SURPLUS
SUCCESS

*"One of my coworkers called me one day to tell me about this (slope) mower available at Surplus. We have always wanted one, especially with all the mowing that we do in the capital city (Jefferson City). By being able to use this mower in these (high incline grade) locations we were able to reduce the incarcerated crew by half. Using a machine over hand work is safer. This saves time and money for the tax payers of Missouri. MoDOT has some of these mowers in other parts of the State, which has really cut down the mowing time. The places this mower can go, and the slopes it can safely navigate is unreal."
~MoDOT Maintenance Supervisor Kyle Fischer*
