EEO), workforce diversity, and efforts to administer workforce diversity goals through performance measures and management tools. OEO submits a report to the Governor and the Commissioner of Administration annually, which summarizes the activities of each department and contains recommendations for additional programs that will help accomplish the goals of Executive Order 10-24. The OEO Director also serves in two additional roles as the State Employment Officer and Chief Compliance Officer to ensure the state is complying with all federal and state EEO laws.

1a. What strategic priority does this program address?

The Office of Equal Opportunity (OEO) exists to promote a diversified workforce within state government, and to assist minorities and women with the platform to participate in the state of Missouri's procurement opportunities for various supplies, construction, equipment, and services.

These programs are supported by robust outreach and engagement efforts that ensure compliance with all applicable laws.

1b. What does this program do?

Workforce Diversity Program – OEO will assist and support state executive departments to:

- Support executive departments in their efforts to build a welcoming and inclusive environment that promotes the talent and skills of a diverse workforce.
- Maintain a diverse workforce through monitoring the creation and implementation of executive departments workforce diversity plans.
- Assist executive departments in developing and implementing strategies and programs designed to support the retention and success of our employees.

Supplier Diversity Program – OEO:

- Creation of the Minority and Women-owned Business Enterprises (M/WBEs) program that certifies businesses to participate in procurement opportunities in both public and private sectors.
- Maintain a directory of certified M/WBEs, while encouraging the utilization of these certified businesses by executive departments in state procurements.
- Develop and promote educational opportunities to assist in the growth of small business for economic impact.

Outreach and Engagement - OEO

- Supports Workforce Diversity and Supplier Diversity Programs through engagement with strategic stakeholders, partnership development, and MOUs.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Originally established by Executive Order 94-03, the Office of Equal Opportunity (OEO) works to ensure the State of Missouri is providing equal opportunity within its workforce and its supply chain by certifying minority and women-owned businesses. This includes helping the state agencies satisfy Executive Order 05-30's requirements that all state entities make every feasible effort to purchase specific percentages of goods and services from minority and women owned businesses. Additionally, OEO works to promote Executive Order 10-24's vision of developing and supporting a robust workforce diversity program.

OEO needs one (1) FTE dedicated staff person that is skilled in research and data analytics to ensure we are providing the best support to the executive departments to achieve thier demographic and utilization goals. This individual will use existing state resources, such as the data warehouse and Tableau, as a supportive tool to engage state agency leaders in meaningful conversations to assist them in achieving their department goals.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The assumptive need for one (1) FTE (Research/Data Analyst position) was dervived from:

- Review of the work within OEO and identification that accessing data pertaining to workforce and supplier diversity is a routine task.
- Lack of specialized/skilled data analysts -the positions that exist within the current employee structure include program staff.

The state's Pay Grade General Structure for a research and data analyst position, as well as existing positions within Missouri state government related to data and analytics were reviewed to determine a range and necessary competitive wage for the position.

Additional E&E funding will be needed to support this position including: equipment, supplies, furniture, connectivity, program and software licensing,

2. CORE DESCRIPTION

This core request is to fund the operations of the Division of Accounting. The Division provides a central payroll processing function, central accounting service, and a statewide financial reporting function for the State of Missouri. This includes producing payroll ACH/checks and vendor payments. The Division also prepares and distributes comprehensive, accurate and timely financial reports for the State of Missouri. In addition, the Division is responsible for monitoring and oversight of the employee benefits programs; providing support and oversight for issuance of debt; and oversight of all Office of Administration payments. The Division is also responsible for the administration of social security coverage for state and political subdivision employees.

In addition to the primary operations of the Division of Accounting, the State is in the process of replacing SAM II, the State's legacy Enterprise Resource Planning (ERP) with a new ERP system as discussed in HB Section 5.040. This funding request is for additional FTE needed to implement both the Budget and Finance/Procurement modules which are scheduled to begin implementation around 7/1/22. The Budget implementation is expected to last 13 months. The Finance/Procurement implementation is expected to last 24 months. This request is for technical experts related to budget, finance, procurement, and IT necessary to ensure a successful implementation. Tasks required for implementation are numerous. A short list includes: system design and configuration, workflow development, extension testing, data migration, data reconciliation, training, change management and communication, some process redesign to take advantage of new features, and audits of system security.

1a. What strategic priority does this program address?

Increase efficiency in accounting functions.

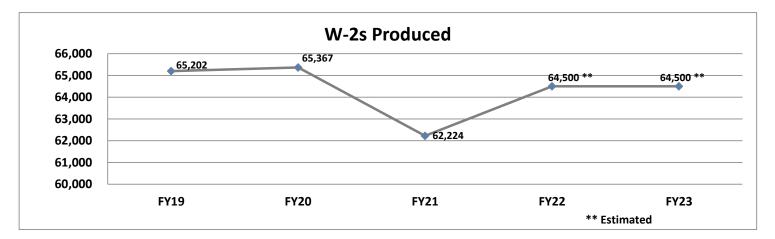

1b. What does this program do?

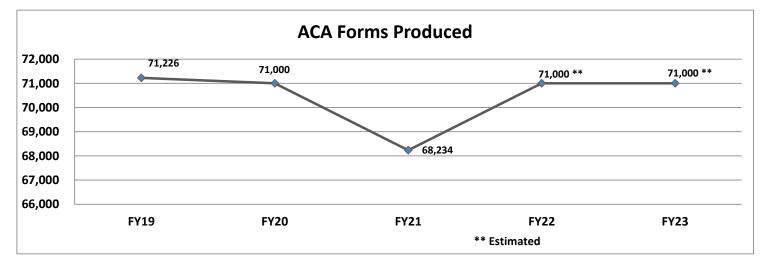

The Office of Administration, Division of Accounting, performs the controllership function for the State of Missouri. The Division of Accounting provides some of the following functions:

- -Central Payroll Services: Produces state employee's payroll checks or direct deposits, and issues W-2 and Affordable Care Act (ACA) forms to employees in accordance with IRS requirements.
- -Central Accounting Services: Issues vendor payment checks; submits vendor payments via Automated Clearinghouse House (ACH); and provides vendors their 1099 tax form. In addition, assists with maintaining the Statewide Accounting System (SAM II) and MissouriBUYS system by maintaining the general ledger and monitoring system assurance reports.
- -Financial Reporting: Prepares the State's Annual Comprehensive Financial Report (ACFR) and other legally required reports, such as the annual Appropriation Activity Report and the Statewide Cost Allocation Plan (SWCAP); and monitors general revenue cash flow activity on both a daily and monthly basis.
- **-Debt Management**: Provides continuing disclosure information for outstanding debt to the Municipal Securities Rulemaking Board, issues annual State Debt Reports for transparency and accountability, and issues new or refunding bunds as needed.
- -Accounts Payable: Process and oversight of Office of Administration purchase orders, payments, journal vouchers, and budget documents.
- -Social Security: Administration of social security coverage for employees at state and local public entities.

The FY2022 staffing request for ERP was reduced to include nine months of funding based on the projected start date of the ERP project. This request includes \$691,038 PS, and \$7,350 for E&E that is needed to provide for the other three months of funding in FY2023. An additional \$647,729 PS is being requested to adjust the base salary amounts for these positions. As we begin to identify staff members with the skills, knowledge and qualifications needed for a project of this size and complexity, we have found that the salary requirements needed to attract qualified staff will be higher than was originally anticipated. Additional flexibility is also being requested to allow contracted staff to be hired instead of state staff if necessary. This request also includes additional E&E of \$57,074 to allow for the purchase of 23 developer grade laptops and docking stations, 20 standard laptops and docking stations and the monthly VDI fee for all computers to connect to the state network.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

It is expected that the ERP project will begin implementation design and configuration at the start of FY2023 which will require staffing and equipment for the full 12 month period.

2. CORE DESCRIPTION

Chapter 33, RSMo tasks the Division of Budget and Planning to assist in executive branch management. The core amounts provide the ability to carry out the functions listed in #3 below.

3. PROGRAM LISTING (list programs included in this core funding)

The Division of Budget and Planning (BAP) exists to improve the lives of Missourians by making government better by providing analysis, resolving problems, and embracing improvement.

Specifically, BAP provides analysis and data to the Commissioner of Administration, Office of the Governor, General Assembly, and state agencies regarding fiscal and other policies. Our primary duties include:

- -to provide support to the Governor in the creation of the Governor's recommended budget, and
- -to serve Missouri taxpayers by implementing the final budget in a balanced and efficient manner.

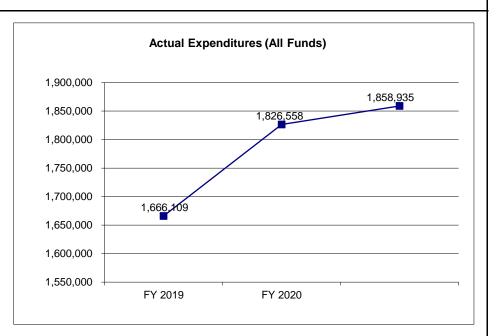

Additionally, BAP provides economic forecasts, state demographic services, legislation monitoring, and coordinates the executive agencies in addressing statewide issues.

1a. What strategic priority does this program address?

Using data and analytics to improve decision-making and transparency.

1b. What does this program do?

Budget and Planning manages the state's budget processes to achieve a balanced budget, promote financial stability and health, and to ensure the efficient and effective use of taxpayer dollars by:

- -developing an annual Executive Budget in conjunction with the state agencies,
- -forecasting state revenue collections and preparing economic forecasts,
- -continuously monitoring revenues and spending to ensure a constitutionally balanced budget, and
- -promoting fiscal transparency.

Budget and Planning also:

- -analyzes budget, tax, fiscal policy, and legislative issues for the Executive Branch,
- -coordinates with agencies to implement fiscal policies and priorities,
- -monitors and reviews legislation with budget implications,
- -monitors, tracks, and reviews legislation before the General Assembly,
- -reviews and/or coordinates state-wide fiscal note responses,
- -is the designated state demographic agency with demographic and reapportionment duties, and
- -provides additional oversight and counsel for the statewide financial system upgrade.

2. CORE DESCRIPTION

Section 37.130, RSMo, provides that the demographic unit in the Office of Administration "shall provide requested assistance in all reapportionment matters". The United States census occured on April 1, 2020. The Missouri State Demographer prepares census, geographic, and election databases for reapportionment efforts following the census. This core provides temporary staff and resources to support reapportionment activities including software and equipment purchases, training, data compilations, setting up a redistricting office, creating and maintaining a website for public use, coordinating public meetings and travel, filing draft and final plans with the Secretary of State, making maps of new districts available to elected officials, and providing data and support in the event of legal challenges.

NOTES:

In anticipation of needing to support additional redistricting commissions resulting from possible court challenges, this request will not eliminate FY22 one-time costs related to this core. The FY24 core request will include the core reductions and such funds will lapse in FY23 if challenges do not require seating additional commissions.

^{*}Current Year restricted amount is as of August 2020.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: DEPARTMENT: 30615 Office of Administration **BUDGET UNIT NAME:** ITSD Consolidation **HOUSE BILL SECTION:** 5.020 DIVISION: Information Technology Services Division 1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. **DEPARTMENT REQUEST** ITSD is requesting 25% flex between PS & EE within section 5.020 and 25% flex beween section 5.025 and section 5.020. This is the same level of flexibility that was approved in FY22. This flexibility is requested to help manage priorities for all consolidated agencies. ITSD serves departments with constatntly changing needs, which requires some flexibility of funding so that proper spending from the appropriations is maintained. It is critical for ITSD to retain key technical staff that continue to optimize the IT systems and maintain technical support so that E&E operating costs are contained and managed. This flexibility allows ITSD to provide services in the most efficient and reliable manner across departments. 2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount. **CURRENT YEAR BUDGET REQUEST PRIOR YEAR ESTIMATED AMOUNT OF ESTIMATED AMOUNT OF ACTUAL AMOUNT OF FLEXIBILITY USED** FLEXIBILITY THAT WILL BE USED FLEXIBILITY THAT WILL BE USED \$2,094,103 Unknown Unknown 3. Please explain how flexibility was used in the prior and/or current years. PRIOR YEAR **CURRENT YEAR EXPLAIN ACTUAL USE EXPLAIN PLANNED USE** To adjust funding sources for PS and EE for various ITSD Flexibility will be used as necessary to optimize ITSD efficiencies and maintain appropriations. critical IT infrastructure for agencies.

ITSD needs to reduce the delivery time for deploying computer equipment to the customers who need it. Due to broken supply chains and difficulty getting equipment, users currently have to wait on needed equipment. Over the past few years the lead time on getting this equipment has consistently been no less than 6 weeks and, in some cases, up to 10 weeks. In cases that a user's equipment is no longer functional, a 6 week lead time results in significant productivity decreases. Having a consistent level of inventory to deploy is vital to keeping users able to perform the functions of their jobs. Improvements have been made to internal processes to address guicker deployment, but holding inventory will allow ITSD to respond to end user needs in 48 hours instead of 6 weeks.

This fund is a non-count revolving fund that will recoup the funds once equipment is deployed and billed to the appropriate funding source, which supports the user receiving the equipment. This request is for appropriation authority only to allow ITSD to procure and pay the vendor prior to deploying equipment on an as needed basis.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

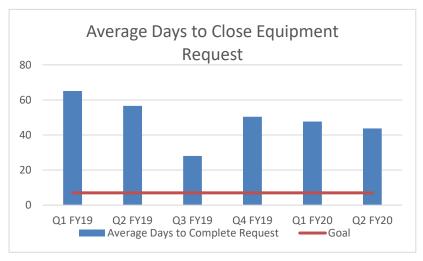

6a. Provide an activity measure(s) for the program.

Inventory Service Level:

ITSD has not started this inventory program so there are no starting inventory service level statistics but will measure the amount of stock required to avoid a stock-out scenarios and build ordering processes around this measure.

6c. Provide a measure(s) of the program's impact.

Average time to close equipment request tickets- time from request to equipment deployment.

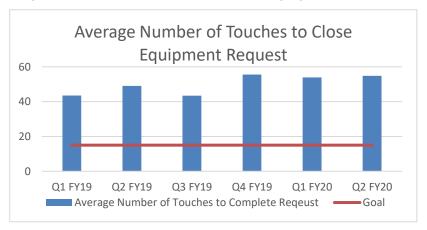

6b. Provide a measure(s) of the program's quality.

Stock- Out:

ITSD has not started this inventory program so there are no starting stock out statistics. We will be tracking the amount of times demand cannot be met due to the absence of required inventory. Goal is no more than 5% of requests fall into a stockout scenario in the first year.

6d. Provide a measure(s) of the program's efficiency.

Reduction in the number of touches to process an equipment request. Touches include when the customer is checking on the request which will be reduced with faster deployment.

* Data is not included for Q3 & Q4 of FY20 because COVID-19 response changed how equipment was being deployed in those months and is not representative of normal practices

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In 2020, the Missouri 9-1-1 Service Board entered a feasibility study to examine implementing Next Generation 9-1-1 (NG9-1-1) across the state. Among other improvements, NG9-1-1 requires robust, mature geographic information systems (GIS) data, submitted by counties and municipalities as their authoritative data set. GIS data is a framework for gathering, managing, and analyzing data based on location. Thus, this NDI is grounded in the theory of "build it once, use it many times." Counties are already tasked with submitting data to the 9-1-1 Service Board; we propose a State annual harvest of the collected GIS data, with the intent of hosting it in Missouri's established data clearinghouse for public and government use. To enable the State to take advantage of NG9-1-1 data, they require an Enterprise Agreement (EA) with an established industry leader and partner, Esri, additional server and/or cloud capacity and memory, and personnel in the GIS office to provide support and consulting services across the State to many more agencies. The data will be housed in the established GIS clearinghouse, Missouri Spatial Data Information Service at the University of Missouri.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Once the State has access to the data, several follow-on allotments are needed to ensure ample processing power and ability for the data analytics. These include additional onsite servers, analytic software for GIS data (Esri ArcGIS), and a reallocation of full-time employee (FTE) resources to the GIS department. Regarding software, the industry standard for GIS software is Esri ArcGIS, utilized in Missouri since the inception of the GIS program. Only ArcGIS has the ability to create complex maps or do geospatial querying and data manipulation, and they have been and continue to be Missouri's standard geospatial platform. Regarding the request for reallocated FTE's to the GIS department, it is imperative to note that access to data and processing power is for naught without personnel to support the additional capability, as the realization of this request will increase Missouri GIS users from a few hundred employees to a few thousand. Current staff are aligned with funding to support specific agency activities. Additional staff are necessary to expand presence of GIS software and data to be more readily available, accessible, and centralized and position the department to help government users understand what can be achieved. A total of five GIS Specialists and three GIS Solutions Engineers are requested, each providing specific support to expand the State presence of GIS. Regarding hardware, we intend to use the existing State solution for a GIS clearinghouse, requiring two terabytes of cloud data storage at the Missouri Spatial Data Information Service and seven additional on-site servers to process the incoming data.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

- Increase in Missouri census participation, which is measured through the State Demographer's office (including local update of Census addresses (LUCA), group quarters (GQ) review, and redistricting efforts)
- Increase in Missouri Spatial Data Information Service web traffic, which translates to increased data utilization by state agencies
- Increase in GIS-derived solutions hosted on Missouri sponsored websites

6b. Provide a measure(s) of the program's quality.

- Increase in federal funding as a result of LUCA and GQ review participation
- Development of a State geocoder for use by all government agencies supported by OA/ITSD/OGI
- Increase in federal program dollars in five Federal Medical Assistance Percentage (FMAP)-guided programs, bringing Missouri up from 8th in the nation in FMAP-based program fund loss (translating to \$76 million in lost program funds the last year it was counted [FY15])

6c. Provide a measure(s) of the program's impact.

- Consolidation of several disparate systems (including non-compatible geocoders) into a single program, giving unlimited access to data and software capability for data visualization and usability
- Internal and external customers and users benefit from easy to use, accessible applications to drive evidence-based, data-driven decision making and data analysis

6d. Provide a measure(s) of the program's efficiency.

- Customers have direct access to the data and software and additional personnel assigned to assist with analysis, enabling better research and resulting products
- Additional personnel and adequate software licenses will reduce the waiting time for project requests, including conversion from old Access databases
- Faster participation in Census requests, resulting in more time

1a. What strategic priority does this program address?

- Deliver the right stuff at the right price and at the right time
- Partner to innovate the way we work
- Use data and analytics to improve decision making and transparency

The Office of Cyber Security (OCS) addresses the digital threats to the State of Missouri's data and other resources.

1b. What does this program do?

• The Office of Cyber Security (OCS) addresses the digital threats to the State of Missouri's data and other resources to prevent data breaches. OCS is responsible for managing all information security related events within the enterprise and ensuring proper administrative and technical controls are implemented to safeguard the State of Missouri's information systems. OCS promotes and provides expertise in information security management for all state agencies and supports national and local homeland information security efforts.

Program Name Office of Cyber Security

Program is found in the following core budget(s): Information Technology Services Division

2a. Provide an activity measure(s) for the program.

OCS conducts regular end user education and periodic end user assessments by simulating phishing attacks. The goal is to make the end users aware of various social engineering attacks, with the result of reducing end user security risks. The chart above depicts the resulting ability of end users to identify an incident.

How it Works

The **BitSight Security Rating Platform** @ generates objective, quantitative measurements on a company's security performance to produce daily security ratings from 250 to 900. BitSight analyzes existing security incidents and practices and applies sophisticated algorithms to produce these ratings, which are based on externally observable, non-intrusive data and methods.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30613C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30609C which is now combined with this section beginning FY2021. DHEWD also now includes the division of workforce development which is the reason for the large appropriation increase. This amount was reduced from the DED IT Core.

^{*}Current Year restricted amount is as of _____.

The current manual process required for the submission, review, and posting of CORE 42 courses results in missed deadlines; missing, lost, or inaccurate data; loss of credibility in the department; and failure to meet the statutory requirements. The current manual tracking of courses from proposal to approval has a high probability of human error. State statute requires that institutions indicate in their course catalogs which courses are considered to be part of the CORE 42. Delays by 4-5 months create inaccuracies in institutions' catalogs, because the information is not received in time for their own timelines. Delays in publishing the yearly database of approved courses has caused extra work for our customers (academic advisors and registrars) and has meant that key information has been excluded from college catalogs. It negatively

affected students who did not have access to the most up-to-date information when making choices about course selection and transfer. This can be costly and cause graduation delays for students, as they may have to take additional courses they were unaware of. CORE 42 needs a secure portal for individuals to submit and review courses, a method of communicating both within the portal and externally, and the ability to generate reports both based on actions performed in the portal and on data stored in the portal. Automating CORE 42 will allow staff to be more efficient, course inconsistencies and errors will be minimized/eliminated, managing faculty discipline groups will be more organized, deadlines can be met, and communications between DHEWD and higher education institutions will be improved.

In 2016, Senate Bill 997 established the Higher Education Core Transfer Curriculum Act (Sections 178.785-789 RSMo), directing the Coordinating Board for Higher Education to develop a standard core transfer curriculum and a common course numbering equivalency matrix for lower-division general education courses. This project supports the processes to maintain, evaluate, and communicate the CORE 42 to the thousands of students, faculty, staff, administrators, high school counselors, parents, and other interested parties across the state. However, for each academic year, there are more than 500 new courses to be reviewed, and each course requires an application, attachments, posting to a dedicated review webpage, a review by multiple faculty members, a vote, storage and communication of the results of the review. Course reviews would be more transparent if information could be posted for stakeholders to monitor. The goal of the CORE 42 is to facilitate the seamless transfer of academic credits. DHEWD is currently managing the proposal and review of new CORE 42 MOTRs (Missouri Transfer number) and courses via email and Excel spreadsheets.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DHEWD worked with ITSD to develop a comprehensive business case that incorporated all costs and risks. For example, It is estimated that the new process will reduce staff time from 508 hours per year to 171 hours per year if the new system is created. The system helps reduce errors and promotes cost avoidance for students as they avoid taking unnecessary courses. This project will ensure students have access to the most accurate and up-to-date information. Delays in publishing the yearly database of approved courses has caused extra work for academic advisors and registrars and has meant that key information has been excluded from college catalogs. Institutional staff and administrators have been burdened by manual processes when DHEWD cannot produce the approved courses in a timely manner. The project is estimated at the cost of \$466,943.76 with five-year maintenance estimated at \$51,385.40, as the Enterprise Solution cost is unknown at this time. It is estimated that the new process will reduce staff time from 508 hours per year to 171 hours per year.

DHEWD would work with ITSD to implement the approved project business plan using a combination of state and contracted personnel resources. Automation of this process can create staff efficiencies, as it will relieve the burden of manual processing, will minimize errors, will assist with project organization, and timelines will be more easily met.

The deadlines to publish the yearly list of courses within the CORE 42 is based on the academic calendar and the participating schools' catalog, admissions, and advising schedules. While this deadline is not mandated, the department's failure to meet it causes a ripple effect that delays schedules for multiple stakeholders across the state.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30607C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

The Department of Revenue wishes to extend the maintenance contract for their DORA (Department of Revenue Answers) chatbot. The chatbot has been in operation since November of 2019, and has fielded 2.9 million inquiries, over the course of 842,000 unique conversations. The department is requesting \$600,000 to extend the contract. The estimated cost savings of having the bot answer general questions opposed to customers having to call in is \$2,774,000,

which equates to \$1,186,257 annually when taking into account the maintenance costs.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Department already has a vendor source contract that specifies the terms of maintenance support and associated terms for the contract. The \$600,000 requested is in response to the BAFO presented by the vendor. The Department expects the maintenance costs to increase at a rate of 5% percent per year, for each year following FY23.

6c. Provide a measure(s) of the program's impact.

Customer can access Chatbot DORA 24/7. We are no longer limited to assisting customers only during business hours.

6d. Provide a measure(s) of the program's efficiency.

On average there are 3 to 4 Chatbot inquiries per customer session. Using Chatbots can eliminate customers making several different phone calls for inquires across Taxation, Driver License and Motor Vehicle Division.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 or FY20. Financial history also combines expenditures from budget unit 30605C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

This funding will allow OA to provide this citical tool at an enterprise level. Keeping the costs to agencies utilizing the tool at a managable rate and giving access to all agencies. OA's ability to continue paying for the core Tableau costs will allow for more adoption and data driven decision across the State.

analytics created in Tableau. This supports our priority to become a data driven government, making the best decisions possible to support the citizens of Missouri.

In the spring of 2020 Tableau was selected as our enterprise analytics product. Our first priority with Tableau was to get all necessary COVID related dashboards in place to keep the citizens of Missouri informed with critical data related to public health, economic recovery and social impact. Moving forward, it is our goal to have all of our enterprise

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

\$2,209,400 is what is needed to cover all Tableau server core licenses and data management licenses.

The amount that was appropriated in FY22 for specific agencies is used to pay for the Creator licenses, Tableau premium vendor support and the storage and backup infrastructure needed to support the dashboards and data within the system.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30603C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30601C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

2. CORE DESCRIPTION

This core request is for funding for all IT expenditures specific to the Department of Economic Development (DED), including new IT hardware and software, hardware maintenance, annual software licensing, State Data Center and telecommunications/network charges, and application development.

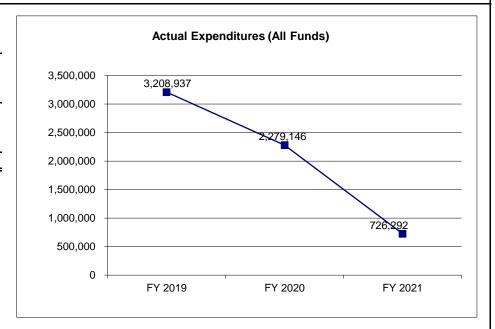

3. PROGRAM LISTING (list programs included in this core funding)

ITSD-DED

| Other | 815,476 | 723,348 | 931,390 | N/A |

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30599C which is now combined with this section beginning FY2021.

All GR supporting this section was erroneously changed to federal stimulus in FY22 budget cycle - there is a NDI request to accompany this core to get the GR back for DED.

^{*}Current Year restricted amount is as of _____.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The amount requested is to restore what was erroneously switched to stimulus funding. This includes all the GR for the ITSD-DED section which was intended to be approved in FY22.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30597C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of ______

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30594C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The DOLIR has estimated that completing the work related to these grants will require OA-ITSD staff performing the following functions: Business Analyst, Tester, and Infrastructure Support. In addition, OA ITSD staff will need to supervise and monitor work performed by contractors. DOLIR based these estimates on previous technology projects. The project is expected to operate between April 2022 and September 2023. Additional grant opportunities may arise during that time, which DOLIR and OA-ITSD will evaluate.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30592C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Public Safety, Office for Victims Crime (DPS-OVC), assigned to the Director's Office, administers the state's Crime Victims' Compensation Program (CVC) that includes the Sexual Assault Forensic Examination Program (SAFE) and the Child Physical Abuse Forensic Examination (CPAFE). CVC serves victims and families experiencing lifealtering, traumatic situations by providing financial assistance as a payor of last resort. Payments may include payment of bills for medical, behavioral health, funeral costs, lost wages and loss of support up to \$25,000/crime. CPAFE and SAFE are payors of first resort, per statute no victim shall be charged for a forensic examination. DPS-OVC is seeking to procure a system that will allow for the digital submission of applications and digital correspondence with victims of violent crimes and related service providers. This solution will allow for a quicker response from DPS-OVC, which will in turn provide quicker response times for victims, families and service providers. Currently, DPS-OVC receives applications for CVC/SAFE/CPAFE in paper format with substantial supporting documentation. CVC staff spend time manually entering the application into the current CVC system, manually scan the required supporting documentation, and are only able to correspond with victims, advocates and service providers via snail (paper) mail, email or phone.

OF

To check the status of a claim or application, victims, advocates and providers must call or email CVC to request information related to their application, claim or eligibility. This is an undue burden as it often requires victims to repeat their story. Further, due to the complexity of the internal processes accurate data collection is extremely difficult. Verifiable data is critical in maintaining and securing state and federal program funding. The solution DPS-OVC is seeking would not only improve the victim experience with CVC it would enhance the program accounting practices, reporting and accessibility to the program participants.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

In consultation with ITSD, the DPS-OVC completed significant research about what other states using for their programs, including off-shelf and customized systems available with the required functionality. The overarching theme was customization; as each state has identical federal reporting requirements their laws and statutes differ significantly. The research led to the Texas system. The functionality and components of the Texas system are nearly identical to the needs CVC. The Texas system was the best solution to meet the identified needs and requirements. The estimated implementation cost is \$1,068,707. Of this, \$1,008,707 is vendor cost to implement the new solution, and \$60,000 is the estimate for ITSD and DPS-OVC hours needed to assist with the implementation. It also has an estimated return on investment of \$358,750 - \$373,750 over a 5 year period, once the program goes live.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year. FY2019 & FY2020 financial history also combines expenditures from budget unit 30589C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30585C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30587C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30583C which is now combined with this section beginning FY2021.

^{*}Current Year restricted amount is as of _____.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: DEPARTMENT: Various Office of Administration **BUDGET UNIT NAME: ITSD Department IT Core HOUSE BILL SECTION: DIVISION:** 5.025 Information Technology Services Division 1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. **DEPARTMENT REQUEST** ITSD is requesting 25% flex between PS & EE within section 5.020 and 25% flex beween section 5.025 and section 5.020. This is the same level of flexibility that was approved in FY22. This flexibility is requested to help manage priorities for all consolidated agencies. ITSD serves departments with constatntly changing needs, which requires some flexibility of funding so that proper spending from the appropriations is maintained. It is critical for ITSD to retain key technical staff that continue to optimize the IT systems and maintain technical support so that E&E operating costs are contained and managed. This flexibility allows ITSD to provide services in the most efficient and reliable manner across departments. 2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount. **CURRENT YEAR BUDGET REQUEST PRIOR YEAR ESTIMATED AMOUNT OF ESTIMATED AMOUNT OF ACTUAL AMOUNT OF FLEXIBILITY USED** FLEXIBILITY THAT WILL BE USED FLEXIBILITY THAT WILL BE USED \$8,649,117 Unknown Unknown 3. Please explain how flexibility was used in the prior and/or current years. PRIOR YEAR **CURRENT YEAR EXPLAIN ACTUAL USE EXPLAIN PLANNED USE** Flexibility will be used as necessary to optimize ITSD efficiencies and maintain To adjust funding sources for PS and EE for various ITSD appropriations in order to optimize ITSD effiencies and maintain critical IT infrastructure for all agencies critical IT infrastructure for agencies.

Department Information Technology Services Division

HB Section(s): 5.020 & 5.025

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

1a. What strategic priority does this program address?

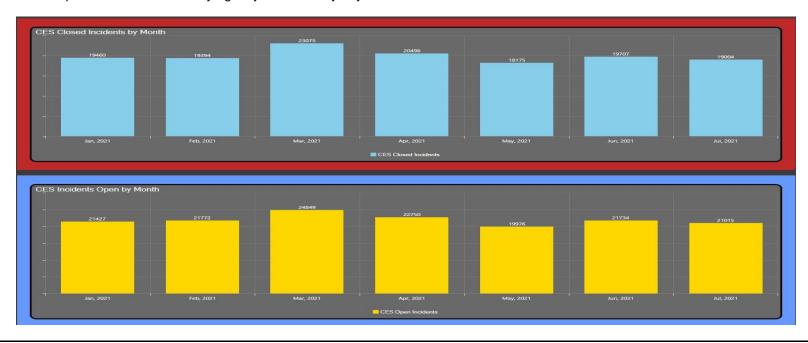

Partnering with State agencies to provide high quality business solutions

1b. What does this program do?

Client Engagement Services (CES) consists of a Call Center, Desktop Services, Inventory Control, Service Technicians, Priority Initiatives, and Virtual Services. CES provides customer service to 14 executive agencies, the Governor's Office and Lt. Governor's Office. CES provides a Call Center for support issues, installs computer equipment, troubleshoots technical issues, manages windows security/updates, installs software, runs reports, manages inventory for all ITSD equipment, 5 year refresh, ewaste of ITSD equipment, on call 24/7 for VIP issues, manages the virtual desktop environment, and RSA administrator for State team members across the state to allow them to provide vital services to Missouri citizens.

2a. Provide an activity measure(s) for the program.

ITSD works help desk tickets entered by agency clients every day.

Department Information Technology Services Division

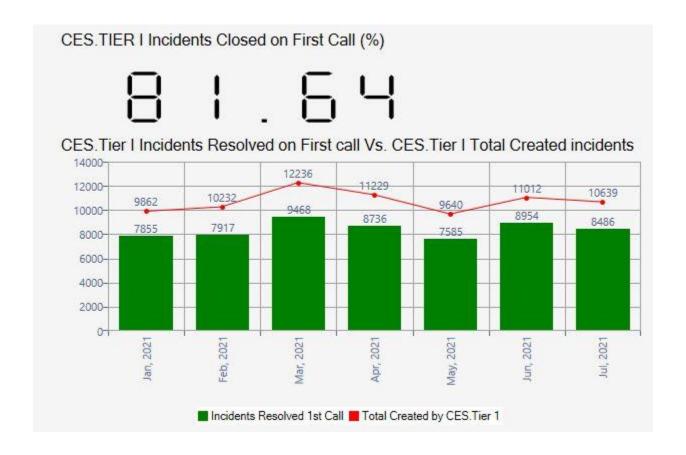

HB Section(s): 5.020 & 5.025

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

2b. Provide a measure(s) of the program's quality.

CES strives to resolve customer issues on the first call or contact with ITSD.

Department Information Technology Services Division

HB Section(s): 5.020 & 5.025

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

2c. Provide a measure(s) of the program's impact.

• ITSD seeks customer feedback on help desk tickets through a survey when each ticket is closed. This practice was implemented last with the new ITSD service portal tool. Rating scale is 1-5: 5- Extremely Satisfied, 4- Satisfied, 3- Neutral, 2- Dissatisfied 1- Extremely Dissatisfied

Department Information Technology Services Division

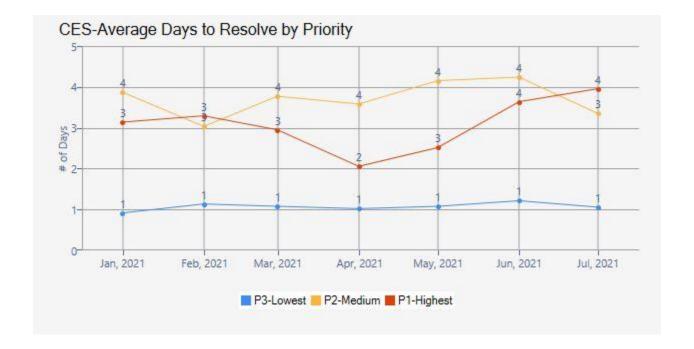

HB Section(s): 5.020 & 5.025

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

2d. Provide a measure(s) of the program's efficiency.

• Average time to close a help desk ticket is under 3 days for CES. Our goal is to close every ticket in less than 2.2 days, with a stretch goal to close every ticket in under 2.1 days consistently across fiscal years.

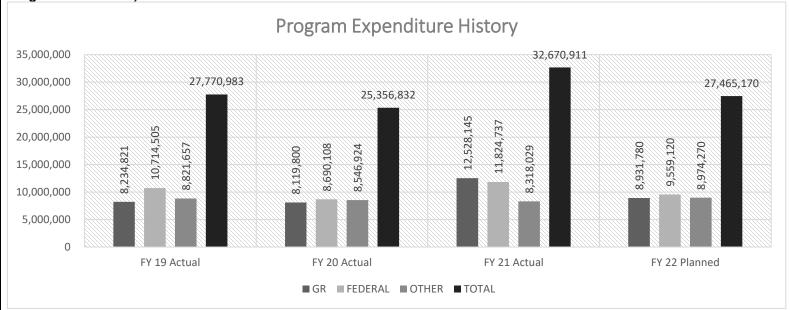

Department Information Technology Services Division

HB Section(s): 5.020 & 5.025

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

1a. What strategic priority does this program address?

- Deliver the right stuff at the right price and at the right time
- Partner to innovate the way we work
- Use data & analytics to improve decision-making and transparency

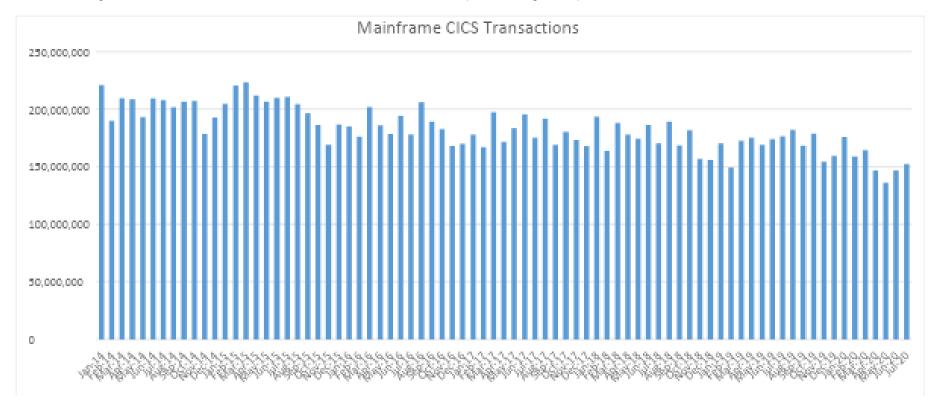

1b. What does this program do?

- Provide network and telecommunications services to both consolidated & non-consolidated state agencies. Services include local phone service, long distance, data circuits, internet access, wireless services, managed network, video conferencing, WebEx meeting services, and other communications services. Other services include Call Center, Digital Signage and collaboration tools such as Jabber and Spark.
- Provide compute and storage infrastructure services to both consolidated & non-consolidated state agencies. Services include mainframe, midrange, and open system servers (Windows and Linux servers), data protection services, data center infrastructure services, database services, storage services, application platforms for web and general applications, electronic content and document services, and Backup and Recovery services for Application Processes, Applications themselves, Databases and file structure customized to meet business requirements. Additionally, maintenance and upgrades on the compute and storage infrastructure is provided. A Network Operations Center (NOC) serves as 24x7 operations and problem reporting center that monitors the availability of network and infrastructure services as well as a reporting center for after hour issues experienced by customers.

2a. Provide an activity measure(s) for the program.

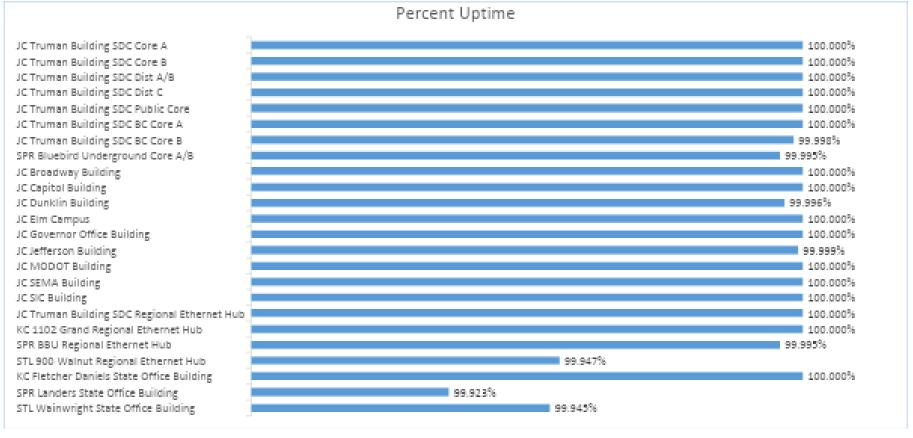

• CICS (Customer Information Control System) is one of the major sub-systems running on the Enterprise Server (Mainframe). It is an application server that processes transactions to provide services for running mixed-language programs and manages a large volume of submitted requests to run the same applications, using the same files and programs. CICS manages the sharing of resources, the integrity of data and prioritization of execution, with fast response times as well as providing high availability and scalability at a low cost per transaction. CICS authorizes users, allocates resources, and passes on database requests by the application to the appropriate database manager. The chart below shows the number of monthly CICS transactions executed indicating the level of reliance of this service to deliver critical services (for some agencies).

2b. Provide a measure(s) of the program's quality.

• Core network availability is critical to the enterprise operations of all consolidated and non-consolidated agencies. The core network consists of larger network devices capable of large bandwidth loads and placed in strategic locations throughout the state. Uptime is measured by data transfer continuity. This is monitored primarily by the Orion Network Monitoring system. The goal for core network uptime is 99.995% (this allows for equipment replacement and upgrades). We are currently at 99.992% for timeframe 9/1/2019 – 8/31/2020. The data for KC, STL, and Springfield State office buildings includes telco provider outages.

2c. Provide a measure(s) of the program's impact.

Wireless access is becoming a more common and essential service each year. ITSD/Networking has been expanding the Wireless footprint throughout the state via requests and initiatives led by State agencies. Wireless access use cases range from electronic medication distribution in care facilities to mobile staff device use. The wireless access points (APs) will present at least three network IDs: mo.gov (the State's private internal network, same as the wired network), mo.gov.guest (internet connectivity for guests conducting business with the State) and mo.gov.devices (IoT – Internet of Things devices that need access to the State's network and/or internet).

PROGRAM DESCRIPTION Department Office of Administration Program Name State Data Center, Network and Telecommunication Program is found in the following core budget(s): Information Technology Services Division HB Section(s): 05.020 & 05.025 HB Section(s): 05.020 & 05.025

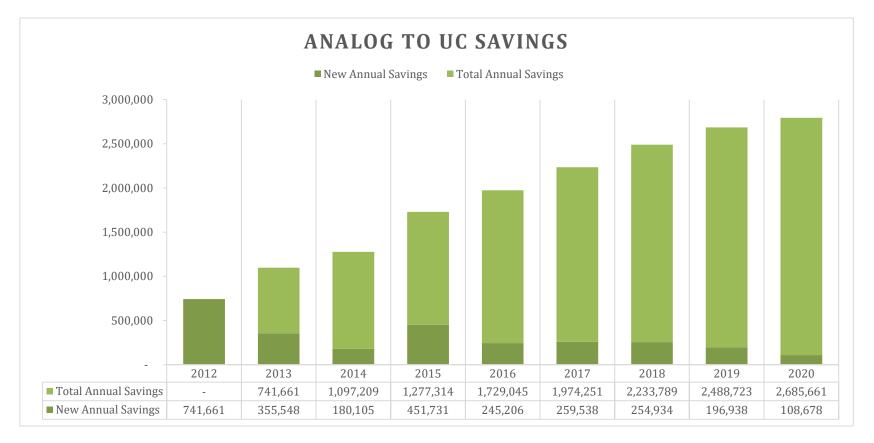

• The Network Operation Center (NOC) has been created to provide an effective enterprise incident management and communication process. The NOC is the hub for all IT internal and external communications for all IT incidents, status updates and incident reporting. The purpose of the NOC is to provide a central location (command and control) for all IT staff to communicate and coordinate production incidents. The NOC will receive an alert, assess impact, assign classification, alert appropriate personnel, establish communication channels, document, and provide incident reports and status updates.

2d. Provide a measure(s) of the program's efficiency.

• Analog phone lines are being phased out throughout the country. Large phone companies are installing fiber circuits to allow more traffic and greater control in routing those calls. Support costs for the analog lines are therefore increasing each year. ITSD/Networking-Telecom has been working with agencies to convert these lines to digital circuits for several years. Phone lines are being converted to UC (VoIP) and fax lines are being converted to the state's enterprise eFax server Biscom. These conversions have lowered costs for the circuits, reduced long distance costs and made faxing more secure. The goal is to convert a minimum of 1,200 lines per year. 590 were converted in 2020 with a slow down due to COVID. The average cost of an analog line is \$27.46/month. The cost of a UC phone line is \$12.11/month. The graph below shows new annual savings as a piece of the total annual savings through 2020.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (*Note: Amounts do not include fringe benefit costs.*)

4. What are the sources of the "Other" funds?

Various Sources- ITSD supports 14 executive agencies as well as the Governor and Lt. Governor

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

37.005.8 RSMo & 37.110 RSMo

6. Are there federal matching requirements? If yes, please explain.

No

7. Is this a federally mandated program? If yes, please explain.

No

2. CORE DESCRIPTION

Under Chapter 34, RSMo, OA is responsible for the procurement of supplies, equipment, and services for state departments. OA is currently implementing a statewide eProcurement system. New statewide contracts now include language that requires a one percent administrative fee on all transactions under those contracts. Contractors are required to report transaction totals for the given quarter and submit a check/electronic payment to the State of Missouri. This practice is consistent with the other states which have implemented e-procurement systems. The revenue generated by the one percent fee is to be deposited into its own fund to improve transparency and tracking. The revenue collected into this fund will be used for licensing, maintenance, support and activities related to the eProcurement system.

2. CORE DESCRIPTION

This funding is necessary to replace SAM II, the State's legacy Enterprise Resource Planning (ERP) system that was implemented in 2000.

The system is critical and supportive to all segments of State government. All payments from the State Treasury touch SAMII. Critical components with statewide impact include: Employee payroll processing, vendor payment processing, statewide budgeting, budget and cash controls, annual tax reporting (W2s and 1099s) capital asset tracking, data warehouse capabilities, and federal grant tracking. SAM II is written in COBOL, the staff with knowledge to support the system are dwindling both at the State and at the Contractor. Few changes are possible with the exception of required annual patches to produce year-end tax forms. Maintenance payments are increasing annually while the support is continuing to decline from the Contractor as their knowledgeable retire. The risk of key State staff retiring continues to increase. It is possible that the legacy system will not be able to be certified with each new

This funding is necessary to replace SAM II, the State's legacy Enterprise Resource Planning (ERP) system that was implemented in 2000. The system is critical and supportive to all segments of State government. All payments from the State Treasury touch SAMII. Critical components with statewide impact include: Employee payroll processing, vendor payment processing, statewide budgeting, budget and cash controls, annual tax reporting (W2s and 1099s) capital asset tracking, data warehouse capabilities, and federal grant tracking. A new ERP is critical to support basic data analysis and fact-based decision making on topics such as workforce strategy, program budgeting, and procurement. Our current SAM II system poses a significant operational risk to the functioning of the government. SAM II is written in COBOL, the staff with knowledge to support the system are dwindling both at the State and at the Contractor. Few changes are possible with the exception of required annual patches to produce yearend tax forms. Maintenance payments are increasing annually while the support is continuing to decline from the Contractor as their knowledgeable retire. The risk of key State staff retiring continues to increase. Coding techniques have changed and there are components of the core modules that can only be assembled in a compiler that is 2 versions behind today's standard.

This adds significant future risk of not being able to essentially modify this code even if statutory or other necessary changes are required. SAM II is a critical enterprise-wide system for bonds, vendors, payroll and payment controls.

The ERP software is currently in the review of bid proposals procurement stage, but it is anticipated that the implementation design and configuration will begin in FY2023. During this phase of the project, there will be additional costs for a contracted project management team and independent verification and validation services.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The contract for the ERP replacement software is expected to be awarded around January 2022. The contract with a consultant to implement the software is expected to be awarded in the spring of 2022. Estimates of the cost of the software, implementation services and independent validation and verification oversight are expected to be approximately \$26 million in FY23. Implementation of the new Budget module is estimated to begin July 2022, with a 13 month planned implementation timeframe. The Finance/Procurement/Grants/Cash Management/Asset Management modules are estimated to begin July 2022 with a 24 month estimated implementation timeframe. It is anticipated that the RFP for the system Implementor will be sent out in late 2021 with selection in the spring of 2022. Given that we have not received bid responses with cost figures specific to the state's size and scope of project, we are estimating the cost for FY2023 based on other state ERP projects of similar size and scope. Additional funding of \$5-10 million will likely be needed in FY24 as that is estimated to be the peak cost year for the project.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an effectiveness measure.

The goal with a new system is real-time information for management of cash balances, journals and ledgers. A table-driven system would allow documents, events and business rules to be easily customized for journal postings, document cloning, security and workflow.

The new system could encompass grants management capabilities, allowing some agencies to retire other systems in order to use a single system. More than four disparate systems exist, while some agencies use Microsoft Access and Excel for tracking. A new system will also provide performance budgeting capabilities, and allow the capture of justification, goals, objectives, performance measures, and dashboard features.

6b. Provide an efficiency measure.

SaaS is a web-based architecture that would eliminate the need to support the desktop software version. This system will be vendor supported, which would allow ITSD to redirect the five current COBOL developers to modernization of other legacy systems supported by ITSD. Technology risks could be mitigated by increased security.

A new, robust system could eliminate agency specific systems for grants management, more detailed budgeting, etc. Based on information provided by other agencies, a new system could result in cost avoidance of over \$10 million for new or replacement of disparate systems for tracking grants, training, timekeeping, employment applications, inventory, professional development, etc.

6b. Provide an efficiency measure.

^{*} Due to the current vendor maximizing allowable increases on the contract, the State discontinued vendor maintenance for the budgeting module of SAMII (BRASS) in 2017. This eliminated \$161K in support costs and if this had not been done, the vendor maintenance for FY2017 would have exceeded \$800K. The State must continue paying vendor maintenance for the other portions of the ERP system due to annual system updates to vital tax information.

6c. Provide the number of clients/individuals served, if applicable.

SAM II has 2900 financial users, 1653 HR users and processes payroll statewide. Additionally, our vendor community is tied to SAM II as well as Missouri BUYS.

6d. Provide a customer satisfaction measure, if available.

Customer satisfaction would primarily come from the end-users of the system. We do not have a metric at this time, but would perform a survey after migration to the new system. System implementation goals would include a seamless transition for vendors and state employees who receive payments from the State's ERP.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Finish selecting professionals to assist the State, and start the implementation phase of the project.

1a. What strategic priority does this program address?

- Deliver the right stuff at the right price and at the right time
- Use data and analytics to improve decision-making and transparency
- Partner to innovate the way we work

1b. What does this program do?

ITSD Application Delivery is automating business processes to help state agencies fulfill their mission by:

- o Delivering processes efficiently and securely while ensuring accessibility and ease of use to our citizens.
- o Providing guidance to agencies when purchasing software to ensure that standards for secure, accessible and user-friendly applications are delivered.
- o Creating standards for development so that ITSD delivers consistent, quality applications and responds quickly to business needs.

Program Name Application Delivery

Program is found in the following core budget(s): Information Technology Services Division

2a. Provide an activity measure(s) for the program.

• ITSD Application Development teams develop, modernize, and maintain applications for state agencies. These applications are for both our internal digital services at the State as well as external digital services for our citizens.

Program Name Application Delivery

Program is found in the following core budget(s): Information Technology Services Division

2b. Provide a measure(s) of the program's quality.

• ITSD conducts a survey after the completion of each project. Overall scores are averaged for each quarter. The scale is from 1 to 4 with 4 being the highest. Our projects were an area identified that need improvement. We have developed an impactful training program for both IT and our business partners to address this needed improvement. This program started in the fall of 2019 and we are starting to see the positive results.

• Security Scans are conducted at least quarterly for an application. Our targets are higher than industry security standard recommendations. This chart depicts our average security score each calendar quarter as well as the recommend target score for a low impact and high impact application. Impact is based on the business criticality of the application. The goal is to remain above 90 for our average scores regardless of impact.

2d. Provide a measure(s) of the program's efficiency.

• ITSD scans applications to address any potential cyber security vulnerabilities. The chart below shows how often the very first scan of an application is passing. When an application passes the first scan, there is no rework that must be done to comply with our security standards. The practice of scanning applications and training developers on mitigating cyber security risks keeps citizen data as secure as possible from the inception of an application. Applications are routinely scanned to ensure any new threats are addressed timely.

2. CORE DESCRIPTION

Department: Office of Administration

The Division of Personnel is transforming the State of Missouri's talent management approach to better serve the citizens of Missouri. We are committed to recruiting, retaining and developing top talent across the State's ~50,000 employee enterprise. The division oversees personnel policies that impact State of Missouri workforce including the Uniform Classification and Pay (UCP) System. In collaboration with Human Resources professionals from each of the 16 executive departments, the division develops and carries out initiatives designed to benefit state team members.

The Division of Personnel also:

- Ensures employees are assigned to appropriate job classes and develops and administers the statewide classifications and compensation plan for agencies covered by the UCP.
- · Provides consistent talent management metrics for statewide decision making. This includes acquisition, retention and development data; pay, leave and reporting information on the UCP system pay plan; interprets policies on pay, leave and hours of work; provides workforce reports and assistance with the SAM II HR/Payroll System; and ensures personnel transactions are in compliance with state personnel law.
- · Facilitates technological systems and programs for performance management and professional development; administers statewide recognition programs; and coordinates employee discount programs.
- · Provides human resource support for the Office of Administration.
- · Provides leadership and innovation for activities regarding Talent Acquisition of new team members. This includes technology to support hiring processes through our applicant tracking system, MoCareers. Initiatives also include direction around best-in-class recruiting approaches and new employee onboarding. Finally, the Division of Personnel state operators provide responses to questions from the general public.

2a. Provide an activity measure(s) for the program.

Attracting more applicants increases the candidate pool from which to select new hires. It is also an indication of how many users we are driving to the applicant tracking system. Pipeline requisitions are a tool used to keep constantly open positions visible at all times without having to repost; they are excluded from this measure. *Fiscal year 2020 data is for a partial year. MOCareers launched January 1, 2020; no prior year data is available.

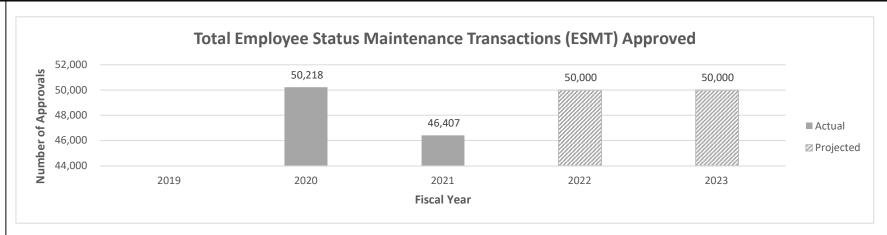

The Statewide new employee onboarding survey launched July 1, 2020. This optional survey is distributed to new team members when they reach certain key milestones in their employement (30, 90, 180 and 365 days). The data help target specific improvements in the hiring and onboarding process to ensure that all team members feel part of the team and have the tools they need to be successful in their role.

2b. Provide a measure(s) of the program's quality.

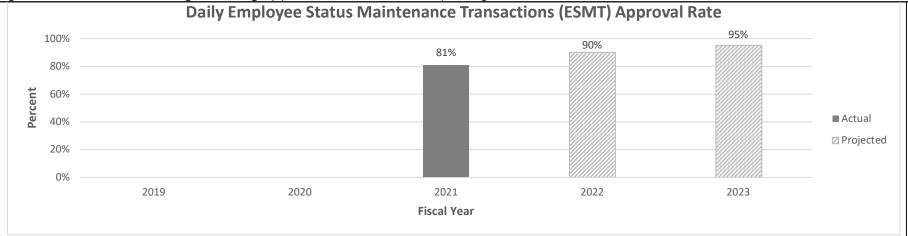

MOCareers, the States centralized application platform, has reduced the overall time needed to fill open positions across the state. This is accomplished by replacing individual agency application processes into one platform, streamlining steps, emphasizing key metrics and improving the job seeker experience. A hnadful of agencies outisde of the executive branch joined MOCareers in Fiscal Year 2021. The goal is for 99% of candidates to be hired through MOCareers. *Fiscal Year 2021 data is for a partial year, because MOCareers launched in January 2020.

The statewide new employee onboarding survey launched July 1, 2020. This is a short survey that is sent to new employees at 30, 90, 180 and 365 days in their new position; participation is optional. Agencies have access to a dashboard that allows them to review their agency information, drilling down to division level. With this information, agencies can consider enhancements to their onboarding program that improves the new employee experience.

MoCareers, the State's centralized application platform, has reduced the overall time to fill open positions across the state by replacing 16 different sites and application tools that were previously in use. It has also enabled statewide recruitment and hiring reporting that previously did not exist. This best in class platform was the recipient of two national awards in it's first year of existence. First, MoCareers received the 2020 Government Experience Award from the Center for Digital Government. This award recognizes examples of increased efficiency and the overall experience in government. Secondly, MoCareers won the State IT Innovation of the Year from StateScoop which honors outstanding achievements in the government IT community and public service.

LinkedIn Recruitment, the only technology of it's kind, compliments MoCareers in that it helps find, engage with, manage, and hire a diverse pool of candidates. LinkedIn Recruitment puts State of Missouri openings in front of candidates who may have never considered a job in Missouri or state government. This system also allows recruiters to search for unique skill sets and target potential hires. Together, these platforms save departments outreach, branding, and marketing costs associated with hiring new team members. Prior to this statewide contract there was little to no coordinated social media recruiting.

LinkedIn Learning (MoLearning) offers over 7,000 high quality courses to all State of Missouri team members, on-demand, 24/7. This platform enables departments to streamline their curriculum into learning paths targeted at specific groups of team members. In addition, the ability to upload custom content has decreased travel costs associated with in person training. Individual department costs would total over \$680,000 annually.

Qualtrics is a survey and analytics platform originally procured to support ENGAGE 2.0, the State's talent development and management program. Over the past year the use of this tool has been expanded to execute and analyze Quarterly Pulse Surveys, new onboarding and exit surveys, and dozens of other employee engagement surveys across departments.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The requested amount is an estimate based on the contracted amounts of each platform. Additional costs may result when contracts are renewed for LinkedIn Learning and Qualtrics in FY23.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

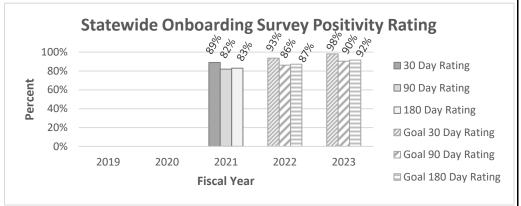

6a. Provide an activity measure(s) for the program.

*Fiscal year 2020 data is for a partial year. MoCareers launched January 1, 2020; no prior year data is available.

6b. Provide a measure(s) of the program's quality.

The statewide onboarding survey launched July 1, 2020. This is an optional survey distributed to newly hired team members when they reach certain key milestones in their employement (30, 90, 180 and 365 days). The data help to target specific improvements in the hiring and onboarding process to ensure that all team members feel valued, part of the team and have the tools they need to be successful in the role at the State.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

The above performance targets will be achieved through the work of the Division of Personnel encouraging and supporting these talent technologies across the State. The Division of Personnel prides itself on our expertise in the areas of talent acquisition, talent management and talent development. These technologies enable our subject matter experts to provide excellent customer service support to our sister agencies. The result of this work is increased efficiency and overall improvement in services for the citizens of Missouri.

With the passage of HB 381 in 2009, section 136.055 RSMo was modified to require the Director of Revenue to "award fee office contracts under this section through a competitive bidding process" in place of the historical appointment of fee agents by the director of revenue. Since 2009 the Division of Purchasing has conducted the competitive bidding processes for each of the 170+ fee offices on behalf of the Department of Revenue in accordance with Chapter 34, RSMo without any additional FTE or E&E. Instead, the Division of Purchasing has attempted to absorb this significant workload without requesting the resources actually needed to manage this volume of additional bids and resulting contracts. The workload volume and unique challenges of managing the license office procurements and contracts continue to significantly hinder the Division of Purchasing's ability to complete procurements for the other state agencies in a timely manner. The license office procurements are protested by the losing vendor(s) at a substantially higher frequency than other procurements and sometimes litigated which has had a compounding, detrimental impact to Purchasing's workload and turnaround times.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Division of Purchasing is requesting three (3) FTE (one Procurement Supervisor and two Procurement Analysts) to manage the bidding and contract management of the fee office procurements throughout the state. This request also includes E&E costs for computer equipment and furniture for the three requested staff. In order to be able to realistically support competitively bidding of the 170 + fee offices throughout the state, the Division of Purchasing requires additional support of three FTE: (1) one Procurement Supervisor to oversee and manage the procurement of the fee office bids including any necessary contract management functions and (2) two Procurement Analysts to conduct the day-to-day functions of competitively bidding the fee offices. When the Division of Purchasing began bidding the fee offices, no additional FTE were provided to the Division to support the task. The Division of Purchasing has approximately 12 years of experience bidding these offices and has had to routinely divert the equivalent of two FTE's and one manager to support the workload associated with the fee offices. This will allow other staff in the Division to conduct bids for other state agencies in a more timely manner. The resources required to implement the outsourcing of fee offices in 2009 have never been provided. For this large volume of competitive bidding processes to be conducted and for resulting contracts to be managed, proportionate procurement resources must be provided as the timeliness of other procurements is currently being jeopardized by resource needs of the License Office bids and contracts. In FY21 license offices represented 8% of our contracts but 50% of our protests.

5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

^{*}These amendments were needed to extend existing contracts while a pilot using the new version of the RFP was used. Upon completion of the pilot most of the 170 contracts will require a new procurement process in the current and upcoming fiscal year.

2. CORE DESCRIPTION

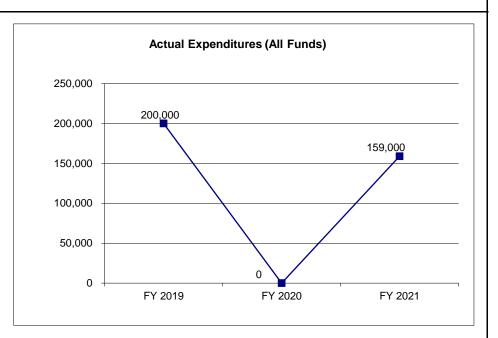

The core request is for funding to promptly refund the vendor's bid or performance security that was deposited into the State Treasury during the procurement process. Checks are received from vendors as bid or performance security and deposited into the State Treasury. Interest earned on these deposits goes directly into General Revenue. After the bids are awarded or the contractor has performed, these deposits must be promptly refunded to the vendor or contractor. These are refundable deposits and not payments to the State.

2. CORE DESCRIPTION

The mission of the Division of Facilities Management, Design and Construction (FMDC) is to provide a superior workplace environment for state occupants and their visitors and protect the state's investments in property assets. FMDC strives to provide agencies with the information and resources that will support their development of high-performance workplaces -- workplaces that will meet agencies' business needs and can be readily adapted to changing workplace practices and strategies. The aspiration of FMDC is to deliver best-in-class capital solutions. FMDC is comprised of the following units:

Facility Operations Unit

- Provides for complete building operations including maintenance, grounds keeping, security, housekeeping, conferencing, and special events for public and private tenants in state-owned facilities and oversight of contracted facility services in leased facilities.
- Provides maintenance management and grounds keeping services for institutional facilities of the Department of Elementary and Secondary Education, Department of Mental Health, Department of Social Services, and the Department of Public Safety's MO State Highway Patrol.
- Provides monitoring of energy consumption in state facilities and develops and implements programs to help reduce energy consumption in stat facilities. Coordinates with SEMA during disaster response and recovery efforts.

1a. What strategic priority does this program address?

Provides highly functional buildings and facilities for state department programs to work in.

1b. What does this program do?

The mission of the Division of Facilities Management, Design and Construction (FMDC) is to provide superior workplace environments for state occupants and their visitors and to protect the State's investments in property assets. This mission is carried out by the various units that make up FMDC. These include:

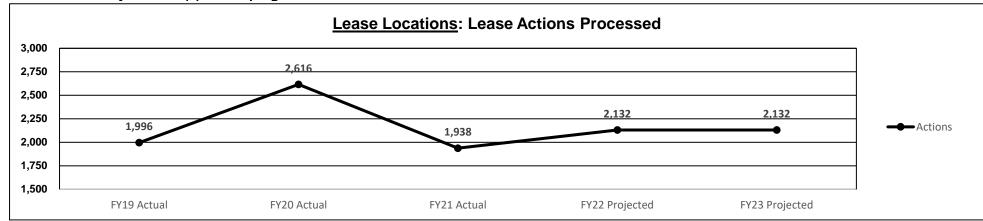

- The FMDC Budget and Accounting unit oversees the preparation of FMDC's operating budgets for building operations and FMDC's capital improvement budgets for design and construction projects. The unit processes payments to contractors and designers for the Capital Improvements program and for leased property for Office Space Planning program.
- The Operations unit which maintains and manages state-owned office buildings and other structures in the Capitol complex and other locations within the state. They also maintain buildings for the Department of Elementary and Secondary Education, Mental Health, Division of Youth Services and the Missouri State Highway Patrol. The unit also operates state office buildings in St. Joseph, Kansas City, Springfield and St. Louis. This unit also provides technical services such as energy management and occupational safety.
- The Administrative unit provides general office management, oversight of contract execution and oversight of FMDC's operational excellence program.
- The Office Space Planning Program coordinates the allocation of office space and the design of small office space renovations as well as real estate transactions on behalf of the state to include conveyance of state-owned property, purchase of property and granting easements.
- The Planning, Design and Construction unit (PD&C) is responsible for the Capital Improvements budget, which includes the maintenance and repair construction budget and the new construction budget. In addition, it reports annually on the condition of all assets in a comprehensive database. Review of all requests for appropriations for capital improvements also falls under the responsibilities of this unit.

2. CORE DESCRIPTION

This core represents revolving fund authority that allows the Division of Facilities Management, Design and Construction (FMDC) to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications, tenant services that support agency programs, replacement, and repair costs, and other support services at state facilities when recovery is obtained from a third party. FMDC bills agencies for such costs via the interagency billing process.

This pass through appropriation gives FMDC the ability to effectively manage facilities, modification projects and other services by establishing a mechanism to make up-front purchases for materials without reducing appropriation authority for facility operating purposes. FMDC also makes up-front payments for other extraordinary services agencies may require that would otherwise place an unreasonable burden on the regular operating budget of the facility.
