**2. CORE DESCRIPTION**

Core Reallocation: The FY 2026 budget includes a core reallocation of \$65,750 Personal Service and 1.00 FTE from the Divisions of Environmental Quality and Energy to better align with the department's organizational structure.

Department Operations includes the Department Director, Deputy Director, Administrative Support, Communications, and Legal. They are responsible for implementing statewide environmental and natural resource policies resulting in environmentally-sound decisions that protect our air, land, and water while fostering economic development; managing the organizational units within the department; and promoting efficient administration and operations.

**NOTES:**

Financial data includes contract audit appropriations (other funds), which are set at a level to encumber and pay our commitments. These often span more than one fiscal year. That, in conjunction with staff turnover, have caused unexpended appropriation balances. The department continues to review operating expenditures to be efficient and effective with state resources.

**FLEXIBILITY REQUEST FORM**

<b>BUDGET UNIT NUMBER:</b> 430001B	<b>DEPARTMENT:</b> NATURAL RESOURCES
<b>BUDGET UNIT NAME:</b> DEPARTMENT OPERATIONS	
<b>APPROP. BILL SECTION:</b> 6.200	<b>DIVISION:</b> DEPARTMENT OPERATIONS

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The department requests retention of 5% flexibility between funds (Federal and Other). Flexibility will allow the department to align appropriation authority with planned spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by Department Operations team members. Also included is 3% flexibility from 6.200 to 6.405 (General Revenue) related to the Legal Expense Fund.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
Flexibility was not used in FY 2024.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Flexibility was not used in FY 2024.	Flexibility will allow the department to align appropriation authority with planned spending during the fiscal year based on funds availability and will help ensure effective, responsive service delivery by Department Operations team members.

<b>BUDGET UNIT NUMBER:</b> 430067B, 430010B, 430012B, 430013B, 430014B, 430016B, 430017B, 430009B	<b>DEPARTMENT:</b> NATURAL RESOURCES
<b>BUDGET UNIT NAME:</b> ENVIRONMENTAL QUALITY OPERATIONS	
<b>APPROP. BILL SECTION(S):</b> 6.225	<b>DIVISION:</b> ENVIRONMENTAL QUALITY

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The Division of Environmental Quality (DEQ) requests retention of 15% flexibility between Personal Service (PS) and Expense and Equipment (E&E) for General Revenue and 15% flexibility between programs and/or regional offices for General Revenue. For Federal and Other Funds, the division requests an increase of 5% flexibility (from 25% to 30%) between funds. Flexibility will allow the department to address environmental emergencies or other unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by the division. Also included is 3% flexibility from 6.225 to 6.405 (General Revenue) related to the Legal Expense Fund.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$ 535,800 PS Fund to Fund (Federal/Other)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.
\$ 326,260 EE Fund to Fund (Federal/Other)		
\$ 360,000 PS Fund to Fund (Other/Other)		
\$ 203,300 EE Fund to Fund (Other/Other)		
\$1,425,360 Total		

**3. Please explain how flexibility was used in the prior and/or current years.**

<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Various fund-to-fund, PS to PS, and E&E to E&E flex was used to align operating appropriation authority to proper funding levels based on service delivery needs during the year.	Flexibility will allow the department to address unanticipated needs, such as environmental emergencies or situations that may require an extraordinary response, by aligning appropriation authority with necessary spending based on funds availability to help ensure effective, responsive service delivery by the division.

**FLEXIBILITY REQUEST FORM**

<b>BUDGET UNIT NUMBER:</b> 430020B, 430021B, 430023B, 430028B 430019B	<b>DEPARTMENT:</b> NATURAL RESOURCES
<b>BUDGET UNIT NAME:</b> ENVIRONMENTAL QUALITY PASS-THROUGH	
<b>APPROP BILL SECTION(S):</b> 6.235, 6.240, 6.250, 6.275, 6.230	<b>DIVISION:</b> ENVIRONMENTAL QUALITY

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The Division of Environmental Quality (DEQ) requests an increase of 25% flexibility (from 25% to 50%) between funds (Other) for Water and Wastewater Infrastructure (430020B); and retention of 25% flexibility between funds (Federal and Other) for these pass-through budget units: Water Quality Studies (430021B); Air Pollution Control Grants & Contracts (430023B); and Technical Assistance Grants (430019B). Flexibility will be used when needed to align appropriation authority with planned spending based on funds availability for pass-through programs.

In addition, DEQ requests retention of 10% flexibility between Personal Service (PS) and Expense and Equipment (E&E) for the Post-Closure Fund (1198) related to closure and postclosure activities at solid waste landfills with forfeited financial assurance instruments (430028B).

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$ 5,000,000 PSD Fund to Fund (Other/Other)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Flexibility was used to align Wastewater Loans appropriation authority based on available funding to process encumbrances and pass through project payments.	Fund flexibility will be used when needed to align appropriation authority with planned spending based on funds availability for pass-through programs.  PS and E&E flexibility will be used to ensure effective, responsive service delivery related to solid waste forfeiture sites.

**2. CORE DESCRIPTION**

The Financial Assistance Center is dedicated to helping Missouri communities plan, finance, and build water infrastructure projects that improve the lives of Missourians. To accomplish this goal, the center provides financial assistance to applicants for projects including drinking water and wastewater infrastructure and a variety of other water quality improvements. The center's pass-through authority is located in a separate core decision item form.

**NOTES:**

In March 2022, the Water Protection Program's Financial Assistance Center was realigned and shifted from the Water Protection Program to a new program under the Division of Environmental Quality. Prior year actual (FY 2022 – FY 2023) data is included in the Water Protection Program Operations Core form. These changes were reflected in the FY 2024 budget request as this was the first opportunity to adjust the budget.

**NOTES:**

In many cases, pass-through appropriation has been provided for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Beginning in FY 2014, appropriations were provided for encumbrance purposes separate from expenditures. Both types of appropriations are included in the data above, therefore high unexpended balances will continue to be reflected. The FY 2025 PSD (expenditure only) appropriations are: Drinking Water Match \$9,251,461; Construction Grants \$3,010,000; Clean Water State Revolving Fund Loans \$262,627,882; Rural Water and Sewer Grants and Loans \$1,520,000; Storm Water Control Grants and Loans \$2,433,141; Water Infrastructure Grants and Loans \$15,945,000; and Drinking Water State Revolving Fund Loans \$181,717,228. The FY 2025 budget also includes appropriation authority of \$220,939,825 to be used for encumbrance purposes only for Water Infrastructure loans and grants.

**2. CORE DESCRIPTION**

In FY 2025 the Missouri General Assembly appropriated \$2.4 million in HB 6, Section 6.237 for specific construction projects as listed below. This one-time authority was reduced in the FY 2026 operating budget and reappropriated to AB 17 in FY 2026 so these multi-year projects can be completed with appropriated funding as requested by the General Assembly.

- HB Section Name Total Appropriation  
 6.237 Bismarck Drinking Water \$850,000  
 6.237 Desloge Sewer Project \$500,000  
 6.237 Toney Str Water Line Project \$50,000  
 6.237 Belle Water Infrastructure \$1,000,000

**2. CORE DESCRIPTION**

In FY 2025, the Missouri General Assembly appropriated \$5 million in HB 6, Section 6.292 for the specific purpose of water improvement upgrades related to strategic mining and battery materials processing. This one-time authority was reduced in the FY 2026 operating budget and reappropriated to AB 17 in FY 2026 so this multi-year project can be completed with appropriated funding as requested by the General Assembly.

**3. PROGRAM LISTING (list programs included in this core funding)**

Not applicable.

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

**NOTES:**

The general assembly added one-time appropriation authority in FY 2025 for the specific purpose of water improvement upgrades related to strategic mining and battery materials processing. This project will require more than one fiscal year to complete, and is planned to be reappropriated to AB 17 in the FY 2026 budget.

**Budget Unit 430020B**

**Bill Section 06.235**

In the 2024 session, the legislature reduced State Revolving Fund (SRF) pass through appropriations by \$97.8M related to Clean Water (CW) and Drinking Water (DW) SRF capital infrastructure projects across the state. It is imperative for the program to maintain full authority in the event numerous or large water infrastructure projects pursue funding within the same fiscal year. Through this NDI, the department requested \$474M to restore its previous authority along with an increase to address current record demand.

The CW and DW SRF programs operate through a cooperative agreement with the US Environmental Protection Agency (EPA) and are managed by the Financial Assistance Center (FAC). The CWSRF is managed in accordance with the Clean Water Act Section 606 and the operation and management of the program is directed by state regulations 10 CSR 20-4.040, 10 CSR 20-4.041, and 10 CSR 20-4.050. The DWSRF is managed in accordance with the Safe Drinking Water Act and the operation and management of the program is directed by state regulations 10 CSR 60-13.020 through 10 CSR 60-13.030.

The FAC is responsible for establishing, operating, and administering the program to provide low interest loans and a limited number of grants. Missouri applies to EPA annually for capitalization grants to fund its SRF programs. These federal funds, combined with revolving fund cash, loan repayments, the required state match, and interest earnings, are made available to Missouri communities to help plan, finance, and build water infrastructure projects that improve water quality and provide safe drinking water to Missourians.

Due to low demand in the past few years, the FAC has lapsed pass-through authority. However, demand has increased significantly with the announcement of over \$827M in additional SRF funding through the Infrastructure Investment and Jobs Act (IIJA) over a five-year period. The additional IIJA funding, combined with cash on hand, and future loan repayments provides the SRF with enough resources to make commitments to fund 72 projects totaling approx. \$721.3M by June 30, 2026. The FAC uses cash flow modeling/financial planning to identify all cash flows associated with the SRF program over time, including loan disbursements and repayments, earnings on investments, and bond issuance and repayment. The cash flow model allows the program to make early loan commitments that will fully utilize funds available when the planned projects are ready to close on their loans. SRF funding commitments are contained within the annual Intended Use Plans and project lists. A typical SRF project takes 12-18 months from application to loan closing followed by an additional 20-36 months to draw (spend) the funds during project construction. Adequate appropriation and encumbrance authority must be maintained to disburse funds to all projects that are expected to begin construction in FY 2026.

The SRF approp. is 100% pass-through and ensures the state can offer below market rate financing to municipalities and water/sewer districts to meet water infrastructure needs. It is relied upon by many municipalities and water/sewer districts to provide a stable source of low cost financing and grant funding for critical infrastructure work. Without an increase, essential water infrastructure projects will go unfinanced or be unduly delayed. Without the increase, the FAC may delay loan closings and will be forced to delay loan disbursements until the start of FY 2027 when new annual authority is available. Loan closing delays will impact the interest rate (which is set at closing based on the market rate) and may result in contract disputes. Delays in disbursing SRF funds to a loan recipient for construction costs it has incurred will cause a financial hardship to not only the borrower, but also the engineers and contractors working on these projects. Results will likely include work stoppage, contract disputes and payroll disruptions.

**NEW DECISION ITEM**

**RANK: 006 OF 8**

**Department of Natural Resources  
Division of Environmental Quality  
CW DW SRF Approp Increase  
DI# NOP.43B.002**

**Budget Unit 430020B**

**Bill Section 06.235**

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The following estimates were derived by using the draft FFY 2025 Clean Water and Drinking Water SRF IUPs Project Priority Lists and planning schedules for 72 projects that borrowers plan to begin by June 30, 2026.

FY 2026 projected financial assistance to be awarded:  
CWSRF \$402,508,003 and DWSRF \$318,766,879.

FY 2026 projected disbursements from financial assistance awards (projects take 20 to 36 months to draw their funds):  
CWSRF \$630,555,695 and DWSRF \$262,202,083.

The projected FY 2026 appropriation shortfall is approximately \$474M.

**2. CORE DESCRIPTION**

The Water Protection Program (WPP) works to protect surface water and groundwater, and promotes safe drinking water for all Missourians. To accomplish this goal, the program provides financial and technical assistance, issues permits, conducts compliance assistance, and classifies water bodies to protect their uses. Encompassed in WPP is the Nonpoint Source (NPS) Management Program which provides federal Clean Water Act Section 319 implementation grants to accomplish significant results in the control and mitigation of NPS pollution. The program's pass-through authority is located in a separate core decision item form.

**NOTES:**

In March 2022, the Water Protection Program's Financial Assistance Center was realigned and shifted from the Water Protection Program to a new program under the Division of Environmental, and the Non-Point Source Unit was realigned and shifted from the Soil and Water Conservation Program to the Water Protection Program. Prior year actual (FY 2022 – FY 2023) year data for Financial Assistance Center is included in the Water Protection Program Operations Core form. Prior year actual (FY 2022 - FY 2023) year data for the 319 Unit is included in Soil and Water Conservation Program Operations. These changes are reflected in the FY 2024 budget request as this was the first opportunity to adjust the budget.

**2. CORE DESCRIPTION**

The Water Protection Program provides management and oversight of:

Public Drinking Water Sample Analysis - Provides funding for statutorily-required routine sampling for Missouri's community and non-community public water systems.

Water Quality Studies - Through this appropriation, the department provides funding to strategically monitor a portion of the state's waters that have designated uses. These data inform decisions on how to protect and improve water quality.

The budget includes appropriation authority of \$9,000,000 to be used for encumbrance purposes only.

CORE - Water Quality Studies PSD**

**Budget Unit 430021B**

**Bill Section 06.240**

**NOTES:**

In many cases, pass-through appropriation has been provided for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Beginning in FY 2014, appropriations were provided for encumbrance purposes separate from expenditures. Both types of appropriations are included in the data above, therefore high unexpended balances will continue to be reflected. The FY 2025 PSD (expenditure only) appropriations are: Water Quality Studies \$11,797,460 and Drinking Water Analysis \$599,852. The FY 2025 budget includes appropriation authority of \$9,000,000 to be used for encumbrance purposes only.

**2. CORE DESCRIPTION**

The Water Protection Program provides management and oversight of:

CAFO Closures - This appropriation authorizes the expenditure of Concentrated Animal Feeding Operation Indemnity Funds for closure of certain lagoon structures placed under state control due to bankruptcy, failure to pay property taxes, or abandonment. When the department determines that an owner has successfully closed a CAFO, all moneys paid into the fund by such operation are returned to the owner.

**Bill Section 06.245**

**NOTES:**

A fee of ten cents per permitted animal unit is paid annually for a period of ten years by the owner or operator of each class IA concentrated animal feeding operation (CAFO) utilizing flush systems. While only class IA CAFOs pay a fee, the fund shall be expended to close class IA, class IB, class IC and class II concentrated feeding operations that have been placed in control of the government due to bankruptcy, failure to pay property taxes, or abandonment. In the event a concentrated animal feeding operation successfully closes, Section 640.747, RSMo, indicates that all money paid by such operator into this fund shall be returned to such operation. To-date, none of the criteria has been met, therefore the appropriation lapses.

Per and Polyfluoroalkyl Rule  
DI# NOP.43B.003**

**Budget Unit 430010B, 430017B**

**Bill Section 06.225**

On April 26, 2024, the U.S. Environmental Protection Agency (EPA) published a final National Primary Drinking Water Regulation (NPDWR) for Per and Polyfluoroalkyl Substances (PFAS) (40 CFR Parts 141 and 142). The rule establishes monitoring requirements and maximum contaminant levels (MCLs) for six PFAS contaminants in drinking water. To maintain primary regulatory responsibility to implement the Safe Drinking Water Act in Missouri, the department must adopt the requirements of this rule into the state code. The rule will affect approximately 1,650 public drinking water systems that will be required to perform initial and ongoing monitoring for PFAS. The department is required by 640.100.3, RSMo., to provide analytical services for drinking water systems. To provide this service, the department purchased analytical equipment, which was approved under a previous NDI.

The department is requesting two FTE to implement the requirements of this new rule. The department's Public Drinking Water Branch (PDWB) is requesting one environmental specialist that will serve as the rule manager for implementing the rule. This person will be responsible for scheduling initial monitoring, reviewing results, determining compliance monitoring schedules, reviewing compliance monitoring results, making compliance determinations, coordinating public notice and corrective actions at systems out of compliance, and performing compliance assistance activities. The Department's Environmental Services Program (ESP) is requesting one laboratory scientist to provide PFAS analytical services for drinking water systems per 640.100.3 RSMo. It is estimated the lab will need to be able to analyze approximately 1,000 samples annually to accommodate the sampling needs of systems under the PFAS NPDWR. Current staffing levels are insufficient for this additional sample workload and the demands associated with learning, operating, and maintaining the complex instrumentation to be utilized for performing these analyses. If the FTE is not approved, the department will have to contract out the analyses of these samples to a private laboratory at higher costs.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**NEW DECISION ITEM**

**RANK: 007 OF 8**

**Department of Natural Resources  
Division of Environmental Quality  
Per and Polyfluoroalkyl Rule  
DI# NOP.43B.003**

**Budget Unit 430010B, 430017B**

**Bill Section 06.225**

The new PFAS NPDWR applies to community and nontransient noncommunity public water systems. On June 30, 2024, there were 1,433 community public water systems and 221 nontransient noncommunity systems for a total of 1,654 systems.

Section 640.100, RSMo requires the department to provide laboratory services for public water supplies. These services will either need to be provided by the department's ESP laboratory or a contract laboratory. It is estimated there will be approximately 1,000 samples analyzed annually under the PFAS NPDWR.

The PDWB requested rule manager (10EP30 PS/EE is \$89,501) is based on experience from implementing other NPDWR with similar monitoring requirements such as the Disinfection Byproducts Rule, Radionuclides Rule, and the Revised Total Coliform Rule. The regulatory nature of this work does not allow for outsourcing or automation of this work.

The requested laboratory scientist (9LB60 PS/EE is \$79,613) is based on the following:

- New instrumentation purchased under a previous NDI for PFAS analyses involves liquid chromatography (LC) with tandem mass spectrometry (MS/MS). The hardware and software control is more advanced than anything currently utilized by the lab and will take an estimated 8 to 12 months for the analysts to learn and optimize.
- After the instrument is in place, the instrument and method must be verified with an Initial Demonstration of Capability (IDC) and the analysts must determine Method Detection Limits (MDL) for the analytes that meet or exceed regulatory performance criteria. These results must all be submitted to EPA Region VII for review to certify the ESP lab to test for PFAS in public drinking water samples.
- Extractions are estimated to take up to 90 minutes per sample, with the number of samples processed per day being limited by the extraction equipment capacity. Instrumental analysis is expected to acquire data for no less than 20 minutes per sample.
- Due to the prevalence of PFAS in the environment, it may be observed that samples contain contaminants at levels greater than the instrument calibration range. This would necessitate dilutions treated as additional samples and add to the preparation and analysis time.
- If the ESP laboratory is unable to perform the mandatory EPA contaminant compliance testing, samples will be required to be subcontracted for analysis. This may occur due to instrument breakdown, insufficient extraction capabilities, or the absence of the trained analyst due to vacation or illness.
- Current contract laboratory pricing is \$200.80 per sample, bringing the current anticipated annual cost of subcontracting PFAS samples to \$200,800. The department anticipates it will require 2 laboratory scientists to run the projected 1,000 additional samples each year. The department plans to reclassify one existing FTE to be used in the PFAS laboratory and will require one additional FTE through an NDI to fully implement the PFAS testing. The anticipated annual cost for 2 lab scientists, method supplies and chemicals is still below the subcontracting rate.
- It is expected to take two years until the cost savings outweigh the contract laboratory pricing due to the initial startup costs including instrument purchase, analyst training, and method development.
- Subcontracting samples increases the shipment times, which subtracts from the method-specified maximum holding times between sample collection and data acquisition and increases the likelihood of data qualifiers or resampling due to container breakage or falling out of compliance for very low method-required sample storage temperatures. Analyzing PFAS samples within the ESP laboratory will shorten the elapsed time between sample collection and issuing final result reports to the PDWB's rule manager responsible for compliance oversight.

 1268:Volkswagen Environmental Mitigation Trust Proceeds F  
 1584:Natural Resources Protection Air Pollution Asbestos Fe  
 1594:Natural Resources Protection Air Pollution Permit Fee

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Governor's Recommendation includes a core reduction of 3.0 FTE (Other funds) to offset the 3.0 FTE (Other funds) NDI increase for Agricultural Anhydrous Ammonia (decision item # NOP.GV.059).

The Air Pollution Control Program strives to maintain and improve the quality of Missouri's air to protect public health, general welfare, and the environment. The program issues construction and operating permits to help ensure facilities are built in compliance with the laws and rules designed to protect public health. The program, working with the department's regional offices, identifies facilities that are not in compliance and works with them to reach compliance. By collecting air monitoring and emission inventory information, the program provides benchmark data for the state's air-quality planning efforts. Air monitoring data can be measured against that benchmark to provide an indicator of whether air pollution control in Missouri is successful. In the St. Louis area, the department and the Missouri State Highway Patrol oversee the joint vehicle emissions and safety inspection program. The program's pass-through authority is located in a separate core decision item form.

**Budget Unit 430012B**

**Bill Section 6.225**

During the 2022 First Extraordinary Session, the Missouri Legislature passed House Bill 3, authorizing the Department of Natural Resources to obtain the transfer of the Risk Management Plan (RMP) program, under 42 U.S.C. Section 7412(r) for agricultural facilities that use, store, or sell anhydrous ammonia, from the federal Environmental Protection Agency (EPA) to the Missouri Department of Natural Resources and to develop regulations necessary to implement and enforce the risk management plans. The Bill repealed provisions of law (266.355, RSMo.) that gives the Department of Agriculture oversight over standards relating to anhydrous ammonia. It authorizes the Air Conservation Commission (amendments to Sections 643.050, 643.079, and 643.245, RSMo.) to adopt, promulgate, amend, and repeal rules and regulations for covered processes at agricultural stationary sources that use, store, or sell anhydrous ammonia, and regulations necessary to implement and enforce the RMPs under the federal Clean Air Act.

The department anticipates public and stakeholder outreach, a rulemaking, a request to EPA for delegation authority, inspector credentialing, and other actions, such as creating a database and reporting system, which will be necessary to comply with the provisions of the Bill. Retail agricultural facilities will be required to pay an annual registration fee of \$200 and to pay tonnage fees of \$1.25 per ton of anhydrous ammonia sold. All distributors or terminal agricultural facilities that use, store, or sell anhydrous ammonia, which is an air contaminant source, must pay an annual registration fee of \$5,000, but no tonnage fee.

Due to the complexity of the provisions of the Bill, the department anticipates implementing the fees and processes will take a minimum of twenty-four (24) months to complete. The department is planning to start collecting the required fees during calendar year 2025 (second half of FY 2025). As none of the new anhydrous ammonia regulatory activities are allowable expenditures under the department's current funding sources, the department requested General Revenue in FY 2025 to pay for personal service and related expense and equipment costs for 3.0 existing FTE that will perform program implementation efforts in FY 2025. This includes initial public and stakeholder outreach, rulemaking, the request to EPA for delegation authority, and the development of the database and reporting system.

During FY 2025, the department hired the Unit Supervisor who began training and performing the work necessary to set-up the Unit. Additional FTE will be hired in late FY 2025 or early FY 2026 to achieve full implementation of the program. The department anticipates full implementation of the program in FY 2026, registering all of the anhydrous ammonia sources, tracking RMPs, and inspection, compliance assistance, and enforcement activities. Fee collection is anticipated to begin in spring of calendar year 2025.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The department received General Revenue funding in the FY 2025 budget to fund two Environmental Program Analysts and one Professional Engineer position to perform program implementation, including registering of all of the anhydrous ammonia sources, preparing for fee collection, tracking RMPs, and inspection, compliance assistance, and enforcement activities. Beginning in FY 2026, the department is requesting appropriation authority to fund both personnel service and ongoing expense and equipment costs for these FTE from the fees collected for anhydrous ammonia. The department must pay annual operating and maintenance costs of \$50,000 for the database beginning in FY 2026 from the fees collected for anhydrous ammonia.

**5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

**2. CORE DESCRIPTION**

The Environmental Remediation Program protects human health and the environment from threats posed by hazardous waste and other contaminants. The program oversees the cleanup of contamination, which promotes property re-use; regulates the management, closure, and risk-based cleanup of petroleum storage tank sites; and ensures long-term stewardship of sites where contamination remains. The program's pass-through authority is located in a separate core decision item form.

This core budget is facing fiscal challenges.

**3. PROGRAM LISTING (list programs included in this core funding)**

Environmental Remediation Program

**CORE DECISION ITEM**

**Natural Resources**  
**Division of Environmental Quality**

Federal	879,646	869,946	707,901	N/A
Other	566,935	404,128	364,739	N/A

\*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

**NOTES:**

Fiscal uncertainties and hiring limitations have resulted in lower operating expenditures. The program has managed expenditures to stay within available resources.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a voluntary core reduction of \$750,000 for Contaminated Site federal PSD.

The Environmental Remediation Program addresses environmental contamination caused by human activity at sites such as industrial facilities, gas stations, mining sites, and other sites. The program sets standards and oversees investigation and cleanup activities conducted by responsible parties; businesses and developers; and federal, state, and local governments. In some cases, the program directly controls the investigation or cleanup at a site using federal or state funds to contract for activities including preparing work plans and reports, conducting chemical analysis, performing cleanup, and related activities. Where appropriate, the department will perform operation and maintenance or long-term stewardship activities at sites where remedial action has occurred to help ensure the remedy remains protective of human health and the environment.

This core budget is facing fiscal challenges.

**2. CORE DESCRIPTION**

The department oversees radioactive investigations conducted by the federal government, primarily in the St. Louis area. Section 260.391, RSMo allows for the transfer of funds from the Hazardous Waste Fund to the Radioactive Waste Investigation Fund created in Section 260.558, RSMo for the purpose of investigating concerns of exposure to radioactive waste by request of a local governing body. The department anticipates receiving requests for investigations of various locations, potentially throughout the state. The transfer authority allows for contract services to perform the sampling associated with the investigations.

**3. PROGRAM LISTING (list programs included in this core funding)**

Not applicable. This core decision item is a transfer of funds to the Radioactive Waste Investigation Fund (1560) and provides funding for radioactive waste investigations in the Hazardous Substances PSD Core.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of \$958,632 one-time authority from the FY 2025 budget.

The department's Environmental Remediation Program assesses contaminated sites and oversees the remedial action at sites subject to Federal Superfund Law and other applicable laws. Superfund obligations represent the state's share of costs for remedial action currently underway or already completed in Missouri where the responsible party is either unknown, uncooperative, or insolvent. The U.S. Environmental Protection Agency (EPA) uses federal Superfund dollars to pay for the clean-up, and the state pays 10% of remedial action costs and 100% of operations and maintenance (O&M) through Superfund state contracts. State-funded O&M is needed once EPA transfers the site back to state authority. O&M can include repair, maintenance, or replacement of engineered structures or mechanical systems; addressing erosion on earthen caps or maintenance to groundwater extraction treatment systems; conducting inspections, sampling and monitoring groundwater and/or other environmental media; maintenance and compliance activities related to institutional controls governing property uses; and other routine activities such as interagency coordination, site visits, technical meetings, and participation in five-year reviews of remedial actions.

Section 260.391.7, RSMo, passed in 2005, directs that "...the department shall request an annual appropriation of general revenue equal to any state match obligation to the U.S. Environmental Protection Agency for cleanup performed pursuant to the authority of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA)." This core General Revenue transfer, when combined with the new decision item request, meets this obligation.

**CORE DECISION ITEM**

**Natural Resources**  
**Division of Environmental Quality**  
**CORE - Superfund Obligations Core GR Transfer**

**Budget Unit 430024B**  
**Bill Section 06.255**

The State's Superfund obligations include the 10% cost share for eight (8) active remediation sites (as invoiced by EPA) and 100% of the cost of O&M for sites that have completed active remediation. These obligations are itemized below.

- Madison County OU3 (Removal of lead contamination from residential yards)
- Madison County OU5 (Removal of lead mine waste)
- Newton County Mine Site OU1 & OU2 (Removal of mine waste and lead-contaminated residential soils)
- Riverfront OU4 (Cleanup of TCE contaminated soil through in-situ chemical oxidation)
- Southwest Jefferson County Mining Site OU1, OU2 and OU3
- Washington County Lead District Furnace Creek OU1;
- Washington County Lead District Old Mines OU1;
- Washington County Lead District Potosi OU1

Operations & Maintenance \* (sites listed below)

Total GR Transfer Requested \$1,730,592

Superfund Obligations GR Transfer Core 660,406

Superfund Obligations GR Transfer NDI (See Superfund Obligations NDI) \$ 1,070,186

Total GR Transfer Requested \$1,730,592

\* State-funded O&M is needed once EPA transfers the site back to state authority. Sites included in this O&M request are: Valley Park, Madison County, Times Beach, Bee Cee, Annapolis, Quality Plating, Jasper County, Riverfront, Washington County, Southwest Jefferson County, Newton County, and Oak Grove Village.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Federal Mandate      Other: Statutorily-Mandated Request, Section 260.391.7 RSMo

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

**NEW DECISION ITEM**

**RANK: 005 OF 8**

**Department of Natural Resources  
Division of Environmental Quality  
Superfund Obligations Trf  
DI# NOP.43B.001**

**Budget Unit 430024B**

**Bill Section 06.255**

Superfund obligations represent the state's share of cost for remedial action currently underway or already completed in Missouri where the responsible party is either unknown, uncooperative, or insolvent. The U.S. Environmental Protection Agency (EPA) uses federal Superfund dollars to pay for the clean-up and the state pays 10% of remedial action costs and 100% of operations and maintenance through Superfund state contracts. The level of Operation and Maintenance (O&M) response depends on the complexity of the cleanup and the extent of potential failure of any components of the remedial actions. O&M can include repair, maintenance, or replacement of engineered structures or mechanical systems; addressing erosion on earthen caps or maintenance to groundwater extraction treatment systems; conducting inspections; sampling and monitoring groundwater and/or other environmental media; maintenance and compliance activities related to institutional controls governing property uses; and other routine activities such as interagency coordination, site visits, technical meetings, and participation in five-year reviews of remedial actions.

Section 260.391.7 RSMo, passed in 2005, directs "...the department shall request an annual appropriation of general revenue equal to any state match obligation to the U.S. Environmental Protection Agency for cleanup performed pursuant to the authority of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA)." This new decision item, when combined with the core General Revenue transfer request, meets this obligation.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**NEW DECISION ITEM**

**RANK: 005 OF 8**

**Department of Natural Resources**  
**Division of Environmental Quality**  
**Superfund Obligations Trf**  
**DI# NOP.43B.001**

**Budget Unit 430024B**

**Bill Section 06.255**

The State's Superfund obligations include the 10% cost share for eight (8) active remediation sites (as invoiced by EPA) and 100% of the cost of O&M for sites that have completed active remediation. These obligations are itemized below.

**Request**

- Madison County OU3 (Removal of lead contamination from residential yards) \$134,861
- Madison County OU5 (Removal of lead mine waste) \$120
- Newton County Mine Site OU1 & OU2 (Removal of mine waste and lead-contaminated residential soils) \$580,850
- Riverfront OU4 (Cleanup of TCE contaminated soil through in-situ chemical oxidation) \$4,036
- Southwest Jefferson County Mining Site OU1, OU2 & OU3 \$688,621
- Washington County Lead District Furnace Creek OU1 \$2,740
- Washington County Lead District Old Mines OU1 \$4,499
- Washington County Lead District Potosi OU1 \$7,509
- Operations & Maintenance\* (sites listed below) \$307,356

Total GR Transfer Requested \$1,730,592

Superfund Obligations GR Transfer Core (see GR Transfer Core form) \$660,406

Superfund Obligations GR Transfer NDI \$1,070,186

Total GR Transfer Requested \$1,730,592

\* State-funded O&M is needed once EPA transfers the site back to state authority. Sites included in this O&M request are: Valley Park, Madison County, Times Beach, Bee Cee, Annapolis, Quality Plating, Jasper County, Riverfront, Washington County, Southwest Jefferson County, Newton County, and Oak Grove Village.

**2. CORE DESCRIPTION**

Underground Storage Tank (UST) efforts protect human health and the environment by registering USTs, implementing a tank inspection program including the oversight of contract inspections, ensuring compliance with state and federal UST laws, overseeing the investigation and risk-based cleanup of contamination from leaking tanks, and overseeing the closure of out-of-use tanks. The risk based cleanup of underground storage tank sites is often the key to the transfer, sale, or reuse of the property.

**2. CORE DESCRIPTION**

This core budget is facing fiscal challenges.

The Waste Management Program operates two federally authorized Resource Conservation and Recovery Act (RCRA) regulatory programs, one pursuant to 40 CFR Part 258, Subtitle D for Sanitary Landfill design and operation, and one pursuant to 40 CFR §272.1300 authorizing Missouri to administer and enforce a hazardous waste management program in lieu of the Federal RCRA Subtitle C program.

Under RCRA Subtitle D and state laws and regulations, the program issues permit, enforces, and oversees sanitary, construction and demolition, special waste, and utility waste landfills; solid waste processing facilities, such as transfer stations; infectious waste; and material recovery facilities, as set forth in the Solid Waste Management Law. Program staff conducts civil investigations of illegal dumping and investigates possible migration of methane gas from solid waste disposal areas and seepage of leachate and methane gas into groundwater.

**CORE DECISION ITEM**

**Natural Resources**  
**Division of Environmental Quality**  
**CORE - Waste Management Program Operations**

**Budget Unit 430014B**  
**Bill Section 06.225**

The Scrap Tire Unit plans and oversees scrap tire dump cleanup activities; awards scrap tire material resurfacing and market development grants; reviews scrap tire hauler, processor, and site permits; and provides technical assistance for beneficial use determinations. The program, working with a statewide network of partners, strives to protect the environment and public health by minimizing solid waste generated by Missouri citizens, businesses, and institutions through effective and efficient materials management through department oversight of the twenty (20) solid waste management districts and the district grant program.

Under RCRA Subtitle C and state laws and regulations, the program issues permits, enforces, and oversees the management of hazardous waste including efforts to reduce hazardous waste production and oversight of hazardous waste generation, transportation, storage, and disposal at businesses in accordance with the federal Toxic Substance Control Act.

The program's pass-through authority is located in a separate core decision item form.

Federal	385,286	515,046	275,799	N/A
Other	826,407	919,261	1,234,292	N/A

\*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

**NOTES:**

Fiscal uncertainties and hiring limitations have resulted in lower operating expenditures. The program has managed expenditures to stay within available resources.

**NOTES:**

Appropriations are set at a level to accommodate solid waste management district allocation amounts as they become known and remittable, and scrap tire activities as they are awarded and completed. Funds obligated for multi-year projects roll to the next fiscal year's core appropriation, resulting in large unexpended balances.

The FY 2025 PSD core appropriations include: \$12,498,820 for solid waste activities from the Solid Waste Management Fund (0570) and \$2,000,000 for scrap tire activities from the SWMF-Scrap Tire Subaccount (0569).

**2. CORE DESCRIPTION**

The Waste Management Program provides management and oversight of:

Financial Assurance Instruments (FAIs) PSD: FAIs are collateral provided to the state by landfill and scrap tire site owners/operators to properly implement closure and/or postclosure activities should the owner/operator fail to do so or is no longer capable of doing so. Sufficient financial assurance is needed to ensure closure and/or postclosure activities for solid waste facilities are conducted when needed to protect public health and the environment. This involves activities required to ensure closed landfills have adequate funding and controls in place to ensure environmental protection for at least 30 years after the landfill closes. Such activities include: maintenance or replacement of the landfill cover, which costs several thousands of dollars per acre; an adequate soil/vegetative cap to prevent water infiltration; methane gas monitoring to protect public safety; monitoring for potential groundwater and surface water impacts; and erosion control and groundskeeping (i.e., mowing and removal of trees).

**CORE DECISION ITEM**

**Natural Resources**  
**Division of Environmental Quality**  
**CORE - Solid Waste Forfeitures PSD**

**Budget Unit 430028B**  
**Bill Section 06.275**

**NOTES:**

Appropriations are set at a level to accommodate work awarded and completed on landfills where the program had forfeited assurance instrument funds available for payment. Funds obligated for multi-year projects roll to the next fiscal year's core appropriation, resulting in large unexpended balances.

General Revenue and other funds lapses are due to the multi-year nature and timing of forfeiture encumbrances and expenditures. During postclosure maintenance, extraordinary expenses may periodically occur and require immediate attention (e.g., methane gas system repairs, erosion control, cap failures, and leachate collection system repairs). However, if those expenses do not occur, the appropriation balance may lapse.

In FY 2023, a request was made to have the appropriation authority increased to cover future potential expenditures using the projected cash balance at the end of FY 2022; however, it was approved as a one-time appropriation increase instead of an on-going appropriation increase. This resulted in a higher lapse in funds than previous fiscal years. This request was made to allow the department to complete larger projects within one fiscal year, reducing the additional costs of multiple mobilizations. The request was also made to allow the department to more efficiently utilize forfeited FAIs to save time and reduce overall costs.

FY 2023 expenditures were for regular groundcover maintenance at closed landfills. The Waste Management Program (WMP) was unable to award a contract for gas migration activities for the Links at Stone Canyon (the highest value project that WMP has pending) due to the continued issues with a lengthy bid process, increased labor and material costs, and general contractor fees. In May 2023, WMP received department approval to implement new strategies for initiating and awarding project contracts.

The FY 2025 PSD core appropriations include: \$452,560 forfeited financial assurance instrument funds and accrued interest held as required by 260.228 RSMo in the State General Revenue Fund (0101); and \$425,399 for forfeited financial assurance instrument funds and accrued interest held in the Postclosure Fund (0198) to allow for expenditures that may be ongoing over a 30-year period for each of the specified facilities.

**2. CORE DESCRIPTION**

The Regional Offices and Central Field Operations are located throughout the state of Missouri and work in partnership with the DEQ environmental programs to protect the state's air, land, and water resources, which are important for Missouri citizens' quality of life and the economy. The program provides consistent, efficient delivery of services closer to where Missourians live and work. This is accomplished through timely compliance assistance, inspection, on-site visits to permitted facilities, wastewater and air burn permit issuance, and investigating reported environmental concerns. Regional offices are located throughout the state to provide more local access to those we serve.

**2. CORE DESCRIPTION**

Core Reallocation: The FY 2026 budget includes a core reallocation of \$32,416 and 1.0 FTE from DEQ Administration to better align with the department's organizational structure.

The Environmental Services Program (ESP) provides field support and monitoring functions throughout Missouri. The Environmental Emergency Response Section maintains 24 hour per day support and response capability for hazardous substance releases, radiological incidents, homeland security events, and natural disasters. Local fire departments, haz-mat teams, law enforcement, and first responders rely upon these services. In FY 2024, 849 hazardous substance spills, leaks, and other chemical-related incidents were reported through the emergency response system. ESP includes the state's environmental laboratory, which is certified by the U.S. Environmental Protection Agency (EPA). The program performs chemical analysis of public drinking water supplies and collects and analyzes air, water, and soil samples. ESP provides management and oversight for the Hazardous Substances Analysis & Emergency Response PSD budget unit, which is located in a separate core decision item form.

**2. CORE DESCRIPTION**

In cases where a responsible party cannot be located or fails to take timely action, Environmental Services Program may hire a contractor to address threats to public health or the environment. Emergency situations are unpredictable and occur without warning, and the size and scope of required actions vary widely and may be extreme. This appropriation is needed to alleviate potentially catastrophic events.

**2. CORE DESCRIPTION**

Core Reallocations: The FY 2026 budget includes a core reallocation of \$58,998 PS and 1.0 FTE to Department Operations as well as a reallocation of \$32,416 and 1.0 FTE to DEQ's Environmental Services Program to better align with the department's organizational structure.

This decision item funds the administration of the Division of Environmental Quality (DEQ), which includes the Financial Assistance Center, Water Protection Program, Air Pollution Control Program, Environmental Remediation Program, Waste Management Program, Central Field Operations, Regional Offices (St. Louis, Lee's Summit, Macon, Poplar Bluff, and Springfield), and Environmental Services Program.

Division administration is responsible for long-range planning to implement policies to protect public health and the environment. These responsibilities include the integration, direction, coordination, and other management functions for the programs' statutory mandates. In addition, the division's Environmental Investigation Unit investigates criminal violations of environmental laws.

The program's pass-through authority is located in a separate core decision item form.

\*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

**NOTES:**

Federal operating E&E appropriations have historically been set at a level to take advantage of potential federal funding opportunities. The department continues to review operating expenditures to be efficient and effective with state resources.

**2. CORE DESCRIPTION**

The Technical Assistance Grants PSD provides authority for technical assistance grants, environmental studies, environmental education projects, and demonstration and pilot projects. In addition, this appropriation allows the department to develop partnerships and pursue federal funds that often have a competitive application process.

**3. PROGRAM LISTING (list programs included in this core funding)**

Division of Environmental Quality - Administration

Other	232,523	265,686	259,201	N/A

\*Restricted amount is as of

Reverted includes the statutory three-percent reserve amount (when applicable).

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

**NOTES:**

In many cases, pass-through appropriations are set at a level to encumber and pay our commitments, which often span multiple fiscal years. This often causes high unexpended appropriation balances.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of \$99,439 one-time Expense and Equipment authority from the FY 2025 budget.

The Missouri Geological Survey (MGS) includes the Geological Survey Program, Land Reclamation Program, Dam and Reservoir Safety Program, Water Resources Center, and Soil and Water Conservation Program.

The Geological Survey Program investigates the state's geology and provides geologic and hydrologic information to assist with decisions relating to economic development, site remediation, contaminant migration, subsurface investigations, and geologic hazards. The program also determines the character and availability of the state's energy and mineral resources. Staff implement the Water Well Drillers' Act by establishing standards for domestic water wells, monitoring wells, and geothermal ground source heat pump wells.

The Land Reclamation Program regulates surface mining of coal and industrial minerals, regulates and administers reclamation of coal mine and industrial mine lands on which bonds were forfeited, regulates and administers reclamation of coal mine lands abandoned prior to 1977, and regulates the metallic mineral waste disposal areas of mining operations.

**CORE DECISION ITEM**

**Natural Resources**

**Budget Unit 430031B**

**Missouri Geological Survey**

**CORE - Missouri Geological Survey Operations**

**Bill Section 06.290**

The Dam and Reservoir Safety Program administers the provisions of the Missouri Dam and Reservoir Safety Law. The program regulates nonfederal, nonagricultural dams 35 feet and higher through inspections, registration, and issuance of construction permits. Dams are a critical part of our state's infrastructure, providing many benefits including water supply, flood protection, hydropower, irrigation, and recreation. There are approximately 733 regulated dams. The program works with citizens, dam owners, engineers, and emergency managers to ensure dams in Missouri are constructed, maintained, and operated in a safe manner.

Water Resources Center (WRC) provides information for Missouri's comprehensive water needs by examining both surface and groundwater use and availability. WRC investigates water supply issues; supports formal water planning efforts; promotes flood and drought resiliency knowledge and projects; manages erosion control and streambank restoration studies and projects; maintains and updates Missouri's Public Water Supply database for groundwater wells; collects, analyzes and distributes groundwater-level data from a statewide network of observation wells; evaluates public water supply wells; and provides casing and total depth specifications. WRC provides guidance and technical expertise for planning and development of regional water supply projects throughout Missouri. WRC defends the state's vital water resources interests, including those related to navigation, flood control, and other uses of the Missouri and Mississippi rivers before numerous interstate and interagency river basin associations.

The Soil and Water Conservation Program (SWCP) provides guidance and support to the Soil and Water Districts Commission and the 114 local soil and water conservation districts throughout the state. SWCP administers the Cost-Share, Conservation Monitoring, and District Grants programs, as well as various research and planning projects. SWCP administers the conservation programs through the soil and water conservation districts for the control and reduction of soil erosion on agricultural land and protection of water resources. Missouri's SWCP and soil and water conservation districts are recognized, locally and nationally, for their successful efforts to reduce soil erosion and address water quality on agricultural land.

The division's pass-through authority is located in separate core decision item forms.

**Natural Resources**  
**Missouri Geological Survey**  
**CORE - Missouri Geological Survey Operations**

**Budget Unit 430031B**

**Bill Section 06.290**

**NOTES:**

FY 2022 - FY 2024: The division continuously looks for federal funding opportunities or partnerships to maximize these appropriations to fulfill our mission. Unexpended in Other Funds appropriation is usually the result of fee fund availability or staff turnover.

FY 2024: In March 2022, the Soil and Water Conservation Program (SWCP) within the Division of Environmental Quality (DEQ) was reallocated to the Missouri Geological Survey. These changes are reflected in the FY 2024 budget.

<b>BUDGET UNIT NUMBER:</b> 430031B, 430034B, 430076B, 430040B	<b>DEPARTMENT:</b> NATURAL RESOURCES
<b>BUDGET UNIT NAME:</b> GEOLOGICAL SURVEY OPERATIONS; MINED LAND REC TRANSFER; MULTIPURPOSE TRANSFER; CLARENCE CANNON	
<b>APPROP. BILL SECTION:</b> 6.290, 6.295, 6.300, 6.320	<b>DIVISION:</b> MISSOURI GEOLOGICAL SURVEY

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The Missouri Geological Survey requests retention of 25% flexibility between funds (Federal and Other) for Geological Survey Operations (430031B). Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by the division. Also included is 3% flexibility from 6.290, 6.295, 6.300, and 6.320 to 6.405 (General Revenue) related to the Legal Expense Fund.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$ 34,000 PS Fund to Fund (Federal/Other) \$ 6,000 EE Fund to Fund (Federal/Other) \$ 40,000 Total	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Fund-to-fund flex was used to align operating EE appropriation authority to proper funding levels based on service delivery needs during the year.	Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery by the division.

**Natural Resources  
Missouri Geological Survey  
Critical Minerals for the US  
DI# NOP.GV.045**

**Budget Unit 430013B**

**Bill Section 6.290**

Over the last decade, critical minerals have moved to the forefront of national and international discussions because they are the building blocks of many modern technologies and essential to national security and economic prosperity. Over several decades leading up to now, mining and post-processing operations moved abroad, leading to a decline in basic exploration needed to identify mineral resources and decreased development and processing of domestic minerals. As a result, the U.S. is behind in collecting basic information for prospective critical minerals. This new decision item supports ongoing and new collaborations with state, federal, university, and private partners to restore critical minerals interest in the Midwest and promote a "cradle to grave" approach to mineral development.

New federal programs such as the U.S. Geological Survey's Earth Mapping Resources Initiative (EarthMRI) Program, with additional funding from the Bipartisan Infrastructure Law, are strengthening ore deposit geology and basic science throughout the nation. Missouri, with a rich mining history dating back to the 1700s and host to 30 of the 50 critical mineral commodities identified by USGS, has greatly benefited from this program. To date, Missouri has received over \$3 million in federal funding to support this effort through detailed geologic mapping and geochemistry. In addition, EarthMRI is supporting modern geophysical flights, which are uncovering and refining areas of critical mineral potential. Once complete, these surveys will cover nearly all of Missouri and help target areas for further focused investigation.

Current critical minerals projects are using available federal funding, some of which require state matching dollars. As projects gain momentum, continued production of quality products for customers including industry, academia, and government entities can be achieved through additional funding. Acquisition of new analytical equipment through FY24 and FY25 funding is helping advance these efforts; however, additional state funding is crucial to ensure quality data is being collected, processed, and made available to stakeholders. Continued investments will allow Missouri to maintain a competitive advantage with other states and countries through understanding and developing critical mineral resources available in this state.

These efforts can be accelerated with new decision item funding to: build expertise in ore deposit geology and data analysis; continue refining geologic maps to aid exploration in areas of critical mineral potential; improve data discovery and accessibility for Missouri citizens, including exploration companies; and collect subsurface rock core in areas of known critical mineral potential. Continued investment in this new decision item will support these projects leading to job creation, economic development, and a reduction in U.S. dependence on foreign supplies of critical minerals.

(Geologic Assistance, Geologic Information and Maps, RSMo 256.050)

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**NEW DECISION ITEM  
RANK: 010 OF 18**

**Natural Resources  
Missouri Geological Survey  
Critical Minerals for the US  
DI# NOP.GV.045**

**Budget Unit 430013B**

**Bill Section 6.290**

This budget request consists of 4 main items:

- 1) Funding for one Geologist (Environmental Program Specialist) to build in-house expertise in economic geology and ore deposits.
- 2) Funding for one Geologist (Environmental Program Specialist) to accelerate geologic mapping in areas of critical mineral resource potential.
- 3) Funding for one Information Science Specialist (Program Specialist) to improve organization and access to critical mineral resource information.
- 4) Funding for contracting drilling to support geologic data collection and mapping to better define areas of known critical mineral potential.

Operating PS/EE \$256,113  
Contractual Expenses for Drilling \$210,000  
FY2026 Request \$466,113

- 1) Ore Deposit Geologist - With increased interest and funding for building our understanding of domestic critical mineral potential, this expertise, which had declined over the last several decades, is now essential to understand ore deposits. This funding request will build and expand mapping expertise in economic geology and ore deposits that builds capacity to better understand and define Missouri's critical mineral resources.
- 2) Mapping Geologist - Detailed geologic mapping in areas with critical mineral potential provides baseline information to assist exploration, among other uses. Contracting this work is not desirable because in-house mapping expertise is not easily replicated in the private sector and would produce challenges to ensure consistency in mapping products as required by the federal grant award. Additionally, it is more efficient to build in-house expertise and would be cost prohibitive to contract this work. This funding request will support geologic mapping in areas of critical mineral resource potential, providing resources to complete these efforts in a timely manner.
- 3) Information Science Specialist - Earth science data collection, storage, and dissemination is fundamental to the MGS mission since its creation in 1853. As data acquisition increases through new funding, opportunities exist to organize and improve access to physical and digital collections that span over 170 years. This funding request will allow for better management and modernization of data systems that fulfill our mission of providing quality geologic information to a diverse range of customers.
- 4) Contract Drilling – New federal funding is supporting geologic mapping and geochemical data collection in areas of the state with critical mineral potential. However, these funds do not adequately support collection of subsurface bedrock drilling core. This funding request will allow for contracts to drill approximately 3 strategically placed drill cores from surface to basement bedrock in areas of the state with critical mineral potential and where limited subsurface data exist.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of \$5 million one-time pass-through authority from the FY 2025 budget.

Water Resources Center, provides management and oversight of the following pass-through programs:

Multipurpose Water Resource Program PSD: The Multipurpose Water Resource Program fund is intended to support development of public water supply, flood control storage, and treatment and transmission facilities. The Multipurpose Water Resource Act authorizes the department to administer moneys appropriated to the fund through provision of grants or other financial assistance and allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs.

State Water Plan: This appropriation is used for professional services to implement the State Water Plan and advance the department's efforts and responsibilities to ensure that the availability of water resources supports Missouri's current and future beneficial uses and is not a limiting factor in economic growth. The primary areas of this effort include water supply availability, drought response, watershed feasibility studies, and addressing interstate water needs.

**CORE - Resource Development & Sustainability PSD**

**Budget Unit 430035B**  
**Bill Section 06.300**

**NOTES:**

FY 2022 - FY 2024: The Multipurpose Water Resource Program Transfer of \$31.9 million was reallocated to its own budget unit (430076B) in the FY 2025 budget. Lapse is attributed to the Multipurpose Water Resource Program (Other). Appropriations are set to allow the department to encumber all contracts in place at any one time even though expenditures could occur over multiple years.

FY 2025: Appropriations include Multipurpose Water Resource Program \$48,187,310; State Water Plan \$924,920; and one-time Missouri River Flood Risk Studies \$5 million.

**2. CORE DESCRIPTION**

The division's Land Reclamation Program provides management and oversight of the following programs:

The Abandoned Mine Land (AML) unit oversees the reclamation of abandoned mine sites in Missouri, including sites abandoned prior to the Surface Mining Control and Reclamation Act of 1977. For coal sites abandoned prior to 1977, the program uses federal funds to directly contract for the reclamation activities at these sites.

The Mined Land Reclamation Fund PSD provides appropriation authority for reclamation of sites where bonds have been forfeited on permit-revoked mine sites. Reclamation involves work to restore mined lands to productive uses such as agricultural, wildlife habitat, water impoundment, or development. The program may collect reclamation bonds and directly contract for the reclamation activities, or the program may allow the surety bond holder to perform the reclamation in place of the original permit holder.

Federal Funds: 1140:Department of Natural Resources Federal and Other  
Other Funds: 1699:Oil and Gas Remedial Fund

**2. CORE DESCRIPTION**

The division's Geological Survey Program provides management and oversight of the following pass-through programs:  
Oil and Gas Remedial Fund: This appropriation is used to plug abandoned oil and gas wells that have the potential to impact surface and groundwater resources and may pose a threat to human health. The fund is also used to handle emergency situations, such as a leaking gas well.

Abandoned Oil and Gas Wells: This federal appropriation from Bipartisan Infrastructure Law funding is used to supplement and sustain an abandoned oil and gas well program in Missouri. This funding is used to assess, inventory, plug and remediate, and reclaim abandoned oil and gas wells and surrounding land for new beneficial purposes. This strengthens the Oil and Gas Remedial Fund, which is currently inadequate to address liabilities associated with abandoned oil and gas wells.

**2. CORE DESCRIPTION**

NOTE: The \$3,830,000 Abandoned Oil & Gas Wells pass-through authority was reallocated from this budget unit to the Oil and Gas Wells PSD budget unit in the FY 2025 budget.

The division's Geological Survey Program provides management and oversight of the following pass-through program:

Abandoned Oil & Gas Wells: This federal appropriation from Bipartisan Infrastructure Law funding is used to supplement and sustain an abandoned oil and gas well program in Missouri. This funding is used to assess, inventory, plug and remediate, and reclaim abandoned oil and gas wells and surrounding land for new beneficial purposes. This strengthens the Oil and Gas Remedial Fund, which is currently inadequate to address liabilities associated with abandoned oil and gas wells.

Federal Funds: 1140:Department of Natural Resources Federal and Other  
Other Funds:    1614:Soil and Water Sales Tax Fund

**2. CORE DESCRIPTION**

The division's Soil and Water Conservation Program (SWCP) provides management and oversight of the following pass-through financial assistance programs:

Cost-Share Grants: Funds provide cost share assistance to install soil and water conservation practices that reduce soil erosion on agricultural land and protect water resources. Practices are designed to maintain soil productivity and prevent continued degradation of water quality. Agricultural landowners are less likely to implement these practices without the financial incentives and technical assistance made possible by the citizens of Missouri through the Parks and Soil and Water Sales Tax. Over 1 million tons of soil is saved annually as a result of practices implemented through the cost share grants.

Grants to Soil and Water Conservation Districts: This appropriation provides funds for the operation of each of Missouri's 114 Soil and Water Conservation Districts. The SWCP allocates funds to each district. The locally elected soil and water district board of supervisors specifically budget and allocate how the funds will be spent depending on the needs of that district. Funding is provided for district personnel salaries, benefits, information/education programs, equipment, and general administrative expenses. The districts provide support to landowners participating in conservation practices as well as to farmers and landowners who may not participate in conservation programs by providing technical assistance and information/education programs.

**CORE DECISION ITEM**

**Natural Resources**  
**Missouri Geological Survey**  
**CORE - Soil and Water Conservation PSD**

**Budget Unit 430039B**

**Bill Section 06.315**

Technical Grants: This federal fund appropriation is used to build technical capacity in the districts. The department pays for technical staff, equipment, supplies, and training to assist district employees in the implementation of conservation practices.

Conservation Monitoring: This appropriation funds continuous water quality monitoring streamgages, and edge of field monitoring stations. The data is used to measure the effectiveness of practices at reducing the nutrient and sediment runoff and to determine where to focus efforts of conservation practices.

Research Grant: A grant to Missouri state colleges and universities to perform soil and water conservation related research, which gathers data for the development and refinement of conservation programs.

Water Quality Practices: This federal funding is utilized for new and innovative nutrient loss reduction soil and water conservation practices in select watersheds to address priorities in reducing sediment and nutrient runoff and improving water quality.

**2. CORE DESCRIPTION**

NOTE: The \$75,000 No Till Drill pass-through authority was reallocated from this budget unit to the Soil and Water Conservation PSD budget unit in the FY 2025 budget, then subsequently reduced in the FY 2025 budget.

While appropriated in FY 2024, the Soil and Water Conservation Program (SWCP) provided management and oversight of a grant program to Soil and Water Conservation Districts to provide up to \$7,500 per county, designated to buy or replace no-till drills.

**2. CORE DESCRIPTION**

A General Revenue transfer, beginning in FY 2020, is used to match federal funding for the coal program.

Reference(s): Sections 444.772, 444.820, 444.905, RSMo. This fund is used for administration and enforcement of Sections 444.500 - 444.970, RSMo, Strip Mine Law and Surface Coal Mining Law, and for reclamation of land affected by strip mining and surface mining and for no other purpose.

The department utilizes funding provided by the U.S. Department of Interior Office of Surface Mining to enable the Abandoned Mine Land (AML) unit to oversee reclamation of coal mine sites abandoned prior to 1977. Reclamation includes closing dangerous mine shafts, eliminating dangerous high walls, improving severely impacted land, and stabilizing subsiding ground beneath homes and roads.

The AML unit permits and inspects active coal sites and oversees reclamation of coal mine land; serves as the regulatory authority for coal mine permitting, inspection, and enforcement; and maintains certification for blasters at coal mines in compliance with the federal Surface Mining Control and Reclamation Act (SMCRA).

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of the one-time \$1.4 million General Revenue transfer from the FY 2025 budget.

This transfer is made to the Flood Resiliency Improvement Fund with the purpose of carrying out the provisions of the Flood Resiliency Act (Section 256.800, RSMo). The appropriated investment in this fund will provide long-term flood resiliency along the Missouri and Mississippi Rivers and their tributaries and improve statewide flood forecasting and monitoring ability.

Currently, the two Missouri River flood resiliency projects funded by this transfer are as follows:

- Atchison County \$600,000 (levee setback project)
- Brunswick, MO \$800,000 (culvert replacement to reduce backwater issues)

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of \$1.4 million in one-time General Revenue pass through authority from the FY 2025 budget. These one-time projects have been reappropriated to the capital improvements AB17 Re-appropriation bill in FY 2026. This will allow the completion of the projects appropriated by the General Assembly.

This funding is provided by a one-time FY 2025 General Revenue transfer to the Flood Resiliency Improvement Fund with the purpose of carrying out the provisions of the Flood Resiliency Act (Section 256.800, RSMo). The appropriated investment in this fund will provide long-term flood resiliency along the Missouri and Mississippi Rivers and their tributaries and improve statewide flood forecasting and monitoring ability.

Currently, the two Missouri River flood resiliency projects in this core are as follows:

- Atchison County \$600,000 (levee setback project)
- Brunswick, MO \$800,000 (culvert replacement to reduce backwater issues)

**RANK: 010 OF 16**

**Natural Resources**  
**Missouri Geological Survey**  
**MO River Flood Risk Studies**  
**DI# NOP.GV.061**

**Budget Unit 430035B**

**Bill Section 6.300**

This new decision item continues to fund the cooperative work between the states of Missouri, Kansas, Iowa, and Nebraska along with the U.S. Army Corps of Engineers (USACE) to conduct studies that provide strategies and design solutions to create better systemic flood protection and resiliency for the Missouri River. These studies seek to create a Missouri River system that more reliably and consistently performs its roles as a vital transportation artery and a recreational asset, while mitigating and increasing resiliency from the impacts of recurring flood events, benefitting many Missouri citizens, cities and towns, agriculture producers, and other businesses.

The funds for this item support the following Lower Missouri (LoMo) River projects in Missouri, some of which are anticipated to begin in FY 2025 and are expected to continue until approximately 2028:

LoMo spin-off study: Nemaha County NE - Atchison County MO (L550)

LoMo spin-off study: St. Joseph - Buchanan County MO

Section 216 of the Water Resources Development Act (WRDA) 2020 provides authority for site-specific Missouri River feasibility studies (spin-off studies) in priority flood risk areas to begin prior to completion of the system plan. This concurrent effort allows for seamless progression into design for project areas with approved feasibility reports.

The Nemaha-Atchison study is proposed to be funded in a 50/50 federal/non-federal cost share (\$1,500,000 federal / \$1,500,000 non-federal). The 50% non-federal cost share is proposed to be split 50/50 between Nebraska and Missouri, given that this study will include counties within each state on both sides of the river. The Atchison County Levee District is interested in seeing a levee setback constructed in the L550 area and has already shown great local leadership in their efforts in a similar but separate project (the L536 Levee Setback). Efforts are underway to secure real estate from willing sellers in support of this approach. To gain federal dollars, in addition to state and local funds, to support a setback in the Atchison study area, a feasibility study is required to demonstrate federal interest. Missouri's cost share obligation for this study is anticipated to be \$750,000 for the entire study, with \$400,000 required in state FY 2025 (utilizing FY 2025 GR to commence the study) and \$350,000 required in FY 2026.

The St. Joseph study is proposed to be funded in a 50/50 federal/non-federal cost share (\$1,500,000 federal / \$1,500,000 non-federal). The proposed study is in response to the recent flow frequency study update, which includes the most recent 20 years of additional data in the flow frequency analysis (including 2019). This update resulted in concerns that the project that has been underway in St. Joseph over the last approximately 20 years may not deliver a levee that provides desired and planned level of protection to key infrastructure (e.g., Rosecrans Memorial Airport). A 2006 feasibility study and project implementation already have been completed in St. Joseph, funded through cost-share between the federal government and local levee and drainage district partners. The proposed study will be informed by available data from the prior study as well as the most recent data. Missouri's cost share obligation for this study is anticipated to be \$1,500,000 for FY 2026.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**NEW DECISION ITEM**

**RANK: 010 OF 16**

**Natural Resources**  
**Missouri Geological Survey**  
**MO River Flood Risk Studies**  
**DI# NOP.GV.061**

**Budget Unit 430035B**

**Bill Section 6.300**

The estimate for a feasibility study following the 3 by 3 by 3 model is \$3,000,000.

The Nemaha-Atchison study is proposed to be funded in a 50/50 federal/non-federal cost share (\$1,500,000 federal / \$1,500,000 non-federal). The 50% non-federal cost share is proposed to be split 50/50 with Nebraska (\$750,000 Missouri / \$750,000 Nebraska), given that this study will include counties within each state on both sides of the river. Missouri's cost share obligation for this study is anticipated to be \$750,000 for the entire study, with \$400,000 required in state FY 2025 (utilizing FY 2025 GR to commence the study) and \$350,000 required in FY 2026.

The St. Joseph study is proposed to be funded in a 50/50 federal/non-federal cost share (\$1,500,000 federal / \$1,500,000 non-federal). Missouri's cost share obligation for this study is anticipated to be \$1,500,000 for FY 2026.

The total anticipated need for Missouri for FY 2026 for both studies is \$1,850,000. With an additional \$57,216 Governor's Reserve, the FY 2026 total is \$1,907,216.

**2. CORE DESCRIPTION**

A General Revenue transfer, beginning in FY 2019, for the purposes of carrying out provisions of the Multipurpose Water Resource Act (Section 256.435 to 256.445, RSMo).

The transfer supports development of public water supply, flood control storage, and treatment and transmission facilities. It allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs.

**3. PROGRAM LISTING (list programs included in this core funding)**

Not applicable. This core decision item is a transfer of funds to the Multipurpose Water Resource Program Fund (0815). This transfer provides funding for activities included in the Missouri Geological Survey Resource Development & Sustainability PSD Core.

**2. CORE DESCRIPTION**

Transfer from General Revenue to the Water Development Fund for the cost of water supply storage, pursuant to the Clarence Cannon Water Contract. The FY 2026 budget will pay the FFY 2024 water supply storage expenses. The state's payment obligation is currently estimated to be completed in State FY 2040 for FFY 2038 storage. Appropriation will be utilized for payment of the annual water supply storage invoice and for the reduction of principal of the state contract.

Other Funds:    1174:Missouri Water Development Fund

**2. CORE DESCRIPTION**

The Water Development Fund is used to pay the cost of water supply storage, pursuant to the Clarence Cannon Water Contract. The FY 2026 budget will pay the FFY 2024 water supply storage expenses. The state's payment obligation is currently estimated to be completed in State FY 2040 for FFY 2038 storage. Appropriation will be utilized for payment of the annual water supply storage invoice and for the reduction of principal of the state contract.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 budget includes a voluntary core reduction of \$54,027 PS (federal).

Core Reallocation: The FY 2026 budget includes a core reallocation of \$6,752 PS to Department Operations to better align with the department's organizational structure.

The Division of Energy advances the efficient use of diverse energy resources through financial and technical assistance and education. The division operates as the designated State Energy Office, directing the use of federal State Energy Program funds to support state-led energy initiatives.

Division team members support business and community development and the use of diverse in-state resources and energy efficiency through interaction with utility companies, Public Service Commission, the Department of Natural Resources' environmental programs, and the Department of Economic Development's business expansion and attraction operations. Team members also support the increased use and innovative development of bioenergy solutions, as well as market research and demonstration projects that advance the use of reliable and affordable domestic energy resources and technologies.

The division's pass-through authority is located in a separate core decision item form.

### FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 430042B, 430045B, 430046B  <b>BUDGET UNIT NAME:</b> ENERGY OPERATIONS; ENERGY EFFICIENT SERVICES; APPROPRIATED TAX CREDITS  <b>APPROP. BILL SECTION(S):</b> 6.330, 6.340 & 6.345	<b>DEPARTMENT:</b> NATURAL RESOURCES  <b>DIVISION:</b> ENERGY
---	---

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The Division of Energy requests retention of 50% flexibility between federal and other fund operating appropriations (430042B) and 25% flexibility between federal and other fund pass-through appropriations (430045B). Flexibility is needed to ensure our ability to immediately address any identified operational modifications to ensure the provision of the highest quality services to Missourians and will be used when needed to align appropriation authority with planned spending based on funds availability for pass-through programs.

Also included for the Wood Energy Tax Credit Program (430046B) is 3% flexibility from 6.345 to 6.405 (General Revenue) related to the Legal Expense Fund.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Flexibility was not used in FY 2024.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY 2024.	Flexibility will allow the department to align appropriation authority with planned spending during the fiscal year based on funds availability and will help ensure effective, responsive service delivery by Energy Operations team members.

**2. CORE DESCRIPTION**

The FY 2026 Budget Request includes voluntary core reductions of \$10,384,442 pass-through (federal and other funds).

The Division of Energy advances the efficient use of diverse energy resources to improve the affordability and reliability of energy services, achieve greater energy security for future generations, and balance a healthy environment with a healthy economy. Through the energy efficiency loans, grants, and services programs, the division helps to ensure energy resilience and affordability for communities and residents by supporting local energy efficiency and renewable energy projects.

The Division's Energy Loan Program, a revolving loan fund capitalized through Petroleum Violation Escrow (PVE) funds, partners with DNR environmental programs and other governmental entities to achieve greater environmental quality and improve affordability and reliability through energy improvements. Staff also provide technical and financial assistance to state and local governments, school districts, businesses, industries, and citizens for energy improvements.

**CORE DECISION ITEM**

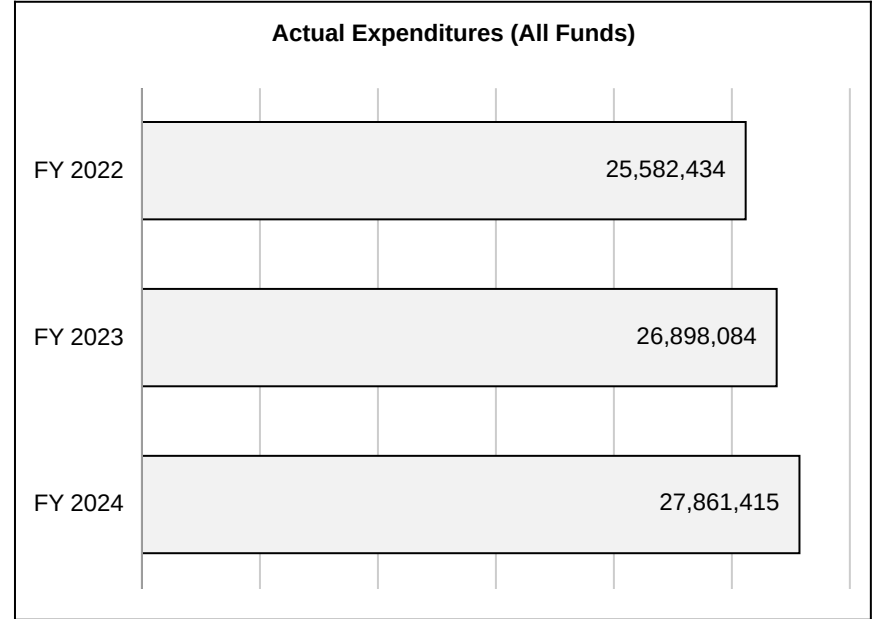

**Natural Resources  
Division of Energy  
CORE - Energy Efficient Services PSD**

**Budget Unit 430045B**

**Bill Section 06.340**

**NOTES:**

In many cases, pass-through appropriation has been provided for encumbrance and payment of our commitments which often span multiple fiscal years causing high unexpended balances. Beginning in FY 2014, appropriations were provided for encumbrance purposes separate from expenditures. Both types of appropriations are included in the data above, therefore high unexpended balances will continue to be reflected. The FY 2025 PSD (expenditure only) appropriations are Energy Efficient Services \$102,754,173 and Low Income Weatherization Assistance \$20,332,635.

Also included is appropriation authority of \$18,000,000 to be used for encumbrance purposes only, which must lapse.

**2. CORE DESCRIPTION**

The General Assembly created the Municipal Utility Emergency Loan Program (MUELP) in House Bill 15 (2021) to provide \$50 million in zero-interest loans to natural gas and electricity municipal utilities and municipal utilities' commissions for increased costs incurred due to the February 2021 extreme winter weather event. The Division of Energy began accepting applications on June 2, 2021, and as of June 30, 2022, had loaned (expended) approximately \$43 million.

Loans are to be repaid within 5 years; repayments are deposited into the Utility Revolving Fund. This appropriation allows transfer of the repayments from the Utility Revolving Fund into the General Revenue Fund.

Restricted includes any Governor's Expenditure Restrictions which remained at the end of the fiscal year (when applicable).

**CORE DECISION ITEM**

**Natural Resources  
Division of Energy  
CORE - Appropriated Tax Credits**

**Budget Unit 430046B**

**Bill Section 06.345**

**NOTES:**

Appropriation for the Wood Energy Tax Credit increased from \$740,000 to \$1,500,000 in FY2022, and increased to \$3,000,000 core beginning in FY 2023. Statutory authority for the authorization of credits lapsed on June 30, 2020, and was reinstated and extended to June 30, 2028.

The Wood Energy Tax Credit sunset in FY 2023, and was extended by HB 3 in the First Extraordinary Session of 2022. FY 2023 appropriation language did not allow for tax credits to be issued in FY 2023. A FY 2023 Supplemental Bill passed, with language allowing expenditure for the tax credits, tied to an additional \$3,000,000, for a total of \$6,000,000 appropriated. To prevent exceeding \$3,000,000 allowed for the credit, the department placed \$3,000,000 of the appropriation in agency reserve, which therefore lapsed.

Expenditures from this appropriation include tax credits issued and redeemed during the fiscal year.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of \$350,000 one-time authority from the FY 2025 budget.

Missouri State Parks operates and/or maintains 93 state parks and historic sites plus the trails of Roger Pryor Pioneer Backcountry. The total acreage of the state parks and historic sites (approximately 162,000 acres) is less than one half of 1% of the total acres in Missouri. The mission of the division is to preserve and interpret the state's most outstanding natural features and cultural landmarks and to provide appropriate recreational opportunities in these areas. The program's pass-through authority is located in a separate core decision item form.

**CORE - Missouri State Parks Operations**

**Budget Unit 430048B**

**Bill Section 06.350**

**NOTES:**

Section 4. Financial History data includes Missouri State Parks pass-through appropriations. Beginning in FY 2025, pass-through appropriations are budgeted in Missouri State Parks PSD budget unit 430077B.

FY 2022 - FY 2024: In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances. Included in the data is also appropriation authority to encumber outdoor recreation grant commitments which must lapse (\$17.8 million in FY 2022, and \$27.4 million FY 2023 - FY 2024).

FY 2022 - FY 2024: Includes \$150,000 for Bruce R. Watkins Strategic Plan & Programming.

<b>BUDGET UNIT NUMBER:</b>	<b>430048B, 430050B, 430078B, 430051B</b>	<b>DEPARTMENT:</b>	<b>NATURAL RESOURCES</b>
<b>BUDGET UNIT NAME:</b>	<b>STATE PARKS OPERATIONS HISTORIC PRESERVATION</b>	<b>DIVISION:</b>	<b>MISSOURI STATE PARKS</b>
<b>APPROP. BILL SECTION(S):</b>	<b>6.350, 6.355, 6.360</b>		

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

Missouri State Parks requests an increase of 5% flexibility (to 10%) between funds (Federal and Other) for State Parks Operations (430048B) and 25% flexibility between funds (Federal and Other) for State Historic Preservation Operations (430050B). Included is 25% flexibility between funds (Federal and Other) for State Historic Preservation Grants (430078B). Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery and pass-through program requirements. Also included is 3% flexibility from the Historic Preservation Transfer in section 6.360 to 6.405 (General Revenue) related to the Legal Expense Fund.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$82,832 PS Fund to Fund (Other/Other)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Fund-to-fund flex was used to align operating appropriation authority to proper funding levels based on service delivery needs during the year.	Flexibility will allow the department to address unanticipated needs by aligning appropriation authority with necessary spending during the fiscal year based on funds availability to help ensure effective, responsive service delivery and pass-through program requirements.

Missouri State Parks  
Rock Island Trail - Fencing  
DI# NOP.43B.004**

**Budget Unit 430048B**

**Bill Section 6.350**

Rock Island Trail State Park is a 192 mile trail stretching the Missouri section of the former Chicago, Rock Island, and Pacific Railroad that runs from Pleasant Hill to Beaufort. The department acquired the Rock Island Trail State Park in 2021 pursuant to an interim trail use agreement with Missouri Central Railroad, a subsidiary of Ameren. The agreement was signed in accordance with the National Trails System Act (16 U.S.C. § 1247(d) and 49 C.F.R. § 1152.29), which established a process allowing for voluntary agreements between a railroad company and a trail agency to use an out-of-service corridor as a public outdoor recreational trail until a railroad might need the corridor again for rail service. This ongoing funding will ensure the department meets its statutory obligation to maintain boundary fencing and facilitate replacement of existing fencing with 4-point barbed wire agricultural fencing and cattle crossings to protect livestock and continue positive relations with neighboring landowners.

**Missouri Statutes:**

Section 253.175. Rock Island Railroad corridor, fencing to be maintained by division of state parks. —All fencing coinciding with the boundary between individual landowner property and the portion of the historic Missouri Rock Island Railroad corridor owned, leased, or operated by the division of state parks shall be maintained by the division of state parks within the department of natural resources, with funds expended from the state park earnings fund created under section 253.090 for such purposes, by either repairing and maintaining such fence by and with staff employed by the department or the service of volunteers authorized under section 253.067, by contracting with a third party, or by providing all necessary supplies and equipment needed to an individual landowner or landowners whose property coincides with the boundary of the corridor and who agree to perform the repair or maintenance with such supplies and equipment provided. Nothing in this section shall be construed to require any individual landowner or landowners to locate a fence on his or her own property. For purposes of this section, "fence" shall mean the same as described in section 272.020.

Section 272.020. Fencing requirements. — Any fence consisting of posts and wire or boards at least four feet high which is mutually agreed upon by adjoining landowners or decided upon by the associate circuit court of the county is a lawful fence. 2. All posts shall be set firmly in the ground not more than twelve feet apart with wire or boards securely fastened to such posts and placed at proper distances apart to resist horses, cattle and other similar livestock.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

**NEW DECISION ITEM**

**Department of Natural Resources**  
**Missouri State Parks**  
**Rock Island Trail - Fencing**  
**DI# NOP.43B.004**

**Budget Unit 430048B**

**Bill Section 6.350**

Approximately 100 miles of the total trail would require fencing; estimated to complete 15 miles per year at an approximate cost of \$36,000 per mile for a total average annual cost of \$540,000. Over the last 2 years, 6 miles of fencing has been installed using contracted labor for both installation and clearing (as needed). The expense per mile to install fencing depends upon the terrain of the land, causing the material and labor costs to vary. Going forward, Missouri State Parks anticipates using a combination of contracted and self-performed installation and clearing to meet the fencing needs of adjacent landowners.

Expenses	Average Cost	Description
Material Cost	\$8,750	Fencing materials include barb wire, t-posts, well pipe, sucker rod and gates.
Contracted labor for install and clearing	at \$5.15/ft	\$27,192
Contracted labor estimates have ranged between \$4/ft on easy terrain to \$6.30/ft terrain that is more difficult.		
Cost/Mile	\$35,942	
Cost for 15 miles	\$539,130	
Total Request:	\$540,000	

See Rock Island Trail State Park map after Section 5.

**Bill Section 6.350**

This one-time funding will replace Missouri State Parks Rangers' primary mobile and portable radios that are used to communicate with their dispatch centers (Missouri Highway Patrol) as well as other state and local law enforcement that utilize the Missouri Statewide Interoperability Network (MOSWIN). Current Motorola APX7500 vehicle radios and APX7000 portable hip radios were purchased in 2010. They are considered obsolete, have started to fail, and should all be upgraded at one time. Replacement radios and remote mounts interface seamlessly with rangers onboard digital vehicle repeater system (FutureCom DVR). The DVR extends the range of the portable radio and enhances officer safety tremendously, which is necessary for rural areas. The new radios have more power, and the vehicle units serve as repeaters to extend the range of portable units through relaying.

Section 253.065, RSMo. states "The commission shall grant him the same powers as other peace officers to maintain order, preserve the peace and make arrests for violations of law on all land under the jurisdiction and control of the director and on all state and county highways within the boundaries of state parks.

Per statute, rangers must be POST certified (Missouri Department of Public Safety's Peace Officer Standards and Training Program).

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? **2. CORE DESCRIPTION**

**CORE DECISION ITEM**

**Natural Resources**  
**Missouri State Parks**  
**CORE - Missouri State Parks PSD Core**

**Budget Unit 430077B**  
**Bill Section 06.350**

Core Reduction: The FY 2026 Governor's Recommendation includes a core reduction of \$150,000 GR for Bruce R. Watkins Strategic Plan and Programming.

The budget includes appropriation authority of \$27,400,000 to be used for encumbrance purposes only related to Outdoor Recreation Grants.

Missouri State Parks provides management and oversight of several pass-through programs:

**Bruce R. Watkins Center:** The department, through a contractual agreement, assists the Kansas City Board of Parks and Recreation Commissioners with the operation of the Bruce R. Watkins Cultural Heritage Center. The Center works to commemorate and interpret the African American diaspora, particularly in Missouri and Kansas City, through fostering educational and cultural programs regarding the past, present, and contemporary contributions of African Americans who served to shape the city and state's history and culture.

**Levy District Payments:** Missouri State Parks (MSP) owns land that is protected by levy districts. Payments made to the levy districts are for the cost to maintain the levy, in order to avoid flooding.

**Payment in Lieu of Taxes:** The department meets the intent of the State Constitution and uses Parks Sales Tax funds to make payments to counties in lieu of property taxes on lands acquired by the department after July 1, 1985.

**Gifts to State Parks:** Purchases can be made with funds MSP receives from donors, insurance settlements, court awards, and other sources that are usually directed toward the accomplishment of a specific purpose, for example, a memorial park bench.

**State Parks Resale:** MSP purchases items for resale to the public and to stock a central warehouse for sale to the individual parks and sites. Resale items include souvenirs and publications, and also includes visitor convenience and safety items sold at small park stores.

**CORE DECISION ITEM**

**Natural Resources**  
**Missouri State Parks**  
**CORE - Missouri State Parks PSD Core**

**Budget Unit 430077B**  
**Bill Section 06.350**

Concession Default: State park concession operations will be operated and managed by MSP should a concessionaire be unable to complete the period of their contract or if other emergency situations arise, such as not being able to award a contract or not having bidders for a contract. MSP will operate until a new concessionaire contract can be awarded or the division obtains additional appropriation authority to operate the concession on a permanent basis so customer service is uninterrupted.

State Park Grants: The division can receive federal grant awards to meet operational and resource needs of the state park system. MSP also has one state-sponsored bus grant program which increases opportunities to engage school children in the state's natural and cultural resources.

Federal Outdoor Recreation Grants: Depending upon the grant, the division can distribute federal matching grants to cities, counties, school districts, and nonprofit organizations to develop parks and trails.

The Land and Water Conservation Program offers funding for the acquisition and development of public outdoor recreation areas and facilities.

The Outdoor Recreation Legacy Partnership Program seeks to provide new or significantly improved recreation opportunities in economically disadvantaged communities.

The Recreational Trails Program provides funding to develop and maintain recreational trails and trail-related facilities for both non-motorized and motorized recreational trail uses.

**NOTES:**

FY 2022 - FY 2024 Section 4. Financial History data can be found in the Missouri State Parks Operating budget unit 430048B (where pass-through appropriations were budgeted prior to FY 2025).

FY 2025: In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances. Included in the data is appropriation authority to encumber outdoor recreation grant commitments which must lapse (\$27.4 million). Also, included is \$150,000 for Bruce R. Watkins Strategic Plan & Programming.

**2. CORE DESCRIPTION**

Core Reduction: The FY 2026 Budget Request includes a core reduction of \$625,000 in one-time Parks Sales Tax Fund pass-through authority from the FY 2025 budget. These one-time projects have been reappropriated to the capital improvements AB17 Re-appropriation bill in FY 2026. This will allow the completion of the projects appropriated by the General Assembly.

This core includes two projects (HB 6.352):

- Annie and Abel Van Meter State Park \$500,000 - Construction of a single lane standard dump station (could require an upgrade to existing sanitary system). This is to stop the dumping of RV septic tanks outside the park.
- Roaring River State Park \$125,000 - Construction of a public restroom near the fish cleaning station where there is currently no restroom.

**2. CORE DESCRIPTION**

The State Historic Preservation Office (SHPO) works with citizens and groups throughout the state to identify, evaluate, and protect Missouri's diverse range of historic, architectural, and archaeological resources. The SHPO coordinates nominations to the National Register of Historic Places, conducts Section 106 reviews (under Section 106 of the National Historic Preservation Act, SHPO must participate in the review of all federal agency actions when federal funding, permitting, or licensing is involved), reviews rehabilitation projects for state and federal income tax credits, and responds to archaeological issues such as unmarked human burials. The program's pass-through authority is located in a separate core decision item form.

**Natural Resources**  
**Missouri State Parks**  
**CORE - State Historic Preservation Operations**

**Budget Unit 430050B**

**Bill Section 06.355**

**NOTES:**

Section 4. Financial History data includes State Historic Preservation pass-through appropriations. Beginning in FY 2025, pass-through appropriations are budgeted in Historic Preservation Grants PSD budget unit 430078B. In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances.

**2. CORE DESCRIPTION**

The State Historic Preservation Office (SHPO) provides management and oversight of the Historic Preservation Grants pass-through program. Historic Preservation Grants provides authority to distribute funds for historic preservation grants and contracts. These funds are part of the department's grant from the federal Historic Preservation Fund and are used to support preservation activities in Missouri. This appropriation also provides authority to distribute Historic Preservation Revolving funds.

**NOTES:**

FY 2022 - FY 2024 Section 4. Financial History data can be found in the State Historic Preservation Operating budget unit 430050B (where pass-through appropriations were budgeted prior to FY 2025). In many cases, pass-through appropriation has been provided to allow for encumbrance and payment of our commitments, which often span multiple fiscal years, causing high unexpended balances.

**2. CORE DESCRIPTION**

Per Section 143.183, RSMo, beginning in Fiscal Year 2000 and each subsequent fiscal year for a period of 31 years, 10% of the annual estimate of taxes generated from the nonresident entertainer and professional athletic team income tax shall be allocated annually and transferred to the Historic Preservation Revolving Fund. The funding can then be used as federal match.

The Missouri State Parks, State Historic Preservation Office administers the Historic Preservation Revolving Fund which provides financial assistance through planning and construction grants.

**3. PROGRAM LISTING (list programs included in this core funding)**

Not applicable. This core decision item is a transfer of funds to the Historic Preservation Revolving Fund. This transfer provides funding for activities included in the State Historic Preservation Operations and Grants PSD Cores.

**FLEXIBILITY REQUEST FORM**

<b>BUDGET UNIT NUMBER:</b>	430052B, 430055B, 430057B, 430058B, 430059B, 430060B, 430065B	<b>DEPARTMENT:</b>	NATURAL RESOURCES
<b>BUDGET UNIT NAME:</b>	VARIOUS AGENCY-WIDE	<b>DIVISION:</b>	AGENCY-WIDE
<b>APPROP. BILL SECTION(S):</b>	6.365, 6.375, 6.380, 6.385, 6.405		

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The department requests retention of 25% flexibility between funds (Other) for Environmental Restoration (430052B), 75% flexibility between funds (Federal and Other) for Refunds (430055B), 75% flexibility between funds (Other) for Sales Tax Reimbursement to GR (430057B), 5% flexibility between funds (Other) for the DNR and ITSD Cost Allocation Fund Transfers (430058B and 430060B) and 25% flexibility between funds (Other) for the HB 13 Cost Allocation Fund Transfer (430059B). The department requests retention of 5% flexibility between the DNR Cost Allocation transfer, HB 13 Cost Allocation transfer, and OA ITSD Cost Allocation transfer. Flexibility will allow appropriation authority alignment by fund source based on receipt of funds for refunds and reimbursements of sales tax to General Revenue. Flexibility for Cost Allocation transfers will allow adjustments, if needed, for responsive service delivery. Also included is 3% flexibility from various sections to 6.405 (General Revenue) related to the Legal Expense Fund.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$4,000 Fund to Fund (Other/Other)	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Fund-to-fund flex was used to process refunds.	Flexibility may be used to align the budget by fund source for proper use of revenues/receipts and/or based on funds availability for responsive service delivery.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Pay Plan

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

**NEW DECISION ITEM**

**RANK: OF 1**

**Budget Unit Various**

**Bill Section Various**

**Pay Plan**  
**DI# SWO.GV.002**

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment. This also includes a one percent cost of living adjustment for Department of Social Services Children's Division.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The appropriated amounts for the Fiscal Year 2026 pay plan are based on current time of state service for all full-time employees.

**5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

**2. CORE DESCRIPTION**

As the designated trustee for natural resources for the State of Missouri for purposes of state and federal law, the department assesses injuries to natural resources resulting from the release of hazardous substances or pollutants to the environment. Where appropriate, the department recovers damages from parties who cause natural resource injuries. Such damages may include the cost of restoring the natural resources or the cost of the lost use of the resources. Additionally, the department may recover reasonable costs incurred in assessing injuries. Damages recovered are then available to restore or replace the injured resources, as well as for future assessment, restoration, or rehabilitation of injured natural resources and related costs.

Recovered monies fund "on-the-ground" long-term restoration projects to benefit aquatic and terrestrial habitat, groundwater, and surface waters. The department and, where federal law applies, the federal trustees issue Requests for Proposals (RFPs) for restoration, award project funds, and implement natural resource habitat restoration projects statewide. Restoration projects to restore areas impacted by mining are ongoing in Southwest Missouri and in the Big River and Viburnum Trend areas of the Southeast Missouri Lead Mining District. The department is currently funding groundwater restoration projects in the Kansas City and Springfield areas.

**CORE - Environmental Restoration**

**Budget Unit 430052B**

**Bill Section 06.365**

**NOTES:**

In recent years, the department focused staff time on developing and implementing on-the-ground restoration projects to benefit local communities and the environment. Appropriations are set to allow for expenditures that will occur under the restoration plans for projects in current and future fiscal years. Higher appropriation amounts allow the department to encumber and pay restoration commitments, which often span multiple fiscal years and can result in unexpended appropriation balances. Significant spending of restoration funds began in FY 2024 and will continue into future fiscal years.

**2. CORE DESCRIPTION**

This cost share proposal uses the department's federal indirect cost rate to allocate administrative costs to dedicated funding sources. The indirect cost rate is an established rate approved by our federal cognizant agency, the Environmental Protection Agency, and is used consistently throughout the department. Each dedicated fund's share is based upon its proportionate percentage of personal services, fringe benefits, and expense and equipment appropriations.

**3. PROGRAM LISTING (list programs included in this core funding)**

Not applicable - This core decision item represents appropriated transfers from the department's dedicated funds to the DNR Cost Allocation Fund. These transfers provide funding for the department's appropriations from DNR Cost Allocation Fund. The specific DNR Cost Allocation Fund appropriations/activities are included in other core budget decision items.

**2. CORE DESCRIPTION**

Through a transfer to the Cost Allocation Fund, dedicated funds within the department share in the cost of the Office of Administration Information Technology Services Division - DNR (OA ITSD - DNR).

**3. PROGRAM LISTING (list programs included in this core funding)**

Not applicable - This core decision item represents appropriated transfers from the department's dedicated funds to the DNR Cost Allocation Fund. These transfers provide funding for the department's appropriations from DNR Cost Allocation Fund. The specific DNR Cost Allocation Fund appropriations/activities are included in OA ITSD - DNR (HB 5) budget decision items.

**2. CORE DESCRIPTION**

The Environmental Improvement and Energy Resources Authority (EIERA) provides financing, research, and technical assistance for environmental and energy related projects. Section 260.010, RSMo, created and established the EIERA as a governmental instrumentality of the State of Missouri, functioning as a body corporate and politic. A five-member board appointed by the Governor directly oversees the activities of the Authority.

**2. CORE DESCRIPTION**

Missourians who store/sell petroleum are required to have a financial responsibility mechanism to pay for costs of cleanup and third party damages if the tank or piping leaks. Private insurance is unavailable or prohibitively expensive for many small businesses that own tanks. The Petroleum Storage Tank Insurance Fund (PSTIF) provides an economical way for tank owners/operators to comply with this requirement. In addition, thousands of tank sites in the state were contaminated with petroleum before environmental laws were enacted and are not economically viable due to environmental liability. The PSTIF also pays for cleanup of these sites, subject to statutory criteria, which stimulates redevelopment of these properties. The PSTIF is funded by a fee on all petroleum coming into the state and nominal fees paid by insured tank owners. It is managed by an 11-member Board of Trustees who has made preventing leaks a priority; loss ratios demonstrate the success of the Board's loss prevention efforts. This core funds all of the Board's staff and operating expenses including receipt/review of applications, deposit of participation fees, issuance of coverage documents, inspections, annual compliance reviews, loss prevention activities, accounting and annual audit, actuarial analyses and cash flow projections, data management, and coordination with other state agencies.

<b>BUDGET UNIT NUMBER:</b> 430063B	<b>DEPARTMENT:</b> NATURAL RESOURCES
<b>BUDGET UNIT NAME:</b> AGENCY-WIDE TANK BOARD	
<b>HOUSE BILL SECTION(S):</b> 6.400	<b>DIVISION:</b> PETROLEUM STORAGE TANK INS FUND BOARD

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

**GOVERNOR'S RECOMMENDATION**

The Board requests retention of 5% flexibility between Personal Service (PS) and Expense and Equipment (E&E) for the Petroleum Storage Tank Insurance Fund (0585). Flexibility will allow the Board to address unanticipated needs by aligning appropriation authority with planned spending during the fiscal year to help ensure effective, responsive service delivery by the Board.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
Flexibility was not used in FY 2024.	Flexibility usage is difficult to estimate at this time.	Flexibility usage is difficult to estimate at this time.

**3. Please explain how flexibility was used in the prior and/or current years.**

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
Flexibility was not used in FY 2024.	Flexibility will allow the Board to address unanticipated needs by aligning appropriation authority with planned spending during the fiscal year to help ensure effective, responsive service delivery by the Board.

**2. CORE DESCRIPTION**

Missourians who store/sell petroleum are required to have a financial responsibility mechanism to pay for costs of cleanup and third-party damages if the tank or piping leaks. Private insurance is unavailable or prohibitively expensive for many small businesses that own tanks. The Petroleum Storage Tank Insurance Fund (PSTIF) provides an economical way for tank owners/operators to comply with this requirement. In addition, thousands of tank sites in the state were contaminated with petroleum before environmental laws were enacted and are not economically viable due to environmental liability. The PSTIF also pays for cleanup of these sites, subject to statutory criteria, which stimulates redevelopment of these properties. The PSTIF is funded by a fee on all petroleum coming into the state and is managed by an 11- member Board of Trustees. It has a 12/31/2030 "sunset date".

This appropriation authorizes investigation, adjudication, and payment of claims. In addition, it authorizes refund of premiums when necessary.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Program Expansion

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This NDI is for an increase in the appropriation used to refund participation fees. Refunds occur primarily when an application to participate in the fund is not accepted, and in instances where a pro-rated refund is due because the participation agreement is canceled prior to the expiration date.

If the appropriation is not increased, the Board may not be able to issue all refunds in the fiscal year they occur.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were**

appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This is the first request for an increase in this appropriation since the creation of the PSTIF.

The PSTIF refund expenditures have come very near the full appropriation each of the last three years. The current appropriation is \$70,000. Expenditures for the last three years have been: FY2022-\$69,919.60; FY2023-\$69,937.34; and FY2024-\$69,944.22.
