1a. What strategic priority does this program address?

Effectively manage outstanding constitutional debt by making payments timely and identifying financing opportunities to save the state money.

1b. What does this program do?

This program provides for payment of principal and interest on outstanding Fourth State Building, Water Pollution Control, and Stormwater Control Bonds. It also provides for payment of fees associated with bond issuance. The Board of Fund Commissioners is authorized to sell bonds at a public sale. The Board is required to pay the principal and interest on the bonds. Per the State Constitution, funds must be transferred from general revenue or other available funds to the various debt service funds one year in advance of the required debt service payment date. The Board also pays the annual fees associated with debt, refunding costs and arbitrage expenses.

The Board of Fund Commissioners is authorized to issue general obligation debt for the purposes listed below. The bond sale proceeds are deposited into the project funds to be used as follows:

Fourth State Building Bonds: The Board is authorized by constitutional amendment to issue \$250,000,000 in bonds. The bonds were issued, upon approval of the General Assembly, to provide funds for improvements of buildings and property of higher education institutions, the Department of Corrections, and the Division of Youth Services. The Board began issuing these bonds in 1995. There is no remaining amount of authorization to be issued for these bonds. The final series of bonds matured on 12/1/2022.

Water Pollution Control Bonds: The Board is authorized by constitutional amendment to issue \$725,000,000 in bonds. The bonds were issued, upon approval of the General Assembly, to provide funds for the state to protect the environment through the control of water pollution. The Board began issuing these bonds in 1972. The remaining amount of authorization is \$130,505,760. The Water Pollution Control Program is administered by the Department of Natural Resources. The final series of bonds matured on 12/1/2022.
