2. CORE DESCRIPTION									
The Division of Administration provides administrative and financial support services for the Department of Health and Senior Services. The division assists the efforts of the programmatic divisions to provide services to Missourians in a cost-effective manner that assures fiscal accountability for taxpayer dollars. The Division of Administration processes all grant applications, initiates federal draws related to grants, and prepares required federal and state financial reports. In addition, the division reviews and processes all contracts and procurements to ensure that services and commodities are economically obtained; processes all payments to vendors; assesses program performance and compliance with state and federal requirements; maintains an inventory of physical assets to ensure the fiscal integrity of state property; operates warehouse, delivery, and mailroom services for the department; and works with the Office of Administration to manage building leases and related issues that arise with a workforce that operates from state office buildings and leased facilities spread across the state. Within the division is the Office of Human Resources, which ensures compliance with state personnel law, personnel functions/employee relations, professional development, and recruitment. Department-wide operating expenditures such as telecommunications, postage, vehicle fleet operations, copy machine repair, paper, envelopes, building security, and freight services are paid from the division's budget. The division also prepares the departmental budget submission and responds to budget-related inquiries and fiscal note requests from the Office of Administration and the legislature.

### 2. CORE DESCRIPTION

The State Public Health Laboratory (SPHL) is vitally important to public health. It provides a broad range of disease control and surveillance, preventive healthcare, emergency preparedness, all-hazards laboratory response, environmental monitoring, and laboratory improvement services. The SPHL operates specialty units in Jefferson City and Poplar Bluff that provide services to physicians, veterinarians, law enforcement officials, local and district public health personnel, hospitals, and private laboratories. The SPHL conducts testing in the fields of immunology, virology, microbiology, tuberculosis, chemistry, environmental bacteriology, advanced molecular detection, and newborn screening that allow medical practitioners to identify harmful conditions and provide appropriate treatment. The SPHL also conducts analyses of water and food to assure its safe use. The SPHL is the state reference laboratory, serving the department, local health agencies, and medical professionals and institutions throughout Missouri by confirming results or completing organism identification. The SPHL is the leader in the state for acquiring and implementing advanced technologies and methodologies to detect newly emerging or re-emerging diseases of public health consequence. Examples include: Monkeypox, SARS-CoV-2 (COVID-19), Zika, Ebola, Dengue, Chikungunya, Middle-East Respiratory Syndrome (MERS), foodborne diseases, rabies, pandemic strains of influenza, antibiotic-resistant bacteria, mumps, sexually transmitted infections (syphilis, HIV, chlamydia, gonorrhea), and drug-resistant tuberculosis. Much of this testing occurs in specially designed laboratories (Bio-Safety Level 3) and require extensive technical and safety training. Serving as the primary state response laboratory for biological and chemical terrorism events, the SPHL also conducts program evaluations for municipal, hospital, and private laboratories; supports public safety programs (implied consent/breath alcohol); and supervises certifications and operations of breath alcohol analyzers. Many programs within state government require routine and specialized public health laboratory services to support their objectives in protecting the health of the public and in supporting programs that assure the health of communities.

2. CORE DESCRIPTION										
The Division of Community and Public Health (DCPH) requests core funding to support its responsibilities to protect the health of Missourians. DCPH works with communities, local public health agencies (LPHAs), schools, organizations, and the healthcare delivery system to support and strengthen Missouri communities through disease prevention and control, access to essential healthcare, and health/wellness education. Programs in the division support Missouri's public health network consisting of 115 LPHAs that are locally governed and financially supported through local and state funds. Missouri's public health system is responsible for monitoring the disease trends of death and disability, health-related behaviors, and other factors that affect health. Along with community partners, DCPH identifies and monitors risks including personal behavior, communicable disease exposure, and the environment.										
This core funding supports the personnel responsible for disease control, prevention and emergency response (novel coronavirus, novel influenza strains, measles, mumps, sexually transmitted diseases, viral hepatitis, tuberculosis, West Nile, Zika, and other reportable communicable diseases); environmental health issues (foodborne illness outbreaks, radiological contamination, on-site sewage, retail food safety, food processing sanitation, lodging and childcare sanitation and safety inspections); Ryan White HIV/AIDS program; immunizations; newborn screening follow-up (Phenylketonuria (PKU), cystic fibrosis, sickle-cell, etc.); adolescent and school age children's health (teen pregnancy, injury, and violence prevention); newborn health (healthy pregnancy and breastfeeding); Healthy Children and Youth; Cancer and Chronic Disease Control (heart disease, diabetes, asthma, arthritis, organ and tissue donation, etc.); tobacco prevention and cessation (Quitline); obesity prevention; Nutrition Services (WIC, Summer Food); the Missouri Vital Records System; and the collection, analysis, and distribution of health data.

The federal funding sources received by the Division that require match and the amount of state match required by each are: Cancer Grant: Cancer Registry (25 percent), Cancer Grant: Breast and Cervical Screening (25 percent), Maternal and Child Health Block Grant (43 percent), Public Health Emergency Preparedness and Hospital Preparedness Program (10 percent), Radon (40 percent), Ryan White Part B (33 percent), Title XIX (25 percent to 35 percent), Traumatic Brain Injury Grant (33 percent), and WISEWOMAN (25 percent). The federal funding and the required matching funds are found throughout the Division of Community and Public Health, the Department, and in some instances other state agencies. The programs that utilize the funding have noted the federal matching requirements within their specific program description.	
<b>7. Is this a federally mandated program? If yes, please explain.</b> The federal mandate for specific activities is included on division program description pages.

<b>1b. What does this program do?</b> The Bureau of Vital Records is the repository of vital records for the State of Missouri and provides citizens and federal, state, and local agencies the ability to register, amend, and obtain vital records and important data and statistical information critical to identifying and quantifying health related issues and measuring progress toward quality improvement and public health goals. Activities include: <ul style="list-style-type: none"> <li>• Maintaining the central registry of births, deaths, reports of fetal deaths, reports of marriages and divorces, and the Putative Father Registry.</li> <li>• Correcting or amending vital records as authorized by state law, to include court orders or as a result of adoption or legitimation.</li> <li>• Issuing certified and non-certified copies of births, deaths, reports of fetal deaths, original pre-adoptive records, and statements relating to marriages and divorces.</li> <li>• Conducting workshops and trainings, as well as querying of records and providing technical assistance to ensure the complete, accurate, and timely registration of vital records. The Bureau of Vital Records is a part of the national group of jurisdictions that share vital records information with the National Vital Statistics System (NVSS) at the Centers for Disease Control and Prevention (CDC). The compiled national natality, mortality, and fetal death statistics inform a variety of medical and health-related research efforts. Local and state public health agencies use information from the death record to assess community health status and for disease surveillance (e.g., drug overdose deaths, influenza, and other infectious diseases).</li> </ul>

2. CORE DESCRIPTION									
<p>The requested core funding invests in the 115 local public health agencies throughout Missouri that are essential to protecting the public's health. Local public health agencies are crucial partners with the state in providing public health services. The investment supports the delivery of services critical to the prevention of disease and the promotion of healthy families, lifestyles, and environments through an integrated and cooperative public health system. Monitoring disease incidence and responding to disease outbreaks (e.g., Hepatitis A, HIV, foodborne E-coli, and salmonella) is a primary responsibility. The public health system is vital in responding to public health emergencies and natural disasters by assuring safe food and water, identifying specific health needs within local communities, and mobilizing resources to address identified needs.</p> <p>Challenges are constantly increasing due to global travel that brings new and unknown diseases into our state and communities. Newly emerging and re-emerging diseases such as Ebola and Zika viruses, pandemic virus strains including the novel coronavirus and Avian Influenza, as well as the resurgence of old ones (e.g., measles and whooping cough) and drug resistant diseases (e.g., tuberculosis) place new demands on the public health system to ensure that such diseases or agents are recognized early and measures are taken to protect and promote the public's health and safety. The public health system is further challenged by chronic diseases such as diabetes, heart disease, and risk factors including obesity and tobacco use. Reducing the burden of these diseases and risk factors improves the quality of life and decreases health care costs for Missourians.</p>

<p><b>1a. What strategic priority does this program address?</b>  Public Health System Building; Emerging Public Health Threats Preparedness; and Whole Person Health Access.</p> <p><b>1b. What does this program do?</b>  The Department of Health and Senior Services (DHSS), Center for Local Public Health administers participation agreements with 115 local health agencies to ensure public health services are available in every county in Missouri. The presence of public health services at the local level is essential for protecting health and keeping people safe. The local health agencies are a vital partner in providing statewide services including, but not limited to, communicable disease surveillance and outbreak response, environmental surveillance (retail food, lodging, on-site sewage, childcare sanitation), immunizations, infectious disease testing and referral to care, chronic disease prevention and control education, public health emergency preparedness and response, and vital record issuance. The local health agencies have also been solely responsible for numerous areas of COVID-19 response, including but not limited to, enforcement of statewide and local orders, case investigation, and contact tracing.</p> <p>The funding administered through the participation agreements is not mandated for specific activities, but rather it allows local health agencies to utilize funding as needed within their own budget to deliver public health services in cooperation with DHSS. While DHSS is available for technical assistance and may lead activities in some program areas, public health services statewide would not be available without the existence of local public health agencies. State funding constitutes a different percentage of each local health department's total budget, but overall, public health in Missouri remains underfunded and funding is necessary to maintain local delivery of these services. The federal funding (50 percent of the total in FY 2023) distributed through these core participation agreements is the result of federal match received on expenditures reported by locals for specific unreimbursed services they have delivered to children age 0 through 19 (Children's Health Insurance Program Health Services Initiative (CHIP H.S.I.)). DHSS staff provide technical assistance regarding CHIP H.S.I. claiming, and collect and aggregate the expenditure data for all 115 agencies for quarterly submission to the Center for Medicare and Medicaid Services (through collaboration with Department of Social Services) in order to receive this match. The American Rescue Plan Act (ARPA) funding was appropriated for FY 2023 to supplement the core participation agreement for since the CHIP H.S.I. expenditures have dropped due to COVID-19. Besides funding support, the Center for Local Public Health staff provide a collaborative approach to quality services by holding orientations and trainings for new administrators and boards of health, connecting locals with staff throughout DHSS for specific programmatic technical assistance, and connecting locals with resources and programs through statewide and regional meetings offered throughout the year.</p>

\*\*LPHAs receive training/technical assistance regarding CHIP H.S.I claiming and new administrators, as well as, local boards of health orientation. Due to COVID-19, LPHAs were not as available for trainings as they have been in years prior. Higher numbers in FY 2022 were due to a large turnover in staff due to COVID which increased the need for trainings.

\*\*\*Statewide meetings were discontinued in FY 2021. In-person group New Administrator Meetings were hosted beginning in FY 2022 and will continue. Regional meetings consist of the same agenda offered at six locations throughout the state. Due to COVID-19, the regional meetings have been held virtually but will resume in-person in FY 2023.

The previous session resulted in the General Assembly supporting core public health functions by appropriating \$2.3 million in ARPA funds for Local Public Health Agencies (LPHAs) to offset reductions in CHIP HSI funds. The department requests \$2.3 in General Revenue to replace ARPA funds to make the funding more sustainable.

ARPA funds in the amount of \$2.3 million were appropriated last year to offset reductions in CHIP HSI due to COVID-19. ARPA funds are temporary so the department requests the same amount in General Revenue would make the funding long term.

\*\*LPHAs receive training/technical assistance regarding CHIP H.S.I claiming and new administrators, as well as, local boards of health orientation. Due to COVID-19, LPHAs were not as available for trainings as they have been in years prior. Higher numbers in 2022 were due to a large turnover in staff due to COVID which increased the need for trainings.

\*\*\*Statewide meetings were discontinued in FY 2021. In-person group New Administrator Meetings were hosted beginning in FY 2022 and will continue. Regional meetings consist of the same agenda offered at six locations throughout the state. Due to COVID-19, the regional meetings have been held virtually but will resume in-person in FY 2023.

**1a. What strategic priority does this program address?**  
 Public Health System Building, Health Behavior, Social Determinants of Health, and Whole Person Health Access.

**1b. What does this program do?**  
 The Chronic Disease Control program coordinates initiatives to help Missourians prevent and control chronic diseases through managing blood pressure and cholesterol; promoting health screening and early detection of disease; increasing knowledge of signs and symptoms of heart disease and stroke; reducing health disparities; improving the quality of school health services; and providing quality chronic care management. Chronic disease program services include:

- Assessing the burden of cancer, heart disease, diabetes, asthma, arthritis, and other chronic diseases;
- Raising awareness of chronic disease through screening and early detection;
- Making referrals to care services for those diagnosed with chronic disease;
- Supporting evidence-based interventions, such as Community Health Workers, which provide for chronic disease self-management;
- Supporting quality improvement initiatives in the healthcare system which improve care services;
- Leveraging the reach of chronic disease programs through collaborations with stakeholders and partnerships; and
- Maintaining the Organ and Tissue Donor Registry to increase the number of people who receive life-saving transplants and education.

Credentialing ensures that Community Health Workers (CHW) have received intensive training in the core competencies required to be a CHW. Credentialed CHW's also have better reimbursement rates and a higher sustainability within the agency they serve. The program provides funding to community colleges around the state to offer credentialing training to CHW's. The program began credentialing December 2019.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Missouri Comprehensive Cancer and Control Program's (MCCCP) federal grant is starting a new five year grant cycle. Missouri's funding is declining by \$180,131 compared to the previous five year grant cycle resulting in a 33.5 percent reduction in the total grant award. This would result in the department withdrawing funding for five Federally Qualified Health Centers (FQHCs) that currently provide cancer screenings in 20 counties across the State of Missouri. DCPH requests General Revenue to replace the reduction in federal funds. The GR pickup will allow DCPH to continue the current level of services provided through its contract with FQHCs to provide breast and colorectal screenings, communications and interventions implemented in partnership with the Missouri Cancer Consortium, education efforts rural and uninsured Missourians, and lung cancer prevention through a tobacco campaign.

**NEW DECISION ITEM**  
**RANK: 8 OF 16**

<b>Department of Health and Senior Services</b>		<b>Budget Unit</b>	58030C and 58420C
<b>Division of Community and Public Health</b>			
<b>Comprehensive Cancer and Control Pickup</b>	<b>DI# 1580010</b>	<b>HB Section</b>	10.700 and 10.710

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The grant's funding is declining by \$180,131 and due to the FY 2023 salary increases that occurred after the initial funding request to the Centers for Disease Control and Prevention (CDC), the program needs \$185,224 to maintain the current levels of service. To account for the governor's reserve, the department requests \$190,781 which is slightly higher to account for governor's reserve and because of state salary changes that have occurred after the initial funding request to the Centers for Disease Control and Prevention (CDC). The requested GR will allow for current levels of service. The spending breakdown of the request for the first year includes: \$150,000 for funding contracts; \$10,000 for funding the Missouri Cancer Action Plan; \$1,284 for tools and resources; \$2,000 for State Employee Screening Campaign/Events; \$10,000 for communications; and \$11,940 for tobacco campaign.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

SB 681 was passed and signed into law in the 2022 legislative session, creating the "Get the Lead Out of School Drinking Water Act." The Act requires all public and private schools, as well as providers of early childhood education that receive state funding, to meet certain deadlines to provide drinking water with a lead concentration level below five parts per billion. The Act also requires the Department of Health and Senior Services (DHSS) to ensure compliance by public schools. DHSS does not currently have the staffing resources to ensure compliance or offer guidance to schools regarding how to comply.

HB 3020 appropriated \$27 million for grants to provided to schools for lead remediation efforts in FY 2023. If the funding remains in the FY 2024 budget, DHSS does not have existing staffing resources sufficient to make such apportionments to schools.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

To successfully ensure compliance under the Act, DHSS would need to add 3.00 FTE responsible for working with school districts, making them aware of statutory deadlines and standards, providing guidance to school districts in need of assistance, and managing reported data and information from schools. Two additional FTE would be needed to manage financial disbursements to schools if that funding remains in the FY 2024 budget.

The department also requests funding for the maintenance of a reporting system for schools to submit data to the department as required by law.

**Top Ten TEL-LINK Referral Categories for FFY 2021**

TEL-LINK is the DHSS's confidential, toll-free telephone line for maternal and child health care. The purpose of TEL-LINK is to provide information and referrals to Missouri residents concerning a wide range of health services. There are 52 different referral categories within the TEL-LINK database. The ten referral categories illustrated here represent 91 percent of the total referrals for FFY 2021. The number of referrals may fluctuate from year to year based upon available funding for advertising as well as the needs of the population.

**Newborns with Timely Diagnosis after a Failed Hearing Screen**

Universal newborn hearing screening, when accompanied by timely access to outpatient rescreening, audio logic diagnostic evaluation, and intervention services (e.g. training in sign language, hearing amplification services, and speech language services), can improve language, social, and emotional outcomes for children born deaf or hard of hearing and result in economic benefits to society. The purpose of Missouri's Newborn Hearing Screening Program is to screen all infants for hearing loss by one month of age, ensure those infants that fail screening are evaluated to identify hearing loss by three months of age, and ensure all infants diagnosed with permanent hearing loss are enrolled in an early intervention program by six months of age. Previous base target of 70 percent was exceeded in CY 2020, precipitating an increased base and stretch target.

\*Data available December 2022.

These outcomes are achieved through the following activities:</p> <ul style="list-style-type: none"> <li>• Educating Missourians regarding HIV, STI, and hepatitis prevention, education, testing, and linkage to care services to stop the spread of infection, prevent re-infection, and prevent poor health outcomes.</li> <li>• Providing screening and testing resources for specific, disproportionately affected populations who are underinsured or uninsured. Priority populations vary by condition and are based on epidemiological data and grant priorities.</li> <li>• Delivering services in collaboration with local public health agencies, as well as a network of prevention contractors and testing program partner sites to ensure access to services throughout the state.</li> <li>• Providing disease information, risk reduction counseling, and partner services (including elicitation of sex/needle-sharing partners and confidential notification of exposed partners to offer counseling, testing, and referral for treatment and care).</li> <li>• Providing access to HIV medical care, medication, and related services for low-income Missourians living with HIV to improve individual health outcomes as well, as to reduce HIV transmission rates. Individuals living with HIV for whom the virus is well controlled by HIV medications pose essentially no risk of transmitting the virus through sexual contact.</li> <li>• Facilitating the coordination and collaboration among statewide HIV, STI, and hepatitis service providers and stakeholders to determine program priorities and ensure efficient use of limited resources based on historical epidemiological data and emerging trends.</li> </ul>

**Syphilis Treatment Received as a Result of Partner Services Intervention**

This indicator shows the percentage of people infected with or exposed to syphilis who received treatment as a direct result of disease intervention activities by the Department. Connecting individuals to treatment helps control the infection in the community and prevents further damage to the individual's health.

\*This performance measure was impacted by the COVID-19 pandemic.

**HIV Positive Ryan White Enrolled Clients Provided with Access to Comprehensive Health Coverage**

By providing access to comprehensive health coverage (private insurance) and assisting individuals with applying for Medicaid, Missouri's Ryan White program is able to ensure that people living with HIV have access to a full range of essential health benefits at a cumulative cost savings to the Ryan White program. Comprehensive health coverage provides access to health services that are not available to uninsured Ryan White clients including inpatient care, emergency department care, and management of some chronic or co-occurring conditions.

\*This performance measure was impacted by the COVID-19 pandemic. Missouri implemented Medicaid Expansion in 2021. The Ryan White Program is a payer of last resort. Through Case Management support individuals are assisted with applying for Medicaid which expands comprehensive coverage options for Ryan White clients.

**Positivity Rates for Chlamydia Testing Program**

Chlamydia testing focuses on those who are most at-risk for infection, including those with no signs or symptoms. High testing positivity rates indicate that the testing program is effectively targeted to those individuals who are most at risk for infection rather than using limited resources to test individuals with low or no risk of infection. Prior CDC cooperative agreements recommended a testing program positivity rate of three percent. Missouri's testing program currently exceeds this target, and continues to work to identify individuals and populations who are at increased risk for infection.

2. CORE DESCRIPTION									
Core funding for Women's Health Initiatives is requested for coordinating programs and activities across the state to assist women, infants, children, young adults and families by providing free breast and cervical cancer screening (Show Me Healthy Women); providing cardiovascular and stroke prevention screenings (WISEWOMAN); implementing evidence-based sexual violence prevention education in higher education settings; analyzing causes of maternal deaths and developing interventions to prevent such deaths (Pregnancy Associated Mortality Review); providing case management, education, and awareness for hepatitis B (HBV) to ensure infants born to HBV positive women receive timely and complete vaccination in order to prevent infection. This funding also includes the Maternal Child Health (MCH) Program which contracts with Local Public Health Agenices (LPHAs) to support a leadership role for LPHAs to build community-based systems and expand the resources those systems can use to respond to priority health issues, assures access to quality MCH services, reduces health disparities, and promotes health for infants, children, adolescents, and women of child-bearing age. It protects and improves the health of Missouri's families through the Title V MCH Services Block Grant program by providing a variety of services, programs, and initiatives in collaboration with local public health agencies and other entities catering to the needs of MCH populations in the state.

These programs and activities include: <ul style="list-style-type: none"> <li>• Pregnancy Associated Mortality Reviews - Analyzes causes of maternal deaths and develops intervention recommendations to prevent such deaths.</li> <li>• Sexual Violence Prevention Program - This program contracts with public universities and non-profit organizations to implement evidence-based sexual violence prevention programs with communities, students, teachers, staff, and parents;</li> <li>• Maternal Child Health (MCH) Services Program - Administered by contracting with local public health agencies (LPHAs) to support their leadership role in building and expanding community-based systems to respond to priority health issues, ensure access to quality MCH services, reduce health disparities, and promote health for infants, children, adolescents, and women of child-bearing age;</li> <li>• Title V MCH Services Block Grant - Through supporting and partnering with programs and initiatives across DHSS and programs in the Office of Childhood at DESE (Home Visiting, Early Childhood Coordinated Systems, Safe Sleep/Safe Cribs, Child Care Health Consultation, and Child Care Inclusion Services) and collaborating with LPHAs and other external public health partners and MCH stakeholders, the Title V MCH Services Block Grant assures a maternal-child public health system with a variety of services, programs, and initiatives that addresses the needs of Missouri's mothers, infants, children, adolescents, and families, including children and youth with special health needs (CYSHCN). These services can be broadly grouped into three categories: preventive/primary care services for all pregnant women, mothers, and infants up to age one; preventive and primary care services for all children; and services for children and youth with special health care needs (CYSHCN).</li> </ul>

**1a. What strategic priority does this program address?**  
 Infant and Maternal Health; Health Behavior; Social Determinants of Health; and Whole Person Health Access.

**1b. What does this program do?**  
 The Extended Women's Health program provides funding for family planning and family planning-related services, pap tests and pelvic exams, pregnancy testing, sexually transmitted disease testing/treatment, and follow-up services for eligible women. This program also provides education and outreach to encourage eligible women to access the family planning services and family planning-related services offered. Eligible women include those with a family Modified Adjusted Gross Income for the household size that does not exceed 201 percent of the Federal Poverty Level, and uninsured women losing MO HealthNet coverage at the conclusion of 60 days postpartum for one additional year. Program services are intended to reduce the number of unintended pregnancies for eligible women and thereby reduce Medicaid expenditures. Unintended pregnancies, which account for nearly half (45 percent) of all pregnancies in the United States, are also associated with risks of other health issues such as low birth weight and maternal depression. The services provided by this program also assist women in preventing the spread of sexually transmitted infections.

**2a. Provide an activity measure(s) for the program.**

## PROGRAM DESCRIPTION

**HB Section(s):** 10.725

**Extended Women's Health Services**

**Program is found in the following core budget(s):**

**2b. Provide a quality measure(s) for the program.**

**Women's Health Services Expenditures**

Base Target - outpatient hospital services expenditures reach 3.5 percent or less.

Stretch Target - outpatient hospital services expenditures reach 2.5 percent or less.

Lower percentages in outpatient hospital services expenditures indicate more preventative care is being utilized through physician related and pharmacy services.

**2c. Provide a measure(s) of the program's impact.**

**Estimated Cost Savings Associated with Averted Unintended Births**

\*Reduced cost savings predicted due to fewer participants being enrolled in the program due to expansion of Medicaid.

^The projected cost is based on average of prior years.

The cost savings is calculated by multiplying the number of averted unintended births by the MO HealthNet cost to provide pregnancy coverage only. The number of unintended births is calculated by utilizing the number of women receiving contraception services through this program and multiplying that by a percentage of unintended pregnancies that result in an unplanned birth, as referenced in a 2015 study by the Guttmacher Institute regarding Publicly Funded Contraceptive Services at U.S. Clinics.

2. CORE DESCRIPTION									
Core funding is requested to support the Child and Adult Care Food Program (CACFP), the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), the Commodity Supplemental Food Program (CSFP), and the Summer Food Service Program (SFSP). These funds are essential for reducing preventable nutrition related illnesses and deaths as well as increasing positive health outcomes. CACFP reimburses eligible providers for nutritious meals and snacks served to children and adults enrolled in day care centers, children enrolled in after-school enrichment programs, and children and disabled adults residing in emergency homeless shelters to improve nutrient intake and contribute to the development of healthy eating habits for these populations. WIC provides services such as health screening and risk assessment, nutrition counseling, breastfeeding promotion and support, and referrals that assure access to quality healthcare services. As a benefit for participating in services, WIC pays for nutritious foods to supplement the diets of pregnant, postpartum, and breastfeeding women, and infants and children up to their fifth birthday who qualify as nutritionally at-risk. CSFP provides a variety of nutritious food packages that are distributed to elderly qualified participants through the food bank network. SFSP reimburses eligible sponsoring organizations that provide meals to low-income children age 18 and under when school is not in session, thereby improving their nutrient intake, reducing their risk for nutritionally-related health problems, and enhancing their learning capabilities when they return to school.

## PROGRAM DESCRIPTION

Department of Health and Senior Services

HB Section(s): 10.700 and 10.735

Nutrition Initiatives Program

Program is found in the following core budget(s):

2a. Provide an activity measure(s) for the program.

**Average Monthly WIC Participation**

According to the USDA website, WIC participation has continued to decline nationwide since 2010.

\*WIC experienced a decrease in caseload during the COVID-19 pandemic due to exposure concerns and other related onsite service barriers. Projections are based on monthly average participation change for the prior three years and current year's actual and projected data.

**Meals Served Through Child and Adult Care Food Program**

The Child and Adult Care Food Program serves:

Children ages 18 and under enrolled in care programs; children under age 18 enrolled in afterschool programs in at-risk areas or residing in emergency shelters with their families; children and adults with physical or mental disabilities; and children ages 15 and under who are children of migrant workers.

\*Significant decline in FFY 2020 due to the COVID-19 pandemic. Significant FFY 2021 and FFY 2022 increases due to USDA waivers initiated to assist with COVID-19 and centers returning to full capacity.

## PROGRAM DESCRIPTION

Department of Health and Senior Services

HB Section(s): 10.700 and 10.735

Nutrition Initiatives Program

Program is found in the following core budget(s):

2a. Provide an activity measure(s) for the program. (continued)

**Meals Served Through Summer Food Service Program**

The Summer Food Service Program serves: Children aged 18 and under, and physically or mentally disabled adults who participate in school-sponsored programs during the school year.

\*Due to COVID-19 emergency meal service and USDA waivers, FFY 2020 and FFY 2021 increased exponentially.

FFY 2022 meal service was significantly less than FFY 2021 due to operating only during the summer.

\*\*Data available until December 2022.

**Commodity Boxes Distributed Monthly Through the Commodity Supplemental Food Program**

Commodity boxes are distributed monthly to qualified program participants age 60 and older through local food pantries. Each monthly commodity box contains: fruits and juices; dry cereal, farina, rolled oats, or grits; proteins (canned beef, chicken, beef stew, chili, tuna, or salmon); milk (UHT shelf stable or instant nonfat dry); peanut butter/dry beans; potatoes, pasta, or rice; cheese; and vegetables.

\*Due to the COVID-19 pandemic, senior participation during the pandemic in FFY 2020 decreased, therefore USDA decreased Missouri's caseload for FFY 2021.

\*\*Due to the continued lack of senior participation in CSFP, the USDA decreased Missouri's caseload further in FFY 2022.

## PROGRAM DESCRIPTION

Department of Health and Senior Services

HB Section(s): 10.700 and 10.735

Nutrition Initiatives Program

Program is found in the following core budget(s):

2b. Provide a measure(s) of the program's quality.

2c. Provide a measure(s) of the program's impact.

## PROGRAM DESCRIPTION

Department of Health and Senior Services

HB Section(s): 10.700 and 10.735

Nutrition Initiatives Program

Program is found in the following core budget(s):

2c. Provide a measure(s) of the program's impact. (continued)

### WIC Participants Who Initiated Breastfeeding

Breastfeeding reduces an infant's risk of Sudden Infant Death Syndrome (SIDS), infections, and obesity. Breastfeeding also reduces the risk of cancer and diabetes for both mother and infant. National average is 71.6 percent, according to the 2020 USDA WIC Participant and Program Characteristics Report.

### Pregnant WIC Participants Who Started Program During First Trimester

Pregnant mothers receiving WIC benefits during the first trimester reduce the mother's risk of preterm delivery and infant mortality. Numbers reflect the percentage of women who enroll in WIC during the first trimester out of all pregnant women enrolled in WIC. National average is 50.8 percent, according to the 2020 USDA WIC Participant and Program Characteristics Report.

## PROGRAM DESCRIPTION

Department of Health and Senior Services

HB Section(s): 10.700 and 10.735

Nutrition Initiatives Program

Program is found in the following core budget(s):

2d. Provide a measure(s) of the program's efficiency.

### WIC Benefit Redemption

WIC officially became eWIC enabled as of September 14, 2020. The previous method of determining benefits redeemed was based on the number of checks issued versus those redeemed. Beginning in FFY 2021, WIC Benefit Redemption is calculated based on the percentage of the number of food items redeemed, rather than the percentage of checks redeemed. The COVID-19 pandemic and the implementation of eWIC impacted WIC Benefit Redemption due to food distribution issues, concerns for COVID exposure, a learning curve in understanding how to use the eWIC card, and stores adjusting to the new process which could negatively impact benefit redemption.

### Average Number of Days From Enrollment to Technical Assistance Visit for New Child and Adult Care Food Provider Sponsors

In order to more readily establish program integrity, program staff's goal is to provide new CACFP sponsors a technical assistance visit within the first 180 - 200 days of operation. The technical assistance visits are the most beneficial when sponsors have submitted at least three monthly claims; therefore, a visit should not be completed any earlier than 125 days.

The Office of Rural Health and Primary Care (ORHPC) collaborates and contracts with Missouri Area Education Health Centers (MAHEC) across the state. MAHEC's mission is to enhance access to quality health care, particularly primary and preventive care, by growing and supporting Missouri's health care workforce. They do this through a focus on connecting students to careers, professionals to communities, and communities to better health. Increased funding in the MAHEC Network would augment the investment in existing education programs, and expand the pipeline programs to more rural communities, by creating and implementing a Health Care Navigator Program. The Health Care Navigator Program would be located in those communities, supporting youth (middle and high school) and undergraduate students pursuing careers in health care.

The program received over \$1.6 million in funding in the early 2000s, but that funding has declined over time. The department requests a new \$1.6 million in addition to existing appropriations to invest in students pursuing a future in healthcare, with the goal of addressing the state's provider shortage and need for providers in underserved areas of the state. In FY 2021, the MAHEC Network identified 106 new pipeline students, all of whom completed at least 10 hours of programming. The department anticipates the requested funding will, at minimum, double the number of students in the pipeline program.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The Health Professional State Loan Repayment Program (SLRP) anticipates an increase in the grant award to Missouri. SLRP is a competitive federal grant program that allocates funds to states to award funding for educational loan repayment to licensed Missouri medical, psychiatry, and dental health professionals in exchange for services in Missouri areas with a provider shortage in those fields. Health care practitioners that are SLRP recipients earn forgiveness of their loan repayment award through a service obligation. The obligation is two years of service per award, which is based on full-time qualifying employment. DCPH is requesting an increase in appropriation authority to increase the number of health care practitioners providing services in Missouri's rural and underserved areas.

The department anticipates a \$302,000 increase in the federal grant award to SLRP, however the funding was shifted to ARPA. The program budget for utilizing this increase is \$302,000 in loan repayment funding, \$33,618 in PS for existing employees currently being paid out of different funds, and \$13,554 in supplies. The total contract amount for the grant is 631,034 in loan repayment funding.

Topics include strategies to prevent dental problems, the consequences of poor oral health for an individual's overall health, and community water fluoridation. ODH activities include the following:</p> <ul style="list-style-type: none"> <li>• Operating the Preventive Services Program (PSP) and the Dental Sealant Program to deliver education and preventive measures to Missouri children;</li> <li>• Providing training and support for communities which choose to fluoridate their water;</li> <li>• Working with partners to advocate for increased access to dental care to prevent costly trips to the hospital and expensive dental restorations;</li> <li>• Coordinating with schools to recruit volunteer dentists, hygienists, and dental students to screen children during the PSP events. Children participating in PSP are screened to assess their dental health to see if treatment is necessary, and to evaluate the dental health of Missouri children. Volunteers apply the fluoride varnish as a part of the PSP event;</li> <li>• Coordinating with the Truman Medical Center for the Elks Mobile Dental Program and the Dental Lifeline Network for the Donated Dental Services program. These programs provide dental care to people who may not have access to dental care who include but are not limited to developmentally or intellectually disabled individuals, veterans and those who are medically fragile;</li> <li>• Operating the Improving Oral Health Outcomes, which hopes to increase Missouri's number of children with dental sealants, a known deterrent to dental decay, and to increase the number of people being served by fluoridated community water systems, one of the most cost-effective ways to prevent tooth decay;</li> <li>• Operating the Support Oral Health Workforce Activities, aiming to bring teledentistry services to people with limited access to dental care, and providing fluoride to high-risk children through the Local Public Health Agencies;</li> <li>• Coordinating efforts to bring the Community Water Fluoridation (CWF) Program to Missouri communities by promoting this evidence based public health measure, coordinating the repair and replacement of CWF equipment, and the Innovative Technology equipment pilot program.</li> </ul>

DHSS is anticipating that Delta Dental will donate an additional \$75,000 for the Missouri State Loan Repayment Program requiring additional appropriation authority. The funding will allow for three additional dentists per year, resulting in increased access to quality health care services in Missouri's rural and underserved areas. Increasing the total number of dental health care practitioners providing services in Missouri will result in decreasing health disparities and improving health equity.

Delta Dental recipients earn forgiveness of their loan repayment award through a service obligation. The obligation is two years of service per award, which is based on qualifying employment.

2. CORE DESCRIPTION									
The Division of Community and Public Health requests core funding to support its responsibilities in public health and healthcare planning and response to emergencies through the Public Health Emergency Preparedness/Cities Readiness Initiative, the Hospital Preparedness Program Grants, and grants received from the federal government to address the novel coronavirus pandemic. Examples of emergencies include: floods, tornadoes, earthquakes, influenza pandemics, disease outbreaks, environmental hazardous spills, biological and chemical terrorism, and nuclear power plant accidents. Through partnerships with local public health agencies, hospitals, other health organizations, local government, law enforcement agencies, schools, and other partners, systems are put in place to protect the health of Missourians during a public health emergency. The department performs disease and disaster surveillance and notification activities and provides health care guidance and coordination of response to these events. Training and exercises are hosted throughout the state to prepare for public health emergencies. These exercises are designed, organized, conducted, and evaluated to help first responders practice, build relationships, and identify problems before a real situation occurs. The department also oversees initiatives that fund training, exercises, emergency supplies, and resources that enable regional emergency preparedness healthcare coalitions (consisting of hospitals, emergency medical services, public health, and other healthcare/medical providers) throughout the state to be better prepared to handle emergencies requiring a medical or healthcare response. Through a contract with the State Emergency Management Agency (SEMA), assistance in planning for public health emergencies for the general public is provided through educational emergency preparedness materials, known as Ready-in-3. Assistance and support for response is also provided to the local communities by maintaining the medical reserve corps and healthcare volunteer registry, Show-Me Response. Other assistance includes Strategic National Stockpile which offers an emergency supply of medications, antidotes, and medical supplies to be disbursed in a timely manner for certain events. Appropriation for these contracted services appears in SEMA's budget.

**Hospital Preparedness Program's Recipient-Level Direct Cost (RLDC) Scores**

The Assistant Secretary for Preparedness and Response (ASPR) of the U.S. Department of Health and Human Services (DHHS) funds the Hospital Preparedness Program. ASPR initiated a performance measure of Recipient-Level Direct Cost (RLDC) as a benchmark in FY 2018. ASPR requires recipients to be 18 percent or less RLDC which includes personnel, fringe benefits, and travel costs. Keeping these costs low allows the program to contract more funding to regional healthcare coalitions, which is a federal goal, for emergency preparedness activities.

**3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)**

**1a. What strategic priority does this program address?**  
Emerging Public Health Threats Preparedness.

**1b. What does this program do?**  
The Department of Health and Senior Services (DHSS) initiated its response to SARS-CoV-2 (COVID-19) in January 2020. DHSS partnered with numerous outside entities and healthcare systems with the department taking action at multiple levels:

- Data: Maintains the data associated with COVID-19 to maintain accurate counting and reporting of all COVID-19 measures. This data drives the work of epidemiologists throughout the state.
- Sewershed: Monitors the amount of viral genetic materials in wastewater in approximately 100 community wastewater systems in Missouri to provide an early indicator of new or worsening outbreaks, as well as the presence and distribution of variants and sub-lineages across the state. Also monitors state owned facilities (Departments of Corrections and Mental Health as well as veterans homes) and six universities.
- Vaccines: Enrolls COVID-19 providers, processes COVID-19 vaccine orders, tracks doses administered by provider, processes COVID-19 vaccine redistribution among providers, and ensures quality assurance through COVID-19 provider site visits.
- Community Testing: Provides free COVID-19 testing events for the public throughout the state.
- Antigen Testing: Provides antigen testing to schools, long term care facilities, residential treatment centers, shelters, Area Agencies on Aging, and many others that care for the vulnerable Missourians.
- Provides consultation, healthcare staffing, ventilators, and alternative care site assistance to hospitals and health care providers throughout the state as needed.
- Personal Protective Equipment Coordination: PPE was procured at the state level in order to ensure all areas had an adequate supply: state-run facilities, local public health agencies, schools, first responders, local businesses, and healthcare providers unable to procure PPE due to supply chain disruption.

COVID-19 Pandemic Response

Program is found in the following core budget(s):

2c. Provide a measure(s) of the program's impact.

The genetic material from novel coronavirus can be present in human waste even when individuals have no symptoms. Tracking the amount of viral genetic material (viral load) in wastewater can help monitor trends and provide early awareness of new or worsening outbreaks. Sewershed surveillance cannot tell us the number of individuals currently infected, but as data are collected and trends are identified, that information may be helpful to track the progression of the virus in communities and inform public health strategy. "Sewershed cases" is the measurement of the number of positive cases within the geographic boundaries of sewershed testing.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Some federal COVID-19 related grant funds changed from being funded through COVID grants to being funded through American Rescue Plan Act (ARPA) federal dollars. The department requests additional federal ARPA appropriations to utilize these funds. These funds pertain to a Disease Intervention Specialist (DIS) program to prevent the spread of COVID-19 and other infectious diseases among vulnerable communities, and a program to monitor the health of infants with congenital exposure to COVID-19. Without these appropriations the funds cannot be used in FY 2024 and pertinent grant activities will cease. The department also requests \$350,000 in appropriations for new ARPA grant funds for outreach, innovation, and program modernization efforts to increase participation in and redemption of benefits in the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC). DHSS received additional ARPA funding from CDC to support Immunization Information Systems (IIS) during the COVID-19 pandemic response, and requests additional appropriation authority to utilize these funds.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The department requests ARPA appropriations for four purposes:

- \$3,849,222 for the DIS program that entirely transitioned to ARPA funds. The department requests 3.00 FTE for this program, who will perform investigations on reportable infections, assist individuals with receiving testing and treatment, and provide technical support to medical providers.
- \$87,664 for a portion of the core ELC grant that transitioned to ARPA funding. These funds are for ELC Project W, which is for monitoring the health of infants with congenital exposure to COVID-19.
- An additional \$200,000 PS and \$3 million EE for other unanticipated ARPA grants.
- \$168,132 in PS and \$999,317 EE to support IIS to monitor immunization rates, prioritize population subgroups with low vaccination rates, and support vaccine ordering and management.
- \$108,114 EE for C1 grant to support Health Information Systems Capacity.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The Department of Health and Senior Services (DHSS) is the recipient of the Public Health Infrastructure, Workforce, and Data Systems grant. Current FY 2023 appropriations were based on estimates prior to the department receiving information on the actual grant award. Now that the grant has been awarded and the department has developed a budget, additional federal PS appropriation authority is requested to meet the specific needs to the grant.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The request is based on the grant budget approved by the federal government. The department needs \$233,882 in federal PS authority to meet the anticipated requirements of the grant. The FY 2023 budget already appropriated the needed FTE and the remaining PS needed is for existing positions. The FY 2023 budget also appropriated sufficient EE for the implementation of grant requirements.

**5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**
