

Single Feasible Source Purchase

Title: Maintenance and Technical Support for the Improvement Monitoring Accountability and Compliance System (IMACS).

Description: The Missouri Department of Elementary and Secondary Education (DESE) acquired an Improvement Monitoring Accountability and Compliance System (IMACS) from Leader Services in 2006. The system requires ongoing maintenance and technical support specific to the system. It is not financially feasible to replace the existing system in lieu of maintaining the existing customized system. The software is proprietary to Leader Services, thus Leader Services is the only source for ongoing maintenance and support. As a result, this represents a proprietary requirement that meets the criteria of a single feasible source under RSMo 34.044 and the State is pursuing this acquisition as a Single Feasible Source.
