## **Department Overview**

### **Mission:**

Improving Lives for Safer Communities

### **Vision:**

Create a Standard of Corrections Excellence for a Safer Missouri

### **Values:**

We Value Safer Work Environments, Improving the Workforce and Reducing Risk and Recidivism

We value our employees and respecting others.

We value integrity and teamwork.

We value supportive leadership.

We value the participation of all.

The Department of Corrections is an agency dedicated to public safety through the successful management and supervision of offenders in prison and on probation or parole. The department's responsibility is to administer the sentence set by the court in ways that promote public safety at the lowest cost. Offenders assigned to the department are managed by ensuring they are supervised at the appropriate custody or supervision level. A cadre of thousands of trained correctional professionals committed to the vision, mission, and values of the department assess each offender's criminal history, evaluate community and institutional conduct and enforce court orders and department rules. This mixture of on-going assessment, classification, referral to supervision strategies and assignment to basic habilitation interventions are several of the key methods used to promote sober, responsible, productive and law-abiding behavior. When offenders are held accountable for their actions, the public's safety is enhanced.

In all, the department is responsible for the care, custody and supervision of more than 80,000 adult offenders in Missouri. There are currently more than 23,000 adult felons confined in Missouri's correctional facilities and over 58,000 probationers and parolees across the state.

The Department is composed of four divisions and the Office of the Director.

The Office of the Director coordinates the internal activities of all the divisions as well as with all external stakeholders such as the press, public and elected officials. The Office of the Director contains the Budget and Finance Unit; the Research, Planning and Process Improvement Unit; Victim Services Unit; Office of the General Counsel; Public Information Office/Constituent Services; and Legislative Services. The Office of Professional Standards, which reports directly to the department's director, is also within the Office of the Director. It is charged with examining department operations as it relates to employee conduct and professionalism.

The Division of Human Services (DHS) functions as the administrative division for the Department and contains the following support services: Personnel Office, to include recruitment; Staff Training Office; General Services Section, which includes food service, construction, and facilities repair and maintenance; Procedures and Forms Management Unit; and Employee Health, Wellness and Safety Section.

The Division of Adult Institutions (DAI) operates 20 adult correctional facilities (includes one decommissioned facility), which are responsible for ensuring offenders sentenced to the Department's custody are confined in a safe, secure and humane manner and have access to programs and services to assist them in becoming productive citizens. The Division also operates the Central Transfer Authority, which is responsible for approving offender transfers between institutions and scheduling treatment beds; the Central Transportation Unit, which is primarily responsible for the return of parole violators from across the state and country; the Offender Grievance Unit, which is responsible for processing offender grievance appeals; and the Security Intelligence Unit, which is responsible for the oversight of divisional and department-wide security issues and emergency management.

The Division of Offender Rehabilitative Services (DORS) provides programming and services to assist offenders in becoming productive citizens upon release from prison. Such programs include Reception and Diagnostic Center Assessment, Adult Education, Reentry Services, Substance Use and Recovery Services, Offender and Staff Drug Testing, Offender Health Care (Medical and Mental Health), Specialized Mental Health Units, Sexual Offender Assessment and Treatment, Mental Health Offender Assessment and Treatment, Work-based Education and the Missouri Vocational Enterprises.

The Division of Probation and Parole operates over 70 district, satellite and sub-offices, 19 institutional parole offices, six Community Supervision Centers and two Transition Centers in order to supervise offenders sentenced to a term of probation by the courts or released from incarceration on parole or conditional release by the Parole Board. It monitors offenders through direct supervision, which may include the use of Electronic Monitoring and Residential Facilities. The agency also uses supervision strategies including community-based substance use and mental health treatment services for offenders.

We expect roughly 25% of offenders in specialty mental health programs to return to general population in any given year. The population in specialty mental health was 190 on June 30, 2019. Mental health unit data should be fairly consistent year to year since available beds won't change.

**1a. What strategic priority does this program address?**

Improving the Workforce; Safer Work Environment; Reducing Risk and Recidivism

**1b. What does this program do?**

The Office of the Director provides direction and guidance to the department's divisions and professional workforce to plan, implement and operate the activities necessary to fulfill the goals and objectives of the Strategic Plan. This includes:

- Consultation and coordination with the Executive, Legislative and Judicial branches of state government
- Continued development of responsive and reciprocal relationships with local governments and community organizations
- Communication and interaction with the department's constituencies including employees, victims, offenders, offender families and the public

Functions include: Strategic Planning; overall direction and vision of the department; oversight of the four divisions; oversight of The Office of Professional Standards, General Counsel, Budget and Finance Office, Research, Planning and Process Improvement, Victim Services Unit, Public Information Office, and Constituent Services Office; and oversees statewide training for all employees and any outreach to employees who feel they have been subjected to discrimination, harassment, retaliation or unprofessional conduct.

The Office of the Director also oversees the Puppies For Parole Program, which creates partnerships between participating correctional facilities and local community animal shelters at no cost to the department or the state.

The Office of the Director is responsible for providing oversight to the contract, which supports mentoring services offered through the AMACHI Program developed by the Big Brothers/Big Sisters organization. All incarcerated offenders are eligible to refer their children to this program to address issues they may face during their parent's incarceration. The AMACHI Program provides a mentor for the child during their parent's incarceration and evaluates attendance at school, behavioral issues and school grades. In addition to these services, reentry issues are also addressed to prepare the parent and child for reunification.

The department's Victims Services Unit has one position funded through the state Crime Victim's Compensation Fund (CVCF). The CVCF provides financial assistance to eligible crime victims/family members who have suffered harm as a result of violent crime. In the case of death, the CVCF may help the victim's dependents. The CVCF is designed to assist victims/family members of violent crimes through a period of financial hardship as a payer of last resort. A portion of funding for the program comes from court costs assessed in criminal prosecutions and is deposited in the CVCF. Revenues for the fund come from a surcharge of seven dollars and fifty cents assessed as costs in each court proceeding filed in any court in the state in all criminal cases including violations of any county ordinance or any violation of criminal or traffic laws of the state.

<b>Division:</b> Office of the Director	
<b>DI Name:</b> Victim Services Officer Fund Switch <b>DI#</b> 1931009	<b>HB Section</b> <u>09.005</u>

The fund balance of the CVCF has been steadily decreasing and revenues have gone down by 25% over the last five years. This is due to decreases in court fees received, recent program changes that expanded eligibility, and more claims due to rising crime that have significantly reduced the fund's ability to support all of the appropriations against it.

In order to preserve the fund for it's central mission, the department is requesting a fund switch to change the funding of the department's Victims Services Unit FTE to General Revenue. The department has requested a reduction of the core CVCF authority.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? **1b. What does this program do?**

Maintaining a work environment that fosters mutual respect and working relationships free from discrimination, harassment, retaliation, and unprofessional conduct is crucial to performing the mission of the Missouri Department of Corrections. The Office of Professional Standards, which reports directly to the department's director, is charged with examining department operations as it relates to employee conduct and professionalism and the department's compliance with the Prison Rape Elimination Act (PREA). This is accomplished through three units within the Office of Professional Standards known as the Civil Rights Unit, Employee Conduct Unit, and PREA Unit.

- The Civil Rights Unit conducts all investigations into allegations of discrimination, harassment, retaliation, and unprofessional conduct.
- The Employee Conduct Unit conducts all investigations into employee violations of policy and procedure, which may include but are not limited to, theft, over-familiarity between an employee and an offender, contraband, and accessing of confidential records. Law enforcement may assist in certain investigations and cases. The unit also assists in investigations into unexpected offender deaths, suicides, and potential homicides.

The department utilizes federal grants to assist in the following areas:

- Special Education
- Carl Perkins grants

- Victims of Crime Act (VOCA) funds
- Second Chance Act Reentry grants
- Residential Substance Abuse Treatment Program (RSAT)
- and other grants that may become available.

This request also provides spending authority to accept cash donations for the Puppies for Parole (P4P) program within the state’s correctional centers. Offenders within the institutions train dogs from local animal shelters to improve the dog’s adoptability within the local community. The P4P program creates a partnership between a participating correctional facility and a local community animal shelter. The program operates at no cost to the state of Missouri or the DOC, although the department seeks donations to help care for the animals. Veterinary services are provided by the partnering agency. Animals normally remain in the program approximately 8-10 weeks, but no longer than six months. Offenders are screened and must meet eligibility requirements to participate in the program. Upon completion of the program, the dogs are adopted, which is facilitated by the partnering agency.

**2. CORE DESCRIPTION**

Justice Reinvestment is a data-driven approach to improve public safety and reinvest savings in strategies that can decrease crime and reduce recidivism. Investment in community-based recovery support services provides an alternative to costly incarceration and provides higher success. At the time the program began, 86% of prison admissions are tied to either a) failures of people on community supervision or b) sentences to prison-based substance abuse or mental health treatment. Timely access to effective community treatment has the potential to dramatically reduce both types of prison admissions and is more cost effective. Improving Community Treatment Success Program (ICTS), formerly known as the Justice Reinvestment Treatment Pilot (JRITP), is a collaborative program that requires the DOC and the DMH to work together to lower system costs, decrease crime, and create a safer and healthier Missouri. ICTS is a coordinated-care approach that focuses the highest intensity substance addiction services on the highest risk/highest need people on probation or parole supervision. This particular program is the first of its kind in the state. The ICTS program is a “pay for performance” model where treatment provider performance geared toward positive impact on desired outcomes is incentivized in five outcome areas:

- retention in treatment,
- housing stability,
- employment stability,
- no substance use resulting in a sanction, and
- no technical revocations of supervision.

The pilot counties have been and will continue to be selected by analyzing crime rates, sentencing trends, and existing corrections and behavioral health treatment resources. Using this criteria the program began in FY2019 in Butler, Boone, and Buchanan Counties. In FY2020, the department expanded to the counties of Greene and Polk, and in FY2021 to Camden, Cole, Miller, Pettis, Phelps, Pulaski, and St. Francois counties using the stated criteria.

**2. CORE DESCRIPTION**

RSMo. 650.058 gives the Department of Corrections (DOC) the authority to make restitution payments to individuals convicted of a felony in a Missouri court who were later found to be "actually innocent" solely as a result of DNA profiling analysis. Individuals are paid up to \$100 per day restitution for every day of post-conviction incarceration for the crime for which the individual was found to be "actually innocent." These payments are capped at \$36,500 per year, which constitutes restitution for one year of wrongful incarceration, and are subject to appropriation.

In FY07, the department was appropriated sufficient funds to begin making these restitution payments to individuals who had been exonerated by the DNA profiling system to date. Since that time, the department has paid restitution for up to five offenders per year. In July 2021, the department received it's first new petition since FY 2017.

**2. CORE DESCRIPTION**

Ongoing Department of Corrections' (DOC) operations require the procurement of sufficient telecommunications services and equipment for the administrative offices, 19 correctional centers, one decommissioned correctional center, two transition centers, six community supervision centers and over 70 P&P district, satellite and sub-offices. The Telecommunications Unit coordinates with the Office of Administration's Division of Information Technology, equipment vendors, and local and long-distance service providers to ensure that an adequate number of the correct type of phone/data lines and equipment are provided to department staff. This unit is also responsible for filing and maintaining the department's frequency licenses with the Federal Communication Commission. The utilization of a centralized funding source allows the department to manage costs more efficiently, accommodate regional and temporary fluctuations in prices, and provide standardization of phone and data lines throughout the Department of Corrections.

**1b. What does this program do?**

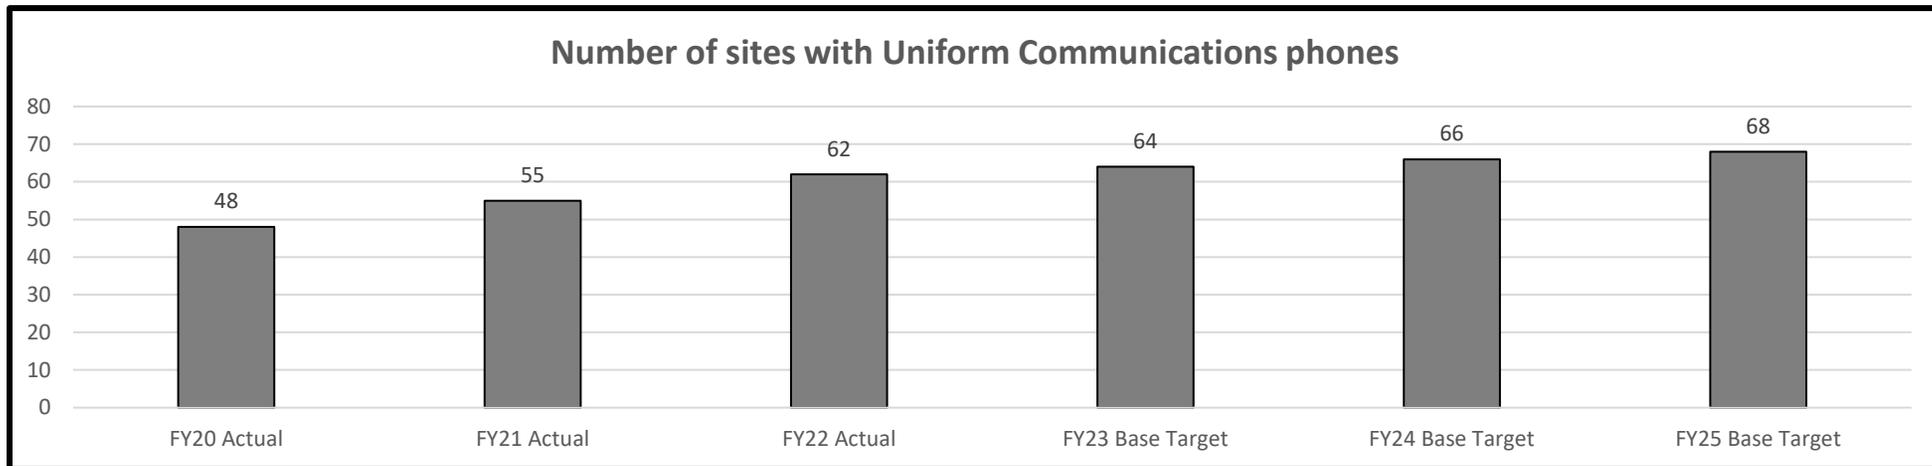

Ongoing Department of Corrections' (DOC) operations require the procurement of sufficient telecommunications services and equipment for the administrative offices, 19 correctional centers, three regional training centers, two transition centers, six community supervision centers and over 70 P&P district, satellite and sub-offices. The Telecommunications Unit coordinates with the Office of Administration's Division of Information Technology, equipment vendors, and local and long-distance service providers to ensure that an adequate number of the correct type of phone/data lines and equipment are provided to department staff. This unit is also responsible for filing and maintaining the department's frequency licenses with the Federal Communication Commission. The utilization of a centralized funding source allows the department to manage costs more efficiently, accommodate regional and temporary fluctuations in prices, and provide standardization of phone and data lines throughout the Department of Corrections.

The utilization of a centralized funding source allows the department to manage costs more efficiently, accommodate regional and temporary fluctuations in prices and provide standardization of phone and data lines throughout the department. The current appropriation is not sufficient to cover the usage charges, system maintenance, and system transition. The department has a consistent shortfall in this appropriation of approximately \$200,000 annually. Previous new decision item requests have not been appropriated and the department has utilized appropriation flexibility to cover these expenses.

The department is requesting an appropriation increase of \$295,508, which is the amount of the FY 2021 shortfall.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? **2. CORE DESCRIPTION**

This is the core request for the ongoing purchase of food and food-related supplies for 19 correctional facilities, two community transition centers, six community supervision centers, and two cook-chill production facilities operated by the Department of Corrections (DOC). Subsection 217.240.2 RSMo. requires that all offenders confined in a correctional facility be supplied with a sufficient quantity of wholesome food. The DOC provides three nutritionally-balanced daily meals to the offender population.

The use of a centralized funding pool for food provides the department with several benefits by:

- allowing the department to manage costs more efficiently.
- allowing the department to accommodate for emergencies.
- allowing for the management of temporary changes in institutional population.
- accommodating regional and temporary fluctuations in prices.
- allowing for the operations of the regional cook-chill facilities.
- providing savings from quantity discounts on purchases.

For the FY 2023 Budget Request, the department requested to reallocate all food service-related costs (PS, FTE, and E&E) to this section and requested flexibility between appropriations within the section. This request was made to accommodate the possibility of converting to a contracted food service model. The requests were appropriated. The department continues to work through the competitive procurement process to determine whether or not a move to a contracted model is viable. That process will likely be completed in the first half of FY2023. Any necessary appropriation structure changes will be requested after that process is complete.

**NOTES:**  
 The Food appropriation has an unavoidable lapse most fiscal years due to the period at the end of every fiscal year when SAM II is inaccessible due to its closing out one fiscal year and being loaded for the next fiscal year. This means that funds cannot be encumbered nor orders placed during this period. Because of the perishable nature of many food products, the department must place large orders prior to SAM II becoming inaccessible so products can be received during that time period. This product is paid for in the following year and this process generates lapse.

**FY22:**  
 Substance Use & Recovery E&E flexed \$175,000 and Medical Services E&E flexed \$175,000 into the Food appropriation to be used for the purchase of food products for the institutions. Dramatically rising food prices generated a shortfall.

**FY21:**  
 Flexibility was used to meet year-end expenditure obligations. Food Purchases flexed \$1,800,000 into Institutional E&E for institutional secure perimeter repair and improvements including electronic fence detection system replacement and the purchase of razor wire for fencing due to funding shortfall.

**FY20:**  
 Flexibility was used to meet year-end expenditure obligations. Food Purchases flexed \$175,000 into Telecommunications due to funding shortfall. Lapse, in part, as a result of the DOC expenditure restriction plan due to the Coronavirus Pandemic.

**1b. What does this program do?**

The Department of Corrections is required to supply all offenders confined in a correctional facility with a sufficient quantity of wholesome food. The DOC provides three nutritionally-balanced daily meals to the offender population. The use of a centralized funding pool for food provides the department with several benefits by:

- allowing the department to manage costs more efficiently.
- allowing the department to accommodate for emergencies.
- allowing for the management of temporary changes in institutional population.
- accommodating regional and temporary fluctuations in prices.
- allowing for the operations of the regional cook-chill facilities.
- providing savings from quantity discounts on purchases.

The DOC supplies 19 correctional facilities, two community transition centers, six community supervision centers, and two cook-chill production facilities.

In the past this measure accounted for all training. Beginning FY 2021, it only accounts for Basic Training. FY 2019 and FY 2020 are therefore not included in this measure. We were unable to make comparisons between other states in our region because the underlying costs are not comparable; while we utilize per diem to pay for participant expenses, other states (e.g., Illinois and Arkansas) have residential academies, and still others (e.g., Kansas and Iowa) conduct their basic training at each prison. We are projecting a 5% decline in cost figures based on the department's expansion of blended learning.

In FY22, the department began the process of repurposing a state asset into a residential training academy, primarily for custody staff. The majority of the materials for the conversion were purchased in FY 2022. The work will be performed by the department's Heavy/Equipment Construction Crews in FY23. The conversion work consists primarily of converting two housing units to trainee lodging space. This request is for on-going funding to operate the new custody staff training academy.

This facility will house all of the current training programs currently located in St. Joseph, MO which includes all levels of Basic Academy Training, Probation and Parole Pre-Service, Management Training, In-Service, and Training for Trainers, as well as any specialty training that may need to be conducted. The Western Missouri Training Academy will also serve as the training site for custody specific hard skills training for all of the Department of Corrections, mirroring much of the design and operations after the Missouri State Highway Patrol's training academy. Two housing units of the previous correctional facility will serve as lodging facilities for trainees. The Central Services area of the facility will become classroom and office space. The gymnasium will become a fitness/wellness facility for staff members in training. The space that was previously the institution library will become a resource center and computer lab for staff in training. Food Service, Laundry, Maintenance, Television Service and Wireless Internet as well as additional maintenance, training and support staff will be necessary for the ongoing operations of the facility.
