2. CORE DESCR	IPTION								
					equire high-quality econon Missouri Economic Resea				

identify areas of need, and support Missouri's overall economic growth. The Missouri Economic Research and Information Center (MERIC), as part of the Office of Performance and Strategy, serves those needs through data collection, applied research, innovative analysis, and reporting to the public and policymakers.

This research and analysis includes labor market trends, employment and unemployment rates, occupational studies and projections, economic conditions, studies of Missouri's industries, and the creation of data and analysis on jobs, education, and training that employers demand now and in the future. MERIC also works in cooperation with the U.S. Department of Labor as the state's labor market information agency to collect data, conduct research, and produce information on economic conditions and labor market trends on a monthly, quarterly, and annual basis. Through its website, MERIC.mo.gov, MERIC also provides interactive access to economic and workforce data for the state, and its regions and counties.

For occupation employment and wage statistics, employment trends, and industry and occupation projections, MERIC is the recognized originating source of this data. No other organization in the state is in a position to provide the same information. The branding of the work of these state staff members as "MERIC" has provided stability, reliability, and a trusted source of reputable information, even through a department merger and transition.

NOTE: FY 2023 one-time funds of \$13,030 have been removed from the FY 2024 Core.

CORE DECISION ITEM

Department of Higher Education and Workforce Development

Division: Performance and Strategy

Core: Research Team - Missouri's Economic Research and Information Center (MERIC)

Budget Unit 55761C

HB Section 3.150

3. PROGRAM LISTING (list programs included in this core funding)

Specific areas of research supported by this funding include, but are not limited to, the following: 1) wages and employment by occupation for the state and regions; 2) the monthly Missouri Jobs Report; 3) county average wages; 4) industry and occupation projections; 5) real-time labor market analysis based on trends in job postings; 6) key economic indicators such as cost of living and personal income; 7) regional economic profiles; 8) career pathways; 9) current and historic trends in industry employment; and 10) support for the MoSCORES employment and wage outcomes website. These listed items are the top categories of information received visits to MERIC's website (MERIC.mo.gov).

4. FINANCIAL HISTORY

PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

HB Section(s): 3.150

Program Name: Research Team - (MERIC)

Program is found in the following core budget(s): Research Team - Missouri's Economic Research and Information Center (MERIC)

1a. What strategic priority does this program address?

MERIC supports DHEWD's vision of "Every Missourian empowered with the skills and education needed for success" by filling a critical need in Missouri for high quality economic and labor market information to support decision-making. High quality information is essential for employers, job seekers, education and training providers, and other agencies that support Missourians and encourage economic stability and growth. Most directly tied to the department priority of "Raise Awareness of Options", the research and data provided is applicable to a variety of stakeholders as MERIC not only collects and provides a wide array of meaningful data and research, but also makes it easy to access and understand.

1b. What does this program do?

The Missouri Economic Research and Information Center (MERIC) performs data collection, applied research, and reporting of useful information to businesses, policymakers, jobseekers, educators, planners, and the general public to support making data-informed economic, workforce, and career planning decisions. Organizations such as chambers of commerce, community planners, and economic developers use this information for grant applications, promoting Missouri as a location for business expansion and retention, and supporting in-demand jobs.

Research includes: (1) collection, development and analysis of labor market data such as employment, unemployment, wages, and occupational information; (2) production of data and analysis on jobs, career planning, industry and occupation projections, and education and training that employers demand now and in the future; (3) studies of Missouri's industries, targeted sectors, and top occupations in those businesses; and (4) economic conditions and indicators for the state, regions, and counties.

MERIC also provides training, outreach, and support for all Missourians seeking research sources and insights in all of the above areas. With a variety of sources available, data can be difficult to find, understand, and properly interpret. MERIC helps bridge the gap between the data and those who need it.

2a. Provide an activity measure(s) for the program.

	FY 2019	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024
	Actual	Actual	Actual	Actual	Projected	Projected
Direct Activities						
Customers in Training/Presentations	2,501	1,585	1,843	1,843	891	1,750
Customer Assistance	996	1,247	1,281	1,281	959	978
E-Newsletter Recipients	2,955	3,420	7,821	9,822	10,018	10,219
Indirect Activities						
Website Page Views	556,043	320,786	397,531	735,844	500,000	500,000

Lingering impacts from COVID continue to limit the number of customer presentations. As more users find the information the need on the MERIC website, the need for direct Customer Assistance should decline. The website page views show the number of pages on the MERIC website (meric.mo.gov) that were visited in the fiscal year. Some of the large growth in FY2022 was driven by a single report that may not have the same impact in future years.

PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

HB Section(s): 3.150

Program Name: Research Team - (MERIC)

Program is found in the following core budget(s): Research Team - Missouri's Economic Research and Information Center (MERIC)

2b. Provide a measure(s) of the program's quality.

	FY 2019	FY 2020	FY 2021	FY 2022*	FY 2023	FY 2024
	Actual	Actual	Actual	Actual	Projected	Projected
How helpful is the information you receive?	79%	79%	74%	81%	81%	81%
How satisfied are you with the assistance?	60%	62%	52%	63%	63%	63%
How satisfied are you with MERIC knowledge?	76%	79%	80%	100%	80%	80%

Customer satisfaction survey questions scored from 1-5 (1-Very Dissatisfied to 5-Very Satisfied). Responses in 4 or 5 totaled for percent of respondents that indicate Very to Somewhat Satisfied or Always to Often Helpful.

*The FY 2022 customer survey had very limited responses. Work is being done to improve the response rate for FY 2023.

2c. Provide a measure(s) of the program's impact.

• Direct Outreach per Staff: Sum of MERIC reported customers assisted, people trained or in presentations, and delivered newsletter recipients in the year divided by staff level. FY 2020 to FY 2022 increase is due in part to increase in weekly newsletter recipients.

• Calculated Stretch Goal of 2% over FY 2022 actual.

• Baseline is set to FY 2019 Actual.

• Annual Cost Per Research Product & Service: Sum of MERIC total funding (federal grants and state revenue) divided by sum of new research products, presentations, and services in the year.

- Calculated stretch goal of reduced cost of 2% from FY 2022 actual year.
- FY 2020 and FY 2021 actual were lower due to unexpected changes in budget expenditures and staffing. That trend returned to more expected

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

HB Section(s): 3.150

Program Name: Research Team - (MERIC)

Program is found in the following core budget(s): Research Team - Missouri's Economic Research and Information Center (MERIC)

4. What are the sources of the "Other " funds?

N/A

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

MERIC's federal funding from the U.S. Department of Labor comes from the Bureau of Labor Statistics (BLS) and Employment and Training Administration (ETA). The BLS is authorized to collect labor market information pursuant to the 1884 statute (29 USC 1), an Act to Establish the Bureau of Labor, as amended. Section 14 of the Wagner-Peyser Act (29 USC 49 f(a)(3)(D)) authorizes the Secretary of Labor to reimburse the States to provide data for national statistical programs. In addition, both BLS and ETA cite the Workforce Investment Act of 1998 which amended the Wagner-Peyser Act by adding a new section 15, "Employment Statistics," which authorizes the Secretary of Labor to "...oversee the development, maintenance, and continuous improvement of a nationwide system of economic statistics..." as authorization for their programs.

6. Are there federal matching requirements? If yes, please explain.

N/A

7. Is this a federally mandated program? If yes, please explain.

This program is partially federally mandated. The BLS uses a cooperative agreement to fund cooperative statistical data collection programs, pursuant to the Federal Grant and Cooperative Agreement Act of 1977 (31 USC 6301-08). The specific statistical programs and program requirements funded through this Collective Income Group Cooperative Agreement are described in ongoing work statements with the states. In a similar fashion, ETA instructions for use of its funding are detailed to states in the annual Training and Employment Guidance Letter for the Workforce Information Grant to States.

However, the federal mandates associated with this program detail only a limited portion of the actual work activity and services provided. The program also provides for state-specific research needs, leveraging the unique access to data provided by the federal mandates. Types of state-specific support include economic research for recovery from the COVID-19 pandemic, critical research support in the state's effort to be the Best in the Midwest, and research assistance to legislative offices and other state-funded agencies in support of their missions.

CORE DECISION ITEM

2. CORE DESCRIPTION

The Workforce Innovation and Opportunity Act (WIOA) provides the framework and funding for a national workforce preparation and employment system designed to meet the needs of businesses and job seekers. WIOA programs and services are delivered statewide through the Local Workforce Development Boards, in accordance with federal and state statutes. The State of Missouri is obligated to distribute WIOA funds to sub-recipients, including the Local Workforce Development Boards. The Wagner-Peyser Act of 1933 (WP) is also administered by the division. WP funds provide labor exchange services, which are no fee employment services to individuals seeking employment and employers recruiting workers. In addition, this core supports special projects related to labor exchange, including Missouri's Certified Work Ready Communities (CWRC) initiative. The CWRC initiative helps develop a workforce with the fundamental skills required to successfully support business in today's economy, attract new business and develop a strong talent pipeline for the state's growth nationally and globally. This core also includes other federal and employment and training funds that complement the workforce system. The department is subject to Chapter 34 of the revised statutes of Missouri and must competively bid any legislatively appropriated project through the Missouri Office of Administration's Division of Purchasing.

~General Revenue includes: \$200,000 Launch KC and \$41,835 Future in Action.

~FY 2023 one-time funds of \$3,730,000 have been removed from the FY 2024 budget request.

3. PROGRAM LISTING (list programs included in this core funding)

Workforce Programs

CORE DECISION ITEM

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

(1) FY 2023 includes one-time appropriations of \$3,730,000 that have been removed from the FY 2024 budget request.

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.155 Program Name: Workforce Programs Program is found in the following core budget(s): Workforce Programs 1a. What specific priority does this program address? Meaningful Work

1b. What does this program do?

- Workforce Programs provide skill development, workforce preparation and job placement services to unemployed and under-employed individuals to ensure they are no longer solely reliant on public assistance. The participant may visit one of the Missouri Job Centers or the self-serve website, jobs.mo.gov.
- Workforce Programs provide business services to employers, assisting them to develop and maintain a workforce.
- These funds are primarily federal pass through dollars distributed according to federal and state regulations to subrecipients, primarily the Local Workforce Development Boards.

2a. Provide an activity measure(s) for the program.

Participants Served-On Line	85,267	51,699	54,284	39,789	41,778	20,533	21,149	21,995	23,095

*Number of individuals served represents customers receiving a service through the Missouri Job Centers and our self-serve website. The number of individuals seeking services is dependent on the current state of the economy. The unemployment rate and the number of citizens on public assistance directly affects the number of individuals served. The participant count has decreased over the years due to a change in reporting methodology from the Next Generation Job Center model (counting participants 3 years after exiting the system) to the current model which provides a more realistic number. COVID office closures directly affected the number services provided during FY 2021.

**Projections are based on the assumption the economy will slowly regain; therefore, projections for FY 2023 thru FY 2025 are estimated to increase by 3%, 4%, and 5% respectively.

Participant data was queried from customer data through MoPerforms.

2b. Provide a measure(s) of the program's quality.

\$- \$-	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	

Actual FY2022 wage is reported as of 4th Quarter FY2022, the most current data as of this submission. Updates reflecting final year-end performance will be made for the final budget submission.

* This graph represents participants' wages in the Wagner-Peyser program. The Wagner-Peyser program establishes and supports the job centers and job center services.

**To put a dollar value on these rankings, you have to depend on ranges. There are too many variables, including whether you're single or living with someone, whether you have kids, and other considerations. With that in mind, the average cost to live in the state of Missouri lies between \$2,202 and \$6,411 per month. Kansas City falls between \$2,281 and \$6,768. Living in St. Louis ranges roughly from \$2,307 to \$6,680.

*** FY 2021 median wage (most recent available) for program participants the 14 midwestern Missouri Job Center Connect comparative states. Data source is U.S. DOL.

Department of Higher Education and Workford	e Development	Budget Unit	55765C
Office of Workforce Development		_	
Apprenticeship Missouri	DI#1555006	HB Section	3.155

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Apprenticeship Missouri request is to change funding sources from competitive federal grants to budget stabilization funds. The FTE and funding requests are based on historic expenditures and staffing required to operate the program.

Missouri is recognized as a national leader in apprenticeships, achieving the rank of second in the nation for the number of new apprentices. A stable funding stream is required to continue growing and supporting apprenticeship programs in the state.

6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)

6a. Provide an activity measure(s) for the program.

	2019	2020	2021	2022*
Actual New Apprentices		7,329	7,865	9,928
Actual New Apprenticeshi ps		27	23	33

Data is reported on the federal fiscal year (Oct 1 - Sept 30) *Year to date - as of 9/19/2022

The number of apprentices and apprenticeships decreased during the pandemic and is rebounding this fiscal year.

6c. Provide a measure(s) of the program's impact.

	2019	2020	2021	2022*
Actual Completed		3,542	3,247	2,828
Apprentices				

Data is reported on the federal fiscal year (Oct 1 - Sept 30) *Year to date - as of 9/19/2022

Missourians completing apprenticeships earn an industry recognized credential and are prepared to meet employer needs in the workplace.

6b. Provide a measure(s) of the program's quality.

	2019	2020	2021	2022*
Actual Active Apprentices		13,559	14,194	16,511

Data is reported on the federal fiscal year (Oct 1 - Sept 30) *Year to date - as of 9/19/2022

During 2020, many apprenticeships were placed on hold during the pandemic.

6d. Provide a measure(s) of the program's efficiency.

	2019	2020	2021	2022*
Cost per new apprentice		\$130	\$98	\$44

Data is reported on the federal fiscal year (Oct 1 - Sept 30) *Year to date - as of 9/19/2022

Apprenticeship Missouri has proven to be an efficient means to recruiting apprentices.

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.145 Program Name: Workforce Development Program is found in the following core budget(s): Computer Prog. Coding 1a. What specific priority does this program address? Meaningful Work 1b. What does this program do? Funding will be used, through a vendor, to provide Missouri residents with computer programming and coding training. This General Revenue appropriation authority will ensure the participants are career ready for computer programming jobs in the state. It is projected this funding will serve at approximately 220 participants. Provide an activity measure(s) for the program. 2a. FY 2022 * FY 2021 * FY 2020 * FY 2023 FY 2024 FY 2025 Actual Projected Actual Projected Actual Projected Projected Projected Projected **Total Participants Served** 100 221 220 160 220 285 222 224 226 Note 1: The number of individuals seeking services is dependent on the current state of the economy. The unemployment rate and the number of citizens on public assistance directly affects the number of individuals served. The COVID-19 pandemic directly affected the number of services provided during FY 2021. Note 2: Projections are based on the assumption the economy will remain stable and fewer individuals will be in need of reemployment services.

* Data was provided by the sub-recipient LauchCode.

Other Funds: Other Funds: 2. CORE DESCRIPTION This request is for continuation of the core funding for Missouri University of Science and Technology (Missouri S&T) to continue its partnership with southwest Missouri secondary schools to increase the number of school districts utilizing Project Lead the Way (PLTW) and to provide further information to students regarding the importance of STEM education and the potential for future careers. This funding also helps school districts offset the costs associated with this program and serves as a state match for potential federal grant money. PLTW depends not only on rigorous and relevant pre-engineering and science curricula, but also on trained teachers to instruct the next generation of scientists and engineers. As a leading partner university, Missouri S&T will facilitate teacher training, provide supplemental professional development, and provide information on STEM education and careers for teachers, counselors and administrators throughout southwest Missouri. PLTW students (taught by PLTW teachers) are also exposed to STEM careers through professionals from local industries who supplement the curriculum through mentorships and workplace experiences.

3.160

Department of Higher Education and Workforce Development

Program Name: University of Missouri

Program is found in the following core budget(s): Missouri S&T Project Lead the Way

1a. What strategic priority does this program address?

Access and Success

1b. What does this program do?

Missouri University of Science and Technology will partner with Missouri secondary schools to increase the number of school districts utilizing Project Lead the Way (PLTW). This will include sponsorship of selected economically disadvantaged schools to pay basic PLTW fees.

PLTW helps students understand that STEM education is relevant in their lives and see potential for future careers. PLTW depends not only on rigorous and relevant pre-engineering and science curricula, but also on trained teachers to instruct the next generation of scientists and engineers. As a leading partner university, Missouri S&T will facilitate teacher training, provide supplemental professional development, and provide information on STEM education and careers for teachers, counselors and administrators throughout the Midwest. PLTW st udents (taught by PLTW teachers) are also exposed to STEM careers through professionals from local industries who supplement the cur riculum through mentorships and workplace experiences.

The national PLTW emphasis has changed from a rural STEM focus to metropolitan STEM requiring slight changes to the program. The new emphasis incorporates the previous focus of building successful partnerships with Missouri schools with the addition of partnerships with Kansas City area businesses who can support PLTW instruction. This program will help selected economically disadvantaged schools to either begin or continue to participate in PLTW.

A key measure of quality comes from progress in education as relayed to us by the school districts:

"Our district will purchase robotic kits, consumable supplies, engineering kits and greenhouse materials for our after school program for grades 3-5. Course materials for STEM classes will be purchased along with computer program technology, model engines, electrical circuits, DNA testing supplies, Math manipulatives and calculators for our 6-12 graders." Total impact 355 students Bunker Hill R-III School District \$10,000.

"High school math classes will integrate technology into the math classroom with a set of chrome books. Elementary science will purchase a 3D printer for use in science." Bakersfield R-IV School District \$10,000

"We would utilize the funding to implement the Project Lead the Way LAUNCH program in grades K-5. The money would be used to train 3 teachers as LAUNCH instructors. Following this, one of the teachers will implement instruction for students in grades 4 and 5 during the After School Stem Academy...STEM classes will be implemented on a rotational basis to students in grades K-5 by the remaining 2 teachers. An additional 2 teachers will receive PLTW LAUNCH lead teacher training the following year. Of course, supplies and equipment for the modules will also be purchased utilizing the grant monies." Thayer R-II School District, \$20,000

2. CORE DESCRIPTION

The core appropriation provides aid to community colleges. This request is a continuation of the community college base state aid appropriation consisting of general revenue and lottery funds totaling \$161,863,323. Included in this core is \$4,396,718 for maintenance and repair (M&R) purposes. In order to be eligible for state funds for maintenance and repair, local matching funds must be provided on a 50/50 state/local match rate.

FY 2023 one-time funds of \$10,000,000 have been removed.

CORE DECISION ITEM								
Budget Unit 55770C								
HB Section 3.200								

Missouri's community colleges served 46,177 students in fall 2020 (full-time equivalent enrollment), and granted 16,511 degrees and certificates in 2019-2020. After graduation, 97.0 percent of graduates who took an exam for professional licensure or certification successfully passed.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES: (1) FY 2020 appropriated funds include one-time supplemental federal funds of \$47,856,837 for COVID-19 related expenses.

(2) The FY 2021 appropriations include the federal stimulus funds for COVID-19 related expenditures. These funds were removed from the FY 2022 Budget as these funds are empty one-time appropriations.

(3) FY 2023 includes \$10 million one-time general revenue funds that are being removed from the FY 2024 budget request

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.200 Program Name: Community College Appropriations Program is found in the following core budget(s): Community College Appropriations 1a. What strategic priority does this program address? Affordability, Access and Success 1b. What does this program do? State appropriations are allocated to each of Missouri's 12 public community college districts according to a distribution model agreed upon by the colleges and the Missouri Department of Higher Education and Workforce Development. State appropriations support community colleges in their mission to provide increased educational attainment, to increase the availability of skilled workers, and prepare students for transfer to four-year institutions. Community colleges award certificates and associate degrees as well as non-credit workforce training credentials, and are generally open admission, although certain programs may have additional pre-requisites. Beginning in 2021-2022, some community colleges began offering baccalaureate level programs in some subject areas as approved by the CBHE. 2a. Provide an activity measure(s) for the program. Department of Higher Education and Workforce De	velopment	Budget Unit 55770C	
Division of Community Colleges			
Community Colleges - Core CPI Increase	DI#1555009	HB Section 3.200	
Community Coneges - Core of Timerease	DI#1555005		

The House Appropriations staff have documented the salary and benefit history for state employees generally as cost of living adjustments, within grade and increased medical contributions since 1996 in the "2021 Budget Fast Facts" (Page 103). Those increases have not been provided to public higher education institutions. Rather, community colleges, while grateful for recent increases, remain below FY 2010 TAFP funding levels by 1.8% overall.

The increase in the official Consumer Price Index for all urban consumers (CPI-U) from July 1, 2021 until June 30, 2022 is 8.5 percent. The inflationary factor of 7 percent was approved by the Coordinating Board of Higher Education and is applied to each four-year institution and State Technical College of Missouri's base core appropriation in order to determine the amount of the new decision item. For community colleges, the inflationary factor would be applied to the total core state appropriation to the sector, with the result constituting the related new decision item. A total of \$11,330,433 is recommended for community colleges; \$58,874,242 for public universities; and \$592,481 for the State Technical College of Missouri. The combined total new decision item for all three sectors is \$70,797,156.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

	FY 2023 Core	7% INFLATION	FY 2024 New
NAME	Budget	7% INFLATION	Core*
All Community Colleges	\$161,863,323	\$11,330,433	\$173,193,756
		4	40.004.000
Crowder College	\$7,497,073	\$524,795	\$8,021,868
East Central College	\$5,591,702	\$391,420	\$5,983,12
Jefferson College	\$8,193,048	\$573,513	\$8,766,56
Metropolitan Community College	\$32,760,405	\$2,293,228	\$35,053,63
Mineral Area College	\$6,458,434	\$452,090	\$6,910,52
Moberly Area Community College	\$8,287,038	\$580,093	\$8,867,13
North Central Missouri College	\$3,382,215	\$236,756	\$3,618,97
Ozarks Technical Community College	\$19,368,634	\$1,355,804	\$20,724,43
St. Charles Community College	\$11,778,787	\$824,515	\$12,603,30
St. Louis Community College	\$44,578,663	\$3,120,506	\$47,699,16
State Fair Community College	\$7,932,494	\$555,275	\$8,487,76
Three Rivers College	\$6,034,830	\$422,438	\$6,457,26

Based upon a 7 percent increase in the CPI-U, a total of \$11,330,433 is needed for community colleges; \$58,874,242 for public universities; and \$592,481 for the State Technical College of Missouri. The combined total for all three sectors is \$70,797,156.

*The breakdown of each institution's estimated funding is based upon MCCA FY 2023 allocations. Actual allocations may vary and will be determined by MCCA's updated, agreed upon formula for FY 2024.

6. PERFORMANCE MEASURES (If new decision item has an associat	ted core, separately identify projected performance with & without additional funding.)
6a. Provide an activity measure(s) for the program.	6b. Provide a measure(s) of the program's quality.
Total Full-Time Equivalent Enrollment	Professional Licensure and Certification
60,000 49,804	100% 97% 95% 95% 96% 96%
40,000 46,117	<u>44,781</u>
20,000	- 44,781
0	
FY 2020 FY 2021 FY	Y 2022 FY2018 Actual FY 2019 Actual FY 2020 Actual

6c. Provide a measure(s) of the program's impact.

*This data has not been collected since 2019. New measures are being evaluated for the January Budget Books

* FY 2021 Data will be available in December 2022

6d. Provide a measure(s) of the program's efficiency.

* Graduation and transfer rate of first-time full-time degree-seeking student. A transfer is a student who did not graduate within three years of first-time enrollment, but did enroll in a four-year institution. **FY 2021 data will be available in December 2022.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Inflationary increases for each sector will allow institutions to stabilize investments and retain staff needed to maintain or continue to improve their performance on measures related to student retention, completion, and employment. DHEWD over the past several years has worked cooperatively with public institutions to improve performance in these areas. Examples include:

Best Practices in Remediation: Another encouraging success achieved through these efforts is that fewer students are identified as requiring remediation, for both math and English. The percentage of students requiring remedial math has decreased from 17.6 percent (fall 2017) to 12.5 percent (fall 2021), and the percentage requiring remedial English decreased from 10.1 to 7.2 percent. In addition, the types of remediation courses are changing. Instead of a series of prerequisite remedial courses students need to complete before enrolling in the college-level course, corequisite remediation (or just-in-time remediation) allows students to enroll directly in the college- level course and receive supports in real time, as they are needed.

Missouri Math Pathways: Institutions are expanding general education math course offerings which align to a student's program of study. Since 2014, institutions have moved away from offering primarily College Algebra to students and increased offerings in Statistical Reasoning and Mathematical Reasoning & Modeling.

15 to Finish: The 15 to Finish initiative encourages full-time college students to take at least 15 credit hours a semester to put them on track to earn an associate degree in two years or a bachelor's degree in four years.

One indicator of the progress achieved through these efforts is completion and graduation rates. Total completions at public institutions were up .8 percent from 2015-16 through 2020-21 notwithstanding a decline in full-time equivalent enrollment from fall 2015 to 2020. Minority completions were up 19.3 percent.

In addition, many institutions have made significant advances in improving graduation rates. Graduation rates at public universities increased from 55.3 to 59.3 percent from 2015-16 through 2019-20, and the community colleges and State Technical College collectively increased from 24.1 percent to 31.0 percent.

Other	30,000 (1)	30,000 (2)	30,000	N/A		FY 2020	FY 2021 FY 2022

For FY 2021, an initial restriction of \$219,665 was released on 1/6/21.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

(1) FY 2020 appropriated funds include one-time supplemental federal funds of \$2,010,124 for COVID-19 related expenditures.

(2) The FY 2021 appropriations included the federal stimulus funds for COVID-19 related expenditures. These funds were removed from the FY 2022 Budget Request as these funds are empty one-time appropriations.

				udents who have completed	

Note: Completions Per FTE is a measure of the number of degree and certificate completer's in a given year as a ratio of total full-time equivalent enrollment, per 100 FTE. One-fourth of students completing a program would result in a ratio of 25 (25 students per 100). Completer's are weighted extra if they complete in selected STEM or health fields, or were Pell eligible. Some will have completed shorter-term certificates.

PROGRAM DE	SCRIPTION
Department of Higher Education and Workforce Development	HB Section(s): 3.205
Program Name: State Technical College of Missouri	
Program is found in the following core budget(s): State Aid for State Technica	al College of Missouri
4. What are the sources of the "Other " funds?	
Lottery Proceeds Fund (0291), Debt Offset Escrow (0753)	
5. What is the authorization for this program, i.e., federal or state statute, etc.	? (Include the federal program number, if applicable.)
Section 178.631, RSMo	
6. Are there federal matching requirements? If yes, please explain.	
No	
7. Is this a federally mandated program? If yes, please explain.	
No

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Inflationary increases for each sector will allow institutions to stabilize investments and retain staff needed to maintain or continue to improve their performance on measures related to student retention, completion, and employment. DHEWD over the past several years has worked cooperatively with public institutions to improve performance in these areas. Examples include:

Best Practices in Remediation: Another encouraging success achieved through these efforts is that fewer students are identified as requiring remediation, for both math and English. The percentage of students requiring remedial math has decreased from 17.6 percent (fall 2017) to 12.5 percent (fall 2021), and the percentage requiring remedial English decreased from 10.1 to 7.2 percent. In addition, the types of remediation courses are changing. Instead of a series of prerequisite remedial courses students need to complete before enrolling in the college-level course, corequisite remediation (or just-in-time remediation) allows students to enroll directly in the college-level course and receive supports in real time, as they are needed.

Missouri Math Pathways: Institutions are expanding general education math course offerings which align to a student's program of study. Since 2014, institutions have moved away from offering primarily College Algebra to students and increased offerings in Statistical Reasoning and Mathematical Reasoning & Modeling.

15 to Finish: The 15 to Finish initiative encourages full-time college students to take at least 15 credit hours a semester to put them on track to earn an associate degree in two years or a bachelor's degree in four years.

One indicator of the progress achieved through these efforts is completion and graduation rates. Total completions at public institutions were up .8 percent from 2015-16 through 2020-21 notwithstanding a decline in full-time equivalent enrollment from fall 2015 to 2020. Minority completions were up 19.3 percent.

In addition, many institutions have made significant advances in improving graduation rates. Graduation rates at public universities increased from 55.3 to 59.3 percent from 2015-16 through 2019-20, and the community colleges and State Technical College collectively increased from 24.1 percent to 31.0 percent.

PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

Program Name: University of Central Missouri

Program is found in the following core budget(s): Public Universities Appropriations

2b. Provide a measure(s) of the program's quality.

Graduate pass rates, nationally normed or nationally recognized assessment of general education.

Data from institutional reporting

*FY 2021 Data will not be available until December 2022

2c. Provide a measure(s) of the program's impact.

Data from IPEDS and institutional reporting

*FY 2021 Data will not be available until December 2022

Note: Completions Per FTE is a measure of the number of degree and certificate completers in a given year as a ratio of all student full-time equivalent enroallment, per 100 FTE. One-fourth of students completing a bachelor's degree every year at a four-year institution would result in a ratio of 25 (25 students per 100). Completers are weighted extra if they complete in selected STEM or health fields, or were Pell eligible, and some will have completed shorter-term certificates.

HB Section(s): 3.210

Data from institutional reporting

*FY 2022 Data will not be available until December 2022

Note: Institutional support includes expenditures for planning and executive direction, such as the governing board, legal services, planning, budgeting, institutional research, and other central executive activities; fiscal operations, including the investment office; employee personnel and records; and support services to faculty and staff not operated as auxiliary enterprises.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

PROGRAM DESCI	RIPTION
Department of Higher Education and Workforce Development	HB Section(s): 3.210
Program Name: University of Central Missouri	
Program is found in the following core budget(s): Public Universities Appropriat	ions
4. What are the sources of the "Other " funds?	
Lottery Proceeds Fund (0291); Debt Offset Escrow (0753)	
5. What is the authorization for this program, i.e., federal or state statute, etc.? ((Include the federal program number, if applicable.)
Chapter 174, RSMo	
6. Are there federal matching requirements? If yes, please explain.	
No	
7. Is this a federally mandated program? If yes, please explain.	
No

Note: Completions Per FTE is a measure of the number of degree and certificate completers in a given year as a ratio of all student full-time equivalent enrollment, per 100 FTE. One-fourth of students completing a bachelor's degree every year at a four-year institution would result in a ratio of 25 (25 students per 100). Completers are weighted extra if they complete in selected STEM or health fields, or were Pell eligible, and some will have completed shorter-term certificates.

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.220 Program Name: Missouri State University Program is found in the following core budget(s): Public Universities Appropriations 2c. Provide a measure(s) of the program's impact. PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

Program Name: Lincoln University Land-Grant Match

Program is found in the following core budget(s): Public Universities Appropriations

1a. What strategic priority does this program address?

Strengthen the university's land-grant missions of agriculture & food research and extension and increase State land-grant match support

1b. What does this program do?

Lincoln University is an 1890 land-grant institution. The Code of Federal Regulations requires 1890 land-grant institutions to match 100% of the federal appropriations with state resources. These funds (federal and state) are to support food and agriculture research as well as various extension programs across the State of Missouri. Lincoln University Extension Office provides research-based educational programs to Missouri's hard to reach populations, socially vulnerable populations, many of whom are ethnic minorities, who slip through the safety net of educational and other services. Specifically, Extension serves areas such as St. Louis, Kansas City, Jefferson City, and Southeast Missouri. The Research Program conducts cutting-edge research and develop technologies to address emergent, critical issues facing Missouri agriculture industry and communities. Small, limited-resource farmers improve production and increase profits and add to the economy of Missouri. Many limited-resource, minority, socially disadvantaged and beginning farmers have had better access to technical advice on animal and crop production, pest management tools and strategies that are simple, effective, and affordable.

2a. Provide an activity measure(s) for the program.

The identified critical issues and 5-year plan of work for the research and extension programs are required for the USDA-NIFA (National Institute of Food and Agriculture) review and approval. The proposed capacity research and extension projects associated with the critical issues must be submitted for the NIFA review and approval. Annual progress or final report of each research and extension project is required to be submitted. Currently, the Research Program has 28 active, NIFA-approved capacity (Evans-Allen) research projects. There are 29 capacity research projects and extramural grant projects conducted on our three farms. We track and report on a variety of outcomes for each program in operation. These include programs for farmers, Missouri seniors, childhood obesity reeducation and nutrition, youth development (e.g. 4H) an other areas.

2b. Provide a measure(s) of the program's quality.

The number of the research and extension projects approved by NIFA, the number of the research and extension articles published, the number of conference, workshop, seminar presentations, the number of conference, workshop, field day, seminar or outreach events organi zed, the number of people contacted or reached out, the number of extramural-funded grants and agreements received. We track a variety of quality measures such as small farmer satisfaction with our conferences, meetings and workshops, etc.

2c. Provide a measure(s) of the program's impact.

The number of the research and extension projects that address the state's critical needs, the number of the research and extension articles published in peer-reviewed journals, the number of people attending the research and extension events, the number of competitive grants received. There are a variety of measures such as the 39,906 farmers-to-families food boxes delivered by extension services.

2d. Provide a measure(s) of the program's efficiency.

The amounts of the capacity funds used to support the approved, impactful research and extension projects and activities, the amounts of extramural grant funding received to leverage federal and state funding in support of current research and extension programs.

HB Section(s): 3.225
PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

HB Section(s): 3.225

Program Name: Lincoln University Land-Grant Match

Program is found in the following core budget(s): Public Universities Appropriations

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

State match expenses are based on the 3% statutory reserve. Match amounts very and these are multi-year grants. Note: The notation of "estimated" is due to the fact that these awards were extended due to Covid and final reports are still pending.

As referenced in the chart above, Lincoln University has had to return federal allocations, earmarked for Lincoln University and the State of Missouri, because the University has not received funding from the state as required in the federal regulations. The university is required to match at 100% but can apply for a waiver. If the waiver is approved, the minimum match is 50%. Any unmatched federal allocations are returned to USDA/NIFA. To ensure that all available resources are fully utilized in the state, additional matching funds must be allocated to Lincoln University. The Federal Funds Returned chart is contingent upon approval of waiver requests. The amount needed to be fully funded is \$9,761,158 million, assuming that the federal allocation does not increase again in this year's federal budget cycle.

Historically the federal awards have a two year spending period. NIFA extended that timeline to 3 years for the award year 10/1/18-9/30/19, thus final expenses are due 9/30/21. Due to this extension, that year and subsequent years remain as estimated amounts. Effective in the 10/1/20-9/30/21 award year, the Extension award can be spent over a five year period, while the Research program remains a two year award allocation.

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.225 Program Name: Lincoln University Land-Grant Match Program is found in the following core budget(s): Public Universities Appropriations 4. What are the sources of the "Other " funds? N/A 5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.) This program is supported by federal appropriations based on the Second Morrill Act of 1890. 6. Are there federal matching requirements? If yes, please explain. Yes, the land-grant appropriations require a 100% match; please reference CFR Title 7, part 3419. Within the definitions in section 3419.1, matching funds are defined as "cash contributions from non-Federal sources made available by the State to the eligible institutions". 7. Is this a federally mandated program? If yes, please explain.

Yes, according to the Code of Federal Regulations (CFR), Title 7, part 3419, 1890 Land-Grant Institutions are subject to matching requirements. This regulation was enacted in 2000 with a match requirement of 30%, increasing each year to a 100% match requirement in 2007. The CFR allows institutions to apply for a waiver of 50%, but is based on three criteria: 1) Natural disaster, flood, fire, etc. 2) State and/or institution facing a financial crisis or 3) Demonstration of good faith to obtain funds. While the institution has received waivers in the past, waivers are not guarant eed. Lincoln University is an 1890 Land-Grant Institution. It receives an annual allocation around \$9,468,323. Thus, we must adhere to the matching requirement as specified in the CFR.

Data from IPEDS and institutional reporting

*FY 2021 Data will not be available until December 2022

Note: Completions Per FTE is a measure of the number of degree and certificate completers in a given year as a ratio of all student full-time equivalent enrollment, per 100 FTE. One-fourth of students completing a bachelor's degree every year at a four-year institution would result in a ratio of 25 (25 students per 100). Completers are weighted extra if they complete in selected STEM or health fields, or were Pell eligible, and some will have completed shorter-term certificates.

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.230 Program Name: Truman State University Program is found in the following core budget(s): Public Universities Appropriations 2d. Provide a measure(s) of the program's efficiency. What percent of total Education & General (E&G) unrestricted expenditures is spent on institutional support? Percent of Total Education and General (E&G) Unrestricted Expenditures 100% Percentage 80% 60% 40% 9% 11% 8% 7% 10% 20% 0% FY 2019 Actual FY 2020 Actual FY 2021 Actual Stretch Target **Base Target**

Data from institutional reporting

*FY 2022 Data will not be available until December 2022

Note: Institutional support includes expenditures for planning and executive direction, such as the governing board, legal services, planning, budgeting, institutional research, and other central executive activities; fiscal operations, including the investment office; employee personnel and records; and support services to faculty and staff not operated as auxiliary enterprises.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

Program Name: Missouri Western State University

Program is found in the following core budget(s): Public Universities Appropriations

2b. Provide a measure(s) of the program's quality.

Graduate pass rates, nationally normed or nationally recognized assessment of general education.

Data from institutional reporting

*FY 2021 Data will not be available until December 2022

2c. Provide a measure(s) of the program's impact.

Data from IPEDS and institutional reporting

*FY 2021 Data will not be available until December 2022

Note: Completions Per FTE is a measure of the number of degree and certificate completers in a given year as a ratio of all student full-time equivalent enrollment, per 100 FTE. One-fourth of students completing a bachelor's degree every year at a four-year institution would result in a ratio of 25 (25 students per 100). Completers are weighted extra if they complete in selected STEM or health fields, or were Pell eligible, and some will have completed shorter-term certificates.

HB Section(s): 3.245

PROGRAM DESCRIPTION **Department of Higher Education and Workforce Development** HB Section(s): 3.245 Program Name: Missouri Western State University Program is found in the following core budget(s): Public Universities Appropriations 2d.  Department: Higher Education Harris Stowe State University
 HB Section(s):

 Program Name: Entrepreneurship and Entrepreneurial Skills
 HB Section(s):

 Program is found in the following core budget(s):
 Public Universities Appropriations

1a. What strategic priority does this program address?

There is an urgent need to address the unmet needs of minority populations in the St. Louis region through an entrepreneurship center at Harris-Stowe State University by providing quality education, just-in-time consulting, and support activities for the small business and startup community.

1b. What does this program do?

To be a leader in small business development, innovation, and leadership development by catering to the needs of scholars and local and regional minority entrepreneurs, while focusing on advancing entrepreneurship education and programs across disciplines at Harris-Stowe State University

2a. Provide an activity measure(s) for the program.

Provide education, training, services, and internships that will assist scholars with planning and launching their businesses, managing personnel, creating financial and cash flow analysis, maintaining taxes, marketing their services and developing customer services. The MECCA will award a certificate of entrepreneurship for proprietary programming. The MECCA will establish several partnerships and joint events with local centers for entrepreneurship, including Network for Teaching Entrepreneurship (NFTE), Rise Collaborative Workspace, St. Louis Minority Business Development Office, St. Louis Small Business Development, Cortex, Arch Grants, Skandalis Center for Interdisciplinary Innovation and Entrepreneurship at Washington University and Chaifetz Center for Entrepreneurship at St. Louis University.

2b. Provide a measure(s) of the program's quality.

Provide or connect counseling services to existing, pre-venture and millennial entrepreneurs in developing markets. These services should lead to valuable experiences in global and intellectual entrepreneurship. Sponsor entrepreneurship workshops and educational seminars in collaboration with community partners such as St. Louis Minority Development Corporation, local Small Business Administration (SBA), banks such as PNC, Midwest BankCentre, and lenders both on-site and within the community.

2c. Provide a measure(s) of the program's impact.

The mission of the MECCA is to serve as a hub of entrepreneurial activities to foster the growth of emerging entrepreneurs and cultivating the next generation of entrepreneurs and leaders from underserved communities as future business owners. This will be realized by facilitating hands on educational training and services to complement formal classroom learning in a state-of-the-art entrepreneurship center for Harris-Stowe State University students and the community at large.

3. PROGRAM LISTING (list programs included in this core funding)

HSSU seeks to address the need for professionally trained law enforcement officers by implementing new initiatives including:

- LULETA (Lincoln University Law Enforcement Training Academy)-HSSU Partnership
- Law Enforcement (SLMPD and St. Louis City Sheriffs) Tuition Assistance Program
- Urban Policing Leadership Institute
- HSSU Law Enforcement Continuing Education Training

CORE DECISION ITEM

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

(1) This is a new program that was funded in FY 2022; therefore, there are no prior fiscal year expenses.

PROGRAM DESCRIPT	PTION	
Department: Higher Education Harris Stowe State University	HB Section(s): 3.250	
Program Name: Criminal Justice - Urban Policing Program		
Program is found in the following core budget(s): Public Universities Appropriations	IS	
		-

1a. What strategic priority does this program address?

A Blueprint for Higher Education's goal is to produce graduates with high-quality post-secondary degrees and certificates that are valuable and relevant to individuals, employers, communities and the state. Across the country, 86 percent of police departments are dealing with an officer shortage, and with the increasing desire to leave the career that percentage can be larger. HSSU seeks to address the need for professionally trained law enforcement officers.

1b. What does this program do?

Lincoln University and HSSU Partnership will continue to provide the training needed to St. Louis City Sheriffs to obtain their P.O.S.T. Certification. The very first academy class being held on HSSU campus began on September 6 2022, and has an estimated completion date in March 2023. Currently, this academy class has 24 recruits. Additionally, HSSU Law Enforcement Continuing Education Training will provide the mandatory ongoing training required by Missouri's Department of Public Safety at no costs to the officer or their department. Training classes will be taught on HSSU campus by high-skilled instructors and will be available to all law enforcement in the region.

2a. Provide an activity measure(s) for the program.

Activity measures will be determined by the successful implementation of all new initiatives. Success will be defined by the start and completion of initiatives. Outcomes will be defined quantitatively through the number of community participants, monies spent on initiatives and the amount of personnel needed to oversee initiatives.

2b. Provide a measure(s) of the program's quality.

Quality measures will be determined by assessments completed on all initiatives. Assessments shall be completed by external reviewers and participants to decide if the service provided enhances their professional developments or career advancement. This should determine the longevity of all initiatives.

2c. Provide a measure(s) of the program's impact.

Offering de-escalation and racial bias training that is culturally sensitive for all police departments in the state of Missouri to fulfill continuing education requirements. HSSU seeks to provide professional training that challenges racial, gender, sexuality and mental health biases while building inclusion and preventing harassment and bullying.

PROGRAM DESCRIPTION Department: Higher Education Harris Stowe State University HB Section(s): 3.250 Program Name: Criminal Justice - Urban Policing Program Program is found in the following core budget(s): Public Universities Appropriations 2d. Provide a measure(s) of the program's efficiency. Partnering with the St. Louis City Sheriff's Department, Missouri Department of Public Safety and Lincoln University Law Enforcement Training Academy to sponsor the post commission certification program. This is a 10 month program which will offer participants commission certification upon completion. 3. PROGRAM DESCRIPTION

Department of Higher Education and Workforce Development

Program Name: University of Missouri Campuses

Program is found in the following core budget(s): Public Universities Appropriations

1a. What strategic priority does this program address?

Affordability, Access and Success

1b. What does this program do?

This request is for core funding for the operation of the University of Missouri System. State aid supports public universities in their mission to provide increased educational attainment, increase the availability of skilled workers, and to provide additional training through graduate and professional programs.

The University of Missouri's vision is to advance the opportunities for success and well-being for Missourians through transformative teaching, research, innovation, engagement and inclusion. In enacting this vision, the University reaches Missourians in all 114 counties in the state with patient care, outreach and extension services. With this statewide emphasis, approximately \$30 million of appropriations provides match to Land Grant federal appropriations and provides for Extension Services in all Missouri counties. Additionally, University of Missouri is the state's only public research university providing a \$5.4 billion economic impact to the state each year. The addition of the NextGen Precision Health Initiative will be a state-of-the-art facility at the University of Missouri-Columbia available to all UM System researchers. The building is designed with a goal of rapid production of precision health technologies. Approximately \$60 million of the annual appropriation provides for important research and development opportunities to provide for Missouri citizen health and economic needs and advancement. The University educates more than 69,800 students conferring more than 18,100 degrees and certificates annually, which is over 50% of the Missouri four-year public institutions and represents the majority of high-earning degrees in the state most notably in the areas of health professions, business and engineering. Approximately \$90 million of annual appropriation provides funding for educating future doctors, dentists, pharmacists, optometrists, lawyers, and veterinarians.

There are four campuses in the University of Missouri System: University of Missouri - Columbia, Missouri University of Science & Technology, University of Missouri - Kansas City, and University of Missouri - St. Louis.

<u>The University of Missouri - Columbia</u> is a selective public degree-granting institution that offers undergraduate, graduate, doctoral and professional programs. Top areas of study include business management and marketing, ethnic, cultural, and gender studies, health professions and education. As a <u>selective institution</u>, the University of Missouri - Columbia automatically admits students who achieved a 24 or better on the ACT (or SAT equivalent), and first-time, full time degree-seeking students and transfer students who have completed 23 or fewer credit hours and attained a combined percentile score (high school and the ACT or SAT percentile rank) that is greater than or equal to 120 points. No more than ten percent of the first time, full time degree-seeking freshman class will have a combined percentile score of 119 or less.

HB Section(s): 3.255

Department of Higher Education and Workforce Development

HB Section(s): 3.255

Program Name: University of Missouri Campuses

Program is found in the following core budget(s): Public Universities Appropriations

<u>Missouri University of Science & Technology</u> is a highly selective public degree-granting institution that offers undergraduate, graduate, and doctoral programs. Top areas of study include engineering, engineering technologies and computer and information sciences. <u>As a highly selective institution</u>, Missouri University of Science & Technology automatically admits students who achieved a 27 or better on the ACT (or SAT equivalent), and first-time, full time degree-seeking students and transfer students who have completed 23 or fewer credit hours and attained a combined percentile score (high school and the ACT or SAT percentile rank) that is greater than or equal to 140 points. No more than ten percent of the first time, full time degree-seeking freshman class will have a combined percentile score of 139 or less.

<u>The University of Missouri - Kansas City</u> is a selective public degree-granting institution that offers undergraduate, graduate, doctoral and professional programs. Top areas of study include health professions, business management and marketing, and computer and information sciences. As a selective institution, the University of Missouri - Kansas City automatically admits students who achieved a 24 or better on the ACT (or SAT equivalent), and first-time, full time degree-seeking students and transfer students who have completed 23 or fewer credit hours and attained a combined percentile score (high school and the ACT or SAT percentile rank) that is greater than or equal to 120 points. No more than ten percent of the first time, full time degree-seeking freshman

<u>The University of Missouri - Saint Louis</u> is a selective public degree-granting institution that offers undergraduate, graduate, doctoral and professional programs. Top areas of study include business management and marketing, education, and health professions. <u>As a selective institution</u>, the University of Missouri - Saint Louis automatically admits students who achieved a 24 or better on the ACT (or SAT equivalent), and first-time, full time degree-seeking students and transfer students who have completed 23 or fewer credit hours and attained a combined percentile score (high school and the ACT or SAT percentile rank) that is greater than or equal to 120 points. No more than ten percent of the first time, full time degree-seeking freshman class will have a combined percentile score of 119 or less.

Data from EMSAS

2b. Provide a measure(s) of the program's quality.

Graduate pass rates, nationally normed or state-recognized assessment of professional or occupational licensure.

Department of Higher Education and Workforce Development

HB Section(s): 3.255

Program Name: University of Missouri Campuses

Program is found in the following core budget(s): Public Universities Appropriations

2c. Provide a measure(s) of the program's impact.

Data from IPEDS and institutional reporting

*FY 2021 Data will not be available until December 2022

Note: Completions Per FTE is a measure of the number of degree and certificate completers in a given year as a ratio of all student full-time equivalent enrollment, per 100 FTE. One-fourth of students completing a bachelor's degree every year at a four-year institution would result in a ratio of 25 (25 students per 100). Completers are weighted extra if they complete in selected STEM or health fields, or were Pell eligible, and some will have completed shorter-term certificates.

2d. Provide a measure(s) of the program's efficiency.

What percent of total Education and General (E&G) unrestricted expenditures is spent on institutional support?

Data from institutional reporting

*FY 2022 Data will not be available until December 2022

Note: Institutional support includes expenditures for planning and executive direction, such as the governing board, legal services, planning, budgeting, institutional research, and other central executive activities; fiscal operations, including the investment office; employee personnel and records; and support services to faculty and staff not operated as auxiliary enterprises.

Department of Higher Education and Workforce Development

Program Name: University of Missouri Campuses

Program is found in the following core budget(s): Public Universities Appropriations

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

4. What are the sources of the "Other " funds?

Lottery Proceeds Fund (0291); Debt Offset Escrow (0753)

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Chapter 172, RSMo

6. Are there federal matching requirements? If yes, please explain.

No

7. Is this a federally mandated program? If yes, please explain.

No

HB Section(s): 3.255

Department of Higher Education and Workforce Development

Program Name: UMKC Neighborhood Initiative

Program is found in the following core budget(s): University of Missouri - UMKC Neighborhood Initiative

Program is found in the following core budget(s):

	University of Missouri	Total
GR	388,000	388,000
Federal		
Other		
Total	388,000	388,000

Initiative is no longer a separate line item; it was rolled into UM Core in FY 2019.

1a. What strategic priority does this program address?

Research, Outreach, Economic Development

1b. What does this program do?

The program works with neighborhood leaders, campus partners and community stakeholders to build the capacity of volunteer neighborhood leaders and organizations in the Kansas City region. The center partners with faculty, staff and students to increase access to data and information for local community organizations. This appropriation allows the UMKC Center for Neighborhoods (CFN) in the Department of Architecture, Urban Planning and Design, to meet the critical needs of neighborhoods through technical assistance, capacity building, neighborhood planning and organizational assistance. The center provides a one-stop location where leaders access the available resources and capacities of UMKC, including faculty, staff and students. Training, workshops, and other opportunities with UMKC faculty and students are available. UMKC faculty benefit from these partnerships with opportunities for applied research and engaged teaching. Students benefit through high impact learning activities, including experiential learning, internships, practicum, and community-based coursework. UM System benefits through transfer of research innovations to the public, including volunteer and elected decision-makers.

2b. Provide a measure(s) of the program's quality.

The center tracks the number of neighborhood organizations in good standing with the state. The center also tracks grant applications by neighborhoods that have participated in our leadership training program and classes. Neighborhoods have received additional grants and public funding as a result of working with the center. Over the past five years, the neighborhoods that have attended classes have received more than \$2,000,000 in competitive small grant funds from locally available sources and infrastructure investments from KCMO.

Department of Higher Education and Workforce Development Program Name: University of Missouri - UMKC/MSU Doctor of Pharmacy Program

HB Section(s): 3.255

Program is found in the following core budget(s):

	University of	Total
	Missouri	
GR	1,068,000	1,068,000
Federal		
Other		
Total	1,068,000	1,068,000
	0.0/	<i>i</i> P

In FY 2020, there was an 8% core extraordinary withhold and 3% statutory withhold, which is \$1,068,000; these reductions continued into FY 2023.

1a. What strategic priority does this program address?

Access

1b. What does this program do?

This funding supports University of Missouri Kansas City's (UMKC) development of a satellite doctor of pharmacy program at Missouri State University(MSU). The staffing and distance education costs are part of UMKC's budget. The pharmacy students on the MSU campus are UMKC students, but receive student services at MSU. The satellite program admits up to 30 students per class. The first class of students was admitted in fall 2014. In FY 2014-15, the program completed renovation of a 15,000 square foot state-of-the-art distance education space on the MSU campus, and hired an associate dean to lead the site along with its first two faculty members and administrative support staff. In FY 2016, the school admitted the second class of students and hired additional faculty, administrative support staff, and IT specialist to assist with distance education. In subsequent years, the full cohort of faculty and staff were hired and are in place in FY 2022 including the associate dean for experiential learning, three additional faculty, and two full time administrative assistants. The appropriation supports the personnel and distance education costs for the program. The program is graduating highly knowledgeable and skilled pharmacists who are prepared to pass necessary board exams, achieve high placement rates in employment, and are skilled scientists who are ready to make contributions to new drug development, as well as drug delivery and understanding underlying health and disease.

2a. Provide an activity measure(s) for the program.

The program has been working since FY 2014-15 to recruit faculty and students and produce pharmacists, particularly in southwest Missouri with the UMKC/MSU joint expansion of UMKC's pharmacy program. Significant effort of faculty and staff in Kansas City, Columbia, and Springfield was required to deliver course work, establish and implement experiential education, and assess student learning. Execution of the Doctor of Pharmacy (PharmD) program in Springfield would not have been possible without the expertise of faculty in Kansas City and Columbia, as well as state -of-the-art distance education technology. The program saves the state money in that a totally separate, independently accredited, and fully staffed pharmacy program at MSU would cost approximately \$12-15 M/year in compensation and an additional \$1-3M in operational expenses. These costs do not include facilities, so the overall cost would be substantially higher yet.

Department of Higher Education and Workforce Development HB Section(s): 3.255 Program Name: University of Missouri - MU Medical School Residency Program Expansion Program is found in the following core budget(s): Universitv Total of Missouri GR 5,179,800 5,179,800 Federal Other 5,179,800 Total 5,179,800 60% of previous \$10.0 million appropriation level provided in FY 2019, or \$6 million less 3% reserve was received Starting in FY 2020, there was an 8% core extraordinary withhold and 3% statutory withhold of \$660,000; these reductions continued in FY 2023. 1a. What strategic priority does this program address? Access and success 1b. What does this program do? In response to the shortage of physicians in Missouri, the University of Missouri School of Medicine in Columbia, CoxHealth and Mercy Health Systems in Springfield increased medical school enrollment at MU by creating a clinical campus in Springfield, Missouri. At the University of Missouri School of Medicine in Columbia and most other medical schools, students complete four years of education to receive a medical degree and become a physician. Students primarily spend the first two years learning foundational aspects of medicine in educational facilities — such as classrooms, labs, libraries, and auditoriums - from a variety of biomedical scientists and physician educators. Students spend much of the final two

years of medical school in patient-care facilities such as hospitals and clinics. This clinical component of medical students education involves directly interacting with patients under the supervision of physicians practicing in a variety of specialties, such as family and community medicine, internal medicine, pediatrics, surgery, neurology, psychiatry, obstetrics, and gynecology.

This past year, MU received more than 3,300 applications to medical school, but it only had the capacity, prior to the expansion, to accept 96 new medical students annually. The clinical campus in Springfield and expanded educational facilities in Columbia allows MU to accept additional medical students annually, with 30-35 students from each class completing the second two years of their medical education in Springfield, resulting in 128 students in the Springfield campus expansion. The first expanded medical school class admitted 8 students in FY 2015, FY 2016, and FY 2017 followed by 32 in FY 2018, and another 16 in FY 2019 and FY20. In FY 2021 the class expanded to full capacity at 32.

This cooperative program is delivering the S&T mechanical engineering degree, and uses the same standards for admission, evaluation, assessment, and program delivery. Students from this program should attain similar graduation rates and job placement rates as students enrolled on the S&T campus. The S&T mechanical engineering degree is accredited by ABET. The off-campus delivery will be included as part of this accreditation, and must satisfy all of the ABET criteria. The regular six-year ABET evaluation is occurred in December 2020, with the final accreditation statement expected in summer 2021. The documentation and evaluation will provide evidence that the MSU cooperative is a delivery mode that is consistent with the on-campus delivery of the degree.

2c. Provide a measure(s) of the program's impact.

80% of graduating students will be employed or enrolled in graduate school within 6 months.

Department of Higher Education and Workforce Development Program Name Agriculture Extension Service Program is found in the following core budget(s): University of Missouri

HB Section(s): 3.255

1a. What strategic priority does this program address?

Extension/ Outreach/ Engagement/ Education and support specifically designed to respond to current needs, including agriculture and the environment; business and community development; family and youth development; and health and safety

1b. What does this program do?

By design, from the inception of Cooperative Extension in 1914, Extension programs are joint efforts of multiple government, public and other entities. This fact is evidenced in the complicated funding matrix that supports Extension programs carried out in Missouri with funding from federal, state, and county sources.

University of Missouri Extension (MU Extension) helps citizens across the state gain practical knowledge, understand and adapt to change, solve problems and make informed decisions. Using University research-based knowledge, MU Extension addresses a wide range of needs that fall into three grand challenges for the state of Missouri: economic opportunity, educational excellence and healthy futures. Every year, more than 2.5M Missourians turn to MU Extension for education and support specifically designed to respond to current needs, including agriculture and the environment; business and community development; family and youth development; and health and safety.

2a. Provide an activity measure(s) for the program.

Every year more than 2.5 million Missourians turn to MU extension to gain practical knowledge, solve problems, and make informed decisions. The exchange of ideas and the opportunity to mutually promote initiatives encourages innovation and economic development throughout the state. MU Extension plays an integral role in the knowledge production and discovery needed to expand understanding of the world, improve how people live and work, and drive scientific and technological innovation. MU Extension programs are important contributors to maintaining a highly skilled workforce within Missouri. More than ever, MU Extension plays a vital role to help Missourians compete in a global economy, providing the next generation of innovators with a firm foundation. Extension programming in ag and environment served over 100,000 farmers and businesses, over 226,000 youth contacts were made via the 4-H program and continuing education was provided to over 50,000 police and firefighters.

2b. Provide a measure(s) of the program's quality.

MU Extension operates across the state and drives a significant amount of economic activity. For every \$1 invested in MU Extension, \$13 of public value is returned. The total public value of MU extension is estimated at \$1.2 billion.

Department of Higher Education and Workforce Development Program Name Doctorate Degree

Program is found in the following core budget(s): University of Missouri

HB Section(s): 3.255

1a. What strategic priority does this program address?

Affordability, Access and Success

1b. What does this program do?

The University of Missouri is the state's only public university that may offer first-professional degrees, including dentistry, law, medicine, optometry, pharmacy, and veterinary medicine.

<u>The University of Missouri-Columbia (MU)</u> has been a significant contributor to Missouri's economy. Founded in 1839, MU is a public land-grant research university and the flagship of the UM System. The state's largest and most comprehensive university, MU is one of only six public universities nationwide that has a medical school, veterinary medicine college, and a law school on the same campus.

<u>The University of Missouri - Kansas City (UMKC)</u>, originally chartered in 1929 as a private institution, is now the largest comprehensive, fully accredited university in the Kansas City area. UMKC's medical, dental, and pharmacy schools are anchors in the UMKC Health Sciences District. Although UMKC doesn't own a health system, its faculty operate specialty programs at University Health, formerly Truman Medical Centers/University Health; Saint Luke's Hospital; and Children's Mercy Medical Center.

<u>The University of Missouri - St. Louis (UMSL)</u>, the College of Optometry was established in 1980 to promote and provide improved eye and health care for people throughout the country by preparing the next generation of optometrists and vision researchers. UMSL has partnered with several clinics with the St. Louis area to provide comprehensive eye care.

2b. Provide a measure(s) of the program's quality.

Quality of the UM System's professional programs is reflected within the professional/occupational licensure pass rate included on the University of Missouri Campuses core program description. Professional examination pass rates exceed 95% on average across the University of Missouri System. This appropriation provides the additional funding to support program costs related to educating future doctors, dentists, pharmacists, optometrists, lawyers, and veterinarians.

Department of Higher Education and Workforce Development HB Section(s): 3.255 Program Name Doctorate Degree Program is found in the following core budget(s): University of Missouri 2c. Department of Higher Education and Workforce Development Program Name Public Research

Program is found in the following core budget(s): University of Missouri

HB Section(s): 3.255

1a. What strategic priority does this program address?

Research and Development

1b. What does this program do?

The University of Missouri - Columbia (MU), is Missouri's only state-supported member of the Association of American Universities, and is committed to provide all Missourians the benefits of a world-class research university. The Roy Blunt NextGen Precision Health building celebrated its grand opening in October 2021, ushering in a new era of leading-edge research in a facility that unites researchers, clinicians, and industry partners. NextGen is taking on society's biggest health care challenges and expanding collaborative research efforts to bring precision health to patients, no matter where they live. From major urban centers to underserved rural communities, NextGen investigators are dedicated to delivering the next generation of personalized health care solutions. MU is also home to the nation's most powerful university research reactor and is the only U.S. provider of 5 life-saving medical isotopes used in cancer and cardiac drugs. For more than 50 years, the faculty and staff of the University of Missouri Research Reactor (MURR) have promoted groundbreaking research and developed life-saving radiopharmaceuticals, benefitting people across the country and around the world. MURR operates at 10 megawatts, 6.5 days a week and 52 weeks a year. The MURR facility enables research across many disciplines – from investigating ancient cultures and how plants respond to their environment to analyzing industrial materials and developing radiopharmaceuticals that have lifesaving clinical applications. The MURR facility is a reliable resource for researchers, scientists, engineers, and students across the country.

<u>Missouri University of Science & Technology</u>, is known as a STEM-focused research university. The Missouri Protoplex, an advanced manufacturing research and development facility, will serve as the anchor building for Missouri S&T's planned manufacturing technology and innovation campus. Missouri S&T envisions the Protoplex Facility as headquarters for a statewide ecosystem where experts, innovators, small and large businesses, entrepreneurs, educators, and policymakers develop and adopt the technologies needed to create and sustain manufacturing jobs in Missouri. The Protoplex will house Missouri S&T's facilities operations, design, construction and space management, and environmental health and safety operations. The project is scheduled to be completed by June 2023. Both the Missouri Protoplex and manufacturing technology and innovation campus will support Missouri S&T's efforts will help Missouri manufacturers become more innovative and competitive in the global marketplace. Missouri S&T is also home to the Kummer Institute for Student Success, Research and Economic Development, which will transform Missouri S&T and the south central Missouri region by cultivating leadership and technological innovation; promoting an entrepreneurial mindset; fostering expansion of academic-industry partnerships to address emerging needs of industry; and creating jobs and economic growth.

The University of Missouri-Kansas City (UMKC), is the only comprehensive research institution in the Kansas City metropolitan area, with significant research strengths in: cellular basis of disease, data analytics, advance materials and biomaterials, equitable education, improving patient and population health, environmental sustainability, civic engagement, global cultures, history and diversity, and artistic and creative expression. UMKC unveiled its new \$32 million high-tech research center to hundreds of guests in October 2021. This five-story, 57,800-square-foot Robert W. Plaster Free Enterprise and Research Center features 11 state-of-the-art research labs. The privately funded capital project is the largest in UMKC history, with more than 25 donors and will be a resource for the Kansas City community. From independent makers to entrepreneurs and innovators, the lab spaces are available to experiment and explore new technology, new innovations in materials, and breakthroughs in application and design. Some of the technology within the labs is not available anywhere else in Kansas City, demonstrating UMKC's leadership in research and education, while helping community partners do the same.

PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.255 Program Name Public Research Program is found in the following core budget(s): University of Missouri 2b. Provide a measure(s) of the program's guality. National research rankings are based on total research and development expenditures as reflected in program activity measure above. The ability to increase this basis stems from the university's ability to convert research proposals submitted to awards. The following charts reflect the University's growth in federal research proposals and awards over the past five years. **Federal Research Proposals Federal Research Awards** \$300 \$1,800 \$1,535 M \$257 M \$1,600 \$250 \$223 M \$216 M \$1,400 \$1,245 M \$1,158 M \$187 M \$1,200 in millions \$200 in millions \$1,042 M \$171 M \$1.004 M \$1,000 \$150 \$800 \$'S \$'s \$600 \$100 \$400 \$50 \$200 \$-Ś-FY 2018 FY 2017 FY 2019 FY 2020 FY 2021 FY 2017 FY 2018 FY 2019 FY 2020 FY 2021

2c. Provide a measure(s) of the program's impact.

Research and innovation emanating from the UM System's research, graduate studies, and economic development activities are continually advanced by faculty, staff, and student innovation and scholarship. As a result of research activity and spending by the UM System across all four universities, significant economic, employment and government revenue is generated throughout the state. In FY21, the UM System's research enterprise generated \$1.5 billion in economic impact and supported and sustained more than 10,000 jobs while producing over \$81.1 million in state and local tax revenue.

Department of Higher Education and Workforce Development

HB Section(s): 3.255

Program Name Public Research

Program is found in the following core budget(s): University of Missouri

2d. Provide a measure(s) of the program's efficiency.

Research and medical innovation provide multiple benefits beyond the economic and employment impacts generated by UM System operations. Significant additional economic expansion and employment are created through the commercialization of research activities within Missouri executed by the UM System and its collaborating partners, the employment of world-class researchers, and the attraction of additional federal research funding.

The chart below reflects the federal research dollars brought into the state of Missouri. One example of this federal research funding in FY 2021 comes from <u>The University of Missouri - Columbia (MU)</u>. Innovative students and faculty have taken on the challenge of researching a global pandemic from the heart of Missouri. Whether through harnessing a \$4 million grant from the National Institutes of Health to study wastewater, investigating COVID-19's effect on the clothing industry, developing a wearable bioelectronic device to monitor patients, identifying strategies used in nursing homes to overcome challenges, or breaking down the benefits and challenges of telehealth, MU has affected timely solutions.

These funds will be used to support landscape based agriculture water management research, maintain long-term research, support personnel such as faculty and support staff associated with the program, and deliver educational related programs. 2a. Provide an activity measure(s) for the program. Innovative integrated water management systems, crop diversification, integrated cropping systems, conservation, and value-added production research make the Greenley Research Center an essential component of the Agriculture Experiment Station in Missouri. For over 40 years, the facility has been successfully showcasing conservation research and demonstration. The facility featured the first terraces in the 1970s, the first long-term conservation tillage research (1970-1993), first long-term tillage/cover crop research (1994-current), first integrated drainage water management research (2001present), and the first drip irrigation on sloping soils (2015-present) in Missouri. Long-term research is essential for understanding sustainable and

profitable cropping systems, but support through grant agencies are short-term.

The facility has been actively supporting agriculture in Missouri with approximately 6,000 technical support calls/visits, 90 peer reviewed research papers, and 50 international and domestic graduate students advised by the Center.

This project showcases new conservation systems that are aimed at increased food production resiliency, improved water quality, and will evaluate these systems on a small-plot and large field scale. Long-term funding will also allow the expansion of research such as drip irrigation to cooperators with sloping soil in the region.

 cogram Name: Univ of Missouri Greenley Research Center Water Works for Agriculture in Missouri cogram is found in the following core budget(s): University of Missouri Provide a measure(s) of the program's quality. The program provides timely research-based information and recommendations on drainage water management (DWM) systems to producers, consumers, agribusiness representatives, extension specialists, and government agencies. DWM has reduced nitrate loss over 70% and phosphorus loss over 80% in water flow compared to free drainage systems. Corn and soybean production has increased over 20% with free drainage systems, while drainage water recycling has increased over 20% undergraduate students have studied enhanced crop management systems with this program and will be able to continue research to enhance the agriculture industry in Missouri. Over 20 graduate and over 20 undergraduate students have studied enhanced crop management systems with this program and will be able to continue research to enhance the agriculture industry in Missouri. A new faculty member in Soil Science-Agroecology-Hydrology has been hired to serve as state specialist for Landscape Position Management which is essential to address the variable landscapes in Missouri. Provide a measure(s) of the program's impact. Drainage workshops that utilize research based information from this program have trained over 400 farmer/contractors. In a survey of attendees, they have anticipated increasing installation of drainage 8%, controlled drainage 7%, and subirigation 53% over the next three years. Contractors who attend training programs have installed on average over 150,000 ft. of drainage water management piping annually. The number of trained contractors impacts approximately 30,000 acres each year and adds \$1.3 to \$2.4 million to Missouri's economy annually. Depending on the extent of precipitation, yield losses (6 to 11 bu/acre/day) due to saturated c		nt of Higher Education and Workforce Development	HB Section(s):	3.255

2. CORE DESCRIPTION

The Mizzou Law Veterans Clinic 'Clinic' has been in existence since the spring semester 2014. Under the supervision of three experienced attorneys, law students act as a veterans advocate (at no charge) in claims with the Department of Veterans Affairs (VA), as well as discharge upgrades as necessary. This clinical opportunity provides students with experiential learning credit, required by the American Bar Association as part of the school's accreditation requirements.

Since tithe clinic's inception just 9 years ago the clinic has secured over \$10 million in federal money for veterans.

FY 2019	FY 2020			the Clinic's Inception	Secured for Veterans Since Clinic's Inception	Trained and Matriculated

2b. Provide a measure(s) of the program's quality.

The Clinic is highly successful in achieving its mission to empower legal minds and provide our nation's veterans with compassionate and effective representation. The quality of the Clinic's program is demonstrated by the success rate in claims worked and discharge upgrades, the various advocacy and training opportunities the Clinic provides, as well as the confidence and trust that national organizations and individuals have placed in the Clinic.

The Mizzou Law Veterans Clinic is a nationally renowned Clinic. It is well known and respected within the Veterans Clinic community. Clinic attorneys have been selected to serve as the leaders of veterans organizations and speak at conferences. At our annual symposium, nationally known and respected veterans law advocates willingly attend and speak. Additionally, the Missouri Bar has provided grants to the Clinic and has requested that the Clinic train Missouri licensed attorneys.

Finally, the results in the awards the Clinic's clients are granted speak to the quality of the representation and service they receive at the Veterans Clinic. Clinic attorneys are held to a high standard, both as Mizzou Law faculty and as barred attorneys in Missouri.

 Department of Higher Education and Workforce Development
 HB Sectio

 Program Name: University of Missouri - MU School of Law Veterans Clinic
 Program is found in the following core budget(s): University of Missouri - MU School of Law Veterans Clinic

2c. Provide a measure(s) of the program's impact.

COMPENSATION

Since the Clinic's inception in 2014, we have secured over \$10 million in federal disability compensation for veterans, and this number grows exponentially each year as benefits continue until the claimant passes away. These veterans receive both retroactive payments (which often results in tens of thousands of dollars) as well as monthly payments as high as \$3,000-\$8,000 per month which continue for the life of the veteran. Therefore, the amount of money that the Clinic brings in for Missouri veterans grows exponentially as clients age, in addition to the new clents the Clinic secures new compensation benefits for. The granting of these compensation benefits can provide benefits for the veteran including vocational and healthcare benefits, and in some cases, educational and healthcare benefits for the veteran's family as well.

DISCHARGE UPGRADES

The Clinic also helps the clients get their discharge upgraded to a higher classification. Getting a discharge classification upgraded from an "other than honorable characterization" can be life-changing for a veteran because of the stigma attached with the discharge classification and can act as a bar for benefits for the veteran. By getting a discharge upgraded for a veteran, they can often be granted access to life saving medical care, counseling, educational benefits, and job opportunities. The Clinic has been successful with discharge upgrades for the clients.

ADVOCACY

The Clinic has been a major player in veterans law advocacy that has led directly to positive outcomes for veterans and clients. Most importantly, the Clinic has written amicus briefs in higher level federal courts, including the United States Supreme Court. These briefs have been instrumental in advocating for positive systemic change for veterans. Recently, the Clinic was part of an amicus briefing effort to extend the Agent Orange Presumption Exposure to include Blue Water Navy Veterans which was granted and opened the door for thousands of service members to be eligible for compensation benefits. The Clinic has been involved in publishing law review articles and other academic materials.

The Clinic is also active within various veteran advocacy groups which entails partnership and collaboration. That collaboration has resulted in valuable knowledge and practices that has led to positive outcomes for the Clinic's clients and veterans across the nation.

SYMPOSIUM

Every year the Clinic holds a symposium highlighting updates in veteran's law as well as hot topic veteran's law issues. Through symposia, the Clinic has been able to provide hundreds of CLE hours to attorneys and education related to veteran's law so the attorneys can help veterans in their own practice.

HB Section(s): 3.255

 Department of Higher Education and Workforce Development

 Program Name: University of Missouri - MU School of Law Veterans Clinic
 Program is found in the following core budget(s): University of Missouri - MU School of Law Veterans Clinic

2c. Provide a measure(s) of the program's impact. (continued)

TIGERS FOR TROOPS

Under our Tigers for Troops program, members of the Clinic travel to rural areas of Missouri where there are very few services for veterans. The Clinic partners with Mizzou Extension to get the word out to veterans that attorneys from the clinic will be in the area and will provide them with free legal consultations. Under the Tigers for Troops program, the Clinic's attorneys have traveled to 88 counties, consulted with 150 veterans, and trained more than 330 attorneys in veterans law.

STUDENT CLINICAL EXPERIENCE

The ABA requires that, as part of the a law student's education, the student receive some type of practical or clinical experience. The Veterans Clinic provides an opportunity for the law school to abide by this mandate from the ABA as well as provide law students with invaluable experience. By working with actual clients while in law school, students become imminently prepared upon graduation to step into the legal field with confidence. Additionally, because the opportunity to work with veterans is often extremely inspiring, the Clinic has produced many students who have gone through the Clinic that are now veteran advocates in private practice and have helped veterans themselves. The Veterans Clinic experience also instills in students (future attorneys) the value and worth of pro bono. Through the Clinical experience, hundreds of students have been impacted and have gone on to have a positive impact on

2d. Provide a measure(s) of the program's efficiency.

All of the work the Clinic does is accomplished with a small team of:

- one full time attorney, one fellow and one part-time attorney
- one full time administrative assistant and one part time
- one full time intake coordinator; and

Attorneys working in the Clinic often have teaching duties outside of the Clinic.. Additionally, attorneys have to spend a considerable amount of time fundraising in order to provide funding for yearly expenditures. With funding from a generous donor the Clinic has secured funding for two years for a Fellow who will help with client claims, appeals, and rural outreach.

With this small team, the Clinic has been able to accomplish what is described above and continue to push the envelope of veterans advocacy.

2. CORE DESCRIP									

The University of Missouri Rice Agronomy Program focuses on agronomic research to improve rice yield and quality through practices that make rice producers more profitable. Our research includes an array of cultivar studies to identify those that perform best for our area, including commercially available cultivars and advanced breeder lines with potential to come to market in the near future. We also focus on fertility and irrigation studies to reduce environmental footprint while increasing crop performance, profitability, and overall way of life for those involved both directly and indirectly with the Missouri rice industry.

Department of Higher Education and Workforce Development Program Name Fisher Delta Research Center for the Rice Breeders Association

HB Section(s): 3.255

Program is found in the following core budget(s): University of Missouri

1a. What strategic priority does this program address?

Agricultural Research

1b. What does this program do?

The University of Missouri Rice Agronomy Program focuses on agronomic research to improve rice yield and quality through practices that make rice producers more profitable. Our research includes an array of cultivar studies to identify those that perform best for our area, including commercially available cultivars and advanced breeder lines with potential to come to market in the near future. We also focus on fertility and irrigation studies to reduce environmental footprint while increasing crop performance, profitability, and overall way of life for those involved both directly and indirectly with the

2a. Provide an activity measure(s) for the program.

The Rice Agronomy Program has undertaken research projects under the following topics in both flood-irrigated and furrow-irrigated rice:

1) Cultivar trials at multiple sites across southeast Missouri studying 25 commercial and advanced lines and over 150 pre-commercial lines. Encased within the commercial trials is a planting date study with 5 different planting dates designed to provide Missouri producers with unbiased information on cultivar selection based upon planting date,

2) Seeding rate trials to determine the optimal seeding rate to maximize on-farm profitability,

3) Multiple fertility trials studying rice response to nitrogen and phosphorus. The goals of these studies are to maximize economic yield while at the same time reducing negative environmental impact that is possible from applying excessive nutrients beyond what is needed by the crop.

4) A wide array of furrow-irrigated rice trials designed to increase yield potential for the furrow-irrigated system. Previous work done by the UM State Rice Extension Specialist and others shows that a 33% reduction in water use is a readily attainable goal when converting flood-irrigated rice acres to furrow irrigation.

2b. Provide a measure(s) of the program's quality.

Due to the program being created in FY 2022, there are very limited quality measures. More data will be provided for what is now being measured in FY 2023.

2c. Provide a measure(s) of the program's impact.

At the 2022 Missouri Rice Field Day on August 23, 2022, over 100 attendees listened to presentations by those involved in rice research, including the UM Rice Agronomy Program. Attendees were briefed on what research is happening in Missouri and interacted with speakers including the Extension Rice Agronomist to express their interested in terms of future research plans and how our research can help their enterprise. This Field Day is one of many meetings and trainings that the UM Rice Agronomy Program helps conduct throughout the year.
PROGRAM DESCRIPTION Department of Higher Education and Workforce Development HB Section(s): 3.255 Program Name Fisher Delta Research Center for the Rice Breeders Association Program is found in the following core budget(s): University of Missouri 2d. Provide a measure(s) of the program's efficiency. Due to the program being created in FY 2022, there is not a measure of the program's efficiency to this point. Once the bulk of data is generated in FY 2023, efficiency measures will be made available. 3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.) **Program Expenditure History** 300.000 250,000 16,400 200,000 150,000 100,000 50.000 0 0 0 FY 20 Actual FY 21 Actual FY 22 Actual FY 23 Planned*

*Net of 3% Governor's statutory withholding.

4. What are the sources of the "Other " funds?

"Other" funds include project funding from the Missouri Rice Research & Merchandising Council, Missouri Soybean Merchandising Council, university startup funding, and unrestricted gifts from industry partners.

□GR □FEDERAL ■OTHER ■TOTAL

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

172.010 - 172.950, RSMo

6. Are there federal matching requirements? If yes, please explain.

No

7. Is this a federally mandated program? If yes, please explain.

No

Department of Higher Education and Workforce	e Development	Budget Unit	57511C, 57531C, 57551C, 57571C, 57725C, 57591C,
Division of Four-Year Colleges and Universities	6	-	57601C, 57621C, 57641C, 57661C, 57681C
Public Universities - Core CPI Increase DI#555011		HB Section	3.210, 3.215, 3.220, 3.225, 3.230, 3.235, 3.240, 3.245,
		-	3.250, 3.255

The House Appropriations staff have documented the salary and benefit history for state employees generally as cost of living adjustments, within grade and increased medical contributions since 1996 in the "2021 Budget Fast Facts" (Page 103). Those increases have not been provided to public higher education institutions. Rather, public universities, while grateful for recent increases, remain below FY 2010 TAFP funding levels by 5.7% overall.

The increase in the official Consumer Price Index for all urban consumers (CPI-U) from July 1, 2021 until June 30, 2022 is 8.5 percent. The inflationary factor of 7 percent was approved by the Coordinating Board of Higher Education and has been applied to each four-year institution and State Technical College of Missouri's base core appropriation in order to determine the amount of the new decision item. For community colleges, the inflationary factor would be applied to the total core state appropriation to the sector, with the result constituting the related new decision item. A total of \$11,330,433 is recommended for community colleges; **\$58,874,242 for public universities**; and \$592,481 for the State Technical College of Missouri. The combined total new decision item for all three sectors is \$70,797,156.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

Applying a 7 percent increase in the CPI-U, a total of \$11,330,433 is needed for community colleges; **\$58,874,242 for public universities**; and \$592,481 for the State Technical College of Missouri. The combined total for all three sectors is \$70,797,156.

7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:

Inflationary increases for each sector will allow institutions to stabilize investments and retain staff needed to maintain or continue to improve their performance on measures related to student retention, completion, and employment. DHEWD over the past several years has worked cooperatively with public institutions to improve performance in these areas. Examples include:

Best Practices in Remediation: Another encouraging success achieved through these efforts is that fewer students are identified as requiring remediation, for both math and English. The percentage of students requiring remedial math has decreased from 17.6 percent (fall 2017) to 12.5 percent (fall 2021), and the percentage requiring remedial English decreased from 10.1 to 7.2 percent. In addition, the types of remediation courses are changing. Instead of a series of prerequisite remedial courses students need to complete before enrolling in the college-level course, corequisite remediation (or just-in-time remediation) allows students to enroll directly in the college-level course and receive supports in real time, as they are needed.

Missouri Math Pathways: Institutions are expanding general education math course offerings which align to a student's program of study. Since 2014, institutions have moved away from offering primarily College Algebra to students and increased offerings in Statistical Reasoning and Mathematical Reasoning & Modeling.

15 to Finish: The 15 to Finish initiative encourages full-time college students to take at least 15 credit hours a semester to put them on track to earn an associate degree in two years or a bachelor's degree in four years.

One indicator of the progress achieved through these efforts is completion and graduation rates. Total completions at public institutions were up .8 percent from 2015-16 through 2020-21 notwithstanding a decline in full-time equivalent enrollment from fall 2015 to 2020. Minority completions were up 19.3 percent.

In addition, many institutions have made significant advances in improving graduation rates. Graduation rates at public universities increased from 55.3 to 59.3 percent from 2015-16 through 2019-20, and the community colleges and State Technical College collectively increased from 24.1 percent to 31.0 percent.

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

EDA Build to Scale (B2S) Program Awards are made under Section 27 of the Stevenson-Wydler Technology Innovation Act of 1980, as amended (15 U.S.C. § 3722)

6. Are there federal matching requirements? If yes, please explain.

Yes, this state appropriation provides the cash match for a federal award made under the program authorization listed above.

7. Is this a federally mandated program? If yes, please explain.

No.

PROGRAM DESCRIPTION									
Department of Higher Education and Workforce Development Program Name: University of Missouri - Center for National Pandemic Resiliency	HB Section(s): 3.260								
Program is found in the following core budget(s): University of Missouri - St. Louis Intern	ational Collaboration								
1a. What strategic priority does this program address? Coordination									
1b. What does this program do?									
The "Center for National Pandemic Resiliency in Biosciences" ("Center") will leverage St. Lou and development, biotech research and development, commercialization, production, and log care and food supply chain. By aligning and expanding regional assets and partners across	gistics to ensure a resilient economy and strengthen the health								

care and food supply chain. By aligning and expanding regional assets and partners across four pillars – 1) development, adaptation, & commercialization of new technologies and new companies; 2) pilot facilities to scale manufacturing of new product candidates in development and testing; 3) workforce; and 4) growing domestic resiliency capacity, including by attracting relevant innovations (and associated economic activity) from abroad for piloting and scaling in a variety of U.S. environments, the Center will build capacity for future pandemic response and recovery while creating new economic opportunity, diversifying the economy, advancing health and economic equity, and building health and economic resiliency. Through the Center, the St. Louis region will serve as a laboratory for pandemic-related innovation that builds national health and economic resiliency.

2a. Provide an activity measure(s) for the program.

The following measures will be assessed subsequent to the first year of program funding:

Total # of client technologies/innovators/companies sourced & engaged; Total # of plans awarded Proof of Concept funding from Center; Total # of introductions to 3rd party experts (across all project steps); Total # of clients in introductory grant training (e.g., SBIR/STTR); Total # of grant or contract proposals submitted; Total # of pandemic-related pilot interventions launched in region

2b. Provide a measure(s) of the program's quality.

The following measures will be assessed subsequent to the first year of program funding:

Total # of businesses created/attracted to the region; Total # of outside grants (SBIR or other) awarded to clients; Total # of companies raising 3rd party capital

(e.g., venture capital, other non-grant financing, or contracts); Total \$ of funding raised and/or revenue generated

2c. Provide a measure(s) of the program's impact.

The following measures will be assessed subsequent to the first year of program funding: Total \$ of Private Investment generated; Total Number of Direct Jobs Created/Retained

The Missouri Te	lehealth Network	(MTN) gives r	patients in ur	derserved areas ac	cess to University of Mis	souri Health C	are specialists	without leav	ing their
					tional costs. While all s		•		-

one of the most developed telehealth networks in the country. The MTN started out with nine sites in 1994 and has since expanded to more than 200 sites in 56 Missouri counties. Besides providing access to excellent healthcare for patients, MTN provides a mechanism for clinical research, continuing education opportunities for healthcare providers, and homeland security efforts related to disaster preparedness. This request is for a core appropriation of \$437,640 for Missouri Telehealth Network and \$1,500,000 for Show-Me Extension for Community Healthcare Outcomes (ECHO).

 Department of Higher Education and Workforce Development
 HB Section(s): 3.270

 Program Name: Division of Four-year Colleges and Universities
 Program is found in the following core budget(s): University of Missouri - Missouri Telehealth Network

 2c. Provide a measure(s) of the program's impact.
 The Missouri Telehealth Network's goal is to increase the use of telehealth in Missouri. One way to measure the impact of the educational programs is to ask what changes the learners will incorporate as a result of the educational programming. The following is a sampling of answers to the question: "What changes do you plan to incorporate into your practice as a result of attending this activity?" (activity is Telemedicine ECHO)

 1 - Growing telemedicine practice

 2 - More productive sessions

 3 - Using available resources

- 4 Structuring meaningful and sustainable telehealth solutions
- 5 Sharing what I have learned with others
- 6 Connecting the right people to the right project to increase telehealth in Southeast Missouri
- 7 Use the information with telehealth consulting clients

2d. Provide a measure(s) of the program's efficiency.

The work of the Missouri Telehealth Network including education, training, and support is designed to be efficient. Our prog ramming has touched all 114 Missouri counties and the City of St. Louis. Missouri Telehealth Network demonstrates efficiency through their Show -Me ECHO program that allows small expert groups to mentor dozens to hundreds of learners in any given year. The efficiency is also felt by the learners who jo in remotely which minimizes travel time and expenses often experienced when partaking in similar learning experiences. In calendar year 2021, more than 3,300 i ndividuals across all Missouri counties participated in a Show-Me ECHO program. When asked via survey, many participants say that they share what they learn with others in their workplace and larger community.

During the COVID-19 pandemic, telemedicine became a necessary tool in providing healthcare; however, most primary care providers have had no formal training in utilizing telemedicine. In response to the COVID 19 pandemic, the Missouri Telehealth Network leveraged its techn ical expertise and existing relationships to quickly organize a Telehealth ECHO to share the latest information regarding Telemedicine best practices, re gulations, operations, and reimbursement. Few immersive telehealth opportunities were available before the pandemic, and many students and practitioners alike received limited exposure to telehealth in practice.

Recognizing the need for such training, the Missouri Telehealth Network has convened a committee of clinicians and telehealth experts from MU SOM Continuing Education, MU Sheldon Clinical Simulation Center, UMSL College of Optometry, MUHC Virtual Care, MU Family & Community Medicine, Sinclair School of Nursing and UMKC College of Pharmacy. Many telehealth training programs focus on only one profession; however, this effort is purposely interprofessional and aims to increase knowledge of telehealth best practices, informed consent, reimbursement/billing, and t echnology. Portions of this training opportunity will be asynchronous offering learners the convenience and efficiency of participating at a pace and tim e that works best for them.

 Department of Higher Education and Workforce Development
 HB Section(s): 3.270

 Program Name: Division of Four-year Colleges and Universities
 Program is found in the following core budget(s): University of Missouri - Extension for Community Healthcare Outcomes

1a. What strategic priority does this program address?

Access and success

1b. What does this program do?

Telemedicine increases access to specialty care, but it does not increase capacity of individual specialists. Show-Me Extension for Community Healthcare Outcome (ECHO) is a replication of the Project ECHO program developed at the University of New Mexico. Project ECHO is a lifelong learning and guided practice model that revolutionizes medical education and exponentially increases workforce capacity to provide best-practice specialty care and reduce health disparities. It links expert specialist teams at an academic 'hub' with primary care clinicians in local communities – the 'spokes' of the model. Show-Me ECHO has always educated physicians and other primary care providers; however, the application of the model has grown to include PK-12 educators and other professions contributing the health and wellbeing of Missourians.

Show-Me ECHO uses videoconferencing to connect a group of community clinicians and other service providers to a multidisciplinary group of specialists around a specific disease state or condition. Together, they participate in regularly scheduled Show-Me ECHO clinics, which include a short but high value lecture combined with mentoring through patient/client/student case presentations and discussions. As the community providers learn about the disease state or condition and with the mentorship of the specialists, they become a regional center of excellence that can help provide specialty care to patients/clients/students who might not otherwise be able to receive care. Show-Me ECHO increases the number of providers who will treat complex conditions. Relationships are created between specialists and community providers so that patients with chronic conditions can stay in their community for care without being referred to specialists unless completely necessary.

Show-Me ECHO facilitates comprehensive, best-practice care for patients with complex health conditions, within their local community. Show-Me ECHO enables collaboration between specialty and primary care that expands access to best-practice medical care across Missouri.

Department of Higher Education and Workforce Development HB Section(s): 3.270 Program Name: Division of Four-year Colleges and Universities Program is found in the following core budget(s): University of Missouri - Extension for Community Healthcare Outcomes 2c. Provide a measure(s) of the program's impact. In calendar year 2021, Show-Me ECHO continued to share the most up-to-date information about COVID-19. ECHO topics included COVID-19, COVID-19 and Kids, Missouri Moms and Babies, Managing Hospital and Patients in a Pandemic, and Post-Acute Care/Long-Term Care. These ECHOs provided 11,863 person hours of COVID-19 instruction to 1,284 unique learners from 678 organizations in 105 Missouri counties and the City of Columbia. The Opioid Use Disorder ECHO doubled the hours of instruction it delivered in calendar year 2021 to 1,045 hours earned by 276 individuals from 56 counties. The Suicide Prevention ECHO, new in 2021, provided 911 hours of instruction earned by 264 individuals from 45 counties. In 2021, participants from every Missouri county brought their knowledge back to serve Missourians in their communities. 2d. Provide a measure(s) of the program's efficiency. The Show-Me ECHO program's efficiencies lie in its virtual nature. In calendar year 2021 there were more than 3,300 participants from over 1,000 organizations including healthcare, education, and other social services and government organizations. The maps below show where the Show-Me ECHO participants come from. Grey counties indicate provider participation. In addition, all the nearly 400 cases discussed during sessions were patients of participants serving in health professions shortage areas. Department of Higher Education and Workforce Development

HB Section(s): 3.275

Program Name: Spinal Cord Injury

Program is found in the following core budget(s): University of Missouri - Spinal Cord Injury

2b. Provide a measure(s) of the program's quality.

Each Spinal Cord Injury/Disease Program (SCIDRP) proposal is reviewed by external reviewers and the Director. All of the external reviewers for SCIDRP proposals are well-established, highly successful, and well-published (h-index greater than 20) expert neuroscientists in the areas of spinal cord injury and congenital or acquired disease processes of the spinal cord. In the current round of reviews, all of the external reviewers were from outside of Missouri. These individuals have served on NIH study sections, foundation review panels, and international grant review forums within the neuromuscular space. In addition to providing comments on SCIDRP proposals, reviewers numerically score the proposals based on several specific categories as well as overall (1=highest, 10 - lowest). Reviewers follow the NIH scoring guide and a template similar to the NIH format, thereby allowing applicants to have a familiar review format, but also constructive criticism for future NIH submissions. All funded proposals have had an overall score of 3.0 or higher (excellent-to-outstanding). The program operation is designed to identify and fund very high-quality biomedical research proposals.

2c. Provide a measure(s) of the program's impact.

Many of the funded proposals have resulted in at least 1-2 publications. Several of the funded proposals have resulted in subsequent successful submissions of research grants to national or private funding agencies. Many of the rehabilitation-type proposals have resulted in improvements in the design or use of products (e.g. wheelchairs) for individuals with spinal cord-related disabilities.

2d. Provide a measure(s) of the program's efficiency.

The SCIDRP reviews proposals and makes funding decisions usually within 2 months of receipt. This turn around time is as good or better than those for National Institutes of Health (NIH), National Science Foundation (NSF), and most private biomedical funding agencies.

 Department of Higher Education and Workforce Development
 HB Section(s): 3.280

 Program Name: Missouri Kidney Program

 Program is found in the following core budget(s): University of Missouri - Missouri Kidney Program

 1a. What strategic priority does this program address?

 Affordability, Access, and Success

 1b. What does this program do?

 The Missouri Kidney Program (MoKP) is a state funded program, administered by the University of Missouri School of Medicine, providing financial assistance with transportation to and from dialysis, medication assistance, and insurance premium assistance to eligible Missourians who have kidney failure and are on dialysis, or have received a kidney transplant. The program supports education and research, partners with dialysis centers and transplant centers statewide, and has longstanding expertise in health insurance coverage for kidney disease, including MO HealthNet (Medicaid) and Medicare. All participants must meet residency, citizenship, financial eligibility, and medical conditions requirements.

	artment of Hi				opment	HI	B Section(s):	3.280	
	gram Name: M gram is found				versity of Missouri	- Missouri Kidney Program

	1,356	1,242	1,181	1,193	1,205	188	182	188	

Stretch Targets:

-Maximize appropriation by utilizing federal/other programs to increase the number of participants served by 1%.

-Work with dialysis and transplant facilities that serve Missouri residents to continue informing renal social workers of both federal/state changes that could affect their patients and also to inform them of resources available to their patient population.

-Collect and analyze more granular data when available with the help of expert partners, to better target our assistance to serve those most in need. Expert partners with whom MoKP will continue to work with are National Kidney Foundation, Missouri Hospital Association, QSource ESRD Network 12, MO HealthNet, Missouri Primary Care Association, MO Department of Health and Senior Services Organ Donor Program, and MU Show Me ECHO.

The decline in the number of participants served during FY 21 and 22 reflects the impact of the Covid pandemic. We saw unprecedented turnover in renal social workers in dialysis and transplant facilities throughout the state. The program requires patients who apply for MoKP to be referred by renal social workers. Covid restrictions also meant that social workers were working remotely, were distracted by Covid protocols, and were managing more hospitalizations and deaths. This meant that they were less likely to do the work required to make a referral to MoKP. We also lost participants due to death from Covid complications. We expect to see participant numbers begin to increase this year, as dialysis staffing stabilizes, and Covid hospitalizations and deaths decrease. Alarmingly, kidney damage/disease has emerged as the most common risk factor for serious Covid infection/hospitalization, and more than 30% of patients hospitalized with Covid 19 develop kidney injury and more than 50% of patients in the ICU with kidney injury may require dialysis.

	gram Name: Missouri Kidney Program
ro	gram is found in the following core budget(s): University of Missouri - Missouri Kidney Program
d.	Provide a measure(s) of the program's efficiency (continued).
	Measure: The number of MoKP participants for whom we maximize coverage under Medicare Savings Programs (QMB and SLMB) and Low- Income Subsidy (LIS).
	The Qualified Medicare Beneficiary (QMB) is a Medicare Savings Program that pays for the Medicare Part A (hospital insurance) premium, the Medicare Part B (medical insurance) premium, and the Part B deductible. The program also pays Medicare cost-sharing expenses such as coinsurance and copayments (typically 20% of the approved amount). Part B also covers immunosuppressant medications required following a kidney transplant. The average cost savings for a hemodialysis patient is \$21,088 when enrolled in the QMB program. By ensuring eligible participants are enrolled in QMB, it shifts the burden off Medicaid and MoKP.
	The Specified Low-Income Medicare Beneficiary (SLMB) Program helps pay for Medicare Part B premiums. The average cost savings per person is \$2,041/year.
	Low Income Subsidy (LIS) provides full or partial waivers for many out-of-pocket cost-sharing including premiums, deductibles, and co-payments and provides full or partial coverage during the coverage gap for Medicare Part D plans. ** Immunosuppressant medications are covered under
	MoKP Participants on QMB/SLMB Programs
	<u>FY 2022</u>
	QMB 331
	SLMB 212
	Stretch target:
	We will continue to coordinate with our program dedicated MODSS eligibility specialist on all MO HealthNet cases.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

NOTES:

(1) FY 2021 appropriation includes federal stimulus funds of \$288,022 for COVID-19 related expenditures. These funds were removed from the FY 2022 Budget as these funds were empty one-time appropriations.

(2) FY 2023 includes \$120,000 one-time appropriation. These funds were removed from the FY 2024 budget request.

2. CORE DESCRIPTION

The State Seminary Fund is authorized by Section 172.610, RSMo, and was created for the support of the University of Missouri's College of Agriculture and the School of Mines and Metallurgy. The State Treasurer is empowered to collect the interest on bonds when due, credit the Seminary Fund, and pay the Board of Curators the annual income received in the Seminary Fund upon requisition by the Board of Curators. This request is for \$275,000 in earnings from principal held in the Seminary Fund Investment Income. The \$3,000,000 in principal in Government Securities that were being held in the Seminary Fund Investments were removed due to changes in investment strategies as this fund is managed by the State Treasurer's Office and is no longer needed; therefore, was removed from the FY 2022 budget.

2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Statutory authority for the Fast Track Workforce Incentive Grant is found in Section 173.2553, RSMo. Implemented in FY 2020, this need-based program addresses workforce needs by encouraging adults who have not yet received a bachelor's degree to complete a certificate, degree, or industry-recognized credential in an area designated by the Coordinating Board for Higher Education as high need. Amendments to the program in 2022 increased the number of eligible training providers, expanded the grant to apprenticeships, and removed the loan-related requirements. Prior to the 2022 amendments, the grant could convert to an interest-bearing loan, which is believed to have restricted utilization of the grant. As a result, expenditures for the first three years of the program were significantly less than the amount transferred, resulting in almost \$11.7 million available to spent in FY 2023 when the \$7 million cash balance carried over from FY 2022 is combined with the more than \$4.5 million FY 2023 transfer appropriation. However, the current FY 2023 core appropriation will only support \$5.2 million in expenditures. It is expected that utilization will increase significantly in FY 2023 given the changes enacted in 2022. The current projected increase is based on the best information available at this time but is likely not precise. As a result, although FY 2023 projected expenditures of \$4.7 million are less than the \$5.2 million core appropriation, it is possible scholarship expenditures could exceed the core appropriation. This request is for an increase to the core appropriation of \$800,000 to ensure all eligible Fast Track applicants will be awarded.

House Bill Section 3.080

n/a

SUPPLEMENTAL NEW DECISION ITEM Department of Higher Education and Workforce Development **House Bill Section** 3.080 Division of Missouri Student Grants and Scholarships Original FY 2023 House Bill Section, if applicable Core - Fast Track Workforce Incentive Grant DI# 2555001 n/a 3. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why, FY 2023 expenditures are estimated to be \$4,753,650. This is based on an anticipated 1,290 eligible students receiving an average award of \$3,685. Based on the current core appropriation of \$5.2 million, less than \$500,000 in spending authority would be available if expenditures exceed estimates. This supplemental request would provide an additional \$800,000, bringing the FY 2023 core appropriation to \$6 million and making it possible to spend approximately \$1.3 million above projected expenditures in the event actual expenditures exceed projections. 4. 2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Missouri Student Loan Program is a guaranty agency that operates under the Federal Family Education Loan (FFEL) program. The Guaranty Agency Operating Fund is used to pay the operating expenses related to managing the loan portfolio, as well as meeting federal requirements to support outreach activities aimed at educating high school students, parents, and others about preparing for and paying for college, managing student loan debt, and increasing financial literacy. The loan program is ending effective September 30, 2022 and there will be bills related to the closeout of the program that will need to be paid out of the Guaranty Agency Operating Fund. Spending authority is needed for leftover money in the operating fund after the bills are all paid and the financial reporting is closed out. DHEWD staff can use these funds to pay for college access and outreach events or financial aid.

2. WHY IS THIS SUPPLEMENTAL FUNDING NEEDED? INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Higher Education Act requires guaranty agencies to deposit certain percentages of payments received from defaulted borrowers into the Federal Student Loan Reserve Fund and the Guaranty Agency Operating Fund. Collection revenues must first be deposited in the Federal Student Loan Reserve Fund, which is the property of the federal government, and then the portion earned by the guaranty agency must be transferred to the Guaranty Agency Operating Fund. This transfer authority is necessary to enable DHEWD to transfer the appropriate amount of collections from and on behalf of defaulted borrowers as required by federal law. Additionally, Dear Colleague Letter (DCL) GEN-21-03, issued by the United States Department of Education as a result of the Covid-19 pandemic, allows guaranty agencies to transfer lost revenue resulting from the student loan collections pause from the Federal Student Loan Reserve Fund to the Guaranty Agency Operating Fund. Finally, the Missouri Student Loan Program is ending effective September 30, 2022. DHEWD must return all leftover money in the Federal Student Loan Reserve Fund to the United States Department of Education once all of the financial reporting is completed and reconciled. DHEWD is requesting this supplemental transfer authority to ensure all required funds can be transferred as the loan program closes.
