January 26, 2016 through End of Model Year	01/26/16	Initial issuance of new statewide contract.

LIGHT DUTY TRUCKS – 2016 MODEL YEAR
(Statewide)

GENERAL INFORMATION

SAM 2 User Note: The state agency user will note that not all line item numbers on this notice and on SAM 2 are consecutively numbered. This is because the numbering herein follows the numbering from the RFP, which will also be the numbering the contractor will use for invoicing. For reasons of consistency between the RFP document and the contract, the line items herein follow the RFP even though they are not consecutive. SAM 2 line item numbering should match numbering on this statewide notice.

Vehicle specifications and prices, including options, are included herein.

ORDERING

Note to State Agencies: Prior to making a vehicle purchase, the state agency must complete a vehicle pre-approval form and submit to Cindy Dixon, State Fleet Manager. The pre-approval form can be found at the following website address:

<http://oa.mo.gov/general-services/state-fleet-management/vehicle-preapproval-process-and-vehicle-credits>

Once the state agency receives approval from the State Fleet Manager, the agency shall issue its own PGQ (Quick Price Agreement) order. The contractor must not ship until they are in receipt of a hard copy PGQ order.

SPECIFIC CONTRACTUAL AND PERFORMANCE REQUIREMENTS OF THE CONTRACTORS:

General:

The contractor shall provide model year 2016 fleet light duty trucks with all manufacturer standard equipment and any additional equipment required by the State of Missouri on an as needed, if needed basis. The base price on contract shall include all mandatory requirements and specifications presented herein.

All items of standard equipment which are normally provided with each vehicle by the manufacturer shall be furnished unless such items are expressly deleted or are specified to be other than standard.

All options and/or accessories stated herein must be manufacturer's original equipment. Aftermarket options and/or accessories shall not be acceptable.

As applicable, all options must be factory installed.

Each vehicle shall be clean, lubricated, serviced and ready for immediate service. This shall include installation of all required options and accessories and removal of all plastic from interior and exterior of the vehicle.

Warranty:

The Standard Factory Warranty shall apply to all vehicles. A properly executed warranty must be delivered with the vehicle. The warranty shall not become effective until the unit is placed in service.

LIGHT DUTY TRUCKS – 2016 MODEL YEAR
(Statewide)

Order Documentation Requirement:

At no cost to the State of Missouri, and upon request of the state agency, the contractor must provide a copy of the order documentation submitted to the manufacturer when ordering each vehicle.

Delivery:

Delivery must be made between the hours of 8:00 a.m. and 12:00 noon or 1:00 p.m. and 4:00 p.m., Monday through Friday, holidays excepted.

The contractor shall notify the state agency a minimum of twenty-four (24) hours prior to delivery of the vehicle to the state agency location.

The contractor must understand and plan accordingly that upon delivery the state agency representative must verify the vehicle delivered has all required equipment and options and that nothing was damaged during the delivery of the vehicle. If something is damaged during delivery of the vehicle the contractor shall be responsible for all costs associated with the repair of any such damage.

Each vehicle shall be delivered with the proper form to apply for Missouri title and license including the Manufacturer's Statement of Origin and invoice.

Each vehicle shall be delivered with the owner's manual.

The contractor shall comply with the manufacturer's recommended pre-delivery service.

In the event the contractor fails to deliver the vehicle by the stated ARO time, the State of Missouri reserves the right to find the same or similar vehicle from another source, and to charge the contractor the difference for the substitution. In assessing the applicability of this provision, the State of Missouri will consider the degree of contractor responsibility in the delay.

Potential Recall or Manufacturer Initiated Customer Service Action/Notification Requirement:

The contractor shall be responsible for accessing potential recall notices from the National Highway Traffic Safety Administration (NHTSA), as well as any manufacturer initiated customer service actions prior to delivering the vehicles to the state agency location. If a recall or customer service action is found for the vehicle being delivered to the state agency, the contractor should, to the best of their ability, complete the necessary action(s) prior to delivery. If the contractor is unable to address the required recall or customer service action(s) prior to delivery, the contractor must inform the state agency of the "open" recall or customer service action upon delivery. The contractor shall then assist the state agency in getting the recall or customer service action(s) completed as quickly as possible.

LIGHT DUTY TRUCKS – 2016 MODEL YEAR
(Statewide)

Substitutions:

The contractor shall not substitute any item(s) that has been awarded to the contractor without the prior written approval of the Division of Purchasing.

In the event an item becomes unavailable, the contractor shall be responsible for providing a suitable substitute item. The contractor's failure to provide an acceptable substitute may result in cancellation or termination of the contract.

Any item substitution must be a replacement of the contracted item with a product of equal or better capabilities and quality, and with equal or lower pricing. The contractor shall understand that the state reserves the right to allow the substitution of any new or different product/system offered by the contractor. The Division of Purchasing shall be the final authority as to acceptability of any proposed substitution.

Any item substitution shall require a formal contract amendment authorized by the Division of Purchasing prior to the state acquiring the substitute item under the contract.

The state may choose not to compel an item substitution in the event requiring a substitution would be deemed unreasonable in the sole opinion of the State of Missouri. The contractor shall not be relieved of substituting a product in the event of manufacturer discontinuation or other reason simply for reasons of unprofitability to the contractor.

Replacement of Damaged Product:

The contractor shall be responsible for replacing any item received in damaged condition at no cost to the State of Missouri. This includes all shipping costs for returning non-functional items to the contractor for replacement.

NOTE: IF ANY OF THE ABOVE PERFORMANCE REQUIRMENTS ARE NOT MET AND/OR VEHICLE DELIVERED DOES NOT HAVE ALL NECESSARY EQUIPMENT, PLEASE CONTACT TERI SCHULTE AT (573) 522-3296 OR teri.schulte@oa.mo.gov.
