The Department of Labor and Industrial Relations promotes economic vitality, safety, and fairness for Missouri's businesses and workers.

Office of the Director determines policy, coordinates legislative issues and provides oversight of the Department's strategic plan. Administrative sections provide centralized services necessary for day-to-day operations of the Department.

Labor and Industrial Relations Commission (LIRC) provides oversight of the Department of Labor and Industrial Relations. It is composed of three commissioners appointed by the Governor, with the advice and consent of the Senate. The LIRC hears appeals of claims on Workers' Compensation, Unemployment Insurance, and Tort Victims' Compensation as well as objections to Prevailing Wage Orders.

Division of Labor Standards (DLS) is comprised of five sections. The Research and Analysis Section collects and analyzes data relating to occupational and work-related injuries and fatalities in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics. The Wage and Hour Section enforces wage and hour laws and calculates annual prevailing wage/average hourly wage rates. Free safety consultation services for Missouri employers designed to help them stay in compliance with federal regulations are provided by the On-Site Safety and Health Consultation Program. Mine and Cave Safety staff inspect mines and show caves operating in Missouri and train miners prior to their beginning employment and annually thereafter to ensure safe and healthy work habits. The Mine and Cave Safety staff also assist with rescue and recovery efforts should there be a mining accident in Missouri. The Workers' Safety Program, funded by the Workers' Compensation Fund, certifies the safety programs of workers' compensation insurance carriers, certifies safety consultants and rehabilitation facilities for Second Injury Fund Rehab benefits, and assists employers in developing programs to improve workplace safety and eliminate hazards.

State Board of Mediation (SBM) is a quasi-judicial board that administers the Public Sector Labor Law (RSMo. Chapter 105.500 - 105.530). Duties include the definition of appropriate bargaining units of employees; certification of bargaining units; determination of majority representation status by secret ballot elections.

Division of Workers' Compensation (DWC) provides oversight of programs that provide services to workers who have been injured or exposed to occupational disease in the course of employment. Administrative Law Judges approve settlements or issue awards after hearings related to compensation for injured workers. Line of Duty Compensation for the families of emergency workers killed on the job, payments to uncompensated Tort Victims, and oversight for the Second Injury Fund are also administered by the division.

Division of Employment Security (DES) administers Missouri's Unemployment Insurance (UI) program, a joint state-federal program funded by the Unemployment Tax paid by employers. These funds are held in the Missouri Unemployment Compensation Trust Fund (UTF) and payment of benefits for regular unemployment are made from this fund. There are also special unemployment programs available to qualified individuals.

Missouri Commission on Human Rights (MCHR) works to prevent and eliminate discrimination; investigates complaints of discrimination under the Missouri Human Rights Act; and facilitates fair and timely resolutions of discrimination claims.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.800

Program Name: Administration

Program is found in the following core budget(s): Director & Staff

1a. What strategic priority does this program address?

Opportunity: Invest in our workforce for today and tomorrow.

1b. What does this program do?

- Provides centralized support functions to the six divisions of the Department including: Communications, Procurement, Financial Management, Human Resources, Legal Services, Legislative Affairs, and General Services in order to ensure smooth day-to-day operations of the Department.
- Ensures compliance with State and Federal laws for expenditure requirements, documentation and reporting, security of data and records, and program management to promote good stewardship of taxpayer funds and accountability for the services delivered by the department.

2a. Provide an activity measure(s) for the program.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025
	Projected	Actual ³	Projected	Actual	Projected	Actual	Projected	Projected	Projected
Hours of Training Completed by Employees ¹	10,976	6,728	14,056	20,946	18,136	24,300	21,000	21,000	21,000
FTE Staff Trained	725	573	573	566	573	589	580	580	580
Training Sessions Conducted ¹	4,610	1,151	4,610	3,557	4,610	4,103	4,700	4,700	4,700
Number of Unduplicated Vendors Paid ²	7,500	5,888	7,500	3,986	7,500	6,232	6,500	6,500	6,500

¹ All types of training are counted (on-line, classroom, external, and specialized). Opportunities for training were limited between December 2018 and April 2019, between when LinkedIn Learning went live and the previous on-line training system expired in November 2018. This accounts for the lower than normal number trained in FY 2019. FY 2020 actuals were lower than anticipated due to the lack of in-person trainings available due to the COVID-19 pandemic.

² Includes payments to individuals who participate in DOLIR programs (Second Injury Fund Payments, Tort Victims Compensation, Line of Duty Payments, etc.) as well as expense and equipment. This does not include unemployment insurance compensation payments. The number of payments fluctuates each year because of the variation in the number of claimants paid for Second Injury, Tort Victims, DES refunds of tax interceptions, and Line of Duty Compensation. FY 2021 was lower due to COVID-19.

³ Training hours were affected by a coronavirus outbreak. Some staff did not access LinkedIn, and no Classroom training offered during the timeframe of March 30th – July 1, 2020.

2b. Provide a measure(s) of the program's quality.

FY 2022 turnover %'s are higher than previous years due to COVID-19.

2b. Provide a measure(s) of the program's quality.

Communication by Department Management with Staff Regarding Strategic Direction of the Department⁴

Employees Who Feel They Understand:

⁴ The department is currently analyzing data in order to develop target goals for this measure. FY 2021 data was updated due to additional data not included in prior budget request.

2c. Provide a measure(s) of the program's impact.

Postage Expenses Compared to Total Department E&E Expenditures⁵

⁵ Postage costs for FY 2020 and FY 2021 were increased due to the rise in unemployment claims as a result of COVID-19. This measure is expected to decrease as the push for digitization increases resulting in less physical postage.

2d. Provide a measure(s) of the program's efficiency.

Department Administrative Expenditures as a Portion of Total Department Expenditures⁶

Department Administrative Hours as a Portion of Total Department Hours Worked

⁶As program costs and FTE decrease and administrative costs and FTE stay relatively the same, the percentages will increase. The stretch target is the minimum necessary for continued Department operations. The Department continues to work on improving Administrative efficiency. The program costs were impacted by the additional COVID-19 funding both for the additional required Administration expenditures and the increased program costs during FY 2021 and FY 2022. This is expected to no longer impact the department figures starting FY 2023. Due to increased cost within the division from federal funding the percentage has dropped and is expected to return to normal values beginning FY 2023.

Timeliness of Vendor Payments⁷

Time to Complete HR Responsibilities in the Hiring Process⁸

⁷Measure was updated in FY 2024 budget. In FY 2020, invoice date was set by vendor instead of the date invoice was received by Administration. This data was corrected in FY 2021 and going forward. Minimum processing time is 1 day.

⁸The measure is defined to include only functions Human Resources can control; these functions include recruitment, eligibility review, background checks, and notification of approval. The number of days of HR involvement in the hiring process has dropped due to utilization of the HireTrue system which was fully implemented in Spring 2020.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

⁹ FY 2023 planned expenditures are shown full appropriation authority less any restricted or reverted amounts.

4. What are the sources of the "Other " funds?

NA

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

An administrative fund was created under Chapter 286, RSMo., which allows the Department of Labor and Industrial Relations to expend funds which relate to the administration of the laws under jurisdiction of the Department.

6. Are there federal matching requirements? If yes, please explain.

While the structure of the Division of Administration is not required, certain functions such as mailing, accounting, and so forth are mandated under departmental programs.

7. Is this a federally mandated program? If yes, please explain.

No

2. CORE DESCRIPTION																																																																																											
<p>The Director and Staff pays personal services and expense and equipment expenditures from the Department of Labor and Industrial Relations (DOLIR) Administrative Fund. In compliance with its federal cost allocation plan, the Department transfers monies into this fund from four funding sources: General Revenue, Federal, Workers' Compensation, and Special Employment Security. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently in payment, payroll processing, and procurement. Fiscal, payroll, and procurement staff can input one-line accounting distributions rather than three-line entries, which were entered when costs were allocated over three funds for each transaction, reducing data entry by at least 67%.</p> <p>The transfers include amounts necessary to meet required fringe benefit transfers for these staff which are appropriated in HB 5.</p>

2. CORE DESCRIPTION									
<p>These transfers fund personal services, fringe benefits, and expense and equipment costs for Office of Administration (OA)/Information Technology Services Division (ITSD) for projects authorized by the Department of Labor and Industrial Relations (DOLIR) using Administrative Services Funds. In compliance with its Federal cost allocation plan, the Department transfers monies into this fund from four funding sources: General Revenue, Federal, Workers' Compensation, and Special Employment Security. By using the DOLIR Administrative Fund, the Department complies with the cost allocation requirements more efficiently.</p> <p>The appropriations for OA/ITSD personal services, fringe benefits, and expense and equipment appear in HB 5.</p> <p>OA Facilities Management, Design and Construction charges the DOLIR Administrative Fund directly for state-owned building operational costs; a portion of other OA Divisions' expenses that support DOLIR functions are also charged to the fund.</p>

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.815

Higher Authority Review

Program is found in the following core budget(s): Labor and Industrial Relations Commission

1a. What strategic priority does this program address?

Growth: Foster a business environment to support economic development.
Provide fair and consistent review of appeals and approve department regulations.

1b. What does this program do?

- Reviews appeals of decisions and awards in workers' compensation, unemployment insurance compensation, and tort victims' compensation programs, and prevailing wage objections in compliance with Chapters 286, 287, 288, 290, 537, RSMo, to ensure fair and consistent application of the law.
- Renders impartial written opinions that can impact workers and employers, which can be appealed through the Missouri court system.
- Reviews and approves department regulations to ensure compliance with state and federal laws and equal protection for workers and employers.

2a. Provide an activity measure(s) for the program.

¹ The increase in the estimated number of appeals for FY 2021 is based on the unprecedented number of unemployment claims filed during the COVID-19 pandemic. Employment Security appeals filed and decisions issued in FY 2022 is over the projected amount due to high volume of UI claims filed during COVID reaching LIRC/2nd level of appeal.

² The number of decisions issued is often higher than the number of appeals filed due to the fact that multiple decisions may be issued per appeal.

³ Projections are difficult to predict since the decision to appeal depends solely on an individual's choice. Projections are based on averages of the previous five years' data.

⁴ The Commission reduced the number of pending workers' compensation cases by approximately 46.5% during FY 2021 ahead of an expected increase in unemployment appeals related to the pandemic. Unemployment appeals to the Commission increased approximately 76% in FY 2022 as compared to FY 2021. The reduced number of workers' compensation decisions issued in FY 2022 reflects: 1) the FY 2021 reduction in pending workers' compensation cases; 2) significantly fewer hearings held by the Division of Workers' Compensation in FY 2021 and FY 2022, resulting in a corresponding reduction in the number of appeals filed with the Commission; and 3) key staff transitions during FY 2022 including a new commissioner, chief counsel, and secretary. An increase in workers' compensation appeals is expected as the number of hearings held by the Division of Workers' Compensation returns to pre-pandemic levels.

2b. Provide a measure(s) of the program's quality.

LIRC Worker's Compensation Appeals Decisions Affirmed by the Court⁵

LIRC Unemployment Insurance Appeals Decisions Affirmed by the Court⁵

⁵ Because affirmations by courts are highly dependent on the location, nature, and time of the appeal, it is difficult to predict the affirmation rate. The FY 2020 Unemployment Insurance Target data has been updated in the FY 2024 budget, due to a previous error in reporting. Data tables were reformatted in FY 2024 budget for clarity.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.815

Higher Authority Review

Program is found in the following core budget(s): Labor and Industrial Relations Commission

2c. Provide a measure(s) of the program's impact.

Since the Labor and Industrial Relations Commission is an appellate body, the impact of decisions are reflected in the affirmation of decisions by the courts.

2d. Provide a measure(s) of the program's efficiency.

⁶From July to November 2018, the LIRC has improved the percentage of unemployment insurance appeals with a case age of less than 40 days to 92.5%. Targets and Stretch were readjusted for FY 2023 to FY 2025 based on FY 2021 and FY 2022 actuals.

⁷The FY 2021 targets were established prior to the COVID-19 pandemic. Actuals for the year are estimated to still be completed within the targeted goal; however, a larger than normal volume of cases are also estimated. Increase in appeals filed in addition to staff turnover in FY 2022 caused some delay in processing.

⁸The new measure runs from the date a case is submitted to the LIRC for review, and includes every workers' compensation matter disposed by the LIRC within the fiscal year, whereas the prior 180-day measure ran from the date of an application for review and only included appeals from an ALJ award. See footnote 4 under Section 2a regarding significant differences from actuals in FY 2021 and FY 2022.

3. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year. (Note: Amounts do not include fringe benefit costs.)

⁹ FY 2023 planned expenditures are shown all full appropriation authority less restricted or reverted amounts.

4. What are the sources of the "Other" funds?

Workers' Compensation Administration

5. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The duties and responsibilities of the Labor and Industrial Relations Commission (LIRC) are set out in Chapter 286, RSMo. Appeal rights for the various cases are authorized as follows: Workers' Compensation, Chapter 287, RSMo; Unemployment Insurance, Chapter 288, RSMo; Tort Victims' Compensation, Chapter 537, RSMo; and Prevailing Wage Objections, Chapter 290, RSMo.

6. Are there federal matching requirements? If yes, please explain.

The LIRC does not have Federal matching requirements; however, the LIRC receives Federal funds for review of unemployment insurance cases.

7. Is this a federally mandated program? If yes, please explain.

1a. What strategic priority does this program address?

Growth: Foster a business environment to support economic development.

1b. What does this program do?

- Mediates employment and pay disputes between workers and employers so workers receive proper compensation and employers are able to avoid penalties and litigation.
- Encourages youth employment for gainful work experience and reviews and issues youth work certificates and entertainment permits to protect the rights, safety, and education of working youth in Missouri.
- Determines prevailing wage and average hourly wage rates for public bodies and contractors in order to comply with Sections 290.210 - 290.340, RSMo.

2a. Provide an activity measure(s) for the program.

¹ FY 2020 and FY 2021 Actual Complaints Closed includes routine violations found as a result of Outreach visits.

² In FY 2022 DLS received double the amount of work certificates to employ youth workers as a direct result of businesses impacted by the labor shortage. Increase in employment resulted in receipt of four times the amounts of child labor complaints associated with youth workers. This increased the amount of constituent contact needed to provide information to the additional employees and the businesses who hired them.

Wage and Hour Program

Program is found in the following core budget(s): Division of Labor Standards

2b. Provide a measure(s) of the program's quality.

³ FY 2020 Youth Employment actuals reflect the increased number of cases closed over those received due to increased Outreach visits. Each complaint may result in multiple youth impacted, resulting in percentage greater than 100%. Based on recent survey information received, DLS projects those numbers to go back up to their historical median averages. In FY 2022 DLS started to include routine outreach numbers with the complaints received resulting in lowered actuals, as such projected was recalculated for FY 2023 and ongoing.

2c. Provide a measure(s) of the program's impact.

⁴ The FY 2022 and FY 2023 Youth Employment projections for the number of workers assisted and substantiated violations reflects a surge due to the increase in Outreach visits. Based on the increase in youth employment and constituent complaints, DLS actively increased the number of outreach visits to insure safer work environments and provide greater educational assistance to employers increasing FY 2025 projections.

2c. Provide a measure(s) of the program's impact.

		FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025
Number of serious workplace hazards eliminated	Target	4,000	4,080	4,162	4,162	4,162	4,162
	Actual	2,283	3,140	3,218	Note		
Percentage of serious hazards identified and immediately corrected on site ³	Target	40%	45%	45%	45%	45%	45%
	Actual	44%	40%	40%	Note		

³The Missouri On-site Safety and Health Consultation Program currently has the 5th highest percentage in the nation in Hazards Corrected On-Site. The National Average for Hazards Corrected On-site is 19% for FY 2022. FY 2023 to FY 2025 actual data is not available until Fiscal Year end.

Note: FY 2023 to FY 2025 includes only projected data, actual data not yet available

2d. Provide a measure(s) of the program's efficiency.

⁴OSHA requires consultation programs to get the written report to the employer within 20 days after the closing conference. Prior year projected data was not tracked, therefore FY 2021 was the first year projected data was available.

⁵Duringstate FY 2022, the Program lost 4 consultants and COVID-19 reduced consultation activity, resulting in a reduction of employers assisted, and worker assisted. All consultant positions are now filled.

2. CORE DESCRIPTION									
<p>The Mine Safety and Health Training Program is 80% funded by the federal Mine Safety and Health Administration (MSHA) with a 20% required state match by the Workers' Compensation Fund. The program provides new miners with the initial regimen of safety and health training courses: first aid, cardiopulmonary resuscitation, mine rescue, miner's rights, and hazards associated with the task assigned. The Mine Act of 1977 (Title 30 Code of Federal Regulations Parts 46, 48, 49, 56, 57, 71, and 75) requires miners complete these courses before they are allowed to start work. Each subsequent year, miners must receive an eight-hour refresher course on those same topics and any other topic necessary to address trends of accidents, injuries, or fatalities. Courses are site specific and tailored to the type and scope of the mining operation.</p> <p>The core also includes the Mine and Cave Inspection Program which conducts statutorily required inspections and safety and health consultations at Missouri's production mines and commercially operated mines and caves open to the public which are funded by General Revenue and the fees deposited to the Mine Inspection Fund pursuant to Section 293.030, RSMo.</p>

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.830

Mine Safety and Health Training

Program is found in the following core budget(s): Division of Labor Standards Administration

1a. What strategic priority does this program address?

Safety: Save lives, prevent injuries.

Promote safe work conditions for employees, contractors, and employers in the Mine and Cave industry in Missouri.

1b. What does this program do?

- Train, educate, and assist miners and owners to ensure safety practices, avoid fines and penalties from Federal Mine Safety and Health Administration (MSHA), and reduce workers' compensation expenses with a focus on smaller operators (25 or less employees) to provide services that may not be affordable to them.
- Provide comprehensive training & consultation to determine federal compliance and eliminate hazards that cause injury, illness, and fatalities.
- Develop and distribute mine safety training materials and curriculum for specific courses.
- Work in partnership with MSHA (Mine Safety and Health Administration) to train and work with Missouri's Mine Rescue Teams, in the event of a disaster rescue recovery.

2a. Provide an activity measure(s) for the program.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025
	Projected	Actual ¹	Projected	Actual ¹	Projected	Actual ²	Projected	Projected	Projected
Miners Trained	5,711	2,081	6,282	1,931	2,800	2,307	2,800	2,800	2,800
Number of Trainings Conducted ²	600	213	600	207	350	187	350	350	350

¹ Classes in FY 2020 and FY 2021 were down due to COVID restrictions. Actual FY 2020 Miners Trained was incorrect due to a change in counting method corrected in FY 2021.

² Hired a new trainer in FY 2022 and had one trainer out for 10 mo on FMLA, which resulted in decreased numbers of trainings conducted and miners trained.

2b. Provide a measure(s) of the program's quality.

³ Injury rate is based on 100 miners working 40 hours, per week, per year for those industries that report this data. There is a lag in collecting this data. National Injury Rate for future years is estimated by DOLIR and is the set target rate.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.830

Mine Safety and Health Training

Program is found in the following core budget(s): Division of Labor Standards Administration

2c. Provide a measure(s) of the program's impact.

⁴ In FY 2019, the method to conduct inspections was changed, resulting in a much higher rate of Top 5 Hazards. As miners are trained, the Division expects the rate to drop. As mine workers and operators are educated, fewer hazards will occur, causing an overall decrease in potential MSHA fines. The FY 2023-FY 2025 projected data reflects for the expectation to have a decrease in avoided fines as the increased training is successful.

2d. Provide a measure(s) of the program's efficiency.

⁵ FY 2020 Actual Costs increased due to filling a vacant training position and adjusting time spent between Mine Inspection and Mine Safety & Health Training programs. In FY 2022, an adjusted method for counting miners trained was implemented, therefore projected miners has been updated to reflect goals.

PROGRAM DESCRIPTION

Mine and Cave Inspection

Program is found in the following core budget(s): **Mine and Cave Safety**

1a. What strategic priority does this program address?

Safety: Save lives and prevent injuries of all miners, contractors, and the general public.

1b. What does this program do?

- Partner with mine and cave owner/operators to identify and eliminate hazards and avoid fines and penalties from the Federal Mine Safety and Health Administration (MSHA) or Occupational Safety and Health Administration (OSHA), ensuring safe operation practices are in place.
- Work with mine and cave owner/operators to ensure the safe operation of public mines and caves, to protect the visiting public, and to ensure safe working conditions for employees in the show cave and commercially operated mine and cave industry, meeting or exceeding all OSHA requirements.
- Provide specific hazard awareness training to mines and employees during inspections to ensure compliance and responsibility for safety in the operation.
- Work in partnership with MSHA to assist Missouri's Mine Rescue Teams in all aspects of disaster rescue and recovery.

2a. Provide an activity measure(s) for the program.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025
	Projected	Actual ⁴	Projected	Actual ⁴	Projected	Actual ⁴	Projected	Projected	Projected

Number of visits to Mines/Caves ²	450	209	250	241	250	128	250	250	250
Number of Top 5 Hazards Identified ^{3, 5}	216	325	300	478	300	354	300	300	300

¹ Number of actual miners assisted varies based on the number of miners employed in covered mines.

² Mine visits were down in FY 2020 and FY 2022 due to COVID-19-related mine closings and restrictions.

³ Top five contributing hazards identified by MSHA as leading categories for fatalities: Powered Haulage, Electrical, Roof and Ground Control, Fire Hazard, and Mechanical.

⁴ FY 2020, FY 2021, and FY 2022 actual numbers were down due to the reduced number of visits completed during the COVID-19 pandemic.

⁵ In FY 2019, the method to conduct inspections was changed, resulting in a much higher rate of the Top 5 Hazards. As miners are trained, the Division expects the rate to drop, however FY 2021 and FY 2022 showed an unexpected increase which is not expected going forward.

² Cases resolved through dismissal, settlement or decision, avoiding further court proceedings, allowing quicker resolution of cases and reducing costs for all parties.

³ The Division is required to maintain a public information program that provides assistance to all parties including injured workers, employers, insurers, and lawyers. This is a new measure in FY 2024 budget, therefore prior year projected data is not available.

Workers' Compensation Program Administration

Program is found in the following core budget(s): Division of Workers' Compensation

2d. Provide a measure(s) of the program's efficiency.

Average Number of Days for ALJs to Issue WC Decisions from Date of Hearing⁴

⁴The 90 day time frames are set in accordance with the performance standards established for the Administrative Law Judges by the ALJ Review Committee and Chapter 287, RSMo, to ensure that cases move through the system without delay.

Percentage of Electronic Cases Created by FROI or Claim for Compensation Within Two Days^{5,6}

⁵ Files are created from First Reports of Injury (FROIs) and Claims for Compensation. Creation of an electronic case file allows the case to move toward resolution more quickly. Case information can be accessed electronically rather than reviewing paper copies and reduces the amount of storage necessary to maintain case files.

⁶ The FY 2025 projected data assumes Phase one of the implementation of DWC's Modernization system will be in operation and will support faster electronic case creation.

Fraud and Non-Compliance

Program is found in the following core budget(s): Division of Workers' Compensation

1a. What strategic priority does this program address?

Growth: Foster a business environment to support economic development.

Works to reduce workers' compensation fraud and non-compliance through investigation and increased prevention and awareness; thereby fostering a business environment that supports economic development.

1b. What does this program do?

- Preserves the integrity of Missouri's Workers' Compensation Law by investigating allegations of workers' compensation fraud and non-compliance.
- Provides education and awareness of Missouri's Workers' Compensation Law and its requirements.

2a. Provide an activity measure(s) for the program.

No. of Citizens Served during Outreach and Awareness Programs ²	1,000	1,098	750	907	900	419	500	500	500

¹ Current and projected measures address efforts to promote growth, safety and opportunity for workers and businesses by investigating both fraud and noncompliance complaints. The Unit's investigations and outreach programs are projected as these goals more accurately measure the effectiveness of the unit's efforts in decreasing the complaints of allegations for fraud and noncompliance under the Law.

² The FNU will focus on presenting to smaller, concentrated, industry-specific organizations based on data analytics of reported injured employees to have a greater impact with prevention/outreach/education programs.

³ The FNU became fully staffed in FY 2022 for the first time in almost four years, combined with economic and social recovery from the pandemic, resulting in increased projections for FY 2023, FY 2024, and FY 2025.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.840

Fraud and Non-Compliance

Program is found in the following core budget(s): Division of Workers' Compensation

2b. Provide a measure(s) of the program's quality.

Investigations and Outcomes^{4,5}

⁴ Employers Placed in Compliance with the requirements of Chapter 287 RSMo., measures the unit's ability to preserve the integrity of the Missouri Workers' Compensation Law through quality investigation, even without criminal prosecution. Investigations may be initiated without a complaint through identification of patterns and the use of other analytics. As employers are brought into compliance with Chapter 287, RSMo., it is expected the number of employees affected will drop accordingly.

⁵ The pandemic in 2020 had effects on the quantity of intakes reported to the FNU, and the ability to present outreach programs for stakeholders. Staff from FNU had been required to provide 50% of their work hours to assist the DES with unemployment verifications. The number of investigations rose considerably in FY 2022 after the Unit reached full staffing levels and as a result of the economic and social recovery.

2c. Provide a measure(s) of the program's impact.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025

Total Employees Affected When Employers are Brought Into Compliance with Statute ⁶	432	630	400	245	400	521	450	450	450

⁶ Projections for FY 2023, FY 2024 and FY 2025 were raised from the FY 2023 budget requests due to anticipated increases in the number of noncompliance cases investigated as a result of the Unit being fully staffed combined with continued social recovery from the pandemic.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.840

Fraud and Non-Compliance

Program is found in the following core budget(s): Division of Workers' Compensation

	FY 2017 Actual	FY 2018 Actual	FY 2019 Actual	FY 2020 Actual	FY 2021 Actual	FY 2022 Actual
Amount of Penalties Collected from Prosecuted Fraud and Non-Compliance Cases ⁷	\$512,047	\$269,622	\$309,602	\$350,428	\$281,013	\$376,577

⁷ Only actual numbers (as opposed to actuals and projections) are shown since the amount we collect in penalties in any given year is a result of how many cases the AG can prosecute/enter into hold harmless/deferred prosecution agreements, and also depends on the dollar amount associated with each case, which can vary broadly. Division of Worker's Compensation is unable to make projections as entities outside of our control have direct impacts on the amount of penalties we collect, which makes it difficult for us to provide an accurate projection as there can be volatile swings.

2d. Provide a measure(s) of the program's efficiency.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025
	Projected	Actual	Projected	Actual	Projected	Actual	Projected	Projected	Projected
Average Number of Days to Open a Case for Investigation ⁸	7	15	7	16	7	1	3	3	3
Average Number of Days to Investigate and Close a Case ⁹	120	160	120	232	160	204	160	160	160

⁸ Report of Actual Data for FY 2021 and going forward defines "opening a case" to include receipt of a complaint of fraud or noncompliance, a conversation with an intake investigator who completes an intake form, administrative review, and assignment of the case for investigation (the number of days may include weekends/holidays).

⁹ The projections have been adjusted according to a change in focus for investigations. The Unit will focus equally on fraud and noncompliance as well as improved service through the use of enhanced data analytics that focuses on industries with most injuries and counties with the highest per capita ranking. There are also several factors that can influence the length of an investigation, so the projection has been adjusted to emphasize quality investigations rather than quantity of investigations. The increase in the projected number of days to investigate and close a case from 120 days in FY 2020 and FY 2021 to 160 days in FY 2022, FY 2023, FY 2024, and FY 2025 reflects a change in internal policy of counting the number of calendar days (160) as opposed to the number of business days (120).

Program Name: Workers' Compensation Self-Insurance

Program is found in the following core budget(s): Division of Workers' Compensation

1a. What strategic priority does this program address?

Growth: Foster a business environment to support economic development.

Supports the economic vitality and stability of the self-insured businesses and workforce by providing direction through regulation.

1b. What does this program do?

- Provides Missouri employers with a viable and economic alternative to the purchase of workers' compensation insurance resulting in better outcomes and lower cost to the employer.
- Monitors self-insured employers and groups to ensure the stability of the self-insurance system and economic security for injured workers through statutory and regulatory compliance.
- Serves as resource concerning information relating to workers' compensation insurance and proof of coverage.
- Principal contact with the Missouri Private Sector Individual Self-Insurers Guaranty Corporation to ensure transition of benefit payments to the Guaranty Corporation when an individual private sector self-insured employer defaults.

2a. Provide an activity measure(s) for the program.

Self-Insurance Claim Audits Completed¹

¹ Review of compliance, complaints and cases to ensure timely and appropriate payments, complete and accurate reporting and the ability to meet financial obligations.

The Self-Insurance Unit placed audits on hold for 3 months because of the COVID pandemic during FY 2020, as the Unit's auditors assisted DES with unemployment claims, resulting in a lower number of audits being performed. Audits are completed in cycles with the current target of each self-insured employer audited once every three-four years. The projected decline from FY 2020, FY 2021, and FY 2022 is due to the number of employers electing not to be self-insured because of fluctuations in the market or being acquired by an entity that does not desire to be self-insured. The economic impact of COVID-19 is still unknown. The number of audits completed for FY 2022 is lower because of a large single audit being conducted.

PROGRAM DESCRIPTION

Program Name: Workers' Compensation Self-Insurance

Program is found in the following core budget(s): Division of Workers' Compensation

2b. Provide a measure(s) of the program's quality.

² Annual compliance reviews are conducted to verify adequate security, excess coverage and that the employer remains financially stable. An example of a significant finding would include inadequate security levels, excess coverage not current or timelines of reporting. The measurement is to identify the employers who fall outside of compliance. There are currently 215 Active self-insured employers. The 94% goal would indicate less than 13 of the 215 had findings. Stretch goal less than 7 employers required follow-up to review findings.

2c. Provide a measure(s) of the program's impact.

³ The audits are a review of compliance, complaints, and cases to ensure timely and appropriate payments, complete and accurate reporting, and the ability to meet financial obligations.

⁴ The Self-Insurance Unit placed audits on hold for 3 months during FY 2020 as a result of the COVID pandemic in FY 2020, as the Unit's auditors assisted DES with unemployment claims, resulting in a lower number of audits being performed. In addition, some parent corporations have multiple self-insured subsidiaries that all get re-audited at the same time. This accounts for a larger number of self-insureds re-audited in FY 2021. Follow-up audits are structured to be done within two years to achieve compliance. They include review of prior corrective action plans, so the content and focus vary by entity. The Division anticipates fewer re-audits will be necessary in the future as employers correct deficiencies.

2d. Provide a measure(s) of the program's efficiency.

Timely Review Annual Reporting Required by State Regulation of Self-Insured Employers^{5,6}

⁵ Reviews by the Division are completed within 90 days to ensure data is timely and accurate.

⁶ The drop in actual between FY 2020 and FY 2021 is explained by one of the two Financial Analysts responsible for such reviews being on FMLA for three months during Fiscal Year 2021. The division has implemented cross training within the unit to alleviate. Annual Reports are due March 31st each year and the Financial Analyst was out April, May and June which resulted in a reduction in the number of Annual Reports reviewed within 90 days.

2. CORE DESCRIPTION

When an employee sustains a work injury covered by workers' compensation and the combined effect of the work injury and prior disability results in permanent total disability (PTD) or increased permanent partial disability (PPD), the employer at the time of the work injury is liable only for compensation due from the work injury. The remaining compensation for the prior disability is paid from the Second Injury Fund (SIF). In cases where the work injury occurred before January 1, 2014, the SIF will pay compensation for the prior disability per §287.220.2, *RSMo.*, and such compensation may include disability, death, physical rehabilitation, second job wage loss benefit, and medical bills. Claims filed against the SIF and all claims involving subsequent compensable injury resulting from an occupational disease filed on or after January 1, 2014, are compensated per §287.220.3, *RSMo.* Effective January 1, 2014, the SIF is only responsible to pay PTD and physical rehabilitation.

The SIF is financed by a surcharge on employers' workers' compensation premiums and equivalent premiums for self-insured employers. The surcharge rate is capped at 3% and may be reduced or suspended when the balance in the SIF exceeds a certain amount. Effective August 28, 2021, a supplemental rate of up to 3% may be assessed for calendar years 2014 through 2022. For calendar year 2023, the supplemental surcharge rate may not exceed 2.5% and will expire after calendar year 2023. At any time, litigation can affect rights to benefits under the law, which then affects determination of the annual surcharge.

This core budget request includes a core reduction of \$15M for the continuing decrease in second injury claim payments.

1a. What strategic priority does this program address?

Growth: Foster a business environment to support economic development.

Monitoring the solvency of the fund to ensure that employers' liabilities are shared amongst all other employers to promote the hiring of employees with pre-existing disabilities.

1b. What does this program do?

- Maintains the solvency of the Second Injury Fund (SIF) to ensure the bi-weekly benefits and other statutory obligations are fulfilled.
- Assesses and collects a surcharge from insurance carriers and self-insured entities on a quarterly basis to fund the payment of benefits.
- Performs annual audits of the premiums reported to the Division to ensure that all surcharges due to the SIF are collected for the support of the fund.
- Pays benefits based on the payment prioritization schedule to ensure the fairness of the payments based on the statute established by the legislature.

2a. Provide an activity measure(s) for the program.

2b. Provide a measure(s) of the program's quality.

² From Actuary Report dated August 2022 performed by Pinnacle Actuarial Resources, Inc. The solvency review is conducted each calendar year, which is how the data is presented in this chart. The review did not include projections for CY 2025, as such only 2 years of projected data are presented. As of July 2019, the SIF no longer has a backlog of cases for payment. The projected for CY 2023 is expected to decrease due to the surcharge rate decreasing to 3% as that is all that is needed and the supplemental sun-setting at the end of the year.

2c. Provide a measure(s) of the program's impact.

³ As of July 2019, the SIF no longer has a backlog of cases for payment. FY 2021 actual was restated due to an error regarding held payments. 2. CORE DESCRIPTION

The Tort Victims' Compensation Fund provides payments to people who have been injured due to the negligence or recklessness of another, who have been unable to obtain full compensation because the party at fault had no insurance, inadequate insurance, has filed for bankruptcy, or other reasons specified in the law.

Tort Victims' Compensation Fund revenue is generated from payment of court awards of punitive damages in civil lawsuits in Missouri. Due to the unreliability of the funding source, there may not be a sufficient amount to pay benefits in a given year. Under the law, payments to eligible claimants are suspended until the balance of the fund exceeds \$100,000. Any sum awarded that cannot be paid due to lack of funds appropriated for the payment of claims of uncompensated tort victims does not constitute a claim against the state. As described in section 537.675.5, *RSMo.*, (previously section 477.650, *RSMo.*), 26% of the court awards received are transferred to the Basic Civil Legal Services (BCLS) Fund annually. The remainder is available to pay eligible Tort Victims' Compensation claims.

Fiscal Year	Total Deposits	Transfers	Payments	
2018	\$8,646,545	\$351,351		Due to inadequate appropriation authority, payments were deferred until FY 2019.
2019	\$550,501	\$1,897,205	\$6,286,069	Payments for claims from FY 2015, FY 2016, and FY 2017.
2020	\$10,211,654	\$1,143,130	\$104,700	Payment from FY 2019, which did not complete processing before FY end
2021	\$484,962,848	\$2,700,000	\$7,563,160	Remainder of FY 2020 transfer held until appropriation authority was available.
2022	\$500,401	\$125,135,247	\$0	FY 2022 payments held until appropriation authority was available.
2023	\$5,537			Fund balance as of July 31, 2022 is \$359,570,473

Claim payments in FY 2019 and FY 2021 were substantially higher because of large award deposits into the fund.

(2) Includes a core increase of \$5.4 million because of unusually high receipts in FY 2020.

(3) Core reduced by the \$5.4 million increase in FY 2021. In addition, FY 2022 included a one-time increase of \$126,090,258 due to the Johnson & Johnson court case, and the required transfer authority to the basic civil legal services fund operations.

(4) Tort Victims Comp Payments was increased by \$90,000,000 due to the Johnson & Johnson court case, and the increase in tort victim claims filed.

Pursuant to Section 537.675, RSMo. any party receiving a final judgment for purposes of punitive damages in any case filed in any division of any circuit court of Missouri shall notify the Attorney General of such award. Missouri shall have a lien for deposit into this fund for 50% of punitive damages attached to any such case after deducting attorney fees and expenses. Twenty-six percent of all awards and interest revenues are transferred to the Basic Civil Legal Services Fund. The remaining 74% is appropriated to assist uncompensated and undercompensated tort victims.

In June 2021, a large settlement from the Johnson & Johnson lawsuit totaling more than \$482M was deposited into the Tort Victims' Compensation Fund. The additional appropriation authority will allow the Division of Workers' Compensation to process the claims payments to the eligible claimants. A portion of EE have been allocated for payments to be made jointly to claimants and their attorneys per 8 CSR 50-8.010.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Division of Workers' Compensation estimates that payment on claims associated with this Johnson & Johnson settlement could be up to \$150,000,000 for claims filed in CY 2022. For calendar year 2022, there have been approximately 400 claims filed through August of 2022. In calendar year 2021, over 250 claims were filed in December as the deadline was December 31. The Division estimates that there may be up to 800 claims filed in calendar year 2022. If awards are issued in 75% of the claims, that is 600 monetary awards. The average award for 2021 claims was around \$250,000. If the same \$250,000 average holds, it equated to \$150,000,000 for 2022 claims. Joint payments may be made to the claimants and attorneys; therefore 25% of the total NDI is being requested under EE.

2. CORE DESCRIPTION																																																																																											
<p>The Division of Employment Security (DES) administers the state's Unemployment Insurance (UI) program. The UI program provides a measure of protection against loss of wages for workers who become unemployed through no fault of their own. This core provides funding for staff and expenses associated with administration of Missouri's UI program, including the collection of UI taxes, payment of benefits, and processing of appeals by employers and workers. The UI benefits paid to eligible workers assists Missouri's economy during periods of economic downturn by helping stabilize the level of consumer purchasing power. As a part of the state UI program, DES collects the state UI tax and wage item data regarding the amount of wages paid to each individual reportable worker. The funds included in this core also finance the administrative cost of operating various related federal programs, including Disaster Unemployment Assistance (DUA), Trade Adjustment Assistance (TAA), and the various Federal pandemic programs.</p>

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 07.875

Program Name: Unemployment Insurance Programs (Appeals)

Program is found in the following core budget(s): Employment Security Administration

1a. What strategic priority does this program address?

Growth: Foster a business environment to support economic growth.

Decide unemployment appeals to ensure proper taxation of employers and payment of claims.

1b. What does this program do?

- Receives and processes all requested claimant and employer appeals to provide an opportunity for a fair hearing, before an impartial tribunal, for all individuals whose claims for Unemployment Insurance (UI) compensation are denied.
- Conducts evidentiary hearings and issues written decisions in order to ensure consistent application of unemployment laws and allow timely appeal for higher authority review by the Labor and Industrial Relations Commission (LIRC).

2a. Provide an activity measure(s) for the program.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025
	Projected	Actual ¹	Projected	Actual ¹	Projected ²	Actual	Projected ²	Projected	Projected
Number of UI Appeals Received	17,500	41,040	25,000	68,262	40,000	23,207	20,000	20,000	20,000
Number of UI Appeals Disposed	17,500	20,014	45,000	40,053	65,000	44,200	30,000	20,000	20,000

¹ The increase in appeals received and disposed of in FY 2020 and FY 2021 is attributed to the unprecedented number of unemployment claims received as a result of the COVID-19 pandemic. With more people filing for unemployment, more appeals are filed should a party disagree with the Division's determination.

² The increase in projected number of UI Appeals Disposed in FY 2022 is due to the current Appeals backlog. The agency is taking the necessary steps to mitigate this backlog and anticipates that it will be resolved in FY 2023. The increase in appeals was a direct result of the additional pandemic related programs as each type of program applicable to each individual is treated as a different appeal increasing the total number of appeals.

2b. Provide a measure(s) of the program's quality.

³ The increase in the Actual Average Age of Pending Lower Authority Appeals in FY 2021 and FY 2022 is due to the current Appeals backlog that resulted from the COVID-19 pandemic. The agency is taking the necessary steps to mitigate this backlog and has adjusted its FY 2023 projections to reflect the anticipated increase in appeals. It is anticipated that this issue will be resolved in FY 2023.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 07.875

Program Name: Unemployment Insurance Programs (Appeals)

Program is found in the following core budget(s): Employment Security Administration

2c. Provide a measure(s) of the program's impact.

⁴ To measure the quality of the state's Unemployment Insurance appellate processes, the USDOL established thirty-three criteria. The criteria ensures an appeal process that is fair and provides procedural due process to all interested parties. Missouri must conduct a quarterly review of a randomly selected sample of appeals cases. To pass the evaluation, a case must receive at least 85% of the possible points and at least 80% of the scored cases must receive a passing score.

2d. Provide a measure(s) of the program's efficiency.

⁵ The issuance of appeals decisions within 30 days allows beneficiaries, who are deemed eligible after the appeal process, to collect unemployment benefits to which they are entitled to in a timely manner. If a claimant is deemed ineligible after the appeals process it will prevent payments to claimants, decreasing the amount of overpaid benefits.

⁶ The FY 2022 and FY 2023 targets reflect an anticipated backlog of appeals as a result of the COVID-19 pandemic. The result was a severe decrease in our actual percentage of unemployment appeals decision issued within 30 days for FY 2022. The agency is taking the necessary steps to mitigate this backlog and anticipates it will be resolved in FY 2023.

- Processes Unemployment Insurance (UI) claims which provide temporary financial assistance for eligible workers allowing them to maintain financial security during economic changes and natural disasters.
- Audits claims for potential fraud to preserve the integrity of the UI program.
- Establishes and collects overpaid UI benefits to help maintain the solvency of the UI Trust Fund.
- Reviews, identifies, and resolves issues to determine eligibility, verify information, and prevent fraud.

¹ Projected figures for the number of initial, renewed and reopened claims filed are based upon the most recent USDOL UI Data Summary Publication.

² Actual figures are from the USDOL UI Data Summary Publication, which includes only state Regular UI claims.

³ Projected figures represent Regular UI only and are based on the most recent information available in the USDOL UI Data Summary Publication.

⁴ The increase in claims filed and benefits paid in FY 2020 & FY 2021 is attributed to the unprecedented number of unemployment claims received as a result of the COVID-19 pandemic.

⁵ The increase in the projections for FY 2022 fraud overpayments assessed is attributed to the unprecedented number of unemployment claims received as a result of COVID-19 pandemic. The projections for FY 2023, FY 2024, and FY 2025 have adjusted to pre-pandemic projections. The Division experienced an increase in overpayments as a result of the COVID-19 pandemic, however the majority were non-fraud overpayments.

⁶ The increase in the projections for FY 2022 fraud overpayments recovered is attributed to the Treasury Offset Program (TOP). Fraud overpayments have to be at least a year old in order to be certified for TOP. The projections for FY 2023, FY 2024, and FY 2025 have adjusted to pre-pandemic projections. Since March 15, 2020, the agency has paid out over \$7.0 billion in state and federal unemployment benefits.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 7.880

Program Name: **Unemployment Insurance Programs (Benefits)**

Program is found in the following core budget(s): **Employment Security Administration**

2b. Provide a measure(s) of the program's quality.

⁷ The increase in percentage of unemployment claims improperly paid during FY 2021 is due to the unprecedented number of individuals filing unemployment claims during the COVID-19 pandemic, which resulted in work backlogs that prevented the agency from timely processing information needed to make a proper determination. The unemployment claims improperly paid percentage is based on a random sample of 480 regular state unemployment claims. Federal emergency unemployment benefit claims are excluded from the calculation.

2c. Provide a measure(s) of the program's impact.

⁸ The Division attempts to make timely payments and determinations while striving to hold the number of improper payments to a minimum. However, payments can sometimes be delayed since there may be barriers to collecting information needed to make proper determinations.

⁹ The increase in unemployment claims received as a result of the COVID-19 pandemic resulted in a decrease in the percentage of claimants receiving payments within 14 days of the first compensable week in FY 2020, FY 2021, and FY 2022.

¹ As employers are educated regarding misclassification of workers, the number identified is expected to drop; however, the Division expects there will continue to be misclassified workers identified.

² The significant decrease in the number of audits during FY 2020 and FY 2021 was due to the Field Auditors being temporarily assigned to assist with claims intake due to unprecedented number of claims as a result of the COVID-19 pandemic.

2. CORE DESCRIPTION

Established in section 288.042, *RSMo.*, this core finances the administration and unemployment benefits paid under the War on Terror Program. A “War on Terror Veteran” is a Missouri resident who serves in the National Guard or is a member of a United States Armed Forces reserve unit who was domiciled in Missouri immediately prior to deployment and whom a Missouri court has found was discharged or laid off by his or her employer during deployment or within thirty days of completing deployment. Any employer that is found in any Missouri Court or United States District Court located in Missouri to have terminated or taken adverse employment action against a “War on Terror Veteran” due to his or her absence while deployed, shall be subject to an administrative penalty of \$35,000. The "War on Terror Veteran" is entitled to receive veterans' unemployment benefits for up to 26 weeks.

This appropriation authority has never been used. Due to the severity of the War on Terror penalty that would be levied against offenders, the Division of Employment Security believes there will be few unemployment claims against this core.

2. CORE DESCRIPTION

This core allows the Division of Employment Security (DES) to use intercepted income tax refunds for the purpose of repaying Unemployment Insurance (UI) benefit overpayments and delinquent employer tax. Only the amount owed at the time the refund is issued is intercepted. Any payments made between the intercept and the application of the intercepted funds to the delinquent accounts are applied to the balance owed. The intercepted refund is then applied to the balance owed, and any remaining funds are released to the taxpayer. This aids DES in collecting monies due to the Unemployment Compensation Trust Fund. The administrative costs associated with this core request are included in the Division's administration core request.

PROGRAM DESCRIPTION

Department of Labor and Industrial Relations

HB Section(s): 07.900

Program Name: Missouri Commission on Human Rights

Program is found in the following core budget(s): Commission on Human Rights

1a. What strategic priority does this program address?

Opportunity: Invest in our workforce for today and tomorrow.
Preventing and eliminating unlawful discrimination.

1b. What does this program do?

- Receives and investigates complaints of discrimination to determine if unlawful discrimination occurred.
- Attempts conciliation and settlement between the parties of unlawful discrimination cases.
- Conducts public hearings if complaints are not resolved via conciliation.
- Educates and trains employees, employers, organized groups, housing providers, tenants, and Missouri citizens regarding their rights and responsibilities under the law to prevent discrimination.

2a. Provide an activity measure(s) for the program.

	FY 2020		FY 2021		FY 2022		FY 2023	FY 2024	FY 2025
	Projected	Actual	Projected	Actual	Projected	Actual	Projected	Projected	Projected
Persons Trained ²	6,000	6,045	4,000	5,612	6,000	5,428	6,000	6,500	7,000
Cases Investigated ¹	1,300	1,403	1,300	947	950	1,112	1,100	1,100	1,200
Cases Received ¹	1,650	1,105	1,105	972	1,000	1,192	1,200	1,200	1,300

¹ The decrease in the projected number of cases investigated beginning in FY 2021 is due to changes in the Statute, decreased staffing, and the termination of the work sharing agreement with Housing and Urban Development (HUD), and due to Covid-19 affecting the number of cases being filed.

² While MCHR and our stakeholders navigate to adjust to the transition to virtual learning in FY 2021, our numbers will be lower. For FY 2023 MCHR will be doing both virtual and in-person trainings to assist our stakeholders.

2b. Provide a measure(s) of the program's quality.
