

Single Feasible Source Purchase

Title: The Health Professional Opportunity Grant (HPOG)

Description: The Missouri Department of Social Services (DSS), Family Support Division (FSD) desires to contract with the Missouri Hospital Association (MHA) for the purchase of services to match Temporary Assistance for Needy Families (TANF) recipients and other low-income individuals under 200% of the Federal poverty level with education and training to prepare such individuals to enter into and advance themselves in the healthcare sector. MHA will be required to provide an onsite Site Grant Manager to work with DSS and will be required to work with Work Force Development Boards (WBDs) to bring together focus groups of hospitals, employers, and community colleges to ensure the best career pathways and trainings where participants can receive stackable credentials and earn a livable wage.

The MHA is considered a single feasible source for this procurement because the MHA is the only vendor within Missouri with the number of linkages and direct reoccurring communications with hospitals to meet the needs of the DSS, FSD and the requirements of the Health Professional Opportunity Grant (HPOG).
